RESOLUTION ON THE GENERAL ADMINISTRATION REPORT OF THE COMMISSIONER OF THE BHAGULPORE DIVISION AND SONTHAL PERGUNNAHS FOR THE YEAR 1882-83.

GENERAL DEPARTMENT,—MISCELLANEOUS.

Calcutta, the 29th September 1883.

RESOLUTION.

READ—

The General Report of the Commissioner of the Bhagulpore Division and Sonthal Pergunnahs for the year 1882-83.

For the first half of the year Mr. Metcalfe officiated as Commissioner of the Division. Mr. Barlow, by whom the report is submitted, resumed charge on the 1st November.

2. *Tours.*—Messrs. Metcalfe and Barlow spent between them 106 days in the interior of the division, and the example thus set was on the whole well followed by their subordinates. The Collector of Bhagulpore, however, made a tour short by six days of the minimum required by the Government, and the Collector of Monghyr only just came up to the prescribed standard. The Commissioner notices that both these districts were imperfectly inspected. It must be borne in mind that it is the duty of all district officers thoroughly to inspect their charges, whatever number of days may be required for the purpose, and that any officer who does not do this fails in his duty, even though the actual number of days spent away from head-quarters may exceed the low standard enjoined by the Government. The completeness of the tours made by the Collectors of Purneah, Maldah and the Sonthal Pergunnahs

is noticed by the Commissioner. The tours of the Sub-Divisional Officers, especially of those of the Sonthal Pergunnahs, were very full. As an example of good, useful work done, the following extract from the report of the Joint-Magistrate of Deoghur is cited:—

"An important feature of my tour was the attention given to the improvement of the estates under the charge of the Court of Wards. Mr. Oldham had been able to promise funds, and I had to arrange for their expenditure. During the year some improvements were carried out, and others were planned and are now being made. A new plough—the *Kaisar* plough—was introduced. A depôt for the sale of the Behcea sugarcane mills was established at the cutcherry, and 90 of them were sold. Higher primary schools were arranged for at Madhupur and Sarawan. At Madhupur the help promised by the Court of Wards has called forth a hearty response from the residents, and I hope the nucleus of a much-needed school has been formed. I also established a fresh *hát* at Burai, which has supplied a great want."

3. *Weather and crops.*—In every district of the division the rainfall was below that of previous years, but owing to its seasonable distribution, the crops suffered less from drought than might have been expected. The rice crop was generally rather below the average, but a heavy fall of rain in the cold weather benefited the *rubbee* crops. The absence of the usual inundations by the rivers in Purneah and Maldah was injurious to the rice of those districts, but was very favourable to indigo and jute; so much so, that planters are said to have become almost tired of cutting the former, while the latter became so cheap that cultivators being unable to realize any profit in some cases refused to strip the fibre from the stalks. In the western portions of the Sonthal Pergunnahs the season was normal, while in the centre of the same district the prevailing system of dam irrigation prevented loss from the unequal rainfall. In the east of the pergunnahs the crops were good. Generally speaking the yield of *bhadoi* was about ten annas in Monghyr, Bhagulpore and Purneah, and higher in Maldah and the Sonthal Pergunnahs; while the *aghani* varied from eight annas in Bhagulpore to twelve annas in Maldah. The *rubbee* crop was fair everywhere, except in the Bhagulpore district.

4. *Public health.*—The year generally was unhealthy. The only district which escaped an epidemic of fever was Bhagulpore, while the disease was particularly prevalent and very fatal in Purneah and Maldah. In the former of these districts the recorded mortality, presumably from fever alone, amounted to 23·32 per mille of the population. The Commissioner fears that a wave of fever is passing over the Sonthal Pergunnahs, and states that the Pakaur sub-division has been steadily becoming more unhealthy since 1879. The districts of Purneah, Maldah, and the Sonthal Pergunnahs were for the most part free from epidemic cholera, but Monghyr and Bhagulpore suffered severely. In the Monghyr thannas of Gogri, Beguserai, Kharakpur, and Tegra, the mortality which began to increase in March reached its climax in June. Subsequently the disease abated, but the total reported number of deaths was 5,347. In Bhagulpore 4,143 deaths were reported, the mortality being greatest in April. The division was free from small-pox and is now beginning to be fairly protected by vaccination, which, notwithstanding occasional opposition, is making progress.

5. *Material condition of the people.*—The comparatively inferior crops of the year are believed in the Bhagulpore district, at all events, to have checked improvement in the condition of the agricultural classes, though the higher prices which food-crops realized probably prevented any deterioration. The demand for labour was generally plentiful, and the condition of the labouring classes consequently satisfactory. The following account of the progress made in recent years in the Sonthal Pergunnahs is reproduced from the Deputy Commissioner's report.

"In my tours in the year, I observed everywhere the same signs of material improvement and of its maintenance among all classes of the people, with the sole exception of the fast-decaying Mal Paharia race, which I have commented on in previous reports. Two local and special causes have resulted in very observable material improvement. One is the forest conservancy, as pursued both by Government and by private proprietors, and its effects are most noticeable among the Sonthals. When wood was everywhere free to them, they were content to live in wretched wattle shanties, which could be repaired by thrusting in a few leafy boughs. The pig-stye was often the most permanent and carefully constructed erection in a Sonthal homestead. Such dwellings are being replaced by permanent and comfortable mud buildings. The Sonthals delight in finishing these carefully and neatly, in keeping them thoroughly well plastered and often decorated with colours, and the whole standard of

the homestead seems to be raised to be in keeping. For instance, however prosperous the householder, as long as he occupied a shanty, he and his womenkind were dressed in rags. They were well fed and looked strong and healthy, but were entirely careless of appearances. With a decent dwelling they adopt more decent dress.

"Another sign is the number of Sonthal plantations, not only of fruit-trees, but of acacia for fodder, fuel, and implements, round the borders of their homestead lands. * * * * * *

"The other local cause is the partial settlement of the Malers of the Rajmehal hills. The majority of this race occupy the hills rent-free, and free from any sort of assessment under the orders of Government in 1823. Since 1867-68 some 300 villages have come under assessment from causes which have been explained elsewhere. The beginning was made by their residents asking for a settlement. I recently visited many of these villages, and the contrast in their excellent material condition, between them and those which are still unassessed and unsettled, excited the spontaneous comments of the European gentlemen who were with me. The inhabitants of a settled area cease to be nomads in the hills, and while maintaining their community system, also hold clearly defined individual rights."

Other evidence points to the same conclusion that an area of prosperity has been introduced into the Sonthal Pergunnahs by the land settlement which has been concluded there. A survey and a record of rights have secured to the cultivators security of tenure at fair rents; and the experience thus gained in one portion of the country affords earnest of what may be expected from the extension of similar security throughout the rest of the Province under the Rent Law, which will ensure fixity of tenure and freedom from exorbitant demands.

6. *Emigration.*—The only feature of note in the history of the year under this head is the large increase from 673 to 2,289 in the number of emigrants for the tea districts recruited in the Sonthal Pergunnahs. The increase is attributed to the extended operations of garden sirdars deputed by their employers on the tea estates in Assam to recruit labourers. The garden sirdar system appears to the Commissioner the most satisfactory system known under the Act. A certain number of free emigrants are believed to have left the district of Monghyr, and this has also been the case in the Sonthal Pergunnahs, where it is reported that complaints from officers, missionaries and others regarding the acts of recruiters have been frequent. It is satisfactory to learn, however, that misconduct has in many cases been punished. Similar reports from the Chota Nagpore Division have been recently received, and the whole subject of emigration conducted by local agents is receiving the Lieutenant-Governor's attention. Copies of all papers on the subject will be forwarded to the Commissioner of the Bhagulpore Division for his information, and for such necessary action as they may indicate.

The clearances effected by Sonthals in Maldah continue to make progress.

7. *Prices of food and labour.*—The deficient crops coupled, it may be presumed, with the fact that stores of grain had been exhausted in the preceding year, led to a general rise in the price of food. The prices of labour remained unchanged.

8. *Manufactures.*—Indigo, though somewhat declining in importance, is still the principal industry in the division. Except, however, as regards the Purneah district, where the crop, as already noticed, was exceptionally good, the year was unfavourable for the industry. In Monghyr the outturn was average only, in Bhagulpore it suffered from rain, and in Maldah from drought. The condition of the silk industry remains unchanged, and the demand is, as elsewhere, said to be diminishing. The manufacture of weapons in Monghyr has almost died out, but that of padlocks and punches is springing up. The brass and bell-metal ware of Nawabgunge, in the Maldah district, seems to be almost the only product of the division for which there is any active demand. The actual or threatened extinction of these, and so many similar industries in which India once excelled, is a matter for great regret; and though in many cases, no doubt, Indian articles have been driven out of the market in favour of cheaper and sometimes better articles from Europe, it cannot be denied that large classes of the people have suffered very severely from the decay of their hereditary occupations. It may fairly be hoped that the opportunities given to visitors from other countries of seeing the perfection to which Indian manufactures can be brought, may render the International Exhibition of the current year valuable as a means of reviving interest in Indian fabrics and Indian art. Unsuccessful negotiations were in progress during the year with regard to some of the mines

south of the Ganges in Bhagulpore and the Sonthal Pergunnahs, and steps were taken to establish a mining company at Deoghur, in which several persons of position have taken shares. The coal mines of the Sonthal Pergunnahs are at present unimportant. In Monghyr slate is quarried with success to meet a local demand, and the stone quarries of Rajmehal are said to be well worked by the Rajmehal Coal Company.

9. *Trade and Commerce.*—The trade of the division forms the subject of an interesting chapter of the report, from which the Lieutenant-Governor is able to form a conception not only of the commodities which the division imports and exports, but also of the trade routes and chief places of trade. From Mr. Barlow's remarks, however, on this occasion, it is not always possible to measure the extent of the year's transactions. No doubt the want of registering machinery is the main cause of this, but having now stated the products in which trade is carried on, and the channels through which it flows, the Commissioner should find less difficulty in future reports in stating whether trade in each commodity has been slack or brisk. From the report now under review, it appears that the principal exports were oilseeds, barley, grain, pulses, rice, wheat, tobacco, hides, and indigo from Monghyr, Bhagulpore, and Purneah. The special crops of the Maldah district were unremunerative, the great abundance of mulberry leaves having led to a fall in the price of silk, and a severe storm in the early part of the year having destroyed the mango blossoms and caused a failure of the crop. The principal import of the division is piece-goods from England, which are believed by the Commissioner to supply about 70 per cent. of the total demand in all districts. Liverpool salt is imported to a great extent. Much cotton is imported for the manufacture of country cloth, but the trade in raw cotton has diminished owing to the competition of English yarn.

The registration of Nepal traffic at the frontier station, though in consequence of the large number of trade routes between Nepal and British territory, it is by no means exhaustive, suffices to show the existence of a very extensive trade. The chief articles of import from Nepal—food-grains and oilseeds—have shown a decrease during the year under review. Among the exports to Nepal, a decrease has taken place under the heads of molasses, ginger, salt, spices, jute, gram, English yarn and piece-goods and medicines, while dhal and kalai, brass metal-ware, country cloths and English goods generally show a marked increase.

10. *State of public feeling.*—Public feeling, which was as usual confined to the upper classes, was exercised chiefly on the subjects of Local Self-Government, the Criminal Procedure Code Amendment Bill, and the Tenancy Bill. With regard to the first measure, the division seems to be at least apathetic, if not actively averse, to any alteration in existing arrangements. In the Sonthal Pergunnahs Mr. Oldham, the Deputy Commissioner, mentions that among the many persons to whom he has spoken, and who might be expected to interest themselves in the measure, one only—a gentleman who himself admits that in any local board constituted in his part of the country his influence must be supreme—has made any response. With regard to the Criminal Procedure Bill, the Commissioner observes that, like the Local Self-Government Bill, "it has only created interest among the Europeans and educated natives. As a matter of fact, the former, official and non-official, are to a man dead against the measure, and of the latter only the most advanced and English-speaking section for it." The Tenancy Bill has excited less interest among the tenants than might have been expected. "They are not," says Mr. Barlow, "aware of the provisions of the Bill and most of them do not even know that a change in the rent law is contemplated. In the Bhagulpore Division, as in other parts of the country, the knowledge which the illiterate classes possess of anything happening outside their own villages is limited in the extreme. In portions of Belrai a feeling seems to be getting abroad (how created it is impossible to say) that after all the Bill may not be passed; and this feeling is said to depress the interest which even literate ryots take in the matter. That there are no grounds for the feeling makes it none the less operative" The public press seems to be represented solely by the *Bhagulpore News*, to which the Commissioner gives a favourable character, while expressing his regret at the smallness of its circulation.

11. *Administrative changes.*—The reduction in the number of outstills noticed last year has produced satisfactory results, and is believed to have checked drunkenness. It has been followed by some decrease of revenue. An increase of revenue and a decline in consumption have followed the enhancement of the duty on ganja. The Commissioner reports very favourably regarding the reduction in the duty on salt, which is, he states, now 30 per cent. cheaper everywhere than was the case formerly. The remaining changes took place in the criminal administration. The new Criminal Procedure Code was introduced throughout the division, and a system of regular police was established in the Sonthal Pergunnahs. The former has shown itself to be a great administrative improvement, by setting at rest doubtful interpretations of the former law, and the latter would appear to have been urgently needed. The Commissioner remarks—"It was a well known fact that there was a mass of unreported crime" in the Sonthal Pergunnahs, "but none of us expected to find the new agency almost swamped at the outset by the flood of work, as they have been at least at Godda."

12. *Police and Crime.*—The number of cognizable cases reported (11,514), and the percentage of these returned as true (95·5), were practically the same as in the previous year; but it is satisfactory to learn that serious offences against property declined from 8,483 to 8,069. An improvement has also taken place in the ratio of convictions to arrests, which has risen from 65·3 to 66·1. The result is creditable to the police of the division as a whole, though the conduct of the Purneah Police is unfavourably mentioned, while that of the police of Bhagulpore was on one occasion at least far from satisfactory. The results of police investigations were worse in the Sonthal Pergunnahs than elsewhere, but it may be hoped that some improvement will be shown when the new police has become more acquainted with the district than is the case at present. The necessity for the change of system which has taken place is shown in the large increase in reported cases. The Deputy Commissioner observes that, while crime is scarce among the Sonthals proper, the Dosadh emigrants of the Deoghur sub-division are almost all thieves, and they are closely followed by the Mal Paharias of the plains. The number of non-cognizable cases instituted showed some decrease, but fewer successful prosecutions were instituted than in the previous year.

13. *Civil Justice.*—Taking the division as a whole, the civil litigation of the year was characterized by the same features as that of 1881, namely a slight increase in the number of suits, and a slight decline in the value of the property in dispute. Forty-one thousand nine hundred and seventy-one cases of the average value of Rs. 99 were instituted, against 40,199 of the average value of Rs. 104 in the previous year. The fluctuations in classes of suits in the several districts were unimportant, with the exception of a large increase from 1,149 to 2,166 in the number of rent suits instituted in Maldah, attributed somewhat vaguely by the Collector to "general causes which affect the country at large, and not to any strained relations between landlords and tenants" The Commissioner doubts whether these relations are satisfactory anywhere, and attributes to them the general increase in the number of rent suits. The existence of an unsatisfactory state of things between landlords and tenants is clearly indicated by the following remarks of the Munsif of Beguserai, quoted by the District Officer:—

"I am not in a position to state in detail the cases in which exactions of illegal cesses by zemindars come to light; but I can say for certain that the exaction of such cesses is very common among the zemindars and petty landholders of this sub-division. 'Road and Public Works cesses are generally levied at more than the legal rates, and *nea, haq, pasicari, kewali*, &c., not unfrequently occur as items of demand along with rent.' In addition to all these illegal cesses, village expenses is not an uncommon cess amongst all classes of zemindars. The condition of the ryots in those estates which are managed by the underlings of the landlords is of course very deplorable, and the system leads to all sorts of abuses, such as the withholding of *farkhatis* (clearance receipts), &c."

The proportion of suits withdrawn, compromised, confessed, or decided *ex parte*, to the total number instituted, was about 60 per cent. The question of the appointment of a Subordinate Judge for the Monghyr district, and of a Munsif at Supul, will be considered in the Judicial Department.

14. *Land and Land Revenue.*—The total land revenue demand, arrear and current, for the division, amounted to Rs. 33,46,880, of which Rs. 32,97,201

were collected and Rs. 4,986 remitted. Of the total balance, Rs. 49,605 are under the head of current, and Rs. 12,723 under that of arrear demand. This result is satisfactory, and the fact that in every district the collection exceeded the current demand is creditable to the officers concerned. Of the balance at the close of the year, the largest proportion was due from the Maldah district, and has since been realized. Some progress has been made in clearing off the arrears in the Sonthal Pergunnahs, and the change effected last year in the date of payment has produced good results everywhere, except in the Godda sub-division, regarding which a separate report should, if necessary, be made. The state of things in Rajmehal, where the *mahájuns* took advantage of the transfer of an experienced sub-divisional officer to make a practice of anticipating the Government demand by seizing ryots' fields and threshing-floors, indicates strongly the necessity for constant vigilance on the part of the local officers. The collections in the remaining Government estates, the current demand on which amounts to Rs. 91,619, were good, and considerable progress was made in clearing off arrears. Some advance was made in clearing the files of partition cases, of which only 150 cases remained pending at the close of the year, against 185 at the end of March 1882. On the whole, the relations between landlords and tenants are considered by the Commissioner to have been somewhat better than in the previous year, but there is still abundance of evidence in the report to show that the state of things is by no means what it should be.

15. *Road and Public Works Cesses.*—Of the arrear balance of Rs. 72,055 outstanding at the commencement of the year, nearly three-fourths were collected. The current demand amounted to Rs. 6,47,019, of which Rs. 6,14,692 were collected. The year thus closed in a slightly worse position than it began. The falling off was, however, apparent only, owing to the non-arrival of a remittance transfer receipt on account of the Durbhunga Raj payments till after the close of the year. Revaluations have been completed in the districts of Maldah, Bhagulpore, and Monghyr, and 20 estates were revalued in the Purneah district which had been erroneously valued owing to the inclusion of *abwabs* or *algis* in addition to the annual rental in the annual value of the estates or tenures. From the remarks on this head, which have been made by the Collector of Purneah, it is evident that the action of Government in foregoing any advantage from the levy by zemindars of illegal cesses has as yet suggested to the ryots as a body no idea of the illegality of those cesses. This affords another among the multitude of proofs which the country furnishes of the crying want of such a record of rights and rents as will limit the demands of zemindars and their representatives to what they have a legal right to recover.

16. *Excise.*—The following table extracted from the report shows the comparative revenue from excise sources of the division for the year under review and previous years:—

	Gross revenue.	Charges.	Net revenue.
	Rs.	Rs.	Rs.
Average of years from 1877-78 to 1881-82	10,01,049	37,929	9,63,120
1881-82	11,46,606	37,722	11,08,884
1882-83	11,21,749	37,552	10,84,197

The highest point reached by the revenue of the division was in the year 1880-81, since which a falling off has taken place amounting to Rs. 49,695 in 1881-82 and Rs. 74,551 in the year under review. The decrease has been general under all heads of revenue except imported wines and spirits, chandu and ganja, and has been especially marked in the case of country spirits, which have fallen off to a great extent in the Bhagulpore district, and in a less degree in Monghyr, Purneah, and Maldah. The decrease was in all cases due to large reductions in the number of spirit shops, and in Bhagulpore it is said that certain outstill shops on the borders of the Sonthal Pergunnahs were closed or removed to unprofitable localities. The Lieutenant-Governor is glad to learn that the reduction of shops has had a good effect on the habits of the people, but, when accounting for diminished drinking, it must be remembered that the year was one of less general prosperity than its immediate predecessors, and that the amount of money available among the poorer classes for the purchase of liquor was probably less also.

The revenue from ganja, which is, after country spirits, the principal source of excise income, rose to Rs. 3,50,194 against Rs. 3,37,548 in 1881-82, the average for the five years from 1877 to 1882 being Rs. 2,89,121, and it is gratifying to observe that the increase in revenue was accompanied by a considerable decline in consumption. A slight decline took place also in the consumption of opium. One important attempt to smuggle opium was detected during the year. The offenders were convicted.

17. *Stamps.*—The revenue from stamps of every kind, other than postage and telegraph labels, rose considerably during the year, thus—

	1881-82.	1882-83.
	Rs	Rs.
Judicial or court-fee stamps, and stamps for copies ...	6,43,632	6,59,653
Non-judicial stamps including (1) one-anna revenue stamps; (2) bills of exchange or *hundi* stamps; (3) impressed stamps; and (4) other non-judicial stamps	2,00,048	2,16,131

The increase in the sale of judicial stamps is in fact a natural consequence of the increase in the number of civil suits, and is in part due to the collection of road-cess process fees by court-fee stamps. A slight decline in the sale of *hundi* stamps in Purneah and Monghyr is attributed to the freer use now made of money-orders than formerly. With this exception, the increase has—leaving out of account a few minor fluctuations—been general, and is attributed to some particularly heavy loan transactions, to the more general use of receipt stamps, and to the issue of certificates to newly passed mukhtars and revenue agents. The Commissioner quotes some remarks by the Collector of Bhagulpore regarding the extent to which the use of receipt stamps is at present evaded. It is not possible for the Government to do much to check this evil, which will decrease of itself, as the consequences of breach of the law become better understood by the people at large. It is, however, important that judicial officers should direct their attention to the punishment of such omissions to stamp documents as come to their notice.

18. *License-tax.*—The total amount of assessment fell from Rs. 1,94,970 in 1881-82 to Rs. 1,83,700 in the year under review. A considerable portion of this sum appears to have been outstanding at the close of the year, but the balance on the 1st June amounted to Rs. 3,328 only. Remissions were made amounting in the aggregate to Rs. 11,494, and Rs. 7,350 were refunded. Nearly two-thirds of the balance were due from Monghyr, and the remainder from Bhagulpore and Maldah. The Commissioner attributes the tendency to decline in the assessment, which is becoming apparent rather to defective organization than to any decrease in the means of assessees. The establishments are, he considers, insufficient to find out new assessees, while some of the old ones always have to be let off. Mr. Barlow's remarks on this subject will be considered in the Financial Department.

19. *Monetary arrangements.*—Deducting the receipts from and issues to Government treasuries outside the division, the receipts and issues of notes amounted respectively to Rs. 44,46,610 and Rs. 13,43,965, against Rs. 33,83,245 and Rs. 12,82,890 in the previous year. The increase is attributed to increased facilities for the exchange of notes for cash, to the revival of trade, and to the payment of large sums in notes on account of sale proceeds of defaulting estates. The transactions would be larger than at present were it possible to cash notes always on demand, but the cost of remittance of cash is so heavy, that this cannot always be managed. The competition of postal savings banks has led to a decrease in the number of depositors in the Government institutions and in the amount deposited. Stock-notes have not so far proved a success. The Commissioner's remarks regarding the disposal of accumulations of pice in the Government treasuries of Purneah and the Southal Pergunnahs will be forwarded to the Comptroller-General.

20. *Communications and other public works.*—The only line of railway of importance in the division is the East Indian, of which the management, judging by the returns of serious accidents, would seem to be as satisfactory as in former years. Complaints are, however, frequently made of the unpunctuality of trains, and of delay in forwarding produce due to insufficiency of rolling-stock. The popularity of the line has been increased by a reduction in the price of third class tickets, the number of third class passengers booked in the division

having risen from 444,442 in 1881 to 507,171 in 1882 The new line from Baidyanath to Deoghur was opened during the year, and has already become popular. The bridge across the Dharna might, the Commissioner suggests, be utilized for the conveyance of foot and cart traffic, if the proprietors would agree. The Commissioner should mention in his next report the result of his negotiations to this end. The northern part of the division will, it is hoped, soon have railway communication with all parts of Northern Bengal; and arrangements are, it is understood, under consideration for the construction of a line from Bhagulpore to Bowsee by a private company. There are no large irrigation works in the division, and the details given in the report are unimportant. The several Road Cess Committees appear to be doing good work, though their exertions have been for the most part confined to the improvement of existing roads, the construction of bridges, and the completion of minor roads. The total funds, including balances from the previous year at the disposal of the Committee during the year ending on the 30th September 1882, amounted to Rs. 6,09,722, of which Rs. 5,62,332 were expended. In Bhagulpore, Monghyr and the Sonthal Pergunnahs, much progress, but in Purneah and Maldah, less appears to have been made in the direction of planting trees along roadsides. The matter is one of importance, and it seems probable that, if the attention of zemindars and other wealthy persons were properly directed to it, their co-operation might be secured, and would be of value both in planting new trees and in protecting those already planted from injury.

21. *Education.*—The total number of schools in the division has fallen from 7,757 to 7,620, the loss being almost confined to lower vernacular and indigenous schools, but it is probable that the decline is due rather to some alteration in the system of enumeration than to any retrogression in the matter of education, as the number of pupils has risen during the period under review from 89,403 to 89,628. It is to be regretted, however, that there has been a falling off of five in the already small number of girls' schools. It is hoped that a system of rewards for girl pupils attending the central examination recently introduced may to some extent counteract the apparent loss of interest in female education. The expenditure on education shows an increase of over Rs. 32,000, and it is gratifying to learn that half this sum has been subscribed from local sources. The number of Sonthals under instruction has risen from 6,444 to 6,839, and though the return shows a slight falling off in the numbers of Paharias attending school, the Deputy Commissioner of the Sonthal Pergunnahs observes that the number of pupils belonging to the primitive races, in which are included Sonthals, Hillmen, Kols, Moholis, and Dhangars have very greatly increased under the influence of a system of payment to the gurus for their pupils belonging to these races whereby the pupils themselves receive free education. The details of the system have been recently modified, but the principle is still observed, and is apparently justified for the present by the results. It is doubtful if its ultimate tendency can be good, and it should be very carefully watched with a view to its discontinuance as soon as the backward state of the district will allow. Experience has shown generally that people do not value, and hence do not profit by, a gratuitous system of education as much as by instruction for which they have to pay. The statistical results of the working of the Educational Department in the division throughout the year will be considered in connection with the report of the Director of Public Instruction.

21. *Committees.*—The Commissioner speaks favourably regarding the Road Cess and Municipal Committees of the division, the members of which seem generally to have shown much interest in their duties. The Monghyr Municipality was as well managed as usual, and the improvement which took place last year in the management of the Bhagulpore Municipality was maintained in the period under review. The inauguration of the project for the supply of good drinking water will effect a great and much-needed improvement. Considering the smallness of its income, the Purneah Municipality did as well as could be expected.

The Education Committees generally are reported to have shown little interest in their work—a state of things put down as a rule to the

absence of any real executive functions for the Committees to exercise. The good work done by the Committee in the Sonthal Pergunnahs would, however, seem to show that this cause is not the only one for the apathy of Educational Committees. Regarding it the Deputy Commissioner writes:—

"I cannot speak in sufficiently high terms of the working members of the District Education Committee. All are officials, and each one has practical knowledge of the district and its requirements, and the business to be dealt with, besides holding strong and clear opinion of his own. There is frequently much difference of opinion, but I have never known a majority to make any serious mistake; and so entirely do I rely on the wisdom and experience of this Committee, that I never carry out the smallest measure connected with primary education or with the zillah school without consulting them."

22. *Kishengunge Exhibition and Fair.*—A very creditable effort made by Mr. Weekes, the district officer of Purneah, to get up an exhibition and fair at Kishengunge, met with considerable success. In future years it will probably be possible to rely less for success on shows and amusements, and more on the more solid advantages of the fair.

23. *Wards.*—The number of estates under the management of the Court of Wards at the commencement of the year was 14, and one new estate was brought under management before its close. No estates were released. The new estate, that of Srinagar in the Purneah district, has a rent-roll of about Rs. 2,75,000, and pays a revenue to the Government of about Rs. 60,000. The proprietors own one-half of the ancestral property of the family of Raja Lilanand Singh. The only other important estates under management are the Chanchal property in Maldah, of which the demand for rent, including arrears, was Rs. 2,20,544, and the Surjapore estate in Purneah, of which the demand was Rs. 2,18,206. Both estates are entirely free from debt.

24. *Conduct of Zemindars.*—On the whole, relations between zemindars and the ryots are by no means satisfactory. Some improvement is reported to have taken place in the feeling on the Banoli estates and on those of Maharaja Sheo Prasad Singh and Raja Ramnarayan Singh, but there is still much to be desired. The Commissioner mentions unfavourably the conduct of the sons of Maharaja Gopal Chandra Singh of the Sonthal Pergunnahs. The zemindars most commended are the Thakurs of Barari and the Thakurain of Lachmipore in the Bhagulpore district, and Baboo Taros Chandra Pande of the Sonthal Pergunnahs. Raja Ram Ranjan Chakravarti, who resides in Beerbhum, but has large estates in the Sonthal Pergunnahs, is also commended for his justice and capacity for business.

25. *Character of Officers.*—The Commissioner's remarks on this subject will be considered in the Appointment Department. Mr. Barlow singles out for special praise Messrs. Oldham and Pratt among the covenanted officers, and Messrs. W. M. Smith, C. F. Manson, Baboos Sarada Prasad Chatturji, Umacharan Bose, and Sasi Bhusan Dutt among the Deputy Collectors.

In conclusion, the Lieutenant-Governor thanks Mr. Barlow for a very excellent report.

By order of the Lieutenant-Governor of Bengal,

A. P. MACDONNELL,

Offg. Secretary to the Government of Bengal.

LIBERALITY OF THE MAHARAJAH OF KEONJHUR.

No. 905T—G., dated Darjeeling, the 22nd September 1883.

From—A. P. MacDonnell, Esq., Officiating Secretary to the Government of Bengal, General Dept.,

To—The Superintendent of the Tributary Mehals, Cuttack.

I am directed to acknowledge the receipt of your letters Nos. 915 and 1378, dated the 22nd June and 28th August 1883, regarding the offer made by the Maharajah of Keonjhur of a donation of Rs. 5,000 for the construction of a hostel to be attached to the Ravenshaw College at Cuttack, and of Rs. 3,000 for the advancement of the Cuttack girls' school, which you propose to invest in Government securities for the foundation of two scholarships to be granted to pupils of the school who, after passing the lower vernacular scholarship examination in Uriya, prosecute their studies further.

2. The Lieutenant-Governor has much pleasure in accepting these donations, and desires that an expression of his thanks may be conveyed to the Maharajah for his liberality.

No. 915, dated Cuttack, the 22nd June 1883.

From—A. Smith, Esq., Superintendent of the Tributary Mehals,

To—The Secretary to the Government of Bengal, General Department.

I have the honour to forward, for the information of Government, a copy of a letter from the Maharajah of Keonjhur, offering donations of Rs 5,000 for the construction of a hostel in the neighbourhood of the Ravenshaw College and Rs. 3,000 for placing on a stable basis the Cuttack girls' school, and providing for the teaching of Uriya in it.

2. I recommend that both donations be accepted, and that the acknowledgment of Government be given to the Maharajah for them.

3. The Maharajah wishes that the hostel be named after me. I have of course no objection to the naming of any useful institution after me, but I would prefer that it should be named after the Maharajah himself, and perpetuate in the province the memory of his good work.

4. I will communicate with the managers of the girls' school regarding the best mode of utilizing the donation of Rs. 3,000 for that institution, and the Maharajah's proposal to name the institution after Mr. Ravenshaw, to which they will no doubt readily consent.

Dated the 5th June 1883.

From—Maharajah Dhunoorjoy Narain Bhunj Deo, Keonjhur,

To—The Superintendent of the Tributary Mehals.

It is hardly necessary to dwell on the inestimable benefits which the people of Orissa have derived from the establishment of a college in Cuttack. The results of the last University examination have been remarkably successful. But I have been informed that, for want of a suitable students' boarding-house, the students are obliged to live in the bazar, where they are without any control or supervision, and this want of control and supervision at home leads to many evils. It will be a good thing to have a students' boarding-house in the neighbourhood of the college, and I am willing to contribute towards the erection of such a house. I have been told that Rs. 5,000 will be enough for the purpose. I shall be happy to pay this sum for the purpose, and shall send the money on the receipt of a reply to this.

The establishment of a college at Cuttack originated with Mr. Ravenshaw, and it is a great pleasure to see the college named after him, but the continuance and stability of that institution are due to your efforts. I shall feel highly obliged if you allow the proposed students' boarding-house to be named after you. I hope you will oblige me by a compliance with this request.

I have also been informed that there has been a girls' school at Cuttack for a long time, and it is doing a very useful work. The stability of that institution ought to be secured, and I shall be happy to do anything to give it that stability. I shall gladly give a donation of Rs. 3,000 for the institution, and shall feel obliged if, in consultation with the School Committee, you suggest some investment by which this sum may yield a permanent help to the school. I should like to attach this condition that Uriya should be taught in the school, and the proceeds of this investment should be utilized for the purpose. I have of course no objection to any other language being taught in the school. I have a further request in the matter, and that is that Mr. Ravenshaw first started the school and contributed towards its establishment; the school should be named after him.

No. 1378, dated camp Balasore, the 25th August 1883.

From—W. R. LARMINIE, Esq., Officiating Superintendent of the Tributary Mehals,

To—The Secretary to the Government of Bengal, General Department.

IN continuation of paragraph 4 of this office No. 915 of the 22nd June last, I have the honour to report that I have, as directed, consulted the Managing Committee of the Hindu girls' school at Cuttack with reference to the proposal made by the Maharajah of Keonjhur to place the school on a permanent basis, and to provide in it for the teaching of Uriya. The Managing Committee are glad to accept the handsome offer made by the Maharajah, and propose to invest the amount in Government securities, and to devote the proceeds to the encouragement of the Uriya language. The Committee have furnished me with a statement showing the financial position of the school, from which it appears that the ordinary income is sufficient for the teaching of both Bengali and Uriya, and so long as this continues, it will, I think, be best to found with the proceeds of the money two scholarships, to be granted to those who, after passing the lower vernacular scholarship examination in Uriya from the school, prosecute their studies further. I have made this suggestion to the Managing Committee, who have acquiesced therein, and I now request that the acceptance of the Maharajah's offer may be intimated, and the thanks of the Government to the Maharajah for his liberal donation be communicated, and the whole correspondence published in the *Calcutta Gazette*, and also in the *Uriya Government Gazette*, as soon as possible.

Rainfall, Weather, and State and Prospects of the Crops

Statement showing Rainfall, Weather, and State and Prospects of the Crops in the different Districts of Bengal, as reported to Government during the week ending the 29th September 1883.

No.	District, and date of return.	Rainfall at Sudder Station in inches.	Character of the weather, state and prospects of the crops, and state of health at date.
	BENGAL.		
	Western Districts.		
Burdwan Div. 1	Burdwan, Sept. 29 '83	Nil	Weather—very close Rain has fallen in some parts of the district, but more is urgently wanted. Paddy on the high lands is in a precarious state.
	Culna ...	3·04	
	Cutwa ..	2·3	
	Ranegunge ...	0·05	
2	Bankoora, „ 29 „	0·46	Weather—at the beginning of the week hot and clear, at its close cloudy and humid. *Biri kalai* (black pulse), *kherua* cotton, and other high land crops are doing well, but the late rice crop has suffered slightly from want of rain.
	Bishenpore ...	0 02	
	Maliara ...	0 88	
	Khatra ...	0 50	More rain is wanted throughout the district. Public health good.
3	Beerbhoom, „ 29 „	0·27	Weather—generally fine and dry One or two slight showers Rain still
	Rampore Haut ..	0 55	wanted for the crops. A few seasonable showers have done much good. Health of district satisfactory.
4	Midnapore „ 29 „	0·16	Weather—hot. Rain is wanted everywhere. Crops doing well Public health fair.
5	Hooghly, „ 29 „	0·28	Weather—hot. Prospects of crops pretty good but rain much required, especially in Jehanabad and Serampore sub-divisions. General health fair for the time of year.
	Howrah Oct. 1 „	1·12	Mornings cool. Heavy rain on 29th. *Amun* rice and sugarcane thriving.
	Oolooberiah ...	1·21	Jute being cut; crop not very good.
	Central Districts.		
Presidency Div. 6	24-Pergunnahs. Oct. 1 '83	2·26	Weather—hot and dry. Harvesting of early paddy nearly finished. Late crops doing well. More rain wanted. Public health generally good.
7	Nudden. Sept. 29 „	0·35	Weather—cloudy and cool. Rain is needed throughout the district for the *amun*
	Kooshtea ...	0·04	rice, which is suffering for want of it.
	Meherpore ..	1·68	
	Choondanga ...	0 32	
	Ranaghat ..	2·28	
8	Khoolna, „ 29 „	1·29	Weather—close and dry until close of the week when rain fell. More rain is wanted, but crops have not suffered materially and are generally good. Public health good.
9	Jessore, „ 29 „	3·23	Weather—hot and cloudy, with occasional rain. Rain during the week has to
	Jhenida ..	0 61	some extent removed the apprehension entertained of grave injury to the
	Magura ...	0·22	*amun* crop. More rain is wanted. Deaths from fever reported from Bongong,
	Narail ..	2·77	and cases of cholera from Narail.
	Bongong ...	Nil	
10	Moorshedabad, „ 29 „	0 57	Weather—hot and cloudy, with occasional slight showers The rainfall during the week proved extremely beneficial to the late rice crop, which has, however, suffered greatly from the late drought It is feared that this crop will be a light one. A good deal of fever is reported from the north of the district.
Rajshahye and Cooch Behar Div. 11	Dinagepore Sept 28 '83	4·67	Weather—cloudy, with scanty rain in the southern part, and heavy showers in other parts of the district. *Bhadoi* cutting nearly finished. *Amun* prospects fair. More rain is wanted in the southern part of the district. Rice selling at from 17 to 25 seers per rupee.
12	Rajshahye, „ 29 „	0·25	Weather—cooler in mornings, hot sun in day, and very light showers of rain
	Nowgong ...	0·21	occasionally. *Rupa* paddy in parts of the district is beginning to require rain urgently The *bhil* paddy is good Sugarcane fair. Two light showers in Nowgong have been useful for transplanting *ganja*.
13	Rungpore „ 29 „	1·53	Weather—hot, with occasional rain. Want of rain is universally complained
	Kurigram ..	4·30	of. The recent rain in the Nilphamari and Kurigram sub-divisions has
	Gaibanda ...	1·56	done much good. Fever prevalent in some places.
	Nilphamari .	4·67	
14	Bogra, „ 29 „	1·98	A copious fall of rain took place early in the week, and two or three showers subsequently, so that the weather is now cool again. The rain on 24th was very beneficial to the *amun* crop, but more is required, especially in thanas Khetlal and Badalgachi, where the crops are said to be still suffering much for want of rain. Fever is still prevalent.
15	Pubna, „ 29 „	1 78	Slight rain, with cooler weather. The rivers to the east rising slowly; those fed from the Ganges falling rapidly. Winter rice much damaged for want of rain. Jute crop very poor.
16	Darjeeling, „ 29 „	3·15	Weather—seasonable. Harvesting of Indian-corn, millets, and *aus* paddy nearly completed. Prospects of potatoes and late paddy good in the hills. The rainfall of the week has done much good to the standing crops in the Terai. Public health good.
17	Julpigoree, „ 29 „	7·33	Weather—seasonable. Rice promising. Poor harvest of jute. Sugarcane backward. Public health good.
	Cooch Behar „ 28 „ up to 26th.	19·23	Weather—fair and seasonable. Prospects of late rice good. Tobacco cultivation put back by heavy rain of last week. Jute being still cut. Public
	Dinhatta ... up to 24th	5·0	health good.
	Mathabhanga . up to 22nd.	13·44	
	Meckligunge ... up to 22nd	10 91	
	Eastern Districts.		
Dacca Div. 18	Dacca Sept. 29 '83	1·81	Weather—cloudy, with occasional rain and sunshine. *Aus* paddy and jute are being cut. Prospects of crops in Nawabgunge are not favourable owing to
	Manickgunge ...	0·27	sudden rise of water, and those of *amun* crop in Shabhar are not good owing
	Munshigunge ...	0·36	to decrease of water
	Narainguuge ...	2·85	
19	Furreedpore, „ 29 „	1·82	Weather—dry and excessively hot in the early part of the week, since which it
	Goalundo ...	2 08	has been gloomy and cool. The rivers have fallen, but the moderate rain has
	Madaripore ...	0·69	done good. Sugarcane doing well, and the other crops fairly. Public health fair.
20	Backergunge, „ 27 „	1·79	Weather—seasonable. *Aus* crop has been gathered in. Rain is much needed for the *amun* crop in the high lands. General health good.
21	Mymensingh, „ 28 „	2·96	No rain till 26th, when there was a good fall except in the south. Weather hot
	Kishoregunge ...	0·26	with overcast sky. The rain on 26th will do much good to the transplanted
	Attea ...	0·12	rice crop which was beginning to suffer, but there is still prospect of a fair
	Netrokona ...	3·41	crop. Health good.

No.	District, and date of return.	Rainfall at Sudder Station in inches.	Character of the weather, state and prospects of the crops, and state of health at date.
BENGAL—*concld.*			
Eastern Districts.—concld.			
Chittagong Divn. 22	Chittagong, Oct. 2 '83	7·14	Weather—seasonable. Prospects favourable. Rain has done good to standing crops. Prices steady. Cattle-disease still continues.
23	Noakholly, Sept. 27 „	5·44	Weather—raining almost continuously during the last two days of the week; wind southerly. Young *aman* plants promising; rain has done much good to them.
24	Tipperah, „ 27 „	2·77	Heavy rain and light southerly wind. State and prospects of crops good, much improved by the rain.
	Brahmunbaria ..	2·27	
	Chandpore ...	1·50	
25	Chittagong Hill Tracts. „ 25 „	1·30	Weather—occasionally cloudy throughout the week. A shower of rain on the night of the 24th Harvesting of *jum* paddy crop still continues. Plough paddy progressing well
	Hill Tipperah „ 26 „	0·82	Weather—hot, with occasional rain. Prospects of *amun* and sugarcane favourable. Public health good.
BEHAR			
Patna Divn. 26	Patna. Sept. 29 '83	0·48	Weather—hot. *Bhadoi* crops nearly gathered. Rain still wanted in Behar subdivision. Cholera still reported from Behar thana.
	Behar ..	1·18	
27	Gya „ 29 „	0·35	Light clouds and showers. Weather not very hot. Rain is very badly wanted and quickly. Where irrigation has been possible there may be a fair outturn. In other places the rice crop will be very bad. Cholera is still hanging about the town of Gya. Prices stationary.
28	Shahabad. „ 29 „	1·32	Weather—seasonable. Prospects of crops on the ground favourable, but more rain wanted.
	Buxar ...	0·86	
	Sasseram ...	Nil	
29	Durbhunga. „ 29 „	0·53	Weather—seasonable; getting cooler. Outturn of *bhadoi* crops fair. Prospects of *aghani* crop good, and would be still better for more rain. Health good. Prices rising slightly.
30	Muzufferpore. „ 29 „	0·19	A strong sun has alternated with showers, but the rainfall has been insufficient. The *bhadoi* crops are being rapidly harvested, and the *aghani* much requires rain
	Hajeepore ...	0·45	
	Seetamarhi ...	1·56	
31	Sarun. .. 29 „	0·15	Weather—close and sultry during day, becomes cooler in the latter part of the night Prospects still fair, but rain most urgently wanted all over the district for rice crop. Cases of fever reported. Public health otherwise good.
	Sewan ...	0·50	
	Gopalgunge ...	Nil	
32	Chumparun „ 29 „	...	Weather hot. Reaping of *bhadoi* crops is being pushed on. Rain much wanted for paddy. General health on the whole good. Some cases of fever reported from the interior.
Bhagulpore Divn. 33	Monghyr Sept. 29 '83	0·98	Weather—hot and clear. Prospects of *aghani* crop continue generally good. Public health good.
	Begusarai ...	1·67	
34	Bhagulpore. „ 29 „	0·22	More rain urgently wanted for high land paddy, otherwise prospects favourable.
	Soopole ...	1·30	
	Banka ...	Nil	
35	Purneah. „ 29 „	0·55	Weather—normal. Prospects much improved by the rain of last week and are now generally good, though more rain will be required to bring the *aghani* crop to maturity, especially in the Sudder sub-division. Fever prevails all over the district.
	Kissengunge ...	4·62	
	Arrareah ...	3·17	
36	Maldah, „ 29 „	1·90	Weather—dry and hot. Some good has been done to the rice crop on the low lands by the moderate rainfall of this week, but the crop has generally suffered from insufficient rain at this season. General health good.
37	Sonthal Perghs. „ 29 „	0·39	Weather—very bright and hot till 28th, when there was rain. More rain wanted, except in Dumka, where the heavy rain of 28th has done much good.
	Deoghur ...	0·29	
	Godda ...	2·38	
	Rajmehal ...	Nil	
	Jamtara ...	1·33	
	Pakour ...	Nil	
ORISSA.			
Orissa Divn. 38	Cuttack Sept. 28 '83	1·93	Weather—cloudy and hot. *Beali* being harvested. *Sarad* thriving. Miscellaneous crops doing well. Price of rice stationary Public health generally good.
39	Pooree, „ 27 „	1·57	Weather—cloudy. State of crops continues good. A little damage done to paddy plants by insects. Miscellaneous crops going on well. Common rice selling at from 26 to 40 Calcutta seers per rupee. Cattle-disease and small-pox still reported.
	Khoorda	0·57	
40	Balasore. „ 28 „	0·41	Weather—warm and seasonable. Prospects of rice crop generally good. Slight rain is reported to have fallen all over the district. More is required. Public health good.
CHOTA NAGPORE.			
South-West Frontier Agency.			
41	Hazaribagh, Sept. 28 '83	0·25	Weather—warm and close. Prospects of all crops continue favourable. *Bhadoi* harvest nearly brought to an end with a fair outturn. Public health good.
42	Lohardugga „ 29 „	0·81	Weather—bright and warm. Prospects good. Autumn crops still being harvested; outturn under an average. Prices easier. Fever reported from different places.
	Daltongunge ...	0·21	
43	Singbhoom, „ 28 „	1·98	Weather—close and hot; no rain till 27th. The rain of 27th will do much good. Prospects continue favourable. General health fair, with the exception of much fever Cholera reported from one village.
44	Manbhoom, „ 29 „	2·64	Weather—clear and warm. Prospects of crops good. Small-pox continues at Topchansi; otherwise public health good.
	Govindpore ...	0·71

Explanation of Summary.—The normal means of air pressure and temperature are the arithmetical averages or means of the readings during the same week. The *humidity* of the atmosphere is expressed as a percentage, saturated air being represented by 100. A clear sky is denoted by 0 and an overcast sky by 10. The observations, rainfall, &c., are the numerical means or averages of the rainfall in that district determined from the returns sent in by the sub-divisional officers from that district, *i.e.*, the total rainfall at the sub-divisional stations in the district sending in returns divided by the number of stations. A rainy

* Mean of 6 days.

for the week ending Friday, the 28th September 1883.

DISTRICT OBSERVATIONS.

Explanation—Indicates that no rain has fallen. If the return for any day has not been received, the corresponding space is left blank. If some of the retr anting, the corresponding spaces in the total rainfall columns are left blank.

SUMMARY OF THE METEOROLOGICAL AND RAINFALL OBSERVATIONS TAKEN IN BENGAL FOR THE WEEK ENDING FRIDAY, THE 28TH OF SEPTEMBER 1883.

DURING the week ending the 21st a well pronounced break in the rains had been established over the greater part of Orissa, South-West Bengal, and East Bengal, and towards the close of the week the break had gradually extended to Chutia Nagpur, South Behar, and the greater part of North Behar. Rain, however, still continued to fall, and in many cases in very large amounts in the hill districts of North Bengal and at the base of the hills. This break in the rains was the first of any importance which had occurred in the Lower Provinces during the present monsoon season, and it was accompanied by a high barometer over the whole reporting area, and with the establishment of light and rather irregular winds in all districts. Similar conditions continued to hold on the 22nd and 23rd, but on the 24th pressure commenced to diminish slightly over a considerable part of the Province, and the area of rainfall expanded, so that on this day, although rainfall was by no means general, local showers fell in most divisions, and in North Bengal rain was recorded at almost every station, and at several of them in excessive amounts. On the following day pressure commenced to recover itself slightly, but at the same time rain became more general in the southern, western, and eastern districts, while North Bengal and Behar became almost rainless. On the 26th pressure again increased slightly and became comparatively high in Behar and Chutia Nagpur, and the area of heavy rainfall was transferred to East Bengal, though local showers still continued to fall in all districts except in Behar. The same conditions held good on the 27th, except that rain was received in some districts in North Behar, and on the 28th instant pressure having become very uniform over the whole reporting area, there were very distinct indications of the rapid contraction of the area of rainfall. Rain was on this day entirely absent from Chutia Nagpur, North and South Behar, and from the greater part of South-West Bengal, and the showers, which were reported from the divisions of South-West Bengal and Orissa, appeared to be fewer in number and lighter in amount than on the previous day, though East and North Bengal were still receiving heavy rain. It will be thus seen that the area of heavy rainfall during the past week has moved from North Bengal to East Bengal. The rainfall for the week in most districts has also been characterised by great irregularity of distribution, and has consisted to a great extent of local showers of short duration, though in many cases heavy while they have lasted, and there are many instances where single stations in a district have received very heavy showers, while every other station has been quite free from rain on that day.

The monsoon current which has been blowing, or perhaps it would be more correct to say drifting, over Bengal during the past week has been generally of feeble character, and even more feeble than is usually the case at the end of September. Thus to take the stations at the head of the Bay, Saugor Island for the past week shows a daily wind velocity of 151 miles as against the normal daily velocity for September of 228 miles; again, Calcutta during the past week registered a daily wind velocity of 62 miles as against the normal velocity of 116·9 miles, while Jessore has registered a daily wind velocity of 51 miles during the week against the normal velocity of 79 miles. In Eastern Bengal, however, where, as has been previously pointed out, very heavy rain has been falling during a part of the week, the wind velocity has not been so much below the normal, and thus the daily wind movement at Chittagong has been 99 miles against the normal 108 miles. On the whole, however, at all stations, both on the sea coast and inland, wind velocities have been below the normal, and thus it is evident a feeble monsoon has been blowing during the past week.

Pressure, as has been stated previously, was at the commencement of the week distinctly above the normal. The changes during the week have not been large, but there has been a gradual increase of pressure, as is always the case at the end of September. The average pressure for the week is distinctly above the normal at most stations; the excess averaging about 0·03″ in Orissa, Chutia Nagpur, and East Bengal, 0·02″ in South-West Bengal, while a nearly normal pressure has on the whole obtained in Behar. The largest average excess is at Dacca, and is equal to 0·04″, while a defect of 0·05″ is reported from Durbhunga. The temperature variations during the week have been a little irregular, and have to a certain extent followed the variations in rainfall. Temperature has in most districts steadily increased during the week, but this is the normal course of things at the end of September, and on the average at most stations temperature does not vary much from the normal. The largest variation is an average excess of 3° at Patna, while Chittagong reports a defect of 1½°. Taking the whole Province into consideration, temperature has been distinctly above the normal, though when the opposite variations are taken into account, the excess temperature for the Province will not be more than half a degree.

The following table gives the usual summary of the temperature and rainfall data for each of the seven meteorological divisions of the Province :—

Meteorological District.	Temperature.						Rainfall.									
			Average for week.				Of week.			Rainy days.			Since 1st of month.		Since May 15th.	
	Highest observed during week.	Lowest observed during week.	Of highest of each day.	Of lowest of each day.	Of mean for each day.	Average mean of week above or below normal mean week.	Average.	Normal average.	Variation.	Average number in week.	Normal average number.	Variation.	Average.	Normal average.	Average.	Normal average.

The past week has been one of light rainfall everywhere, except in Eastern Bengal, and this fact is clearly shown by the numbers given in the above table. The only meteorological district which has received its full normal quantity of rain is East Bengal. North Bengal appears to have received a sufficient supply, and is on the average only very slightly below the normal, while Chutia Nagpur has received at least four-fifths its normal fall for the week. In all other districts, however, the defect from the normal is serious, and in some instances only about one-fourth of the normal fall has been received. Taking the average of all the stations in each meteorological district, as shown in the above table, East Bengal has during the past week received a rainfall 25 per cent. in excess of the normal. On the other hand, North Bengal has recorded a fall 12 per cent. below the normal; Chutia Nagpur a fall 20 per cent. less than the normal; South-West Bengal and Orissa a fall between 50 and 60 per cent. below the normal; while the whole of Behar has been in defect to the extent of about 77 per cent. of its normal fall for the week. The number of rainy days in each district during the past week has varied also in an almost corresponding manner, and thus while in East Bengal there has been an excess number of rainy days, in all other districts the numbers have been smaller than usual. This has been particularly the case in South Behar, South-West Bengal and Chutia Nagpur. In some of the previous weeks of this month, however, Chutia Nagpur, Orissa, and North Bengal had been receiving rainfalls considerably in excess of the normal, so that it is the districts of South-West Bengal and North and South Behar which have received comparatively and actually the smallest amounts of rain during the month, and when on the average the rainfall for the month has not exceeded about 50 per cent. of the normal. Looking, however, at the rainfall during the present monsoon since May 15th, the variations from the normal fall are not very large, the greatest variations being in the case of East Bengal and North Bengal, which have received amounts only six-sevenths and four-fifths respectively of the normal falls. Taking the meteorological divisions more in detail, and considering the rainfall as received in the respective districts, in Orissa it would appear that at many of the stations in the Balasore district there has been an almost complete absence of rain during the past week, while in the Pooree and Cuttack districts rain has been rather more general. In South-West Bengal, the Burdwan and Jessore districts have actually received falls on the average in excess of the normal, the excess, however, being principally due to some heavy falls of rain at Culna, Cutwa, Narail, and Jessore. The case of the Burdwan district, it may be remembered, is rather remarkable, for Burdwan, Raneegunge, &c., have during the present monsoon been centres of exceptionally heavy rainfall, which has continued almost throughout the season. In this division also the Midnapore district has been at several stations almost rainless during the past week. In East Bengal, the Mymensingh and Dacca districts have received falls considerably below the normal, while the Chittagong and Noakholly districts have received almost twice their normal fall. In North Bengal the Julpigoree district still continues a centre of heavy rainfall, and is for the week largely in excess of the normal, while the Rajshahye district on the other hand has received less than 20 per cent. of the normal fall. Of the districts of North Behar, Sarun is most in defect, and in South Behar the Gya and Patna districts are most in defect, and in fact have been practically rainless during the week. Finally, in Chutia Nagpur the rainfall in the districts has been rather more evenly distributed, though the Singbhoom and Manbhoom districts have reported at some stations comparatively heavy rain.

Saturday, 22nd September.—Pressure increased slowly at almost all reporting stations except in Behar, where a decrease was registered. The increase of pressure was largest in Orissa and in East Bengal. Pressure was considerably above the normal of the day, the excess ranging from ·035″ at Gya to ·078″ at Dacca. Temperature increased rapidly in South Behar, but in other divisions the changes were not marked. In all districts, except North Behar, temperature was considerably above the normal, the average excess

being nearly 2°. Light, and in several divisions variable, winds continued to blow over the whole Province In North Behar the wind directions were particularly irregular, though in South Behar light south-east winds were still reported from the majority of stations. Wind velocities in most divisions were even smaller than on previous days. Humidity had decreased in South Behar. It was very large at some stations in North Bengal, but was moderate only in other divisions. The amount of cloud was very large at many stations in North Bengal, but in other districts was comparatively small. Orissa, South-West and East Bengal, South Behar and Chutia Nagpur were practically rainless. A few showers fell in North Behar, but the heaviest rain fell in North Bengal, at the stations in the hills and in the districts adjacent to the hills; the rainfall in North Bengal was confined to the districts of Rungpore, Cooch Behar and Darjeeling The following stations reported amounts in excess of one inch;—Julpigoree, Dinhatta, Cooch Behar and Gopalgunge.

Sunday 23rd September.—Pressure continued to increase in Orissa, South-West and East Bengal, but a fall had commenced in North Bengal and Behar Pressure was still very considerably above the normal, the excess ranging from 0·08″ at Dacca to 0·02″ at Gya. Temperature steadily increased in all districts. It was considerably above the normal over the whole reporting area. The excess temperature averaged about 2°, but at Patna an excess of 3·2° was reported. Light irregular winds and calms prevailed in all districts. Wind velocities were perceptibly decreasing, and were very small. Humidity had decreased in most districts, while the amount of cloud was also smaller. Rain was again practically absent from all divisions except North Bengal, and from the stations in this division in the hills, and close to their base extremely heavy rain was reported Thus Matabhanga received 6 77 inches, Julpigoree 4·85 inches, Buxa 4 50 inches, Cooch Behar 4·05 inches, and Mickligunge 2·38 inches.

Monday, 24th September.—The changes of pressure were a little variable. There was a slight, though distinct, decrease in South-West Bengal, in Orissa, and in East Bengal; a considerable increase at some of the stations in North Bengal; and a smaller increase in Behar and Chutia Nagpur. Pressure continued rather above the normal in all districts, the excess ranging from 0·01″ at Dacca to 0·056″ at Hazaribagh. Temperature again increased slightly at most stations, and was considerably above the normal. It was nearly 4° above the normal in Orissa and Chutia Nagpur, about 3° above it in South-West Bengal, and nearly 2° above it in most other districts. Winds continued light and irregular in all divisions, though in North Bengal wind velocities were rather larger than they had been for some days. Humidity had decidedly increased in North Bengal. In other districts the changes were not marked, and humidity was moderate only. The amount of cloud had also increased in North Bengal, while in other divisions it remained comparatively small. The area of rainfall to-day extended considerably; rain was reported from almost every station in North Bengal, and in some cases in very large amounts; while from all other divisions a considerable number of local showers were reported, which showers were in many cases heavy. Rainfall was again particularly heavy in the Cooch Behar district, where Mickligunge reported 7·15 inches, Matabhanga 4·67 inches, and Cooch Behar 3·05 inches. In other districts the following stations received amounts in excess of two inches:—Godda, Bagdogra, Azimgunge, and Cutwa; and the following stations amounts in excess of one inch:—Cuttack, Culna, Meherpore, Jessore, Lalbagh Fenny, Brahmanberiah, Sherpore, Nowkilla, Bogra, Maldah, Bhowanigunge and Hazaribagh

Tuesday, 25th September.—Pressure had risen in all districts, except locally at one or two stations in North Bengal and at Hazaribagh. Some of the stations in South Behar and in Chutia Nagpur showed a comparatively low pressure, though the barometer at almost all stations was above the normal by amounts ranging from 0·05″ at Durbhanga to about 0·01″ at Saugor Island. Temperature had fallen in all districts, and at some stations rather rapidly. It was, however, still above the normal at all the reporting stations, except Chittagong, the average excess temperature being between 1° and 2°. Light irregular winds and calms prevailed in all districts. If anything, wind velocities had diminished slightly since the 24th instant. Humidity had decidedly increased in Orissa, South-West and East Bengal, but had decreased in Behar and Chutia Nagpur. The amount of cloud had become very small in Behar, but it had increased considerably in South-West Bengal, Orissa and East Bengal. Light rain fell at most stations in Orissa, South-West and East Bengal, and Chutia Nagpur, but North Bengal, North and South Behar were practically rainless. The heaviest rain fell in East Bengal, where the following stations reported amounts in excess of one inch:—Burrisal, Bhola, Noakholly, Goalundo, Chandpore and Brahmanberiah. In other districts also the following stations received amounts in excess of one inch:—Mohesreka, Culna, Ranaghat (2·29 inches) and Pachamba.

Wednesday, 26th September.—Pressure continued to increase at nearly all stations, the increase being largest in Chutia Nagpur and at some of the stations in North Bengal. Pressure was distinctly above the normal at most stations, the excess ranging from about ·01″ in South-West Bengal to ·06″ in North Behar. Temperature had fallen rather rapidly in most districts, except Behar and Chutia Nagpur. Temperature was below the average in Orissa, South-West and East Bengal, and above the average in Behar and Chutia Nagpur. Dacca reported a temperature 5° below the normal, and Patna a temperature equally above it. Patna to-day registered a maximum temperature of 96°. Winds were very irregular in South-West Bengal and Orissa. Easterly and south-easterly winds prevailed

in Behar and East Bengal, while north-easterly winds were reported from North Bengal. Wind velocities were very small, particularly in Orissa, South-West Bengal and Behar, but in North Bengal winds had slightly increased in force since the 25th instant. Humidity continued high in most districts except South Behar. The amount of cloud was also large, except in North and South Behar. Very general and heavy rain fell in East Bengal, local showers also were reported from Orissa, South-West Bengal, North Bengal and Chutia Nagpur, but North and South Behar received very little rain except in the Purneah district. In East Bengal the following heavy rainfalls were reported: —Netrokona 3·41 inches, Noakholly 3·35 inches, Chandpore 3·10 inches, Mymensingh 2·75 inches, Jamalpore 2·50 inches, Comilla 1·84 inches, Bhola 1·75 inches, and Patuakhally 1·10 inches. In other divisions also the following heavy falls were reported:—Chandbali 1·07 inches, Narail 1·32 inches, Dinagepore 3·75 inches, Siligori 1·51 inches, Darjeeling 1·40 inches, Arrareah 1·68 inches, Jamtara 1·18 inches, and Puruliah 2·05 inches.

Thursday, 27th September.—Pressure diminished rather rapidly in North Bengal, and somewhat less rapidly in the remaining districts. The changes had the effect of reducing pressure below the normal of the day at almost all stations. Pressure was very slightly below the normal in Orissa and at the southern stations generally, while it was ·05″ below the normal at Gya. Temperature continued to fall in almost all districts, and was distinctly below the normal at all stations, except Patna. The average defect was about 2°, but at the stations in East Bengal it was nearly double this amount. Winds continued light and somewhat irregular in most divisions. Humidity was rather high in all divisions, except Chutia Nagpur and South Behar. The proportion of cloud was excessive in Chutia Nagpur, South-West and East Bengal; moderate in Orissa, North Bengal, and North Behar, and comparatively small in South Behar.

South Behar was practically rainless, while a few showers, light to moderate in amount, fell in Orissa, North Bengal, North Behar, and Chutia Nagpur. Rain was more general in East Bengal and in South-West Bengal, particularly in the eastern districts. The rainfall was extremely heavy at many stations in Eastern Bengal, and Feuny reported 4·78 inches, Brahmunberiah 3·76 inches, Comilla 2·92 inches, Noakholly 2·45 inches, and Naraingunge 2·24 inches. The following stations in this and other districts reported amounts in excess of one inch:—Netrokona, Chandpore, Dacca, Munshigunge, Burrisal, Bhola, Agartola, Chittagong, Jessore, Narail, Bagirhat, Madhubani, Sitamarhi, and Chyebassa.

Friday, 28th September—Pressure began to increase by small amounts at almost all stations, the rise being largest at some stations in East Bengal. Pressure did not vary much from the normal, except at one or two stations, such as Chittagong and Gya. Temperature had fallen rapidly at some of the stations in East Bengal, but in other districts there was not much change. Temperature was generally below the normal, especially in East Bengal, Dacca reporting a temperature nearly 6° and Chittagong nearly 4° below the normal. Winds had not changed much in direction since the 27th, but wind velocities had generally increased slightly. Humidity was high in all divisions, except Chutia Nagpur and South Behar. The amount of cloud was excessive in South West and East Bengal, moderate in Orissa and North Bengal, and rather small in Behar and Chutia Nagpur.

Rain was almost entirely absent from Chutia Nagpur, North and South Behar and the western districts of South-West Bengal, but it was fairly general in North Bengal, East Bengal, Orissa, and the eastern districts of South-West Bengal. At many stations, particularly in North and East Bengal, the showers were heavy, and the following were the largest amounts reported:—Chittagong 4·99 inches, Satkhira 3·02 inches, Lalgola 2·41 inches, Noakholly 2·22 inches; while the following stations reported between one and two inches:—Jajpore, Saugor Island, Cox's Bazar, Rungamati, Burrisal, Madaripore, Chandpore, Pubna, Sherpore, and Panchbibi.

METEOROLOGICAL OFFICE, BENGAL,
The 2nd October 1883.

ALEXANDER PEDLER, F.C.S.,
Offg. Meteorological Reporter to the Govt. of Bengal.

MEMORANDA.

THE subjoined table, exhibiting the vital statistics of the first class Municipalities in Bengal for the week ending 15th September 1883, discloses the following results :—

(1.) That the birth rate in these Municipalities amounted to 23·3 per 1,000 of population against 22·1 per 1,000 during the preceding week ending 8th September, and the death-rate to 25·1 against 28·1 per 1,000.

(2.) That the following towns furnished the highest proportions of births and deaths :—

Births.	Ratio per mille.	*Deaths.*	Ratio per mille.
Uterpara	66·1	Gya	56·0
Mozufferpore	42·6	Jessore	55·1
Gya	39·6	Bhagulpore	52 5
Arrah	37·1	Serampore	33·4
Bhagulpore	37·1	Chittagong	30 5
Chuprah	34·2	Patna	30·2
Serampore	29·4	Burdwan	29·0
		Uterpara	28 3
		Santipore	28 0
		Poori	27·8

(3.) That the death-rates from the diseases specified in the table referred to, as compared with similar information for the preceding week, were—

	Ratio per mille during the weeks ending—	
	15th September.	8th September.
Cholera	2·1	1·6
Small-pox	·1	·03
Fever	12·4	14·8
Bowel-complaints	3·6	4·3
Injury	·5	·5
Other causes	6·7	6 9

indicating an increase of mortality from cholera and small-pox, and a decrease of the casualty-rate from all the other death-causes, except injury, the fatal result from which exhibits no variation.

(4.) That the above-named diseases proved most fatal in the following Municipalities :—

Cholera.	Ratio per mille.	*Small-pox.*	Ratio per mille.	*Fever.*	Ratio per mille.
Bhagulpore ..	18·1	Hughli ..	1 4	Jessore ..	55·1
Uterpara ..	9·4			Gya ..	31·4
Serampore ..	5·9			Chittagong ..	25·8
Gya ..	4·8			Santipore ..	23·7
Burdwan ..	4·6				

Bowel-complaints.	Ratio per mille.	*Injury.*	Ratio per mille.	*Other Causes.*	Ratio per mille.
Uterpara ..	9·4	Uterpara ..	9·4	Poori ..	15 0
Monghyr ..	9·0			Gya ..	10·9
Bhagulpore ..	8·1			Patna ..	10·1

(5.) That the mortality according to *Sex*, *Class* and *Age* stands as follows :—

According to Sex.	Ratio per mille.	*According to Class.*	Ratio per mille.	*According to Age.*	Ratio per mille.
Males ..	25·9	Christians ..	18 9	Under 1 year ..	237·3
Females ..	24·9	Hindus ..	26·1	1 and under 5 years ..	41·6
		Mahomedans ..	21 2	5 and under 10 „ ..	16·2
				10 and under 15 „ ..	14·9
				15 and under 20 „ ..	18·8
				20 and under 30 „ ..	15·8
				30 and under 40 „ ..	12·6
				40 and under 50 „ ..	16·7
				50 and under 60 „ ..	23·2
				60 years and upwards ..	53·1

F. W. A. DEFABECK,

The 1st October 1883.

Officiating Sanitary Commissioner for Bengal.

Statement showing the Results of the Registration of Births and Deaths in the First Class Municipalities in Bengal during the week ending 15th September 1883.

The mean pressure, temperature, &c., are deduced from the traces of the Barograph and Thermograph, and from observations made at 6h, 10h, 16h, and 22h.

The maximum and minimum temperatures are obtained from self-registering thermometers. All the thermometers are verified and the readings have been corrected to a standard constructed and verified at the Kew Observatory. They are exposed under a thatched shed open at the sides, and are suspended four feet above the ground.

The barometer readings are corrected approximately to those of the standard Newman's No 86 formerly at the Surveyor-General's Office.

The hygrometric elements are obtained from Tables III, IV and V of the official tables computed in the Meteorological office, and based on Regnault's modifications of August's formula.

The direction of the movement of the wind are taken from the trace of a Beckley's anemograph.

The mouth of the rain-gauge is one foot above the ground.

o overcast, *t* thunder, *lr* lightning reflection, *d* drizzling rain, *g* gloomy, *p* passing temporary showers, < lightning.

ALEXANDER PEDLER,
For Meteorological Reporter to the Government of India.

METEOROLOGICAL OFFICE, INDIA,
The 1st October 1883.

Orders and Notifications by the Lieut.-Governor of Bengal, the High Court, Government Treasury, &c.

ORDERS BY THE LIEUT.-GOVERNOR OF BENGAL.

No. 2050A.

GENERAL.—*The 24th September* 1883.—Baboo Ramnarain Banerjee, Deputy Magistrate and Deputy Collector, Bhagulpore, is appointed to perform the functions of a Collector under Act VII (B.C.) of 1880 in that district.

The 1st October 1883.—Mr. A. C. Mackertich, Deputy Magistrate and Deputy Collector, Cox's Bazar, Chittagong, is vested with the powers of a Collector under Act X of 1870 in that sub-division.

The 2nd October 1883.—Mr. H. F. J. T. Maguire, Officiating Joint Magistrate and Deputy Collector, Chittagong, is allowed leave for seven days, under section 71, chapter V of the Civil Leave Code, with effect from such date as he may avail himself of it.

Moulvie Mahomed Soban Hyder, Deputy Magistrate and Deputy Collector, Chittagong, is vested with the powers of a Collector under Act X of 1870 in that district.

Moulvie Syed Obedullah, Deputy Magistrate and Deputy Collector, Backergunge, is vested with the powers of a Collector under Act X of 1870 in that district.

The 3rd October 1883.—Baboo Kedar Nath Dutt, Deputy Magistrate and Deputy Collector, is posted temporarily to the sudder station of the Jessore district.

Mr. H. Gillon is appointed to act, until further orders, in the first grade of Joint Magistrates and Deputy Collectors, and is posted to the sudder station of the Shahabad district, on being relieved of his present appointment as Officiating District and Sessions Judge of that district.

Baboo Bhoobun Mohun Roy acted as Sub-Deputy Collector of Alipore, Julpigoree, from the 11th July to the 5th August 1883, inclusive.

Baboo Behary Lall Mookerjee is appointed to act, until further orders, as Sub-Deputy Collector of Alipore, Julpigoree, *vice* Moulvie Shuffee-ooddin Ahmed, with effect from the 6th August 1883.

The 4th October 1883.—Mr. F. M. Halliday, Commissioner of the Patna Division, is allowed leave for fourteen days, under section 71, chapter V of the Civil Leave Code, with effect from the 18th instant.

Mr. C. T. Metcalfe, C.S.I., Magistrate and Collector, Patna, is appointed to act as Commissioner of the Patna Division, during the absence, on leave, of Mr. F. M. Halliday, or until further orders.

The 5th October 1883.—The following officers have been granted by the Right Hon'ble the Secretary of State for India extensions of furlough for the periods mentioned opposite their names :—

Mr. T. Smith	...	...	...	4 months.
„ H. W. Gordon	...	...	...	3 „ and 2 days.

The services of Mr. G. Godfrey, Officiating Magistrate and Collector of Burdwan, are placed at the disposal of the Government of India in the Home Department, with effect from such date as he may be relieved of his present appointment by Mr. W. R. Larminie.

The 6th October 1883.—Mr. J. F. Bradbury, Officiating District and Sessions Judge, Backergunge, is allowed leave for one month, under the note to rule 2, section 72, chapter V of the Civil Leave Code, with effect from such date as he may be relieved by Mr. J. Kelleher.

Mr. J. Kelleher is appointed to act as District and Sessions Judge of Backergunge, during the absence, on leave, of Mr. J. F. Bradbury, or until further orders, on being relieved of his present appointment as Officiating District and Sessions Judge, Gya, by Mr. G. E. Porter.

POLICE.—*The 2nd October* 1883.—Baboo Jadub Chunder Deb, Assistant Superintendent of Police, was in charge of the office of the District Superintendent of Police, 24-Pergunnahs, from the afternoon of the 23rd August to the forenoon of the 5th September 1883.

The 5th October 1883.—Mr. E. H. D'Oyly is appointed to act, until further orders, as an Assistant Superintendent of Police.

Mr. Arthur Russell Anley is appointed to act, until further orders, as an Assistant Superintendent of Police.

EDUCATION.—*The 1st October* 1883.—Baboo Nundo Lal Das, Officiating Head Master, Howrah Government School, is appointed to be Secretary to the District School Committee of Howrah, *vice* Baboo Benimadhub De, on leave.

The following gentlemen are appointed to be members of the District School Committee of Jessore :—

Baboo Madhub Chunder Chuckravarti, Officiating Judge, Small Cause Court.
„ Shyamadhub Roy, Temporary Deputy Magistrate and Deputy Collector.
„ Promotha Nath Banerjee, Subordinate Judge.
„ Saroda Prosad Sirkar, Deputy Magistrate and Deputy Collector.

Baboo Dwarkanath Mookerjee, Temporary Deputy Magistrate and Deputy Collector, is appointed to be Secretary to the District School Committee of Mozufferpore, *vice* Moulvie Syed Mahomed, on leave.

JAILS.—*The 2nd October* 1883.—In supersession of the order of the 8th June last, published in the *Calcutta Gazette* of the 13th idem, Mr. H. G. Tayler, Assistant Superintendent, Buxar Central Jail, was on leave, under section 71, chapter V of the Civil Leave Code, from the forenoon of the 16th June to the afternoon of the 7th September 1883.

MEDICAL.—*The 1st October* 1883.—Surgeon D. W. D. Comins, Civil Surgeon, Jessore, is allowed leave for one month and 25 days, under section 71, chapter V of the Civil Leave Code, with effect from such date as he may avail himself of it.

Assistant Surgeon Behary Lal Pal is appointed to have medical charge of the civil station of Jessore, during the absence, on leave, of Dr. D. W. D. Comins, or until further orders.

The 2nd October 1883.—Assistant Surgeon Grish Chandra Dutt is allowed leave for three months, under section 71, chapter V of the Civil Leave Code, with effect from the date on which he may be relieved of the charge of the charitable dispensary at Rampore Beauleah.

ECONOMIC MUSEUM.—*The 9th October* 1883.—Mr. Horace A. Cockerell, C.S.I., is appointed to be Chairman of the Central Committee for the management of the Calcutta Economic Museum, *vice* the Hon'ble H. T. Prinsep, resigned.

The 1st October 1883.—In modification of the notification dated the 3rd September last, published at page 753, Part I of the *Calcutta Gazette* of the 12th idem, Mr. F. F. Forbes is appointed to be Chairman of the Choa Branch Road Cess Committee, in the district of Moorshedabad.

The following notification is re-published from the *Assam Gazette*:—

No. 271.—*The 26th September* 1883.—The undermentioned officer has been granted by Her Majesty's Secretary of State for India extension of leave as advised in list dated the 10th August 1883:—

Name.	Service.	Appointment.	Period and nature of extension.
R. S. Greenshields ...	Bengal Civil Service ...	Assistant Commissioner, Assam.	Privilege leave for three months converted into furlough on medical certificate for six months.

F. B. PEACOCK,
Secretary to the Govt. of Bengal.

NOTIFICATION.

The 30th September 1883.—Whereas a notification, dated the 24th July 1883, was published at page 674, Part I of the *Calcutta Gazette* of the 8th August 1883, declaring the intention of the Lieutenant-Governor to confirm certain bye-laws framed by the District Road Cess Committee of Khulna under section 180 of the Cess Act, IX (B. C.) of 1880, and whereas no objections have been raised to those bye-laws, it is now notified for general information that they are confirmed.

COLMAN MACAULAY,
Secretary to the Govt. of Bengal.

ROAD CESS NOTIFICATION.

DISTRICT OF HOOGHLY.

The 5th October 1883.—It is hereby notified that the Road Cess Committee of the district of Hooghly have determined to levy road cess for the cess year commencing from the 1st October 1883 at the maximum rate of six pies, or two pice, on each rupee of the annual value of lands, and the said rate having been approved by the Commissioner of the Division, is hereby published for general information.

COLMAN MACAULAY,
Secretary to the Govt. of Bengal.

NOTIFICATION.

The 27th September 1883.—Whereas a notification was published in the *Calcutta Gazette* of the 4th July last, declaring the intention of the Lieutenant-Governor, on the recommendation of the Commissioners of the Jessore Municipality, made at a meeting, to extend the provisions of sections 256 to 263 (both inclusive) of the Bengal Municipal Act, V (B.C.) of 1876, to that municipality, and whereas no valid objection has been raised to the proposed measure, the Lieutenant-Governor, in the exercise of the powers conferred on him by section 234 of the Act, sanctions the extension, and directs that it shall take effect from the 1st November 1883.

COLMAN MACAULAY,
Secretary to the Govt. of Bengal.

NOTIFICATION.

The 27th September 1883.—It is hereby notified for general information that, in the exercise of the powers conferred upon him by section 1 of the Bengal Vaccination Act, V (B.C.) of 1880, the Lieutenant-Governor intends to extend the provisions of the Act to the municipality of Kotechandpore, in the district of Jessore, unless good reasons to the contrary be shown within six weeks from the date of the publication of this notification within the above municipality.

COLMAN MACAULAY,
Secretary to the Govt. of Bengal.

NOTIFICATION.

The 28th September 1883.—It is hereby notified, on the authority of the orders of the Government of India, Home Department, No. 345, dated the 17th September 1883, that for the future licentiates of the vernacular medical schools in Bengal, who possess a certificate of having passed the entrance examination of the Calcutta university, will not, on the occasion of their entering the service of Government as hospital assistants, be required to pass the English qualification examination prescribed in G. G. O. No. 945 of 1868, and will at once become entitled to draw extra English qualification allowance. They will, however, be liable to have their knowledge of English tested, as at present, when they appear for the higher grade examination in accordance with G. G. O. No. 995 of 1873.

COLMAN MACAULAY,
Secretary to the Govt. of Bengal.

NOTIFICATION.

The 1st October 1883.—It is hereby notified for general information that, in the exercise of the powers conferred upon him by section 1 of the Bengal Vaccination Act, V (B. C.) of 1880, the Lieutenant-Governor intends to extend the provisions of the Act to the sudder sub-division of the Bhagulpore district, unless good reasons be shown to the contrary within six weeks from the date of the publication of this notification within the above sub-division.

COLMAN MACAULAY,
Secretary to the Govt. of Bengal.

NOTIFICATION.

The 4th October 1883.—It is hereby notified that the Lieutenant-Governor intends, in the exercise of the power conferred on him by section 78 of Act V (B.C.) of 1876, and in accordance with the recommendation of the Commissioners of the Jamalpore Municipality, in the district of Monghyr, to sanction the levy by the Commissioners, under section 122 of the Act, of a tax on carriages, and horses, and other animals mentioned in the third schedule of the Act, and also a fee on the registration of carts which are kept or habitually used within the station, with effect from the 1st January 1884.

COLMAN MACAULAY,
Secretary to the Govt. of Bengal.

NOTIFICATION.

The 5th October 1883.—Whereas a notification, dated the 25th April 1883, declaring the intention of the Lieutenant-Governor to exclude the villages Juggunnathpore and Bagrole from the Kotulpore Union, in the district of Bankoora, was published at page 357, Part I of the *Calcutta Gazette* of the 2nd May 1883, and whereas no valid objection has been raised to the proposal, it is hereby notified that, in the exercise of the powers conferred on him by section 321, Act V (B. C.) of 1876, the Lieutenant-Governor excludes the said villages from the Kotulpore Union. The revised boundaries of the union will in future be as follows:—

On the North—By a line drawn westward from the north side of the Ghatdighi tank, passing along a footpath up to the Sohai tank; then by the north and west side of the same tank; then along a footpath up to the Kotulpore and Indas road, and then along the boundary line between the mouzahs Gatee and Kotulpore up to the tri-junction point of mouzahs Kotulpore, Gatee, and Rampore.

On the South—By mouzahs Juggunnathpore and Bagrole.

On the East—By the line drawn north-east from the north-west corner of Manusmari tank, passing along a drain and the eastern side of Borajkhaha Ahir; then westward along a footpath up to the south-east corner of Dutta tank; and then northward by the eastern side of the same tank up to its north-east corner; then by a straight line drawn northward from the north-east corner of the Dutta tank up to the south-east corner of Brahmun tank; then by a straight line drawn from the south-east corner of Brahmun tank up to the south-east corner of Ghatdighi tank, and then along the eastern side of the same up to its north-east corner.

On the West—By the limits of mouzahs Gogura, Dhurmopooskurnee, Kopu, and Rampore.

COLMAN MACAULAY,
Secretary to the Govt. of Bengal.

[First Publication.]

NOTIFICATION.

The 28th September 1883.—The following contract for the conveyance of pilgrims from the quarantine station of Camaran to Jedda is published for general information :—

Agreement between the sanitary authorities of the Turkish Government represented by HIS EXCELLENCY ARIF BEY, *Vice-President, on the one side, and the* HON'BLE TERMAN BEY, *Director of the Steam Service of the Khedive* (*duly authorized*), *on the other side.*

It is agreed upon as follows in connection with the pilgrimage of 1883 :—

1*stly*.—The Director of the Steam Service, on behalf of the Khedive, undertakes to transport all pilgrims from the island of Camaran to the port of Jedda who have fulfilled all the existing quarantine and sanitary conditions, with the exception of those pilgrims who are engaged to proceed to Jedda in the same steamer in which they arrive at the island of Camaran. It is to be distinctly understood that no other vessels can convey the pilgrims from the island of Camaran to Jedda, excepting those which have pilgrims on board when they enter the port of the Island, who have already arranged to proceed to Jedda.

2*ndly*.—This service at the beginning will be effected by means of only one of the Khedive's mail steamers, which will be able to carry at least 1,000 pilgrims. If hereafter it is found that one steamer is not sufficient, another of the same service will be assigned for this purpose, so as not to delay the transport of the pilgrims who have fulfilled the above conditions.

3*rdly*.—The service will begin from the date of the establishment of the quarantine encampment at Camaran, and telegraphic notice will be given to the Khedive. It will cease ten days previous to the feast at Bairam.

4*thly*.—The Government will collect from each pilgrim, before his departure from the island of Camaran to the port of Jedda, the sum of £1 sterling and a quarter as passage money. Should a pilgrim refuse to pay this sum, which has been fixed in consultation with the Sanitary Board at Constantinople, the Government will have the right to refuse the passage. The poor pilgrims who are exempted from the sanitary taxes, and who receive during the quarantine a gratuitous ration, will be recognised as such by the Khedive Government on presenting a certificate from Dr. Duca, Chief Officer of the Sanitary Service, and their passage from Camaran to Jedda on the Khedive mail will be granted free.

5*thly*.—Pilgrims who wish for more comfortable accommodation of first and second class should settle the price of their respective passages with the representative of the Khedive at Camaran.

6*thly*.—The Government of Khedive will have the exclusive privilege to transport pilgrims from the island of Camaran to Jedda. Competition will be formally excluded by the sanitary authority of the island of Camaran, exception being made in favour of the vessels referred to in clause 1 of the agreement, and of those also engaged for the transport of pilgrims brought by them to Camaran, and who will have waited for the pilgrims who have fulfilled their quarantine.

7*thly*.—The vessels of this special service, as well as all the pilgrims on board such vessels (unless cholera breaks out during the voyage), will have free access to Jedda and all the other Ottoman ports of the Red Sea.

In case of cholera breaking out during the voyage between Camaran and Jedda, ships and pilgrims will have to return to Camaran to undergo quarantine according to the rules in force.

Constantinople, the twenty-fifth of June eighteen hundred and eighty-three (25th June 1883), under the authority of the Director-General of the Steam Service of the Khedive.

A. P. MACDONNELL,
Offg. Secy. to the Govt. of Bengal.

NOTIFICATION.

The 4th October 1883.—With reference to the notification dated the 17th instant, Mr. F. B. Manson, Officiating Deputy Conservator of Forests, held charge of the Sunderbuns Forest Division from the 1st to the 18th September 1883, during which period Mr. W. E. D'Arcy, Assistant Conservator of Forests, was attached to the Conservator's office (Direction).

A. P. MACDONNELL.
Offg. Secretary to the Govt. of Bengal.

[Second Publication.]

NOTIFICATION.

The 23rd September 1883.—Under the provisions of rule III of the rules of the 28th July 1879, made under section 25 (i) of Act VII of 1878 (the Indian Forest Act), the Lieutenant-Governor is pleased to sanction the closing of the reserved forests of the Darjeeling Terai and Lower Hills (Kurseong and Teesta Forest Divisions), as well as those of the Julpigoree district (Julpigoree and Buxa Forest Divisions) against hunting, shooting, or fishing, from the 1st December 1883 to the 1st June 1884.

A. P. MACDONNELL,
Offg. Secretary to the Govt. of Bengal.

[Second Publication.]

NOTIFICATION.

The 29th September 1883.—The following Notice to Mariners is published for general information.

A. P. MACDONNELL,
Offg. Secretary to the Govt. of Bengal.

GOVERNMENT OF BENGAL, GENERAL (MARINE) DEPARTMENT.

NOTICE TO MARINERS.—(No. 45.)

MALAY PENINSULA—WEST COAST.

MALACCA STRAIT.

PENANG OR PRINCE OF WALES' ISLAND.

Revolving light on Muka Head.

WITH reference to Notice to Mariners, No. 38, dated the 21st August 1883, issued from this Department, notice is hereby given, that the *revolving white* light exhibited from Muka head shows a flash every *fifteen seconds*.

It is visible through an arc of 270°, or between the bearings of North through East and South to West.

The remaining portion of the arc inland is masked.

By direction of the Government of Bengal,

J. MENTEITH BREBNER,
Offg. Port Officer of Calcutta.

PORT OFFICE, *Calcutta, the 28th September* 1883.

[Second Publication.]

NOTIFICATION.

The 1st October 1883.—It is hereby notified that the Lieutenant-Governor intends, after one month from this date, to approve the following additional port rules under section 7 (*f*) of Act XII of 1875 for the control of fishing-boats in the river Hooghly.

Proposed rules.

1. From the lower boundary of the port to Fultah Reach on the river Hooghly a deep navigable channel, not less than 200 yards in width, shall always be left clear for the passage of sea-going vessels, and between the hours from daylight to dark no fisherman shall obstruct the same by mooring or casting a stake net therein. At Sankrail, Peer Sarang, and below Budge-Budge, where the deep water channel lies close to the shore, landmarks have been erected to define the channel to be left clear, and no fishing boats shall be moored nor nets of any description cast between the line indicated by these marks and the shore.

2. Between the hours from daylight to dark no stake net nor drift net shall be cast by fishermen in any part of Garden Reach within port limits.

A. P. MACDONNELL,
Offg. Secretary to the Govt. of Bengal.

[Third Publication.]

NOTIFICATION.

The 24th September 1883.—The following additional rules for the examination of Masters and Mates having been adopted by the Board of Trade, are hereby introduced into the Port of Calcutta.

SERVICE AS THIRD AND FOURTH MATE.

Service in the ships of the Peninsular and Oriental or other large Companies as Third and Fourth Mates shall be accepted to the same extent as Second Mate's service is accepted to qualify candidates for examination for certificates of competency as First Mate. Before, however, a candidate can be allowed to be examined, he must produce satisfactory proofs that he has had charge of a watch for not less than twelve months while serving as such Third or Fourth Mate, and that during the whole of that time he has been in possession of a Second Mate's certificate of competency.

Service as Third and Fourth Mate may, under the same conditions, be accepted to qualify a candidate to be examined for a Master's certificate of competency, provided the candidate has also served at sea for at least 12 months in a position not lower than that of a Second Mate while in possession of a First Mate's certificate of competency. If a candidate has had no service as First Mate, he must have been 6½ years at sea, of which 2½ must have been as Mate of a lower grade under the above-named conditions. Occasional service in charge of a watch in the daytime will not be accepted as Mate's service.

RIVER AND SMOOTH-WATER SERVICE.

Service performed on rivers, no matter of what size, or within smooth-water or partially smooth-water limits, cannot be accepted as sea service under the regulations.

COLOUR BLINDNESS.

In case of candidates failing in the colour test, they may be examined again in colours at any time, as in the case of persons not applying for certificates, on payment of a fresh fee of 8 annas. When, however, they go up for certificates of competency, they will have to fill up form Exn. 2, and be again examined in colours, and in case of failure to pass the colour test will be put back three months as specified in the regulations.

A. P. MACDONNELL,
Offg. Secretary to the Govt. of Bengal.

[Third Publication.]

NOTIFICATION.

The 21st September 1883.—It is hereby notified, under the provisions of section 4, Act IX of 1847, that the revenue survey of the undermentioned pergunnahs and parts of pergunnahs of district Balasore has been completed, and has been approved by Government, viz :—Bhelorachor, Jellasore, Napuchor, Kismut Napuchor, Fateabad, Birkul (part of), Kankrachor (part of), Chak Ismailpur (part of), Mirgoda (part of), Bhograi (part of), and Langalesshar (part of).

A. P. MACDONNELL,
Offg. Secretary to the Govt. of Bengal.

JUDICIAL DEPARTMENT.

No. 2051A.

F. B. PEACOCK,
Secretary to the Govt. of Bengal.

[Third Publication.]

NOTIFICATION.

The 17th September 1883.—Under section 2 of Act II (B.C.) of 1867 (an Act to provide for the punishment of public gambling and the keeping of common gaming-houses), the Lieutenant-Governor extends all the sections of the said Act to the town of Mozufferpore, as comprised within the limits of the Mozufferpore Municipality, in the district of Mozufferpore.

F. B. PEACOCK,
Secretary to the Govt. of Bengal.

PUBLIC WORKS DEPARTMENT,—BENGAL.

The 5th October 1883.

No. 345.—*Appointment.*—Mr. W. B. Bestic, Assistant Engineer, second grade, is appointed Under-Secretary to Government in this department, *vice* Mr. O. Hœrnle, proceeding on furlough.

No. 346.—*Notification.*—The following Assistant Engineers of the second grade passed the examination prescribed in Public Works Code, chapter II, paragraph 17, on the 1st October 1883 :—

Mr. R. E. Carter. | Mr. G. C. Maconchy.

No. 347.—*Promotion.*—Mr. S. C. Roberts, Deputy Revenue Superintendent of Canals in Orissa, is promoted from the second to the first grade, with effect from the 1st October 1883.

No. 348.—*Appointment.*—Mr. J. C. Price, Executive Engineer, fourth grade, is appointed Executive Engineer of the Jessore Division, *vice* Baboo Khetter Nath Chatterjee.

COMMUNICATIONS

The 5th October 1883.

No. 349.—*Declaration.*—Whereas it appears to the Lieutenant-Governor of Bengal that land is required to be taken up by Government at the public expense for a public purpose, viz. for constructing a road from Changrabinduh to Pategram, in the villages of Boorimari, Srirampore, Upharmarah, Dhabulsuti, and Koretali, in pergunnah Chakla Patgram, district Julpiguri, it is hereby declared that a strip of land measuring, more or less, 106 beeghas and 19 cottahs of standard measurement, is required in the aforesaid villages of Boorimari, Srirampore, Upharmarah, Dhabulsuti, and Koretali.

This declaration is made, under the provisions of section 6 of Act X of 1870, to all whom it may concern.

G. F. E. S. NEILL, *Major*, M.S.C.,
Under-Secretary to the Govt. of Bengal, P. W. Dept.

The 9th October 1883.

No. 350.—*Leave.*—Mr. G. F. Lamb, Executive Engineer, fourth grade, temporary rank, Dacca and Mymensing State Railway, is granted one year's furlough, with the necessary subsidiary leave, from the 1st November 1883, or such date as he may be allowed to avail himself of the same.

CIVIL BUILDINGS.

The 9th October 1883.

No. 351.—*Declaration.*—Whereas it appears to the Lieutenant-Governor of Bengal that land is required to be taken by Government at the public expense for a public purpose, viz. for the construction of a subsidiary jail at the Ghattal sub-division in the village of Konnagore, pergunnah Burdah, zillah Midnapore, it is hereby declared that for the above purpose a piece of land measuring, more or less, 1 beegha 10 cottahs and 10 chittacks of standard measurement, bounded on the *north* by a pucca building and huts and land belonging to Messrs. R. Watson and Co., *west* by the Selye right embankment, *south* by the new Ghattal sub-divisional buildings, and *east* by a public road, is required within the aforesaid village of Konnagore.

This declaration is made, under the provisions of section 6 of Act X of 1870, to all whom it may concern.

O HŒRNLE,
Under-Secy. to the Govt. of Bengal, P. W. Dept.

HIGH COURT NOTICE.

High Court Mukhtyars.

NOTIFICATION.

IN supersession of the notification dated the 10th August 1883, published in the *Calcutta Gazettes* of the 15th, 22nd, and 29th August 1883, the High Court are pleased to order that the security required by Rule 1 of the Rules made by the High Court on the 17th May 1882, under section 16, clauses (*a*), (*b*), and (*c*), Act XVIII of 1879, shall be deposited with the Registrar of the Court, on its Appellate Side, on or before the 17th November 1883.

Failure to deposit such security by the prescribed date will result in the defaulter's name being struck off the list of selected applicants.

By order of the High Court,

C. A. WILKINS, *Offg. Registrar.*

FORT WILLIAM. *the 31st August* 1883.

SMALL CAUSE COURT NOTICE.

UNDER section 14, Act XI of 1865, it is hereby notified that the Judge of the Courts of Small Causes of Hooghly, Serampore, and Howrah will, *subject to the orders of Government*, hold *extraordinary sittings* in the Serampore Small Cause Court on the dates mentioned below :—

Monday, the 17th December 1883.
Tuesday, the 18th „ „

SREE NATH ROY, *Judge.*

COURT OF SMALL CAUSES, HOWRAH, *the 25th September* 1883.

EDUCATIONAL NOTICES.

IT is hereby notified that at the next half-yearly examination of Junior Civilians, Deputy Magistrates, &c., to commence on Monday, the 5th of November 1883, four local examination committees will be convened in this division, viz., (1) at No 14, Hare Street, Calcutta, for officers stationed at the Presidency or employed in the 24-Pergunnahs; (1) at Kishnaghur for officers employed in the Nuddea district; (1) at Jessore sudder station for officers employed in that district as well as in the district of Khoolna; and (1) at Berhampore for officers employed in the Moorshedabad district.

J. MONRO, *Commissioner.*

COMMR.'S OFFICE, PRESIDENCY DIVISION, *Calcutta, the 1st October* 1883.

NOTICE is hereby given that the ensuing half-yearly departmental examination of Assistant Magistrates, Deputy Magistrates, and others serving in this Division will be held at Bankipore in the Commissioner's Office on Monday, the 5th November, and following days.

F. M. HALLIDAY, *Commissioner.*

PATNA COMMR'S. OFFICE, *Bankipore, the 22nd September* 1883.

NOTIFICATIONS OF THE BOARD OF REVENUE.

No. 1110B.

NOTICE is hereby given that the Eleventh Sale of Opium, the Provision of 1881-82, will be held at the Government Opium Sale-room, No. 2, Bankshall-street, on Thursday, the 1st November 1883, at 11 A.M., and will comprise 4,450 chests, viz :—

	Chests.
Opium manufactured at the Patna Factory of 77° consistence ...	2,225
Opium manufactured at the Ghazipore Factory of 72° consistence ...	2,225
Total ..	4,450

2nd. The general conditions of the sale now advertised will be the same as usual. They may be ascertained by reference to the Notification issued on the 28th November 1882, and published in the *Government* and *Exchange Gazettes*, or on personal application at the Office of the Board of Revenue.

3rd. The latest dates for deposit and clearance will be the 6th and 16th November 1883, respectively, that is to say, no Bank of Bengal Receipts, Government Promissory Notes, or other public securities that may be tendered for deposit in redemption of Promissory Notes given by purchasers in the Sale-room will be received after 3-30 P.M. of Tuesday, the 6th November 1883, and no Bank of Bengal Receipts in full payment of lots will be accepted after 3-30 P.M. of Friday, the 16th November 1883.

4th. In addition to the quantity above advertised for sale, the following quantities, more or less, of the opium manufactured at the Patna and Ghazipore Factories will be brought to sale in the present year, about the dates specified below. The Board of Revenue, however, reserve to themselves the right of altering these dates, should circumstances render it expedient to do so.

DATES.	Manufactured at the Patna Factory, about chests.	Manufactured at the Ghazipore Factory, about chests.	Total, about chests
On or about Monday, 3rd December 1883 ...	2,225	2,225	4,450
Total ...	2,225	2,225	4,450

By order of the Board of Revenue, L. P.,

C. E. BUCKLAND, *Offg. Secretary.*

BOARD OF REVENUE, L.P., FORT WILLIAM, *the 25th September* 1883.

No. 1135½B.

THE following rules have been made under section 9 of Act VIII of 1878 by the Board of Revenue, Lower Provinces, with the sanction of the Local Government, and are, under section 204 of the same Act, notified for general information :—

CALCUTTA INTERNATIONAL EXHIBITION, 1883-84.

CUSTOM HOUSE ARRANGEMENTS.

1. All entries of goods for the Exhibition must be passed at the Custom House in accordance with the arrangements made by the Collector of Customs.

2. In respect of dutiable goods the Exhibition building is appointed a public warehouse under the provisions of section 15 of Act VIII of 1878, of which Mr. Jules Joubert shall be deemed to be the keeper for the purposes of section 96 of that Act.

3. Packages containing dutiable goods, upon which duty has not been paid, must be entered for bond and appraised and taken in charge of an officer to the Exhibition building in the usual manner. Pending appraisement and removal to the Exhibition building, all such packages will be allowed to remain rent-free in a portion of the Custom House premises set apart for the purpose.

4. At the close of the Exhibition, exhibitors will have to account to the Custom House authorities for all dutiable goods admitted into the Exhibition in accordance with the bond bill of entry. Goods intended for delivery in Calcutta on sale or otherwise will on payment of duty be cleared from bond, and goods intended for re-exportation will be re-shipped from bond in the usual manner.

5. The charges mentioned in the schedule attached to these rules are remitted in respect of goods intended for the Exhibition.

6. No duty will be payable for wines, spirits, or other liquors consumed in the Exhibition for tasting or judging purposes, and a certificate of the amount thus consumed must be obtained from the Secretary to the Executive Committee of the Exhibition and presented by exhibitors to the Custom House officer when accounting for the dutiable goods admitted into the Exhibition. Without such certificate duty will be assessed on all dutiable goods shown by the bills of entry as having been admitted into the Exhibition and which are not forthcoming at its close.

7. The Custom House officers will not have custody of, or be in any way responsible for, goods in the Exhibition building, the custody of which as a public warehouse will rest with Mr. Jules Joubert.

8. These rules apply only to goods intended *bonâ fide* for Exhibition.

Advertisements.

[N.B.—Advertisements, Notices, &c., intended for insertion in this part of the Gazette, cannot be received after Noon on Monday.]

LAND SALE NOTICES.

NOTICE is hereby given that the proprietary right of Government, as specified in the conditions of sale below, to the undermentioned land situate in the district of Hazaribagh will be put up to sale at the Hazaribagh Collectorate on Thursday, 15th November 1883, corresponding with 1st Aghan 1291 Fush.

The purchaser will be subject to the following conditions of sale :—

Conditions of Sale.

1*st*.—The land to be sold revenue-free to the highest bidder above the upset price. The purchaser of this land will be considered as the proprietor of the land, and the entire proprietary right of Government in such land will be transferred to him.

2*nd*.—If the amount of purchase-money do not exceed Rs. 100, the whole amount to be paid down at once.

3*rd*.—If the amount of purchase-money exceed Rs. 100, one-fourth of the amount bid to be immediately deposited. If the balance be not paid by noon of the fifteenth day after the sale, reckoning the day of sale as one, or if that day be a close holiday, then by noon of the first succeeding office day, the sale to be cancelled (the sum deposited being forfeited to Government), and the land to be again put up to sale at the risk of the defaulting purchaser, after issue of advertisement, as in the case of original sale.

JAS. TAYLOR,
Asst. Comptr.-Genl., in charge, Paper Currency.
PAPER CURRENCY DEPARTMENT, the 2nd Oct. 1883.

Notification.

IT is hereby notified for information of the public that a duplicate receipt for an amount exceeding Rs. 20 is liable to a stamp duty of one anna under Article 23 (*a*), Schedule I of Act I of 1879, and should, under section 16 of the Act, be stamped before or at the time of execution. If the duty payable on the duplicate receipt is denoted by an adhesive stamp, such stamp should be cancelled *so that it cannot be used again*. Any person signing a duplicate receipt when the amount exceeds Rs. 20 without the same being duly stamped, is liable to be criminally prosecuted under section 61, Act I of 1879, and punished with a fine which may extend to Rs. 500; and any person neglecting or omitting *to effectually cancel the adhesive stamp* and in payment of stamp duty renders himself liable to a fine which may extend to Rs. 100.

The attention of banking, mercantile, and trading community is especially drawn to the requirements of the law on this point

G. M. GOODRICKE, Collector of Calcutta.

Calcutta Collectorate, the 13th September 1883.

Notice.

THE Public are hereby informed that the well-known Kartick Baruni Mela, which is held every year on the banks of the Dhaleshwari, near Munshiganga, in the district of Dacca, will commence on the 14th November 1883 A.D., corresponding to the 29th Kartick 1290 B.S., and continue up to the 25th December 1883. Tradesmen, dealers, and others may buy and sell there during these six weeks.

A. W. PAUL, Magistrate of Dacca.

Notification.

THE owners of Lands in Calcutta or their Agents, Trustees, Executors, Administrators, &c., are hereby informed that for purposes of more speedy and convenient collection of land revenue in Calcutta, the town has been divided into eleven parts, each embracing a certain number of survey blocks, and that the revenue payable on account of all holdings for the current official year (1883-84), which became due on the 1st day of April 1883, must be paid into this Collectorate within the time mentioned against each survey block within which such holdings are situated.

Part I embracing—		
Survey blocks 1 and 2 North Division Ditto 1 and 2 South Division	The land revenue due on account of holdings situated within these blocks must be paid on or before the	30th April 1883.
Part II embracing—		
Survey blocks 3 and 4 North Division Ditto 3 and 4 South Division	Ditto	ditto on or before 31st May 1883.
Part III embracing—		
Survey blocks 5 and 6 North Division Ditto 5 and 6 South Division	Ditto	ditto on or before 30th June 1883.
Part IV embracing—		
Survey blocks 7 and 8 North Division Ditto 7 and 8 South Division	Ditto	ditto on or before 31st July 1883.
Part V embracing—		
Survey blocks 9 and 10 North Division Ditto 9 and 10 South Division	Ditto	ditto on or before 31st August 1883.
Part VI embracing—		
Survey blocks 11 and 12 North Division Ditto 11 and 12 South Division And Talook Sootanooty.	Ditto	ditto on or before 30th September 1883.
Part VII embracing—		
Survey blocks 13 and 14 North Division Ditto 13 and 14 South Division	Ditto	ditto on or before 31st October 1883.
Part VIII embracing—		
Survey blocks 15 and 16 North Division Ditto 15 and 16 South Division	Ditto	ditto on or before 30th November 1883.
Part IX embracing—		
Survey blocks 17 and 18 North Division Ditto 17 and 18 South Division	Ditto	ditto on or before 31st December 1883.
Part X embracing—		
Survey blocks 19 and 23 North Division Ditto 19 and 20 South Division	Ditto	ditto on or before 31st January 1884.
Part XI embracing—		
Survey blocks 24 and 25 North Division Ditto 21 and 23 South Division And Lottery Committee lands assessed under Act 23 of 1850.	Ditto	ditto on or before 29th February 1884.

If the rents are not paid in accordance with this notification, the provisions of the law will be immediately enforced in every case.

G. M. GOODRICKE, Collector.

Darjeeling, the 2nd October 1883.

Estate Nobocoomar Sett, deceased.

NOTICE is hereby given that, pursuant to the provisions of section 31 of "The Administrator-General's Act, 1874," and by a deed bearing date the 20th day of September 1883, executed by Sreenautty Surnomoye Dossee, Rajendernauth Sett, and Mudden Mohun Bysack, the executrix and executors of the will of the above-named deceased, they have transferred all estates, effects, and interests vested in them by virtue of the probate granted to them by the High Court of Calcutta to the Administrator-General of Bengal. Dated this 25th day of September 1883.

(1604—3) BEEBY AND RUTTER, Attorneys-at-Law.

Johnstone Smith, deceased.

IN pursuance of section 42, Act XXVIII of 1866, notice is hereby given that all persons having claims against the estate of Johnstone Smith, late of Calcutta, who died in London on the 30th day of September 1882, should send in their claims to Robert Hardie, Secretary and Treasurer of the Bank of Bengal, Calcutta, one of the executors named in the will of the deceased, on or before Thursday, the 25th day of October 1883, after which date no claim will be admitted.

R. HARDIE, Executor.

Calcutta, 22nd September 1883. 1575—3)

NOTICE is hereby given that the business as Brokers heretofore carried on by us the undersigned in partnership with A. J. L. Payne, under the style of Payne and Trotter, has been dissolved as from the 1st October instant, and that the business will henceforth be carried on by us under the style of Trotter and Perman. The assets and liabilities of the business of Payne and Trotter will be received and paid by us.

Dated this 4th day of October 1883.

(1629—1) A. E. C. TROTTER.
F. W. PERMAN.

Indian Portland Cement Company, "Limited."

NOTICE is hereby given that an Extraordinary General Meeting of the Company, held at the office of the undersigned, on the 1st day of October 1883, it was resolved by an extraordinary resolution that it had been proved to the satisfaction of the Company that it could not by reason of its liabilities continue its business, and that it was advisable to wind-up the same and that the same be wound-up accordingly.

for the INDIAN ORTLAND CEMENT CO., LD.,
(1611 1) FINLAY, MUIR & Co, Acting Agents.

Sonai Tea Company, "Limited."

NOTICE.

AN Extraordinary General Meeting of Shareholders of the Sonai Tea Company, Limited, will be held at the registered office of the Company, No. 12, Mission Row, Calcutta, on Friday, the 26th day o October 1883, at 12 o'clock, to confirm the following resolution passed at the Extraordinary General Meeting of Shareholders, held this day the 2nd day of October 1883.

That the Company be wound-up voluntarily and that Mr. W. A Browne be and he is hereby appointed liquidator (at such remuneration as the Company may fix) for the purposes of such winding up, with power to do such of the several acts and things specified in the Indian Company's Act, 1882 (and especially sections 144 and 177 of such Act), as shall be found necessary or proper for winding-up the affairs of the Company and distributing its assets.

BEGG, DUNLOP & Co., Managing Agents.
Calcutta, 2nd October 1883. (1624—4)

India General Steam Navigation Company, "Limited."

NOTICE is hereby given that an Extraordinary General Meeting of the Company will be held at the registered office of the Company, No. 4, Fairlie Place, Calcutta, on Friday, the 19th of October 1883, at the hour of noon, when resolutions will be proposed—(1) for consolidating and sub-dividing the shares in the capital of the Company in such manner that the paid-up capital shall henceforth be divided into shares of Rs. 100 each, and for calling in and cancelling the existing certificates of shares and for issuing new certificates; and (2) for rescinding the 50th article of Association of the Company relating to the voting power of share-holders and for the substitution in lieu thereof of such regulation as the proposed consolidation and sub-division of shares may render necessary.

Dated this 28th day of September 1883.

By order of the Directors,
(1613—3) J. GILLMAN, Officiating Secretary.

JOHN ELIOT, M.A., *Meteorological Reporter to the Govt. of Bengal.*

CALCUTTA, the 26th August 1875.

Notes on Forestry,

BY C. F. AMERY,

Deputy Conservator, Forests, N.-W. Provinces.

THIS little work, published with the approval of the Government of India, treats of the general principles of forest management in all its branches, and is recommended not only to forest officers, but to all who are interested in the progress of forest management in this country.

May be obtained of Messrs. King, King & Co., Bombay, and of Messrs. Wyman & Co., Calcutta. Price Rs. 3-8, or including postage, Rs. 4. Or of the publishers, Messrs. Trübner & Co., Ludgate Hill, London. Price five shillings.

The Indian Law Reports.

Published under Authority of the Governor-General in Council.

THE Reports appear in monthly parts, published as soon as possible after the first of each month at Calcutta, Madras, Bombay, and Allahabad, and will comprise four series,—one for the Calcutta High Court, a second for the Madras High Court, a third for the Bombay High Court, and a fourth for the Allahabad High Court. The cases heard by the Privy Council on appeal from each High Court will be reported in the Series for that High Court. Cases heard by the Privy Council on appeal from Provinces in India not subject to any High Court will be reported in the Calcutta Series.

The Parts of each series can be had separately, or all four Parts can be had stitched into one wrapper at the option of subscribers and purchasers. It will be observed from the following statement of the terms of subscription and sale, that a considerable reduction is allowed to persons taking the complete set.

Terms of subscription, payable annually in advance.

	Without postage.	With postage
For the Calcutta Series...	Rs. 35	Rs. 40
,, Madras Series ...	,, 8	,, 9
,, Bombay Series...	,, 8	,, 9
,, Allahabad Series	,, 8	,, 9
Complete set	45	,, 50

The Price of each part purchased separately will vary according to the amount of matter it contains, and will be printed on the wrapper. It will, however, never be below the following:—

	Rs.	A.
For a part of the Calcutta Series ...	3	8
,, ,, Madras Series ...	1	0
,, ,, Bombay Series ...	1	0
,, ,, Allahabad Series ...	1	0
Complete set	4	0

Persons desiring to subscribe for or purchase the Reports, should apply to—

Messrs. Thacker, Spink and Co., Calcutta;
,, Thacker, Vining and Co.;
,, Higginbotham and Co, Madras;
The Government Central Book Depôt, Bombay;
The Government Book Depôt, Allahabad.

Notice.

THE following Reports of the Bengal Meteorological Department, issued by orders by the Government of Bengal, can be supplied to the public at the prices annexed:—

1*st*.—Bay of Bengal Daily Report giving observations taken at 17 stations on or near the coast of the Bay, with a chart and summary. This is published in connection with the Calcutta Storm Signal Service. The report giving 10 A.M. observations of the day is distributed by peon in Calcutta after 4 P.M. Price to subscribers in Calcutta, Rs. 2 per mensem.

2*nd*.—Bengal Daily Report containing observations taken at 30 meteorological stations, and transmitted to Calcutta by weather telegrams, with a brief summary of the weather in Bengal during the preceding 24 hours. The report giving the 10 A.M. observations of each day is printed in time for the evening mail. This report for the present will only be published during the south-west monsoon, *i.e.* from May, 15th, to November, 15th. Price, Rs. 2-8 per mensem, including postage.

3*rd*.—A Weekly and Monthly Statement of Meteorological Observations taken at 38 observing stations, and of rainfall recorded at 160 sub-divisional stations, together with summaries of the more important features of the meteorology of the past week or month of the province, and of the distribution of the rainfall and its variation from the normal. Price of the Weekly Report, including postage, Rs. 6 per annum, payable in advance, and of the Monthly Summary Report, Rs. 2 per annum, payable in advance.

Subscriptions payable to the Meteorological Reporter to the Government of Bengal for the Bay of Bengal Daily Report, and to the Accountant and Treasurer, Bengal Secretariat, for the other reports.

JOHN ELIOT,
Meteorological Reporter to the Govt. of Bengal.
Meteorological Office, Bengal, the 3rd July 1883.

Rainfall, Weather, and State and Prospects of the Crops

Statement showing Rainfall, Weather, and State and Prospects of the Crops in the different Districts of Bengal, as reported to Government during the week ending the 6th October 1883.

No.	District, and date of return.	Rainfall at Sudder Station in inches.	Character of the weather, state and prospects of the crops, and state of health at date.
BENGAL.	***Western Districts.***		
BURDWAN DIVN. 1	Burdwan, Oct. 6 '83	0·43	Weather—very close. In the greater part of the district the crops on the high lands are suffering from want of rain, and in some places the low lands are drying up. Rain is badly wanted. Prospects unfavourable.
	Cutna ...	1·29	
	Cutwa ...	0·39	
2	Bankoora, „ 6 „	0·14	Weather—hot and clear. Early mornings beginning to be cool. Want of rain is very much felt throughout the district. *Aus* rice is being harvested. Outturn of *amun* rice will fall short of what was expected; but even now a shower or two of rain would give very good results. Public health good.
	Bishenpore ...	2·38	
	Maliara ...	Nil	
	Khatra ..	1·50	
3	Beerbhoom, „ 6 „	0·54	Weather—generally hot and clear. Want of rain for rice crop increasingly felt. Prospects of harvest somewhat uncertain. Prices of food-grains at present unaltered. Public health satisfactory.
	Rampore Haut ..	0·07	
4	Midnapore „ 6 „	0·01	Weather—clear and warm. Want of rain is keenly felt everywhere. Prospects of crops unfavourable, less so in Contai sub-division. Public health fair.
5	Hooghly, „ 6 „	Nil	Weather—hot for the season. Rain much wanted in the Serampore sub-division. *Amun* has already suffered a great deal. Other crops doing well. Fever prevails in the interior. A few cases of cholera have occurred at the station.
	Howrah ...	.....	Report not received.

No.	District, and date of return.	Rainfall at Sudder Station in inches.	Character of the weather, state and prospects of the crops, and state of health at date.
BENGAL.—*concld.*			
	Central Districts.		
PRESIDENCY DIVN. 6	24-Pergunnahs. Oct. 9 '83	Nil	Weather—hot and dry. Harvesting of early crops nearly finished. More rain much wanted for late crops. Public health generally good.
7	Nuddea, „ 6 „	Nil	Weather—hot and clear. *Amun* suffering from want of rain throughout district. Rain wanted for all crops. Fever stationary.
	Kooshtea ...	0·77	
	Meherpore ...	0·59	
	Chooadanga ...	0·12	
8	Khoolna, „ 6 „	1·68	Weather—very hot, with rain on one day. The cessation of the rains has not as yet caused much damage to crops. In Bagirhat rain which fell in the early part of the week has done much good, in other places more rain is much wanted, but prospects are not bad yet.
9	Jessore, „ 6 „	0·29	Weather—clear, dry, and warm. Prospects of *amun* crop on high lands are
	Jhenida ...	0·52	very bad owing to insufficient rain. Low land *amun* fair. If there be rain
	Magura ...	2·35	in a fortnight the crops may not suffer. Rain below the average. General
	Narail ..	1·03	health good.
	Bongong ...	1·5	
10	Moorshedabad, „ 5 „	Nil	Weather—extremely dry and sultry. The drought is causing immense damage to the late rice, which cannot now be an average crop; while the continued absence of rain will, it is feared, cause a total failure of this important crop.
RAJSHAHYE AND COOCH BEHAR DIVN. 11	Dinagepore Oct. 5 '83	0·03	Weather—fair. Prospects fair, but rain wanted in the south of the district for *amun*.
12	Rajshahye, „ 6 „	0·10	Weather—increasingly hot and dry. In Nowgong both *bhil* and *ropa* paddy are
	Nattore ..	Nil	suffering for want of rain. *Ganja* crop doing well up to date. The *ropa*
	Nowgong ...	0·98	paddy in the Bharind must be lost unless rain comes soon. Some cholera reported from Nowgong and in the Nattore Town.
13	Rungpore „ 5 „	Nil	Weather—hot. Jute is still being cut. Prospects of winter rice and sugarcane
	Gaibanda ...	0·33	not favourable. Fever prevalent. Public health otherwise good.
	Kurigram ...	0·47	
14	Bogra „ 6 „	Nil	The week has been drier and hotter than usual. Rain is again very urgently wanted. The state and prospects of the *amun* crop are very unpromising. Fever is prevalent in most parts of the district.
15	Pubna, „ 6 „	Nil	Weather—dry and hot. Rain much wanted. The rice crop is suffering very much from want of rain and a good flood. The outturn will be very poor.
16	Darjeeling, „ 6 „	0·70	Weather—getting brighter, but clouds still hanging about. Crops in the hills doing well, but more rain much wanted for late rice in the Terai The tea season promises to close early. Public health good.
17	Jalpaiguri, „ 6 „	1·42	Weather—seasonable. State and prospects of crops generally favourable. Transplanting of late rice nearly over. *Thakuri* and *kulti kalai* in parts of the district are backward owing to heavy rain. Land is being prepared for potato. Public health good.
	Cooch Behar „ 5 „ up to 3rd inst.	0·58	Weather—fair; getting cooler. Prospects of late rice continue good. Ploughing for cold-weather crops commenced. Public health good.
	Dinhatta ... up to 30th Sept.	1·06	
	Mathabhanga ... up to 29th Sept.	12·18	
	Meekliganje ... up to 29th Sept.	9·86	
	Eastern Districts		
DACCA DIVN. 18	Dacca Oct. 6 '83	Nil	Weather—hot. *Aus* paddy and jute are still being cut. *Ashini* paddy is being
	Manickgunge ...	0·36	harvested in one station. Prospects of crops good.
	Munshigunge ...	2·11	
	Narainguuge ...	0·13	
19	Furreedoote, „ 6 „	Nil	Weather—except in the south, dry and excessively hot. Rivers much fallen. State
	Goalundo ...	0·30	and prospects of *amun* indifferent; sugarcane good. Public health moderate,
	Madaripore ...	3·07	but there is a good deal of fever in several places.
20	Backergunge. „ 4 „	3·34	Weather—seasonable. Prospects of crops good. Fever has made its appearance in the sub-division of Patuakhali. General health fair.
21	Mymensingh, „ 5 „	Nil	Weather—grown warmer, with hot sun; less wind; very fine. More rain wanted.
	Jamalpore ...	2·59	The transplanted rice crop will suffer if there is no rain soon. Public health
	Kishoregunge ...	0·73	good.
	Attea ...	0·36	
	Netrokona ...	1·31	
CHITTAGONG DIVN. 22	Chittagong, Oct. 9 '83	0·43	Weather—seasonable. Outturn of *aus* rice fair. Prices stationary. Cattle-disease still continues.
23	Noakholly, „ 4 „	4·87	Weather—sultry and cloudy at times. Young *amun* plants are promising; occasional rain has done good to the plants.
24	Tipperah, „ 4 „	3·69	Weather—fine and very hot. Northerly wind has set in. State and prospects of
	Brahmunberia ..	3·94	crops good all round, except in a small area of high land.
	Chandpore ...	9·65	
25	Chittagong Hill Tracts „ 2 „	4·29	Weather—rainy throughout the week. Gathering of *jum* paddy still continues Plough paddy doing well. Sugarcane not good.
	Hill Tipperah „ 3 „	2·76	Weather—hot during day, and rather cold at close of night. Prospects of paddy and sugarcane fair. Public health good.
BEHAR			
PATNA DIVN. 26	Patna, Oct. 5 '83	Nil	Weather—hot Gathering of *bhadoi* crops almost completed. Much rain wanted, chiefly in Behar sub-division. Fever and cholera still reported from the interior.
27	Gya, „ 6 „	Nil	Weather—warm, but without signs of rain. The failure of the October rain so far has made things much worse than before. Cholera has almost disappeared, except in the town of Gya. Prices stationary; not very high.
28	Shahabad, „ 6 „	Nil	Weather—fair and growing cool. The premature cessation of the rains endangers
	Buxar ...	Nil	the rice crop.

	No.	District, and date of return.	Rainfall at Sudder Station in inches.	Character of the weather, state and prospects of the crops, and state of health at date.
BEHAR—*concld.*				
Patna Divn.—*concld.*	29	Durbhunga, Oct. 6 '83	Nil	Weather—hot and sultry. The outlook is not promising, for rain is very much wanted and there are no indications of any likely to fall soon. As a rule the *bhadoi* harvest was only an average one. Prices show a tendency to rise. Public health is generally good.
	30	Mozufferpore, „ 6 „	0·05	Weather—close and nearly rainless, though sky sometimes overclouded. The *bhadoi* harvest has been nearly completed. *Rubbee* sowings have commenced. The continued absence of rain causes grave anxiety for the *aghani* harvest. Public health good
		Hajeepore ...	Nil	
		Seetamarhi ...	0·23	
	31	Saran, „ 6 „	Nil	Weather—dry and warm. Harvesting of *bhadoi* crops completed with average results. Rain most urgently wanted for paddy crop. In low lands the crop is still doing well, but in high lands it is suffering for want of rain. Public health good. Prices easy.
		Sewan ...	Nil	
		Gopalgunge ..	Nil	
	32	Chumparun „ 6 „	Nil	Weather—seasonable; getting cooler. The protracted drought causes grave anxiety. In some places there is not sufficient moisture in the soil to permit of the *rubbee* crops being sown. The paddy crop in most places requires rain. The *bhadoi* crop is being harvested, but the outturn has been far below an average one.
Bhagulpore Divn.	33	Monghyr Oct. 6 '83	Nil	Weather—seasonable. Prospects of rice crop continue favourable generally, but some damage has been caused to low land crops by heavy rain and inundations in Begoosarai sub division Public health good.
	34	Bhagulpore, „ 5 „	Nil	The only part of the district where rain has fallen is Sooipole, where a fall of 0·04 has been registered. The days have been unusually hot. Heavy dews at night. The paddy crop in high lands has suffered very much from the protracted drought; that in low lands is still doing well. The preparation of lands for the *rubbee* sowings has been delayed. The ryots are anxiously expecting the long deferred *huttya* rain. If no rain falls, the prospects will be seriously affected.
	35	Purneah, „ 6 „	Nil	Weather—unusually hot and dry. Reports from Kissengunge sub-division continue to be good. In Arrareah insects are damaging the rice on the high lands. In the Sudder sub-division the winter rice is suffering from the drought of the past week. More rain is much required. Prices rising. Fever prevails almost everywhere.
		Kissengunge ...	0·54	
		Arrareah ...	Nil	
	36	Maldah, „ 6 „	Nil	Weather—fair. Rain is much wanted for the late rice crop. Common rice selling at 18 seers per rupee. General health good.
	37	Southal Perghs. „ 7 „	0·86	Weather—bright and still rather hot during the day; mornings and evenings getting cool. More rain wanted everywhere. Crops in the sudder sub-division look fair, but a good shower will improve prospects.
		Deoghur ..	Nil	
		Rajmehal ..	0·33	
		Jamtara ..	0·23	
		Pakour ...	Nil	
ORISSA.				
Orissa Divn	38	Cuttack Oct. 5 '83	0·09	Weather—very hot. Atmosphere clear. *Boali* being thrashed and gathered; in some places it is still being cut. *Sarad* thriving well, but rain is urgently wanted. Common rice selling at from 18 to 24 seers per rupee. Public health generally good.
	39	Pooree, „ 4 „	1·76	Weather—hot. Prospects of crops generally good. Cattle-disease reported from thana Gope. Small-pox abating in Banpore. Common rice selling at from 27 to 33 seers per rupee.
	40	Balasore, „ 5 „	0·07	Weather—hot and close Weeding nearly completed. *Aus* paddy being reaped. Rain very much needed, especially for high lands, but clouds are gathering and some rain is soon expected. Public health good.
CHOTA NAGPORE. *South-West Frontier Agency.*				
	41	Hazaribagh, Oct. 5 '83	Nil	Weather—days warm; mornings and evenings cool. Want of rain is a general complaint throughout the district for the standing rice crop. Coarse rice selling at 20 seers per rupee. General health good.
	42	Lohardugga, „ 6 „	Nil	Weather—clear and warm. More rain wanted for winter rice. Prices as before. Public health good on the whole.
	43	Singbhoom, „ 5 „	Nil	Weather—bright and hot. Prospects continue favourable, but more rain is wanted. Upland rice yielding well. Fever general. Public health otherwise good. Cattle-disease reported from several villages
	44	Manbhoom, „ 6 „	Nil	Weather—clear and hot. Rice crop on high levels wants rain badly. Other crops promising. Small-pox at Topechansi. Fever in Purulia and Echagarh.

Published for general information.

Explanation .... Indicates that no rain has fallen. If the return for any day has not been received, the corresponding space is left blank. If some of the returns are wanting, the corresponding spaces in the total rainfall columns are left blank.

SUMMARY OF THE METEOROLOGICAL AND RAINFALL OBSERVATIONS TAKEN IN BENGAL FOR THE WEEK ENDING FRIDAY, THE 5TH OF OCTOBER 1883.

DURING the week ending the 28th of September, it was noticed that pressure had been gradually but steadily increasing, till it was rather above the normal for the period. Pressure also at the close of that week had become very uniform over the whole reporting area, and there were, as noticed in last week's report, very distinct indications of the rapid contraction of the area of rainfall. On the 29th, pressure continued to increase, and the area of rainfall diminished, and on this day the only general rainfall was received in South-West and East Bengal. Slight showers it is true fell in North Bengal, North Behar, and Orissa, but they were very few, and on the average very light. Calms and light irregular winds were reported at this time from most districts, but there was a distinct tendency of the winds, particularly in Chutia Nagpur, South-West Bengal, and Orissa, to become northerly and north-westerly in direction. It was therefore evident that from the very commencement of the present week, the south-west monsoon winds were being driven back from the land area, and at the close of the week dry northerly and north-westerly winds had become fairly well established over the greater part of the Province. On the 30th, pressure again increased, and was much above the normal, while, as before indicated, dry northerly and north-westerly winds having set in over the western divisions of the Province, the area of rainfall again contracted, and rain was only reported from a few stations in East and North Bengal, in which localities on this day south-easterly winds generally prevailed. On the 1st of October the northerly winds having extended their action as far as some of the stations in East Bengal, rainfall was confined to a few slight local showers, and even these have become fewer in number, and the rainfall smaller in quantity during the concluding days of the week. Leaving out of consideration the 29th, or the first day of the week under review, it may be said that for the last six days general rainfall has been practically absent from all divisions and only a very small number of local showers have been reported. Pressure has still continued to increase during the greater part of the week, up till, in fact, the 5th instant, and the whole of the conditions for the week under review have been more like those of the second or third week of October than those of the end of September, and it would probably be true to say that these steady, dry, northerly and north-westerly winds have set in about ten days or a fortnight earlier than usual. For the present of course the rainy season appears to be practically over in Bengal, and there does not seem to be much probability that anything like general rain will again fall over the whole Province during the present monsoon season, unless it is brought up by the formation of a barometric depression or cyclonic vortex in the Bay, which would in its onward progress over the land area cause general, and perhaps heavy rain over all the parts of the country which might be affected by it. It is, however, to be noted that on the 5th pressure fell comparatively rapidly, though as the fall was general over the greater part of India, the general conditions had not changed much.

From what has been previously said, it will be seen that the barometer has been decidedly high throughout the week almost in fact up to its close. The average pressure for the week is therefore decidedly above the normal at almost all stations. Dacca, indeed, is the only station which, as shown in the previous table, has recorded a comparatively low pressure, the defect there having been 0·05″. At all other stations an excess pressure is shown, the average excess above the normal being between 0·04″ and 0·05″, and the excess at the respective stations ranging from 0·014″ at Gya to 0·079″ at Durbhunga. Temperature has generally been slightly above the normal though with the prevalence of northerly winds, humidity has been decidedly lower than usual the morning temperatures, have generally slightly fallen during the week, though the maximum temperatures during the day have still kept high. In Behar and Chutia Nagpur, temperature has been on the average considerably above the normal. In East and South-West Bengal temperature has not varied much from the normal, while in Orissa, temperature has been distinctly below the normal.

The following table gives the usual summary of the temperature and rainfall data for each of the seven meteorological divisions of the Province.

METEOROLOGICAL DISTRICT.	TEMPERATURE						RAINFALL.							
	Highest observed during week.	Lowest observed during week.	Average for week.			Average mean of week above or below normal mean of week.	Of week.			Rainy days.			Since 1st of September.		Since May 15th.	
			Of highest of each day.	Of lowest of each day.	Of mean for each day.		Average.	Normal average.	Variation.	Average number in week.	Normal average number.	Variation.	Average.	Normal average.	Average.	Normal average.
Orissa	93·4	74·6	88·3	77·7	83·0	−0·9	0·31	1·67	−1·36	0·6	2·6	−2·0	8·03	11·70	53·25	46·79
South-West Bengal	97·65	74·8	89·9	77·2	83·6	+0·1	0·47	1·16	−0·69	0·8	2·3	−1·5	4·56	9·75	41·74	47·40
East Bengal	92·8	73·7	86·6	76·3	81·5	+0·3	0·54	1·98	−1·44	1·0	3·1	−2·1	8·71	13·84	60·96	73·44
North Bengal	93·6	72·1	87·5	75·2	82·3	—	0·19	2·04	−1·85	0·9	2·5	−1·6	9·83	15·63	54·35	70·10
North Behar	94·5	74·4	90·6	77·0	83·8	+1·4	0·07	1·27	−1·20	0·4	1·4	−1·0	4·44	10·74	41·15	44·85

Chutia Nagpur	89·5	62·2	88·1	69·7	78·4	+2·2	Nil	1·38	−1·38	0	2·1	−2·1	8·75	8·82	43·69	45·19

From what has been previously stated, it will be seen that the rainfall of the past week must have fallen very considerably below the normal. It is true that in normal years the rainfall over Bengal diminishes very considerably from the end of September, but it is unusual for the rains to practically stop at the close of that month, and thus the rainfall for the past week, when compared with the normal fall for the same period, is uniformly and largely in defect over the whole area. The normal fall during the week under review is in nearly all the meteorological districts between one and two inches, but the actual rainfall during the past week has not averaged much more than two-tenths of an inch. The highest average rainfall in any meteorological district is just half an inch in East Bengal, while Chutia Nagpore has been absolutely rainless. Expressed in percentages, South-West Bengal during the past week has received 40 per cent of the normal fall, East Bengal 27 per cent, Orissa 19 per cent, North Bengal 9 per cent, and North and South Behar about 5 per cent of the normal fall. Chutia Nagpore having received no rain, of course no percentage can be given. The number of rainy days has of course varied to a corresponding extent, and in all districts the number of rainy days has been largely in defect of the normal.

These numbers, however, scarcely represent the want of rain during the past week in its full force, and some further idea of the character of the weather during this period may be obtained by stating the proportion of stations in each meteorological division which have been absolutely rainless during the week. Thus, from the reports which have been received, 7 stations in Orissa were absolutely rainless, as against 5 stations which received rain. In South-West Bengal 12 stations received no rain while 30 stations reported rain on one day, and 4 on more than one day. In East Bengal 7 stations were rainless, 13 stations received rain on one day and 5 on more than one day. In North Bengal, 14 stations were absolutely rainless, while 11 stations received rain In North Behar, 5 stations received rain as against 9 stations which were rainless. In South Behar 2 stations reported rain, while 21 stations were rainless, and finally the whole of the stations in Chutia Nagpur from which reports have been received have been perfectly rainless.

Saturday, 29th September.—Pressure increased in all districts, though by somewhat irregular amounts. Pressure had become very uniform in all districts, and on the whole was slightly above the normal, the excess amounts ranging from nearly 0·04″ in Orissa to 0 01″ in Behar. Temperature had risen in Behar, and had fallen at most of the stations in Orissa and South-West Bengal. It was distinctly above the normal in South Behar and Chutia Nagpur by an average of 2°, and was almost equally below the normal in Orissa, South-West and East Bengal. Winds continued light and irregular in most districts. In South Behar and Chutia Nagpur westerly winds were a prominent feature, though the velocities were small. In Orissa and South-West Bengal, winds were very largely below their normal strength. Humidity continued high in all districts except South Behar and Chutia Nagpore. Cloud proportion was high in Orissa, East, and South West Bengal, but in South Behar and Chutia Nagpore an almost cloudless sky was reported. Chutia Nagpur and South Behar were to-day practically rainless; a few very light showers fell in North Bengal. North Behar, and Orissa, while rain, light to moderate in amount, was fairly general in East and South-West Bengal. The following were the largest amounts recorded :—Chandpore 3·25 inches, Bishenpore 2 38 inches. Alipore Jail 2·14 inches, Khoolna 1·68 inches, Magoora 1·52 inches, False Point 1 31 inches, Madaripore 1·17 inches, and Bongong 1·05 inches.

Sunday, 30th September.—Pressure continued to increase at almost all stations. though there were some slight local falls in North Bengal. Pressure was very considerably above the normal in all districts, the excess pressure averaging about 0·06,″ though the excess was smallest at Calcutta, where it equalled to 0 03,″ and largest at Durbhunga, where it was 0·1″. Temperature increased slightly in most divisions. It was considerably below the normal in Orissa, South-West and East Bengal, the defect averaging about 2·5°; but it was distinctly above the average in Behar. Light irregular winds prevailed in all districts. The wind velocity in Orissa and South-West Bengal was particularly small, and considerably below the normal for the end of September. Humidity had increased in all districts, and was particularly small in South Behar. The amount of cloud had also diminished rapidly, and in South Behar and Chutia Nagpur the sky was cloudless. Rainfall was almost entirely absent from the whole Province; the only districts which reported at all general rain were the Julpigoree, Cooch Behar, and Darjeeling districts in North Bengal, and the Backergunge district in East Bengal. Only one heavy shower (4·11 inches) was reported from Buxa, while the following stations received amounts varying from half an inch to one inch: —Mickligunge, Nya Doomka, Moheshroka, and Pooree.

Monday, 1st October.—Pressure had decreased slowly at almost all stations. The decrease did not average more than from one to two hundredths of an inch, and the distribution of pressure was scarcely changed. Pressure continued very high, and was above the normal by amounts ranging from 0 03″ at False Point to 0·12″ at Durbhunga. Temperature had scarcely changed in North Bengal, Behar, and Chutia Nagpur, but had risen in South-West and East Bengal, and particularly in Orissa. Temperature was above the normal by from 1° to 2° in Behar and Chutia Nagpur, and equally below it in East and South-West Bengal. Light and variable winds prevailed in all districts. In Orissa and South-West Bengal they showed a well developed northerly element, but this feature was absent in South Behar and Chutia Nagpur, where the winds were still southerly. Wind velocity was particularly small over the whole Province. Humidity and cloud had generally diminished over the whole reporting area, and both these elements were comparatively low for the season. With the

exception of a few local showers, which fell in South-West, East, and North Bengal, the whole Province was rainless. The local showers reported were Khatra, 1·50 inches; Culna, 0·79 inch; and Darjeeling, 0·64 inch.

Tuesday, 2nd October.—The changes of pressure were small and somewhat irregular. In North and East Bengal pressure appeared to be increasing, while in the southern and western divisions the barometer had fallen slightly. Pressure continued rather uniform over the whole reporting area, and was considerably above the normal; the excess ranging from 0·1″ at Durbhunga to 0·01″ in Orissa. Temperature had risen at almost all stations, and was decidedly above the average in Chutia Nagpore, North and South Behar, South-West Bengal, and probably North Bengal. Temperature was about normal in East Bengal, and was below the normal in Orissa. Light and somewhat irregular winds prevailed in all districts. There was a strong northerly element in the winds in Chutia Nagpur and Orissa, while at isolated stations in all other divisions, except South Behar, northerly winds were also reported. Wind velocities were particularly small, the average air motion per hour over the whole Province not being much more than two miles. Humidity and cloud proportion continued comparatively small in all districts. In South Behar and Chutia Nagpure the sky was cloudless at almost all stations. A few very light local showers of rain fell in East Bengal and at Sangor Island, but the rest of the Province was rainless. With the exception of a heavy shower (1·45 inches) at Rangamati, the rainfall at the four or five stations in East Bengal did not average more than three or four tenths of an inch.

Wednesday, 3rd October.—Pressure had increased somewhat rapidly in all districts, the increase being greatest in Orissa and in South Behar. Pressure continued very equal over the whole reporting area, and was largely above the normal for the day, the excess pressure ranging from 0·07″ at False Point to nearly 0·13″ at Durbhunga. Temperature continued to rise slowly at many reporting stations, through at an almost equal number there had been no change. Temperature was above the normal in all divisions. It was on the average over the whole Province about 1° above the normal, but in Chutia Nagpur and North Bengal it was between 2° and 3° above the normal. Winds were light and somewhat irregular. The strong northerly element in the wind directions still continued in Orissa, South-West Bengal, and North Bengal; but southerly winds prevailed in Behar. Wind velocities were, however, in all cases very small. Humidity and cloud proportion remained comparatively small in all divisions. Behar and Chutia Nagpur reported practically cloudless sky. With the exception of a few drops of rain, which fell at Chittagong and at Motiharee, and of a shower at Rangamati, the whole Province was rainless.

Thursday, 4th October.—The changes of pressure were small only. Over the greater part of the reporting area, pressure had diminished, but at the southern stations in Orissa, it had increased. The changes were too small to affect the distribution of pressure to any material extent, and pressure still remained very uniform over the whole Province. Pressure was much above the normal by amounts ranging from 0·06″ in South West Bengal to 0·10″ at Durbhunga. The changes of temperature were small and variable. Temperature was considerably above the normal, the average excess being about 2°. Light and very variable winds prevailed in all divisions. Wind velocities did not average more than two miles an hour over the whole Province. Humidity remained moderate in all districts. The proportion of cloud was also small, particularly in Behar and Chutia Nagpur. No rain fell to-day, except at one or two stations in North Bengal and in East Bengal, the amounts, however, even at those stations which received rain, did not exceed one or two tenths of an inch.

Friday, 5th October.—Pressure had decreased somewhat rapidly at most reporting stations. The average decrease was between 0·06″ and 0·07″, and it had the effect of reducing pressure rather below the normal at almost all stations. Pressure was 0·02″ below the normal at most stations in South-West and East Bengal, while it was practically normal in Chutia Nagpur and Orissa. Temperature had increased in Orissa, South-West, and East Bengal, and at almost all stations in North Bengal and Chutia Nagpur; but in Behar at most stations temperature was falling. Temperature was above the normal of the day, particularly in South West Bengal, Orissa, and East Bengal, where the excess averaged between 1° and 2°. Winds continued light and irregular over the whole Province, though wind velocities had slightly increased at some of the southern reporting stations. Humidity was very low in Chutia Nagpur and Behar. It was also comparatively low in most other divisions. Cloud proportion had again become smaller, and the sky was almost cloudless in Chutia Nagpur, Behar, and North Bengal, while it was slightly clouded only in East and South-West Bengal and Orissa. The whole Province was practically rainless, the only showers of importance being reported from Julpigoree, where 0·64 inch fell, and from Buxa where 1·39 inches fell.

METEOROLOGICAL OFFICE, BENGAL,
The 9th October 1883.

ALEXANDER PEDLER, F.C.S.,
Offg. Meteorological Reporter to the Govt. of Bengal.

MEMORANDA.

THE subjoined table exhibits the mortuary statistics of the districts in Bengal, excluding Burdwan, from which no return was received up to date, for the month of August 1883. The leading features disclosed by it are—

(1.) That the deaths of 97,599 persons were recorded in these districts among their population of 64,771,103, representing a death-rate of 18 per 1,000, against 16·44 per 1,000 during the preceding month, and 18·48 per 1,000 during the corresponding month of 1882.

(2.) That the highest death-rates were returned from the following districts :—

	Ratio per mille.		Ratio per mille.
Gya	44·28	Shahabad	29·28
Birbhum	35·16	Hazaribagh	25·68
Patna	30·96	Rajshahye	25·20

(3.) That the several death-causes presented the rates of mortality exhibited below :—

	Ratio per mille during the months of—	
	August 1883.	July 1883.
Cholera	1·20	1·56
Small-pox	·08	·12
Fever	12·60	11·04
Bowel-complaints	·96	·84
Injury	·60	·60
Other causes	2·40	2·04

indicating that cholera and small-pox were less fatal than in the preceding month, and that fever, bowel-complaints, and the diseases returned under the head of "Other causes" furnished higher death-rates.

(4.) That of the above-named diseases, cholera, small-pox and fever were notably fatal in the following districts :—

Cholera.	Ratio per mille.	*Small-pox.*	Ratio per mille.	*Fever.*	Ratio per mille.
Gya ...	13·92	Poori ...	1·08	Birbhum ...	30·24
Shahabad ...	6·48			Gya ...	24·76
Julpaiguri ...	3·84			Rajshahye ...	24·00
Hazaribagh ...	2·88				
Patna ...	2·52				
Cuttack ...	2·52				
Monghyr ...	2·04				
Lohardugga ...	1·92				
Poori ...	1·80				
Mozufferpore ...	1·56				
Darjiling ...	1·20				

(5.) That the death-rates under the heads of *Sex*, *Class*, and *Age*, stood as follows :—

According to Sex.	Ratio per mille.	*According to Class.*	Ratio per mille.	*According to Age.*	Ratio per mille.
Males	19·68	Christians	8·88	Under 1 year ...	106·32
Females	16·44	Hindus	19·20	1 and under 5 years ...	21·84
		Mahomedans... ...	15·60	5 and under 10 ,, ...	10·92
		Budhists	14·88	10 and under 15 ,, ...	9·96
		Other classes ...	19·32	15 and under 20 ,, ...	12·72
				20 and under 30 ,, ...	12·48
				30 and under 40 ,, ...	13·32
				40 and under 50 ,, ...	17·40
				50 and under 60 ,, ...	24·24
				60 years and upwards ...	36·72

(Signed) Sanitary Commissioner for Bengal.

F. W. A. DeFABECK,

MEMORANDA.

(1.) During the week ending 22nd September 1883, births and deaths were recorded in the first class Municipalities in Bengal at the rates respectively of 25·3 and 27·2 per 1,000 of their population, against 23·3 and 25·4 per 1,000 during the preceding week ending 15th September, indicating a fair improvement in the registration of both events.

(2.) The Municipalities which exhibit the highest results in birth and death registration are—

Births.	Ratio per mille.	*Deaths.*	Ratio per mille.
Bhagulpore ..	44·3	Gya ..	58·1
Patna ..	42·5	Burdwan ..	44·2
Arrah ..	41·8	Bhagulpore ..	43·4
Gya ..	38·2	Santipore ..	38·7
		Uterpara ..	37·7
		Comillah ..	30·8
		Patna ..	30·5
		Suburbs of Calcutta ..	28·3
		Poori ..	27·9
		Arrah ..	27·5
		Monghyr ..	27·1
		Chuprah ..	25·4

(3.) Referring to the principal death-causes, while small-pox was not fatal anywhere, cholera is reported to have claimed 2·1 per 1,000 of the population of these Municipalities, against the same proportion during the preceding week; fever 12·7 against 12·4 per 1,000; bowel-complaints 4·3 against 3·6 per 1,000; injury ·6 against ·5 per 1,000; and "other causes" 7·5 against 6·7 per 1,000.

(4.) Of the above-named diseases, cholera, fever, bowel-complaints, and the diseases classed under the head of "Other causes" were noticably fatal in the following Municipalities:—

Cholera.	Ratio per mille.	*Fever.*	Ratio per mille.	*Bowel-complaints.*	Ratio per mille.	*Other Causes.*	Ratio per mille.
Uterpara ..	18·9	Santipore ..	32·3	Monghyr ..	10·8	Poori ..	17·1
Gyao ..	15·7	Burdwan ..	29·0	Bhagulpore ..	9·0	Dacca ..	16·2
Bhagulpore ..	10·9	Comillah ..	23·1	Poori ..	8·6	Gya ..	13·0
Burdwan ..	3·0			Gya ..	8·2	Patna ..	11·7

(5.) The mortality of the week distributed under the heads of *Sex*, *Class* and *Age* stands as follows:—

According to Sex.	Ratio per mille.	*According to Class.*	Ratio per mille.	*According to Age.*	Ratio per mille.
Males ..	27·2	Christians ..	9·4	Under 1 year ..	251·1
Females ..	27·2	Hindus ..	28·5	1 and under 5 years ..	33·5
		Mahomedans ..	24·8	5 and under 10 „ ..	15·8
				10 and under 15 „ ..	14·4
				15 and under 20 „ ..	20·9
				20 and under 30 „ ..	16·8
				30 and under 40 „ ..	21·2
				40 and under 50 „ ..	23·1
				50 and under 60 „ ..	20·0
				60 years and upwards ..	48·0

F. W. A. DEFABECK,

The 8th October 1883. *Officiating Sanitary Commissioner for Bengal.*

Statement showing the Results of the Registration of Births and Deaths in the First Class Municipalities in Bengal during the week ending 22nd September 1883.

The greatest depression of nocturnal radiation thermometer below the minimum of air		5·4	18th	
	Miles.			
The mean movement of the wind per day		96·5		
The greatest movement of the wind in one day		282·0	7th	
The greatest movement of the wind in one hour		17·0	6th, 7th	Noon to 1 P.M., 9 to 10 A.M., and noon to 1 P.M.
The number of hours under each of the 8 points ..				

N. 5, NE. 7, E. 69, SE. 135, S. 272, SW. 157, W. 32, NW. 4, Calm 39.

The results of observations at the Alipore Observatory are not rigorously comparable with the registers of past years (at the Park-street Observatory). The barometer is about 3 feet higher at Alipore, and, other things being equal, reads therefore ·003 lower. The diurnal range of temperature is also greater at Alipore, and the mean temperature apparently equal; and finally, the thermometer, which has furnished the record of temperature at the Surveyor-General's Office during the last 20 years and upwards, is found to read 0·6° higher than the Kew standard thermometer, which is the standard of reference at the present Observatory.

ALEXANDER PEDLER,
For Meteorological Reporter to the Govt. of India.

METEOROLOGICAL OFFICE, INDIA,
The 8th October 1883.

Results of the Meteorological Observations taken at the Alipore Observatory from 30th September to 6th October 1883.

The mean pressure, temperature, &c., are deduced from the traces of the Barograph and Thermograph.

The maximum and minimum temperatures are obtained from self-registering thermometers. All the thermometers are verified, and the readings have been corrected to a standard constructed and verified at the Kew Observatory. They are exposed under a thatched shed open at the sides, and are suspended four feet above the ground.

The barometer readings are corrected approximately to those of the standard Newman's No 86 formerly at the Surveyor-General's Office.

The hygrometric elements are obtained from Tables III, IV and V of the official tables computed in the Meteorological office, and based on Regnault's modifications of August's formula.

The direction of the movement of the wind are taken from the trace of a Beckley's anemograph.

The mouth of the rain-gauge is one foot above the ground.

overcast, g gloomy, ≡ foggy.

ALEXANDER PEDLER,
For Meteorological Reporter to the Government of India.

METEOROLOGICAL OFFICE, INDIA,

Net ..	.....		.....	.....	84,720½	..	... ..	86,812

The principal features are an increase in 3rd class ordinary traffic, both in numbers and receipts, due to pilgrims, melas, and fairs, and a decrease in military traffic of all descriptions owing to the Egyptian Expedition in August 1882.
The details at stations follow :—

Coaching Traffic during the four weeks ending 25th August 1883.

Stations.	No.	Rs.	Remarks.
Increase.			
Howrah	6,350	.....	Mecca pilgrims and 3rd class passengers.
Bally	860	180	3rd class passengers.
Konnagar	430	170	Ditto to Bankipore and Benares.
Serampore	1,840	820	Ditto to Bankipore and Patna, and Government passengers.
Seoraphuli	1,170	750	3rd class passengers.
Baidyabati	940	.....	Ditto.
Bhadreswar	840	10	Ditto to up country stations.
Chandernagore	1,180	360	3rd class passengers.
Hooghly	7,270	1,980	Road cess collection at Hooghly court.
Magra	1,620	1,190	Coolies returning from Assam, and booked to Raneegunge.
Khanyan	560	20	3rd class passengers to Hooghly.
Pundooah	820	.....	Ditto to up country.
Bonchee	650	160	Ditto to Howrah, Hooghly, Burdwan, and Allahabad.
Burdwan	1,370	1,270	Jhullun jattra festival, and foreign line passengers to Azimgunge, Gya, and Bombay.

Stations.	No.	Rs.	Remarks.
			Increase—*continued.*
Gushkara	570	250	3rd class passengers.
Sainthia	480	.....	Ditto to Bankipore for Gya pilgrimage.
Chatt·a	510	100	Ditto to Rampore Haut, Nalhati, and Murarai.
Rajmehal	460	1,320	Ditto and parcel's traffic.
Bhagalpur	1,400	1,190	Passengers returning to Howrah, Ghidhaur, and Jamooe after visiting His Honor the Lieutenant-Governor.
Raneegunge	750	1,510	Passengers returning from Juggernath pilgrimage.
Mathupur	500	1,100	3rd class passengers to Badyanath, Giridih, and Howrah.
Luckeeserai	280	1,030	Ditto to Howrah, Jamalpur, Monghyr, and Jamooi.
Burhee	670	370	3rd class passengers.
Mokameh	2,510	2,840	Ditto to Howrah and Tirhoot State Railway.
Ditto Ghât	1,540	2,130	Opening of station.
Kushrupur	4,900	1,500	Ditto
Patna	1,810	2,300	Pilgrims to Badyanath and Benares, and coolies to Howrah.
Bankipur	2,870	4,200	Gya pilgrims.
Dinapore	490	1,170	3rd class passengers to Howrah and Benaras.
Bihta	890	890	Ditto ditto.
Koelwar	70	1,120	3rd class passengers.
Arrah	1,760	2,340	Ditto to Howrah and Hooghly.
Behea	850	2,320	Ditto to Howrah, Arrah, Dumraon, Raghunathpur : nd horses.
Raghunathpur	800	2,330	Ditto to Howrah, Hooghly, and Badyanath.
Dumraon	1,160	3,280	3rd class passengers.
Buxar	1,260	2,180	Coolies to Howrah
Chausa	680	1,210	3rd class passengers to Howrah and Raneegunge.

Delhi	3,150	640	Ditto.
Moghulserai	.....	200	Ditto.
Vid Cawnpore	1,910	29,200	Extra troop trains for the Egyptian Expedition.
Vid Ghaziabad	2,860	87,840	Ditto ditto.
Total Decrease ...	16,350	1,56,250	
Net ...	70,380	82,160	

Goods.

Deducting construction materials, there is an increase in ordinary staples of 33 per cent in weight and 33 per cent in receipts, which is mainly derived from wheat, seeds, salt, and foreign railway materials.

Fluctuations in principal staples are :—

Increases.

	Mds.	Rs.
Rice	20,130	20,120
Wheat	11,24 630	4,09,480
Other grains	44,260	13,300
Gunny	27,720	20,650
Piece-goods	20,000	18,220
Railway material—Foreign	1,72,700	1,33,990
Salt	1,05,110	21,070
Seeds	1,10,260	10,900
Sugar	25,010	6,600
Tobacco	11,380	9,330

Decreases.

	Mds.	Rs.
Coal, downwards	81,100	14,590
Ordnance stores	.....	11,350
Railway material—Construction account ...	5,72,850	7,940
Saltpetre	9,700	4,520
Stone	12,110	2,110

REMARKS.

Rice.—The traffic for the first two weeks of the period shows a falling off.

Wheat.—The Home and Continental demands continued during August.

Other grains.—Better demand up country. Despatches principally from stations on the Jubbulpore line.

Gunny.—The increase in the export grain traffic will explain this.

Piece-goods.—There was a falling off in the previous month, which seems to have been made up in August.

Salt.—The increases are generally at all sources.

Railway materials, foreign.—Bridge and other iron-work to Benares, and permanent-way and other railway materials for the several lines under construction made up this increase.

Seeds.—The increase is chiefly in oil-seeds

Sugar.—The increase in despatches from Cawnpore *viâ* Cawnpore and *viâ* Aligarh, from Oudh and Rohilkund to Agra, for the Rajputna demand.

Tobacco.—There appears to have been a better demand than in previous months.

DECREASES.

Coal, downwards.—This is unusual, but is probably owing to stocks having been largely augmented in previous months.

Government Ordnance Stores.—The occurrence of the Egyptian Campaign in 1882 will explain the falling off from that year's figures

Railway material—Construction account.—The completion of the double line above Buxar, which was under construction in 1882, stopped despatches of rails and other materials.

Saltpetre.—This falling off is owing to the demand for export having slackened.

Stone.—Decrease in rubble stone

The train mileage for the period has been, excluding maintenance and locomotive coal train mileage,—

	Coaching. Rs.	Goods. Rs.	Total. Rs.
1883	2,42,915	5,26,047	7,68,962
1882	2,33, 57	3,74,632	6,07,689
Increase	9,858	1,51,415	1,61,273
Decrease	..	...	...

Earnings per train mile, excluding materials carried on Maintenance and Revenue account,—

	Coaching Rs. A. P.	Goods. Rs. A. P.	Total. Rs. A. P.

PART I.

Orders and Notifications by the Lieutenant-Governor of Bengal, the High Court, Government Treasury, &c.

ORDERS BY THE LIEUT.-GOVERNOR OF BENGAL.

No. 2052A.

GENERAL.—*The 4th October* 1883.—Baboo Nilmoney Cowar, Deputy Magistrate and Deputy Collector, Mymensing, is allowed leave for two months and nine days, under section 71, chapter V of the Civil Leave Code, with effect from the date on which he may be relieved by Baboo Shama Churn Das.

Baboo Shama Churn Das, Temporary Deputy Magistrate and Deputy Collector, Serampore, Hooghly, on leave, is transferred to Mymensing, and is posted to the sudder station of that district.

The 5th October 1883.—In modification of the order of the 23rd July last, Mr. G. Toynbee held charge of the office of Magistrate and Collector of Purneah, in addition to his own duties as Joint-Magistrate and Deputy Collector of that district, from the 29th July to the 27th August 1883, inclusive, *vice* Mr. A. Weekes, on leave.

Mr. Toynbee is also appointed to act as Magistrate and Collector, Purneah, in the second grade, during the absence, on leave, of Mr. Weekes, or until further orders, with effect from the 28th August last.

The 8th October 1883.—Mr. W. F. Meres, Officiating District and Sessions Judge, Midnapore, is confirmed in that appointment.

Mr. J. T. Jarbo, Officiating Deputy Magistrate and Deputy Collector, is posted to the sudder station of the Julpigoree district.

Baboo Janoki Nath Dutt, Temporary Sub-Deputy Collector, employed on land registration work in the district of Chittagong, is allowed leave for one month, under rule 2, section 136, chapter X of the Civil Leave Code, with effect from such date as he may avail himself of it.

Mr. G. A. Grierson, Officiating Joint-Magistrate and Deputy Collector, Patna, on leave, is appointed to have charge of the office of Magistrate and Collector of that district, in addition to his own duties, during the absence, on deputation, of Mr. C. T. Metcalfe, C.S.I., or until further orders.

Baboo Upendra Chander Mookerjee, Officiating Deputy Magistrate and Deputy Collector, is allowed leave for two months, under section 127, chapter X of the Civil Leave Code, with effect from the date on which he made over charge of the Fenny sub-division of the Noakholly district.

The 10th October 1883.—Baboo Peary Mohun Banerjee, Deputy Magistrate and Deputy Collector, Balasore, is transferred to Midnapore, and is posted to the sudder station of that district, with effect from the date on which he joined his appointment.

The 12th October 1883.—Mr. H. J. H. Fasson, Joint-Magistrate and Deputy Collector, has been granted by the Right Hon'ble the Secretary of State for India an extension of furlough for one month.

Mr. R. F. Rampini, C.S., reported his departure from India, on furlough, on the 31st July 1883.

Moulvie Syed Wajid Hossein, Temporary Sub Deputy Collector, Hajipore, Mozufferpore, was employed on land registration work in the Durbhunga district, during the absence, on leave of Sub-Deputy Collector Baboo Nowrungi Lall.

The 16th October 1883.—In modification of the order of the 6th instant, Mr. J. F. Bradbury, Officiating District and Sessions Judge, Backergunge, is allowed leave for one month under the note to rule 2, section 72, chapter V of the Civil Leave Code, with effect from the 2nd instant.

REGISTRATION.—*The 27th September* 1883.—Kazi Mahomed Lall Zaman, Rural Sub-Registrar of Behar, is appointed to be Rural Sub-Registrar of Jehanabad, in the district of Gya, *vice* Syed Tassaduq Hossain Khan, resigned.

CUSTOMS.—*The 2nd October* 1883.—In supersession of the order of the 14th November last, published in the *Calcutta Gazette* of the 15th idem, Mr. W. Rigordy acted as Superintendent, Customs Preventive Service and Sulkea Salt Golahs, from the afternoon of the 4th to the 29th October 1882, *vice* Mr. S. J. Kilby, on leave.

EXCISE.—*The 29th September* 1883.—Baboo Umesh Chunder Sen is appointed temporarily Excise Inspector of the Chittagong Division, with effect from the 13th September 1882.

The following notifications are re-published from the *Assam Gazette* :—

No. 276.—*The 3rd October* 1883.—Furlough for one year, under section 131, chapter X of the Civil Leave Code, is granted to Mr. G. H. P. Livesay, Assistant Superintendent of Police, Naga Hills, from the 15th October 1883, or the subsequent date on which he may avail himself of it.

No. 63.—*The 4th October* 1883.—Mr. S. J. Douglas, Assistant Commissioner, Lakhimpur, availed himself of privilege leave in the afternoon of the 18th September 1883.

F. B. PEACOCK,
Secretary to the Govt. of Bengal.

NOTIFICATION.

The 1st October 1883.—In continuation of the notification of the 24th April 1883, published at page 318 of the *Calcutta Gazette* of the 25th idem, Mr. Robert Bushby, Surveyor of Steam Vessels in the Port of Calcutta under Acts V (B.C.) of 1862, I (B.C.) of 1868, and VIII of 1876, and of Sailing Vessels under Acts VII of 1871 and VIII of 1876, is appointed also to be Surveyor under the Merchant Shipping Act of 1854 and Act X of 1841.

COLMAN MACAULAY,
Secretary to the Govt. of Bengal.

NOTIFICATION.

The 6th October 1883.—In modification of the notification of the 1st September 1883, published at page 754, Part I of the *Calcutta Gazette* of the 12th idem, the following revised rules to facilitate the supply to the public of one-anna revenue stamps through the agency of the Sub and Branch Post Offices, are published for general information:—

Rules.

I.—Stamp vendors' licenses in the prescribed form should be issued to every Sub or Branch Post Master in the Lower Provinces of Bengal by the Collector or Deputy Commissioner, for the sale of one-anna revenue stamps, ordinarily called receipt stamps.

II.—Immediately after the issue of the license, a supply of one-anna revenue stamps, up to the value of Rs. 25, should be advanced to the Sub or Branch Post Master from the nearest treasury, and sent to him in an insured parcel at the cost of the Revenue Department. For all subsequent supplies the Sub or Branch Post Master should send a requisition to the officer in charge of stamps at the sudder or sub-treasury, as the case may be, and remit with it to the treasury the value of the stamps required in an insured parcel, or by money order, at the cost of the Revenue Department.

III.—The requisition should be forwarded whenever the stock of stamps in store of the Sub or Branch Post Master is not more than the local demand for one week, and should be promptly complied with by the treasury officer, who should send the stamps in the manner laid down in the preceding rule.

IV.—Every Sub or Branch Post Master shall be allowed discount at the following rates on the value of the one-anna revenue stamps sold by him:—

Sub and Branch Post Masters in Calcutta and at the sudder stations of Howrah, 24-Pergunnahs, Burdwan, and Hooghly	3½	per cent., or two pice in the rupee.
Sub and Branch Post Masters of all other places ...	4 1/16	per cent., or three pice in the rupee.

V.—Copies of the Stamp Act and Rules for the sale of stamps in English and in the vernacular language of the district, and a signboard, should be supplied by the district officers to each Sub or Branch Post Master appointed under these rules to be a vendor of revenue stamps.

VI.—A monthly account of the sale of revenue stamps should be submitted in English* by every Sub or Branch Post Master to the officer in charge of the treasury from which he receives his supply of stamps.

* When the Sub or Branch Post Master does not understand English, the Post Master-General will arrange for the submission of the account through the Head Office.

VII.—When the Superintendents and Inspectors of the Postal Department are on tour, they should require the Sub or Branch Post Master to produce his advance in stamps and in cash, as is done in the case of postage stamps. Any deficiency which may be discovered should be immediately reported to the Collector or Deputy Commissioner of the district.

COLMAN MACAULAY,
Secretary to the Govt. of Bengal.

NOTIFICATION.

The 3rd October 1883.—The following communication from the Government of India, Home Department, No. 250, dated the 11th August last, is published for general information.

COLMAN MACAULAY,
Secretary to the Govt. of Bengal.

Dated Therapia, the 8th July 1883.

From—HUGH WYNDHAM, Her Majesty's Chargé d'Affaires,
To—His Excellency the Viceroy of India.

I HAVE the honour to transmit to your Excellency a printed copy of an amendment made by the Ottoman Board of Health in the "Réglement applicable aux provenances de choléra de 1867."

The Board of Health suggest that a copy should be communicated to Aden.

No. 81.

ADMINISTRATION DE LA SANTÉ.

Télégramme—circulaire aux offices sanitaires de la Méditerranée.

PAR décision du conseil de Santé, la quarantaine applicable aux provenances d'Egypte sans accidents pendant la traversée est fixée à 10 jours. Avec accidents, seulement suspects, à 15 jours. En cas d'accidents de choléra confirmé elle est prolongée suivant les principes réglementaires. Les navires qui n'auront pas fait la quarantaine prescrite à l'un des lazarets ou port à lazarets de Beyrouth en Syrie, ou de Clazomène près Smyrne, seront refusés dans tous les autres ports ottomans; ceux qui l'auront subie seront admis en pratique dans les ports à médecin après visite. L'article 5 du réglement général 1867, concernant les médecins commissionnés à bord des navires est aboli. Conformez-vous absolument à ces dispositions.

L'Inspecteur-Général, Dr. BARTOLETTI.

Constantinople, le 29 Juin 1883.

NOTIFICATION.

The 6th October 1883.—In supersession of the notification dated the 27th August 1883, published at page 738, Part I of the *Calcutta Gazette* of the 5th September 1883, it is hereby notified that, on the recommendation of the Commissioners of the municipality of the suburbs of Calcutta, made at a meeting, the Lieutenant-Governor approves the revised boundaries specified below for the operation of Act VI (B. C.) of 1878 within the said municipality, in modification of the boundaries specified in the notification dated the 27th August 1878:—

A line commencing on the north of the Paramanick's ghat on the river Hooghly and along the northern side of the Paramanick's ghat road eastward to the point where it meets the Cassipore road, thence northward along the western side of the Cassipore road to its junction with the Dhariabagan road, thence eastward along the northern side of the Dhariabagan road to the place where it meets the Barrackpore trunk road, thence across the Barrackpore trunk road and eastward along the North Sinthee road to a point where it meets the Sinthee first lane, thence southward along the eastern side of the Sinthee first lane to the place where it meets the South Sinthee road, thence eastward along the northern boundary of the South Sinthee road to the point where the latter meets the Seven Tanks' lane, thence southward along the eastern side of this lane to the point where it meets the Dum-Dum road, thence eastward along the southern side of the Dum-Dum road to the point where it meets the Beerparrah third lane, thence southward along this lane and in a diagonal line across a paddy-field to the point where it meets Beerparrah first lane, thence southward along the eastern side of the Beerparrah first lane to a point where it meets the Gangooliparah lane, thence southward along the Gangooliparah lane to the point where it meets the Pykeparah road, thence eastward along the northern side of the Pykeparah road to its

junction with the Belgatchia road, thence eastward along the Belgatchia road to the point where the latter meets the Eastern Bengal Railway line, thence southward along the western side of the railway line to the place where it crosses the Manicktollah road and joins with the Kancoorgatchee road, thence southward along the eastern side of the Kancoorgatchee road to the place where it touches the Narcoldanga main road, thence it crosses the Narcoldanga main road to Soorah road, thence southward along the Soorah road to the point where it meets the Balliaghatta road, thence eastward along the Balliaghatta road to the place where it meets the Nimtollah road, thence southward along the Nimtollah road to the point where it meets the Chowlputty road, thence westward along the northern bank of the Balliaghatta canal to a point opposite the Cooliah Tengrah third lane, thence it crosses the canal and southward along the Cooliah Tengrah third lane to the point where it touches the Chengreeghatta road, thence across the Chengreeghatta road to the point where it meets the Chengreeghatta lane, thence southward along the Chengreeghatta lane to the point where it meets the Tengrah road, thence westward along the Tengrah road to its junction with the Camardangah road (east), thence southward along the Camardangah road (east) to a point where it meets the Camardangah road (south), thence southward along the Camardangah road (south) to its junction with the Gobrah road, thence westward along the Gobrah road to the railway bridge No. 3 on the Calcutta and South-Eastern State Railway line, thence southward along the line of the railway to a point where it crosses over bridge No. 4, thence westward along the northern side of the Tiljullah first lane to the point where it meets the Ghoogoodangah road, thence southward along the eastern side of the Ghoogoodangah road to the point where it meets the old Ballygunge first lane, thence eastward along the old Ballygunge first lane to the point where it meets the old Ballygunge third lane, thence southward along the eastern side of the above lane to the point where it meets the Bundel road, thence across the Bundel road and eastward to the point where it meets Hareeparah lane, thence southward and westward along the Hareeparah lane to the points where it touches the Gurriah Haut road, thence northward along the Gurriah Haut road to its junction with the Gurriah road, thence westward along the Gurriah road to the point where it meets the Hazrah, thence southward along Hazrah and Punditia roads to the point where the latter meets the Monoharpooker road, thence westward along the Monoharpooker road to the place where it meets Monoharpooker third lane, thence southward along the Monoharpooker third lane to the point where it meets Dhacooriah road, thence across the Dhacooriah road to the point where it meets the Borage road, thence southward along the Borage road to the place where it meets the Mollahatty road, thence westward along the Mollahatty road to the point where it meets the Russa road, thence northward along the Russa road to the point where the same meets the Tallygunge bridge road, thence westward along the Tallygunge bridge road to the Tallygunge bridge, thence across the Tolly's nullah and westward along the Tallygunge circular road to the point where it meets the Boistubparrah first lane, thence along the Boistubparrah first lane to the point where it meets the Diamond Harbour road, thence northward along Diamond Harbour road to the point where it meets the Monimpur lane, thence westward along the Monimpur lane to the point where it joins the Budge-Budge road, thence eastward along the Budge-Budge road to the point where it joins the Bhookoylash road, thence northward along the Bhookoylash road to the point where it meets the Hurrobash road, thence westward along the Hurrobash and Sonie roads to the point where the latter meets Tarratollah road, thence northward along Gurragatcha road to the place where it meets the Circular Garden Reach road, thence westward along the present boundary line to the point where it meets the river Hooghly.

COLMAN MACAULAY,
Secretary to the Govt. of Bengal.

NOTIFICATION.

The 6th October 1883.—It is hereby notified for general information that, in compliance with the recommendation of the Commissioners of the Patna Municipality, made at a meeting, the Lieutenant-Governor intends, in exercise of the powers conferred on him by section 299, Act V (B.C.) of 1876, to sanction the extension of the provisions of Part IX of the Act to the above municipality.

COLMAN MACAULAY,
Secretary to the Govt. of Bengal.

NOTIFICATION.

The 8th October 1883.—In the exercise of the powers conferred on him by section 78 of Act V (B.C.) of 1876, and in compliance with the recommendation of the Commissioners of the Hazaribagh Municipality, made at a meeting, the Lieutenant-Governor sanctions the imposition by the Commissioners, under section 122 of the Act, of a tax on horses and other animals mentioned in the third schedule annexed to the Act at rates not exceeding those specified in the said schedule. The sanction hereby given will have effect from the 1st April 1884.

COLMAN MACAULAY,
Secretary to the Govt. of Bengal.

ERRATUM.

The 11th October 1883.—*For* the words "*On the west.*—By the Gotyabara and Bara Kalgachiya Gangs," in the 17th line of the schedule annexed to the notification dated 10th August 1883, published on page 637 of the *Calcutta Gazette* of the 15th idem, declaring certain tracts in the Sunderbuns to be "protected forests," *read*:—

On the west.—By the Gotyahara and Bara Kalgachiya Gangs."

A. P. MACDONNELL,
Offg. Secretary to the Govt. of Bengal.

NOTIFICATION.

A. P. MACDONNELL,
Offg. Secy. to the Govt. of Bengal.

NOTIFICATION.

The 9th October 1883.—It is hereby notified that the Lieutenant-Governor intends, if no valid objection be raised thereto, to approve, after a fortnight from this date, the following rules in modification of and addition to the rules for the regulation of passenger-boats

in the Port of Calcutta, published under date of the 20th June 1879 in the *Calcutta Gazette* of the 25th June 1879, page 589 :—

PRESENT RULE.	PROPOSED RULE.
Rule for ascertaining the number of passengers passenger-boats are to carry.	*Rules for ascertaining the number of passengers passenger-boats are to carry.*
Divide the superficial area in square feet of the floor space available for the accommodation of passengers by 6, and the result will be the number of passengers the boat may be licensed to carry.	(*a*) For ordinary passenger-boats, dinghees, green, and other open boats in which passenger space is not protected by bulwarks— Divide the superficial area in square feet of the floor space available for the accommodation of passengers by 6, and the result will be the number of passengers the boats may be licensed to carry. (*b*) For steamers and barges having cabin or 'tween deck floor space and deck space protected by rail, netting, or other sufficient bulwarks— Divide the superficial area in square feet of the deck floor space available for the accommodation of passengers by 4·5, and the superficial area in square feet of the cabin or 'tween deck floor space available for the accommodation of passengers by 9, and the aggregate result of the quotients shall be the number of passengers the boat may be licensed to carry. In such vessels the spaces on bridges and tops of houses shall only be measured and included in the floor space, when, in the opinion of the surveyor, the beam and general stability of the vessels are sufficient to permit passengers being carried on such spaces in safety.

Proposed New Passenger-boat Rule 22A.

Any passenger on board any registered passenger-boat or steam-ferry plying within the limits of the port, which shall have on board passengers in excess of the number the boat or steam-ferry is licensed to carry, shall, upon being requested by the owner or person in charge of said boat or steam-ferry to leave the boat or steamer before the same has quitted the landing place at which such person embarked, and upon having the full amount of his fare (if he has paid the same) returned or tendered to him, forthwith leave the vessel; and any passenger refusing so to leave shall incur the penalty prescribed for any breach of these port rules.

A. P. MACDONNELL,
Offg. Secretary to the Govt. of Bengal.

NOTIFICATION.

The 16th October 1883.—The following telegram, received from the Government of Bombay, dated the 15th October 1883, is published for general information :—

Dated the 15th October 1883.

From—Bombay.	To—Calcutta.
From—General Secretary.	To—Bengal.

FOLLOWING from Political Resident, Aden :—A telegram to the following effect has been received from British Consul-General at Cairo. Telegram begins :—Board of Health have decided, in view of the number of deaths from cholera in Bombay, to maintain twenty-four hours' observation on all ships coming from Bombay with clean bills of health. Telegram ends.

A. P. MACDONNELL,
Offg. Secy. to the Govt. of Bengal.

[Second Publication.]

NOTIFICATION.

The 28th September 1883.—The following contract for the conveyance of pilgrims from the quarantine station of Camaran to Jedda is published for general information :—

Agreement between the sanitary authorities of the Turkish Government represented by HIS EXCELLENCY ARIF BEY, *Vice-President, on the one side, and the* HON'BLE TERMAN BEY, *Director of the Steam Service of the Khedive (duly authorized), on the other side.*

It is agreed upon as follows in connection with the pilgrimage of 1883 :—

1*stly*.—The Director of the Steam Service, on behalf of the Khedive, undertakes to transport all pilgrims from the island of Camaran to the port of Jedda who have fulfilled all the existing quarantine and sanitary conditions, with the exception of those pilgrims who are engaged to proceed to Jedda in the same steamer in which they arrive at the island of

Camaran. It is to be distinctly understood that no other vessels can convey the pilgrims from the island of Camaran to Jedda, excepting those which have pilgrims on board when they enter the port of the Island, who have already arranged to proceed to Jedda.

2ndly.—This service at the beginning will be effected by means of only one of the Khedive's mail steamers, which will be able to carry at least 1,000 pilgrims. If hereafter it is found that one steamer is not sufficient, another of the same service will be assigned for this purpose, so as not to delay the transport of the pilgrims who have fulfilled the above conditions.

3rdly.—The service will begin from the date of the establishment of the quarantine encampment at Camaran, and telegraphic notice will be given to the Khedive. It will cease ten days previous to the feast at Bairam.

4thly.—The Government will collect from each pilgrim, before his departure from the island of Camaran to the port of Jedda, the sum of £1 sterling and a quarter as passage money. Should a pilgrim refuse to pay this sum, which has been fixed in consultation with the Sanitary Board at Constantinople, the Government will have the right to refuse the passage. The poor pilgrims who are exempted from the sanitary taxes, and who receive during the quarantine a gratuitous ration, will be recognised as such by the Khedive Government on presenting a certificate from Dr. Duca, Chief Officer of the Sanitary Service, and their passage from Camaran to Jedda on the Khedive mail will be granted free.

5thly.—Pilgrims who wish for more comfortable accommodation of first and second class should settle the price of their respective passages with the representative of the Khedive at Camaran.

6thly.—The Government of Khedive will have the exclusive privilege to transport pilgrims from the island of Camaran to Jedda. Competition will be formally excluded by the sanitary authority of the island of Camaran, exception being made in favour of the vessels referred to in clause 1 of the agreement, and of those also engaged for the transport of pilgrims brought by them to Camaran, and who will have waited for the pilgrims who have fulfilled their quarantine.

7thly.—The vessels of this special service, as well as all the pilgrims on board such vessels (unless cholera breaks out during the voyage), will have free access to Jedda and all the other Ottoman ports of the Red Sea.

In case of cholera breaking out during the voyage between Camaran and Jedda, ships and pilgrims will have to return to Camaran to undergo quarantine according to the rules in force.

Constantinople, the twenty-fifth of June eighteen hundred and eighty-three (25th June 1883), under the authority of the Director-General of the Steam Service of the Khedive.

A. P. MACDONNELL,
Offg. Secy. to the Govt. of Bengal.

[Third Publication.]

NOTIFICATION.

The 23rd September 1883.—Under the provisions of rule III of the rules of the 28th July 1879, made under section 25 (i) of Act VII of 1878 (the Indian Forest Act), the Lieutenant-Governor is pleased to sanction the closing of the reserved forests of the Darjeeling Terai and Lower Hills (Kurseong and Teesta Forest Divisions), as well as those of the Julpigoree district (Julpigoree and Buxa Forest Divisions) against hunting, shooting, or fishing, from the 1st December 1883 to the 1st June 1884.

A. P. MACDONNELL,
Offg. Secretary to the Govt. of Bengal.

[Third Publication.]

NOTIFICATION.

The 29th September 1883.—The following Notice to Mariners is published for general information.

A. P. MACDONNELL,
Offg. Secretary to the Govt. of Bengal.

GOVERNMENT OF BENGAL, GENERAL (MARINE) DEPARTMENT.

NOTICE TO MARINERS.—(No. 45.)

MALAY PENINSULA—WEST COAST.

MALACCA STRAIT.

PENANG OR PRINCE OF WALES' ISLAND.

Revolving light on Muka Head.

WITH reference to Notice to Mariners, No. 38, dated the 21st August 1883, issued from this Department, notice is hereby given, that the *revolving white* light exhibited from Muka head shows a flash every *fifteen seconds*.

It is visible through an arc of 270°, or between the bearings of North through East and South to West.

The remaining portion of the arc inland is masked.

By direction of the Government of Bengal,

J. MENTEITH BREBNER,
Offg. Port Officer of Calcutta.

PORT OFFICE, *Calcutta, the 28th September* 1883.

[Third Publication.]

NOTIFICATION.

The 1st October 1883.—It is hereby notified that the Lieutenant-Governor intends, after one month from this date, to approve the following additional port rules under section 7 (*f*) of Act XII of 1875 for the control of fishing-boats in the river Hooghly.

Proposed rules.

1. From the lower boundary of the port to Fultah Reach on the river Hooghly a deep navigable channel, not less than 200 yards in width, shall always be left clear for the passage of sea-going vessels, and between the hours from daylight to dark no fisherman shall obstruct the same by mooring or casting a stake net therein. At Sankrail, Peer Sarang, and below Budge-Budge, where the deep water channel lies close to the shore, landmarks have been erected to define the channel to be left clear, and no fishing boats shall be moored nor nets of any description cast between the line indicated by these marks and the shore.

2. Between the hours from daylight to dark no stake net nor drift net shall be cast by fishermen in any part of Garden Reach within port limits.

A. P. MACDONNELL,
Offg. Secretary to the Govt. of Bengal.

DECLARATION.

The 8th October 1883.—Whereas it appears to the Lieutenant-Governor of Bengal that land is required to be taken by Government at the expense of the Calcutta Municipality for a public purpose, viz. for a new road connecting Gardener's Lane with Taltollah Bazar Street, it is hereby declared that for the above purpose pieces of land Nos. 10 and 11, Gardener's Lane, and Nos. 25, 26, and 27, Taltollah Bazar Street, measuring, more or less, 2 cottahs 1 chittack and 10 square feet, are required.

The land is bounded as follows:—

Portion A—Is bounded on the north by Nos. 26 and 27, Taltollah Bazar Street; on the south partly by a passage, partly by No. 25, Taltollah Bazar Street, and partly by Gardener's Lane; on the east by No. 26, Taltollah Bazar Street; and on the west partly by a passage and partly by No. 25, Taltollah Bazar Street.

Portion B.—On the north by Gardener's Lane; on the south by Nos. 10 and 11, Gardener's Lane; on the east by No. 12, Gardener's Lane; and on the west by No. 10, Gardener's Lane.

A plan and specifications of the lands are filed in the office of the Municipal Commissioners for the town of Calcutta for public inspection.

This declaration is made, under the provisions of section 6 of Act X of 1870, to all whom it may concern.

COLMAN MACAULAY,
Secretary to the Govt. of Bengal.

DECLARATION.

The 8th October 1883.—Whereas it appears to the Lieutenant-Governor of Bengal that land is required to be taken by Government at the expense of the Calcutta Municipality for a public purpose, viz. for widening and connecting Arpooly Lane with Punchanundtollah Lane, it is hereby declared that for the above purpose pieces of land Nos. 11, 12, and 13, Arpooly Lane, and Nos. 53, 64, 65, and 66, Punchanundtollah Lane, measuring, more or less, 5 cottahs 15 chittacks and 30 square feet, are required.

The land is bounded as follows:—

Portion A.—On the north by Nos. 11, 12, and 13, Arpooly Lane; on the south by Arpooly Lane; on the east by Arpooly Lane; and on the west by Arpooly Lane.

Portion B.—On the north by Nos. 53, 64, 65, and 66, Punchanundtollah Lane; on the south by Nos. 53, 64, 65, and 66, Punchanundtollah Lane; on the east by Punchanundtollah Lane; and on the west by Arpooly Lane.

A plan and specifications of the lands are filed in the office of the Municipal Commissioners for the town of Calcutta for public inspection.

This declaration is made, under the provisions of section 6 of Act X of 1870, to all whom it may concern.

COLMAN MACAULAY,
Secretary to the Govt. of Bengal.

DECLARATION.

The 8th October 1883.—Whereas it appears to the Lieutenant-Governor of Bengal that land is required to be taken by Government at the expense of the Calcutta Municipality for a public purpose, viz for a new road connecting Mudden Mitter's Lane with Cornwallis Street, it is hereby declared that for the above purpose pieces of land Nos. 28 and 30-1, Cornwallis Street, and Nos. 29, 30, 31, and 32, Mudden Mitter's Lane, measuring, more or less, 2 cottahs 9 chittacks and 37·5 square feet, are required.

The land is bounded as follows:—

On the north partly by No. 31, Cornwallis Street, and partly by No. 29, Mudden Mitter's Lane; on the south partly by Nos. 28 and 30-1, Cornwallis Street, and partly by Nos. 30, 31, and 32, Mudden Mitter's Lane; on the east by Mudden Mitter's Lane; and on the west by Cornwallis Street.

A plan and specification of the land are filed in the office of the Municipal Commissioners for the town of Calcutta for public inspection.

This declaration is made, under the provisions of section 6 of Act X of 1870, to all whom it may concern.

COLMAN MACAULAY,
Secretary to the Govt. of Bengal.

JUDICIAL DEPARTMENT.

No. 2053A.

The 3rd October 1883.—Moulvie Mobaruk Hossain is appointed to be an Honorary Magistrate for the Municipal Bench at Chupra, in the district of Sarun, and is vested with the powers of a Magistrate of the third class.

The following gentlemen are appointed to be Honorary Magistrates for the Sudder Bench in the district of Noakholly, and are vested with the powers of a Magistrate of the third class :—

Baboo Ananda Chandra Mukerjee. | Baboo Adinath Mittra.
Moulvi Bazlul Huq.

The 8th October 1883.—Mr. J. T. Jarbo, Officiating Deputy Magistrate and Deputy Collector, Julpigoree, is vested with the powers of a Magistrate of the second class.

ERRATUM.—*The 16th October* 1883.—In the order dated the 11th ultimo, published in the *Calcutta Gazette* of the 19th idem, vesting Mr. J. C. Williamson, Deputy Magistrate and Deputy Collector, with the powers to try summarily the offences mentioned in section 260 of the Code of Criminal Procedure, and also with powers under section 110 of the same Code, *for* "Khoorda, Pooree," *read* "Poorce."

F. B. PEACOCK,
Secretary to the Govt. of Bengal.

NOTIFICATION.

The 3rd October 1883.—Under the authority vested in him by the final clause of section 357 of the Code of Criminal Procedure (Act X of 1882), the Lieutenant-Governor empowers Moulvie Mahomed Serajul Huq, Officiating Deputy Magistrate and Deputy Collector, Bogra, to take down evidence in criminal cases in the English language.

F. B. PEACOCK,
Secretary to the Govt. of Bengal.

[Third Publication.]

NOTIFICATION.

The 21st September 1883.—It is hereby notified that the Lieutenant-Governor, in the exercise of the power conferred on him by section 432 of the Civil Procedure Code, and in accordance with the request of the Maharajah of Hill Tipperah, appoints Baboo Raj Mohan Mitra to be temporarily the Agent of the Maharajah, with effect from the 6th July 1883.

F. B. PEACOCK,
Secretary to the Govt. of Bengal.

HIGH COURT NOTICE.

High Court Mukhtyars.

NOTIFICATION.

IN supersession of the notification dated the 10th August 1883, published in the *Calcutta Gazettes* of the 15th, 22nd, and 29th August 1883, the High Court are pleased to order that the security required by Rule 1 of the Rules made by the High Court on the 17th May 1882, under section 16, clauses (*a*), (*b*), and (*c*), Act XVIII of 1879, shall be deposited with the Registrar of the Court, on its Appellate Side, on or before the 17th November 1883.

Failure to deposit such security by the prescribed date will result in the defaulter's name being struck off the list of selected applicants.

By order of the High Court,

C. A. WILKINS, *Offg. Registrar.*

FORT WILLIAM, *the* 31*st August* 1883.

Sheriff's Office, the 17th October 1883.

NOTICE is hereby given that the Sixth Criminal Sessions of the year 1883 of the High Court of Judicature at Fort William in Bengal, for the Town of Calcutta and Factory of Fort William, and the places subordinate thereto, will be holden at the Court House, in the Town of Calcutta, on Wednesday, the Twenty-first day of November next, at 11 o'clock in the forenoon, and so on from day to day until the said Sessions be over. And it is hereby proclaimed that all persons who will prosecute any of the prisoners to be brought up for trial at the said Sessions be present then and there to prosecute.

SYAD ASGHAR ALLY, *Sheriff.*

E. E. LOWIS, *Commissioner.*

IT is hereby notified that at the next half-yearly examination of Junior Civilians, Deputy Magistrates, &c., to commence on Monday, the 5th of November 1883, four local examination committees will be convened in this division, viz., (1) at No 14, Hare Street, Calcutta, for officers stationed at the Presidency or employed in the 24-Pergunnahs; (1) at Kishnaghur for officers employed in the Nuddea district; (1) at Jessore sudder station for officers employed in that district, as well as in the district of Khoolna; and (1) at Berhampore for officers employed in the Moorshedabad district.

J. MONRO, *Commissioner.*

COMMR.'S OFFICE, PRESIDENCY DIVISION, *Calcutta, the 1st October* 1883.

NOTIFICATIONS OF THE BOARD OF REVENUE.

No. 1110B.

NOTICE is hereby given that the Eleventh Sale of Opium, the Provision of 1881-82, will be held at the Government Opium Sale-room, No. 2, Bankshall-street, on Thursday, the 1st November 1883, at 11 A.M., and will comprise 4,450 chests, viz :—

	Chests.
Opium manufactured at the Patna Factory of 77° consistence ...	2,225
Opium manufactured at the Ghazipore Factory of 72° consistence ...	2,225
Total ...	4,450

2nd. The general conditions of the sale now advertised will be the same as usual. They may be ascertained by reference to the Notification issued on the 28th November 1882, and published in the *Government* and *Exchange Gazettes*, or on personal application at the Office of the Board of Revenue.

3rd. The latest dates for deposit and clearance will be the 6th and 16th November 1883, respectively, that is to say, no Bank of Bengal Receipts, Government Promissory Notes, or other public securities that may be tendered for deposit in redemption of Promissory Notes given by purchasers in the Sale-room will be received after 3-30 P.M. of Tuesday, the 6th November 1883, and no Bank of Bengal Receipts in full payment of lots will be accepted after 3-30 P.M. of Friday, the 16th November 1883.

4th. In addition to the quantity above advertised for sale, the following quantities, more or less, of the opium manufactured at the Patna and Ghazipore Factories will be brought to sale in the present year, about the dates specified below. The Board of Revenue, however, reserve to themselves the right of altering these dates, should circumstances render it expedient to do so.

DATES.	Manufactured at the Patna Factory, about chests.	Manufactured at the Ghazipore Factory, about chests.	Total, about chests.
On or about Monday, 3rd December 1883 ...	2,225	2,225	4,450
Total ...	2,225	2,225	4,450

By order of the Board of Revenue, L. P.,

C. E. BUCKLAND, *Offg. Secretary.*

BOARD OF REVENUE, L. P., FORT WILLIAM, *the 25th September* 1883.

No. 1135½B.

THE following rules have been made under section 9 of Act VIII of 1878 by the Board of Revenue, Lower Provinces, with the sanction of the Local Government, and are, under section 204 of the same Act, notified for general information :—

CALCUTTA INTERNATIONAL EXHIBITION, 1883-84.

CUSTOM HOUSE ARRANGEMENTS.

1. All entries of goods for the Exhibition must be passed at the Custom House in accordance with the arrangements made by the Collector of Customs.

2. In respect of dutiable goods the Exhibition building is appointed a public warehouse under the provisions of section 15 of Act VIII of 1878, of which Mr. Jules Joubert shall be deemed to be the keeper for the purposes of section 90 of that Act.

3. Packages containing dutiable goods, upon which duty has not been paid, must be entered for bond and appraised and taken in charge of an officer to the Exhibition building in the usual manner. Pending appraisement and removal to the Exhibition building, all such packages will be allowed to remain rent-free in a portion of the Custom House premises set apart for the purpose.

4. At the close of the Exhibition, exhibitors will have to account to the Custom House authorities for all dutiable goods admitted into the Exhibition in accordance with the bond bill of entry. Goods intended for delivery in Calcutta on sale or otherwise will on payment of duty be cleared from bond, and goods intended for re-exportation will be re-shipped from bond in the usual manner.

5. The charges mentioned in the schedule attached to these rules are remitted in respect of goods intended for the Exhibition.

6. No duty will be payable for wines, spirits, or other liquors consumed in the Exhibition for tasting or judging purposes, and a certificate of the amount thus consumed must be obtained from the Secretary to the Executive Committee of the Exhibition and presented by exhibitors to the Custom House officer when accounting for the dutiable goods admitted into the Exhibition. Without such certificate duty will be assessed on all dutiable goods shown by the bills of entry as having been admitted into the Exhibition and which are not forthcoming at its close.

7. The Custom House officers will not have custody of, or be in any way responsible for, goods in the Exhibition building, the custody of which as a public warehouse will rest with Mr. Jules Joubert.

8. These rules apply only to goods intended *bonâ fide* for Exhibition.

SCHEDULE.

		Rs.	A.	P.

Secretary to the Government of Bengal.

TELEGRAPH.

Simla, the 10th October 1883.

No. 227.—The following is published for general information :—

No. 287T, dated 9th October 1883.

RESOLUTION—By the Government of India, Public Works Department.

Utilisation of Postal agency in the operations of the Telegraph Department.

Read—

Paragraph 6 of Public Works Department Resolution No. 169-90T, dated 31st May 1881.

Letter from Director General of Telegraphs, No. 454, dated 14th July 1883.

Public Works Department letter No. 253T, dated 22nd August 1883, to the Director General of Telegraphs.

Letter from Director General of Telegraphs, No. 480T, dated 29th August 1883.

OBSERVATIONS.—In pursuance of the orders of the Government of India, the Director General of Telegraphs now submits a scheme, drawn up in consultation with the Director General of the Post Office, for utilising the agency of the Post Office in extending the operations of the Telegraph Department. The following are the main heads of this scheme, which has the cordial approval of the Government of India :—

1. To constitute every Post Office in the empire a receiving office or depôt for the receipt of "Inland" telegrams from the public, whence "Inland" telegrams will be despatched by post to the nearest telegraph station, whether such station be a Government office or an office of a licensed telegraph system.

The charge to the public for a telegram received at a Post Office to be the same as the charge for a telegram received at a Telegraph Office.

2. To train a number of Post Office officials in telegraph duties (their pay while under training and all connected expenses being borne by the Telegraph Department) for the purpose—

(*a*) of combining telegraph with postal work at telegraph stations where the work can be done efficiently and cheaper by using the agency of the Post Office ; and

(*b*) of working branch telegraph stations, off the present main routes, which it is proposed to establish in Post Offices.

3. To erect short lines of telegraph inexpensively constructed, connecting the existing telegraph system with the Post Offices in towns in the vicinity, with the object of bringing the advantages of the telegraph within the reach of people of the main routes, thus providing a large extension of its sphere of usefulness at the least possible expense to the State.

The extent of these connections must be limited by financial considerations, but it is hoped that Local Governments and Administrations will be ready to contribute towards the expense involved, when it is known that this expense under the arrangements now sanctioned will be reduced to a minimum.

4. It has also been proposed by the two Directors General that, in order to remove friction and to facilitate the combined working, the Postal Department shall make no charge for postage, registration, &c., of articles on Telegraph service, and that all telegrams sent by the Post Office shall be considered as "on the service" "of the Telegraph Department," and transmitted without charge over the lines of the Telegraph Department, and of all licensed telegraph systems. This proposal is approved by the Government of India, and may be carried into effect from such date as may be arranged by the two Departments.

5. Detailed rules for the guidance of Postal telegraph receiving offices will be drawn up by the heads of the two Departments concerned, but it may be generally stated that inland telegrams tendered at such offices may be paid for either in cash or in postage labels, while in the case of branch telegraph stations established in Post Offices payment may be made in telegraph stamps also.

6. As regards the adjustment of accounts between the Postal and Telegraph Departments, the former will debit the latter with the usual discount on the sale of postage stamps used in payment for telegrams, and with the actual extra expenditure incurred in working Postal telegraph offices.

7. The Government of India is unwilling to bind either Department by the issue of further precise instructions, and confidently leaves the development of the scheme in the hands of the two Directors General, subject to their submitting from time to time such of their proposals as may require the sanction of higher authority.

The desired economical extension of the telegraph will depend largely on cautious tentative measures adopted, with the consent of both Departments, in the light of experience gained by actual working.

8. In conclusion, His Excellency the Viceroy in Council desires to express his recognition of the spirit in which the two Directors General have taken up this scheme for the development of telegraphic communication in India, and his appreciation of the liberal and ready manner in which the Director General of the Post Office has met the proposals of the Director General of Telegraphs.

ORDER.—Ordered that copy of this Resolution be forwarded to the Local Governments and Administrations noted on the margin, to the Department of Finance and Commerce and to Her Majesty's Secretary of State for information; also that copy be forwarded to the Director General of Telegraphs for information and guidance and to the Publisher of the *Gazette of India* for publication in the Gazette.

The Governments of Madras, Bombay, Bengal, North-Western Provinces and Oudh, and the Punjab, Public Works Department.
The Chief Commissioners, Central Provinces, British Burma, Assam, and Coorg.
The Resident at Hyderabad.
The Agents to the Governor General for Central India, Rajputana, and Baluchistan.
The Accountant General, Public Works Department.
The Director General of Railways.
The Director General of Telegraphs in India.
The Director-in-Chief, Indo-European Telegraph.

No. 228.—With reference to the above Resolution, the Governor-General in Council is pleased, under the provisions of section 8 of Act I of 1876, entitled an Act to amend the law relating to Telegraphs in India, to prescribe the following revision of rule 12 of the "General Rules relating to the conduct of all Electric Telegraphs licensed under the Telegraph Act to transmit paid messages for the public," issued under Government of India, Public Works Department, Civil Works Resolution No. 203-35T, dated Simla, May 2nd, 1882, *viz.*—

12. Messages on the service of the Government Telegraph Department shall be transmitted without charge to or from all licensed Telegraph Offices. Messages on the service of the Government Telegraph Department shall include messages on the service of the Postal Department.

W. S. TREVOR, *Col.*, R.E.,
Secy. to the Govt. of India.

The Calcutta Gazette.

WEDNESDAY, OCTOBER 17, 1883.

PART II.

Advertisements.

[N.B.—Advertisements, Notices, &c., intended for insertion in this part of the Gazette, cannot be received after Noon on Monday.]

LAND SALE NOTICES.

NOTICE is hereby given that the proprietary right of Government, as specified in the conditions of sale below, to the undermentioned land situate in the district of Hazaribagh will be put up to sale at the Hazaribagh Collectorate on Thursday, 15th November 1883, corresponding with 1st Aghan 1291 Fusli.

The purchaser will be subject to the following conditions of sale :—

Conditions of Sale.

1*st*.—The land to be sold revenue-free to the highest bidder above the upset price. The purchaser of this land will be considered as the proprietor of the land, and the entire proprietary right of Government in such land will be transferred to him.

2*nd*.—If the amount of purchase-money do not exceed Rs. 100, the whole amount to be paid down at once.

3*rd*.—If the amount of purchase-money exceed Rs. 100, one-fourth of the amount bid to be immediately deposited. If the balance be not paid by noon of the fifteenth day after the sale, reckoning the day of sale as one, or if that day be a close holiday, then by noon of the first succeeding office day, the sale to be cancelled (the sum deposited being forfeited to Government), and the land to be again put up to sale at the risk of the defaulting purchaser, after issue of advertisement, as in the case of original sale.

Notice.

WANTED a Jailor for the Native State Jail in Cooch Behar. Salary Rs. 60 rising to Rs. 75 by annual increments of Rs. 5. None need apply who has not passed at least the First Examination in Arts. Candidates possessing experience in jail work under Government will be preferred.

JADUB CHUNDER CHUCKERBUTTY,
(1633—2) In charge of the Cooch Behar Jail.

Notification.

IT is hereby notified for information of the public that a duplicate receipt for an amount exceeding Rs. 20 is liable to a stamp duty of one anna under Article 23 (*a*), Schedule I of Act I of 1879, and should, under section 16 of the Act, be stamped before or at the time of execution. If the duty payable on the duplicate receipt is denoted by an adhesive stamp, such stamp should be cancelled *so that it cannot be used again*. Any person signing a duplicate receipt when the amount exceeds Rs. 20 without the same being duly stamped, is liable to be criminally prosecuted under section 61, Act I of 1879, and punished with a fine which may extend to Rs. 500; and any person neglecting or omitting *to effectually cancel the adhesive stamp* and in payment of stamp duty renders himself liable to a fine which may extend to Rs. 100.

The attention of banking, mercantile, and trading community is especially drawn to the requirements of the law on this point.

G. M. GOODRICKE, Collector of Calcutta.
Calcutta Collectorate, the 13th September 1883.

Commissioners for making Improvements in the Port of Calcutta.

KANHYA LAL, in charge Byramghat Depôt.

The 22nd May 1879.

Notice.

THE Public are hereby informed that the well-known Kartick Baruni Mela, which is held every year on the banks of the Dhaleshwari, near Munshigunge, in the district of Dacca, will commence on the 14th November 1883 A.D., corresponding to the 29th Kartick 1290 B.S., and continue up to the 25th December 1883. Tradesmen, dealers, and others may buy and sell there during these six weeks.

A. W. PAUL, Magistrate of Dacca.

Notification.

IT is hereby notified, under section 5 of the Indian Treasure Trove Act (VI of 1878), that in March 1882 treasure consisting of 60 silver one-rupee coins were found in the ruined house of one Venkataraguva Charry, in the village of Mel Nallathur, in the Trivellore taluq, of the Chingleput district.

2. All persons claiming the treasure, or any part thereof, are required to appear personally, or by agent, before the Collector of Chingleput, at his office at Saidapet, on the 5th day of February 1884, in order to the matter being enquired into and determined in accordance with the provisions of this Act.

J. FREDERICK PRICE, Collector.

Notification.

IT is hereby notified, under section 5 of the Indian Treasure Trove Act (VI of 1878), that, on or about the 11th August 1883, the undermentioned articles valued at about Rs. 18 were found under ground in the vacant house site of Thevanni, a resident of Kolanipalayam hamlet of Mettupalayam village, Dharapuram taluq, Coimbatore district.

All persons claiming the said treasure, or any part thereof, are hereby required to appear personally or by agent before the Collector at his office on Tuesday, the 11th March 1884, at 10 A.M., in order that the matter may be enquired into and determined in accordance with the provisions of the Act.

3 Rs. of 1835	...	...	...	3

———, Collector.

Coimbatore Collector's office, the 24th September 1883.

Baree Tea Company, "Limited."

A QUORUM of Shareholders not having attended the Ordinary General Meeting called for 25th instant, same has been postponed to 26th proximo, at 11 A.M.

MITCHELL, REID & Co., Agents.

Calcutta, 26th September 1883. (1608—1)

India General Steam Navigation Company, "Limited."

NOTICE is hereby given that an Extraordinary General Meeting of the Company will be held at the registered office of the Company, No. 4, Fairlie Place, Calcutta, on Friday, the 19th of October 1883, at the hour of noon, when resolutions will be proposed—(1) for consolidating and sub-dividing the shares in the capital of the Company in such manner that the paid-up capital shall henceforth be divided into shares of Rs. 100 each, and for calling in and cancelling the existing certificates of shares and for issuing new certificates; and (2) for rescinding the 50th article of Association of the Company relating to the voting power of share-holders and for the substitution in lieu thereof of such regulation as the proposed consolidation and sub-division of shares may render necessary.

Dated this 29th day of September 1883.

By order of the Directors,

(1613—3) J. GILLMAN, Officiating Secretary.

Sonai Tea Company, "Limited."

NOTICE.

AN Extraordinary General Meeting of Shareholders of the Sonai Tea Company, Limited, will be held at the registered office of the Company, No. 12, Mission Row, Calcutta, on Friday, the 26th day of October 1883, at 12 o'clock, to confirm the following resolution passed at the Extraordinary General Meeting of Shareholders, held this day the 2nd day of October 1883:

That the Company be wound-up voluntarily and that Mr. W. A Browne be and he is hereby appointed liquidator (at such remuneration as the Company may fix) for the purposes of such winding-up, with power to do such of the several acts and things specified in the Indian Company's Act, 1882 (and especially sections 144 and 177 of such Act), as shall be found necessary or proper for winding-up the affairs of the Company and distributing its assets.

BEGG, DUNLOP & Co., Managing Agents.

Calcutta, 2nd October 1883. (1624—4)

East India Tea Company, "Limited."

NOTICE is hereby given that the Forty-second Half-yearly Ordinary General Meeting of Shareholders of the above Company will be held at the registered office, No. 4, Mango Lane, Calcutta, on Monday, the 29th current, at 12 o'clock noon, for the purpose of receiving the Directors' report, passing the accounts for the half-year ended 30th June last, and transacting such other business as may be brought before the meeting.

By order of the Board,

WILLIAMSON, MAGOR & Co., Secretaries.

Calcutta, 16th October 1883. (1636—2)

Robert Chester, deceased.

PURSUANT to Act of Parliament of the 22nd and 23rd Victoria Chap. 35, intituled "An Act to further amend the law of Property and to relieve Trustees."

Notice is hereby given that all creditors and other persons having any debts, claims or demands against the estate of Robert Chester, formerly of Howrah in the Empire of Hindustan, then of 64, Marlborough Road, Chelsea, in the county of Middlesex, and late of the Hospital for Consumption, Fulham road, in the same county, formerly Assistant Station Master at Howrah aforesaid, but lately of no occupation (who died on the 8th day of October 1882, and letters of administration to whose personal estate were granted out of the principal registry of the Probate Division of Her Majesty's High Court of Justice on the 10th day of September 1883 to Charles Chester, the natural and lawful father and next of kin of the deceased), are hereby required to send in writing the particulars of their claims or demands to me the undersigned as soliciter for the said administrator on or before the 14th day of January 1884, after the expiration of which time the said administrator will proceed to distribute the assets of the said deceased among the parties entitled thereto, having regard only to the claims and demands of which the said administrator shall then have had notice, and the said administrator will not be liable for the assets or any part thereof so distributed to any person of whose debt, claim or demand he shall not have had such notice as aforesaid.

Dated the 14th day of September 1883.

REGINALD BRIDGER,
Solicitor for the said Administrator.

15, Saint Helen's Place, Bishopsgate Street, Wilhin, London, E. C. (1634—1)

JOHN ELIOT, M.A., *Meteorological Reporter to the Govt. of Bengal.*

CALCUTTA, the 26th August 1875.

The Indian Law Reports.

Published under Authority of the Governor-General in Council.

THE Reports appear in monthly parts, published as soon as possible after the first of each month at Calcutta, Madras, Bombay, and Allahabad, and will comprise four series,—one for the Calcutta High Court, a second for the Madras High Court, a third for the Bombay High Court, and a fourth for the Allahabad High Court. The cases heard by the Privy Council on appeal from each High Court will be reported in the Series for that High Court. Cases heard by the Privy Council on appeal from Provinces in India not subject to any High Court will be reported in the Calcutta Series.

The Parts of each series can be had separately, or all four Parts can be had stitched into one wrapper at the option of subscribers and purchasers. It will be observed from the following statement of the terms of subscription and sale, that a considerable reduction is allowed to persons taking the complete set.

Terms of subscription, payable annually in advance.

	Without postage.	With postage
For the Calcutta Series...	Rs. 35	Rs. 40
„ Madras Series ...	„ 8	„ 9
„ Bombay Series...	„ 8	„ 9
„ Allahabad Series	„ 8	„ 9
Complete set	... 45	„ 50

The Price of each part purchased separately will vary according to the amount of matter it contains, and will be printed on the wrapper. It will, however, never be below the following:—

	Rs.	A.
For a part of the Calcutta Series ...	3	8
„ „ Madras Series ...	1	0
„ „ Bombay Series ...	1	0
„ „ Allahabad Series ...	1	0
Complete set	4	0

Persons desiring to subscribe for or purchase the Reports, should apply to—

Messrs. Thacker, Spink and Co., Calcutta;
„ Thacker, Vining and Co.;
„ Higginbotham and Co., Madras;
The Government Central Book Depôt, Bombay;
The Government Book Depôt, Allahabad.

Notice.

THE following Reports of the Bengal Meteorological Department, issued by orders by the Government of Bengal, can be supplied to the public at the prices annexed:—

1*st*.—Bay of Bengal Daily Report giving observations taken at 17 stations on or near the coast of the Bay, with a chart and summary. This is published in connection with the Calcutta Storm Signal Service. The report giving 10 A.M. observations of the day is distributed by noon in Calcutta after 4 P.M. Price to subscribers in Calcutta, Rs. 2 per mensem.

2*nd*.—Bengal Daily Report containing observations taken at 30 meteorological stations, and transmitted to Calcutta by weather telegrams, with a brief summary of the weather in Bengal during the preceding 24 hours. The report giving the 10 A.M. observations of each day is printed in time for the evening mail. This report for the present will only be published during the south-west monsoon, *i.e.* from May, 15th, to November, 15th. Price Rs. 2-8 per mensem, including postage.

3*rd*.—A Weekly and Monthly Statement of Meteorological Observations taken at 38 observing stations, and of rainfall recorded at 160 sub-divisional stations, together with summaries of the more important features of the meteorology of the past week or month of the province, and of the distribution of the rainfall and its variation from the normal. Price of the Weekly Report, including postage, Rs. 6 per annum, payable in advance, and of the Monthly Summary Report, Rs. 2 per annum, payable in advance.

Subscriptions payable to the Meteorological Reporter to the Government of Bengal for the Bay of Bengal Daily Report, and to the Accountant and Treasurer, Bengal Secretariat, for the other reports.

JOHN ELIOT,
Meteorological Reporter to the Govt. of Bengal.
Meteorological Office, Bengal, the 3rd July 1883.

Results of the Thermometrical Observations taken at the Meteorological Office, Chowringhee, from 7th to 13th October 1883	1684

The 5th October 1883.—The following circular from the Revenue and Agricultural Department of the Government of India, No. 68F.S., dated the 14th September 1883, and its enclosure, regarding the experiment in sericulture conducted in Chhindwara, are published for general information.

COLMAN MACAULAY,

Secretary to the Govt. of Bengal.

Circular No. 68F.S., dated Simla, the 14th September 1883.

From—E. C. BUCK, ESQ., C. S., Secretary to the Government of India, Revenue and Agricultural Department,

To—The Chief Commissioner, Central Provinces.

I AM directed to acknowledge the receipt of your letter No. 3675—203 of the 17th ultimo, forwarding a report on the experiment in sericulture conducted in Chhindwara during the months of February, March, and April last, and to say that the report is interesting and promising and creditable to the officers who carried out the experiment.

2. With reference to paragraph 6 of Mr. Fuller's report, I am to suggest the cultivation experimentally of better classes of mulberry trees, such as *morus multicaulis*. It is probable, however, that this question has already received the consideration of the Agricultural Department.

No. 304, dated Nagpur, the 23rd July 1883.

From—J. B. Fuller, Esq., Director of Agriculture, Central Provinces,
To—The Secretary to the Chief Commissioner, Central Provinces.

I have the honour to submit the following report on the experiment in sericulture which was conducted in Chhindwara during February, March, and April of the current year.

2. The object of the experiment was to discover whether the climate of the Satpuras was suitable for growing Japanese silk on the system which is followed in the Dehra Dun. The peculiarity of this system is that only a single crop of cocoons is raised in the year, whereas in Bengal several crops are raised in succession. The eggs are hatched at Dehra in February, and the cocoons are ready by the end of March. The eggs which are retained as seed for the next year's crop are then sent up to Mussoorie, where the comparatively low temperature prevents them from hatching until brought down again to Dehra in the February of the following year. In Bengal, on the other hand, the eggs resulting from the spring crop of cocoons are allowed to hatch out during the rains, and the eggs resulting from the rain crop are allowed to yield a third crop in the autumn. The deterioration of Bengal silk has been ascribed to this (the polyvoltine) system of culture. The rain and autumn crops of worms have to endure a climate which is unsuitable for them, and the breed becomes in consequence permanently enfeebled. The choice between the Dehra and Bengal systems lies between having one crop of good silk in the year and having several crops of silk of poor quality.

3. In circular No. 24F. and S., dated 5th June 1882, the Government of India, in the Department of Revenue and Agriculture, offered to supply the Administration of these Provinces with 2 oz of silk-worm eggs from Mussoorie if an experiment was undertaken with them. For successful silk growing it is necessary that the climate should not become very hot until the worms have finished spinning their cocoons, that is to say, until the end of March or beginning of April. In this respect the climate of the Satpura district in these Provinces most nearly resembles that of Dehra The station of Chhindwara stands at a height of over 2,000 feet above sea level, and has a climate typical of the Satpura region. There were a sufficient number of mulberry trees in and around the station to provide foliage for a small trial. It was accordingly determined to make the experiment there. So far as management was concerned, the experiment was made under exceptionally favourable circumstances. The Deputy Commissioner, Mr. Tawney, took a lively interest in it, and made excellent arrangements for its proper conduct. The immediate charge of the experiment was committed by him to Mr. DeLange, second clerk in the District office, who carried out his instructions zealously and carefully, and has submitted a very good report. Since no one in Chhindwara had any practical acquaintance with silk rearing, it was considered advisable to import a trained man from Dehra, who does not, however, seem to have rendered much real assistance. His pay and travelling expenses (Rs. 158-4-2) constitute the heaviest item in the cost of the experiment.

4. Two oz. of Japanese eggs were received from Mussoorie on February 10th, and between that date and February 25th. ¾ oz was hatched out by exposure to the sun. This is calculated to have yielded some 30,000 worms. Hatching was then discontinued, since it was believed that the supply of mulberry foliage would not be sufficient for a larger number of worms—a belief which was found to be incorrect, as events showed that the mulberry trees which Chhindwara contained could have supplied food to eight times this quantity. The hatching out of the worms has to be so timed as to take place when the mulberries are coming into new leaf, and might in the present case have been effected sooner with advantage. Mr. Tawney believes that February 5th is, in ordinary years, a safe date to calculate upon.

5. It was originally intended to erect a cheap rearing shed of brushwood, but it was found possible to utilize an old brick cattle shed, which suited the purpose well. The treatment of the worms is described as follows in the district report :—

"As the worms were hatched each day they were put into bamboo trays, with the dates affixed, and fed on tender leaves, cut very small."

"After a few days the stronger worms would come to the top, and these were again removed to other trays bearing the same date ; and so on, till the contents of each tray were distributed into several other trays, to prevent overcrowding. The worms were not handled, but removed from tray to tray by means of small pincers, the leaves being lifted with the worms on them"

"For about 20 days they were kept in trays, and then removed on to the tables, when they were fed on whole leaves. The tables were cleaned every second day."

For the first 20 days the worms were fed on detached leaves cut into small pieces. After this leaves were given them in branches, twigs and all. The leaf given to the worms each day was carefully weighed, and the total weight of foliage used in the experiment was found to be 59 maunds. The superficial area of the trays in which the worms were reared was 130 square feet. This is one-third more space than that allowed in Italy, but one-fifth less than the space which was found necessary in the Dehra experiments.

6. The mulberry trees in Chhindwara were of two varieties—one having much thicker leaves than the other. Mr. Duthie, Superintendent of the Saharanpur Botanical Gardens, to whom specimens of both varieties were submitted, pronounced the thicker leaved one of the two to be *Morus atropurpurea* and the other to be *Morus indica*, the mulberry ordinarily

used for silk growing in Bengal. The Dehra silk rearer from the first preferred the thicker leaved variety, and the results have shown his preference to have been justified. The worms fed on each variety were kept carefully separate, and the thick-leaved mulberry has been proved to yield much the best silk (see paragraph 12).

7. The first cocoon was spun on March 22nd, thirty-two days after hatching. The following arrangements were made :—

"To enable the worms to make their cocoons, whole branches with leaves were spread over them, the leaves serving as food for those that had not commenced as yet; other contrivances were also made by tying three branches of cypress together and spreading them like a triangle over the worms; to these they took readily, and the cocoons made on these were cleaner and better than those made under the leaves and branches of the other tables."

8. It is interesting to note here the temperature which the worms had to endure. It was recorded three times daily, at 7 A. M., 2 P. M., and 10 P. M. The highest temperature registered up to March 19th was 90°, which occurred on five days before that date. The lowest temperature registered was 68°. On March 20th and 21st the thermometer marked 92°, and on March 22nd rose to 94°, which was the maximum registered on each subsequent day of the experiment. After March 22nd the minimum was never below 72°, and on several days the thermometer never fell below 82°. Water was sprinkled on the floor of the shed to keep the temperature down, but it is probable that it was considerably hotter than a grass shed would have been.

9. The cocoons were weighed as they were cleared each day from the tables, and their total "green" weight was 41 lbs. 12½ oz. A portion of them were "sun-dried," the chrysalides being killed by exposure to the sun. Another portion were "steamed" at my suggestion in the simple manner used by rearers of tassar silk in Chhattisgarh districts. The process is described in the report as follows :—

"The steaming was effected by means of two pots; the lower was half filled with water, and a wire flour sieve was put on its mouth, into which the cocoons, a pound at a time, were put; the other pot, its mouth having been broken off, was inverted over the lower one, so as to prevent the steam escaping. Within 15 minutes of each steaming the chrysalides were killed thoroughly, as was tested by opening a few. The steamed cocoons were then dried in the shade, weighed and put away."

10. When thoroughly dry the cocoons were re-weighed and amounted to 14lbs. 14oz. They had therefore lost two-thirds of their weight, those which were "steamed" losing rather less weight (62 per cent.) than those "sun-dried" (66 per cent). They were then despatched to Messrs. Thomas and Co., Brokers of Calcutta, who had kindly engaged to have the silk spun and valued. The spinning was effected in the Berhampore factories of the Bengal Silk Company. The cocoons yielded 4 lbs. 5 oz of spun silk, and the following products possessing mercantile value :—

	oz.
Tape Chassum	10
Feshwa No. 1	½
Feshwa No. 2	1
Godhur	2½

11. The success of the experiment depends upon the quantity as well as upon the quality of the silk produced. As regards the quantity of produce, it is possible to test the results by comparing the proportion of cocoons to eggs and of silk to cocoons with the ratios which are accepted as the standard in works on sericulture. This comparison is effected below :—

	Standard.	In the experiment under report.
One oz. of eggs yields ..	from 20 to 23lbs. dry cocoons ..	19·81lbs.
Four lbs. of dry cocoons yields ..	one lb. silk	1·16lbs.

The ratio of cocoons to eggs is very nearly up to the standard, while the ratio of silk to cocoons is above it. This is one of the most satisfactory points in the results, since it proves that the cocoons were above the average size and weight.

12. The best indication of the quality of the produce will be afforded by quoting the Calcutta report. Of the cocoons Mr. Stocks, the Manager of the Berhampore Silk Factory, writes :—

"I went through the cocoons carefully and weighed them. The "*sun-dried*" and the "*steamed*" appear much of the same quality. I preferred the latter, and they have given better produce. The double cocoons were not more than 3 per cent., and the useless ones 1 per cent. I should say that these two lots were worth Rs. 3-4 per seer *dry*. The *sun-dried China mulberry* ones were a poor lot,—2 per cent. of double and one-fourth stained. I should say Rs. 2-8 per seer *dry* a high value for them."

"The silk is very good from the thick-leaved mulberry cocoons, but you will find it does not open so freely as good silk should: the great heat required to unwind the cocoon is to blame for this."

"I made the silk 12-13 deniers, and it was carefully reeled so."

It is noticeable that the worms fed on the thicker leaves of the two varieties of mulberry (*Morus atropurpurea*) gave much better cocoons than those fed on other variety (*Morus indica*), termed the China mulberry in the above report.

The Broker's report on the spun silk is as follows:—

"We have examined the two large bundles of raw silk the produce of the '*sun-dried*' and '*steamed*' *thick-leaved mulberry cocoons.*"

"There is no noticeable difference between either of these bundles or the three skeins from the '*sun-dried*' *China mulberry*. We report the quality to be decidedly good; the colour is a good white, but in some skeins there is a slightly greenish tinge, and in others a leaden shade. The thread is very nervous and the thread strong. It is also very clean: some slight show of small knit, but hardly worth notice, except in a critical report: the size is 12 to 14 deniers, but is not so reliable in this respect as we should like to see it. However, without some experience of the yield and nature of the cocoons the reelers are handling, they are at a great disadvantage; in the present case we consider the reelers have been quite as successful as could be expected—the silk winds very well."

"The yellow skein we have not opened, as we think you would like to receive it in a fresh state: it doubtless will bear just as good a report as the others: the only special remark to make is, though the colour is bright, it is not of the brightest."

It will be noticed that no market value is quoted for the silk, because in the words of the Broker's report—

"If valued as Bengal raw silk, we could not put the value higher than Rs. 16 to Rs. 17 per factory seer, whereas it is the writer's opinion that if the silk be submitted for valuation in Europe, and is not supposed to be Indian or Asiatic silk, it will be valued at about 20s. per pound in London, running certain kinds of European reeled silk, to wit, Broussa, very close."

"We could suggest that you send forward the samples to London, Marseilles, or Lyons for careful report and valuation, but if this be done the writer ventures to counsel you, if you desire to get a perfectly unbiassed report and value, to take some pains to disconnect the silk with India, with which object Indian tickets, paper, and packing should be destroyed, and the skeins should not remain bundled and tied up as now in packets of three and four ere they pass into the hands of the expert at home. On no account send forward any of the cocoons—Chassum or other waste; these would serve as a connecting link."

"In conclusion, we have only to remark that the Bengal Silk Company work the filatures formerly owned by Messrs. James Lyall and Co. This Company would like to secure a good supply of such cocoons as they have reeled for your department, and we and they will be glad to learn that your department sees its way to increase the production and to know at what rate this is expected to take place."

The silk was therefore of a quality greatly superior to that ordinarily produced in Bengal and equal to certain classes of European silk.

13. Messrs. Thomas and Co. have favoured me with the following additional remarks on the waste products Chassum, &c. mentioned at the conclusion of paragraph 10:—

"Besides the raw silk produced from the cocoons we return you the waste or refuse, which some 20 years ago had only a nominal value."

"Tape Chassum appears very good of its kind, but we cannot say what the valuation we now put on it of Rs. 175 *per factory maund* would be obtainable, because it is *white*; as a rule, there is a prejudice against *white Bengal Chassam*, because at the dye-pot the white of Bengal silk and Chassum can't be relied on as a true white, and not being a yellow it becomes a bastard colour. But in the writer's opinion this white Chassum will prove perfectly reliable as a white silk and with consumer's minds set at rest on this point the valuation of Rs. 170 ought to-day to be obtainable. Rupees 170 is an extremely high value. This class of Chassum has never sold so high in former year. Last year Rs. 160 was the rate: the previous year Rs. 140. Before these years the price ranged between Rs. 125 and Rs. 140 per factory maund"

"*Feshwa No.* 1 is worth nearly as much as the Tape Chassum, selling along with it in the contracts we pass.

"*Feshwa No.* 2 worth about Rs. 80 per factory maund."

"*Godhur or Low basin waste* and husks worth about Rs. 20."

14. The experiment may therefore be pronounced to have been a complete success. It was, it is true, on a very small scale, but the results are sufficient, I think, to establish beyond doubt that excellent silk can be grown in the Satpura tract if eggs were imported from Mussoorie and only a single crop taken in the year. And in addition to this, the experiment was conducted with so much care as to furnish a number of reliable *data* which will be extremely useful in the event of sericulture being taken up on a large scale. On this subject, which is directly connected with the extension of mulberry plantations, I will do myself the honour of addressing you in a separate communication.

15. The total cost of the experiment was only Rs. 292-14-6, considerably more than half of which (Rs. 158-14-2) was incurred on the salary and expenses of the silk rearer imported from Dehra. Economy is therefore another point for which Mr. Tawney is to be congratulated on his management.

RESOLUTION ON THE GENERAL ADMINISTRATION REPORT OF THE CHITTAGONG DIVISION FOR THE YEAR 1882-83.

GENERAL DEPARTMENT—MISCELLANEOUS.

Dated Darjeeling, the 6th October 1883.

RESOLUTION.

READ—

The General Administration Report of the Chittagong Division for 1882-83.

The Lieutenant-Governor is glad to record the punctuality with which the present report has been submitted. Mr. Lowis was Commissioner throughout the year, and the districts of the division were also administered by the same officers during the entire year, with the exception of Tipperah, where Mr. Toynbee had charge for 10½ months and Mr Hopkins for the remainder of the year.

2. *Tours.*—All officers, both European and native, appear to have fully complied with the wishes of the Government on this subject, and the report shows that much useful and important work was done during the tours in each district. The Lieutenant-Governor is glad to find that these tours of inspection were not limited to the cold weather season, and that as occasion required visits to the interior were not unfrequently made in June, July, and August. He notices especially the commendation bestowed by the Collector of Chittagong on Mr Mackertich, Sub-Divisional Officer of Cox's Bazar, "for the energetic and methodical manner in which he set to work to make himself thoroughly acquainted with the sub-division."

3. *Weather and Crops.*—In all districts, except the Hill Tracts, the rainfall was sufficient, and the outturn of the crops satisfactory. In Chittagong the season was favourable to tea; but owing to the low prices realised the planters found it necessary to reduce expenditure on all gardens. In the Hill Tracts the weather proved unfavourable to joom cultivation, and the outturn of both cotton and rice fell below the average.

This section of the report furnishes, as usual, a table of the year's rainfall, but the figures for the sudder sub-division of Noakholly being identical for every month with those reported last year for 1881-82 are obviously the figures for that year erroneously entered in the table instead of those for 1882-83. This is not the only instance of carelessness in compiling the statements of the report. Others will be pointed out below, and Mr. Rivers Thompson must request that such mis-statement may not be allowed to appear in future reports.

4. *Health and Condition of the People.*—Chittagong suffered a good deal from cholera and fever throughout the year, and small-pox was also prevalent in the district from April to July. In Tipperah the year was also unhealthy, though no outbreak of epidemic disease occurred. It is thought that the public health was, possibly, affected by the steeping of jute in water, a far larger crop of the plant than usual having been cultivated during the year. The villages along the eastern frontier of the Hill Tracts were visited by a severe outbreak of cholera in April and May, but other parts of the district were healthier than in the previous year. In Noakholly the year appears to have been fairly healthy. Except in the Chittagong Hill Tracts, the general condition of the people throughout the division was one of prosperity and independence. Food was abundant and the demand for labour greater than local supplies could meet. The work in connection with the railway surveys had increased the demand. Cattle-disease was prevalent in many parts of the division. In the Hill Tracts the tribes, particularly the Lushais of the Thanglowa clan, endured considerable hardships in consequence of the partial failure of their crops and their own thoughtlessness in using up, for the manufacture of liquor, the seed-grain which had been distributed among them.

Emigration and Immigration.—About 200 persons are reported to have left the Cox's Bazar sub-division for Arracan in the hope of obtaining waste land leases on easy terms in the latter district. Such migrations in the frontier districts of Bengal and British Burma are very common, and the causes are well understood, but it is not satisfactory to learn that no less than 500 hill families residing in the Fenny Valley emigrated from the Mong Rajah's circle into the Maharajah of Hill Tipperah's territory, in consequence, it is said, of unfounded apprehensions in connection with joom registration. The Lieutenant-Governor

desires to have a full report on this matter. The abandonment by so large a number of families of their homes points *primâ facie* to some local mismanagement.

6. *Prices of Food and Labour.*—Rice was cheap throughout the division, and especially so in Tipperah and Noakholly, where the markets were glutted. In the Hill Tracts prices are usually higher than elsewhere, the markets being supplied by importation, as the hill people only grow their rice for home consumption. They were, however, lower in the past year than in 1881-82, notwithstanding the short crops of the year under report, and this fact was due to large importations, over 90,000 maunds of unhusked and 47,000 maunds of husked rice having been imported during the year, against 46,000 and nearly 17,000 maunds respectively in the previous year. Wages, both of skilled and unskilled labour, are everywhere high in the division.

7. *Manufactures and Mines.*—Tea is the most important manufacture, and it is confined to Chittagong and the Chittagong Hill Tracts. The number of gardens in the past year was 29, and the quantity of tea exported 1,030,927lbs. against 810,390lbs. in the previous year. Two rice mills are established at Chittagong and appear to be doing a good business.

8. *Trade and Commerce.*—The sea-borne trade of the Port of Chittagong again shows a large increase, its total value having risen from Rs. 1,88,63,478 in 1881-82 to Rs. 2,36,60,406 during the year. Of the increase 27 lakhs were due to foreign and the remainder to interportal trade. The imports advanced by Rs. 22,97,104 and the exports by Rs. 24,99,824. The chief articles of foreign export were rice worth Rs. 18,15,216 against Rs. 19,04,351, and jute worth Rs. 73,23,050 against Rs. 44,86,319 in 1881-82. The expansion of the jute trade is remarkable, but, as in other parts of the province, over-production has temporarily led to a fall in prices. The progress of the Port during the year will be more fully reviewed in the Resolution on its Annual Administration Report, but here it may be said that the export trade of the port was somewhat restricted by the prevalence of stormy weather in the Bay towards the close of the rice season, whereby supplies were prevented from coming from Noakholly, Tipperah, and the islands in the estuaries of the Megna. "Had railway communication existed," says Mr. Lowis, "a larger quantity of rice would have come in, and there would have been no decline under this head." The construction of the Daudkandy-Chittagong line, which the Lieutenant-Governor is very anxious to promote, will make the export trade of the Port so far independent of the state of the weather. In many other ways the construction of such a line with its contemplated extension from Comillah to Cachar would confer incalculable benefits upon these south-eastern districts. The rich agricultural products of Tipperah and Noakholly would find an outlet; the coal tracts about Koilashur on the borders of Hill Tipperah would be developed; the advancement of a backward people would be promoted, and an immense impulse given to the clearance and settlement of wide tracts of waste land. Chittagong already possesses many natural advantages of a seaport from its proximity to the sea, and its connection by railway with the districts of the north-eastern frontier would not only benefit itself, but would materially tend to relieve Calcutta. In Noakholly rice, betel-nuts, cocoanuts, and hides, and in Tipperah rice, betel nuts, jute, and hides, form the chief articles of export, while the principal imports of both districts are piece-goods, tobacco, molasses, sugar, and oil. Tipperah also receives a large quantity of cotton from Hill Tipperah, nearly 60,000 maunds having been brought down in the past year, the greater part of which was forwarded to Calcutta *viâ* Naraingungo. From the Chittagong Hill Tracts, also, over 95,000 maunds of cotton were exported during the year. It is evident that the cotton trade of these parts would grow and increase rapidly if the means of communication were improved. The exports of India-rubber have fallen off, owing to the destructive overtapping of the trees in the Howlong country.

9. *State of Public Feeling.*—The Commissioner remarks that there is absolutely no public feeling in the division regarding matters of public interest affecting the Empire in general. The people have their local interests, and are concerned only in matters which affect themselves, directly and personally. Some public feeling has accordingly been manifested in Chittagong in regard to the Noabad settlement and the new circle system of collecting revenue from Government tenants; while in the Chittagong Hill Tracts a general feeling of

discontent was, it is stated, awakened among the Mong Rajah's people by the orders for joom registration, regarding which a special report has been called for. Apparently the relations between the Chief and his tenantry are not of a friendly character, and some designing and interested people have taken advantage of the discord to promote their own interests. In Noakholly the people are contented and well disposed; and the only question which has produced a temporary excitement in Tipperah is a caste question affecting the Maharajah But the satisfactory adjustment of this is anticipated. The Local Self-Government scheme, the Commissioner reports, evoked some apparent enthusiasm among the educated classes, consisting "mostly of pleaders, mookhtears, schoolboys, and teachers," at the head-quarters of the three Regulation Districts, but the question excited no practical interest among the people generally.

10. *Public Press.*—Vernacular newspapers are published in Chittagong and Tipperah, but they appear to possess no influence, and their circulation is small.

11. *Administrative Changes.*—The only change of the year calling for remark is the introduction of the khas tehsil or circle system of managing the Government estates in Chittagong, where they occupy three-fourths of the district. Five circles have been established, two of which, with the sudder station and Cox's Bazar for their head-quarters, are in charge of Deputy Collectors, while the rest in the interior are in charge of well-paid tehsildars. The system has been only a few months in operation, but there is reason to believe that it will prove a great convenience to tenants in paying Government dues, and conduce to considerable improvement in the collections.

12. *Police and Crime.*— The unsatisfactory condition of the police in Noakholly and Tipperah has doubtless engaged the attention of the Inspector-General, but a copy of the Commissioner's remarks will be forwarded to him. The circumstances which lead the District Superintendent of Noakholly to describe his men as a "slouchy, slovenly, indifferent lot" must admit of some improvement, and Mr. Lyall should enquire into the matter. The system of constant fines to which such free recourse has been had in Tipperah and Noakholly condemns itself, and the Lieutenant-Governor has no belief in its efficacy as a means of maintaining discipline. Without, of course, saying that fines ought never to be imposed, the Lieutenant-Governor is certain that the constant infliction of fines cannot improve the really worthless members of the force, while it discourages those who are anxious to improve themselves, and who, under more considerate treatment, would turn out useful policemen. The very fact that punishment is frequently inflicted by loss of pay must tend to suggest corrupt practices. The Inspector-General should consider and, if necessary, report on the suggestion that two out-posts should be opened to facilitate the police administration of the stations of Nabinagar and Habigunge.

The statistics of crime furnished in the report show that there was a large increase in both cognizable and non-cognizable cases in Chittagong, an increase in cognizable counterbalanced by a decrease in non-cognizable cases in Noakholly, a considerable decrease in both classes of cases in Tipperah, and a fair decrease in the Hill Tracts. Various reasons are assigned for the fluctuations, to which it is unnecessary to refer here, as the statistics of crime for the entire Province will be reviewed in the Resolution on the Annual Report of the Police Department. The principle on which the table in paragraph 60, purporting to show the working of the police in reporting cases, has been prepared is not intelligible. The sum of the A, B, and C Form cases, and cases rejected under section 117 of the Code of Criminal Procedure, entered against the years 1881 and 1882, should apparently be equal to the total number of cases for each year; but the table yields a different result. The A Form cases noted against 1881, again, are incorrect. Like the rainfall figures alluded to in paragraph 3 above, they are the figures for the previous year wrongly inserted in the report.

13. *Civil Justice.*—The statement showing the number and description of civil suits is also inaccurate, no less than five of the six sets of figures given in the column of totals being wrong. A general increase of litigation is, however, observable in Chittagong, Noakholly, and Tipperah. Suits for money and moveable property increased in the three districts from 15,948 to 17,936, suits under the rent-law from 20,817 to 23,067, and title and other suits from 5,971 to 6,291. In Chittagong the increase in rent suits is partly attributed to

disputes arising out of the settlement proceedings, and in Tipperah to the institution of a large number of suits simply to save limitation. The Munsifs are reported to have shown the greatest care in their judgments in the district of Chittagong; but the civil court system worked badly in the execution of decrees. In Tipperah and Noakholly complaints were made to the district officers on tour of the dilatoriness of the courts in disposing of rent suits. The attention of the High Court will be called to the subject.

14. *Land Revenue.*—The increase in the outstanding balances of land revenue in Chittagong and Tipperah at the close of the year was unsatisfactory; but the Lieutenant-Governor notes that portions of the balances have since been realised, and that the Commissioner is giving his attention to the reduction of the large amounts shown against Government estates, some of which are merely nominal arrears, not really realisable from the tenants. In Noakholly the collections were more successful, and a considerable reduction was effected in the balances. Notwithstanding the unfavourable season, the collection of the revenue was also satisfactory in the Hill Tracts. Both in Chittagong and Noakholly it has been found necessary to undertake an extensive revision of the settlements lately concluded, and those matters are being separately dealt with by the Board of Revenue and the Government. Past mistakes have already been to a large extent rectified in Noakholly, and it is hoped that they will be shortly corrected in Chittagong also. The Lieutenant-Governor acknowledges the good work done by the Collector of Noakholly in connection with the revision of revenue settlements. His enquiries during his recent visit to Tipperah confirmed the Lieutenant-Governor in the favourable report of Mr. Cooke's labours. The difficult questions connected with the bowladari tenures in this district are the subject of a separate correspondence.

15. *Excise.*—The excise revenue of the division continues to increase, the amount realised in the past year having been Rs. 2,37,0[illegible]8 as compared with Rs. 2,13,050 in 1881-82 and Rs. 1,65,812 for the five years 1877-78 to 1881-82. The outstill system was in force in all districts, and the number of shops for the sale of country spirits was increased from 34 to 40 in Chittagong, and from 37 to 46 in Tipperah, the increase having been due, the Commissioner explains, to better arrangement of the sites for shops with a view to meet existing demands. The Commissioner is certain that there is no increase in drunkenness, and that the expansion of the revenue is perfectly legitimate. The Lieutenant-Governor, however, would have preferred to hear of a reduction in the facilities for procuring liquor. He believes that much more might be realised by the sale of the licenses if the number of shops was more limited. In Noakholly the shops were reduced from 14 to 13. The consumption of ganja fell in Chittagong and Tipperah, but slightly increased in Noakholly. The rate of duty having, however, been raised by the Board, a considerable increase of revenue was obtained. The revenue from opium also shows an advance, especially in Chittagong. The Commissioner attributes the advance to an increase of smuggling into Arracan, and not to the use of a much larger quantity of the drug by the people of the district itself. The Lieutenant-Governor will deal with this matter separately.

16. *Stamps.*—The stamp revenue from the districts of Chittagong, Noakholly, and Tipperah increased from Rs. 9,[illegible]0,289 to Rs. 10,33,260, or by Rs. 82,971, the increase being observed in both judicial and non-judicial stamps. The larger sales of judicial stamps are obviously accounted for by the increase in civil litigation, while those of non-judicial stamps appear to have been mainly due to the execution of a larger number of leases, counterparts, bonds, and sale deeds, and to an increase in the issue of certificate stamps in Tipperah and Noakholly.

17. *Salt.*—The total quantity of salt on which duty was levied in Chittagong increased from 3,39,301 maunds in 1881-82 to 3,51,004 maunds, owing to larger clearances for Chittagong itself and Naraingunge. The clearances for Noakholly and Tipperah declined, but these districts drew much of their supply from Naraingunge, to which non-duty-paid as well as duty-paid salt can now be removed from Chittagong. In the saliferous districts of Chittagong and Noakholly there was an increase of consumption, and this is partly attributed to the reduction of duty.

18. *Communications.*—A fair amount of work appears to have been done in improving communications in the three Regulation Districts, and in the Hill Tracts surveys of three lines of road to connect Rangamati with Chittagong, Demagiri and Rankong, respectively, were undertaken. In Noakholly, Mr. Cooke and the Vice-Chairman of the Committee, Baboo Ram Lall Sen, are reported to have devoted much attention to the improvement of village communications. The attention of Road Cess Committees might be properly directed to the contemplated construction of the railway from Chandpore *viâ* Lucksham to Comillah and Chittagong, with the view to the completion of feeder roads.

19. *Education.*—The number of schools and pupils in all districts of the division, except the Hill Tracts, has increased largely, as is shown in the following statement; but the figures indicate the extension of the supervision of the Education Department over a larger number of indigenous schools rather than the creation of new schools. The extension in Tipperah is specially remarkable, the number of schools having risen from 1,615 (with 34,115 pupils) to 4,470 (with 90,509 pupils) within two years. This great increase calls for explanation, which the Director of Public Instruction will be asked to give in his next report:—

	1882-83.		1881-82.	
	Schools.	Pupils.	Schools.	Pupils.
Chittagong	1,417	37,143	844	24,854
Noakholly	2,105	45,552	1,509	32,855
Tipperah	4,470	90,509	2,862	56,353
Chittagong Hill Tracts ...	10	227	13	237

The decline in schools and pupils in the Hill Tracts will be brought to the notice of the Director of Public Instruction. It appears from the Commissioner's remarks that the district has been almost entirely neglected by the educational officers. Female education makes fair progress in Tipperah and Noakholly.

20. *Committees.*—There are no committees in the Hill Tracts. In the other districts useful work has been done by all the committees. In Chittagong the Mahomedan community formed a committee during the year for discussing matters connected with their own social welfare, from which the Commissioner thinks some good may result. The Commissioner reports favourably of the good work done by the dispensaries of which there are 16 in his division. The want of a dispensary at Cox's Bazar is being felt, and some native gentlemen are taking steps to start one.

21. *Conduct of Zemindars.*—The few important landholders in the district of Chittagong are said to be considerate to their tenants. The majority of the zemindars of the district are, however, themselves tenants. The Commissioner remarks that the mere suggestion that the Patni sale law is threatened by the Bengal Tenancy Bill has raised a great stir among them; but it must be pointed out that the Bill, far from proposing to abolish the Patni sale law, contemplates introducing only a few slight modifications into it, and these all in the direction of improving its effectiveness as a means of recovering rent. In Noakholly there are no large resident zemindars. The Lieutenant-Governor is glad to learn that the disputes between the members of the family of Nawab Abdool Gunny of Dacca, which had seriously interfered with the peace of the district of Tipperah, were amicably settled during the year. The management of their estates by the Chuckma Chief and the Mong Rajah of the Hill Tracts is severely commented on in the report.

Character of Officers.—The Commissioner's remarks will be communicated to the Appointment Department. Among the Covenanted Officers Messrs. Cooke and Maguire, and among Uncovenanted Officers Mr. Mackertich, Baboo Tarini Lal Chaudhuri, and Moulvie Dilwar Hossein Ahmed are specially praised. Mr. Lowis' knowledge of his division and his interest in its advancement are recognized by the Lieutenant-Governor.

By order of the Lieutenant-Governor of Bengal,

A. P. MACDONNELL,

Offg. Secretary to the Government of Bengal.

RESOLUTION ON THE REPORT OF THE SANITARY COMMISSIONER FOR BENGAL FOR THE YEAR 1882, AND THE VACCINATION REPORT FOR THE YEAR 1882-83.

MUNICIPAL DEPARTMENT.—SANITATION.

Dated Darjeeling, the 6th October 1883.

RESOLUTION.

READ—

The Report of the Sanitary Commissioner for Bengal for the year 1882, and the Vaccination Report for the year 1882-83.

Read again—

The Reports for the previous year, and the Resolution recorded upon them.

In consequence of the orders under which the Vaccination Report is incorporated with the General Report of the Sanitary Commissioner, the combined Report was not received by Government until the 18th July. As the Vaccination Report relates to the financial year, which ends on the 31st March, it is impossible to require the submission of the Sanitary Commissioner's Report on the date hitherto prescribed.

2. The temperature of the year 1882 was on the whole slightly below the average, the mean being 76°·15 against a normal mean of 76°·24. It was sensibly above the average in January, March, and December, and below it in May. The distribution of rainfall was more irregular than usual. The total fall of the year was 57·66 inches throughout the Province, against an average of 60·99 inches, the deficiency being spread over the greater part of Behar and Northern and Eastern Bengal. The rains began somewhat earlier than usual, the fall in May being 1·04 inches above the average. On the other hand July was unusually dry; and a break which occurred in the early part of October was succeeded by a heavy fall over the whole Province in the latter half of the month. In no division, however, was there any marked excess or deficiency of rain during the year as a whole.

3. The registration of vital statistics received considerable attention during the year, and the Sanitary Commissioner is of opinion that the results indicate that more than usual care has been bestowed on the subject by the magisterial and police authorities. Dr. deFabeck in particular instances the success attained in Burdwan under the energetic administration of Mr. Larminie. This officer "visited every registering circle at least twice during the year, instructed the superior police officers in the nature of the steps to be adopted for keeping the chowkidars in check, and threatened punishment for remissness. Some were severely punished. The publicity which the report of these active measures soon obtained brought about a palpable improvement, for the year's results showed an increase in the number of deaths recorded of 8,287." The Lieutenant-Governor observes that in this district the recorded death-rate is 35·42 per mille; while the birth-rate in the town of Burdwan is 27·58. If the conclusions arrived at by Mr. Bourdillon in his Report on the Census of 1881 are correct, and the true birth and death-rates of the Province are assumed to be about 34 and 31 per mille respectively, it is probable that the returns of Burdwan, a district where the well-known local fever has for years produced an abnormally large number of deaths, together with a reduced number of births, are not very far from the truth. Excellent results were also obtained in Bankoorah and Chumparun, where the Magistrates, Messrs. Anderson and Henry, devoted special attention to the accuracy and completeness of the returns. Wherever this is the case, it has been abundantly proved that a fair degree of accuracy can be secured; but a system which relies on the spasmodic and intermittent efforts of individuals can at best but look for a partial and uncertain success. It is hoped that the Union Committees to be established under the Local Self-Government scheme will, if properly supervised, provide a valuable agency for the collection of these statistics.

4. A register of mutations of births and deaths, which was devised by Mr. Carstairs, the Sub-Divisional Officer of Serampore, was given a trial during

the year, and was introduced experimentally into a number of municipalities and unions. It was not, however, found wholly successful, and its use is no longer enforced. A scheme drawn up by the Sanitary Commissioner for investing Civil Surgeons with greater powers and responsibilities for the effectual scrutiny of mortuary and birth returns was also introduced, but was found unsuitable in consequence of the serious increase of work which it threw on the ministerial establishments. Arrangements have, however, been made, in accordance with a suggestion of the Government of India, to publish in the *Calcutta Gazette* weekly returns of births and deaths in all first class municipalities, in addition to the usual monthly mortuary statistics of districts. The Compulsory Registration Act IV (B.C.) of 1873 is now in force in 113 towns, including the Hazaribagh Municipality, into which it was introduced after the close of the year under review. Prosecutions were instituted under its provisions in the following towns only :—

Districts.	Towns.	Number prosecuted.	Number convicted.	Number acquitted.	Number struck off.	Number pending trial.	Amount of fines realized.	Birth-rate per 1,000 of population.	Death-rate per 1,000 of population.

It is impossible to believe that no breaches of the law occurred in any of the 94 towns not mentioned in the foregoing list. The Lieutenant-Governor has more than once pointed out that, where the Act has been introduced, it should not be allowed to remain a dead-letter, and he trusts that it will not again be necessary for him to draw attention to this matter. The Sanitary Commissioner should consider the advisability of requiring the submission in future of periodical returns showing the proceedings taken under the Act.

5. Births were registered in 45 towns against 46 in the previous year, registration having been discontinued in one town, Burhea in Monghyr. Excluding 1,501 still-born children, the number of births registered was 37,198 against 38,456 in 1881. The reduction amounted to 1,258, and the recorded birth-rate fell from 23·25 per 1,000 to 22·49. The excess of deaths over births as registered amounted to 11·41 per 1,000 against 11·54. The Sanitary Commissioner remarks that "in 15 towns against 12 in 1881 the birth-rates were highest." This observation is not understood. In 1881 there were 20 towns in which the recorded birth-rate exceeded 30 per mille, while in the year under review the corresponding number was only 13. These were the following, viz.—

	1882.	1881.
Jamalpore in Monghyr	43·79	43 94
Jamalpore in Mymensingh	40·64	40·76
Bhagulpore	37·87	28·78
Sitamurhi	37·22	30·53
Behar	35·75	35·96
Brahmanbariah	35·11	30·04
Gya	33·78	24·18
Monghyr	33·50	34·59
Basirhat	33·30	26·25
Kendraparah	32·55	33·06
Comillah	31·76	22·50
Bankoorah	31·47	25·49
Serampore	30·26	29·28

The greatest improvement took place in Bhagulpore, Gya, and Comillah. Only nine towns recorded births in excess of the death-rate. These were Jamalpore in Mymensingh, Brahmanbariah, Monghyr, Sitamurhi, Bettiah, Comillah, Mokameh, Chuprah, and Behar. Of the children born during the year, 20,040 were males and 17,158 females, the proportions being 116 males to 100 females against 113 in the previous year. In England the corresponding proportion is 104 males, which was approximated by only eight towns during the year under review. It must, however, be remembered that in this country the average age of the husband exceeds that of the wife in a much greater degree than is the case in Europe, and that in accordance with a well established physiological law a higher proportion of male births must therefore be expected.

6. The number of deaths registered throughout the Province, the 15,076 still-born children not being counted, was 1,349,651, or at the rate of 20·41 per 1,000 of the population. The death-rate in each of the last six years was—

	Deaths.	Ratio per mille.
1877	1,077,601	17·96
1878	1,064,116	17·73
1879	950,881	15·85
1880	922,633	15·40
1881	1,255,478	18·99
1882	1,349,651	20·41

The ratios for 1881 and 1882 are calculated upon the population as returned at the census of 1881; while those for the previous years are calculated on that of the census of 1872. The improvement during the last two years is therefore even greater than the above figures appear to shew. The highest death-rates were recorded in Nuddea (39·37), Burdwan (35·42), Beerbhoom (34·34), Bankoora (32·21), Moorshedabad (30·80), Patna (29·28), Jessore (29·26), Backergunge (28·06), Rajshahye (27·32), and Balasore (27·27). In ten districts the recorded death-rate was below 15 per 1,000, and the figures must be regarded as worthless. These were Sarun (14·85), Monghyr (14·60), Hazaribagh (14·60), Tipperah (14·16), Chumparun, where the improvements brought about by Mr. Henry only had effect in the fourth quarter (13·90), Rungpore (13·49), Furreedpore (13·15), Sonthal Pergunnahs (11·05), Mymensingh (8·94), and Darjeeling (7·01). The chief cause of the enhanced mortality of the past year, in so far as it was real and not due to improvements in registration, was the extensive and fatal prevalence of cholera. The number of deaths recorded as having occurred from this cause exceeded that of the previous year by no less than 103,172. There was, however, a considerable falling off in the recorded mortality from fever and small-pox. The urban and rural circles contributed to the reported casualties of the year in the following proportions:—

		Deaths.	Ratio per mille.
Urban ..	1882	76,601	31 05
	1881	78,848	31·96
Rural ..	1882	1,273,050	20 00
	1881	1,176,630	18·48

There are strong reasons for believing that the mortality in Bengal towns is little, if at all, higher than that of country tracts. In the absence therefore of evidence of any accession of disease peculiar to rural circles, it seems probable that the increased number of deaths recorded in these circles in 1882 is chiefly due to improvements in registration. The total number of male deaths was 738,090, and of female deaths 611,561. The proportion per cent. of male to female deaths was the same as in 1881, viz. 120. Only nine districts returned proportions approximating the English rate of 109 male to 100 female deaths. These were Burdwan, Beerbhoom, Bankoora, Balasore, Hooghly, Khulna

Pooree, Cuttack, and Lohardugga. The following table shews the registered mortality according to age :—

	Ratio per 1,000 of Population			Ratio per cent. of male to female deaths.
	Urban.	Rural.	Province.	
Under 1 year	184·45	86·31	89·94	121
1 to 5 years	39·98	21·08	21·59	109
5 to 10 years	21·27	11·89	12 14	131
10 to 15 „	16·41	11·00	11·18	137
15 to 20 „	27·49	13·86	14·17	113
20 to 30 „	22·10	15·12	15·43	110
30 to 40 „	23·68	16·70	17·01	134
40 to 50 „	26 03	21·60	21·81	115
50 to 60 „	36·52	30·72	30·98	122
Above 60 years	62·07	45·62	46 29	101

These figures illustrate the terrible mortality among infants under one year of age. The Sanitary Commissioner reports that in 26 of the urban areas, the ratios of infant deaths ranged from 200 to 515 per 1,000 of infant population. The relative mortality among the different nationalities was much the same as in former years, the death-rates per mille being for Christians 14·20, for Hindus 20·48, for Mahomedans 20·71, for Buddhists 2·88, and for other classes 16·09.

7. In Calcutta both the birth and the death-rates are below those recorded for the other Bengal towns, being 17·32 and 30·41 per mille respectively, against 22·49 and 31 05. There are no variations of importance in the death-rates from particular diseases, except in the case of fever, the death-rate from which, probably, owing to more correct diagnosis, is only 8·35 per mille in Calcutta against 15 72 in other urban circles, the death-rate from "Other causes" being proportionately swollen. The average mortality in cantonments, with a population of 56,168, was at the rate of 13·35 per 1,000. There were no deaths in Fort William. During the year the Port of Calcutta was visited by 24,128 seamen, of whom 19,764 were Europeans and 4,364 natives. The average daily population of European seamen was 1,792; the number of admissions into hospital was 2,257, and there were 100 deaths The proportion of deaths to population was therefore 55·80 per 1,000 against 53·33 in 1881. The increase is traceable to cholera, dysentery, and enteric and malarious fevers. Among native seamen the deaths amounted to 186, or at the rate of 7·32 per 1,000, against 141, or at 5·54 per 1,000 in the previous year. This increase was entirely due to the prevalence of cholera. A native Inspector has recently been appointed to supervise the floating population of the port, who, amongst other duties, is charged to advise them where to seek for medical aid when sick, and it is hoped that by this means some improvement will be effected in their sanitary condition.

8. The most prominent feature in the sanitary history of the Province during 1882 was the remarkable prevalence and fatality of cholera. The number of recorded deaths from this disease was 182,352, or at the rate of 2·75 per 1,000 of population—a mortality which was never reached in any year of the previous decade except in 1876. Cholera was found in 27,314 villages against 15,581 in the previous year; and prevailed epidemically in 115 circles, severely in 118, and mildly in 376, being altogether absent from only 35. Urban circles contributed 11,830 deaths, and rural circles 170,522, or at the rates of 4 79 and 2·67 per 1,000 respectively. The districts in which the mortality was most severe were Balasore (6 21), Jessore (6·05), Nuddea (5·46), Purneah (4·79), Mozufferpore (4·68), Backergunge (4·50), Pooree (4·25), Cuttack (4·19), and Durbhanga (4·14). The Commissioner of the Presidency Division will be requested to invite the attention of the Commissioners of the Suburban Municipality to Dr. deFabeck's remarks regarding the condition of the Chitpore, Nawabputty, and Khalaseebagan bustees, and the bustees in Bhowanipore, Kansaripara and Bhatpara, and to submit a report on the subject. The disease was as usual most prevalent in the dry months of February, March, April, and May, and subsided rapidly on the breaking of the rains, increasing again in November and December. The general relation of cholera to rainfall appears to be the only fact in connection with this disease which is known with any degree of certainty. The Sanitary Commissioner writes :—"The reports of the year do not cast any new light upon the etiology of the disease. Polluted sources of drinking supply

are always more or less suspected, and local insanitary conditions are very generally indicated as exciting or predisposing causes; but it is also to be remarked that in several instances local incidence of the disease is often quite independent of local conditions. Climatic insalubrity, deficient rainfall, imperfect drainage, the retention of moisture and damp in the soil, errors of diet, infection, importation, &c., are all in their turn accused of favouring, if not absolutely of originating, this disease." On the whole, cholera was most prevalent in the Orissa Division, especially in Pooree Town, where the large influx of pilgrims swelled the nominal death-rate to 13·33 per 1,000. The Rajshahye and Cooch Behar Division was the least affected by the disease.

9. The recorded mortality from small-pox shows a large falling off during the past year. The number of deaths reported during each of the past four years was—

	Deaths.	Ratio per mille.
1879	22,843	·34
1880	22,953	·34
1881	24,371	·36
1882	13,651	·20

The disease prevailed with more or less severity in 33 circles against 43 in 1881, and was wholly absent in 280. The mortality was apparently high only in Chittagong and the districts of the Orissa Division, in which the recorded death-rates were 1·06, 1·02, 1·02, and ·84 per 1,000 respectively. It was also heavy in the following towns, viz. Chyebassa (12·15), Jamalpore in Monghyr (9·14), Bettiah (3·13), Balasore (2·91), and Kendrapara (2·35). The disease showed greatest activity in the hot months, from February to June, and diminished during the rains and cold weather. The following table shows the number of deaths from small-pox among children under 12 years of age:—

	Deaths.	Proportion per cent to total mortality.	Proportion per cent. of male to female deaths.
Under 1 year	2,999	21 96	111
1 to 12 years	6,130	44 91	109
Total ...	9,129	66·87	110

The proportion of deaths among children to total deaths was 66·87, which, though still very high, is less than in the previous year, when the corresponding percentage was 72·04.

10. According to the returns, the mortality from fever amounted to 929,943 deaths, against 940,911 in the previous year. The reported death-rate per mille from this cause thus nominally fell from 14·23 to 14·06. The Sanitary Commissioner rightly observes that "this reduction is unimportant, and does not remove the belief derived from a study of the general fever history of the Province that, on the whole, fever was as prevalent and almost as fatal as it had been in the preceding year, whose records figure by far the highest rate of mortality of any year under registration." Dr. deFabeck points out, however, that the death-rate of a year which follows on another of exceptional mortality is swollen by the deaths of those whose constitutions had been undermined by the epidemic of the previous year. The following table shows the mortality from fever in each year of the last decade:—

	Deaths.	Ratio per mille.
1882	929,943	14·06
1871	169,505	2·56
1872	237,868	3·59
1873	303,645	4·59
1874	328,721	4·97
1875	368,087	5 56
1876	561,537	8·49
1877	711,036	10·75
1878	742,887	11·23
1879	622,260	9·41
1880	689,605	10·43
1881	940,911	14·23

The increase which is apparent in the record of late years is probably not so much due to greater mortality as to improvement in registration. During the year under review the virulence of the disease was limited, with few exceptions, to the Burdwan, Presidency, and Rajshahye Divisions, the districts most seriously affected being the following:—

	Ratio per mille.
Nudden	30·18
Burdwan	28·86
Beerbhoom	27·62
Bankoora	26·40
Moorshedabad	26·01
Rajshahye	24·24
Jessore	21·61
Bogra	19·72
Hooghly	19·63
Khulna	18·65
Pubna	17·97

On the other hand the districts of Midnapore, Howrah, 24-Pergunnahs, Dinagepore, and Rungpore, and the sub-division of Serampore, enjoyed comparative immunity. In Backergunge, Gya, Maldah, and Purneah there was no abatement from the fatality of the previous year, but throughout the rest of the Province the suffering was less severe, notably so in Hazaribagh, Patna, Julpigoree, Dinagepore, Midnapore, and Rungpore.

11. In paragraph 115 of the Report, Dr. deFabeck has made some very interesting remarks regarding the theories commonly put forward to account for the incidence of fever, and he has well exposed the fallacy of the widely prevalent idea that growing vegetation is in itself noxious to human and animal life "If we regard malaria, as experience gives us every warrant for doing, in the light of a nutritive element to plant-life, whatever little we may know of its agency in regard to the human organism, it must plainly be our constant endeavour so to regulate the balance between soil-emanation and plant-absorption, that the energy of the latter may always be equivalent to, or more potent than that of, the former. Where this equilibrium of counteraction cannot be obtained, there it will be necessary to devote careful attention and labour to efficient drainage of the soil" And again: "There is a very common, but a very ill-grounded, prejudice in India against *growing* vegetation. Low vegetation, in so far as it excludes air and prevents proper ventilation, is undoubtedly objectionable; but so far from there being any single physiological act necessary to the vitality of plant-life which can either originate or favour malarial fever, everything that is known of such action has an exactly opposite tendency." In connection with the question of drinking supply, the Sanitary Commissioner has suggested, as the result of actual observation, that water which has been exposed to a high temperature may be drunk with perfect impunity, even though containing organisms which, under ordinary circumstances, are highly inimical to health. As an instance, Dr. deFabeck mentions the case of the waste water which had been passed through the condensers of a jute-mill, and had been subjected to a temperature exceeding 212°. It was found that the coolies and other persons employed on the mill preferred this water to that of the tanks or the river, and that those who used it enjoyed demonstrably better health than those that did not. Nevertheless, on a specimen of the water being submitted for analysis by the Chemical Examiner, Dr. Warden, in ignorance of its origin, unhesitatingly condemned it as unfit for drinking purposes. These results appear to suggest that the present processes of chemical analysis, while sufficient to recognise and disclose the presence of organic virus, are not sufficiently sensitive to distinguish deprivation of its malignity. An important field is thus opened up for sanitary and hygienic research. The question is not one which can properly be discussed, at all events in its present stage, in a Government Resolution; but the Lieutenant-Governor will await with much interest the results of any further investigations which Dr. deFabeck may be able to make in this direction in communication with Dr. Warden.

12. In the Port of Calcutta fever was slightly more prevalent than in 1882. Among European sailors, the death-rate from malarious fever was 1·79 per 1,000, and from enteric fever 2·14 per 1,000. There were also 26 deaths from malarious fever among the native floating population against 33 in the year before. Dysentery and diarrhœa were very prevalent in the Port, there being 289 cases with 10 deaths, against 223 cases and 7 deaths in 1881. The fatality from these diseases was greater throughout the Province generally, the number of recorded deaths being 61,362 against 57,029. The Sanitary Commissioner is, however, of opinion that in the mofussil errors of diagnosis are more common in this class of diseases than in any other. They were most common in Patna, Serampore, Hooghly, Sarun, and the districts of the Orissa Division. Deaths from the various classes of injury, including suicide, wounds, accident, snake-bite, and wild beasts numbered 21,611 against 21,655 in the previous year, nearly one-half coming under the last-named head. Under the head of "Other diseases" there occurred 140,732 deaths, the majority of which occurred in the Orissa Division, Backergunge, Patna, and Sarun, and in the following towns—Gya, Suburbs of Calcutta, Bhagulpore, Dacca, and Burdwan.

13. Some progress was made by the Vaccination Department during the year. The operations of Government vaccinators were extended for the first time to seven thannas in the Maldah district, four thannas in Mymensingh, three thannas in Monghyr, three thannas in Bhagulpore, and five thannas in Orissa, as well as to six thannas in Patna, which had been barely touched in the previous year. The area to which protection was thus afforded for the first time amounted to 9,052 square miles of country, containing a population of 4,528,084. In addition to the above, eight thannas in Purneah and Maldah, which had been completely traversed by Government vaccinators in previous years, were placed under the licensed system of vaccination. The following table shows the number of operations performed in each vaccination circle:—

Circles.	Total number of vaccinations performed		Difference in 1882-83.	
	In 1882-83.†	In 1881-82.	Increase.	Decrease.
Calcutta	11,373	6,955	4,418	.....

Municipalities and dispensaries	59,104	64,682	.....	5,578
Grand Total	1,261,125	1,349,607	.....	88,182

* Exclusive of the work of some of the licensed vaccinators, whose returns, 24 in number, were received by the Superintendent much after the March return had been submitted and the year's summaries closed.

There was a considerable decrease in the number of operations performed, both in the vaccination circles and in municipal areas. There was a considerable increase in the Sonthal Pergunnahs and Metropolitan Circles, and smaller ones in Calcutta, the Suburbs, Orissa, and Behar. On the other hand there was a large decrease in the Ranchi, Darjeeling, and Eastern Bengal Circles, and to a smaller extent in municipalities. The explanations offered of the decrease are, in the Ranchi Circle—(1) opposition to vaccination; (2) changes of Superintendents and consequent disorganization of the subordinate staff; (3) want of effective assistance from the civil authorities; (4) the deputation of a batch of vaccinators to Singbhoom for the suppression of small-pox which interfered with the regular progress of work in the original area; (5) the paucity of unprotected children in Singbhoom; and (6) the fact that the people of Singbhoom declined to accept vaccination at the hands of Government vaccinators, preferring to submit themselves to the licensed Brahman vaccinators. In the Eastern Bengal Circle the reasons alleged are—(1) determined opposition of the people in certain places to receive vaccination, amounting in some instances to positive violence;

(2) sparseness of the population; (3) want of subjects in areas formerly vaccinated; and (4) omission of 26 returns of operations which were not received in time for inclusion in the report. The plea of sparseness of population is not intelligible, unless it is pretended that the population has been thoroughly protected. The population has not diminished in numbers since the previous year, and there is no apparent reason why this cause, if it really exists, should have operated more powerfully in 1882-83 than in 1881-82. As a matter of fact, the Eastern Bengal Circle contains some of the most densely populated districts in the province outside Behar. The Lieutenant-Governor will await the report which is promised on the practice prevailing in this circle of promoting head vaccinators to vacancies in the post of Deputy Superintendent—a practice which Dr. deFabeck very rightly condemns. In the Darjeeling Circle the reduction is said to be due to the fact that all the areas formerly available had been exhausted, and, with the exception of a part of Maldah, were made over to the licensed agency. The decrease, it should be observed, was confined to the operations of the Government vaccinators. Among municipalities the chief falling off occurred in Howrah, Rajshahye, Furreedpore, Chittagong, Moorshedabad, Midnapore, Noakholly, Chumparun, Beerbhoom, and Cuttack. On the other hand greater activity was displayed in the municipalities of the following districts, viz. Patna, Monghyr, Mymensingh, Maldah, Balasore, Pooree, Bankoora, Nuddea, Hooghly, Manbhoom, Burdwan, Tipperah, and Shahabad.

14. The following table shows the recorded rates of success in each circle in primary and secondary operations:—

Circles.	Number of successful vaccinations				Ratio per cent of successful cases			
	In 1882-83.		In 1881-82.		In 1882-83.		In 1881-82.	
	Primary.	Secondary.	Primary.	Secondary.	Primary.	Secondary.	Primary.	Secondary.
Calcutta	9,016	287	6,240	34	99·37	12·47	98·04	5·40
Metropolitan Circles	343,040	192	313,245	59	99·76	87·67	99·58	49·44
Suburbs of Calcutta	8,300	1,646	7,270	1,882	99·91	20·63	99·72	28·57
Total of Metropolitan Circles	351,340	1,838	320,515	1,971	99·76	28·77	99·58	29·13

Total of Vaccination Circles	1,173,429	3,727	1,200,773	3,695	98·87	35·45	98·68	39·91
Municipalities and dispensaries ..	50,132	1,739	51,792	1,484	92·77	69·70	92·39	54·59
Grand Total ...	1,223,561	5,497	1,252,565	5,179	98·60	45·12	98·39	43·24

A high degree of success was obtained in primary vaccinations in all the circles except Ranchi and Orissa. In secondary operations the figures returned, with the exception of those for Calcutta and the Suburbs, are still altogether unworthy of credit. This is the third year in succession in which this subject has been noticed, and the Lieutenant-Governor must now request the Sanitary Commissioner to take more effectual measures to make the returns correspond more nearly with the truth. Of the total number of persons successfully vaccinated during the year, 158,979 were under one year of age, 823,129 were between one and six years, and 241,453 were above six years. It thus appears that 79·14 per cent. of the total number of successful vaccinations were performed on children under six years of age against 73·36 per cent in the previous year. This improvement is satisfactory. The number of infants vaccinated during the first year of life, however, is still lamentably small. If the general birth-rate throughout the Province be assumed to be 30 per mille, which is certainly below the mark, and if the infants who died are excluded, it appears that only 12·59 of the infants born during the year were vaccinated, and that the very large proportion of 80·57 per cent. remained unprotected within vaccination areas. Even this low figure, however, is a distinct improvement upon the results obtained in 1881-82, when the corresponding percentage was only 11·32. The best results were obtained in the Ranchi Circle, where the proportion of infants vaccinated rose from 17·31 to 39·37 per cent. The returns of inspection work show that creditable progress was made by the Superintendents of the Darjeeling and Metropolitan Circles, by the Deputy

Superintendents of Ranchi and the Suburbs, and by the majority of the Inspecting Vaccinators. There was, however, a conspicuous decline in the proportion of inspections made by the Superintendents of Behar, Ranchi, and Orissa, and by the Deputy Superintendents of the Sonthal Pergunnahs and Metropolitan Circles. The falling off, which is said to be due chiefly to the gradual extension of protection, and the increasing difficulty of finding subjects, appears to be in a great measure justified.

15. On the whole, it may be said that the general feeling of the people towards vaccination is becoming more favourable Marked evidence of this is given in Burdwan, Bankoora, Hooghly, Nuddea, Rajshahye, Noakholly, Bhagulpore, Sonthal Pergunnahs, and Manbhoom. On the other hand, instances of determined opposition are not unknown, even in the most advanced towns, among particular classes. These should be rigorously dealt with under the special Act. The Inspector-General of Police will be requested to enquire into the conduct of the Sub-Inspector of Police at English Bazar in Maldah, who is said to have openly advised the people not to accept vaccination. The Commissioner of Patna will be asked to report further upon the statement that the Municipal Commissioners of Gya declined to render aid in the promotion of vaccination. The Lieutenant-Governor has learnt with pleasure that special assistance was rendered by Baboo Hem Chunder Ghose of Bagnan, Mr. Pope of Nunichi, Munshi Dilwar Ali, Baboo Rajendra Narain Mozumdar Chowdhuri of Narendahar, the Maharajahs of Hutwa and Shushung, the Rajah of Aul, and the zemindars of Bulrampore, Chowsaltipore, Madhupore and Mayna.

16. The Compulsory Vaccination Act V (B.C.) of 1880 was introduced during the year into the Municipalities of Howrah, Monghyr, Jamalpore, Gya, Serampore, and English Bazar, and into Utterparah from the 1st April 1883. It is now in force in 14 towns, and since the close of the year under review steps have been taken to introduce it into all the municipalities in the Burdwan and Presidency Divisions. The Sanitary Commissioner believes that the general extension of the Act is the only means of effectually breaking down the opposition that is still met with in many parts of the Province. It seems, however, that resistance is only offered by a few isolated classes, and is not in any way general even in the localities where it is found. The Lieutenant-Governor would prefer to deal with each case on its own merits, without having recourse to a sweeping measure for which public opinion is not yet ripe. The effect of vaccination on small-pox is illustrated by the following table :—

	Population.	Deaths reported.	Ratio per mille.
Thoroughly protected areas ...	20,223,268	579	·02
Fairly well „ „	11,785,748	1,072	·09
Unprotected areas	34,848,852	9,355	·26

And again—

	Ratio per cent. of total attacked.	Ratio per cent. of deaths to number.
Vaccinated	17·63	11·53
Inoculated	5·64	54·43
Unprotected	75·68	18·01

These figures are significant, and need no comment.

17. An important experiment was made during the year by the introduction of the system of bovine vaccination in Calcutta. Assistant Surgeon Rai Ram Sunder Ghose Bahadur was deputed to Bombay for the purpose of making himself familiar with the details of the organization adopted in that Province, and on his return early in December 1882 arrangements were immediately made for introducing the system. The first calf was vaccinated on the 23rd January 1883, and during the two months that ensued between that date and the close of the year under review a large number of vaccinations were performed. The arrangements, which are still in their infancy, are somewhat imperfect; but improvements are being effected, and it is hoped that by the close of the current year the system will have taken deep root.

18. The total cost to Government of vaccinations performed during the year was Rs. 1,16,085, of which Rs. 71,745 represents the cost of the operations performed by the Government establishment, and Rs. 44,340 that of the

establishment provided by Government for supervising the operations of the licensed vaccinators. In addition to the above, a sum of Rs. 7,997 was expended on vaccination by various municipalities in the Province. Some assistance was also given by private persons, and by Dispensary Committees, including the Maharajahs of Hutwa and Durbhunga, the zemindars of Naraya, Gopalgunge, and Bori, the proprietors of the Kurnafuli Tea Estate in Chittagong, and the Dispensary Committees of Lalgunge, Tajpore, and Burhurwa. The total expenditure of Government was less by Rs. 1,032 than that of the previous year. The cost of each successful operation performed by the Government agency was 3 annas and $3\frac{3}{4}$ pies, and that by the licensed agency $10\frac{1}{4}$ pies, aggregating 1 anna $6\frac{3}{4}$ pies for both departments.

19. The Lieutenant-Governor had occasion, in the course of the year under review, to call the attention of the Sanitary Commissioner to the comparatively small amount of *sanitary* work performed by the members of the Vaccination Department, and especially by the Superintendents of Vaccination in their capacity as *ex-officio* Deputy Sanitary Commissioners. At the instance of Government the Sanitary Commissioner drew up a set of rules for the guidance of officers of his department in the discharge of their sanitary duties. These rules were approved and promulgated too late in the year to admit of their having very much effect during the period embraced by the present report. They have, however, had the effect of causing more attention to be given to the sanitary condition of towns and villages in the interior during the camping season of 1882-83. The Lieutenant-Governor hopes that the Sanitary Commissioner will give this subject his constant attention, and he is confident that, if the diary which has been prescribed is not allowed to fall into a matter of routine, it will be productive of valuable results in the future.

20. Of the total income of the municipalities in the Province, exclusive of Calcutta, amounting to upwards of 31 lakhs, 31 per cent. was expended on sanitary works against 24 per cent. in the previous year, besides 18 per cent. on roads against 16 per cent. This satisfactory result is mainly due to the large amount of funds set free by the exemption of municipalities from police charges. The Sanitary Commissioner reports that the municipalities in the districts of Rajshahye, Mymensingh, Durbhunga, Pooree, Manbhoom, Khulna, and Patna have hitherto failed to take full advantage of the increased resources placed at their disposal. On the other hand, an exceptionally large proportion of municipal income was devoted to sanitary works in Rungpore (81·48), Dacca (47·09), Gya (41·86), Noakholly (40·61), Shahabad (39·37), Bhagulpore (38·76), Beerbhoom (37·49), Sonthal Pergunnahs (36·83), Jessore (35·60) and Howrah (35·56). Systematic drainage schemes were inaugurated and either wholly or partially completed in Midnapore, Howrah, Naihatti, the Suburbs of Calcutta, Darjeeling, and Maldah. Schemes previously commenced were continued, and in some cases completed, in Rungpore, Gya, Bhagulpore, Cuttack, Pooree, Hazaribagh, and Lalbagh. Projects were also entertained in Culna, Soori, Tumlook, Serampore, Berhampore, and Bhagulpore. Excellent work was done in Maldah, where roads were metalled, side drains cut, and jungle removed in many villages within a radius of ten miles of head-quarters, and also in the Chanchal Estate. Channels were excavated for the drainage and improvement of large tracts of country, for agricultural extension, for improving habitations, for providing water-supply, for promoting communication by boat, and for increasing the volume of water in certain channels, thereby tending to check malarious exhalations in their neighbourhood. Dr. Ghose, the Civil Surgeon of Rungpore, has given an interesting and instructive account of the valuable results obtained from the drainage operations which have been carried out in the marshes round the town of Rungpore. This scheme was begun in 1877, and year by year, as the water-logged condition of the soil has been more and more removed, and the surrounding swamps reclaimed, the death-rate of the town from fever has steadily diminished. It is now 23·64 per 1,000, where it was 34·22 in 1878.

21. In Dacca a "very commendable beginning has been made in filling up the 'gors,' the receptacles for generations of sewage, filth, and the contents of the privies, which literally line their borders." The town of Chittagong is said to have benefited much by the clearing of rank jungle in the neighbourhood,

and by closer attention to surface cleansing and general conservancy. A grant of Rs. 10,000 from General Revenues has recently been made to this municipality to enable it to carry out certain schemes of improvement, and it is hoped that much good will ensue if the money is judiciously laid out. The question of a proper supply of water for the shipping of the Chittagong Port, which is one of the great wants of the place, is receiving the attention of Government in the General Department. In the Suburbs of Calcutta and in Howrah good work has been done in reclaiming and improving bustees, and by the introduction of provisions for free perflation by means of regularly constructed lines and streets.

22. The Burdwan water-supply scheme, which was noticed last year, was commenced, and made considerable progress in the year under review. The Bhagulpore scheme is under revision, but the bulk of the necessary funds has been subscribed, and the work has now been taken in hand. Arrangements are now being made for the extension of the Calcutta water-supply to the Suburbs and also to Barrackpore, and it is expected that substantial progress will be made during the current year. The Lieutenant-Governor's attention has also been given to a proposal by which all the river-side municipalities from Howrah to Serampore should unite in a common scheme for water-supply. This proposal has not, however, yet been formulated, and is still under the consideration of the Municipal Commissioners concerned. A number of minor sanitary improvements have been effected in various districts and towns of the Province, which it is unnecessary to recapitulate at length. The thanks of the Lieutenant-Governor are due to the gentlemen, official and non-official, by whose personal exertions and liberality they have been carried out. Mr. Rivers Thompson's acknowledgments are also due to Dr. deFabeck, who held charge of the office of Sanitary Commissioner during the greater part of the year, for his very interesting report.

ORDER.—Ordered that a copy of the above Resolution be forwarded to the Sanitary Commissioner, Bengal, for information and guidance.

Ordered also that a copy of the above Resolution, and of the Report, be forwarded to the Surgeon-General, Bengal, and to all Commissioners of Divisions, for information.

Ordered also that extract paragraph 15 from the above Resolution be forwarded to the Judicial (Police) Department for information, and to the Inspector-General of Police for information and guidance.

Ordered also that a copy of the above Resolution, together with a copy of the Report, be submitted to the Government of India, in the Home Department, for information.

By order of the Lieutenant-Governor of Bengal,

COLMAN MACAULAY,

Secretary to the Government of Bengal

RESOLUTION ON THE REPORT ON THE EXCISE ADMINISTRATION FOR 1882-83.

FINANCIAL DEPARTMENT—EXCISE.

Darjeeling, the 12th October 1883.

RESOLUTION.

READ—

The Report on the Excise Administration for 1882-83.

There were few administrative changes during the year. Towards its close the Excise Act was amended so as to fix the minimum quantity for retail sales of tari, pachwai, and country spirit, leaving the Board to fix higher limits by rule; to prohibit the possession of any quantity above the limit so fixed; and to regulate the importation and bonding of exciseable articles manufactured beyond the territorial limits of the Act. The duty on ganja was raised in the beginning of the year with the view of checking the consumption of the drug. The effects of this measure will be noticed further on.

2. The financial results of the year were an increase of Rs. 4,07,840 in the revenue, and a decrease of Rs. 6,030 in the charges. The fluctuations during the past four years are shown below:—

	Revenue.	Charges.	Net revenue.
	Rs.	Rs.	Rs.
1879-80	72,09,817	2,65,245	69,44,572
1880-81	85,55,350	2,63,124	82,92,226
1881-82	93,74,010	2,71,338	91,02,672
1882-83	97,81,850	2,65,368	95,16,482

Thus there has been an increase of 25¾ lakhs in the revenue in three years without any increase in the charges. All the divisions, except Bhagulpore (which was also the only exception in the previous year), contributed to the increase in 1882-83. The largest increase was obtained in Calcutta, Suburbs, and Howrah (Rs. 1,17,661), Hooghly, outside Howrah town (Rs. 41,449), Burdwan (Rs. 32,952), Gya (Rs. 31,016), Sarun (Rs. 24,264), Cuttack (Rs. 21,072), and Lohardugga (Rs. 20,847). The most considerable decrease was shown in Bhagulpore (Rs. 39,506), Rungpore (Rs. 12,487), Balasore (Rs. 7,553), and Shahabad (Rs. 4,372). The variations in each division and the incidence of the revenue were—

Division.	Increase.	Decrease.	Incidence per 100 of population.
	Rs.	Rs.	Rs.
Burdwan (without Howrah town)	71,134	.....	13
Presidency (without Suburbs)	34,821	.....	10
Calcutta, Suburbs, and Howrah	1,17,661	.....	232
Rajshahye and Cooch Behar	13,920	.....	7
Dacca	28,915	.....	7
Chittagong	24,038	.....	6
Patna	89,218	.....	16
Bhagulpore	.....	24,853	13
Orissa	12,712	.....	12
Chota Nagpore	39,974	.....	13

Between 1880-81 and 1882-83 there was no change in the incidence in Rajshahye and Cooch Behar, and there was a decrease in Bhagulpore from Rs. 15 to Rs. 13; while there was an increase of Re. 1 each in Burdwan, Presidency, Dacca, Chittagong, and Orissa, and an increase of Rs. 2 in Chota Nagpore, Rs. 3 in Patna, and no less than Rs. 49 in Calcutta, Suburbs, and Howrah. Apart from Calcutta, the incidence was highest in Darjeeling (Rs. 53), Patna (Rs. 38), Gya (Rs. 29), Hooghly (Rs. 24) and 24-Perguunahs (Rs. 23), and lowest in Noakholly (Rs. 2), Khoolna (Rs. 3), Furreedpore and Singbhoom (Rs. 4), and Nuddea, Jessore, Pubna, Backergunge and Tipperah (Rs. 5).

3. The following table shows the fluctuations in the revenue under the different heads :—

Articles	Revenue.			In 1882-83 compared with 1881-82		In 1882-83 compared with 1877—82.	
	Average of 1877-78 to 1881-82.	In 1881-82.	In 1882-83.	Increase.	Decrease.	Increase.	Decrease.
	Rs.	Rs.	Rs.	Rs.	Rs.	Rs.	Rs.
Country spirits	36,26,898	46,20,195	48,26,298	2,06,103	... ...	11,99,400	...
Rum	1,74,103	1,17,844	1,08,761	.....	9,083	... ...	65,342
Imported wines, &c.	1 10,021	1,83,812	1,94,090	10,278	...	54,069	... ...
Tari	6,47,003	6 66,194	6,61,887	... ..	4,307	14,884	.....
Pachwai	1,44,604	1,64,265	1,76,613	12,348	.....	32,009	.....
Charas	5,514	7,505	4,693	... ...	2,872	...	821
Sidhi, sabzi or bhang ...	21,578	31,894	31,797	... ...	97	10,219	.....
Mageem	2,551	2,123	2,513	120	.....	...	8
Madat	76,761	85,863	85,025	.....	838	8,264	...
Chundoo	21 505	26,080	27,387	1,307	... ..	5,882	.....
Spirits used for arts	720	902	686	... ..	216	.....	24
Ganja	14,32,662	17,13,791	18,60,497	1,46,706	.....	4,27,835	.....
Opium	15,14,175	17,47,009	17,95,928	48,319	... ...	2,51,753	... ...
Miscellaneous	7,841	5,513	5,635	122	... ..	... ..	2,206
Total ..	78,16,236	93,74,010	97,81,850	4,25,303	17,463	20,04,315	68,701

It will be observed that of the net increase of Rs. 4,07,840, country spirits contributed only about half (Rs. 2,06,000), while opium and ganja contributed nearly half (Rs. 1,95,000). An examination of the returns further shows that of the increase of Rs. 2,06,000 under country spirits, only Rs. 1,18,000 was derived from licenses issued under the outstill system, Rs. 88,000 coming from still-head duty, fees, &c., in the comparatively small tract administered under the sudder distillery system.

4. The total number of shops licensed for the sale of *Country Spirits* was only 4,560 against 5,780 in 1881-82 and 6,284 in 1880-81. Of these, 466 were licensed under the sudder distillery system and 4,094 were licensed under the outstill system, against 530 and 5,250 respectively in the previous year. The central distilleries were closed in Nuddea, in the Bhuddruck sub-division of Balasore, and in Ranchi; nevertheless, though the area was thus reduced, the quantity of duty-paying spirit consumed in the tracts under this system rose from 342,304 gallons to 355,651 gallons. The sudder distillery system is now retained only in Calcutta, and the Suburbs and Howrah, and their environs, the Sudder and Serampore sub-divisions of Hooghly, the Sonthal Pergunnahs, the Sudder stations of the three Orissa districts and their environs, and Giridhi in Hazaribagh, where there is a large mining population. The largest reductions in the number of outstill shops were made in Monghyr (434 to 203), Bankoora (256 to 125), Burdwan (224 to 111), Patna (250 to 173), Gya (307 to 220), Shahabad (219 to 157), Bhagulpore (264 to 180), and Sarun (225 to 162). In some cases these reductions led to a large decrease in revenue, as in Bhagulpore (Rs. 36,766), Patna (Rs. 21,916), and Shahabad (Rs. 8,365); in others the redistribution appears to have been more judiciously made, and the result was an increase, as in Burdwan (Rs. 25,153), Sarun (Rs. 21,637), and Gya (Rs. 26,006). The ratio of population to each retail license ranged from 6,223 in the Chota Nagpore Division, where the population is sparse, to 35,075 in the Chittagong Division. The provincial average was 11,603. The only districts outside the Chota Nagpore Division, where the proportion was below 10,000, were Hooghly and Monghyr (9,703), Gya (9,657), Maldah (9,108), Bankoora (8,334), and Darjeeling (5,005).

5. The question of the effect of the outstill system on the consumption of liquor and the habits of the people has engaged the special attention of Government for some time. The Board have now reiterated their opinion that "the charges made against the outstill system with reference to its alleged tendency to demoralize the people" have not been substantiated; and undoubtedly the great preponderance of the views of the local officers is to the effect that the increase in the consumption of liquor, which has certainly taken place, is due to the increased prosperity of the people and to the circulation of wealth rather than to any special facilities afforded by the operation of the outstill system. "It must be borne in mind," writes the

Commissioner of the Presidency Division, "that easy prices and high wages of labour in Calcutta and its vicinity have also contributed to the increase of drunkenness, which is so much complained of." The correctness of this observation is borne out by the returns now before Government. The quantity of duty-paying country spirit consumed in Calcutta, Suburbs and Howrah was 226,902 gallons in 1882-83 against 205,901 gallons in 1881-82. In the Howrah district, and the Serampore and Hooghly Sudder sub-divisions, where the sudder distillery system is in force, the consumption increased from 28,616 gallons to 33,723 gallons, though the selling price of the liquor must have been higher than in the previous year, as, with a reduction in the number of shops from 139 to 131, there was an increase in the fees paid for licenses from Rs. 40,168 to Rs. 47,768. In the Jehanabad sub-division of Hooghly district, where the outstill system is maintained, the fees for licenses increased at the same time only from Rs. 21,203 to Rs. 24,461. In the suburban tract of the 24-Pergunnahs, where only shops supplied from sudder distilleries are allowed, there was an increase in consumption from 11,852 gallons to 18,818 gallons, and in the fees paid for licenses from Rs. 18,820 to Rs. 20,081, while in the adjoining tract served by outstills there was a falling off in the license-fees from Rs. 84,107 to Rs. 72,756. These figures establish beyond any doubt the fact that a large increase in the consumption of liquor has taken place altogether independently of any operation of the outstill system. The large increase in the amount paid for ganja and opium, accompanied, as will be seen further on, by a considerable decrease in the quantity of the former drug actually consumed, similarly shows that the people have more money to expend upon exciseable articles. The Lieutenant-Governor is not prepared to deny that there has, at the same time, been a large increase in the consumption of liquor in the tracts under the outstill system; indeed, there is undoubted evidence that in some districts such an increase has taken place. But the figures given above show the error of concluding that the increase is necessarily the result of the working of this system. The only evidence, indeed, which the returns present of a possibly faulty administration of the outstill system is the comparatively small increase of revenue obtained under it. If the increase in the consumption of liquor in the outstill tracts had at all kept pace with the increase in the area under the sudder distillery system, the increase in revenue from the former should have been much larger than Rs. 1,18,000, when an increase of Rs. 88,000 was obtained in the latter. The population supplied by sudder distillery shops does not exceed 3 millions, while over 63½ millons are supplied by outstill. This seems to show that there is still a large margin for the levy of revenue,—and consequent increase in the selling price of liquor,—under the outstill system, and that in some districts the arrangements for exacting the highest prices for licenses, consistent with the discouragement of illicit distillation, are still far from complete. The results of the settlement of excise licenses for the current year seem to promise a larger increase; but a serious inequality will still be apparent. At the same time the Lieutenant-Governor is very far from considering that because we have not yet been able to secure, under the outstill system, that ideal point of balance at which the maximum of revenue is obtained with no encouragement to smuggling, we should therefore revert to the sudder distillery system. All the evidence available goes to show that in the rural tracts of this province it would be still more difficult to attain the object in view under that system. A remarkable instance of its unsuitability is given in the following extract from the report of Mr. Trevor Grant, Collector of Balasore:—

"I notice that, besides the eight shops in the municipality itself, there is not a single country spirit shop in the whole of the large stretch of country included between the Pachpara river and Soro—a distance of over 30 miles in length, with an area of, say, 400 square miles. The excise map has a very curious aspect with its northern and southern portions well dotted over with shops, while the central portion is absolutely bare. I find that the sales from the eight shops (which are supposed to supply the entire thana of Balasore) are absolutely insignificant except within the town. All attempts to open shops in the shopless area have failed; but it cannot be supposed that the residents consume less or are in less need of shops than the people living elsewhere. I cannot doubt that in fact they obtain liquor directly from the neighbouring tributary mehals."

A comparison of the excise statistics of 20 years ago with those of the present time brings out very strongly the inefficiency of the fixed duty system, if applied beyond certain limits, and the increase which has taken place in the spending power of the people:—

Year.	Fixed duty system.	Outstill system.	Total number of shops.	Revenue. Rs.
1863-64	1,741	6,655	8,396	19,31,566
1864-65	5,669	3,486	9,155	17,77,068
1882-83	466	4,094	4,560	48,26,298

It will be observed that, with a large increase in the number of sudder distillery shops, and a large decrease in the number of outstill shops in 1864-65, the total number of shops being considerably increased, there was a falling off in the revenue. In 1882-83, on the other hand, the total number of shops was just half what it was in 1864-65, and the number of outstill shops was much the same, but the revenue was nearly three times as great. All experience goes to show (1) that the sudder distillery system is only suited to very thickly populated tracts; (2) that the increase in wealth, which has resulted from good harvests and the opening up of communications, has created a large demand for country spirit, as well as for other exciseable articles, among the people, and that our efforts must be directed to supplying that demand under some other system, which shall legitimately meet it without stimulating it. The Lieutenant-Governor has given this question his close personal attention during his recent tour, and he has satisfied himself that in some districts the increase in drinking is greater than the increase of revenue, if properly distributed, would indicate, and he proposes to appoint a Special Commission to consider and report upon the subject in all its aspects after careful local enquiry. The attention of the Commission will be directed to the number and position of outstills, the rate of upset prices, the enforcement of the conditions of licenses in regard to the maximum capacity of stills, the restriction of manufacture and sale to specified hours, and the like, and generally to all circumstances likely to affect the facilities for obtaining liquor and to cause undue lowering of its price.

6. The number of wholesale licenses for the vend of *Rum* was the same (18) as in the previous year, while the number of retail licenses fell from 125 to 115. The total quantity of rum of local manufacture passed for consumption was 13,847 gallons against 15,253 gallons in 1881-82, and the total decrease of revenue amounted to Rs. 9,083. The falling off is attributed partly to the displacement of this liquor by ordinary country spirit, and partly to the competition of imported rum. The quantity obtained from Shahjehanpore again shows a falling off, but the Board for the first time report considerable imports from Madras and from foreign countries. The quantity imported from Madras, Cuddalore, and Gopalpore was 10,543 gallons, while 6,054 gallons came from foreign ports, 3,834 gallons being supplied by Hongkong alone. The duty on Shahjehanpore rum sold in Bengal is now credited to the funds of this Government. It will be necessary to consider whether some similar adjustment should not also be made in regard to rum imported from elsewhere. The Board will be requested to submit a special report on this subject.

7. That portion only of the revenue from *Imported Spirits and Wines*, which is represented by license-fees, is credited to Provincial revenues. The amount thus levied was Rs. 1,94,090 against Rs. 1,83,812 in 1881-82. The number of licenses issued was, however, only 951 against 941.

8. There was an increase of 323 in the number of licenses for the sale of fermented *Tari*, and a decrease of 280 in the number of licenses for the sale of the unfermented liquor. The revenue, however, showed a net decrease of Rs. 4,307. The receipts from unfermented tari are unimportant. The Dacca Division contributed Rs. 12,918 out of the total revenue of Rs. 19,996, and the Lieutenant-Governor has since the close of the year exempted the unfermented liquor from the operation of the law in this Division; elsewhere it is necessary to maintain the provisions of the law in order to protect the revenue from fermented tari. Licenses for the sale of fermented tari produced a considerable increase of

revenue in Hooghly, 24-Pergunnahs, Calcutta and Sarun; in Patna, Gya, Durbhunga, Chumparun and Pooree there was a falling off. The Commissioner of Patna believes that the revenue from tari has almost reached its highest point, and that the owners of *tal* trees have raised the rent so as to leave but a small margin of profit to the passis who tap them.

9. The number of licenses for the sale of *pachwai* rose from 2,135 to 2,159, and there was an increase of Rs. 12,348 in the revenue. The increase was chiefly obtained in the Burdwan Division, Burdwan itself contributing Rs. 6,414, Beerbhoom Rs. 2,518, and Bankoora Rs. 1,883. The explanation given from Burdwan is that the licensees of outstills have competed for the pachwai shops. In Beerbhoom the increase is attributed to the breaking up of a local ring, and in Bankoora it is referred to the reduction in the number of outstills. The Commissioner has drawn attention to the conflicting nature of the information supplied by different district officers regarding the causes which affect the revenue from this source, and the Lieutenant-Governor has, at his instance, and on the recommendation of the Board, recently sanctioned the deputation of a Special Sub-Deputy Collector to enquire into the subject in this Division.

10. The results of the year's administration under the head of *ganja* were very satisfactory. The duty was raised in all divisions, except Orissa (where the introduction of Gurjat ganja has to be guarded against), by one rupee per seer on each description of the drug. At the same time the Board made a careful examination of the actual requirements of each district in regard to shops, and reduced the number from 3,188 to 3,271. The results of these measures are apparent in the following figures :—

	Average of 1877—1882.	1881-82.	1882-83.
Number of shops	3,316	3,488	3,271
	Mds. s. c.	Mds. s. c.	Mds. s. c.
Quantity consumed	6,141 6 2	6,431 9 6	5,645 36 14
	Rs.	Rs.	Rs.
License-fees	5,50,296	7,75,632	7,95,223
Duty	8,12,366	9,38,159	10,95,274
Total ...	14,32,662	17,13,791	18,90,497

Thus with an increase of Rs. 1,07,000 in the duty levied, there was a decrease of 785 maunds in the quantity consumed; and with a decrease of 217 in the number of shops licensed, there was an increase of Rs 40,000 in the amount of license-fees collected. The average revenue per maund levied on this deleterious drug was Rs. 329 against Rs. 266 in 1881-82 and Rs. 233 in the five years 1877—1882. Some officers have recommended a further increase in the duty, but the Board have considered it prudent to postpone such a measure for the present lest smuggling should be encouraged. The Lieutenant-Governor will be glad to know if the local officers recommend another enhancement at the close of the current year. The most important difficulty that besets this branch of the Excise administration is the competition of untaxed ganja from the Tributary States of Orissa. The Commissioner of Burdwan is now engaged on an enquiry into this question so far as it affects the revenue in the Midnapore district. There are also indications that there is considerable smuggling into the regulation districts of Orissa. The Lieutenant-Governor trusts that the Board will not cease to direct their attention to this matter.

11. The price of *Opium* issued from the treasuries was unaltered during the year. There was an increase of 79 maunds in the quantity consumed, and an increase of Rs. 48,319 in the combined revenue from duty and license-fees, though there was a decrease of 54 in the number of licenses to sell. In Hooghly district, where there was a falling off of 41 in the number of shops, there was an increase in the quantity of Government opium consumed, and an increase of Rs. 3,457 in the revenue. This increase is not believed to represent any actual increase in the consumption of the drug: it is attributed to the suppression of smuggling, resulting from the arrest and conviction of two noted offenders. An increase of 54 maunds 17 seers in Calcutta is referred partly to the suppression of smuggling, and partly, it is hoped correctly, to the displacement of ganja. There was an increase in the revenue in Dacca of

Rs. 4,891. This mainly represented increased payment of duty, but the license-fees were not proportionately large, owing to the surrender of 9 licenses in consequence of the competition of one enterprising shop-keeper. Chittagong shows a large increase of 20 maunds 23 seers in the consumption and Rs. 10,691 in the revenue. The amount levied from license-fees shows an actual decrease of over Rs. 6,000, and this seems to bear out the statement of the Collector that the increase in the quantity purchased is due to the extension of smuggling into Arrakan. The Board have this matter under consideration. The increase of 18½ maunds on which duty was paid in the Patna Division is satisfactory, as it undoubtedly represents, not increased consumption of opium, but increased consumption of duty-paying opium only. This result is attributed to the system of small shops inaugurated by the Board. There was an increase of 1 maunds 17 seers in Cuttack, which is believed to represent the natural growth in consumption of a drug which is always popular with the people. The decrease of 3 maunds 11 seers in Balasore is attributed by one officer to over-speculation on the part of the vendors in the previous year, by another to the operation of the enhancement of duty in 1880. It is believed to represent an actual reduction of consumption, and Mr. Grant believes that the place of the opium has been supplied by ganja. The decrease of 8 maunds 18 seers in Rungpore and of 7 maunds 32 seers in Mymensingh is attributed to the increase in the rate of duty.

12. On the whole, the returns show a falling off in the activity both of Police and of Excise Officers in the detection of breaches of the law. The number of persons brought to conviction by the former was 1,946 against 2,284 in the previous year, and by the latter was 756 against 983. The Police were active only in the 24-Pergunnahs (where the District Superintendent, Mr. Pratt, is deservedly commended), Moorshedabad, Durbhunga, Hooghly, Beerbhoom and Chumparun. The Police of Bankoora, Rungpore, Bogra, Pubna, Julpigoree, Tipperah and Maldah, on the other hand, appear to have altogether neglected their duty in this respect, and the Inspector-General of Police will be requested to take due notice of their shortcoming. The Divisional Excise Inspectors appear to have given satisfaction.

13. The names of the officers selected by the Board for special mention will be noted in the Appointment Department. The Lieutenant-Governor desires to thank the Board for their careful and efficient administration of the Excise Department during the year.

By order of the Lieutenant-Governor of Bengal,

COLMAN MACAULAY,

Secretary to the Government of Bengal.

ERRATA.

Returns of Joint Stock Companies for 1882-83.

In modification of the errata published at page 1149 of the Supplement to the *Calcutta Gazette* of 1st August 1883, the following revised errata is published for general information:—

Return I.

Number on this list.	Number borne by each company on the general register.	Name of each company.	Object of each company.	Date of registration.	Nominal capital.	Remarks.
					Rs.	
5	438	Bengal Purveying Company, Limited.	To carry on the business of purveyors.	27th April 1882 ...	50,000	

Return III.

Number on this list.	Number borne by the Company on the Register.	Names of companies.	Nominal capital.	Date of registration.	Date of winding up.	Date of final dissolution.	Date on which written off defunct.	Remarks.
			Rs.					
1	215	Darjeeling Terai Tea Company, Limited.	1,00,000	28th October 1867	30th May 1882 ...	30th May 1883		
2	402	New Oriental Jute Mills Company, Limited.	6,35,000	29th May 1880 ...	2nd August 1880 ...	Ditto.		

Return VI.

Number of this list.	Number of register borne by each company.	Names of companies.	Dates of registration.	Nominal capital.	Paid up capital.	Profit or loss as per last balance sheet.		Date of last balance sheet.	Remarks.
						Profit.	Loss.		
				Rs.	Rs.	Rs.	Rs.

Rainfall, Weather, and State and Prospects of the Crops.

Statement showing Rainfall, Weather, and State and Prospects of the Crops in the different Districts of Bengal, as reported to Government during the week ending the 13th October 1883.

No.	District, and date of return.	Rainfall at Sudder Station in inches.	Character of the weather, state and prospects of the crops, and state of health at date.
	BENGAL.		
	Western Districts.		
	BURDWAN DIVN.		
1	Burdwan, Oct. 13 '83	0·23	Weather—very hot. The slight amount of rain that has lately fallen in some parts of the district has been of no appreciable benefit to the crops which are now beginning to wither even in the low lands. Prospects bad
	Cutwa ...	Nil	
	Culna ...	Nil	
2	Bankoora, „ 13 „	Nil	Weather—continues hot, with cool mornings. Clouds hanging about. The rice crop is suffering seriously for want of rain. Prices rising. Public health good.
	Bishenpore ...	Nil	
	Maliara ..	Nil	
	Khatra ...	Nil	
3	Beerbhoom, „ 13 „	Nil	Weather—hot and dry. Cloudy on the last two days of the week. Rain urgently wanted for the rice crop, which is suffering much from drought. Prices stationary as yet. General health satisfactory.
	Rampore Haut ..	Nil	
4	Midnapore „ 13 „	A slight shower on 13th.	Weather—cloudy. Want of rain is keenly felt everywhere Prospects of crops unfavourable. Public health fair.
5	Hooghly, „ 13 „	0·09	Weather—alternately cloudy and sunny throughout the week. Rain is badly wanted all over the district, and the prospects of the *amun* crop are critical. Unless it rains heavily soon, this and the potato crop will suffer severely. There is fever in various parts of the district, and some cases of cholera in Hooghly and Chinsurah towns.
	Howrah, „ 15 „	0·47	Weather—warm and cloudy with a few slight showers. *Amun* rice and sugarcane suffering from want of rain. Land being prepared for cold-weather crops. Rain much needed both for the standing crops, and those for which the soil has to be prepared.
	Oolooberiah ...	1·71	
	Central Districts.		
	PRESIDENCY DIVN.		
6	24-Pergunnahs, Oct 15 „	0·17	Weather—dry and hot Early crops nearly all harvested. A heavy downpour of rain would entirely undo all the harm done the crops on the high lands by the dry and hot weather experienced.
7	Nuddea, „ 13 „	Nil	Weather—fine and cool. The *amun* is greatly suffering from want of rain everywhere Fever stationary.
	Kooshtea ...	0·06	
	Meherpore ...	Nil	
	Chooadanga ...	Nil	
	Ranaghat ..	Nil	
8	Khoolna, „ 13 „	0·07	Weather—very hot in first part of the week. Cloudy with a few drizzling showers latterly The reports do not shew that the late rice crop has been much injured, but more rain is wanted. Public health is good.
9	Jessore, „ 13 „	Nil	Weather—sultry and foul. Twelve annas *amun* on high lands in the Sudder and Jhenida sub-divisions almost destroyed in consequence of drought. Expected outturn is 4 annas. Prospects of low land *amun* are not still bad in Narail, Magura, and Bongong. Four annas are reported to have been damaged. The sky is to day (13th) at 2 P.M. replete with clouds. Heavy shower, which is expected, would save half the crop General health good.
	Jhenida .	Nil	
	Magura .	Nil	
	Narail ..	Nil	
	Bongong ...	Nil	
10	Moorshedabad, „ 13 „	Nil	There has been no rain. Weather cloudy and threatening, especially during the last two days. Hot and sultry; mornings cool. The paddy is fast drying up for want of rain.
	RAJSHAHYE AND COOCH BEHAR DIVN.		
11	Dinagepore Oct. 12 '83	Nil	Weather—fair. Rain wanting, but prospects fair. A little rain now would make prospects good.
12	Rajshahye, „ 13 „	0·31	Weather—very hot Late rice is suffering for want of rain. It is reported that the *amun* crop within the Charghat police station has been irrecoverably damaged Public health fair.
	Nattore ..	Nil	
	Nowgong ...	0·30	
13	Rungpore „ 12 „	Nil	Weather—hot. Rain much wanted for *amun* crop, especially in the Gaibanda sub-division and in the south of the Sudder sub-division. Other winter crops are promising. Fever prevalent.
	Gaibanda ...	Nil	
	Kurigram ...	Nil	
	Nilphamari ...	Nil	
14	Bogra. „ 13 „	Nil	Clouds have appeared, but no rain has fallen. The last shower fell on 28th ultimo. Weather still very hot The state and prospects of the *amun* crop are very bad, as the transplanted rice is withering for want of rain. Public health is fair
15	Pubna, „ 13 „	0·02	Weather cooler. Slight rain, more wanted. *Amun* rice suffering generally from want of rain. Sugarcane and turmeric doing fairly well
16	Darjeeling, „ 13 „	Nil	Weather bright. Early harvest complete with fair outturn, better in hills than in Terai. Late rice is doing well in the hills, but wants rain badly in the Terai.
17	Julpigoree, „ 13 „	Nil	Weather seasonable. State of crops good. Transplanting of late rice nearly over. *Thakuri* and *kulti kalai* promising. Sugarcane good. Public health good.
	Cooch Behar „ 13 „ up to 10th Oct.	0·10	Weather—fair and seasonable. Fields being prepared for tobacco and other cold-weather crops. Prospects of late rice favourable. Public health good.
	Dinhatta .. up to 7th Oct.	Nil	
	Mathabhanga .. up to 6th Oct.	0·59	
	Meckliguage ... up to 6th Oct.	0·92	
	Eastern Districts		
	DACCA DIVN.		
18	Dacca, Oct. 13 '83	1·62	Weather—hot. Harvesting of *aus* and *aghini* paddy continues. Jute is still being cut. *Amun* blossoming. Prospects of crops good.
	Manickgunge ...	Nil	
	Munshigunge ...	Nil	
19	Furreedpore, „ 13 „	0·03	Weather—dry and hot. Some appearances of rain during the last three days. State and prospects of sugarcane very fair, but of *amun* poor. Rain is seriously needed Fever rather prevalent
	Goalundo ...	0·12	
	Madaripore ...	Nil	
20	Backergunge, „ 11 „	Nil	Weather—hot and clear. Prospects of crops good. General health good. Rain falling at time of report.
21	Mymensingh. „ 12 „	Nil	Weather—hot; cloudy sky Rain is wanted everywhere. Winter rice promises well. Rivers fallen. Public health good.
	Kishoregunge ..	Nil	
	Attea ...	Nil	
	Nettrokona ..	Nil	

No.	District, and date of return.	Rainfall at Sudder Station in inches.	Character of the weather, state and prospects of the crops, and state of health at date
BENGAL—*concld.*			
	Eastern Districts.—concld.		
Chittagong Divn. 22	Chittagong, Oct. 16 '83	3·16	Weather—seasonable. Prospects favourable. Rain has done good to standing crops. Prices steady. Cattle disease ceased.
23	Noakholly, „ 11 „	Nil	Weather—clear and sultry. Young *aman* plants promising. Transplanting still continues.
24	Tipperah, „ 11 „	Nil	Weather—fair and hot. *Aman* crop good. Prospects bright. Health good. Cattle-disease prevalent in south.
	Brahmunberia ..	Nil	
	Chandpore ..	Nil	
25	Chittagong Hill Tracts. ...	.....	Report not received.
	Hill Tipperah „ 10 „	Nil	Weather—rather too hot for the season. *Aman* and sugarcane doing well. Public health good.
BEHAR			
Patna Divn. 26	Patna, Oct. 13 '83	Nil	Weather—hot. Rain is much wanted for paddy. *Jowar*, *rabi*, sugarcane and cotton are growing well. Plantation of potato is going on. Cholera still reported from Patna and Behar sub-divisions.
27	Gya, „ 13 „	Nil	Weather—warm and dry with haze. Rice crop very bad. *Rubbee* cultivation hindered by want of rain. Prices rising. Health good. Cholera almost gone.
28	Shahabad, „ 13 „	Nil	Weather—mornings and evenings cool. The *katia*, or season when rain is required to ripen the crop, having proved dry, the rice is perishing, except on land irrigated from the canal. The whole of the canal water is being utilized, and the supply is insufficient for the area supposed to be commanded.
29	Durbhunga, „ 13 '83	Nil	Weather—hot in the day, getting cool at night. Rain is very much wanted, especially to save the rice crop on the high lands. Irrigation is being resorted to. Prices have risen. If no more rain falls, there will be only an eight anna crop throughout the district.
30	Mozufferpore, „ 13 „	Nil	Weather—sky partially overcast, but rainless. *Bhadoi* harvest completed, with results on the whole below the average. Rain badly wanted for the rice crop. In Seetamarhi prospects are becoming gloomy day by day.
	Seetamarhi ..	Nil	
31	Sarun, „ 13 „	Nil	Weather—dry; days hot; nights cool; clouds hanging about, but no rain. Rain anxiously awaited. Paddy crop suffering, and *rubbee* sowings delayed, for want of rain. Public health good. Prices still easy.
	Sewan ..	Nil	
	Gopalgunge	Nil	
32	Chumparun, „ 13 „	Nil	Weather—dry and hot, with occasional clouds. Cooler in the latter part of the night. The protracted drought causes grave anxiety. In some places there is not sufficient moisture in the soil to permit of the *rubbee* crop being sown. The *dhan* in most places requires rain. *Bhadoi* is being harvested, but the outturn has been far below an average one.
Bhagulpore Divn. 33	Monghyr, Oct. 13 '83	Nil	Weather—hot and dry. Prospects of crops generally good, but the winter rice on the high lands is suffering from the drought. Rain is much required everywhere, and a good shower will improve prospects. Prices rising. Public health good.
	Begusarai ...	Nil	
	Jamui .	Nil	
34	Bhagulpore, „ 13 „	Nil	Weather—unusually hot in day, cool in the mornings. On 11th and 12th it was cloudy and the wind was variable, but on the 13th the sky cleared. The rice crop on the higher lands has suffered much. The low land crop has also suffered, and the outturn will probably not exceed eight annas. The price of rice has risen considerably. There is little or no moisture for the *rubbee* sowings.
35	Purneah, „ 13 „	Nil	Weather—hot by day, cool by night. Prospects of crops still reported good in Kissengunge, but more rain wanted in Arraeah, and more still in the Sudder sub-division. The absence of rain during the past week has been generally injurious to the late rice crop. The weather is now cloudy. *Rubbee* cultivation is going on as usual. Fever prevails everywhere.
36	Maldah, „ 13 „	Nil	Weather—hot and cloudy. Heavy rain is much wanted for the late rice crop. Common rice selling at from 16 to 18 seers per rupee. General health good.
37	Sonthal Pergha, „ 14 „	Nil	Weather—days clear, nights, and hot, till Thursday evening (11th), when clouds began to form, nights cool, mornings dewy. Rain urgently wanted, especially for the up land *dhan*. Irrigation will sustain a considerable area, but the crop not protected are suffering, and the *rubbee* lands cannot be prepared for sowing.
	Deoghur ...	Nil	
	Godda ...	Nil	
	Rajmehal ...	Nil	
	Jamtara ...	Nil	
	Pakour ...	Nil	
ORISSA.			
Orissa Divn. 38	Cuttack, Oct. 12 '83	Nil	Weather—hot. Cutting of *beali* crop still going on; *sarad* being weeded and growing well, but rain urgently wanted. Price of rice increasing. Public health good, except some scattered cases of ordinary fever. Cattle disease reported to have appeared in some places. Kendrapara sub-division.
39	Pooree, „ 11 „	0·17	Weather—hot. State of crops good, but rain is wanted. Public health fair. Price of rice stationary.
40	Balasore, „ 12 „	Nil	Weather—hot and dry, but cloudy at intervals. Harvesting of *aus* crop nearly over. Rain very much wanted for *aman*. A heavy fall of, say, 4 to 5 inches in the next few days would, probably, still ensure a 12 anna crop, but if no more rain falls the *aman* harvest must be most seriously affected. A great deal depends on the weather of the next week. Public health good.
CHOTA NAGPORE.			
	South-West Frontier Agency.		
41	Hazaribagh, Oct. 12 '83	Nil	Want of rain is keenly felt all over the district for the standing rice crop which has already suffered a great deal. Public health good.
42	Lohardugga, „ 13 „	Nil	Weather—bright and warm. Winter rice on high lands suffering from want of rain. *Rubbee* sowings in Palamow prevented from same cause. Slight fever prevalent. Prices steady.
43	Singbhoom, „ 12 „	Nil	Weather—days warm, mornings and evenings cool. Prospects of crops generally good, but more rain is wanted. Fever and cattle-disease reported from several villages. Otherwise public health good.
44	Manbhoom, ...	.....	Report not received.

Published for general information.

Explanation of Summary.—The normal means of air pressure and temperature are the arithmetical averages or means of the readings during the same The *humidity* of the atmosphere is expressed as a percentage, saturated air being represented by 100. A clear sky is denoted by 0 and an overcast sky vations, rainfall." The normal means are the numerical means or averages of the rain from that district determined from the returns sent in by the sub-divi from that district, (viz.) the total rainfall at the sub-divisional stations in the district sending in returns divided by the number of stations. A rai

for the week ending Friday, the 12th October 1883.

period for the past 1 year. The variations are *negative* when the mean for the week is less than the corresponding normal me n, and *positive* when greater. by 10. The number denoting cloud amount represent the part of the sky covered, the whole sky being denoted by 10. Under the head "district observational stations for the period in question during the past 12 years. The "means for the district" are the numerical averages of the rainfall returns received day is one on which at least an hundredth of an inch fell.

Explanation.—Indicates that no rain has fallen. If the return for any day has not been received, the corresponding space is left blank. If some of the returns are wanting, the corresponding spaces in the total rainfall columns are left blank.

SUMMARY OF THE METEOROLOGICAL AND RAINFALL OBSERVATIONS TAKEN IN BENGAL FOR THE WEEK ENDING FRIDAY, THE 12TH OF OCTOBER 1883.

DURING the six days preceding the week now under review, the whole Province had been practically rainless. Pressure had been gradually becoming more uniform over the whole reporting area for some time previous, and had also been considerably above the normal until the 5th instant, when a somewhat brisk fall had taken place. With the establishment of these conditions, the south-west monsoon winds had been driven back from over the land area, and had been replaced by dry northerly winds in almost all parts of the Province. Pressure continued to decrease on the 6th and 7th, but as the fall was general over a large part of India, the relative distribution was not changed to any material extent; and though pressure on the latter date was considerably below the normal, the general conditions as to winds, weather, &c., were unchanged. From the 8th instant, however, pressure commenced to recover itself briskly, and this rising barometer has continued generally up to the close of the week, when pressure was largely in excess of the normal in all districts. Northerly winds continued therefore to blow over the greater part of the Province during the greater part of the week, but at several of the stations in the south of the Bay south-westerly winds, and in some cases of very considerable velocity, were reported, and as a natural consequence of the interaction or interference of these opposing wind currents over the sea area, weather became distinctly unsettled over the Bay. This disturbed condition of the weather over the sea area does not appear to have localized itself so as to generate a single well-developed barometric depression or cyclonic vortex, but only a large shallow diffused disturbance was produced, in which apparently there were several smaller disturbances, or what might perhaps be called storm patches. One of these minature storms appears to have passed into Eastern Bengal on Thursday, the 11th, and it brought with it very general rain, so that at many stations in this division considerable amounts of rain were received on Thursday and Friday, while at the same time showers were received at some stations in South-West and North Bengal. The main portion of the diffused disturbance which had been formed in the Bay, however, appears gradually to have drifted in a westerly direction towards land, and was at the close of the week approaching the South Orissa and Madras coasts, where it has since given heavy rain with clouded skies. The greater part of the past week has therefore again been practically rainless over a large proportion of the reporting area, and with the exception of a few insignificant local showers, which were received in North Bengal in the earlier part of the week, the only rainfall of importance has fallen on the last two days of the week, and has been confined principally to East Bengal, and to a small section of South-West and North Bengal.

As before stated, the week opened with a falling barometer, and in fact on the 6th instant, pressure was below the normal by an average amount of 0·06″; the fall was intensified on the 7th, and on that day the average defect was 0·08″. From that date, however, the barometer has risen steadily, and on the 12th instant the average excess pressure over the whole Province was 0·07″. In consequence of these opposing variations, the average pressure for the whole week at most stations does not differ much from the normal. The greatest average variation is a defect of 0·06″ at Durbhunga, but at all other stations the variations do not exceed one or two hundredths of an inch, and in some cases the quantities are in excess, and in others in defect of the normal. In consequence, however, of the almost complete absence of rain during the greater part of the week, and of the nearly cloudless skies which have prevailed, temperature in most districts has been above the normal. Thus Chutia Nagpur shows an average excess of 2·8° for the week, North Behar an average excess of 1·8°, Orissa an average excess of 1·6°, South Behar an excess of 1·1°, and South-West Bengal an excess of 0·7°. East Bengal, however, has registered an almost normal temperature during the past week.

The following table gives the usual summary of the temperature and rainfall data for each of the seven meteorological divisions of the Province:—

METEOROLOGICAL DISTRICT.	TEMPERATURE						RAINFALL.							
	Highest observed during week.	Lowest observed during week.	Average for week.			Average mean of week above or below normal mean of week.	Of week.			Rainy days.			Since 1st of month.		Since May 15th.	
			Of highest of each day.	Of lowest of each day.	Of mean for each day.		Average.	Normal average.	Variation.	Average number in week.	Normal average number.	Variation.	Average.	Normal average.	Average.	Normal average.

* Maximum of Rampore-Peanleah reads too high.
† Singbhoom being excepted in the abstract.

As has been before pointed out, the past week has been one of extremely deficient rainfall, and had it not been for the occurrence of a very small cyclonic storm, which passed up from the Bay of Bengal into Eastern Bengal, it is more than possible that the whole Province would have been practically rainless for the entire week. The passage of this small storm, however, brought moderate to heavy rain to Eastern Bengal, and a few showers to Orissa, South-West Bengal, and North Bengal, but the districts of North and South Behar and Chutia Nagpur, which were completely removed from the influence of this storm, have been perfectly rainless during the entire week. Compared with the normal fall, East Bengal during the past week has received a rainfall in excess of the average by about 10 per cent., while the few showers which have fallen in the other districts have given North Bengal 14 per cent. of the normal fall, South-West Bengal 7 per cent. of the usual quantity, and Orissa 3 per cent. of the normal amount. The number of rainy days too has been proportionally even smaller than the rainfall, and though on the average the amount of rain has been in excess in East Bengal, yet the number of rainy days has been distinctly below the normal, the normal average being 2·2, while the average for the week has been 1·6 days.

Taking East Bengal first as having received the largest amount of rain, even here the greater number of stations in the Mymensingh district have been absolutely rainless, but in all other districts of this division the rainfall has been well distributed. In North Bengal almost the whole number of stations have been absolutely rainless, and the only stations which have received amounts of rain worth recording are Matabhanga and Buxa In South-West Bengal about one-third of the stations have received slight showers, which, however, do not average more than two or three tenths of an inch, while in Orissa only three stations report slight showers not averaging even two tenths of an inch. As before stated, the stations in the remaining districts report absolutely no rain during the entire week.

Saturday, 6th October.—Pressure decreased by small amounts over the whole Province., Pressure was considerably below the normal, the average defect being about 0·06″. The changes of temperature were small and somewhat variable. Temperature still continued considerably above the normal, the excess ranging from an average of about 3° in South-West Bengal to 2° in Orissa, South Behar, East Bengal and Chutia Nagpur. Winds were light and irregular. In South-West Bengal, South Behar, and Chutia Nagpur, there was a strong westerly element in the wind directions, but in North Bengal and North Behar winds were principally north-easterly and easterly. In all cases wind velocities were very small. Humidity was small over the whole reporting area, particularly in South Behar and Chutia Nagpur. Cloud proportion was also very small, and in Behar, Chutia Nagpur, and South-West Bengal the sky was almost perfectly cloudless. The whole Province was to-day rainless.

Sunday; 7th October.—Pressure continued to decrease at almost all stations by small amounts. The fall was least in Behar and greatest in South-West Bengal. Pressure was considerably below the normal over the whole Province, the average defect being about 0·08″. The changes of temperature were very small and of variable nature. Temperature still continued above the normal in all districts. The average excess was about 2°, though at Durbhanga an excess of 4·5° was reported. Very light north-westerly winds were still blowing in Chutia Nagpur, South-West Bengal, and Orissa. In East and North Bengal winds were generally easterly and north-easterly, while calms were reported from half the stations in Behar. The wind velocity over the whole Province was particularly small Humidity remained low in all districts. The amount of cloud had increased slightly, though it was still small in all districts. With the exception of two slight showers in the Darjeeling district at Buxa and Siliguri, the whole Province was rainless. The amount reported from Siliguri was 0·15 inch and from Buxa 0·13 inch.

Monday, 8th October.—Pressure increased briskly over the whole Province. The increase averaged about 0·06″, and it was approximately equal in most districts. Pressure therefore continued very uniform over the whole reporting area. The variations from normal pressure (except at Durbhanga) were not large, and it was nearly normal over the Province generally, though it was slightly below it in East Bengal and above it in Chutia Nagpur. Temperature had fallen slightly at most stations except in Behar. The changes were, however, so small that temperature still continued considerably above the normal. The excess temperature in East and South-West Bengal and in Orissa was nearly 2°; in Chutia Nagpur it was between 2° and 3°; while at Patna an excess temperature of 5° was reported. Winds continued north-westerly in Chutia Nagpur, South-West Bengal, and Orissa; they were north-easterly in East and North Bengal; while calms and variable winds were reported from Behar. Wind velocities continued very small in all districts. Humidity was particularly small in South Behar and Chutia Nagpur. It was also comparatively small in all other districts. Cloud proportion was remarkably low, and Orissa, South-West Bengal, East Bengal, North Bengal and Chutia Nagpur were practically cloudless, while Behar reported a slightly clouded sky only. The whole province was rainless to-day.

Tuesday, 9th October.—Pressure continued to increase rather rapidly in all divisions. The increase was least in North and East Bengal, and largest in South Bohar and Chutia Nagpur. In East Bengal pressure was almost normal, while all other divisions showed a pressure considerably above the normal. The excess pressure varied from 0·02″ in South-West Bengal to 0·07″ in North Behar and Chutia Nagpur. The changes of temperature were small and variable, but on the whole temperature was falling It was still above the normal for the day at almost all stations, the average excess being between 1° and 2°. though Durbhanga, Patna, and Hazaribagh reported temperatures nearly 4° above the normal. Light

northerly winds prevailed in all divisions, except South Behar, where the majority of stations reported south-westerly winds. Wind velocities were particularly small in all districts. Humidity remained small over the whole Province. The sky was also almost cloudless in all divisions. The whole Province was again rainless to-day.

Wednesday, 10th October.—Pressure had increased in South-West, East, and North Bengal, but in Orissa, Behar, and Chutia Nagpur the changes were very small and variable. Pressure continued very uniform over the whole reporting area, and at most stations it was above the normal for the day. The excess amounts ranged from 0·02″ in Orissa to 0·06″ in North Behar. Temperature continued very high in all districts. It averaged about 2° above the normal, while at Hazaribagh and Durbhanga it was between 4° and 5° above the normal. Winds were somewhat irregular. They were northerly and north-westerly in Chutia Nagpur, Orissa and South-West Bengal, north-easterly in North Bengal, south-easterly in South Bengal, and variable in Behar. Wind velocities continued particularly small. Humidity was extremely low in Chutia Nagpur and South Behar, and low in all other districts except East Bengal, where it had increased. Cloud proportion was small at all stations except Saugor Island, False Point, and Chittagong. A few slight showers fell in East and North Bengal, but the remainder of the reporting area was perfectly rainless. The amounts reported were Rungamati 0·53 inch, Chittagong 0·85 inch, Ruma 0·25 inch, Kalimpong 0·3 inch, Cox's Bazar 0·24 inch, and Sherpore 0·05 inch.

Thursday, 11th October.—Pressure had increased decidedly in East, North, and South-West Bengal, the increase being largest at the eastern stations. In Behar, Chutia Nagpur, and Orissa the changes of pressure were small and somewhat variable. Pressure continued above the normal of the day by amounts which ranged from 0·014″ at Saugor Island to about 0·08″ at Chittagong and Durbhanga. Temperature was falling generally in Orissa, East Bengal, and Behar, but was stationary or in some cases increasing in South-West and North Bengal and Chutia Nagpur. In the latter districts it was above the normal by amounts which averaged from 2° to 3,° and was distinctly below the normal in East Bengal and Orissa. Winds were north-westerly in Orissa, easterly in South-West Bengal, north-easterly in North Bengal and Chutia Nagpur, while in Behar winds were rather variable. Wind velocities continued very small in all districts. Humidity was very small in Chutia Nagpur and South Behar, but in other districts it was decidedly increasing. Cloud proportion had rapidly increased in all districts, and was very large at several stations in East and South-West Bengal.

With the passage of the small storm into Eastern Bengal, rainfall became very general in that division. A few showers also fell in South-West and North Bengal. The following were the largest amounts recorded :—Patuakhally 3·7 inches, Perozepore 2·9 inches, Cox's Bazar 2·24 inches, Munshigunge 1·29 inches, Bhola 1·15 inches, Dacca 0·94 inch, Burrisal 0·75 inch, Kishoregunge 0·73 inch Contai 0·58 inch and Chandpore 0·5 inch.

Friday, 12th October.—Pressure increased generally over the whole reporting area, except locally in East Bengal, where a fall was reported at several stations owing to the influence of a small cyclonic storm which had passed inland over that district. Pressure was very largely above the normal in most divisions, the excess averaging nearly ·08″, while at Durbhanga an excess of 0·14″ was reported. Temperature had fallen in almost all divisions, particularly in East Bengal. It was still above the average in Orissa, South-West Bengal, Behar, and Chutia Nagpur, but was decidedly below the normal (by about 4° to 5°) in East Bengal. Winds had not changed very materially, except in East Bengal, where southerly winds were reported from some stations, and where in fact there were distinct evidences of a small cyclonic circulation of winds. Wind velocities had increased very distinctly in all districts except Behar. Except in South Behar and Chutia Nagpur, humidity had distinctly increased. Cloud proportion was very high in East Bengal and in South-West Bengal. It had also increased in Orissa and North Bengal.

Rain was again very general in Eastern Bengal and in the Cooch Behar district of North Bengal, and at some stations it was very heavy. A few showers also fell in South-West Bengal and in Orissa. The largest amounts reported were Moonshigunge 4·52 inches, Feuny 3·59 inches, Matabhanga 3·5 inches, Buxa 2·83 inches, Kishoregunge and Comilla 2·05 inches, Madaripore 1·45 inches, Burrisal 1·32 inches, Naraingunge 1·23 inches, Bhola 1·17 inches, Tumlook 1·1 inches, and Cox's Bazar 1·05 inches.

The mean pressure, temperature, &c., are deduced from the traces of the Barograph and Thermograph, and from observations made at 6h, 10h, 16h, and 22h.

The maximum and minimum temperatures are obtained from self-registering thermometers. All the thermometers are verified, and the readings have been corrected to a standard constructed and verified at the Kew Observatory. They are exposed under a thatched shed open at the sides, and are suspended four feet above the ground.

The barometer readings are corrected approximately to those of the standard Newman's No 86 formerly at the Surveyor-General's Office.

The hygrometric elements are obtained from Tables III, IV and V of the official tables computed in the Meteorological office, and based on Regnault's modifications of August's formula.

The direction of the movement of the wind are taken from the trace of a Beckley's anemograph.

The mouth of the rain-gauge is one foot above the ground.

o overcast, *g* gloomy, *p* passing temporary showers, *d* drizzling rain, = fog, *t* thunder.

PART V.

Acts of the Governor General's Council assented to by the Governor General.

GOVERNMENT OF INDIA.

LEGISLATIVE DEPARTMENT.

[First publication.]

The following Act of the Governor General of India in Council received the assent of His Excellency the Governor General on the 11th October, 1883, and is hereby promulgated for general information :—

ACT No. XVI OF 1883.

An Act for the protection of Inventions exhibited in the Exhibitions of India.

WHEREAS it is expedient that such protection as is hereinafter mentioned should be afforded to the inventors of new manufactures who are desirous of exhibiting them at Exhibitions to be held in India; It is hereby enacted as follows :—

Short title. Commencement.

1. *(1)* This Act may be called the Protection of Inventions Act, 1883;

(2) And it shall come into force at once.

Act to be read with Act XV of 1859.

2. It shall be read with, and taken as part of, Act XV of 1859 (*for granting exclusive privileges to inventors*).

Inventions exhibited when to be deemed new though publicly used or made publicly known.

3. If, within six months from the time of the opening of an Exhibition, a person, being the inventor and exhibitor of any manufacture exhibited at that Exhibition, petitions the Governor General in Council, under Act XV of 1859, for leave to file a specification of his invention, the circumstance that the invention has at any time after the opening of the Exhibition been publicly used or made publicly known shall not prevent the invention being deemed to have been at the time of presenting the petition a new invention for the purposes of the said Act.

Meaning of term "Exhibition."

4. In this Act, "Exhibition" means the International Exhibition to be held in the years one thousand eight hundred and eighty-three and one thousand eight hundred and eighty-four at Calcutta, and any Exhibition to be held in India which the Governor General in Council may, on the application of any persons desirous of holding the Exhibition, by notification in the *Gazette of India*, declare to be, in the judgment of the Governor General in Council, calculated to promote Indian art or industry, and to prove beneficial to the mercantile, agricultural or industrial classes of Her Majesty's subjects in India.

D. FITZPATRICK,

Secretary to the Government of India.

GOVERNMENT OF INDIA.

LEGISLATIVE DEPARTMENT.

[First publication.]

The following Act of the Governor General of India in Council received the assent of His Excellency the Governor General on the 4th October, 1883, and is hereby promulgated for general information:—

ACT No. XVII OF 1883.

An Act to amend the Native Passenger Ships Act, 1876.

VIII of 1876.

WHEREAS it is expedient to amend the Native Passenger Ships Act, 1876, with a view to provide for the better regulation of the passenger-traffic between British India and ports in the Red Sea; It is hereby enacted as follows:—

Short title. Commencement.

1. *(1)* This Act may be called the Native Passenger Ships Act, 1883; and

(2) It shall come into force on such day as the Governor General in Council directs by notification in the *Gazette of India*.

VIII of 1876.

Addition to section 11 of the Native Passenger Ships Act, 1876.

2. After clause (*e*) of section eleven of the Native Passenger Ships Act, 1876, the following clause shall be added:—

"(*ee*) in the case of any ship sailing to any port in the Red Sea, that she is propelled principally by steam, and, if she is carrying more than one hundred passengers being Natives of Asia or Africa, that she has on board a medical officer licensed in accordance with rules made under this Act."

Substitution of new section for section 26 of same Act.

3. For section twenty-six of the same Act the following section shall be substituted:—

Bond where ship clears for port in Red Sea.

"26. In the case of every ship sailing from any port in British India to any port in the Red Sea, the officer whose duty it is to grant a port clearance for any such ship shall not grant the clearance unless and until the owner, agent or master of the ship and two sureties resident in British India have executed in favour of the Secretary of State for India in Council a joint and several bond, for the sum of Rs. 5,000, conditioned—

"(*a*) that the ship shall touch at Aden on the outward voyage and there obtain a clean bill of health, and shall do the same on the homeward voyage if the ship continues to carry more than sixty passengers; and

"(*b*) that the master and medical officer (if any) of the ship shall comply with on the outward voyage, and also on the homeward voyage if the ship continues to carry more than sixty passengers, the provisions of this Act and of such rules relating to ships sailing between ports in British India and ports in the Red Sea as the Governor General in Council may, from time to time, make under section forty-six."

Amendment of section 27 of same Act.

4. In section twenty-seven of the same Act, for the word "thirty" the word "sixty" shall be substituted.

Addition to section 28 of same Act.

5. To section twenty-eight of the same Act the following words shall be added:—"and the authority empowered to grant the same may refuse to grant a bill of health in the case of any ship on board of which the requirements of the rules made under section forty-six are not complied with."

Addition of new sections after section 28 of same Act.

6. After section twenty-eight of the same Act the following sections shall be added:—

Certain ships to carry medical officer.

"28A. Every ship sailing from or to any port in British India to or from any port in the Red Sea and carrying more than one hundred passengers being Natives of Asia or Africa shall have on board a medical officer licensed in accordance with rules made under this Act.

Certain ships to be propelled by steam.

"28B. Every ship sailing from or to any port in British India to or from any port in the Red Sea shall be propelled principally by steam.

Power for Local Government to direct medical inspection of passengers.

"28C. *(1)* The Local Government may, from time to time, direct that no passenger shall be received on board any ship or any ship of a specified class sailing from any port in British India to any port in

the Red Sea unless and until he has been inspected, at such time and place as the Local Government may fix in this behalf, by a medical officer to be appointed by the Local Government in this behalf.

"(2) If, in the opinion of the officer making an inspection under this section, a passenger is suffering from any dangerously infectious or contagious disease, the passenger shall not be permitted to embark."

Addition of new sections after section 38 of same Act.

7. After section thirty-eight of the same Act the following sections shall be added:—

"38A. If the master of any such ship as is referred to in section twenty-seven, or any medical officer in charge of any such ship, wilfully breaks, or omits or neglects to obey, any rule with regard to those ships made under section forty-six, he shall be punished with fine which may extend to five hundred rupees, or with imprisonment for a term which may extend to three months, or with both.

Penalty on master or medical officer of certain ships disobeying rules.

"38B. If any ship sailing from or to any port in British India to or from any port in the Red Sea and carrying more than one hundred passengers has not on board a medical officer as required by section 28A, the master of the ship shall be punished with fine which may extend to five hundred rupees, or with imprisonment for a term which may extend to three months, or with both.

Penalty on master of certain ships sailing without medical officer.

"38C. If any ship sailing from or to any port in British India to or from any port in the Red Sea is not principally propelled by steam, the owner and master shall each be punished with fine which may extend to five hundred rupees, or with imprisonment which may extend to three months, or with both.

Penalty on owner and master of certain ships not propelled by steam.

"38D. If the master of any ship, while a direction under section 28C is in force, knowingly receives on board his ship any person in contravention of that section or of the direction, he shall be punished with imprisonment which may extend to three months, or with fine which may extend to five hundred rupees for each person so received, or with both."

Penalty on master receiving passenger in contravention of section 28C.

8. After clause (*b*) of section forty-six of the same Act the following clause shall be added:—

Additions to section 46 of same Act.

"(*bb*) the licensing and appointment of medical officers in cases where they are required, under this Act, to be carried;"

and after clause (*e*) of the same section the following clauses shall be added:—

"(*ee*) the functions of the master, medical officer (if any) and other officers of the ship during the voyage;

"(*eee*) the access of intermediate or between decks passengers to the upper deck."

New section added to same Act.

9. To the same Act the following section shall be added, namely:—

"50. The Local Government may, from time to time, with the previous sanction of the Governor General in Council, for any special reason and subject to such conditions as it thinks fit, exempt any ship or class of ships from any provision of this Act."

Power to exempt ship from provisions of Act.

D. FITZPATRICK,

PART VI.

Bills introduced into the Council of the Governor General for making Laws and Regulations, or published under Rule 22.

GOVERNMENT OF INDIA.

LEGISLATIVE DEPARTMENT.

[First publication.]

The following Bill was introduced into the Council of the Governor General of India for the purpose of making Laws and Regulations on the 4th October, 1883, and was referred to a Select Committee:—

No. 21 OF 1883.

A Bill to amend the Legal Practitioners Act, 1879, and the Indian Stamp Act, 1879.

XVIII of 1879.

WHEREAS it is expedient to amend the Legal Practitioners Act, 1879, in manner in this Act appearing;

I of 1879.

And whereas it is also expedient to amend the Indian Stamp Act, 1879, in so far as it relates to the duty chargeable on the enrolment of legal practitioners;

It is hereby enacted as follows:—

Short title. Commencement.

1. (*1*) This Act may be called the Legal Practitioners Act, 1883; and

(*2*) It shall come into force at once.

XVIII of 1879.

Amendment of section 4 of Act XVIII of 1879.

2. In section 4 of the Legal Practitioners Act, 1879, for the words "as an advocate on the roll of the Chief Court of the Panjáb" the words "under section 41 of this Act" shall be substituted.

Addition of a proviso to section 13 of same Act.

3. To section 13 of the same Act the following proviso shall be added:—

"Provided that in any case in which the party on whose behalf any such pleader as aforesaid is retained is—

(*a*) a pardánashín woman, or

(*b*) unable for any sufficient cause to instruct the pleader in person,

the High Court shall not suspend or dismiss the pleader because he has taken instructions from a relative of the party deputed by him or her to instruct the pleader."

New section substituted for section 41 of same Act.

4. For section 41 of the same Act the following section shall be substituted, namely:—

Power for certain High Courts to enrol advocates.

"41. (*1*) A High Court not established by Royal Charter may, from time to time, with the previous sanction of the Local Government, make rules as to the qualifications and admission of proper persons to be advocates of the Court, and, subject to such rules, may enrol such and so many advocates as it thinks fit.

(*2*) Every advocate so enrolled shall be entitled to appear for the suitors of the Court and to plead or to act, or to plead and act, for those suitors, according as the Court may by its rules determine, and subject to those rules.

"(*3*) The High Court may dismiss any advocate so enrolled or suspend him from practice:

"(*4*) Provided that an advocate shall not be dismissed or suspended under this section unless he has been allowed an opportunity of defending himself before the High Court which enrolled him, and, except in the case of the Chief Court of the Panjáb, unless the order of the High Court dismissing or suspending him has been confirmed by the Local Government."

New section added to same Act.

5. To the same Act the following section shall be added, namely:—

Repeal of Acts I of 1846 and XX of 1853.

"42. Act I of 1846 (*for amending the law regarding the appointment and remuneration of pleaders in the Courts of the East India Company*) and Act XX of 1853 (*to amend the law relating to pleaders in the Courts of the East India Company*) are repealed."

Amendment of Schedules I & II of Act I of 1879. (Duty on enrolment of advocates.)

6. In Article 27 of Schedule I of the Indian Stamp Act, 1879, the words "in exercise of powers conferred on such Court by letters patent," and in clause (*a*) of Article 11 of Schedule II of the same Act, the words "established by Royal Charter" are repealed. I of 187

STATEMENT OF OBJECTS AND REASONS.

THE object of this Bill is to amend the Legal Practitioners Act, 1879, in certain respects in which experience has shown that the existing law is defective.

2. Section 13 of the Legal Practitioners Act, 1879, contains a provision that the High Court may suspend or dismiss any pleader who takes instructions in any case except from the party on whose behalf he is retained, or from a private servant of such party, or from some person who is the recognized agent of such party within the meaning of the Code of Civil Procedure. It has been brought to the notice of the Government that the practical operation of this provision is in certain cases attended with inconvenience to litigants and pleaders. In litigation in which pardánashín women are concerned, instructions must often, as a matter of necessity, be given through their near relatives. Again, there are cases in which male litigants, who have not the means of employing private servants, are unable from various causes, such as physical incapacity or old age, to instruct their pleaders in person. In such cases it seems right to allow the relatives of the litigants to instruct pleaders on their behalf. Section 3 of the Bill accordingly adds a proviso to section 13 of the Act enabling pleaders to take instructions from a relative of the party deputed by him or her to instruct the pleader when the party is a pardánashín woman or unable for any sufficient cause to instruct the pleader in person.

3. Under the Legal Practitioners Act, 1879, an advocate not ordinarily practising in his own province must, if he wishes to practise in such a province as the Central Provinces, for example, where the Judicial Commissioner has at present no power of enrolling advocates, first enrol himself as a pleader. As this state of the law is felt by certain persons to be a grievance, a new section has been added to the Act, empowering all High Courts not established by Royal Charter to enrol advocates as the Chief Court of the Panjáb is at present empowered to enrol them. As the power of suspension or removal would, except in the case of the Panjáb Chief Court, be vested in a single officer if it were conferred absolutely on the High Court, it has been thought well to make every order by any High Court, other than the Panjáb Chief Court, suspending or removing an advocate subject to confirmation by the Local Government.

4. The new section 42, which section 5 of the Bill adds to the Act, provides for the repeal of Acts I of 1846 and XX of 1853 in all places to which that section may be extended. The Madras High Court has noticed that these Acts have not as yet been expressly repealed in that Presidency, though a great portion of the Legal Practitioners Act, 1879, has been brought into operation there. These Acts are, it is believed, already repealed in all the provinces to which the Legal Practitioners Act, 1879, extends *proprio vigore*; but it is possible that they may be still unrepealed in some of the other provinces to which that Act has either already been or may hereafter be extended under the power conferred by its first section. The new section 42, taken with the first section of the Legal Practitioners Act, will enable the Local Government of any such province to repeal these Acts if still in force in it.

5. Lastly, section 6 of the Bill amends article 27 of schedule I and article 11 of schedule II of the Indian Stamp Act, 1879, by omitting the words which confine their operation to advocates of the chartered High Courts. As section 11 of the Legal Practitioners Act, 1879, empowers the Chief Court of the Panjáb to enrol advocates, and as the Bill will confer similar powers on the other non-chartered High Courts, the words in question are, as represented by the North-Western Provinces High Court, out of place, so far as advocates are concerned, and should therefore be omitted.

C. P. ILBERT.

Orders and Notifications by the Lieut.-Governor of Bengal, the High Court, Government Treasury, &c.

ORDERS BY THE LIEUT.-GOVERNOR OF BENGAL.

No. 2079A.

GENERAL.—*The 29th September* 1883.—Baboo Lalit Kumar Das is appointed temporarily to be a Special Deputy Collector for the purpose of clearing off the file of partition cases pending in the district of Dacca.

The 12th October 1883.—Baboo Kali Nath Bose, Deputy Magistrate and Deputy Collector, Madaripore, Furreedpore, is transferred to Mozufferpore, and is posted to the sudder station of that district.

Baboo Raj Gopal Roy, Deputy Magistrate and Deputy Collector, Lohardugga, is allowed furlough for two years, under section 131, chapter X of the Civil Leave Code, with effect from the 15th January 1884, or such subsequent date as he may avail himself of it.

Moulvie Dilwar Hossein Ahmed, Deputy Magistrate and Deputy Collector, Brahmunberiah, Tipperah, on leave, is transferred to Monghyr, and is appointed to have charge of the Jamui sub-division of that district.

Mr. W. B. Martin, Deputy Magistrate and Deputy Collector, Jamui, Monghyr, is transferred to Furreedpore, and is appointed to have charge of the Goalundo sub-division of that district.

Mr. K. J. Badshah, Officiating Joint Magistrate and Deputy Collector, Goalundo, Furreedpore, is appointed to have charge of the Madaripore sub-division of that district.

The orders of the 14th September last, published in the *Calcutta Gazette* of the 19th idem, granting privilege leave for one month and fourteen days to Mr. E. E. Lewis, Commissioner of the Chittagong Division, and appointing Mr. W. R. Larminie to act for him, are cancelled.

The 13th October 1883.—Baboo Troylokya Nath Sen, Deputy Magistrate and Deputy Collector, in charge of the Deoghur sub-division of the Sonthal Pergunnahs district, is allowed leave for three months, under section 71, chapter V of the Civil Leave Code, with effect from such date as he may be relieved by Mr. S. S. Jones.

Moulvie Golam Lillahi, Temporary Sub-Deputy Collector, Purneah, is allowed leave for one month, under section 71, chapter V of the Civil Leave Code, with effect from the 1st instant.

The 15th October 1883.—Mr. C. R. Marriott, Officiating Joint Magistrate and Deputy Collector, Rungpore, is allowed leave for one month, under section 71, chapter V of the Civil Leave Code, with effect from the 19th instant.

Mr. J. Kelleher, Joint Magistrate and Deputy Collector, is posted to Gya on being relieved of his present appointment as Officiating District and Sessions Judge of that district.

This cancels the order of the 6th instant, appointing Mr. Kelleher to act as District and Sessions Judge of Backergunge.

Moulvie Dilwar Hossein Ahmed, Deputy Magistrate and Deputy Collector, is allowed leave for one month and fifteen days, under section 127, chapter X of the Civil Leave Code, in extension of the leave granted to him under the order of the 11th ultimo.

The 19th October 1883.—Baboo Upendro Chunder Mookerjee, Officiating Deputy Magistrate and Deputy Collector, on leave, is posted temporarily to the sudder station of the district of the 24-Pergunnahs.

This cancels the order of the 24th July last, appointing him to be Personal Assistant to the Commissioner of the Chittagong Division.

The order of the 21st September last, published in the *Calcutta Gazette* of the 26th idem, granting Mr. F. B. Taylor, Officiating Joint Magistrate and Deputy Collector, Darjeeling, privilege leave for one month, is cancelled.

Baboo Nundjee, Officiating Deputy Magistrate and Deputy Collector, on duty as Assistant Superintendent of Ghatwali Survey, Manbhoom, is transferred to the district of Singbhoom, with effect from the 7th July 1883.

The 20th October 1883.—Baboo Bogola Prosanna Mozoomdar, Deputy Magistrate and Deputy Collector, Noakholly, is transferred to the district of Darjeeling, and is posted to Siligoree.

Mr. T. Inglis, Officiating Joint Magistrate and Deputy Collector, in charge of the Raneegunge sub-division of the Burdwan district, is vested with the powers of a Collector under Act X of 1870 in that sub-division.

Baboo Chunder Bhoosun Chuckerbutty, Deputy Magistrate and Deputy Collector, Siligoree, Darjeeling, is transferred to Noakholly, and is posted to the sudder station of that district.

The 22nd October 1883.—Mr. G. Godfrey is appointed to act temporarily in the first grade of Joint Magistrates and Deputy Collectors, in the district of Burdwan, with effect from the 18th instant.

Mr. J. C. Veasey, Joint Magistrate and Deputy Collector, on leave, is appointed to act as Magistrate and Deputy Collector of Howrah, during the absence, on deputation, of Mr. W. H. Grimley, or until further orders.

Mr. F. E. Pargiter, Officiating Joint Magistrate and Deputy Collector and Commissioner of the Sunderbuns, is appointed to act temporarily as Magistrate and Deputy Collector of Howrah, until relieved by Mr. J. C. Veasey.

Baboo Shama Churn Chatterjee, Deputy Magistrate and Deputy Collector, Pubna, is transferred to the Serampore sub-division of the Hooghly district.

Baboo Romesh Chunder Mookerjee, Deputy Magistrate and Deputy Collector, Rungpore, on leave, is transferred to the sudder station of the Pubna district.

The 23rd October 1883.—Mr. J. B. Wood, Officiating Deputy Magistrate and Deputy Collector, Midnapore, is allowed leave for two months, under rule 2, section 136, chapter X of the Civil Leave Code, with effect from the 10th proximo.

Baboo Kedar Nath Banerjee, Sub-Deputy Collector, Midnapore, is allowed leave for three months, under section 71, chapter V of the Civil Leave Code, with effect from the date on which he may be relieved.

Mr. R. M. Towers, District and Sessions Judge, Tipperah, is allowed furlough for one year, under section 49, chapter V of the Civil Leave Code, with effect from the 4th January 1884.

Mr. F. W. J. Rees, District and Sessions Judge, Noakholly, is appointed to act as District and Sessions Judge of Tipperah, during the absence, on furlough, of Mr. R. M. Towers, or until further orders.

Baboo Doorganand Dass, Khas Tehsildar, Chittagong, is allowed leave for three months, under section 71, chapter V of the Civil Leave Code, with effect from such date as he may be relieved.

Baboo Doorga Churn Ghose, Sub-Deputy Collector, Kutubdya, Chittagong, is appointed to act as a Khas Tehsildar in that district, during the absence, on leave, of Baboo Doorganand Dass, or until further orders.

Baboo Hurry Podo Ghose, Temporary Sub-Deputy Collector, employed on land registration work in the district of Chittagong, is transferred temporarily to Kutubdya in that district, during the absence, on deputation, of Baboo Doorga Churn Ghose, or until further orders.

Baboo Tarak Chandra Gangooli is appointed to act as a Sub-Deputy Collector for employment on land registration work in the district of Chittagong, during the absence, on deputation, of Baboo Hurry Podo Ghose, or until further orders.

No. 286.—Mr. W. C. Macpherson, C.S., Assistant Secretary to the Chief Commissioner of Assam, is placed in charge of the current duties of the office of the Inspector of Schools, Assam, in addition to his own duties, during the absence of Mr. J. Willson, M.A., on leave.

F. B. PEACOCK,
Secretary to the Govt. of Bengal.

NOTIFICATION.

The 18th October 1883.—In modification of the notification dated the 14th March 1881, published at page 340, Part I of the *Calcutta Gazette* of the 23rd idem, it is hereby notified that, under section 21, Act III of 1880, the Cantonments Act, the Lieutenant-Governor is pleased, with the previous sanction of His Excellency the Governor-General of India in Council, to sanction the imposition in the Dinapore Cantonment of a tax under section 77 (*b*) of the Bengal Municipal Act, V (B.C.) of 1876, in lieu of the tax at present imposed in the Cantonment under section 327 of the same Act.

COLMAN MACAULAY,
Secretary to the Govt. of Bengal.

[First Publication.]

NOTIFICATION.

The 22nd October 1883.—In the exercise of the power conferred on him by section 38 of Act IV (B.C.) of 1871 (the Pilgrim Lodging House Act), as amended by Act II (B.C.) of 1879, the Lieutenant-Governor approves and confirms the following additional bye-laws which have been framed for the town of Uluberiah, in the district of Howrah, with the assent of the health officer appointed under the Act.

24. No person shall perform any office of nature amounting to a nuisance on or near any public thoroughfare.

Penalty for infringement, a fine not exceeding Rs. 5.

25. No place within a distance of 200 yards from the boundary of the town shall be used for any offensive or dangerous trade, viz. for any of the following purposes:—

(*a*)—Skinning or disembowelling animals.

(*b*)—As a tannery or slaughter-house.

(*c*)—As a manufactory or place of business from which any offensive or unwholesome smell may arise.

(*d*)—As a shop for the sale of meat, except in the place provided for the purpose by the Committee.

Penalty for infringement, a fine not exceeding Rs. 20, and a further fine not exceeding Rs. 3 for each day during which the offence is continued after notice from the Magistrate of the bye-law having been infringed.

COLMAN MACAULAY,
Secretary to the Govt. of Bengal.

NOTIFICATION.

The 22nd October 1883.—Whereas a notification was published at page 652, Part I of the *Calcutta Gazette* of the 1st August last, declaring the Lieutenant-Governor's intention to revise the western boundaries of the Hooghly and Chinsurah Municipality on the recommendation of the Municipal Commissioners, and whereas no objections have been raised to the proposal, it is hereby notified for general information that, in the exercise of the powers conferred on him by section 10, Act V (B. C.) of 1876, the Lieutenant-Governor approves the revised boundaries as specified below:—

On the west by the Grand Trunk Road, from Taldongah entrance and boundary-stone pillar No. 42, as far as the Hooghly railway station feeder road: thence along the feeder road, including the road and 25 yards on each side of the road, to the railway station, as far as the water pump on the south; thence along the western fencing of the railroad northwards to the godown; then turning to the east of the coal depôts along the eastern bank of the tank and the north border of the feeder road to the Grand Trunk Road; thence to Naldongah road up to the bridge over Ross Poora or Bali Khal, by the Ross Poora or Bali Khal through the masonry bridge on the Kajeedangah metalled road, as far as it goes to the north (*i.e.*, to where it turns off sharp to the east); thence due north by the old water-course to Bana Pukoor and the bridge close to that tank on the Balagur Road; thence by the edge of the low paddy lands to the east of the East Indian Railway, as far as the two arched bridges at the junction of the Burtollah and Grand Trunk Roads.

This order will have effect from the 1st January 1884.

COLMAN MACAULAY,
Secretary to the Govt. of Bengal.

NOTIFICATION.

The 22nd October 1883.—Whereas a notification was published in the *Calcutta Gazette* of the 15th August 1883, notifying the intention of the Lieutenant-Governor to declare that the villages of Belhunwa and Gopalpur, lying within the boundaries specified in the margin, and the Motihari lake which separates these villages from the town of Motihari, shall be united with the town for the purpose of forming part of the Motihari Municipality, and whereas no objection has been raised to the proposed measure, it is hereby notified for general information that, in the exercise of the powers conferred upon him by section 13, Act V (B. C.) of 1876, and in accordance with the recommendation of the Municipal Commissioners made at a meeting, the Lieutenant-Governor directs that the villages and the lake mentioned above shall be deemed to form part of the Motihari Municipality, with effect from the 1st October 1883.

North.—Motihari lake
South.—The old road to Gobindgunge from Koorwa bridge joining the Toorcowliah road.
East.—The road leading to Kesseriah.
West.—The Gobindgunge road, which runs round and to the west of the new jail.

The modified boundaries of the entire municipality shall be as specified below:—

North.—Chakkar road, which joins the Adapur road.
West.—Adapur road, village road to Banjariah Tola and Toorcowliah road, passing round and to the west of the new jail leading to Gobindgunge.
South.—Old road to Gobindgunge from Koorwa bridge, joining the Toorcowliah road.
East.—The village Patowra, the lake, and the road leading to Kesseriah.

COLMAN MACAULAY,
Secretary to the Govt. of Bengal.

NOTIFICATION.

The 23rd October 1883.—Whereas a notification was published in the *Calcutta Gazette* of the 1st August 1883, declaring the Lieutenant-Governor's intention to extend the provisions of sections 285 to 294 of the Bengal Municipal Act, V (B.C.) of 1876, to the Hazaribagh Municipality, and whereas no objection has been raised to the proposed measure, it is hereby notified for general information that, in the exercise of the powers conferred upon him by section 234 of the Act, and on the recommendation of the Municipal Commissioners made at a meeting, the Lieutenant-Governor sanctions the extension of the provisions of the above sections to the Hazaribagh Municipality with effect from the 1st January 1884.

COLMAN MACAULAY,
Secretary to the Govt. of Bengal.

NOTIFICATION.

The 23rd October 1883.—It is hereby notified that, under section 140 of Act V (B.C.) of 1876, the Lieutenant-Governor intends, on the recommendation of the Commissioners of the Kotechandpore Municipality, in the district of Jessore, to declare the Kotechandpore ferry to be a municipal ferry, unless valid reasons to the contrary be shown within one month from the date of the publication of this notice within the municipality.

Beacons on Shoal off Torrens Island.

THE President, Marine Department, Port Adelaide, has given notice that *two* new *beacons* with *triangular heads* have been erected on the shoal running off the S. W. end of Torrens Island, for the purpose of guiding ships of heavy draught through the deep water portion of the channel between the False and North Arms.

When bound outwards, and having passed the Northern buoys of the new cutting, gradually bring the beacons into line, and steer for them until approaching No. 3 Light Beacon, when a course can be made for the entrance of the cutting off the Magazine.

When inward bound, and between the Powder buoy and the entrance to the North Arm, get the beacons into line, and keep them so until the False Arm begins to open out, when a course can then be steered to enter the new cutting.

PORT OFFICE, *Calcutta, the 20th October* 1883

[Third Publication.]

NOTIFICATION.

The 28th September 1883.—The following contract for the conveyance of pilgrims from the quarantine station of Camaran to Jedda is published for general information :—

Agreement between the sanitary authorities of the Turkish Government represented by HIS EXCELLENCY ARIF BEY, *Vice-President, on the one side, and the* HON'BLE TERMAN BEY, *Director of the Steam Service of the Khedive* (*duly authorized*), *on the other side.*

It is agreed upon as follows in connection with the pilgrimage of 1883 :—

1stly.—The Director of the Steam Service, on behalf of the Khedive, undertakes to transport all pilgrims from the island of Camaran to the port of Jedda who have fulfilled all the existing quarantine and sanitary conditions, with the exception of those pilgrims who are engaged to proceed to Jedda in the same steamer in which they arrive at the island of Camaran. It is to be distinctly understood that no other vessels can convey the pilgrims from the island of Camaran to Jedda, excepting those which have pilgrims on board when they enter the port of the Island, who have already arranged to proceed to Jedda.

2ndly.—This service at the beginning will be effected by means of only one of the Khedive's mail steamers, which will be able to carry at least 1,000 pilgrims. If hereafter it is found that one steamer is not sufficient, another of the same service will be assigned for this purpose, so as not to delay the transport of the pilgrims who have fulfilled the above conditions.

3rdly.—The service will begin from the date of the establishment of the quarantine encampment at Camaran, and telegraphic notice will be given to the Khedive. It will cease ten days previous to the feast at Bairam.

4thly.—The Government will collect from each pilgrim, before his departure from the island of Camaran to the port of Jedda, the sum of £1 sterling and a quarter as passage money. Should a pilgrim refuse to pay this sum, which has been fixed in consultation with the Sanitary Board at Constantinople, the Government will have the right to refuse the passage. The poor pilgrims who are exempted from the sanitary taxes, and who receive during the quarantine a gratuitous ration, will be recognised as such by the Khedive Government on presenting a certificate from Dr. Duca, Chief Officer of the Sanitary Service, and their passage from Camaran to Jedda on the Khedive mail will be granted free.

5thly.—Pilgrims who wish for more comfortable accommodation of first and second class should settle the price of their respective passages with the representative of the Khedive at Camaran.

6thly.—The Government of Khedive will have the exclusive privilege to transport pilgrims from the island of Camaran to Jedda. Competition will be formally excluded by the sanitary authority of the island of Camaran, exception being made in favour of the vessels referred to in clause 1 of the agreement, and of those also engaged for the transport of pilgrims brought by them to Camaran, and who will have waited for the pilgrims who have fulfilled their quarantine.

7thly.—The vessels of this special service, as well as all the pilgrims on board such vessels (unless cholera breaks out during the voyage), will have free access to Jedda and all the other Ottoman ports of the Red Sea.

In case of cholera breaking out during the voyage between Camaran and Jedda, ships and pilgrims will have to return to Camaran to undergo quarantine according to the rules in force.

Constantinople, the twenty-fifth of June eighteen hundred and eighty-three (25th June 1883), under the authority of the Director-General of the Steam Service of the Khedive.

A. P. MACDONNELL,
Offg. Secy. to the Govt. of Bengal.

[Fourth Publication.]

NOTIFICATION.

The 1st October 1883.—It is hereby notified that the Lieutenant-Governor intends, after one month from this date, to approve the following additional port rules under section 7 (*f*) of Act XII of 1875 for the control of fishing-boats in the river Hooghly.

Proposed rules.

1. From the lower boundary of the port to Fultah Reach on the river Hooghly a deep navigable channel, not less than 200 yards in width, shall always be left clear for the passage of sea-going vessels, and between the hours from daylight to dark no fisherman shall obstruct the same by mooring or casting a stake net therein. At Sankrail, Peer Sarang, and below Budge-Budge, where the deep water channel lies close to the shore, landmarks have been erected to define the channel to be left clear, and no fishing boats shall be moored nor nets of any description cast between the line indicated by these marks and the shore.

2. Between the hours from daylight to dark no stake net nor drift net shall be cast by fishermen in any part of Garden Reach within port limits.

A. P. MACDONNELL,
Offg. Secretary to the Govt. of Bengal.

DECLARATION.

The 13th October 1883.—Whereas it appears to the Lieutenant-Governor of Bengal that land is required to be taken up by Government at the expense of the Bhadessur Municipality for a public purpose, viz. for widening the Hausgoria road, in the villages of Bhadessur and Paranbati, pergunnahs Boro and Arsa, zillah Hooghly, it is hereby declared that for the above purpose a piece of land measuring, more or less, 5 cottahs 15 chittacks of standard measurement, is required. The land is bounded on the north by a tank called Hausgoria, and the houses of Womacharan Sur and Raj Krishna Niyogi; on the east by a footpath belonging to the East India Railway Company; on the south by lands of Raj Krishna Niyogi, Audhor Niyogi, Prasanno Kumar Sarkar, Protap Chandra Sarkar, Amrito Lall Sarkar, Shyama and Bama Charun Bhattacharji; and on the west by the Grand Trunk Road.

This declaration is made, under the provisions of section 6 of Act X of 1870, to all whom it may concern.

COLMAN MACAULAY,
Secretary to the Govt. of Bengal.

DECLARATION.

The 20th October 1883.—Whereas it appears to the Lieutenant-Governor of Bengal that land is required to be taken by Government at the expense of the Calcutta Municipality for a public purpose, viz. for a new road connecting Bow Bazar Street with Champatollah 2nd Lane, it is hereby declared that for the above purpose pieces of land Nos 172, 173, and 181, Bow Bazar Street, No 53, Choonapukur Lane, and Nos. 18 and 19, Champatollah 2nd Lane, measuring, more or less, 6 cottahs 13 chittacks and 22·5 square feet, are required.

The lands are bounded as follow :—

Portion marked A on plan.—On the north by No. 53, Choonapukur Lane; on the south partly by a passage and partly by Bow Bazar Street; on the east partly by No. 53, Choonapukur Lane, partly by Nos. 172 and 173, Bow Bazar Street, and partly by a passage; and on the west partly by a public filled-up ditch and partly by Nos. 181, 173, and 174, Bow Bazar Street.

Portion marked B on plan.—On the north by Champatollah 2nd Lane, on the south by Nos. 18 and 19, Champatollah 2nd Lane; on the east by public filled-up ditch; and the west by Nos 18 and 19, Champatollah 2nd Lane.

Plan and specifications of the lands are filed in the office of the Commissioners of the Town of Calcutta for public inspection.

This declaration is made, under the provisions of section 6 of Act X of 1870, to all whom it may concern.

COLMAN MACAULAY,
Secretary to the Govt. of Bengal.

DECLARATION.

The 20th October 1883.—Whereas it appears to the Lieutenant-Governor of Bengal that land is required to be taken by Government at the expense of the Calcutta Municipality for a public purpose, viz for a new road connecting Mirzapur Tank Lane with Amherst Street, and Raj Chunder Sen's Lane with Okhil Mistry's Lane, is is hereby declared that for the above purpose pieces of land Nos. 4, Amherst Street, 37, Okhil Mistry's Lane, and 19, Raj Chunder Sen's Lane, measuring, more or less, 10 cottahs and 6 chittacks only, are required.

The lands are bounded as follow :—

Portion marked A on plan —On the north partly by No. 4, Amherst Street and partly by No 37, Okhil Mistry's Lane; on the south partly by No. 4, Amherst Street and partly by No. 37, Okhil Mistry's Lane; on the east by Mirzapur Tank Lane; and on the west by Amherst Street.

Portion marked B on plan.—On the north by Okhil Mistry's Lane; on the south partly by No 37, Okhil Mistry's Lane, and partly by Raj Chunder Sen's Lane; on the east partly by Nos 37 and 38, Okhil Mistry's Lane, and partly by No 18, Raj Chunder Sen's Lane; and on the west partly by a public drain, partly by No. 37, Okhil Mistry's Lane, and partly by No 19, Raj Chunder Sen's Lane.

Plan and specifications of the lands are filed in the office of the Commissioners of the Town of Calcutta for public inspection.

This declaration is made, under the provisions of section 6 of Act X of 1870, to all whom it may concern.

COLMAN MACAULAY,
Secretary to the Govt. of Bengal.

DECLARATION.

The 20th October 1883.—Whereas it appears to the Lieutenant-Governor of Bengal that land is required to be taken by Government at the expense of the Calcutta Municipality for a public purpose, viz. for a new road connecting Panchoo Khansama's Lane with Hyat Khan's Lane, it is hereby declared that for the above purpose pieces of land No. 4, Hyat Khan's Lane, and No. 15, Panchoo Khansama's Lane, measuring, more or less, 3 cattahs 2 chittacks and 22 5 square feet, are required.

The lands are bounded as follow :—On the north partly by a passage and partly by No. 4, Hyat Khan's Lane; on the south partly by a public drain and partly by Panchoo Khansama's Lane; on the east partly by No. 6, Hyat Khan's Lane, and partly by a public drain; and on the west partly by No. 4, Hyat Khan's Lane, and partly by No. 15, Panchoo Khansama's Lane.

Plan and specifications of the lands are filed in the office of the Commissioners of the Town of Calcutta for public inspection.

This declaration is made, under the provisions of section 6 of Act X of 1870, to all whom it may concern.

COLMAN MACAULAY,
Secretary to the Govt. of Bengal.

DECLARATION.

The 20th October 1883.—Whereas it appears to the Lieutenant-Governor of Bengal that land is required to be taken by Government at the expense of the Calcutta Municipality for a public purpose, viz. for a new road connecting Radha Bazar Lane with Lower Chitpore Road, it is hereby declared that for the above purpose a piece of land No. 181, Lower Chitpore Road, measuring, more or less. 1 cottah 12 chittacks and 24 square feet, is required.

The land is bounded as follows :—On the north and south by premises, No. 181, Lower Chitpore Road; on the east by a passage; and on the west by Radha Bazar Lane.

Plan and specification of the land are filed in the office of the Commissioners of the Town of Calcutta for public inspection.

This declaration is made, under the provisions of section 6 of Act X of 1870, to all whom it may concern.

COLMAN MACAULAY,
Secretary to the Govt. of Bengal.

DECLARATION.

The 20th October 1883.—Whereas it appears to the Lieutenant-Governor of Bengal that land is required to be taken by Government at the expense of the Calcutta Municipality for a public purpose, viz for a new road connecting St. James' Square with Serpentine Lane, it is hereby declared that for the above purpose a piece of land, No. 106, Serpentine Lane, measuring, more or less, 6 cottahs and 8 chittacks, is required.

The land is bounded as follows:—On the north and south by No. 106, Serpentine Lane; on the east by Serpentine Lane; and on the west by St. James' Square South Road

Plan and specification of the land are filed in the office of the Commissioners of the Town of Calcutta for public inspection.

This declaration is made, under the provisions of section 6 of Act X of 1870 to all whom it may concern.

COLMAN MACAULAY,
Secretary to the Govt. of Bengal.

DECLARATION.

The 20th October 1883.—Whereas it appears to the Lieutenant-Governor of Bengal that land is required to be taken by Government at the expense of the Calcutta Municipality for a public purpose, viz. for a new road connecting Mirzapur Street with Chooterparah Lane, it is hereby declared that for the above purpose pieces of land, Nos. 27 and 28, Mirzapur Street, Nos. 27, 28, and 29, Ram Kanto Mistry's Lane, and No. 32, Chooterparah Lane, measuring, more or less, 3 cottahs 7 chittacks and 32·5 square feet, are required.

The lands are bounded as follow:—

Portion marked A on plan.—On the north by Mirzapur Street; on the south by No. 29, Ram Kanto Mistry's Lane; on the east by a public drain; and on the west by No. 27, Mirzapur Street, and No. 29, Ram Kanto Mistry's Lane.

Portion marked B on plan—On the north by Mirzapur Street; on the south by a passage; on the east partly by No. 28, Mirzapur Street, and partly by No. 32, Chooterparah Lane; and on the west by a public drain.

Portion marked C on plan—On the north by No 28, Ram Kanto Mistry's Lane; on the south by No. 27, Ram Kanto Mistry's Lane; on the east by a public drain; and on the west by Nos. 27 and 28, Ram Kanto Mistry's Lane.

Plan and specifications of the lands are filed in the office of the Commissioners for the Town of Calcutta for public inspection.

This declaration is made, under the provisions of section 6 of Act X of 1870, to all whom it may concern.

COLMAN MACAULAY,
Secretary to the Govt. of Bengal.

C. E. BUCKLAND, *Offg. Secretary.*

BOARD OF REVENUE, L.P., FORT WILLIAM, *the 25th September* 1883.

No. 1135½B.

THE following rules have been made under section 9 of Act VIII of 1878 by the Board of Revenue, Lower Provinces, with the sanction of the Local Government, and are, under section 204 of the same Act, notified for general information:—

CALCUTTA INTERNATIONAL EXHIBITION, 1883-84.

CUSTOM HOUSE ARRANGEMENTS.

1. All entries of goods for the Exhibition must be passed at the Custom House in accordance with the arrangements made by the Collector of Customs.

2. In respect of dutiable goods the Exhibition building is appointed a public warehouse under the provisions of section 15 of Act VIII of 1878, of which Mr. Jules Joubert shall be deemed to be the keeper for the purposes of section 96 of that Act.

3. Packages containing dutiable goods, upon which duty has not been paid, must be entered for bond and appraised and taken in charge of an officer to the Exhibition building in the usual manner. Pending appraisement and removal to the Exhibition building, all such packages will be allowed to remain rent-free in a portion of the Custom House premises set apart for the purpose.

4. At the close of the Exhibition, exhibitors will have to account to the Custom House authorities for all dutiable goods admitted into the Exhibition in accordance with the bond bill of entry. Goods intended for delivery in Calcutta on sale or otherwise will on payment of duty be cleared from bond, and goods intended for re-exportation will be re-shipped from bond in the usual manner.

5. The charges mentioned in the schedule attached to these rules are remitted in respect of goods intended for the Exhibition.

6. No duty will be payable for wines, spirits, or other liquors consumed in the Exhibition for tasting or judging purposes, and a certificate of the amount thus consumed must be obtained from the Secretary to the Executive Committee of the Exhibition and presented by exhibitors to the Custom House officer when accounting for the dutiable goods admitted into the Exhibition. Without such certificate duty will be assessed on all dutiable goods shown by the bills of entry as having been admitted into the Exhibition and which are not forthcoming at its close.

7. The Custom House officers will not have custody of, or be in any way responsible for, goods in the Exhibition building, the custody of which as a public warehouse will rest with Mr. Jules Joubert.

8. These rules apply only to goods intended *bond fide* for Exhibition.

SCHEDULE.

		Rs.	A.	P.

CUSTOMS.
H. A. Cockerell, Esq., C.S.I.

THE following Rules for the Port of Calcutta have been made under section 9 of Act VIII of 1878 by the Board of Revenue, Lower Provinces, with the sanction of the Local Government, and are, under section 204 of the same Act, notified for general information :—

RULES.

1. When it is intended to transfer to a foreign bound vessel rice imported from a customs port, such rice may be kept afloat in cargo boats covered by boat-notes from the importing vessel at such place or places as may be indicated by the Customs authorities.

2. When a shipping bill for such rice has been obtained, the bags at the hatches will be marked to correspond with the shipping bill, and the boat conveyed under an export boat-note to the exporting vessel, where the remaining bags, if not previously so marked, will be marked to correspond with the shipping bill as they are put on board.

3. All such rice must be either re-shipped or landed within seven days from the date of the boat-note granted from the importing vessel.

NOTIFICATIONS.

Simla, the 19th October 1883.

No. 3887.—In exercise of the powers conferred by section 8 of the Indian Stamp Act, 1879, the Governor-General in Council has reduced to annas eight the stamp duty payable under Article 50 (*b*), Schedule I, appended to the said Act on a Power-of-Attorney required in suits or proceedings under the Presidency Small Cause Courts Act, 1882.

The following addendum to the Codes of the Financial Department is published for general information:—

No. 3897.

P. & A. A. C.

PAGE 260.

Section 5.

Insert the following as Note (2) under this Section:—

NOTE (2).—This Section does not apply in the case of appointments made under Section 34 in consequence of the absence of an officer on privilege leave: the allowances authorized in that Section are admissible for the first 30 days of an officer's absence on privilege leave to any officer acting in two or more offices at one time in consequence of the leave. It applies, however, to cases coming under Section 36.

D. M. BARBOUR,
Secretary to the Govt. of India.

The following orders, issued by the Government of India in the Military Department, are republished for general information.

F. B. PEACOCK,
Secretary to the Govt. of Bengal.

Simla, the 19th October 1883.

PART II.

Advertisements.

[N.B.—Advertisements, Notices, &c., intended for insertion in this part of the Gazette, cannot be received after Noon on Monday.]

LAND SALE NOTICES.

NOTICE is hereby given that the proprietary right of Government, as specified in the conditions of sale below, to the undermentioned land situate in the district of Hazaribagh will be put up to sale at the Hazaribagh Collectorate on Thursday, 15th November 1883, corresponding with 1st Aghan 1291 Fush.

The purchaser will be subject to the following conditions of sale :—

Conditions of Sale.

1*st*.—The land to be sold revenue-free to the highest bidder above the upset price. The purchaser of this land will be considered as the proprietor of the land, and the entire proprietary right of Government in such land will be transferred to him.

2*nd*.—If the amount of purchase-money do not exceed Rs. 100, the whole amount to be paid down at once.

3*rd*.—If the amount of purchase-money exceed Rs. 100, one-fourth of the amount bid to be immediately deposited. If the balance be not paid by noon of the fifteenth day after the sale, reckoning the day of sale as one, or if that day be a close holiday, then by noon of the first succeeding office day, the sale to be cancelled (the sum deposited being forfeited to Government), and the land to be again put up to sale at the risk of the defaulting purchaser, after issue of advertisement, as in the case of original sale.

R. H. WILSON, Collector.

Notification.

IT is hereby notified for information of the public that a duplicate receipt for an amount exceeding Rs. 20 is liable to a stamp duty of one anna under Article 23 (*a*). Schedule I of Act I of 1879, and should, under section 16 of the Act, be stamped before or at the time of execution. If the duty payable on the duplicate receipt is denoted by an adhesive stamp, such stamp should be cancelled *so that it cannot be used again*. Any person signing a duplicate receipt when the amount exceeds Rs 20 without the same being duly stamped, is liable to be criminally prosecuted under section 61, Act I of 1879, and punished with a fine which may extend to Rs. 500; and any person neglecting or omitting *to effectually cancel the adhesive stamp* and in payment of stamp duty renders himself liable to a fine which may extend to Rs. 100.

The attention of banking, mercantile, and trading community is especially drawn to the requirements of the law on this point

G. M. GOODRICKE, Collector of Calcutta.

PAPER CURRENCY DEPARTMENT, the 23rd Oct. 1883.

East India Tea Company, "Limited."

NOTICE is hereby given that the Forty-second Half-yearly Ordinary General Meeting of Shareholders of the above Company will be held at the registered office, No. 4, Mango Lane, Calcutta, on Monday, the 29th current, at 12 o'clock noon, for the purpose of receiving the Directors' report, passing the accounts for the half-year ended 30th June last, and transacting such other business as may be brought before the meeting.

By order of the Board,
WILLIAMSON, MAGOR & Co., Secretaries.

Calcutta, 16th October 1883. (1636—2)

Sonai Tea Company, "Limited."

NOTICE.

AN Extraordinary General Meeting of Shareholders of the Sonai Tea Company, Limited, will be held at the registered office of the Company, No. 12, Mission Row, Calcutta, on Friday, the 26th day of October 1883, at 12 o'clock, to confirm the following resolution passed at the Extraordinary General Meeting of Shareholders, held this day the 2nd day of October 1883.

That the Company be wound-up voluntarily and that Mr. W. A Browne be and he is hereby appointed liquidator (at such remuneration as the Company may fix) for the purposes of such winding-up, with power to do such of the several acts and things specified in the Indian Company's Act, 1882 (and especially sections 114 and 177 of such Act), as shall be found necessary or proper for winding-up the affairs of the Company and distributing its assets.

BEGG, DUNLOP & Co., Managing Agents.

Calcutta, 2nd October 1883. (1624—4)

India General Steam Navigation Company, "Limited."

AN Extraordinary General Meeting of Shareholders of the above Company will be held at the registered office of the Company, No. 4, Fairlie Place, Calcutta, on Monday, the 5th day of November 1883, at noon, to confirm the following resolutions passed at the Extraordinary General Meeting of Shareholders, held this day, the 19th day of October 1883.

"1*st* (*a*). That the shares in the Capital of the Company be consolidated and sub-divided in such manner that the paid-up capital shall henceforth be divided into shares of Rs. 100 each. Every member holding a fractional share or shares which cannot be brought into such consolidation and sub-division shall continue to have the rights he now has as regards such fractional share or shares.

"(*b*). That the existing certificates of shares be called in by the Directors and cancelled, and that new certificates be issued.

"2*nd*. That the 50th Article of Association be rescinded, and that the following article be substituted, namely:—

"Article 50.—Every member shall have one vote for each share held by him, but no member shall be entitled to vote unless he shall hold five shares at the least. Fractional shares, aggregating Rs. 100 or upwards, shall entitle the holder to one vote for each aggregate of Rs. 100."

Dated this 19th day of October 1883.

By order of the Directors,

(1638—2) J. GILLMAN, Offg. Secretary.

Notes on Forestry,

BY C. F. AMERY,

Deputy Conservator, Forests, N.-W. Provinces.

THIS little work, published with the approval of the Government of India, treats of the general principles of forest management in all its branches, and is recommended not only to forest officers, but to all who are interested in the progress of forest management in this country.

May be obtained of Messrs. King, King & Co., Bombay, and of Messrs. Wyman & Co., Calcutta. Price Rs. 3-8, or including postage, Rs. 4. Or of the publishers, Messrs. Trubner & Co., Ludgate Hill, London. Price five shillings.

Notice.

THE following Reports of the Bengal Meteorological Department, issued by orders by the Government of Bengal, can be supplied to the public at the prices annexed:—

1*st*.—Bay of Bengal Daily Report giving observations taken at 17 stations on or near the coast of the Bay, with a chart and summary This is published in connection with the Calcutta Storm Signal Service. The report giving 10 A.M. observations of the day is distributed by noon in Calcutta after 4 P.M. Price to subscribers in Calcutta, Rs. 2 per mensem.

2*nd*.—Bengal Daily Report containing observations taken at 30 meteorological stations, and transmitted to Calcutta by weather telegrams, with a brief summary of the weather in Bengal during the preceding 24 hours. The report giving the 10 A.M. observations of each day is printed in time for the evening mail. This report for the present will only be published during the south-west monsoon, *i.e.* from May, 15th, to November, 15th. Price Rs. 2-8 per mensem, including postage.

3*rd*.—A Weekly and Monthly Statement of Meteorological Observations taken at 38 observing stations, and of rainfall recorded at 160 sub-divisional stations, together with summaries of the more important features of the meteorology of the past week or month of the province, and of the distribution of the rainfall and its variation from the normal. Price of the Weekly Report, including postage, Rs. 6 per annum, payable in advance, and of the Monthly Summary Report, Rs. 2 per annum, payable in advance.

Subscriptions payable to the Meteorological Reporter to the Government of Bengal for the Bay of Bengal Daily Report, and to the Accountant and Treasuror, Bengal Secretariat, for the other reports.

JOHN ELIOT,
Meteorological Reporter to the Govt. of Bengal.

Meteorological Office, Bengal, the 3rd July 1883.

The Indian Law Reports.

Published under Authority of the Governor-General in Council.

THE Reports appear in monthly parts, published as soon as possible after the first of each month at Calcutta, Madras, Bombay, and Allahabad, and will comprise four series,—one for the Calcutta High Court, a second for the Madras High Court, a third for the Bombay High Court, and a fourth for the Allahabad High Court. The cases heard by the Privy Council on appeal from each High Court will be reported in the Series for that High Court. Cases heard by the Privy Council on appeal from Provinces in India not subject to any High Court will be reported in the Calcutta Series.

The Parts of each series can be had separately, or all four Parts can be had stitched into one wrapper at the option of subscribers and purchasers. It will be observed from the following statement of the terms of subscription and sale, that a considerable reduction is allowed to persons taking the complete set.

Terms of subscription, payable annually in advance.

	Without postage.	With postage
For the Calcutta Series...	Rs. 35	Rs. 40
„ Madras Series ...	„ 8	„ 9
„ Bombay Series...	„ 8	„ 9
„ Allahabad Series	„ 8	„ 9
Complete set	45	„ 50

The Price of each part purchased separately will vary according to the amount of matter it contains, and will be printed on the wrapper. It will, however, never be below the following:—

	Rs.	A.
For a part of the Calcutta Series ...	3	8
„ „ Madras Series ...	1	0
„ „ Bombay Series ...	1	0
„ „ Allahabad Series ...	1	0
Complete set	4	0

Persons desiring to subscribe for or purchase the Reports, should apply to—

Messrs. Thacker, Spink and Co., Calcutta;
„ Thacker, Vining and Co.;
„ Higginbotham and Co, Madras;
The Government Central Book Depôt, Bombay;
The Government Book Depôt, Allahabad.

PART V.

Acts of the Governor General's Council assented to by the Governor General.

GOVERNMENT OF INDIA.

LEGISLATIVE DEPARTMENT.

[Second publication.]

The following Act of the Governor General of India in Council received the assent of His Excellency the Governor General on the 4th October, 1883, and is hereby promulgated for general information :—

ACT No. XVI OF 1883.

An Act for the protection of Inventions exhibited in the Exhibitions of India.

WHEREAS it is expedient that such protection as is hereinafter mentioned should be afforded to the inventors of new manufactures who are desirous of exhibiting them at Exhibitions to be held in India; It is hereby enacted as follows :—

Short title. Commencement.

1. *(1)* This Act may be called the Protection of Inventions Act, 1883;

(2) And it shall come into force at once.

Act to be read with Act XV of 1859.

2. It shall be read with, and taken as part of, Act XV of 1859 (*for granting exclusive privileges to inventors*).

Inventions exhibited when to be deemed new though publicly used or made publicly known.

3. If, within six months from the time of the opening of an Exhibition, a person, being the inventor and exhibitor of any manufacture exhibited at that Exhibition, petitions the Governor General in Council, under Act XV of 1859, for leave to file a specification of his invention, the circumstance that the invention has at any time after the opening of the Exhibition been publicly used or made publicly known shall not prevent the invention being deemed to have been at the time of presenting the petition a new invention for the purposes of the said Act.

Meaning of term "Exhibition."

4. In this Act, "Exhibition" means the International Exhibition to be held in the years one thousand eight hundred and eighty-three and one thousand eight hundred and eighty-four at Calcutta, and any Exhibition to be held in India which the Governor General in Council may, on the application of any persons desirous of holding the Exhibition, by notification in the *Gazette of India*, declare to be, in the judgment of the Governor General in Council, calculated to promote Indian art or industry, and to prove beneficial to the mercantile, agricultural or industrial classes of Her Majesty's subjects in India.

D. FITZPATRICK,

Secretary to the Government of India.

GOVERNMENT OF INDIA.

LEGISLATIVE DEPARTMENT.

[Second publication.]

The following Act of the Governor General of India in Council received the assent of His Excellency the Governor General on the 4th October, 1883, and is hereby promulgated for general information:—

ACT No. XVII OF 1883.

An Act to amend the Native Passenger Ships Act, 1876.

VII of 1876.

WHEREAS it is expedient to amend the Native Passenger Ships Act, 1876, with a view to provide for the better regulation of the passenger-traffic between British India and ports in the Red Sea; It is hereby enacted as follows:—

Short title. Commencement.

1. *(1)* This Act may be called the Native Passenger Ships Act, 1883; and

(2) It shall come into force on such day as the Governor General in Council directs by notification in the *Gazette of India*.

VIII of 1876.

Addition to section 11 of the Native Passenger Ships Act, 1876.

2. After clause (*e*) of section eleven of the Native Passenger Ships Act, 1876, the following clause shall be added:—

"(*ee*) in the case of any ship sailing to any port in the Red Sea, that she is propelled principally by steam, and, if she is carrying more than one hundred passengers being Natives of Asia or Africa, that she has on board a medical officer licensed in accordance with rules made under this Act."

Substitution of new section for section 26 of same Act.

3. For section twenty-six of the same Act the following section shall be substituted:—

Bond where ship clears for port in Red Sea.

"26. In the case of every ship sailing from any port in British India to any port in the Red Sea, the officer whose duty it is to grant a port clearance for any such ship shall not grant the clearance unless and until the owner, agent or master of the ship and two sureties resident in British India have executed in favour of the Secretary of State for India in Council a joint and several bond, for the sum of Rs. 5,000, conditioned—

"(*a*) that the ship shall touch at Aden on the outward voyage and there obtain a clean bill of health, and shall do the same on the homeward voyage if the ship continues to carry more than sixty passengers; and

"(*b*) that the master and medical officer (if any) of the ship shall comply with on the outward voyage, and also on the homeward voyage if the ship continues to carry more than sixty passengers, the provisions of this Act and of such rules relating to ships sailing between ports in British India and ports in the Red Sea as the Governor General in Council may, from time to time, make under section forty-six."

Amendment of section 27 of same Act.

4. In section twenty-seven of the same Act, for the word "thirty" the word "sixty" shall be substituted.

Addition to section 28 of same Act.

5. To section twenty-eight of the same Act the following words shall be added:—"and the authority empowered to grant the same may refuse to grant a bill of health in the case of any ship on board of which the requirements of the rules made under section forty-six are not complied with."

Addition of new sections after section 28 of same Act.

6. After section twenty-eight of the same Act the following sections shall be added:—

Certain ships to carry medical officer.

"28A. Every ship sailing from or to any port in British India to or from any port in the Red Sea and carrying more than one hundred passengers being Natives of Asia or Africa shall have on board a medical officer licensed in accordance with rules made under this Act.

Certain ships to be propelled by steam.

"28B. Every ship sailing from or to any port in British India to or from any port in the Red Sea shall be propelled principally by steam.

Power for Local Government to direct medical inspection of passengers.

"28C. *(1)* The Local Government may, from time to time, direct that no passenger shall be received on board any ship or any ship of a specified class sailing from any port in British India to any port in

the Red Sea unless and until he has been inspected, at such time and place as the Local Government may fix in this behalf, by a medical officer to be appointed by the Local Government in this behalf.

"(2) If, in the opinion of the officer making an inspection under this section, a passenger is suffering from any dangerously infectious or contagious disease, the passenger shall not be permitted to embark."

Addition of new sections after section 38 of same Act.

7. After section thirty-eight of the same Act the following sections shall be added:—

"38A. If the master of any such ship as is referred to in section twenty-seven, or any medical officer in charge of any such ship, wilfully breaks, or omits or neglects to obey, any rule with regard to those ships made under section forty-six, he shall be punished with fine which may extend to five hundred rupees, or with imprisonment for a term which may extend to three months, or with both.

Penalty on master or medical officer of certain ships disobeying rules.

"38B. If any ship sailing from or to any port in British India to or from any port in the Red Sea and carrying more than one hundred passengers has not on board a medical officer as required by section 28A, the master of the ship shall be punished with fine which may extend to five hundred rupees, or with imprisonment for a term which may extend to three months, or with both.

Penalty on master of certain ships sailing without medical officer.

"38C. If any ship sailing from or to any port in British India to or from any port in the Red Sea is not principally propelled by steam, the owner and master shall each be punished with fine which may extend to five hundred rupees, or with imprisonment which may extend to three months, or with both.

Penalty on owner and master of certain ships not propelled by steam.

"38D. If the master of any ship, while a direction under section 28C is in force, knowingly receives on board his ship any person in contravention of that section or of the direction, he shall be punished with imprisonment which may extend to three months, or with fine which may extend to five hundred rupees for each person so received, or with both."

Penalty on master receiving passenger in contravention of section 28C.

8. After clause (*b*) of section forty-six of the same Act the following clause shall be added:—

Additions to section 46 of same Act.

"(*bb*) the licensing and appointment of medical officers in cases where they are required, under this Act, to be carried;"

and after clause (*e*) of the same section the following clauses shall be added:—

"(*ee*) the functions of the master, medical officer (if any) and other officers of the ship during the voyage;

"(*eee*) the access of intermediate or between decks passengers to the upper deck."

New section added to same Act.

9. To the same Act the following section shall be added, namely:—

"50. The Local Government may, from time to time, with the previous sanction of the Governor General in Council, for any special reason and subject to such conditions as it thinks fit, exempt any ship or class of ships from any provision of this Act."

Power to exempt ship from provisions of Act.

D. FITZPATRICK,
Secretary to the Government of India.

GOVERNMENT OF INDIA.

LEGISLATIVE DEPARTMENT.

[First publication.]

The following Act of the Governor General of India in Council received the assent of His Excellency the Governor General on the 11th October, 1883, and is hereby promulgated for general information :—

ACT NO. XVIII OF 1883.

An Act to amend the Cattle-trespass Act, 1871.

WHEREAS it is expedient to amend the Cattle-trespass Act, 1871; It is hereby enacted as follows :— I of 1871.

Power for Local Government to transfer functions of District Magistrate or Local Government to local authority and direct that surplus receipts be credited to local fund.

1. The Local Government may, from time to time, by order notified in the local official Gazette—

(*a*) transfer to any local authority, within any part of the territories under its administration in which the Cattle-trespass Act, 1871, is in operation, all or any of the functions of the Local Government or the Magistrate of the district under that Act, within the local area subject to the jurisdiction of the local authority ; or I of 1871.

(*b*) direct that the whole or any part of the surplus accruing in any district under section eighteen of that Act shall be placed to the credit of such local fund or funds as may be formed for any local area or local areas comprised in that district ;

and may, from time to time, in like manner, cancel any order made under this section.

Definitions.

2. In this Act—

"local authority" means any body of persons for the time being invested by law with the control and administration of any matters within a specified local area ; and

"local fund" means any fund under the control or management of a local authority.

D. FITZPATRICK,
Secy. to the Govt. of India.

LEGISLATIVE DEPARTMENT.

[First publication.]

The following Act of the Governor General of India in Council received the assent of His Excellency the Governor General on the 12th October, 1883, and is hereby promulgated for general information:—

ACT No. XIX OF 1883.

An Act to consolidate and amend the law relating to loans of money by the Government for agricultural improvements.

WHEREAS it is expedient to consolidate and amend the law relating to loans of money by the Government for agricultural improvements; It is hereby enacted as follows:—

Short title. Local extent. Commencement.

1. *(1)* This Act may be called the Land Improvement Loans Act, 1883.

(2) It extends to the whole of British India, but shall not come into force in any part of British India until such date as the Local Government, with the previous sanction of the Governor General in Council, may, by notification in the local official Gazette, appoint in this behalf.

XXVI of 1871.

Acts XXVI of 1871 and XXI of 1876 repealed.

2. *(1)* The Land Improvement Act, 1871, and Act XXI of 1876 *(an Act to amend the Land Improvement Act, 1871,)* shall, except as regards the recovery of advances made before this Act comes into force and costs incurred by the Government in respect of such advances, be repealed

(2) When in any Act, Regulation or notification, passed or issued before this Act comes into force, reference is made to either of those Acts, the reference shall, so far as may be practicable, be read as applying to this Act or the corresponding part of this Act.

"Collector" defined.

3. In this Act, "Collector" means the Collector of land-revenue of a district, or the Deputy Commissioner, or any officer empowered by the Local Government by name or by virtue of his office to discharge the functions of a Collector under this Act.

Purposes for which loans may be granted under this Act.

4. *(1)* Subject to such rules as may be made under section ten, loans may be granted under this Act, by such officer as may, from time to time, be empowered in this behalf by the Local Government, for the purpose of making any improvement, to any person having a right to make that improvement, or, with the consent of that person, to any other person.

(2) "Improvement" means any work which adds to the letting value of land, and includes the following, namely:—

(*a*) the construction of wells, tanks and other works for the storage, supply or distribution of water for the purposes of agriculture, or for the use of men and cattle employed in agriculture;

(*b*) the preparation of land for irrigation;

(*c*) the drainage, reclamation from rivers or other waters, or protection from floods or from erosion or other damage by water, of land used for agricultural purposes or waste-land which is culturable;

(*d*) the reclamation, clearance, enclosure or permanent improvement of land for agricultural purposes;

(*e*) the renewal or reconstruction of any of the foregoing works, or alterations therein or additions thereto, and

(*f*) such other works as the Local Government, with the previous sanction of the Governor General in Council, may, from time to time, by notification in the local official Gazette, declare to be improvements for the purposes of this Act.

Mode of dealing with applications for loans.

5. *(1)* When an application for a loan is made under this Act, the officer to whom the application is made may, if it is, in his opinion, expedient that public notice be given of the application, publish a notice, in such manner as the Local Government may, from time to time, direct, calling upon all persons objecting to the loan to appear before him at a time and place fixed therein and submit their objections.

(2) The officer shall consider every objection submitted under sub-section *(1)*, and make an order in writing either admitting or overruling it:

Provided that, when the question raised by an objection is, in the opinion of the officer, one of such a nature that it cannot be satisfactorily decided except by a Civil Court, he shall postpone his proceedings on the application until the question has been so decided.

Period for repayment of loans.

6. *(1)* Every loan granted under this Act shall be made repayable by instalments (in the form of an annuity or otherwise), within such period from the date of the actual advance of the loan, or, when the loan is advanced in instalments, from the

date of the actual advance of the last instalment, as may, from time to time, be fixed by the rules made under this Act.

(2) The period fixed as aforesaid shall not ordinarily exceed thirty-five years.

(3) The Local Government and Governor General in Council, in making and sanctioning the rules fixing the period, shall, in considering whether the period should extend to thirty-five years or whether it should extend beyond thirty-five years, have regard to the durability of the work for the purpose of which the loan is granted, and to the expediency of the cost of the work being paid by the generation of persons who will immediately benefit by the work.

Recovery of loans.

7. *(1)* Subject to such rules as may be made under section ten, all loans granted under this Act, all interest (if any) chargeable thereon, and costs (if any) incurred in making the same, shall, when they become due, be recoverable by the Collector in all or any of the following modes, namely :—

(*a*) from the borrower—as if they were arrears of land-revenue due by him ;

(*b*) from his surety (if any)—as if they were arrears of land-revenue due by him ;

(*c*) out of the land for the benefit of which the loan has been granted—as if they were arrears of land-revenue due in respect of that land ;

(*d*) out of the property comprised in the collateral security (if any)—according to the procedure for the realization of land-revenue by the sale of immoveable property other than the land on which that revenue is due :

Provided that no proceeding in respect of any land under clause (*c*) shall affect any interest in that land which existed before the date of the order granting the loan, other than the interest of the borrower, and of mortgagees of, or persons having charges on, that interest, and, where the loan is granted under section four with the consent of another person, the interest of that person, and of mortgagees of, or persons having charges on, that interest.

(2) When any sum due on account of any such loan, interest or costs is paid to the Collector by a surety or an owner of property comprised in any collateral security, or is recovered under sub-section *(1)* by the Collector from a surety or out of any such property, the Collector shall, on the application of the surety or the owner of that property (as the case may be), recover that sum on his behalf from the borrower, or out of the land for the benefit of which the loan has been granted, in manner provided by sub-section *(1)*.

(3) It shall be in the discretion of a Collector acting under this section to determine the order in which he will resort to the various modes of recovery permitted by it.

Order granting loan conclusive on certain points.

8. A written order under the hand of an officer empowered to make loans under this Act granting a loan to, or with the consent of, a person mentioned therein, for the purpose of carrying out a work described therein, for the benefit of land specified therein, shall, for the purposes of this Act, be conclusive evidence—

(*a*) that the work described is an improvement within the meaning of this Act ;

(*b*) that the person mentioned had at the date of the order a right to make such an improvement ; and

(*c*) that the improvement is one benefiting the land specified.

Liability of joint borrowers as among themselves.

9. When a loan is made under this Act to the members of a village-community or to any other persons on such terms that all of them are jointly and severally bound to the Government for the payment of the whole amount payable in respect thereof, and a statement showing the portion of that amount which as among themselves each is bound to contribute is entered upon the order granting the loan and is signed by each of them and by the officer making the order, that statement shall be conclusive evidence of the portion of that amount which as among themselves each of those persons is bound to contribute.

Power to make rules.

10. The Local Government, with the previous sanction of the Governor General in Council, may, from time to time, by notification in the local official Gazette, make rules consistent with this Act to provide for the following matters, namely :—

(*a*) the manner of making applications for loans ;

(*b*) the officers by whom loans may be granted ;

(*c*) the manner of conducting inquiries relative to applications for loans, and the powers to be exercised by officers conducting those inquiries ;

(*d*) the nature of the security to be taken for the due application and repayment of the money, the rate of interest at which, and the conditions under which, loans may be granted, and the manner and time of granting loans ;

(*e*) the inspection of works for which loans have been granted ;

(*f*) the instalments by which, and the mode in which, loans, the interest to be charged on them and the costs incurred in the making thereof, shall be paid ;

(*g*) the manner of keeping and auditing the accounts of the expenditure of loans and of the payments made in respect of the same ; and

(*h*) all other matters pertaining to the working of the Act.

Exemption of improvements from assessment to land-revenue.

11. When land is improved with the aid of a loan granted under this Act, the increase in value derived from the improvement shall not be taken into account in revising the assessment of land-revenue on the land :

Provided as follows :—

(1) Where the improvement consists of the reclamation of waste-land, or of the irrigation of land assessed at unirrigated rates, the increase may be so taken into account after the expiration of such period as may be fixed by rules to be framed

by the Local Government with the approval of the Governor General in Council.

(2) Nothing in this section shall entitle any person to call in question any assessment of land-revenue otherwise than as it might have been called in question if this Act had not been passed.

III of 1877. **12.** *(1)* In the Indian Registration Act, 1877, section 17, clause (*b*), for the word "certificates" the words "orders granting loans" shall be substituted.

Act III of 1877 amended.

(2) In the same Act, section 58, for the words "a certificate" the words "an order" shall be substituted.

(3) In the same Act, section 89, first clause,—

(*a*) for the words "a certificate" the words "a loan," and

(*b*) for the words "such certificate" the words "his order,"

shall be substituted.

PART VI.

Bills introduced into the Council of the Governor General for making Laws and Regulations, or published under Rule 22.

GOVERNMENT OF INDIA.

LEGISLATIVE DEPARTMENT.

[Second publication.]

The following Bill was introduced into the Council of the Governor General of India for the purpose of making Laws and Regulations on the 4th October, 1883, and was referred to a Select Committee:—

No. 21 OF 1883.

A Bill to amend the Legal Practitioners Act, 1879, and the Indian Stamp Act, 1879.

WHEREAS it is expedient to amend the Legal Practitioners Act, 1879, in manner in this Act appearing;

XVIII of 1879.

And whereas it is also expedient to amend the Indian Stamp Act, 1879, in so far as it relates to the duty chargeable on the enrolment of legal practitioners;

I of 1879.

It is hereby enacted as follows:—

Short title.

1. (*1*) This Act may be called the Legal Practitioners Act, 1883; and

Commencement.

(*2*) It shall come into force at once.

Amendment of section 4 of Act XVIII of 1879.

2. In section 4 of the Legal Practitioners Act, 1879, for the words "as an advocate on the roll of the Chief Court of the Panjáb" the words "under section 41 of this Act" shall be substituted.

XVIII of 1879.

Addition of a proviso to section 13 of same Act.

3. To section 13 of the same Act the following proviso shall be added:—

"Provided that in any case in which the party on whose behalf any such pleader as aforesaid is retained is—

(*a*) a pardánashín woman, or

(*b*) unable for any sufficient cause to instruct the pleader in person,

the High Court shall not suspend or dismiss the pleader because he has taken instructions from a relative of the party deputed by him or her to instruct the pleader."

New section substituted for section 41 of same Act.

4. For section 41 of the same Act the following section shall be substituted, namely:—

"41. (*1*) A High Court not established by Royal Charter may, from time to time, with the previous sanction of the Local Government, make rules as to the qualifications and admission of proper persons to be advocates of the Court, and, subject to such rules, may enrol such and so many advocates as it thinks fit.

Power for certain High Courts to enrol advocates.

(*2*) Every advocate so enrolled shall be entitled to appear for the suitors of the Court and to plead or to act, or to plead and act, for those suitors, according as the Court may by its rules determine, and subject to those rules.

"(*3*) The High Court may dismiss any advocate so enrolled or suspend him from practice:

"(*4*) Provided that an advocate shall not be dismissed or suspended under this section unless he has been allowed an opportunity of defending himself before the High Court which enrolled him, and, except in the case of the Chief Court of the Panjáb, unless the order of the High Court dismissing or suspending him has been confirmed by the Local Government."

New section added to same Act.

5. To the same Act the following section shall be added, namely:—

"42. Act I of 1846 (*for amending the law regarding the appointment and remuneration of pleaders in the Courts of the East India Company*) and Act XX of 1853 (*to amend the law relating to pleaders in the Courts of the East India Company*) are repealed."

Repeal of Acts I of 1846 and XX of 1853.

Amendment of Schedules I & II of Act I of 1879. (Duty on enrolment of advocates.)

6. In Article 27 of Schedule I of the Indian Stamp Act, 1879, the words "in exercise of powers conferred on such Court by letters patent," and in clause (*a*) of Article 11 of Schedule II of the same Act, the words "established by Royal Charter" are repealed.

I of 1879.

STATEMENT OF OBJECTS AND REASONS.

THE object of this Bill is to amend the Legal Practitioners Act, 1879, in certain respects in which experience has shown that the existing law is defective.

2. Section 13 of the Legal Practitioners Act, 1879, contains a provision that the High Court may suspend or dismiss any pleader who takes instructions in any case except from the party on whose behalf he is retained, or from a private servant of such party, or from some person who is the recognized agent of such party within the meaning of the Code of Civil Procedure. It has been brought to the notice of the Government that the practical operation of this provision is in certain cases attended with inconvenience to litigants and pleaders. In litigation in which pardánashín women are concerned, instructions must often, as a matter of necessity, be given through their near relatives. Again, there are cases in which male litigants, who have not the means of employing private servants, are unable from various causes, such as physical incapacity or old age, to instruct their pleaders in person. In such cases it seems right to allow the relatives of the litigants to instruct pleaders on their behalf. Section 3 of the Bill accordingly adds a proviso to section 13 of the Act enabling pleaders to take instructions from a relative of the party deputed by him or her to instruct the pleader when the party is a pardánashín woman or unable for any sufficient cause to instruct the pleader in person.

3. Under the Legal Practitioners Act, 1879, an advocate not ordinarily practising in his own province must, if he wishes to practise in such a province as the Central Provinces, for example, where the Judicial Commissioner has at present no power of enrolling advocates, first enrol himself as a pleader. As this state of the law is felt by certain persons to be a grievance, a new section has been added to the Act, empowering all High Courts not established by Royal Charter to enrol advocates as the Chief Court of the Panjáb is at present empowered to enrol them. As the power of suspension or removal would, except in the case of the Panjáb Chief Court, be vested in a single officer if it were conferred absolutely on the High Court, it has been thought well to make every order by any High Court, other than the Panjáb Chief Court, suspending or removing an advocate subject to confirmation by the Local Government.

4. The new section 42, which section 5 of the Bill adds to the Act, provides for the repeal of Acts I of 1846 and XX of 1853 in all places to which that section may be extended. The Madras High Court has noticed that these Acts have not as yet been expressly repealed in that Presidency, though a great portion of the Legal Practitioners Act, 1879, has been brought into operation there. These Acts are, it is believed, already repealed in all the provinces to which the Legal Practitioners Act, 1879, extends *proprio vigore*; but it is possible that they may be still unrepealed in some of the other provinces to which that Act has either already been or may hereafter be extended under the power conferred by its first section. The new section 42, taken with the first section of the Legal Practitioners Act, will enable the Local Government of any such province to repeal these Acts if still in force in it.

5. Lastly, section 6 of the Bill amends article 27 of schedule I and article 11 of schedule II of the Indian Stamp Act, 1879, by omitting the words which confine their operation to advocates of the chartered High Courts. As section 11 of the Legal Practitioners Act, 1879, empowers the Chief Court of the Panjáb to enrol advocates, and as the Bill will confer similar powers on the other non-chartered High Courts, the words in question are, as represented by the North-Western Provinces High Court, out of place, so far as advocates are concerned, and should therefore be omitted.

GOVERNMENT OF INDIA.

LEGISLATIVE DEPARTMENT.

[First publication.]

The following Bill was introduced into the Council of the Governor General of India for the purpose of making Laws and Regulations on the 10th October, 1883, and was referred to a Select Committee:—

No. 22 OF 1883.

A Bill to amend the Indian Ports Act, 1875.

WHEREAS it is expedient to amend section 47 of the Indian Ports Act, 1875, so as to provide that the pensions or gratuities (if any) of persons employed in any port under that Act shall be charged to the Port Fund account of the port; It is hereby enacted as follows:—

XII of 1875.

1. In the fourth paragraph of section 47 of the said Act, for the words "All expenses, including the pay and allowances of all persons upon the establishment of the port" the words "All expenses, including the pay, allowances, pensions and gratuities (if any) of all persons employed in the port" shall be substituted.

Amendment of section 47 of the Indian Ports Act, 1875.

STATEMENT OF OBJECTS AND REASONS.

IT has recently been ruled by the Government of India in the Finance Department that service in establishments paid from port funds managed by the Government is qualifying service for pension, provided that the port fund pays for such service. It has now been brought to notice by the Government of Bombay that section 47 of the Indian Ports Act, 1875, which regulates the accounts of port-dues, does not authorize provision for pensioning employés either by investment of part of the port funds, or by the purchase of pensions from Government, or otherwise. As it seems to the Government that, when it administers a port fund, it should have the power of ordering the payment of pensions out of that fund, the present Bill, which modifies section 47 of the Indian Ports Act so as to give the Government the desired powers, has been prepared.

RESOLUTION ON THE REPORT ON THE ADMINISTRATION OF THE POLICE DEPARTMENT FOR THE YEAR 1882.

POLICE.

Darjeeling, the 8th October 1883.

RESOLUTION.

READ—

The Report on the Administration of the Police Department for the year 1882.

Read again—

The Reports for the years 1880 and 1881, and the orders of Government recorded thereon.

The Government of India, in their letter No. 402, dated the 18th September 1882, having desired that the Annual Report on the Administration of the Police Department should be curtailed by the omission of unimportant matter and needlessly minute details, the necessary instructions were issued to the Inspector-General of Police. The Report, though still of considerable length, is shorter than that of the preceding year. It does not, however, appear to the Lieutenant-Governor that it could be made briefer than it now is without impairing its usefulness as a history of the working of the Department and the state of crime in the province, and depriving this Government of information required to enable it to deal with its police arrangements. The Report was not received by Government until a month after it was due. This delay was caused in part by the fact that none of the divisional reports, with the exception of that for the Rajshahye Division, were submitted by the dates on which they were due, and partly to the fact that incorrect figures for Statement E were sent up, necessitating the entire revision of this statement in the office of the Inspector-General. The Lieutenant-Governor requests the attention of Divisional Commissioners to the matter, as delay

necessarily retards the submission of the complete Report to Government, and affects the orders which the Lieutenant-Governor may consider necessary to issue on important questions long after the occurrences to which they relate.

2. The most important change during the year was the amalgamation of the municipal with the regular police. As stated in the Resolution on the Report for 1882, the Lieutenant-Governor decided, in connection with the scheme of Local Self-Government, on relieving all municipalities, excepting the Town and Suburbs of Calcutta and Howrah, of all police charges. In accordance with this policy, the municipal, the cantonment and the regular police were amalgamated, the entire cost of the force being borne by Government from the 1st April 1882. The increased charge to Government in consequence of the arrangement amounted to nearly Rs. 4,97,000. The effect of the arrangement is to place the municipal police on a level with the rest of the force. This should, Mr. Lyall considers, secure better men for town work, though it will probably render the force less attractive, and keep good men from enlisting, as town work is more arduous and more responsible than general police duties. Already a difficulty is felt in large towns of getting men to remain in the force. At first they are ready enough to enlist, but the high price of labour soon induces them to seek more remunerative employment. The consequence is that constant changes occur in the force, and that raw and inefficient men have to be employed in the performance of duties which require training and experience. In order to remedy this evil, Mr. Lyall suggests that "probably it will be found best to keep the police of the larger towns, particularly in Central and East Bengal, a separate body, while the police of smaller municipalities remain an integral part of the district force." To this special force Mr. Lyall would give higher salary, with a view of inducing the men to remain in it. The subject calls for careful consideration, and there seems little doubt that some steps must be taken to prevent the constant changes to which the Inspector-General refers, and which must naturally have the effect of diminishing the efficiency of the police. The Lieutenant-Governor will be glad to receive a special report containing in full detail the proposals which the Inspector-General would make, and showing the extra cost that the scheme would involve.

3. The original budget grant for the Police Department for the year was Rs. 37,01,620, in which was included a grant of Rs. 1,65,370 for the police of the Chittagong Hill Tracts. The grant was, however, in consequence of the amalgamation of the municipal and regular police, increased by a further sum of Rs. 4,96,929. The actual expenditure during the year was approximately Rs. 39,63,251, as compared with Rs. 36,56,559 in 1881. The strength of the regular force on the 31st December 1882, including the civil and frontier force in the Chittagong Hill Tracts, but excluding the Railway and the reserve police, the Howrah municipal police and the police employed temporarily in Orissa during the salt manufacturing season, was 77 superior officers, 3,480 subordinate officers, and 19,405 constables. It having been found that the Sonthals did not appreciate the motives of Government in allowing police administration to be carried on through their headmen, it was thought that advantage might be taken of this fact to break up the feeling of clanship amongst them which had been the cause of disturbances in the district, and at the same time to improve the administration in Sonthalia by re-establishing the regular police system. During the past year this system was accordingly introduced into all the sub-divisions in the Sonthal Pergunnahs with two exceptions. The old village police and village officers have not, however, been abolished, but they now work in subordination to the Police Department. Since the close of the year the general introduction of the scheme for improving the status of investigating officers by the substitution of 5th grade sub-inspectors for head constables at important outposts has been sanctioned.

4. The cost of the police employed on purely police work was Rs. 26,15,202, as compared with Rs. 21,54,600 in 1881, the increase of Rs. 4,60,602 being due to the amalgamation of the municipal and cantonment police with the regular force. The total cost of this portion of the force on the average was 7·6 pies per head of the population, the cost being 8·4 pies per head in Bengal Proper including the Chittagong Hill Tracts, 8·4 pies in Orissa,

5 pies in Chota Nagpore and 6 pies in Behar. The following table shews the proportion to area and to population of the men employed on purely police work:—

Provinces.	Number of police.	Area in square miles.	Population.	Proportion of police to area	Proportion of police to population.
Bengal (inclusive of Chittagong Hill Tracts)	11,767	76,375	34,922,070	1 to 5·1	1 to 2,548
Behar	6,134	44,139	23,127,104	1 to 6·5	1 to 3,462
Orissa	1,414	9,762	3,789,694	1 to 5·7	1 to 2,256
Chota Nagpore	1,424	26,966	4,225,989	1 to 17·7	1 to 2,774
Total ...	20,739	1,57,242	66,065,757	1 to 7·5	1 to 3,185

In comparing the police force in Lower Bengal as regards its number and cost with that entertained in other places, Mr. Lyall remarks: "We have but one policeman where Bombay and the Punjab have three, and Madras and the North-Western Provinces two; while the incidence of cost per head of population is in Bombay over three times what it is in Bengal, in the Punjab it is nearly three times, in Madras somewhat less than twice, and in the North-Western Provinces more than 50 per cent. over the cost in Bengal." The Inspector-General considers that in parts of Bengal the police force is insufficient in number, and he points out that in four districts there is only one policeman to above 5,000 persons, and in six, one to above 4,000, while there are only six districts in which there is one policeman to less than 1,250 persons. The following table given in the Report compares the strength to area and to population of the police force in the various Presidencies:—

Province.	Number of police sanctioned.	Area in square miles.	Population.	Proportion of Police		Cost of police.	Incidence of cost of police per head.
				To area.	To population.		
						Rs.	A. P
Madras (*a*)	23,881	139,693	30,480,895	1 to 5·8	1 to 1,276	35,80,695	1 10·6
Bombay and Scinde (*b*) ..	18,240	124,489	15,579,373	1 to 6·8	1 to 854	30,44,659	3 1·5
North-Western Provinces and Oude (*c*)	33,126	93,183	43,062,222	1 to 2·8	1 to 1,299	42,31,039	1 6·8
Punjab (*d*)	20,466	102,275	17,611,498	1 to 4·9	1 to 860	31,16,137	2 9·9
Bengal (*e*)	24,227 or 25,052	157,242	66,065,757	1 to 6·5 or 1 to 6·3	1 to 2,727 or 1 to 2,637	41,98,498 or 42,56,104	1 0·2 or 1 0·4

"(*a*) The figures are taken from Appendix A, pages ii and iii of the Report of 1881, deducting cost of the Madras City Police and of Inspector-General and Deputy Inspectors-General (except orderlies).

"(*b*) The figures for column 2 are taken from paragraph 17 of the Government Resolution corrected from statement E for the different divisions, so as to include in the statement the same figures as other provinces. Eighty municipal police have been added in the Northern and Central Divisions, and nine District Superintendents in the Southern Division and Scinde. The cost is that given in paragraph 17, *minus* the total of column 11 of statement E. The proportions in paragraph 17 of the Government Resolution appear to be wrong, and correct figures are given.

"(*c*) The figures are taken from statement E, pages 128 to 153 of the Report for 1881, deducting column XI from the cost.

"(*d*) The figures are taken from statement E of the Report for 1881, except the proportions, which are either wrong or not worked in the same way as in other provinces. Cost of inspecting agency is omitted.

"(*e*) The figures are taken from statement E for 1882. The upper figures exclude the special reserves and the extra salt police; the lower include these."

Two sets of figures are given in the above statement for Bengal, the first excluding and the second including the special reserves, which do no police work, but are semi-military bodies retained for special emergencies, and the salt police entertained in Orissa for a few months only during the year. Mr. Lyall concludes by observing: "The increase of crime in Mymensingh and Tipperah, and the way in which house-breakers have got the better of the police in the Patna Division (four of the seven districts which are mentioned above as having from 4,000 to 5,000 persons to each policeman), show clearly that more policemen are wanted for those districts." A partial increase may be necessary in places, but to make the comparison complete, the Lieutenant-Governor would be glad to know if the proportion of crime to population and police is greater in Bengal than in other provinces. There is little doubt that we have to deal with a generally peaceable community in these provinces, and if we can take credit for that, there is scarcely any necessity for contrast with the more costly establishments of other parts of India. Before, therefore, sanctioning any increase

touch the weightier matters of the working of the police. The Inspector-General has issued a circular upon the subject, and the Lieutenant-Governor would impress upon him the necessity of seeing that, with the aid of the Deputy Inspectors-General under his orders, the work of inspection is not restricted to the external appearance of things, but should embrace the more important considerations as to the extent and character of crime in different districts, the relations of the people towards the police, and the means by which the former can be better induced to co-operate with the Department in the suppression of crime, and in giving prompt information regarding its occurrence. A District Superintendent will do much more good in his jurisdiction by mixing with the people and securing their good will than in formally inspecting thannas. It is to be feared that there is still too much of antagonism between the people in the country and the police, and it would be worth while to try and overcome it.

16. As regards the general analysis of crime in these provinces, it is stated that there was an increase of 4,827 in the number of cases reported, as compared with the number reported in 1881 : but the number was not much in excess of that in the two preceding years, and was less than in any of the years 1874 to 1878, though the number in 1877 only exceeded it by nine. The number of cases reported in each of the last nine years was as follows :—

1874 ...	... 126,122	1877 ...	... 108,089	1880 ...	... 108 275
1875 ...	... 120,838	1878 ...	... 113,621	1881 ...	... 104,153
1876 ...	... 117,559	1879 ...	... 108,771	1882 ...	... 108,980

Although there was an increase in the total number of cases, it is satisfactory to observe that were there only 320 more offences against property ; minor offences against the person, and local nuisance cases, being mainly responsible for the increase shown. The Inspector-General considers that the decrease in the number of cases of offences against property, which has taken place since 1879, when there were 10,226 more cases than in the year under report, may be accepted as " a real diminution in this class of crime." The Lieutenant-Governor concurs with Mr. Lyall in thinking that there is no reason to consider that crime is now more frequently concealed than formerly, and he therefore accepts as satisfactory the decrease in the class of cases which most affect the welfare of the people. The favourable results are attributed by the Inspector-General to the prosperous condition of the people, the effective surveillance over bad characters, and the exemplary punishment of habitual offenders. After deducting from the total number of cases those declared to be false and those failing under Class VI (Public and Local Nuisance cases, &c.), the true cases during the past year amounted to 74,046, exceeding those in the preceding year by 1,498, while it was less than the number in any of the six years which preceded 1881.

17. The number of cases declared to be false was 7,753 in 1882, as compared with 7,549 in 1881 ; the percentage of such cases was almost the same as in the preceding year, the percentages being 7·1 and 7·2 respectively. The percentages in the different divisions varied from 3·6 in Bhagulpore to 12 in Orissa. As compared with the preceding year, there was an increase in the Chittagong, Burdwan and Patna Divisions, and a decrease in the other divisions. The large number of cases declared to be false in the Rungpore district is stated by the Magistrate to be " due to Magistrates accepting cognizable cases on petition which the police had refused, and sending them for enquiry, or to their accepting cases so exaggerated by mookhtears as to appear cognizable and ordering enquiry," and he exonerates the police from blame. Steps have, it is said, been taken to prevent the indiscriminate entertainment of such cases. The Lieutenant-Governor trusts that the measures adopted may have the desired effect, but care should be taken that the officers do not proceed to the other extreme and refuse to entertain cases which should be taken up. An explanation has been called for by the Inspector-General of Police of the large number of cases declared to be false in the district of Furreedpore, and the Lieutenant-Governor will await a further report on the subject when the information has been furnished. The percentage of the cases reported by the police to be false, but which the Magistrate found to be true, was 7·7, the same as in the preceding year. Circular No. 1 of 1877, regarding the treatment of reports of cases declared by the police to be false, was not, it is stated,

observed by the Sub-Divisional Officer of Brahmunberiah in Tipperah, and the Inspector-General attributes this to the fact that that officer was overworked. The Lieutenant-Governor is aware that Brahmunberiah is a heavy sub-division; but he finds that there was a second officer for 11 months of 1882 stationed there, and he cannot therefore accept the plea of overwork as a sufficient excuse for the Sub-Divisional Officer's non-observance of distinct orders. Criminal prosecutions were instituted in 1,442 cases, and in 491 cases convictions were obtained, the number of persons punished being 523. The largest number of prosecutions was instituted in the 24-Pergunnahs (105) and Jessore (102); convictions were, however, obtained in only 32 and 23 cases respectively. The best results were obtained in Chumparun, where the proportion of convictions to prosecutions was 48 to 75, and in Manbhoom, in which district, out of 33 cases instituted, convictions were obtained in 21. Comparing the results in divisions, the best results were obtained in the Patna Division, in which convictions were obtained in 49 per cent. of the cases instituted, and the worst in the Burdwan and Dacca Divisions, in which convictions were obtained in 25·3 per cent. only. The results in Behar were better than in Bengal. This the Inspector-General attributes partly to the fact that false cases are more cleverly concocted in Bengal, making it more difficult to obtain a conviction; and partly to only 14·8 per cent. of the false cases having been prosecuted in the former province, while 21·7 per cent. were prosecuted in the latter. The Commissioner of Dacca, in remarking on the amount of work entailed on officers in first trying the original case, and then the charge for making a false complaint, says that the work falls on the Joint-Magistrate, or full-powered Deputy Magistrates, and suggests that Magistrates exercising second class powers should be empowered to try persons charged with bringing false cases. Mr. Lyall does not think that the Legislature would be prepared to adopt the suggestion, and it is certainly not one which the Lieutenant-Governor could support. False cases are not usually of a simple character; they are, as Mr. Lyall observes, for the most part carefully prepared, and have a certain amount of truth mixed up in them, and it is necessary that the officer trying the persons instituting such cases should have more experience than an officer exercising second class magisterial powers would be likely to possess. Mr. Lyall would extend the power which Magistrates now have of granting compensation under section 250 of the Code of Criminal Procedure in summons cases to more serious cases. The Lieutenant-Governor is not satisfied that this would have the desired effect in stopping the institution of false cases. It would no doubt furnish a more summary procedure, which Mr. Lyall thinks might with advantage be substituted for the formal trial of persons bringing false complaints, and in some classes of cases it might be well if judicial officers had such powers: but as a rule the institution of a false charge is an offence which demands a severer punishment than a mere fine, which is what the award of compensation to be paid by the complainant in the original case practically amounts to. It is true that in more serious cases the complainant could be prosecuted; but with the alternative of the easier procedure before them, Magistrates would be liable to adopt it, and thus save the trouble and delay of a regular trial, and persons who deserve a substantial punishment would escape with a mere fine, and that perhaps a nominal one; while on the other hand such a rule might operate as a deterrent to *bonâ fide* complaints. The Lieutenant-Governor is not disposed to criticise very minutely the actual results of the prosecutions which have been instituted. He considers, as has already been stated on previous occasions, that the mere institution of a case against the person bringing a palpably false complaint is in itself of benefit, whether a conviction follows or not; and he thinks that prosecutions might with advantage be instituted in such cases more freely than they are at present, even if the result is, as it too frequently must be, a decrease in the percentage of convictions obtained.

18. There has been a gradual increase in the number of cases not enquired into, the numbers being 1,659, or 1·5 per cent., in 1879; 2,389, or 2·2 per cent., in 1880; 3,692, or 3·5 per cent., in 1881; and 4,004, or 3·6 per cent., during the past year. The percentage of cases of hurt not enquired into was 32·9, as compared with 28·3 in 1881 and 11·2 in 1880. Out of the 4,004 cases in which the police refused to enquire in the first instance, enquiry was in 178

cases ordered by the Magistrate. Simple hurt having, under the new Code of Criminal Procedure, been made a non-cognizable offence, such cases will now be omitted from the number of cases shown as not enquired into, and there will probably therefore be a falling off in the number shown in the Report for the current year. The Lieutenant-Governor is glad to observe that the Inspector-General is able to report that the procedure of the police under section 117 of Act X of 1872 was generally correct. The number of cases not enquired into in Shahabad amounted to nearly 29 per cent. of the total number of cases not enquired into in these Provinces. As, however, out of 1,153 such cases, 1,146 were cases of hurt, the large proportion does not call for any special remark.

19. The number of cases enquired into during the year, including direct cases in which no investigation was made by the police, was 99,165, as compared with 94,462 in 1881. Excluding 10,720 cases which were taken up direct by Magistrates, the number enquired into by the police was 88,445, as compared with 83,857 in 1881 and 87,764 in 1880. The percentage of convictions in these cases was slightly better than in the two preceding years, being 47·7, as compared with 46·6 in 1881 and 46 in 1880. The Inspector-General brings to notice the different way in which, under the different Local Governments, direct cases, that is cases which are taken up by the Magistrate without the intervention of the police, are treated. In Bengal and the North-Western Provinces direct cases, as well as those enquired into by the police, are shown in column IV of Form A, Part I; in column VII only those direct cases which are enquired into are shown in Bengal, while in the North-Western Provinces all direct cases, whether enquired into or not, are entered; in the Central Provinces direct cases are entered in column IV only; in Bombay the practice varies in different districts; while in Madras and the Punjab direct cases are not shown in the statement at all. Such varieties of practice render comparisons between the returns for different provinces difficult and misleading. It is clear from its heading that Statement A, Part I, was intended to be a return of all cognizable crime. As no information was given in Form A, Part I, regarding the number of direct cases in which convictions were obtained, the Lieutenant-Governor has recently sanctioned the addition to it of a column,—column V(*a*)— in which will be shown the number of convictions in cases shown in columns IV and V, and by deducting the number of convictions in cases into which the police enquired which is shown in the statement, the number of convictions in direct cases can be ascertained.

20. During 1882 the number of persons under arrest amounted to 103,678, as compared with 98,576 under arrest in the preceding year. Of these, 100,888 persons appeared before a court, and 96,769 were actually tried. Of the latter, 64,372, or 62·1 per cent. of those arrested, were convicted, as compared with 60,965, or 61·8 per cent., convicted in 1881. The percentage of persons convicted to those tried was 66·5, as compared with 66·2 in 1881. The percentages were highest in Darjeeling (82·6), Patna (81·5), Howrah (78·2), Cuttack (75·3), Singbhoom (74·5), Gurjhats (74), Bhagulpore (71·8) and Durbhunga (70·4); and worst in Furreedpore (46·4), Pubna (48·8), Jessore (51·5), Midnapore (53·5), Mymensing (54·4), Rungpore (54·6) and Backergunge (55·3). The Inspector-General attributes the bad results in Furreedpore to the delay in disposing of cases in that district. He also refers to Pubna and the sub-divisions of Patuakhally and Brahmunberiah as exhibiting similar delays. The subject has been already brought to the notice of Government, and the special attention of all district and sub-divisional officers has been drawn to the matter. The work in the Furreedpore district is heavy, and an addition to its staff may become necessary; but it is clearly the duty of all district officers more carefully to supervise the work of their subordinates in this respect and to insist on cases being more promptly disposed of. As compared with the number of cases investigated, the percentages of cases in which convictions were obtained were highest in Howrah (77·6), Darjeeling (68·8), Patna (67·5) and Hooghly (66·4); the lowest being in the Sonthal Pergunnahs (21·5), Gya (22·1), Rungpore (25·6) and Manbhoom (30·6). In cases of serious offences against the person, the percentage was highest in Darjeeling (60·7) and lowest in the Chittagong Hill Tracts (20). In cases of serious offences against

property, excluding the Chittagong Hill Tracts, in which the cases were few, the best results were obtained in Beerbhoom, where the percentage of cases in which convictions were obtained was 22·8, and the worst in Gya, where it was only 4. In cases of petty offences against property, the percentage varied from 63·2 in the Gurjhats and 52·9 in Howrah to 23·6 in Manbhoom and 21·5 in the Sonthal Pergunnahs.

21. The results in the cases committed to the Courts of Sessions were again unsatisfactory. Not only was the number of convictions low, but the percentage of convictions on the number tried was smaller than in any of the six preceding years, being 59·1, as compared with 60·2 in 1881, 60·6 in 1880, 64·5 in 1879, 60·4 in 1878, 61 in 1877 and 63·1 in 1876. In five districts, viz. Noakholly, Furreedpore, Julpigoree, Moorshedabad and Patna, the percentage of convictions was below 40; in Noakholly it was only 18·8 per cent. In 20 districts the percentage was below 58. Mr. Lyall remarks: "In the five chief jury districts of Hooghly, the 24-Pergunnahs *cum* Howrah, Burdwan, Dacca and Patna, 141 persons were tried before the Sessions for murder and culpable homicide. Of these, 44 were convicted and 97 were acquitted. These figures speak for themselves, and show, I think, that, in the interests of justice, cases under chapter XVI (*of the Penal Code*) should be withdrawn from the operation of the jury system, or at least cases under sections 302, 303, 304, 307, 308, and 396, to which the above figures relate. I have no hesitation in asserting, even in the face of the above figures, that in the more serious forms of crime the action of the police is so looked after, and the investigating officers themselves are so afraid of sending up cases wrongly, that it is the exception to have an innocent man sent up by the police in a murder case. I do not assert that in all cases there is judicial proof, but what I do assert is that, with very few exceptions, there is such proof found locally—not necessarily all legal evidence—as to leave no doubt in the mind of the investigating officer as to the guilt of the person sent up. After leaving the hands of the police, the case has to pass the ordeal of the preliminary enquiry, where the action of the police is fully gone into, and where there is again the same fear of committing cases that will not stand before the Sessions. A false case thus stands but little chance of ever getting before the Sessions Court. Under the sections above quoted, 1,275 persons were sent up by the police in the whole Province. Three hundred of these were discharged by Magistrates, 303 were finally convicted, and 400 were acquitted. The rest, 272, were pending trial or otherwise disposed of. Thus out of 699 persons under these sections, whose cases were disposed of by the Sessions Court four were convicted by a Magistrate and are omitted), 400, or 52·2 per cent., were acquitted, while in the jury districts, as above shown, 97 persons out of 141, or 68·8 per cent., were acquitted. The percentage of acquittals for the whole Province in all cases is 40·9; so that even in non-jury districts it is clear that Judges are very chary of convicting in murder cases; while, as shown above, a conviction in a jury district is next to impossible." The Lieutenant-Governor sees no reason to doubt that in the class of cases to which the Inspector-General refers, the probability is that in almost every case finally committed to the Sessions, the evidence against the accused is so far established in the primary enquiries as to warrant his being committed: but this is a different thing from the conclusion that it should justify his conviction; and the Lieutenant-Governor is not disposed, in consequence of the worse results of the trials of such cases in the jury districts, to recommend at present the withdrawal of such cases from the jury system. The unwillingness of juries to convict in serious cases involving the issues of life and death may sometimes have been the cause of failures of justice, which would not have occurred had the persons been tried by a Judge and assessors. What is now complained of is not, it must be remembered, a new thing. It has been a charge against the system of trial by jury from the first; but it by no means follows that the unsatisfactory results on the trial of murder cases by jury is solely owing to the unwillingness of the jurors to convict in a case where a capital sentence would probably be passed. It is in the experience of the Lieutenant-Governor that jurors look with much greater strictness into the evidence and to the conduct of police officers than unassisted Judges used to do; and it is much better that it should be so, notwithstanding an occasional miscarriage of justice. The over-scrupulousness of

juries, if such it may be called, should have its effect on the action of the police and upon the investigations made in Magistrates' courts, with results which can be only beneficial. It is probable that in time a better class of jurors will be available, and in this respect there is, in the Lieutenant-Governor's opinion, very much room for improvement. In the meantime stricter attention to the orders issued, regarding the commitment of cases to the Sessions, and less delay in the preliminary enquiries in the Magistrates' courts, are matters which demand attention. There can be no doubt that the time over which these preliminary enquiries are spread is a fruitful source of the escape of criminals, as it affords so many opportunities, not only of tampering with the evidence produced, but of rendering it possible for a skilful advocate to break down, or at all events materially to weaken, the evidence of a witness who is honestly intending to tell the truth. The Lieutenant-Governor will therefore expect District Magistrates to supervise the proceedings of their subordinates in this respect with greater closeness, and to do their utmost to prevent anything, in the way of delay, that can be avoided in the committal of cases to the Sessions.

22. Property was stolen in 32,032 cases, as compared with 31,468 in 1881. In 11,091 cases, as against 10,327 in the preceding year, the whole of the property stolen was recovered, and in 3,620 cases, as compared with 3,637 cases in 1881, a portion of it only was recovered. The total value of the property stolen was Rs. 8,80,388, as against Rs. 9,25,632 in 1881, and of this, property to the value of Rs. 2,45,803 was recovered, as against property to the value of Rs. 2,36,909 in 1881. The results show an improvement, as not only was there an increase in the percentage of the amount recovered from 25·5 to 27·9, but the percentage of cases in which property was recovered rose from 44·3 to 46·3; and this, as Mr. Lyall points out, is the better test of the efficiency of the police, as it is not materially influenced by success or failure in a single case in which the value of the property stolen is large.

23. The following statement shows the number of true cases under each of the different classes for the last seven years:—

		1876.	1877.	1878.	1879.	1880.	1881.	1882.
Class I...	Offences against the State and public tranquillity	2,700	2,818	2,785	2,840	2,639	2,427	2,506
,, II...	Serious offences against the person	4,108	4,141	4,267	3,976	4,061	4,301	4,267
,, III...	Ditto ditto person and property, or against property only	22,280	20,667	23,887	20,602	18,963	19,051	18,520
,, IV...	Minor offences against the person	9,073	8,812	9,534	9,608	10,874	11,096	12,450
,, V...	Ditto ditto property	38,832	41,095	45,549	42,442	38,859	35,678	36,301
,, VI...	Other offences not specified above	18,257	16,348	14,407	17,406	22,100	23,015	25,090
	Offences under special laws	495	480	589	1,288	1,977	2,041	2,062

Under class I there was an increase of 81 cases, which was almost entirely due to an increase in the number of cases of rioting. The increase would have been still larger had it not been in part counterbalanced by a falling off of 98 in the number of cases of harbouring offenders and other offences against public justice. Under class II there was a slight decrease. Under class III there was a decrease of 531 cases. The most marked decrease was 120 in cases of serious mischief, and 448 in cases of house-breaking. Under class IV there was a net increase of 1,354 cases; this was due to an increase of 1,376 in the number of cases of hurt. Under class V there was an increase of 628 cases, the chief increase being 494 in the number of ordinary thefts, 98 in the number of cattle thefts, and 102 in cases of trespass. Under class VI there was an increase of 3,084 cases. The principal increase was 2,349 cases under the head of local nuisances, 617 excise cases, 96 railway cases and 79 vagrancy cases. There was only a nominal increase in the number of cases under other special laws.

24. There was a falling off in the percentage of cases under class I in which convictions were obtained, the number being 43·2 as compared with 50·6 in 1881. The percentage of persons convicted was 55·5 as against 57·9, which does not show such a falling off as there was in the percentage of cases; more persons were, however, pending trial at the close of the year than at the close of 1881. The only cases under this class which call for any special notice are those under the head of rioting. There was an increase of cases of this nature of 174 as compared with the preceding year, though the number

only exceeded the number in 1880 by 28, and was less than the number in either 1879 or 1878. As compared with the figures for 1881, there was a decrease in five divisions, the largest being a decrease of 49 cases in Chittagong. In the Patna Division the number was the same as in the preceding year. In the Rajshahye and Orissa Divisions there was a small increase, while in the Dacca Division there was a large increase of 214 cases, the total number of rioting cases in this Division having risen from 360 in 1881 to 574 during the past year. Mr. Lyall considers that there is no doubt that the uncertainty about the alteration of the Rent Law has had a disturbing effect in Eastern Bengal, and especially in Mymensigh. Regarding Mymensingh, the Commissioner remarks: "Many unions have been formed among bodies of tenantry in various pergunnahs of the district. These unions so formed resisted all attempts on the part of the landlord and their employés to realize rents, and the proceeding of any of the zemindars' people into the villages banded in union was followed by a riot ending generally in the eviction of the zemindars' people." The Commissioner considers that a strong police is required in Mymensingh to cope successfully with this form of crime, and that the present force is too weak. The strength of the police in this district has already been referred to in paragraph 4 above, and the subject will be duly considered on the receipt of the report which, as therein stated, the Inspector-General will be called on to submit. The cases of rioting in Mymensingh and Backergunge are not new features in the criminal statistics of Eastern Bengal, but the recent increase in the number of such cases deserves notice. There were 302 cases instituted, and out of 293 true cases convictions were obtained in only 65 instances. The Commissioner observes that "the low percentage of convictions is due in some measure to the difficulty which exists in getting good evidence when the riot has been caused by the villagers themselves, in which case no independent evidence can be procured. The case for the prosecution depends entirely on the evidence of the zemindars' people who were attacked." To some extent this may account for the bad results, but the Lieutenant-Governor believes that it may also fairly be attributed to the fact that the police were not employed to enquire into a sufficient number of the cases. It appears that out of 263 true cases, only 166 were investigated by the police. Why this should have been so is not explained, but the Lieutenant-Governor concurs in Mr. Lyall's opinion that the police should, in a district like Mymensingh, be much more largely made use of than they were during the past year. The Magistrate should also consider whether a judicious application of the provisions of section 107 of the Criminal Procedure Code to the leading men in the unions would not prevent such a frequent recurrence of these cases. In the absence of information as to the nature of the demands, it is impossible to say whether the zemindars or the ryots are primarily the cause of such disturbances of the public peace. The withholding of legitimate and usual rents admits of no defence, but the facts are not always so; and the Lieutenant-Governor fears that extortionate demands, and demands at enhanced rates not sanctioned by law, are as often the cause of these violent aggressions. These are questions which the police have no authority to enquire into, but it is not to be tolerated that men should band themselves together for the purpose of resisting lawful claims. If illegal demands are made, the civil courts afford the proper means of redress, and these "jotes" or unions should be clearly given to understand that no question as to the possible alteration of the Rent Law in any way relieves them from their present liabilities. In Backergunge the number of cases rose from 105 in 1881 to 116 in 1882, and five were attended with fatal results. The percentage of convictions to cases fell from 85·6 in 1881 to 50 in 1882, but this is higher than the percentage in either Furreedpore or Mymensingh, and, as the Inspector-General remarks, the results in 1881 were too good to continue. During the year 100 extra police from other districts were posted in Furreedpore, but the number of cases rose, notwithstanding, from 77 to 83, and it seems probable that but for the precautions adopted the results would have been worse. Though the total number of cases of rioting fell in the Burdwan Division from 180 in 1881 to 167, there was a marked increase in the number of cases in Hooghly, the number being 56 as compared with 40 in 1881. The number of cases in this district has steadily increased each year from 17 in

1878 till it reached the number above stated during the past year. The large number of cases is said to be due to the competition for land in the district. The Inspector-General and all Commissioners of Division should direct their special attention to the subject. If the Police and Magistrates of Districts do their duty, there is no reason why these offences should not be as generally suppressed as the more violent forms of crime against property by gang dacoity. Two serious cases of rioting occurred in Pubna—one in Serajgunge, in which a man was killed, and the other at Dulai, in which the men of a zemindar named Azim Chowdhry resisted the attachment of his property under an order of the civil court. The latter case, which was an illustration of the extent to which a powerful and wealthy zemindar can carry his defiance of constituted authority, has already been dealt with at length by the Lieutenant-Governor.

25. Under class II, serious offences against the person, there was a decrease of 25 in the number of cases of murder, there being 271 cases in 1882, as against 296 in the preceding year. The number of attempts at murder also fell from 53 to 38. Under the head of culpable homicide there were 179 cases—a decrease of 29 cases, as compared with the number in 1881. In accordance with the orders of the Government of India, contained in their letter No. 23—1542, dated the 19th October 1882, special details were called for in the cases in which mothers murdered their infants, and in accordance with the requisition, Mr. Lyall has given the following details:—

"There were three cases in the Rajshahye Division, none of which perhaps are of the kind of which details are required by the Government of India: still I mention them. The first took place in Julpigoree; the child was about 18 months old, and was fretful and peevish. The mother lost her temper at its crying, and cut its throat: she afterwards tried to do the same to herself. She was sentenced to transportation for life, and died on her way to the Andamans.

"Two occurred in Rungpore. In one case the mother killed the child to spite her husband, and in the other because it annoyed her when ill. One woman committed suicide; the other was transported for life.

"A case took place in Chittagong, which is not unlike the case which gave rise to the call of the Government of India A Mahomedan girl had an intrigue with her brother-in-law, and when married was found by her husband to be in the family way. He therefore sent her home, where she gave birth to a girl, which she killed, and her relations concealed the body. She was sentenced to transportation for life.

"There were two cases in Mozufferpore, and in both cases the mothers were sentenced to transportation for life. In the first case the murder was committed apparently to spite the husband, and in the second on account of poverty. Both were legitimate children.

"In Sarun a beggar woman gave birth to an illegitimate child, and in a few days killed it. She was transported for life.

"Three cases occurred in Gya. In one case the woman was acquitted, in the second she died after committal, and in the third a sentence of six months' rigorous imprisonment under section 318 was inflicted.

"One case took place in Cuttack, and was pending before the Sessions at the close of the year. The mother was a widow, and she left the child where she gave birth to it—in a turmeric field. The child was found alive, but died.

"There were three cases in Pooree, and in all illegitimate children were murdered. In all three the mothers were sentenced by the Sessions Court to transportation for life, but one was afterwards acquitted by the High Court." No action was taken by Government in any of these cases in the way of reducing the sentences passed on the women who were convicted.

26. As compared with 1881, cases of rape decreased from 196 to 155, and of exposure of infants from 105 to 97. Attempts to commit suicide fell from 427 to 391, administering stupefying drugs from 19 to 16, causing hurt by means of dangerous weapons from 922 to 910, and cases of selling minors from 16 to 13. On the other hand, there was an increase from 46 to 63 in the number of unnatural offences, from 609 to 655 in cases of grievous hurt, from 185 to 251 in cases of abduction and kidnapping, from 99 to 150 in cases of wrongful confinement in secret or for purpose of extortion, from 1,024 to 1,028 in cases of using criminal force to women with a view to outrage their modesty,

at from 68 to 74 in cases of causing death by rash or negligent acts. There was a falling off in the percentage of convictions in cases under class II, the total percentage of convictions during 1882 being 45·1, as compared with 41·2 in 1881, while the percentage of the convictions to persons tried by the Court of Sessions fell from 56·4 in 1880 and 52·2 in 1881 to 45·2—a worse result than in any of the four years preceding that under notice. In one case of murder in Purneah, the murderer, who, on account of an intrigue with his widowed daughter-in-law, had been fined by the punchayet, killed his whole family of seven persons, including the daughter-in-law, who was *enciente*, and then hanged himself. In another case in Pooree, in which the accused was sentenced to death, he was acquitted on appeal by the High Court. From the evidence and the confession of the accused, it appears that he held a child under water in a hole which he had dug, until he had drowned him; the motive being to obtain possession of his ornaments. In the Orissa Division, as regards cases of this description, there appear to have been remarkable differences of opinion between the local and appellate courts. Four cases of murder are noticed, in which the High Court on appeal have reversed the finding and sentences of the Sessions Court, and acquitted the accused; in one especially they have passed severe strictures on the Pooree Police, and the matter is being enquired into. The Lieutenant-Governor desires a full report on the matter when the enquiries have terminated. Assuming, from the statements in the Inspector-General's report, that the cases in these instances were true ones, the final acquittal by the High Court would seem to indicate that the failure of justice arose from the irregularities committed in the earlier proceedings. Murders connected with suspicion of witchcraft against the victims still find some prevalence in the Chota Nagpore Division. In another case the crime resembled an Irish one, the person murdered being shot from behind a wall in consequence of an agrarian dispute. It is satisfactory to notice a decrease in the number of cases of poisoning; most of the cases are reported to have had no connection with professional poisoners. These results are due to the steps taken to put down professional poisoning, to which allusion was made in the Resolution on the Report for 1881. In connection with a case of administering stupefying drugs which occurred in Durbhunga, several old cases were brought to light; the man who was the chief of the gang was arrested, and the Inspector-General trusts that his arrest will lead to the gang being broken up.

27. Under class III there was an increase of 16 in the number of cases of dacoity, there having been 121 cases in 1882 as compared with 105 in 1881. At the same time it is a pleasing contrast to the past history of the crime in Bengal to be able to record that 13 districts were entirely free from dacoity The crime is now of a different type and very much localised. The largest number were committed in the Rajshahye Division, in which there were 32 cases, and in the Burdwan Division, in which there were 27. In his report for 1881, the Inspector-General stated that labourers employed on the construction of railway lines were, he believed, the offenders in some cases, and this theory has received confirmation by the arrest, since the close of the past year, of a large gang of such persons in possession of property stolen in a dacoity. With the exception of three circles, viz. the Rajshahye circle, the Midnapore circle and the Gya-Hazaribagh circle, the Inspector-General does not believe that dacoity is elsewhere systematic. In the Rajshahye circle the gangs are believed to be chiefly up-country men working on railways. A special Inspector has been deputed to look into the cases in this circle, and Mr. Lyall hopes that he may be able to obtain a clue to the persons who committed the dacoities during the past two years. The Midnapore circle comprises Midnapore, the 24-Pergunnahs and Hooghly; and the bad characters in these three districts appear to work together. Hooghly has perhaps supplied more convicted dacoits to the Andamans than any other district, and it would be matter for regret if, after years of tranquillity, there should be any revival of the profession. The Lieutenant-Governor is not exactly aware of the duties which appertain to the office of Deputy Inspectors General; but it seems to him that in cases of the kind under notice, where gang robberies are committed by a body of men, operating apparently in combination from different neighbouring districts, the special deputation of one of these officers to investigate the whole circumstances of the case would be of advantage. The duty imposed

upon the officer so deputed should not be the submission of a conventional report after a few days' inspection, but should be to remain in the tracts affected until some discovery has been made of the character and numbers of the gangs, and the measures necessary for their dispersion or arrest. Unity of action is necessary where several districts are concerned, and this can best be secured under the supervision and direction of a single officer of the rank and position of a Deputy Inspector-General. The Lieutenant-Governor would wish the adoption of this course in the so-called Midnapore circle during the ensuing cold weather. An officer of Mr. Baker's experience, or of Colonel Fagan's activity, should be able in a couple of months to bring to light many ways in which this systematic kind of violent crime should be dealt with; and under any circumstances their employment on such duty would be of more practical uses than the inspection of accoutrements and the revision of registers at head-quarters in Calcutta. The value of the property stolen by dacoits during 1882 amounted to Rs. 53,490, of which property to the value of Rs. 7,358 was recovered, as compared with property to the value of Rs. 33,031 stolen, and property worth Rs. 1,750 recovered during the preceding year. There were only 122 cases of robbery, as compared with 147 in the preceding year. Serious cases of mischief fell from 748 to 628. Mischief by killing animals increased slightly, there having been 730 cases during 1882, as compared with 712 in the preceding year. The cases were most numerous in those districts in which a trade in hides is carried on. The decrease in cases of house-trespass will be noticed further on The result of trials of cases of "serious offences against person and property, or against property only," was not satisfactory, the percentage of convictions to cases being only 10·2, to persons arrested 45·6, and to persons tried 49·3.

28. There were 9,590 cases of hurt under class IV, as compared with 8,214 during the preceding year. Of these, 2,812 were taken up direct without the intervention of the police, enquiry was refused by the police in 3,203 cases, and enquiry was made by them in 3,575 cases. Cases under section 323 of the Penal Code are now, as already remarked, no longer taken up by the police. Under the head of wrongful restraint there was a decrease of 35 cases, the number being 2,731 in 1882, as compared with 2,766 in the preceding year.

29. There were 16,913 cases of burglary during the year, as compared with 17,333 in 1881 and 17,428 in 1880; convictions were obtained in 1,430 cases, or 8·5 per cent., as compared with 1,321, or 7·6 per cent., in the preceding year. The number of persons tried was 3,678, of whom 2,040, or 55·5 per cent., were convicted, as compared with 3,335 persons, of whom 1,899, or 56·9 per cent., were convicted in 1881. Concerning burglaries, Mr. Lyall, after giving the figures from which the above are taken, writes: "These figures show the greatest blot in the police work of the province. About 17,000 cases of burglary occur each year, and only about one in 12 of these is prosecuted to a successful termination. Detective skill is in fact wanting, and hence the necessity for the attention which has of late years been given to prevention." The results in such cases are very bad: still it is so far satisfactory that the decrease in the number of cases, as compared with 1880, which was observable in the figures for 1881, was even more marked in 1882. The frequency of the crime is not a matter of surprise, where the only implement the burglar wants is a piece of iron to effect his entry through a mud wall or a thatched hut; and the greater temptation to the crime is perhaps induced by the immunity which the offender enjoys at the hands of the police. The Patna Division is especially notorious in this respect, where in the past year, out of 5,429 true cases, only 6·7 per cent. were prosecuted to a conviction. There is here, too, more than a suspicion that the concealment of the crime is very prevalent. The Lieutenant-Governor is glad to find that the Inspector-General's particular attention has been directed to the subject. There were 23,519 true cases of theft, as compared with 23,025 in 1881, and the number of cases of cattle-theft increased from 1,469 to 1,567. Cases of receiving stolen property, on the other hand, decreased slightly, there having been only 1,754 cases in 1882, as compared with 1,776 in 1881.

30. The number of cases under class VI, dealing with offences against special or local laws, amounted to 25,099, as compared with 22,015 in 1881 and 22,109 in 1880. There was a decrease of 81 in the

number of salt cases, and an increase in the number of local nuisance, Excise, Railway Acts and vagrancy cases. With the exception of five districts, the orders that each person tried in the latter class of cases is to be shown as a separate case were carried out, and the necessary instructions have been given to the District Superintendents in these districts in which the orders were not attended to. Out of 1,121 true cases, 1,040 were investigated, and in 71·6 per cent. convictions were obtained, as compared with 61·2 per cent. in 1881. These results are satisfactory. Of the bad livelihood cases instituted, 976 were instituted on report of the police, and 153 were instituted on petitions presented to the Magistrate. Mr. Lyall considers that cases of bad livelihood are a dangerous class of case to be allowed to be instituted privately. It may be that the power to make such charges does afford an opportunity to villagers to harass and annoy any one with whom they may not be on good terms; but unless all institutions were limited to cases in which the police, from their immediate and direct personal knowledge of the accused, reported against a man of bad character, there would not, it appears to the Lieutenant-Governor, be any advantage or security gained by prohibiting the direct institution of such cases. If the complaint was made to the police, they would have to make an enquiry as much as the Magistrate; and it is difficult to see why the enquiry made by the latter should not be as effective as the enquiry by the police. In some instances there was very great delay in disposing of bad livelihood cases. In Jessore there were three cases pending—one 382 days, the second 357 days and the third 346 days; in Khoolna one was pending for 313 days; and in Furreedpore one was pending for 305 days. It is quite unjustifiable to keep such charges pending over people for such long periods. Special reports will be called for from the Magistrates regarding the very great and apparently inexcusable delay in these cases. With a view to reducing the large amount of extra duty which the surveillance of bad characters entails on the police, Mr. Lyall has directed a reduction in the number of names on the registers by omitting those of many persons who do not belong to the criminal classes. Mr. Lyall on this point remarks: "In each district I have inspected, I have gone carefully through the bad character registers of one or more stations, and have generally been able to point out the possibility of reducing the number of persons under surveillance without, I hope, giving the really criminal classes any greater facilities for crime. It is quite unnecessary to keep a watch over men who have once committed a petty theft, but who have in no way adopted a criminal life, and by striking off all such, the police have more time to attend to the real criminals. What should be impressed on all Magistrates and District Superintendents is the necessity of having under supervision, not the men who formerly have committed crime, but those who are doing so to-day, and that it is sheer waste of time and energy to continue enquiries solely because a man has once been convicted, irrespective of his subsequent manner of life." The Lieutenant-Governor entirely accepts the views expressed by Mr. Lyall. A careful revision of the registers should be made; the police should be relieved of a great deal of the duty which is not only useless, but endangers the liberty of people who, by reformed habits of life, should no longer be objects of suspicion.

31. The number of Excise cases was 3,031 as compared with 2,414 in 1881 and 2,994 in 1880. There were 284 cases of illicit distillation, as compared with 359 in the preceding year, and of these 117 occurred in Beerbhoom and Midnapore. There were 626 cases in which the offence was the illicit possession or sale of country spirit, 567 of opium, 520 of ganja and 764 of tari. Only 425 vendors, as compared with 828 in the preceding year, were prosecuted. The percentage of convictions in cases was 76·1 as compared with 73·2 in 1881, and of persons 79·6 as compared with 81·6 in that year. There were 1,284 salt cases, as compared with 1,213 in the preceding year; and out of 1,409 persons arrested in connection with these cases, 1,263 were convicted, 168 maunds of salt were confiscated, and Rs 4,330 were realized on account of fines. The Inspector-General refers to the cases of some fishermen prosecuted under section 283 of the Penal Code, for causing obstruction in a line of navigation by fishing in the Hooghly and Bidyadhuri rivers with fixed nets. Mr. Lyall remarks: "Several fatal accidents have taken place in consequence, and there can, I think, be no reasonable doubt that men have no right to fish in a method that has been proved to be dangerous to

navigation and to human life, however long they may have done so when the river was less crowded." Looking to the large amount of traffic on the river Hooghly, the Lieutenant-Governor ordered an enquiry into the case, and rules have been passed regulating the use of such nets in future.

32. The Report treats of the attempts to settle the Mughya Domes in Chumparun. This clan is one which has always given considerable trouble to the police on account of their nomadic habits and thievish propensities They did no work, and went from place to place stealing wherever and whatever they could. The matter was fully investigated by Government, and it was decided that an attempt should be made to induce these people to settle down. The following extract from the report of the Magistrate of Chumparun, which is quoted by Mr. Lyall, shows what has been done:—

"In May the Inspector of Bettiah, Nakai Lall Misser, succeeded with some trouble in procuring an interview with some Domes through the instrumentality of some of their women. The result was that they signified their willingness to live in any place selected for the purpose. Two sites were selected—one at Bargaon, near the Bagaha station, and the other at Futtehpore, near the Jugaputti outpost of the Bettiah station At these places lands were procured from the zemindars, who likewise supplied the materials with which the Domes erected huts for themselves. From that time the number of Domes at these places has been steadily increasing, until at the present time there are 172 men, women and children at Bargaon, and 66 at Futtehpore. At Bargaon arrangements were made to provide the Domes with land, and a grant of Rs. 500 has been sanctioned by Government to provide them with cattle, ploughs and other implements of agriculture. This is gradually being done. Some of the heads of the Domes have been appointed village chowkidars with the approval of the villagers. Steps have been taken to provide them with work in the fields, and at the present time the condition of the settlements is satisfactory. The Domes have, with but little assistance, succeeded in maintaining themselves, and there is every hope that they will continue to do so with a little management. The settlement is, however, merely on its trial; whether it succeeds or not remains to be seen."

From a more recent report received by Government from the Commissioner of the Patna Division, it appears that the number of Domes who have settled at Bargaon has increased to about 250, and those at Futtehpore to about 90. In time it is hoped the settlers will support themselves without any assistance from Government. They cannot, however, be expected to do so at first, and in addition to the Rs. 500 at first sanctioned, Government has recently given an additional capitation grant of Rs. 3 per head, or Rs. 1,050. The later reports are extremely satisfactory, and justify the expectation, which the local officers entertain, of complete reformation of the tribe. The principal difficulty has been to induce a nomadic people to take to settled habits and work, but when once a beginning is made, it should not be an arduous task to induce them to remain. The fact that since the establishment of the two colonies the number of persons in each has increased shows that for the present, at any rate, they are willing to abandon their former wandering ways, and if they can only be induced to remain, and take up agricultural pursuits, the best results may be anticipated. The same success has not, it appears, been realized in Sarun, and the Commissioner thinks that, "so long as proper measures are not adopted in the contiguous districts of the North-Western Provinces regarding the settlement of these wandering tribes, any measure to domicile them in the Behar districts can only be partially successful." Mr. Lyall is now in communication with the Inspector-General of the North-Western Provinces and Oudh on the subject, and the Lieutenant-Governor will be glad to learn the result of the correspondence. Now that the authorities in Sarun are adopting the measures which so far have succeeded in Chumparun, the future reports of the experiment may be more satisfactory, especially as it appears that the Domes from Sarun have, since the close of the year, been going to the settlements in Chumparun Much of the credit of the success here is due to the active interest which Mr. Henry, the Magistrate of the district, has taken in the work.

33. The number of non-cognizable offences was 101,691, or 1,804 less than in the preceding year. Out of 107,543 persons summoned, 80,808 actually appeared, of whom 59·5 per cent. were convicted. The percentage was slightly higher than in 1881, when it amounted to 58·4. In the Patna Division the number of salt cases rose from 595 in 1881 to 1,287 in the past year. Before 1881 the average number of cases yearly was only 82. Mr. Lyall remarks that the number of salt cases has greatly increased since the working of the law was

made over to the North-Western Provinces Central Agency; most of the cases are, however, said to be petty and to end in conviction. The Commissioner, the Inspector-General reports, does not complain of any undue severity in the institution of these cases. The large increase seems, however, to indicate either great laxity formerly, or unnecessary strictness at present, and the Commissioner should not neglect precautions against indiscriminate prosecutions. The police were employed in enquiring into 6,495 non-cognizable cases, or nearly 6·4 per cent., as compared with 5·8 per cent. in 1881. In the Rajshahye and Cooch Behar Division the Inspector-General reports that the police has been used far too freely in investigating petty municipal cases, and the Lieutenant-Governor will await the explanation which Mr. Lyall has called for.

34. Regarding the measures taken for the supervision of criminal tribes, Mr. Lyall remarks—

"Again, no Bediya is reported to have been convicted of burglary in the Presidency Division, and the same supervision continues over them. Two gangs of *mochis* were convicted in Jessore—one of theft, and the other of dacoity. The Punka Chur Kayasts continue to be watched, and measures have been taken to improve the supervision over the Furreedpore Kayasts. One gang of these men was partly convicted during the year at Dacca. * * * Burwars continue to come in numbers to Bengal, and many have been arrested and convicted. These men are all sent home to be released, and in time they will probably cease to find it pay them to come here."

The Government of the North-Western Provinces and Oudh has recently addressed the Government of India regarding the desirability of bringing the Burwars under the operation of the Criminal Tribes Act, and the question is still under consideration. If the proposal is adopted, it is probable that Lower Bengal will be less troubled by their visits than it is at present.

35. A photographer is now employed for purely police work. During the past year he photographed 23 criminals. The Inspector-General is still, the Lieutenant-Governor understands, in communication with the New York photographers regarding an inexpensive method of taking likenesses, to which reference was made in the Resolution on the Report for 1881.

36. The total number of persons re-convicted during the year was 1,397; of these, 1,024 had been once previously convicted, and 257 had been twice, 80 three times, 18 four times, 9 five times, 6 six times and 2 seven times previously convicted, whilst against 1 eight previous convictions were proved. The Inspector-General refers to a case in which the accused escaped recognition when on his trial, though after his conviction it was ascertained that he was an habitual offender. The Magistrate refused to refer the case, because, in a similar one, the High Court had declined to revise and enhance the sentence. Mr. Lyall remarks: "It is obviously opposed to the interests of the public that a man should escape a heavy sentence which he has legally incurred by concealing his identity; and as cases of this kind ought to be committed, the High Court may possibly be induced to take this view." The Inspector-General should submit a full report on the case, and the records will then be called for, and the subject taken up with a view to a reference being made to the High Court should the case seem to call for it.

37. The conduct of the police during the year appears to have been on the whole fair, though the remarks made by some of the Commissioners show that there is still considerable room for improvement. The general results, however, establish the fact that, though in repressing crime the police have been fairly successful, detective capacity is not conspicuous in the force. The Lieutenant-Governor would be glad if the Inspector-General could suggest any particular measures for the organization of a special detective force. It is probable that for it a better stamp of men than our ordinary police would be required. Efforts are being made in Lohardugga to get the sons of the local zemindars to take service in the police, and if the efforts are successful, it may indicate a direction in which a solution for the difficulty may be found.

38. The Lieutenant-Governor regrets to have to record the death during the past year of two valuable police officers—Mr. Parry Davis and Mr. Platts. Another experienced officer, Colonel W. R. Gordon, Deputy Inspector-General, retired after a long career in the police. Under the orders of the Government of

India, the appointment of Personal Assistant to the Inspector-General having been made one tenable for five years only, Major Wilkinson reverted to regular duty after having with great credit filled the post for nine years. Mr. Monro held the office of Inspector-General up to the 13th June, and Mr. Lyall succeeded him and held the appointment during the remainder of the year. To both these officers the Lieutenant-Governor's special acknowledgments are due for their able administration of a very responsible and difficult department. Mr. Rivers Thompson notices with satisfaction the names of the District and Assistant Superintendents specially mentioned in paragraph 57 of the Report. A copy of the remarks made concerning them will be forwarded to the Appointment Department for record.

ORDER—Ordered that a copy of the above Resolution be forwarded to the Inspector General of Police and the Commissioner of Police, Calcutta.

Ordered also that a copy of the Resolution be forwarded to all Commissioners of Divisions for information.

Ordered also that a copy of the Resolution, and extract paragraphs 56 and 57 from the Report, be forwarded to the Appointment Department of this Office for information.

Ordered also that the Resolution be published in the *Calcutta Gazette*.

By order of the Lieutenant-Governor of Bengal,

F. B. PEACOCK,

Secretary to the Government of Bengal.

RESOLUTION ON THE REPORT ON THE CALCUTTA AND EASTERN CANALS AND NUDDEA RIVERS FOR THE YEAR 1882-83.

No. 1932*I.A.*

PUBLIC WORKS DEPARTMENT—IRRIGATION ACCOUNTS.

Calcutta, the 22nd October 1883.

RESOLUTION.

READ—

The report on the administration of the Calcutta and Eastern Canals and Nuddea Rivers for the year 1882-83, submitted with letter No. 5848., dated the 23rd July last, from the Secretary to the Board of Revenue, Lower Provinces.

Comparative statement of revenue and charges of the Calcutta Canals and Nuddea Rivers for the year 1882-83, submitted with the Examiner of Public Works Accounts' memorandum No. 5218 of the 21st June 1883.

Read again—

The reports of the administration of the Calcutta and Eastern Canals and Nuddea Rivers for the years 1872-73 to 1881-82.

Resolution in the Revenue Department of this Government, dated 15th October 1872, on the report on the administration of the Calcutta and Eastern Canals and Nuddea Rivers for the year 1871-72.

RESOLUTION.—The last published Resolution on the administration of these canals and rivers was issued in the Revenue Department, under date the 15th October 1872. It was therein stated that in future the review of the annual report should lie in the Public Works Department. The results of the working of the canals for the 10 years preceding 1882-83 not having been previously publicly noticed, they will be briefly referred to in the present Resolution.

CALCUTTA AND EASTERN CANALS.

2. The following table exhibits the receipts and charges since the year 1872-73:—

Year.	Receipts.	Total expenditure, including extensions and improvements.	Net revenue after deducting expenditure, extensions and improvements being included therein.	Expenditure on extensions and improvements only.	Expenditure for year, excluding extensions and improvements.	Net revenue for year.
	Rs.	Rs.	Rs.	Rs.	Rs.	Rs.
1872-73	4,01,770	2,63,136	1,38,634	1,06,208	1,56,928	2,44,842
1873-74	4,12,375	2,12,079	2,00,296	58,995	1,53,084	2,59,291
1874-75	3,87,269	1,65,219	1,72,050	84,013	1,61,06	2,00,063
1875-76	4,45,343	4,87,477	—42,134	3,51,407	1,56,070	2,89,273
1876-77	4,44,044	2,89,262	1,54,782	1,13,002	1,75,260	2,67,784
1877-78	4,41,208	1,98,742	2,42,466	14,143	1,84,599	2,56,609
1878-79	4,01,535	3,08,391	93,144	1,38,127	1,70,264	2,31,271
1879-80	3,44,505	4,42,898	—98,393	2,78,707	1,64,251	1,80,314
1880-81	4,14,145	8,30,086	—4,15,951	6,86,080	1,44,116	2,71,029
1881-82	4,82,467	10,54,301	—5,71,834	8,02,053	1,62,248	3,20,219
1882-83	5,64,194	10,33,632	—4,69,438	8,19,465	1,84,167	3,80,027
Total ...	47,08,915	53,05,293	—5,96,378	35,03,100	18,02,193	29,06,722

The smaller revenue for 1874-75 is stated in the report for that year to have been due to dulness of trade and to famine operations, which rendered the price of rice in Calcutta cheaper than in the mofussil: in the year 1879-80 there was a falling off in the traffic in rice, jute, and firewood.

3. The entrance to the canal at Chitpore was closed during the whole of the year 1881-82, and for 10½ months, or up to the middle of February, of 1882-83, during the construction of the new lock at that place, so that all traffic to the river Hooghly passed through Tolly's Nullah, which was much silted: notwithstanding these disadvantages, the revenue for these two years showed an increase of Rs. 68,322 and of Rs. 81,727 respectively over that immediately preceding.

4. The following table shows some particulars of the traffic during the past two years:—

Canals.	1881-82.						1882-83.					
	Number of boats.	Approximate		Tonnage of Boats.		Tollage.	Number of boats.	Approximate		Tonnage of Boats.		Tollage.
		Weight of cargo.	Value of cargo.	Maunds.	Tons.			Weight of cargo.	Value of cargo.	Maunds.	Tons.	
		Mds.	Rs.			Rs.		Mds.	Rs.			Rs.
I.—Circular Canal at Bamunghatta.	80,766	1,10,85,288	2,20,29,740	2,42,94,275	8,68,247	2,07,581	83,838	1,51,46,745	2,90,05,030	3,07,48,675	11,08,127	2,67,278
II.—Circular Canal at Rajah's khal	6,437	11,972	2,837	1,55,125	5,581	1,661	Nil	Nil	Nil	Nil	Nil	Nil
III.—Circular Canal at Chitpore.	Nil	Nil	Nil	Nil	Nil	Nil	3,470	8,85,435	6,72,780	20,58,625	73,821	14,955
IV.—Tolly's nullah at Samookpottah.	46,768	79,19,032	1,74,10,558	1,62,76,575	5,85,213	1,39,606	40,473	71,07,800	1,01,27,987	1,58,33,615	5,63,894	1,36,367
V.—Tolly's nullah at Kussa toll station.	42,479	5,22,199	8,79,063	8,23,525	29,157	8,537	44,091	9,46,668	21,24,824	11,68,600	41,702	11,579
VI.—Tolly's nullah at Kidderpore.	40,215	67,08,746	90,80,191	1,62,71,692	5,89,583	96,839	38,232	65,00,293	1,40,13,064	2,63,21,524	9,04,826	1,66,543
Total ...	2,16,665	2,62,47,237	4,94,02,389	5,78,20,192	20,77,781	4,53,714	2,10,104	3,06,48,941	5,66,33,685	7,61,31,060	26,91,069	5,33,722

It will be noticed that, compared with the year 1881-82, there was during 1882-83 a diminution in the number of boats which entered the canals: the tonnage was, however, 22·8 per cent. in excess, and, as already stated, the tolls showed an increase of Rs. 81,727. The Board of Revenue observe that "this satisfactory financial result, in the face of a reduction in the number of boats, is attributed to the exercise of more than usually careful supervision in the measurement of boats during the year, while it is also due, in some measure, to the levy of tolls since the 19th February last according to the system of new rates sanctioned by Government in the correspondence marginally cited."*

* Board's letter to Government, No. 641 B., dated 24th July 1882.
Government order No. 1977 I., dated 17th October 1882

The revised scale of tolls is substantially in accordance with that hitherto in force, a charge having, however, been sanctioned for boats taking advantage of the canals for their return journey, and a minimum rate of 4 annas per boat introduced. The tollage is less than one per cent. on the value of the goods carried.

5. The expenditure on the canals for the period embraced in this review includes Rs 35,03,100 expended on new or original works, the chief of which are enumerated below :—

	Cost. Rs.	When completed.
Deepening the Bhangore khall ...	70,814	February 1874.
Constructing a new girder bridge at Hastings	1,46,264	March 1876.
Deepening the new canal and constructing 4-inch syphon culverts	1,11,728	December 1881.
New lock at Dhappa	4,54,170	August 1881.
Inlet at Chitpore	44,955	January 1883.
New lock at Chitpore	8,28,223	February 1883.
New bridges at Dum-Dum, Ooltadanga, Manicktolla and Narkuldanga ...	1,36,532	July to Sept. 1882.
Storm-water intercepting sewer, half cost paid by Government	4,67,669	In progress.

6. Orders have lately been issued for the preparation of a capital and revenue account of the canals, but as they were commenced in 1804, and expenditure on extensions and improvements, the accounts of which are not now in existence, has been constantly incurred since that date, there is great difficulty in obtaining even a satisfactory approximation to their capital cost.

So far as can at present be ascertained, the total cost of the canals to Government has been Rs. 68,36,323, inclusive of indirect charges, and the net revenue from 1804-5 to the end of 1882-83 Rs. 1,18,75,274, whilst interest charges at 4½ per cent. up to the end of 1880-81, and at 4 per cent. subsequently, would amount to Rs. 67,40,526. The canals have therefore yielded a clear profit of Rs. 51,34,748.

7. The importance of the canals in regard to the trade of Calcutta is shown by the following table, contrasting the imports into Calcutta by railway and by these canals :—

Year.	East Indian Railway.	Eastern Bengal Railway.	Calcutta and South-Eastern State Railway.	Total railways.	Total Calcutta Canals.
	Mds.	Mds.	Mds.	Mds.	Mds.
1879-80	2,63,67,199	63,48,996	7,57,693	3,34,73,888	1,04,03,851
1880-81	2,64,63,541	71,50,998	8,60,430	3,44,74,972	1,34,72,791
1881-82	3,20,98,798	91,45,740	9,47,307	4,21,91,845	1,58,51,399
1882-83	3,48,22,369	1,00,10,958	11,15,087	4,59,48,414	1,81,77,852
Total ...	11,97,51,910	3,26,56,692	36,80,517	15,60,89,119	5,79,05,893

8. Proposals to convert the canal beyond Dhappa, which is at present tidal, into a still-water reach as far as Kooltee on the 27th mile, and to connect Tolly's Nullah and the Circular Canals by a new canal skirting Calcutta, are now being considered. The large surplus revenue which has hitherto accrued, and the continued increase in traffic, are such as to justify a considerable expenditure on improving the facilities for navigation at present afforded.

NUDDEA RIVERS.

9. The receipts and expenditure on these rivers, from the year 1872-73 to 1882-83, are shown in the statement below :—

Year.	Receipts.	Expenditure.	Net revenue.
	Rs.	Rs	Rs.
1872-73	2,19,376	71,258	1,48,118
1873-74	1,85,674	1,16,793	68,881
1874-75	1,73,032	68,195	1,04,837
1875-76	2,18,624	78,367	1,40,257
1876-77	2,54,990	75,782	1,79,208
1877-78	3,24,940	95,224	2,29,716
1878-79	2,74,029	93,844	1,80,185
1879-80	2,30,627	87,574	1,43,053
1880-81	2,32,633	1,21,846	1,10,787
1881-82	2,11,220	2,70,720	—59,500
1882-83	1,82,967	1,18,231	64,736
Total ...	25,08,112	11,97,834	13,10,278

NOTE.—The expenditure recorded here does not include fluctuations in suspense balances.

The decrease in the collections is stated to be due to the comparatively unfavourable state of the rivers during the year, the Jellinghee alone having remained open throughout. The Matabangha was closed for vessels of more than 100 maunds burden from the middle of November, and the Bhagiruthee from early in October.

10. The thanks of the Lieutenant-Governor are due to the Commissioner of the Presidency Division and to the Member in charge for their reports. With the view of rendering these annual *resumés* still more valuable, the Superintending Engineer will be directed to submit to the Commissioner by the 1st of June a succinct account of the works undertaken by the Public Works Department during the year, explaining any fluctuations in the expenditure. It is noticed that Mr. Monro, in paragraph 13 of his report, adverts to the want of information on this subject, and in previous reports* the matter has been referred to by the Board of Revenue. The Board's favourable mention of Mr. W. R. Cooksey, Collector and Supervisor of the Calcutta Canals, is noted.

* Paragraph 15 of the Board's report for 1881-82.

ORDER—Ordered that a copy of the above Resolution be forwarded to the Board of Revenue, Lower Provinces; the Commissioner of the Presidency Division; and the Superintending Engineer, South-Western Circle, for information and guidance; and to the Examiner, Public Works Accounts, and the Revenue and Financial Departments of this Government for information.

By order of the Lieutenant-Governor of Bengal,

H. C. LEVINGE,

Secretary to the Govt. of Bengal,

P. W. Dept.

Rainfall, Weather, and State and Prospects of the Crops.

Stament showing Rainfall, Weather, and State and Prospects of the Crops in the different Districts of Bengal, as reported to Government during the week ending the 20th October 1883.

	No.	District, and date of return.	Rainfall at Sudder Station in inches.	Character of the weather, state and prospects of the crops, and state of health at date.
BENGAL.				
		Western Districts.		
Burdwan Divn.	1	Burdwan. Oct. 20 '83	0·52	Weather—generally dry, but some rain fell in different parts of the district. Prospects of *amun* crop unfavourable. Average outturn will not exceed six annas, and may possibly be only four. *Aus* crop has been fair. Health generally tolerable, but some cases of cholera have been reported.
		Cutwa ...	0 17	
		Raneegunge ...	0 02	
		Culna ...	1·41	
	2	Bankoora, „ 20 „	0·01	Cold weather appears to have set in, but days continue to be hot and bright. The early cessation of the rains has caused great damage to the crops. At the most favourable estimate the Collector does not think that more than 8 or 9 annas crop all round will be reaped. Prices show a tendency to rise. Bankoora head-quarters thana is at present worst off. Khatra and parts of Chatna have had timely plentiful rain. The next fortnight will probably settle the fate of the late rice, unless there be at least one or two inches of rain. Public health good.
		Bishenpore ...	0·14	
		Maliara ..	1·81	
		Khatra ...	0·90	
	3	Beerbhoom, „ 20 „	0 01	Weather—fine. Mornings cool. *Aus* and *amun* crops suffering for want of rain. Irrigation going on wherever practicable. Deficiency of harvest most probable. Prices are beginning to rise. General health satisfactory.
		Rampore Haut ..	0·77	
	4	Midnapore „ 20 „	0·45	Weather—cool in the morning and evening. Prospects of crops not favourable, except in the Contai sub-division. Rain is much wanted. Public health fair.
		Contai ...	2 84	
		Tumlook ...	1·40	
		Ghattal ...	0·44	
	5	Hooghly, „ 20 „	2·71	Weather—hot for the season, with bright sun and only occasional clouds. State of *amun* rice is bad all over the district. The crops on the higher lands are drying up. There was good rain in some parts of the Sudder sub-division in the course of the week. The condition of the crop in the Serampore sub-division is bad; not more than half an average *amun* crop can be expected at the most. Sugarcane fair Public health good.
		Howrah, „ 22 „	Nil	Weather—mornings cool; days hot; occasionally cloudy, but no rain. Rain much wanted. *Amun* rice and sugarcane suffering.
		Ooloobereah ..	0 20	
		Central Districts.		
Presidency Divn.	6	24-Pergunnahs. Oct 22 '83	0 63	Weather—hot and dry. Rain badly wanted. Prospects of late paddy not good. On high lands it has suffered much, and its growth on low lands has been injured by the drought Public health generally good. Cases of cholera reported from Baraset.
	7	Nuddea, „ 20 „	2·26	Weather—cool and clear. Rain much wanted for *amun* crop and for sowing of winter crops. Late rain was beneficial, but not enough for *amun* on higher lands. Fever unchanged.
		Kooshtea ...	0·78	
		Meherpore .	0·16	
		Chooadanga ...	0 46	
		Ranaghat ..	0 62	
	8	Khoolna, „ 20 „	0 06	Weather—bright and hot. In Bagirhat prospects of *amun* rice are said to be good; in the Sudder sub-division late rice is not reported as injured; but in Satkhira, where there is more early rice, crops have suffered. Public health good.
	9	Jessore, „ 20 „	1·27	Weather—hot for the season. *Amun* crop has suffered from drought. The injury to this crop on high land is estimated at from 4 to 12 annas. The damage caused to it on low land is not so great, and is estimated at from 4 to 8 annas. There has not been any heavy rain during the week under report. The want of rain has retarded the sowing of the winter crops. Fever is reported from Jhenida, Bongong, and Narail.
		Jhenida ..	0 18	
		Magura ..	0 82	
		Narail ..	Nil	
		Bongong ..	0·25	
	10	Moorshedabad, „ 20 „	Nil	Weather—sultry days, with cold dewy nights. *Amun* rice continues to deteriorate in the absence of rainfall Efforts are being made to induce recourse to irrigation which, it is hoped, will save a portion of this important crop. The drought is also seriously impeding the cold-weather sowings. Cholera is reported from Khargram; otherwise public health good.
	11	Dinagepore Oct 19 '83	Nil	The cold weather has almost set in. Rain is very much wanted for *amun*. Rice selling at from 17 to 20 seers per rupee.
Rajshahye and Cooch Behar Divn.	12	Rajsahye, „ 20 „	1·10	Weather—gradually becoming cooler; occasional clouds. Outturn of *aus* has varied considerably. In the south a very poor crop. From 11 thanas and out-posts it is reported to be 8 annas and upwards. Much of the *ropa* paddy has now dried up. The rest is being kept alive by tank irrigation The paddy in low lands holds out, but will be a short crop. Price of rice in three northern thanas has risen to 14 seers. *Rabbee* sowings are being delayed for want of rain.
		Nattore ..	0·54	
		Nowgong ...	Nil	
	13	Rungpore „ 20 „	Nil	Weather—dry and occasionally cloudy Rain is much wanted for winter paddy; plants are suffering from drought. Fever prevalent.
		Gaibanda ...	Nil	
		Kurigram ...	Nil	
		Nilphamari ..	Nil	
	14	Bogra „ 20 „	0·31	A shower of rain on the evening of the 16th, since then the weather has become tolerably cool. State and prospects of *amun* crop are getting worse from day to day. It is generally withering for want of moisture. Public health now fair.
	15	Pubna „ 20 „	1·14	Several showers. Weather cooler. Prospects of *amun* rice bad. Ground being prepared for winter crops.
	16	Darjeeling. „ 20 „	Nil	Fresh clouds have again gathered. Crops in hills doing well. In the Teral late rice on high lands wants rain badly Outturn of jute below average Cold-weather crops being sown.
	17	Jalpaiguri, „ 20 „	Nil	Weather—somewhat hot in the day, but generally seasonable. Prospects of crops promising. Ground in places is being prepared for cold-weather crops. Public health good.
		Cooch Behar „ 19 „ up to 17th Oct.	0·10	Weather—getting a little cool. Prospects of late rice continue favourable. Fields being prepared for cold-weather crops. The planting out of tobacco seedlings has just commenced. Public health good.
		Dinhatta ... up to 14th Oct.	Nil	
		Mathabhanga ... up to 18th Oct.	3 50	
		Meekligange ... up to 13th Oct.	Nil	

	No.	District, and date of return.				Rainfall at Sudder Station in inches.	Character of the weather, state and prospects of the crops, and state of health at date
BENGAL.—*concld.*							
		Eastern Districts					
Dacca Divn.	18	Dacca,	Oct.	20	'83	0·08	Weather—hot. *Ashini* paddy is being harvested. Cutting of jute is nearly completed. *Aman* crop thriving. *Mung* and *maskali* are being sown. Prospects of other crops good.
		Manickgunge			...	1·54	
		Munshigunge			...	6·01	
		Naraingunge			...	1·6	
	19	Furreedpore,	„	20	„	Nil	Weather—hot and dry in the Sudder sub-division; stormy in the south; and hot, with some rain, in the north. More rain is much needed, and urgently in the Sudder sub-division. State and prospects of *aman* generally not favourable. In many places the crop is withering on high lands. But the rainfall at Madaripore has done much good, and prospects are improved in the north. The harvest of unplanted *aman* has begun in a few places. Sugarcane and *til* are doing well, and some land is being prepared for cold-weather sowings. Fever is very prevalent.
		Goalundo			...	0·47	
		Madaripore			...	1·88	
	20	Backergunge,	„	18	„	2·07	Weather—seasonable. High wind with showers on the 11th. The rain has done much good to the *aman* crop. General health good.
	21	Mymensingh.	„	19	„	0·84	Weather—hot sun, and mostly clear sky with a few inextensive thunder showers. Want of rain has injured about 6 annas of the *aman* crop up to date, and more will be destroyed if there be continued drought. The rivers have fallen very rapidly some feet in a short time. Fever prevalent.
Chittagong Divn.	22	Chittagong,	Oct.	23	'83	Nil	Weather—fair. Prospects of crops good. Prices somewhat low. General health favourable. Cattle-disease has again appeared.
	23	Noakholly,	„	18	„	3·12	Weather—rainy during the first three days of the week; clear and sultry since then. Young *aman* plants are promising well.
	24	Tipperah,	„	18	„	2·32	Weather—very sultry. Crops very good. Health good.
		Brahmunberia				2·59	
		Chandpore			..	1·55	
	25	Chittagong Hill Tracts.	„	16	„	1·25	Weather—seasonable. Slight showers in first part of week. Foggy mornings. Cotton being gathered; crop very short. Plough-paddy and sugarcane doing well. Land being prepared for mustard.
		Hill Tipperah	„	17	„	2·81	Weather—cloudy and hot. Prospects of crops continue favourable. Public health good.
BEHAR							
Patna Divn.	26	Patna	Oct.	20	'83	Nil	Weather—cloudy. Paddy crop suffering everywhere for want of sufficient rain. Fever still prevailing in the interior of the Behar sub-division.
		Behar			..	Nil	
	27	Gya	„	20	„	Nil	Clouds have been gathering for some days. There is a promise of rain. It is now falling. Rice prospects very bad. A great part of the crop is already lost. *Rubbee* prospects are also bad unless rain falls soon. Prices rising. Health fair, but cholera is still reported.
	28	Shahabad,	„	20	„	Nil	Weather—hot during the day and cool in the mornings and evenings. Much of the winter rice is dead for want of rain to ripen it. The canal officers have exerted themselves to give as much water as possible, but the supply is insufficient. Light rain is falling to-day (20th). It is much needed for *rubbee* sowings.
		Buxar			...	Nil	
		Sasseram			...	Nil	
	29	Durbhunga,	„	20	'83	Nil	Weather—seasonable, but somewhat closer than it ought to be. Prospects very bad indeed owing to want of rain. Even if it falls now there cannot be more than an eight or ten anna crop throughout the greater portion of the district. Prices are rising.
	30	Mozufferpore,	„	20	„	Nil	*Rubbee* sowings are in active progress, and in some parts the young crop is well above ground. The long drought has materially injured the rice, but to-day (20th) a light drizzling rain has commenced to fall, with heavily overcast sky. Should the rain continue, a considerable portion of the rice crop will be saved.
		Hajeepore				Nil	
		Seetamarhi			..	Nil	
	31	Sarun,			20	„	Nil	Weather—dry; days hot, nights cool; clouds hanging about, but no rain until to-day (20th) drizzling rain since the morning. Rain most urgently wanted. Paddy crop suffering, except where irrigation is practicable. *Rubbee* sowings delayed for want of rain. If heavy rain does not fall within the next 10 days paddy crop will be a failure, and prospects of *rubbee* crops will be bad. Cases of fever reported, public health otherwise good. Prices still easy.
		Sewan				Nil	
		Gopalgunge				Nil	
	32	Chumparun,	„	20	„	Nil	Weather—cool and cloudy. The continued drought causes grave anxiety. It is always very cloudy, but no rain. If rain does not fall within a week, the rice crop will entirely fail where irrigation is not possible. Some cases of fever reported.
Bhagulpor Divn.	33	Monghyr,	Oct.	20	'83	Nil	Weather—hot and fine in early part of week; latterly cool and cloudy. Rain is much wanted for the rice crop and for *rubbee* sowings. Prices rising. Public health good.
		Begusarai				Nil	
		Jamui				Nil	
	34	Bhagulpore,	„	20	„	Nil	Weather—still hot in day, but getting cooler every night. *Aghani* paddy will yield from 4 to 12 annas; generally an 8 anna yield may be expected. Prospects of *rubbee* crops most unsatisfactory. There is no moisture in the ground for sowings, and there will be less water than usual for irrigation unless rain falls, of which there is to-day (20th) some promise.
	35	Purneah,	„	20	„	Nil	Weather—hot and dry. Reports from Kissengunge are still good. In Arrareah the rice on high lands has suffered much, and in the Sudder sub-division still more, from want of rain, of which there seems now to be no hope. The full extent of the damage done cannot yet be estimated, but it is feared that the winter rice crop will not average more than 8 to 10 annas over the whole district. Fever prevails everywhere, and cholera is reported from Caragola.
		Kissengunge			..	Nil	
		Arrareah			..	Nil	
	36	Maldah,	„	20	„	0·08	Weather—mornings foggy, sky occasionally cloudy, prevailing wind from north and north-west. Prospects are bad owing to want of rain. Winter rice plants are withering in the fields. Prices of food-grains are rising. General health is good.
	37	Sonthal Perghs,	„	20	„	Ni	Weather—days hot, occasionally cloudy; nights cool; clear with some dew. High land paddy has suffered much. The land capable of being irrigated is everywhere being watered. In places rain has fallen and enabled the cold-weather crop lands to be ploughed and sown; elsewhere these lands cannot be ploughed, and if rain comes, sowings must be later than usual. Prices are rising very significantly, and stocks of grain are being husbanded. Indian-corn is being bought up in the east of the district by ryots who have come from the south east of Bhagulpore.
		Deoghur			..	0·17	
		Godda			...	0·17	
		Rajmehal			..	Nil	
		Jamtara			..	Nil	
		Pakour			...	Nil	

No.	District, and date of return.	Rainfall at Sudder Station in inches.	Character of the weather, state and prospects of the crops, and state of health at date.
ORISSA.			
Orissa Divn. 38	Cuttack, Oct. 19 '83	0·41	Weather—hot. *Beali* being harvested and gathered. *Sarad* crop on high lands reported to be parched up at Kanika for want of rain. In other places rain is also urgently wanted. Public health generally good. Cases of cholera still occurring in some places in the Kendrapara sub-division.
39	Pooree, „ 18 „	3·21	Weather—hot. *Sarad* much benefited by recent rain. *Beali* being harvested.
	Khoorda	1·14	Winter crops doing well. Public health fair. Common rice selling at from 20 to 30 seers per rupee.
40	Balasore, „ 19 „	1·08	Weather—clear and warm. The rainfall of the week was heaviest in the north of the district, and fell off gradually towards its southern extremity, where it was only half inch. But this rain has done considerable good, having been supplemented with local showers in various parts. Of course more rain is wanted very much, but after the late fall at least a 10-anna crop for the district is expected. Fever, as usual at this season, prevails at places, otherwise public health good.
CHOTA NAGPORE. *South-West Frontier Agency.*			
41	Hazaribagh, Oct. 19 '83	Nil	Weather—warm and bright. The protracted drought causes great anxiety for the standing paddy crop. Prices rising gradually. General health good.
42	Lohardugga „ 20 „	Nil	Weather—cold in morning and evening; warm in day. Rice crop seriously affected by continued drought, especially towards Lohardugga. *Rubbee* sowings in Palamow at a stand-still. Price of coarse rice has risen two seers.
	Daltongunge ...	Nil	
43	Singbhoom, „ 19 „	0·62	Weather—days hot, nights cool. Prospects of crops generally good, but more rain is badly wanted. Cattle-disease reported from some villages. Public health good.
44	Manbhoom, „ 20 „	0·87	Weather—clear and unseasonably warm. Low land rice doing fairly well; some loss of upland crop, as yet uncertain how much. Public health good on the whole.

ALEXANDER PEDLER,
Offg. Meteorological Reporter to the Government of Bengal.

METEOROLOGICAL AND RAINFALL SUMMARY FOR THE MONTH OF SEPTEMBER 1883.

THE normal meteorological conditions in Bengal during September resemble those of July and August to a very considerable extent. It is usually of course a month of steady rainfall over the whole Province, and though the rainfall is not so heavy as in the previous two months, its distribution is to a great extent similar. The mean directions of the air motion of the Bay of Bengal south-west monsoon current are very similar in character to those of the two preceding months, but the mean wind velocities from the commencement of this month begin gradually to fall off, until at its close the monsoon current is very considerably less powerful than during the previous month, and even considerably weaker than in the earlier parts of the same month. This is the case of course, because the conditions which had originally brought about or induced the south-west monsoon at the beginning of June are at this time being slowly, but surely, effaced.

The gradual falling off in strength of the south-west monsoon current in September, as compared with that of July and August, and the distinct effect which such falling off has on the amount of rainfall received in the Province, is perhaps most clearly seen in the form of a tabular statement. In preparing this table, the fourteen Bengal stations have been selected, from which returns of air motion and rainfall have been received for the longest period, and the numbers given are the normals for the three months—July, August and September. For each month there are shown the mean wind direction, together with the percentage of steadiness; second, the mean daily wind velocity in miles; and third, the normal rainfall.

STATION.	WIND DIRECTION AND STEADINESS.						DAILY WIND VELOCITY IN MILES.			RAINFALL IN INCHES.		
	July.		August.		September.							
	Direction.	Percentage of steadiness.	Direction.	Percentage of steadiness.	Direction.	Percentage of steadiness.	July.	August.	September.	July.	August.	September.

The numbers given in this table clearly bear out the above statement that in normal years the mean air motion over Bengal in September is nearly identical in general character with that of the preceding two months; second, that a very perceptible decrease takes place in the daily wind velocity in September from that of July and August; and third, that this diminution of air motion re-acts directly on the rainfall. Thus taking the mean daily velocity over the whole of Bengal in July as 100, in August the mean wind velocity is equal to 88 and in September to 74. Again, taking the mean rainfall at the 14 stations in Bengal above given to be equal in July to 100, the rainfall in August is equal to 96, and in September to 75, or, in other words, the amount of rainfall decreases in September to almost precisely the same proportional extent as the diminution of the wind velocity of the monsoon current. There is of course another very important factor of the monsoon current, which will influence the rainfall over the Province to fully as great an extent as the velocity, and this is the depth or volume of the current. Unfortunately we have no means by which the depth or volume of the monsoon current can be estimated, but that this factor has almost a predominating influence on the rainfall was shown in the meteorological summary for the month of June of the present year. It is of course probable that, when dealing with the averages of a number of years as in the above table, the effect of alterations or variations in the depth or volume of the current in different years will to a great extent disappear, and thus the above numbers deal with a monsoon current of *average* depth or volume, as well as giving the average wind direction, velocity, &c. The statement made previously may thus probably be more accurately stated that, with a monsoon current of average depth or volume, the amount of rainfall in September, when compared with the rainfall of July and August, diminishes in direct proportion to the diminution in the wind velocity.

The actual amount of rainfall in September in Bengal, as in the case of the two preceding months, will depend mainly on the strength and the depth or volume of the Bay of Bengal monsoon current, but its distribution will be affected by the same causes that were discussed in the summaries of July and August. There are three primary causes which will affect the distribution of rainfall over any land area. Thus areas of increased rainfall are

always to be expected, first, from proximity to a sea or ocean; second, from the neighbourhood of ranges of hills, mountains or high land generally; and third, increased precipitation may be looked for in those areas where any interaction or interference of moisture-laden currents takes place, and which of necessity must also produce ascensional movement of the air. Secondary actions are also frequently at work modifying such distribution, and in Bengal prominent among such actions are the formation in the Bay of Bengal, and passage over the land, of certain areas of low pressure or small cyclonic vortices, which brien large amounts of rain to the districts which come within their influence: and as the ling of country through which they may pass may vary very considerably, they are prominent causes in modifying the rainfall in particular years, and of introducing abnormal variations.

The normal distribution of rainfall in the Province of Bengal in September shows very clearly the influence of two out of the three permanent causes of rainfall variation mentioned in the last paragraph. Thus the areas of heaviest rainfall are, first, those in the hills and the districts at their base; and second, those which are in the neighbourhood of the sea. A line of heavy rainfall, to the north of which all stations receive rainfall in excess of 20 inches, runs almost parallel to the Darjeeling Hills, but at some little distance from their base, coming as far south as Dinhatta. A second line, showing the area receiving from 15 to 20 inches of rain, runs nearly parallel to the first line, and includes the districts as far south as Bagdogra. Another area, receiving rainfall in excess of 15 inches, is in East Bengal, and includes Fenny, Noakholly, &c. The area receiving between 12 and 15 inches of rain, is included in a line running from Balasore in an easterly direction, till it reaches Bhola in the Backergunge district, where it turns northward and runs in a north-westerly direction almost parallel with the Tipperah, Garo, and Darjeeling Hills, and also parallel to the line of 15 inches rainfall first mentioned. It thus includes a considerable part of East and North Bengal. The line of 10 inches starting from False Point runs almost parallel to the line of 12 inches, and includes the southern parts of South-West Bengal and of North Bengal, together with the Sonthal Pergunnahs district, and some parts of Bhagulpore and Durbhanga. The greater part of South-West Bengal and of Chutia Nagpur fall inside this line, and receive amounts varying from 10 to 8 inches. Finally, the northern parts of Chutia Nagpur and the greater part of South Behar receive amounts less than 8 inches. The minimum rainfall for the month over the whole Province is to be found in certain parts of South Behar and Chutia Nagpur, and in an area of South-West Bengal, including such stations as Ranaghat, Kishnaghur, Culna, and Ranigunge. The explanation of this second curious patch of deficient rainfall is probably that which was advanced for the almost similar case in the normal July rainfall, and which explanation was given in the summary for that month. It was there shown that the above three permanent causes of rainfall variation are all at work in modifying the normal rainfall distribution in Bengal, and that it was because these districts were not influenced by any of the causes that induce increased rainfall that they receive a comparatively smaller rainfall.

Meteorological Summary for the month.—Up till nearly the close of August the Bay of Bengal south-west monsoon current had apparently been fairly normal in strength, as shown by the wind velocities of the last week in that month, but it would appear probable that it was deficient in depth or volume, for during the same period the rainfall in Bengal was distinctly below the normal. The monsoon current then slackened, and during the first few days of September a small and somewhat feeble barometric depression was formed at the head of the Bay, and during its formation slight winds of indraught towards the sea area prevailed. The rainfall in Bengal at this period was slight and scanty, but with the advance of the depression inland, the monsoon winds strengthened very considerably, and brought general rainfall to all districts; while on the 3rd and 4th of the month at many stations the rainfall was very heavy. A second small cyclonic storm was developed in the north-west angle of the Bay and reached the Orissa coast on the 7th instant. This second depression had developed to a rather greater extent than the former one, and was accompanied by stronger winds. The barometer also fell to a considerable extent during the passage of the small storm, and a pressure lower than 29·5 inches was registered. With the advance inland of this depression, strong monsoon winds again set in over the Province, which brought heavy rainfall to the greater part of the reporting area on the 8th, 9th, and 10th instant; but the effect of this large inrush of moisture-laden winds quickly died away, and with a gradually increasing pressure over the whole Province, the monsoon winds, which up to this time had been blowing strongly, began to slacken, and from the 14th or 15th instant the monsoon current became decidedly feeble, and a more or less pronounced break in the rains commenced in Orissa and South-West Bengal, and at some stations in East Bengal, though rain continued to fall in other divisions, and in many cases in large quantities. At this time pressure over the Province was about normal, but from about the 15th instant it commenced to increase slowly, but steadily, over the whole reporting area, and the force of the monsoon winds also steadily diminished, so that the partial break in the rains continued to be fairly well marked in Orissa, South-West and East Bengal up to the 24th instant, though in Orissa showers had fallen on the 19th and 20th. From the 24th to the 29th instant, however, rainfall in those districts was rather more general, but the area of rainfall rapidly contracted owing to the feebleness of the monsoon wind. Rainfall also in North and South Behar and in Chutia Nagpur commenced to diminish from about the 20th instant, and at the close of the month these districts were quite rainless. This rapid contraction of the area of rainfall and practical stoppage of the rainy season at the very early period of the end of September was apparently brought about by the fact that pressure had continued to increase with very

slight exceptions slowly and steadily from the middle up to the close of the month, so th it was for the whole of the last two weeks of the month considerably in excess of the norm

Pressure had also become nearly equal in all districts of the Province, and the winds h become light and variable with, however, a distinct tendency towards the setting in of d northerly winds, so that the area of rainfall began rapidly to contract, and by the close the month the greater part of the reporting area was quite rainless. The general meteor logical conditions as to pressure, wind directions, and velocities, area of rainfall, &c., on t last day or two of September, and at the commencement of October, were more like those the middle of October, and in fact it would probably be true to say that the meteorologi conditions which then obtained in the setting in of dry north-westerly and northerly win the absence of rainfall, &c., showed that the season was ten days or a fortnight earlier th usual.

It has been before mentioned that the monsoon winds were blowing fairly strongly o the Province for the first two weeks, but that from the middle to the end of the month t wind velocities had gradually diminished, till towards its close a very feeble current w setting in or drifting over Bengal. The rapid diminution of the wind velocities at the vari reporting stations towards the end of the month is clearly shown in the table below, wh the wind velocities at fourteen Bengal stations for each of the four weeks of the month given. The figures do, it is true, show a rapid diminution in the velocity of the monso current, but in all probability the depth or volume of the current has diminished during past month even more rapidly than the wind velocity. Of this factor of course no act measurements can be made, but judging the depth or volume of the current during the last t weeks, by the average rainfall in the Province, the monsoon current must have decreased volume with very great rapidity indeed.

Table of daily wind velocity (the numbers representing the wind motion in miles per day)

Rainfall summary of the month.—It has just been noticed that the monsoon curr blowing over Bengal during the past month has been distinctly weaker than the avera and as is always the case with a weak monsoon, not only is the rainfall on the whole be the normal, but the distribution has been distinctly irregular. The main features of distribution are of course to a considerable extent similar to the normal, that is, the li of greatest rainfall are those nearly parallel to the ranges of hills and to the sea area. T in the actual rainfall distribution during September, a line, including the areas wh have received a rainfall in excess of 20 inches, runs to a certain extent parallel to Darjeeling hills, and includes the districts of Cooch Behar and the Dooars. A l including the areas which have received more than 15 inches and less than 20 inches, st from Cox's Bazar, and includes Chittagong, Noakholly, and Chandpore. The line of 10-i rainfall starts from Saugor Island, runs nearly parallel to the Sunderbuns, and turns n in East Bengal, and runs along the foot of the Tipperah Hills, while a second line of 10-i rainfall runs through North Bengal to a great extent parallel to the Nepal and Sik ranges. A third area, which has received more than 10 inches of rain, is in South Ori The area which has received between 10 and 5 inches of rain, includes almost the whole of Ch Nagpur, and a certain part of South-West and East Bengal, but the greater part of So West, East and North Bengal, and almost the whole of Behar, has received a rainfall of than 5 inches. The inequalities of the distribution are shown by the fact that, within areas of equal rainfall above-mentioned, there are patches of excess and of deficient rain Thus the greater part of the Hazaribagh district has received a rainfall of over 10 inches, Sonthal Pergunnahs district has also received a rainfall in excess of the surrounding distr and there is another area of excess rain at Begooserai. On the other hand Balasore, Co Ghattal, Jehanabad, Burdwan, Chooadangah, Kooshtea, Jhenida, Berhampore, Jungip Manickgunge, Kishoregunge, Atia, Jamalpore, Pubna, Bogra, Sherpore, Serajgunge, Natt Bhowanigunge, Durbhunga, Motihari, and Bettiah have received remarkably small amo of rain during the past month.

When the actual rainfall for September is compared with the normal fall for that mo it will be found that by far the greater part of the Province has received a deficient amo

though there are certain districts which have received an excess. The most prominent cases of excess falls are, first, the Julpigoree and Cooch Behar districts in North Bengal; and second, the Chittagong, Comillah, and part of the Noakholly districts in East Bengal; the greater part of Chutia Nagpur has also received more than the average rainfall, while there is a peculiar instance of an excess fall of two-and-a-half inches at Begooserai, which station is completely surrounded by districts where the rainfall has been markedly deficient. When the whole Province is considered generally, it will be seen that the western and extreme south-western districts have received a slight excess fall, while passing from the west to the east, and towards the northern districts, the rainfall first becomes almost normal, then slightly in defect, while finally the eastern and northern districts, with the one or two exceptions before-mentioned, are largely in defect. Thus some of the southern districts of South Behar, represented by Sasseram, Aurungabad, and Jehanabad, have received a rainfall slightly in excess; the greater part of Chutia Nagpur, excluding the eastern parts of Manbhoom and Singbhoom, has also received a slight excess fall, and the excess area extends as far as Raneegunge, while the rainfall in the western districts of Orissa, represented by Pooree, Banpur, and Cuttack, has been considerably in excess, the amount of the excess being about three inches Running parallel to this area of excess rainfall, there is a tract of country which has received nearly a normal fall, the amounts varying from normal up to a defect of three inches. This area includes the districts represented by Buxar, Bhubooah, Gya, Nowadah, Behar, Jamui, Godda, and Jamtara in South Behar; Govindpore, Mahoudi Hills, and Chyebassa in Chutia Nagpur; Bishenpur and Maliara in South-West Bengal; and Jajpur, Kendrapara, and False Point in Orissa. Running nearly parallel to the last area there is another section of the Province where the rainfall varies from three to five inches in defect; this area is represented by the stations Sewan, Chupra, Arrah, Dinapore, Mozufferpore, Hajipore, Tajpore, Monghyr, Bhagulpore, and Pakour in Behar; Rampore Haut, Azimgunge, Meherpore, Kishnaghur, Hooghly, Midnapore, and Tumlook in South-West Bengal; and Chandbali in Orissa To the west of this area the defect is generally in excess of five inches, except in quite the southern districts, which are close to the head of the Bay, where the defect is generally less than five inches. In this area of large excess, which includes fully half the reporting area, there are several districts where the defect is excessive, and thus Nattore, Jamalpore, Kishoregunge, and Dinhatta all report a deficiency of more than 10 inches during September.

The periods during the past month where rainfall was heaviest and most general were in Orissa from the 1st to the 10th, from the 16th to the 21st, and from the 25th to the 29th. In South-West Bengal the periods of general rainfall were from the 1st to the 12th, and from the 24th to the 29th. In East Bengal there were no very well pronounced and general breaks in the rains, except from about the 20th to the 23rd, but for a considerable part of the month rainfall has been very scanty. In North Bengal the heaviest falls occurred between the 14th and 24th. In North Behar rainfall was generally scanty, except between the 14th and 22nd, while in South Behar and Chutia Nagpur rainfall was general and heavy from the 3rd to the 6th, and from the 9th to the 19th. The rainfall distribution for the month may also be summarised by saying that during the first week Orissa and Chutia Nagpur received a fall in excess of the normal, while all other districts were considerably in defect; in the second week Chutia Nagpur only received a slight excess, while all the other divisions were moderately in defect. In the third week of the month North Bengal, North and South Behar, and Chutia Nagpur received a fall in excess of the normal, while Orissa, South-West and East Bengal were in defect, and in the last week, with the exception of East Bengal, all the divisions received less than the normal fall of rain.

The areas which have received rainfalls in excess and defect of the normal during the past month have already been pointed out, but it has been seen that the distribution has been markedly irregular, so that in some cases one portion of a meteorological division has received a fall larger than usual, while another portion has had a defective rainfall. It is, however, also desirable to summarise the rainfall of each meteorological division for the month, and this is done in the table given below. When the average rainfall of all the stations in each meteorological division is taken and compared with the normal, it is found that Chutia Nagpur is the only division which has received a fall slightly in excess of the normal, while all the other divisions are more or less largely in defect. Expressing the figures given in this table in percentages, the excess fall in Chutia Nagpur is only equal to 4 per cent. of the normal Taking the whole area of Orissa into consideration, this division shows a defect of 21 per cent. from the normal, while East Bengal, North Bengal, and South Behar are in defect by amounts varying from 30 to 33 per cent. of the normal. South-West Bengal has only received 50 per cent. of the normal fall, while North Behar is no less than 55 per cent. in defect, or has received distinctly less than half the amount of rain it ought to have received in September. In the same table there are also summarised the number of rainy days during the month in each meteorological division. It is remarkable that, when these average figures are compared with the normals, even in Chutia Nagpur, which has received a slight excess fall, the number of rainy days has been distinctly smaller than usual. In fact the number of rainy days in every district has been smaller than the normal, but the defective numbers are, as a rule, not very large, and it is clear that the defect of rainy days is in much smaller proportion than the defect of rainfall. The normal number of rainy days for the whole Province (obtained by averaging the normal number of rainy days in the seven meteorological divisions) is equal to 13·96 during the month, while the average defect is equal to 1·23 days, or only a defect of about 9 per cent., while from the figures given previously, it may be seen that the average defect of rainfall over the whole Province, calculated

in the same way, has been equal to 31 per cent. It would therefore appear that the deficient rainfall during September has not only been due to a deficient number of rain showers, but to a very great extent also to the lightness of the rain showers themselves, and thus it would tend to prove the suggestion above put forward, that not only has the monsoon current during September been deficient in strength or velocity, but that it has also been very deficient in depth or volume.

The following table gives the summary of the rainfall data above alluded to, and also of the temperature data for each of the seven meteorological divisions of the Province:—

Meteorological District.	Temperature						Rainfall.							
	Highest observed during month	Lowest observed during month	Average for month			Average mean of month above or below normal mean of month	Of month.			Rainy days.			Since May, 15th.	
			Of highest of each day.	Of lowest of each day.	Of mean for each day		Average.	Normal average.	Variation.	Average number in month.	Normal average number.	Variation.	Average.	Normal average.

The mean pressure, temperature, &c., are deduced from the traces of the Barograph and Thermograph, and from observations made at 6h, 10h, 16h, and 22h.

The maximum and minimum temperatures are obtained from self-registering thermometers. All the thermometers are verified, and the readings have been corrected to a standard constructed and verified at the new Observatory. They are exposed under a thatched shed open at the sides, and are suspended four feet above the ground.

The barometer readings are corrected approximately to those of the standard Newman's No 86 formerly at the Surveyor-General's Office.

The hygrometric elements are obtained from Tables III, IV and V of the official tables computed in the meteorological office, and based on Regnault's modifications of August's formula.

The direction of the movement of the wind are taken from the trace of a Beckley's anemograph.

The mouth of the rain-gauge is one foot above the ground.

o overcast, *g* gloomy, *p* passing temporary showers, = fog, ⌓ dew.

ALEXANDER PEDLER,
For Meteorological Reporter to the Government of India.

METEOROLOGICAL OFFICE, INDIA,
The 22nd October 1883.

N.B.—In the weekly report from 7th to 13th October 1883, read 1·38 inches. for 19·3 ins. as the average rainfall of 24 years, S. G. office, for the from 7th to 13th October.

Explanation.—Indicates that no rain has fallen. If the return for any day has not been received, the corresponding space is left blank. If some of the re... wanting, the corresponding spaces in the total rainfall columns are left blank.

SUMMARY OF THE METEOROLOGICAL AND RAINFALL OBSERVATIONS TAKEN IN BENGAL FOR THE WEEK ENDING FRIDAY, THE 19TH OF OCTOBER 1883.

In the summary for the week ending the 12th instant, it was pointed out that, owing to the continuance of certain meteorological conditions, the weather had become at the close of that week rather unsettled over the Bay. This disturbed condition of the weather over the sea area, owing to the absence of some condition or conditions, of which nothing is known at the present time, instead of developing and concentrating into a well marked barometric depression or cyclonic storm, such as are common at the close of the rainy season remained as a large diffused disturbance, in which apparently there were other smaller disturbances, or what might be called storm patches. One of the smaller disturbances passed into East Bengal on the 11th instant, while the main portion of the diffused disturbance gradually drifted in a westerly direction towards the Madras and South Orissa Coasts which it reached at the commencement of the present week. The disturbance had no definite centre, but simply gave rise to bad weather, strong winds and heavy rain along the Madras and South Orissa Coasts. That the disturbance was somewhat powerful may be judged from the fact that a report dated 10 P. M. on the 13th instant, at Coconada gave the wind velocity at that station as 46 miles per hour, while on the 13th and 14th instant, the average fall of rain at the stations along the Madras Coast was nearly four inches. This large disturbance, reaching and drifting over the land, also affected the weather in Bengal very considerably, and on the 13th very general rain, and in many cases in fairly large quantity, fell over the whole of Orissa, South-West and East Bengal, while a few showers penetrated even as far as North Bengal. The rainfall, as might be expected, was generally heaviest in Orissa, and the southern districts of South-West Bengal. With the advance of this disturbance, southerly winds set in at most stations in South-West Bengal, Chutia Nagpur, East Bengal, and even at some stations in Behar, thus driving back the northerly winds which had prevailed in those districts for some time previously. These southerly winds of course gave a large increase in the humidity and cloud proportion over the area affected by them, but they never succeeded in thoroughly re-establishing themselves over the whole Province, and for the greater part of the remainder of the week there has been a struggle between these southerly winds and the northerly winds which still prevailed in the northern divisions, and as the result, winds over a considerable part of the Province have been generally rather variable. There has been in fact almost an oscillating movement for some days, for on one day the southerly winds might appear to be gaining an advantage, only, however, to be forced back still further by the northerly winds on the following day. During this meeting of wind currents there must of course have been a certain amount of ascensional movement produced, and as a consequence rain showers have been rather more numerous during this week than during the week ending October 12th, though they have been still small in number and on the whole light. Towards the close of the week under review, however, these southerly moist winds were being slowly but surely driven back by dry northerly winds, and thus weather was characterised by a decreasing humidity temperature and cloud porportion over the whole Province, while the rain showers were becoming lighter and less numerous in most districts though rain was afterwards received in Behar in moderate quantity.

Pressure was at the commencement of the week very considerably above the normal, the average excess over the whole Province being 0·12″. On the 14th and 15th, pressure again increased, till on the latter date the excess ranged from 0·2″ at Durbhanga to 0·1″ at Gya. On the 16th, however, the re-action commenced, and continued on the 17th and 18th, while on the 19th the barometric changes were very small. The decrease during these three days did not, however, bring pressure quite back to the normal, and the week has therefore closed again with pressure distinctly above the average amount for the period It will thus be seen that the mean pressure for the week must be above the normal; the average excess pressure over the whole Province is about 0·08″, while the actual average excess at the various stations ranges from 0·13″ at Durbhanga to 0·03″ at Gya. Temperature also has in the majority of cases been above the normal of the period, for during the greater part of the week little rain has fallen, and the skies have been comparatively free from cloud. Taking the whole Province into consideration, the average temperature for the week has been from 1° to 2° above the normal, but while False Point, Chittagong, and Gya show temperatures very slightly below the normal, Hazaribagh, Bankipore, and Durbhanga report temperatures largely above the normal. Thus at Hazaribagh the average temperature for the week has been 3·5° above the normal, at Bankipore it has been 2·3° above the normal, and at Durbhanga 1·9° above the normal.

The following table gives the usual summary of the temperature and rainfall data for each of the seven meteorological divisions of the Province :—

Meteorological District.	Temperature.						Rainfall.									
			Average for week.				Of week.			Rainy days.			Since 1st of month.		Since May 15th.	
	Highest observed during week.	Lowest observed during week.	Of highest of each day.	Of lowest of each day.	Of mean for each day.	Average mean of week above or below normal mean week.	Average.	Normal average.	Variation.	Average number in week.	Normal average number.	Variation.	Average.	Normal average.	Average.	Normal average.
Orissa	93·9	72·1	88·1	75·8	82·0	+0·6	1·01	1·73	−0·72	1·8	2·0	−0·2	1·15	4·74	54·32	59·35
South-West Bengal ...	90·0	70·0	80·6	75·0	82·5	+1·3	0·59	1·80	−1·21	1·5	2·0	−0·7	0·73	3·73	47·41	59·35
East Bengal	90·8	70·1	80·7	75·0	80·9	+0·4	0·42	1·88	−1·46	1·3	2·6	−1·3	2·44	4·91	63·20	75·98
North Bengal	91·8	65·1	88·8	72·7	80·8	— —	0·20	1·95	−1·75	0·7	1·9	−1·2	0·14	4·81	55·24	74·35
North Behar	93·0	62·8	88·4	70·5	79·7	+1·2	Nil	0·47	−0·47	— —	0·9	−0·9	Nil	3·13	41·15	46·97
South Behar	97·9	56·2	9 ·2	70·7	81·0	+1·0	0·03	0·64	−0·61	0·1	1·2	−1·1	0·03	2·56	36·80	41·87
Chutia Nagpur	88·8	64·4	87·4	63·3	77·9	+3·5	0·21	0·71	−0·50	0·3	1·6	−1·3	0·21	2·43	43·90	46·00

The rainfall for the week has again been particularly scanty. As has already been stated, it was only on one day, the 13th instant, that anything like general rain was received, and even in this day the rainfall only extended to Orissa, South-West and East Bengal. For the remainder of the week only isolated showers have been recorded, and these usually have not given more than one or two-tenths of an inch of rain. In the whole of North Behar not a single station has reported rain on any day in the week, and in South Behar four stations only received isolated showers on one day in the week, and the average amount of rain at each of these four stations was only 0·16 inch. On the other hand, in the same division, twenty stations were absolutely rainless. Next to South Behar, North Bengal has received a very deficient rainfall, and while sixteen reporting stations received absolutely no rain, ten stations reported rain showers, though usually on only one day, and then in very small quantity. Chutia Nagpur also has had a very deficient rainfall, and while two stations report rain, each on one day only, five stations report absolutely no rain during the week. In East and South-West Bengal and in Orissa almost all stations have received rain during the week, but the majority of them have only had one rainy day, and even then on the average the normal was not large.

In all the meteorological divisions therefore rainfall has been largely below the average, and as shown in the above table, and taking the whole Province into consideration, it has during the past week probably not received much more than about one-fifth of the normal fall. If the rainfall in these divisions be compared with the normal, it will be found that in Orissa the rainfall has been 41 per cent. in defect; South-West Bengal and Chutia Nagpur have received a fall only equal to about 30 per cent. of the average, while East Bengal was 77 per cent in defect. North Bengal also received only 10 per cent. of the normal fall, and South Behar only 5 per cent. of the normal fall. In the case of North Behar, it having received absolutely no rain during the past week, it cannot be expressed as a percentage of the normal. The explanation of the fact that Orissa has received the largest fall, while South-West Bengal stands next in order, has already been given. The number of rainy days in the Province has also been in all cases below the normal, and the defect is in almost all cases somewhat large. The only district in which the number of rainy days at all approaches the normal is East Bengal, the deficiency here being only one-tenth of the normal amount.

Taking up the divisions separately, it will be found that in Orissa it is the southern district of Pooree which has received the largest amount of rain, while the Cuttack and Balasore districts are even more largely in defect than the above numbers would show. In South-West Bengal the districts are fairly uniformly in defect, though Moorshedabad was more largely in defect than the average, while some parts of the 24-Pergunnahs, Hooghly and Howrah districts received almost a normal fall. In East Bengal the Chittagong, Furreedpore and Chittagong Hill Tracts divisions have been very largely in defect. In North Bengal the Dinagepore, Rungpore, Julpigoree, Cooch Behar, and Darjeeling districts have received almost absolutely no rain, and, as before stated, the whole of North Behar has been rainless. In South Behar only the Monghyr and Sonthal Pergunnahs districts have received very small quantities of rain, while all the other districts were perfectly rainless. In Chutia Nagpur the Singbhoom and Manbhoom districts have received light rain, while the Hazaribagh and Lohardugga districts have been rainless.

Saturday, 13th October.—Pressure had risen rapidly in all districts, and was very high. It was largely above the normal, the average excess was about 0·12″, though in Chutia Nagpur the excess was only 0·08″, while at Durbhanga it was 0·16″. Temperature had risen in East Bengal. It was almost stationary in Chutia Nagpur, Behar, North and South-West Bengal, while it was falling in Orissa. It was considerably below the normal in East Bengal, while it was above the normal in all other districts. Winds were southerly at most stations in East and South-West Bengal, and in Chutia Nagpur, and at many stations in Behar. North-easterly winds, however, still prevailed in Orissa and North Bengal. Wind

velocities had distinctly increased in the southern and eastern divisions, but remained small in Behar. Humidity continued to increase, except in Chutia Nagpur, where it was small. It was high in Orissa, East and North Bengal, and at some stations in North Behar and South-West Bengal The sky was almost free from cloud in South Behar and in Chutia Nagpur. It was moderately clouded in North Behar and North Bengal, while at most stations in South-West and East Bengal, and in Orissa, the sky was almost completely overcast. Rain, light to moderate in amount, was general over the whole of Orissa, South-West and East Bengal. A few showers also fell in North Bengal, but the remainder of the Province was rainless. The following were the largest amounts reported to-day :—Kishnaghur 2·26 inches, Pooree 2 inches, False Point 1·83 inches, Mohesreka 1·71 inches, Naraingunge 1·6 inches, Contai 1 31 inches. Manickgunge 1·30 inches, Balasore 1 08 inches, and Beauleah 1·02 inches. The following stations received amounts between half and one inch:—Kendrapara, Chandbali, Diamond Harbour, Calcutta, Jehanabad, Ranaghat, Kooshtea, Satkhira, Magoorah, Jungipore, Barrisal and Noakhally.

Sunday, 14th October. - Pressure continued to increase in all districts, though by somewhat irregular amounts. It was largely above the normal, and the excess pressure over the whole Province was nearly 0·14″. The changes of temperature since the 13th were not large. Temperature was distinctly below the normal in Orissa It was about equal to the normal in South-West and East Bengal, while at most stations in Behar it was above the normal. Winds were distinctly irregular in all divisions. Southerly winds were reported from some stations in all districts, but, except in South-West Bengal, northerly winds still showed a stronger influence than the southerly winds in all districts. In South-West Bengal almost all the stations reported south-easterly winds. Wind velocities were a little stronger than they had been lately, but they were still small. There was a considerable increase in both humidity and cloud at almost all stations. Cloud proportion was high in all divisions, except East Bengal A fair number of showers fell in Orissa and a few only in South-West, East and North Bengal. One or two showers also fell in the southern districts of South Behar and Chutia Nagpur, but the larger part of the reporting area was quite rainless. The following were the only amounts worthy of record on this day :—Jellasore 1·48 inches, Pooree 1·04 inches, Purulia 0·87 inch, Dum-Dum 0·83 inch, Khurdah 0·73 inch, and Nattore 0·54 inch.

Monday, 15th October.—Pressure continued to increase in all districts, except North Bengal, where the barometer was falling at most stations Pressure was comparatively low in North Bengal, but it was largely above the normal over the whole reporting area. The excess pressure ranged from 0·20″ at Durbhanga to 0·10″ at Gya. Temperature had risen in Orissa and at many stations in North Bengal and North Behar; elsewhere the changes were rather variable. Temperature was considerably above the normal in all districts. The excess in Orissa, South-West and East Bengal was about 1°, in South Behar it was about 2°, while in North Behar and Chutia Nagpur it was equal to about 5°. Winds were decidedly variable in all districts, though the northerly element predominated at most stations. Winds were very light over the whole Province. Humidity was decreasing slightly, and was moderate in all districts. The proportion of cloud also was moderate in all divisions. A few local showers fell in Orissa, South-West and North Bengal, and at one or two stations in South Behar and Chutia Nagpur, but almost the whole reporting area was rainless. The only heavy showers were at Maliara 1 7 inches, Chyebassa 0·62 inch, and Rampore Haut 0·27 inch.

Tuesday, 16th October.—Pressure had decreased at nearly all stations. The decrease was largest in North and South Behar, where it amounted to about 0·05,″ and least in East Bengal and Orissa Notwithstanding this decrease of pressure, it was still above the normal in all divisions, the excess pressure ranging from 0·11″ at Durbhanga and Hazaribagh to 0·08″ in East Bengal. Temperature was rising in East Bengal, Chutia Nagpur, and at most stations in North Bengal, but in North Behar temperature was falling. In other districts the changes were small. Temperature was about 5° above the normal in Chutia Nagpur, about 2° above the normal in North Behar and East Bengal, and about 1° above the normal in Orissa, South-West Bengal and South Behar. Winds continued light and irregular. South-westerly winds were blowing in South Behar, and at some stations in South-West Bengal and North Bengal, but northerly winds generally prevailed in other districts. Wind velocities in all cases were small. Humidity began to decrease in all districts, and was small in South Behar and Chutia Nagpur. Cloud proportion had also diminished rapidly at almost all stations. Very small amounts of cloud were reported. One or two showers fell in South-West, East, and North Bengal, but the whole Province was almost rainless. The only amounts of rain worthy of record were Netrokona 0·96 inch, Rampore Haut 0·47 inch, Mymensingh 0·37 inch and Bogra 0 31 inch.

Wednesday, 17th October.—Pressure had increased somewhat rapidly in Chutia Nagpur, Behar, and North Bengal, but in South-West Bengal the decrease was rather smaller. In East Bengal most stations reported a slight increase of pressure. Pressure in South and North Behar was relatively low, though at all stations it was above the normal of the day, the excess ranging from 0·08″ at Chittagong to 0 01″ at Patna. Temperature continued high in all districts, and was above the normal at all stations except False Point. Temperature was 3° above the normal in Chutia Nagpur, and from 1° to 2° above it at nearly all the other reporting stations. Winds continued rather irregular, though there was a decided increase in the number of stations reporting southerly winds. The majority of stations this morning reported southerly and south-westerly winds, and the wind velocity had also

increased slightly at most stations. Humidity continued to decrease and was very small at the stations in Behar and Chutia Nagpur. It was also fairly small at most other stations. Cloud proportion had again decreased, and South West Bengal, North and South Behar, and Chutia Nagpur reported practically cloudless skies. A few local showers again fell in East, North, and South-West Bengal, but the remainder of the reporting area was quite rainless. The largest amounts received were Jessore 0·96 inch, Khatra 0·9 inch, Culna 0·88 inch, Jamalpore 0·38 inch, Pubna 0·6 inch, Netrokona 0·17 inch, Serajgunge 0·38 inch, and Magoorah 0·31 inch.

Thursday, 18th October.—Pressure continued to decrease in Orissa and South-West Bengal, and at some stations in East and North Bengal, but it was increasing slightly in Behar and Chutia Nagpur. Pressure was comparatively low at most stations in South Behar, but it was at almost all stations decidedly above the normal for the day. In Orissa, South-West Bengal, and Chutia Nagpur the average excess pressure was 0·04″, while in East Bengal and North Behar it was 0·07″. The changes of temperature were small and variable. It was, however, rising generally in South-West Bengal and Orissa. It was above the normal in all districts. The average excess temperature in Chutia Nagpur and South-West Bengal was 2°, while it was about 1° in the other divisions. Winds continued rather variable. There was, however, a strong south-westerly element in the winds in South Behar and South-West Bengal, and a strong easterly element in the winds in East and North Bengal. The northerly element in the winds was not so strong to-day as it had been lately. Wind velocities had distinctly increased in almost all divisions, and moderate winds were blowing. With the extension of the southerly winds humidity was fairly high in all districts, except South Behar and Chutia Nagpur, where it continued small. Cloud proportion had also increased from the extension of the southerly winds, and was moderate in all districts, except in Chutia Nagpur, where the sky was cloudless

One or two showers were reported from Orissa, South-West, East and North Bengal, but the whole of Behar was absolutely rainless. The only amounts of rain worthy of record fell in the Mymensingh district, when Jamalpore received 0·77 inch, Kishoregunge 0·62 inch, Netrokona 0·53 inch, and Mymensingh 0·47 inch. In all other cases the amounts did not average more than one or two-tenths of an inch of rain.

Friday, 19th October.—The barometric changes were small and rather variable in all districts, except Behar, where a distinct rise had taken place. This had the effect of making pressure rather more uniform over the whole Province, and only Chutia Nagpur showed comparatively low pressure. Pressure was above the normal by amounts which ranged from 0·11″ in North Behar to 0·03″ in Orissa. The changes of temperature were generally small. It continued above the normal in Chutia Nagpur, Orissa, South-West and East Bengal, but was more nearly normal in Behar Winds became more northerly in almost all divisions. North-westerly winds were general in Chutia Nagpur and South Behar, while north-easterly winds were general in North Behar and North Bengal. They were still south-westerly and westerly in Orissa and South-West Bengal. Wind velocities were diminishing, and light winds prevailed everywhere. Humidity was exceptionally low in Chutia Nagpur and at some stations in South Behar. It was moderate in all other districts. The amount of cloud, however, continued tolerably large in all districts

A few showers fell in South-West and East Bengal, but, with these exceptions the whole reporting area was rainless. Hooghly reported rather a heavy shower of 2·63 inches; Netrokona received 0·63 inch, Baraset 0·61 inch, Fenny 0·56 inch, and Burrisal 0·48 inch. The other amounts reported were small.

METEOROLOGICAL OFFICE, BENGAL,
The 19th October 1883.

ALEXANDER PEDLER, F.C.S.,
Offg. Meteorological Reporter to the Govt. of Bengal.

MEMORANDA.

The returns of the first class Municipalities in Bengal for the week ending 29t September 1883 furnish the following results:—

Rates at which Births and Deaths registered.

	Ratio per mille for weeks ending— 29th September.	22nd September.
Births	26·9	25·3
Deaths	31·4	27 2

exhibiting a further improvement in the record of both events in comparison with the week ending 15th September.

Municipalities which returned the highest birth-rates.

	Ratio per mille.
Gya	70·4
Bhagulpore	62 5
Serampore	45·1
Chuprah	43·0
Patna	30·2

Municipalities which returned the highest death-rates.

	Ratio per mille.
Gya	79·3
Bhagulpore	41 6
Patna	37 0
Santipore	36·6
Ranaghat	36·0
Suburbs of Calcutta ..	35·6
Hughli	32 2
Burdwan	32·0
Poori	30·0
Midnapore	29·4
Chittagong	28·2
Mozufferpore	28 0
Monghyr	27·1
Comillah	27·0
Serampore	25·5
Kishnaghur	25·0

Mortality from the specific death-causes compared with similar information for the preceding week

	Ratio per mille for the weeks ending— 29th September.	22nd September.
Cholera	3 2	2 1
Small-pox	·1	...
Fever	14 5	12 7
Bowel-complaints	4·2	4·3
Injury	·9	6
Other causes	8 5	7·5

The above figures indicate that there was an increase of mortality from all the deathcauses except bowel-complaints, particularly from fever.

Municipalities which are reported to have returned the highest death-rates per 1,000 of their populations from the above-mentioned death-causes, excepting small-pox, which appears to have prevailed only in the Patna, Gya and Bhagulpore towns, and very mildly.

Cholera.

Gya	15 0
Bhagulpore ..	9·1
Suburbs of Calcutta	7 0
Chuprah ..	3·9
Monghyr ..	3·6

Fever.

PART I.

Orders and Notifications by the Lieut.-Governor of Bengal, the High Court, Government Treasury, &c.

ORDERS BY THE LIEUT.-GOVERNOR OF BENGAL.

No. 2168A.

GENERAL.—*The 15th October* 1883.—Mr. A. Borooah, Joint-Magistrate and Deputy Collector, is posted to the sudder station of the Chittagong district.

The 22nd October 1883.—Mr. R. Cornish, Joint-Magistrate and Deputy Collector, on leave, is appointed to act, until further orders, in the first grade of Joint-Magistrates and Deputy Collectors, in the district of Midnapore.

Mr G. J. B. T. Dalton is appointed to act, until further orders, in the second grade of Magistrates and Collectors, in the district of Hooghly, on being relieved of his present appointment as Deputy Commissioner of Cooch Behar.

Mr. J. Posford, Joint-Magistrate and Deputy Collector, and Subordinate Judge, is posted to Mozufferpore, on being relieved of his present appointment as Officiating District and Sessions Judge of Sarun.

Mr. K. G. Gupta is appointed to act, until further orders, in the first grade of Joint-Magistrates and Deputy Collectors, in the district of Cuttack, on being relieved of his present appointment as Officiating Magistrate and Collector of Pooree by Mr. G. M. Currie.

Mr. G. M. Currie, Magistrate and Collector, Chittagong, on leave, is appointed to act as Magistrate and Collector of Pooree, during the absence, on deputation, of Mr. T. J. C. Grant, or until further orders.

Mr. C. F. Worsley is appointed to act as Magistrate and Collector of Chumparun, during the absence, on deputation, of Mr. J. O. Price, or until further orders, on being relieved of his present appointment as Officiating Magistrate and Collector of Monghyr by Mr. H. F. J. Keau.

Mr. A. W. Mackie is appointed to act, until further orders, in the first grade of Joint-Magistrates and Deputy Collectors, in the district of Lohardugga, on being relieved of his present appointment as Officiating Deputy Commissioner of that district by Mr. A. W. B. Power.

Mr. H. A. D. Phillips, Officiating, Joint-Magistrate and Deputy Collector, Midnapore, on leave, is transferred to the sudder station of the Bhagulpore district.

Mr. A. Boroosh, Joint-Magistrate and Deputy Collector, Chittagong, is appointed to act, until further orders, in the first grade of Joint-Magistrates and Deputy Collectors.

Mr. H. W. Gordon, District and Sessions Judge, Mozufferpore, on leave, is appointed to be District and Sessions Judge of Sarun.

Mr. A. L. Clay, Deputy Commissioner, on leave, is posted to the district of Manbhoom.

Mr. F. J. G. Campbell, Officiating District and Sessions Judge of Furreedpore, is confirmed in that appointment.

Mr. F. W. V. Peterson, Officiating District and Sessions Judge of Jessore, is confirmed in that appointment.

Mr. A. C. Brett, Officiating District and Sessions Judge of Mozufferpore, is confirmed in that appointment.

Mr. G. Toynbee is appointed to act, until further orders, as Magistrate and Collector of Dinagepore, on being relieved of his present appointment as Officiating Magistrate and Collector of Purneah by Mr. A. Weekes.

Mr. A. E. Staley is appointed to act, until further orders, in the first grade of Joint Magistrates and Deputy Collectors, in the district of Dacca, on being relieved of his present appointment as Officiating Magistrate and Collector of that district by Mr. F. Wyer.

The 23rd October 1883.—Mr. G. E. Porter, District and Sessions Judge, Gya, is appointed to act in the first grade of District and Sessions Judges, with effect from the 13th instant.

The 24th October 1883.—Mr. W. C. Taylor, Deputy Magistrate and Deputy Collector, in charge of the Khoorda sub-division of the Pooree district, is allowed leave for one month, under section 71, chapter V of the Civil Leave Code, with effect from the 1st December 1883, or such subsequent date as he may avail himself of it.

GULF OF ST. VINCENT—PORT ADELAIDE RIVER.

Beacons on Shoal off Torrens Island.

THE President, Marine Department, Port Adelaide, has given notice that *two* new *beacons* with *triangular heads* have been erected on the shoal running off the S. W. end of Torrens Island, for the purpose of guiding ships of heavy draught through the deep water portion of the channel between the False and North Arms.

When bound outwards, and having passed the Northern buoys of the new cutting, gradually bring the beacons into line, and steer for them until approaching No. 3 Light Beacon, when a course can be made for the entrance of the cutting off the Magazine.

When inward bound, and between the Powder buoy and the entrance to the North Arm, get the beacons into line, and keep them so until the False Arm begins to open out, when a course can then be steered to enter the new cutting.

Offg. Port Officer of Calcutta.

PORT OFFICE, *Calcutta, the 20th October* 1883.

[Fifth Publication.]

NOTIFICATION.

The 1st October 1883.—It is hereby notified that the Lieutenant-Governor intends, after one month from this date, to approve the following additional port rules under section 7 (*f*) of Act XII of 1875 for the control of fishing-boats in the river Hooghly.

Proposed rules.

1. From the lower boundary of the port to Fultah Reach on the river Hooghly a deep navigable channel, not less than 200 yards in width, shall always be left clear for the passage of sea-going vessels, and between the hours from daylight to dark no fisherman shall obstruct the same by mooring or casting a stake net therein. At Sankrail, Peer Sarang, and below Budge-Budge, where the deep water channel lies close to the shore, landmarks have been erected to define the channel to be left clear, and no fishing boats shall be moored nor nets of any description cast between the line indicated by these marks and the shore.

2. Between the hours from daylight to dark no stake net nor drift net shall be cast by fishermen in any part of Garden Reach within port limits.

A. P. MACDONNELL,
Offg. Secretary to the Govt. of Bengal.

DECLARATION.

The 24th October 1883.—Whereas it appears to the Lieutenant-Governor of Bengal that land is required to be taken by Government at the expense of the Calcutta Municipality for a public purpose, viz for widening and improving Brojodulal's Street, it is hereby declared that for the above purpose pieces of land Nos. 43, 44, 45, and 9, Brojodulal's Street, measuring more or less 12 chittacks and 15 square feet, are required.

The lands are bounded as follow :—

Portion marked A on plan.—On the north by a passage; on the south and east by Brojodulal's Street; and on the west by premises Nos. 43, 44, and 45, Brojodulal's Street.

Portion marked B on plan.—On the north partly by premises No. 10, Brojodulal's Street, and partly by Brojodulal's Street; on the south and east by premises No. 9, Brojodulal's Street; and on the west by Brojodulal's Street.

Plans and specifications are filed in the office of the Municipal Commissioners for the town of Calcutta for public inspection.

This declaration is made, under the provisions of section 6 of Act X of 1870, to all whom it may concern.

COLMAN MACAULAY,
Secretary to the Govt. of Bengal.

DECLARATION.

The 24th October 1883.—Whereas it appears to the Lieutenant Governor of Bengal that land is required to be taken by Government at the expense of the Calcutta Municipality for a public purpose, viz. for improving Musjidbaree Street, it is hereby declared that for the above purpose pieces of land Nos. 19, 20, 21, 25, 29, 141, 142, 143, 144, 154, 155, 156, and 157, Musjidbaree Street, measuring, more or less, 1 cottah 10 chittacks and 7 square feet, are required.

The lands are bounded as follow :—

Portion marked A on plan.—On the north by premises Nos. 154, 155, 156, and 157, Musjidbaree Street; on the south by Musjidbaree Street; on the east partly by premises No. 153, Musjidbaree Street, and partly by Musjidbaree Street; and on the west by premises No. 158, Musjidbaree Street.

Portion marked B on plan.—On the north by Musjidbaree Street; on the south by premises Nos. 19, 20, and 21, Musjidbaree Street; on the east by premises No. 21, Musjidbaree Street; and on the west by premises No. 19, Musjidbaree Street.

Portion marked C on plan.—On the north by premises Nos. 141, 142, 143, and 144 Musjidbaree Street; on the south by Musjidbaree Street, on the east by premises No. 141, Musjidbaree Street; and on the west by Musjidbaree Street.

Portion marked D on plan.—On the north and west by Musjidbaree Street, and on the south and east by premises No. 25, Musjidbaree Street.

Portion marked E on plan.—On the north and west by Musjidbaree Street; and on the south and east by premises No. 29, Musjidbaree Street.

Plans and specifications of the lands are filed in the office of the Municipal Commissioners for the town of Calcutta for public inspection.

This declaration is made, under the provisions of section 6 of Act X of 1870, to all whom it may concern.

COLMAN MACAULAY,
Secretary to the Govt. of Bengal.

H. C. LEVINGE,
Secy. to the Govt. of Bengal, P. W. Dept.

The 29th October 1883.

No. 366.—*Notification.*—Whereas a notice, No. 328, dated the 24th September 1883, intimating that the Lieutenant-Governor proposes to declare that clause *b* of section 76 of Act II (B.C.) of 1882 shall take effect over a tract of country extending for one mile from each bank of the rivers or khalls or portions of rivers or khalls specified below, was published in Part I of the *Calcutta Gazette* of the 26th September and 3rd, 10th, and 17th October 1883, and whereas no valid objection has been raised to the proposal, it is hereby notified that, in the exercise of the powers conferred on him by section 6 of the above mentioned Act, the Lieutenant-Governor is pleased to declare that the provisions of clause *b*, section 76, shall take effect within the tract of country described. The erection of any new embankment, or any addition to an existing embankment, or the obstruction or diversion of any watercourse within the tract above defined, without the previous permission of the Collector, is prohibited.

No. 9840, *dated 24th October* 1883.—Dr. R. MacLeod made over charge of the Gya Jail to Mr. J. Boxwell, C.S., in the afternoon of the 15th October 1883.

J. W HANLON, *for Inspector-Genl. of Jails, Bengal.*

HIGH COURT NOTICE.

High Court Mukhtyars.

NOTIFICATION.

IN supersession of the notification dated the 16th August 1883, published in the *Calcutta Gazettes* of the 15th, 22nd, and 29th August 1883, the High Court are pleased to order that the security required by Rule 1 of the Rules made by the High Court on the 17th May 1882, under section 16, clauses (*a*), (*b*), and (*c*), Act XVIII of 1879, shall be deposited with the Registrar of the Court, on its Appellate Side, on or before the 17th November 1883.

Failure to deposit such security by the prescribed date will result in the defaulter's name being struck off the list of selected applicants.

By order of the High Court,
C. A. WILKINS, *Offg. Registrar.*

FORT WILLIAM, *the 31st August* 1883.

Sheriff's Office, the 17th October 1883.

NOTICE is hereby given that the Sixth Criminal Sessions of the year 1883 of the High Court of Judicature at Fort William in Bengal, for the Town of Calcutta and Factory of Fort William, and the places subordinate thereto, will be holden at the Court House, in the Town of Calcutta, on Wednesday, the Twenty-first day of November next, at 11 o'clock in the forenoon, and so on from day to day until the said Sessions be over. And it is hereby proclaimed that all persons who will prosecute any of the prisoners to be brought up for trial at the said Sessions be present then and there to prosecute.

SYAD ASGHAR ALLY, *Sheriff.*

NOTIFICATIONS OF THE BOARD OF REVENUE.

No. 1110B.

NOTICE is hereby given that the Eleventh Sale of Opium, the Provision of 1881-82, will be held at the Government Opium Sale-room, No. 2, Bankshall-street, on Thursday, the 1st November 1883, at 11 A.M., and will comprise 4,450 chests, viz:—

	Chests.
Opium manufactured at the Patna Factory of 77° consistence ...	2,225
Opium manufactured at the Ghazipore Factory of 72° consistence ...	2,225
Total ..	4,450

2nd. The general conditions of the sale now advertised will be the same as usual. They may be ascertained by reference to the Notification issued on the 28th November 1882, and published in the *Government* and *Exchange Gazettes*, or on personal application at the Office of the Board of Revenue.

3rd. The latest dates for deposit and clearance will be the 6th and 16th November 1883, respectively, that is to say, no Bank of Bengal Receipts, Government Promissory Notes, or other public securities that may be tendered for deposit in redemption of Promissory Notes given by purchasers in the Sale-room will be received after 3-30 P.M. of Tuesday, the 6th November 1883, and no Bank of Bengal Receipts in full payment of lots will be accepted after 3-30 P.M. of Friday, the 16th November 1883.

4th. In addition to the quantity above advertised for sale, the following quantities, more or less, of the opium manufactured at the Patna and Ghazipore Factories will be brought to sale in the present year, about the dates specified below. The Board of Revenue, however, reserve to themselves the right of altering these dates, should circumstances render it expedient to do so.

DATES.	Manufactured at the Patna Factory, about chests.	Manufactured at the Ghazipore Factory, about chests.	Total, about chests.
On or about Monday, 3rd December 1883 ...	2,225	2,225	4,450
Total ...	2,225	2,225	4,450

By order of the Board of Revenue, L. P.,
C. E. BUCKLAND, *Offg. Secretary.*

BOARD OF REVENUE, L.P., FORT WILLIAM, *the 25th September* 1883.

No. 1135½B.

THE following rules have been made under section 9 of Act VIII of 1878 by the Board of Revenue, Lower Provinces, with the sanction of the Local Government, and are, under section 204 of the same Act, notified for general information :—

CALCUTTA INTERNATIONAL EXHIBITION, 1883-84.

CUSTOM HOUSE ARRANGEMENTS.

1. All entries of goods for the Exhibition must be passed at the Custom House in accordance with the arrangements made by the Collector of Customs.

2. In respect of dutiable goods the Exhibition building is appointed a public warehouse under the provisions of section 15 of Act VIII of 1878, of which Mr. Jules Joubert shall be deemed to be the keeper for the purposes of section 96 of that Act.

3. Packages containing dutiable goods, upon which duty has not been paid, must be entered for bond and appraised and taken in charge of an officer to the Exhibition building in the usual manner. Pending appraisement and removal to the Exhibition building, all such packages will be allowed to remain rent-free in a portion of the Custom House premises set apart for the purpose.

4. At the close of the Exhibition, exhibitors will have to account to the Custom House authorities for all dutiable goods admitted into the Exhibition in accordance with the bond bill of entry. Goods intended for delivery in Calcutta on sale or otherwise will on payment of duty be cleared from bond, and goods intended for re-exportation will be re-shipped from bond in the usual manner.

5. The charges mentioned in the schedule attached to these rules are remitted in respect of goods intended for the Exhibition.

6. No duty will be payable for wines, spirits, or other liquors consumed in the Exhibition for tasting or judging purposes, and a certificate of the amount thus consumed must be obtained from the Secretary to the Executive Committee of the Exhibition and presented by exhibitors to the Custom House officer when accounting for the dutiable goods admitted into the Exhibition. Without such certificate duty will be assessed on all dutiable goods shown by the bills of entry as having been admitted into the Exhibition and which are not forthcoming at its close.

7. The Custom House officers will not have custody of, or be in any way responsible for, goods in the Exhibition building, the custody of which as a public warehouse will rest with Mr. Jules Joubert.

8. These rules apply only to goods intended *bonâ fide* for Exhibition.

SCHEDULE.

		Rs	A.	P.

No. 1189B.

OPIUM.
H. A. Cockerell, Esq., C.S.I.

IT is hereby notified that the 125 chests of opium manufactured at the Patna Factory (consisting of 15 chests of 76° and 110 chests of 77° consistences), which were reserved for the French Government at the sales held respectively on the 3rd and 26th September 1883, and which have not been cleared, will be re-sold on account of Government on Thursday, the 1st November 1883, immediately after the conclusion of the sale of the 4,450 chests to be sold on that day.

2. The conditions of the re-sale will be the same as those of the sale to be held on the 1st November 1883.

By order of the Board of Revenue, L. P.,

C. E. BUCKLAND, *Offg. Secretary.*

CALCUTTA, *the 20th October* 1883.

No. 1194 B.

CUSTOMS.
H. A Cockerell, Esq., C.S.I.

THE following Rules for the Port of Calcutta have been made under section 9 of Act VIII of 1878 by the Board of Revenue, Lower Provinces, with the sanction of the Local Government, and are, under section 204 of the same Act, notified for general information :—

RULES.

1. When it is intended to transfer to a foreign bound vessel rice imported from a customs port, such rice may be kept afloat in cargo boats covered by boat-notes from the importing vessel at such place or places as may be indicated by the Customs authorities.

2. When a shipping bill for such rice has been obtained, the bags at the hatches will be marked to correspond with the shipping bill, and the boat conveyed under an export boat-note to the exporting vessel, where the remaining bags, if not previously so marked, will be marked to correspond with the shipping bill as they are put on board.

3. All such rice must be either re-shipped or landed within seven days from the date of the boat-note granted from the importing vessel.

By order of the Board of Revenue, L. P.,

C. E. BUCKLAND, *Offg. Secretary.*

CALCUTTA, *the 23rd October* 1883.

No. 1225B.

NOTICE is hereby given that the Twelfth Sale of Opium, the provision of 1881-82, will be held at the Government Opium Sale-room, No. 2, Bankshall-street, on Monday, the 3rd December 1883, at 11 A.M., and will comprise 4,450 chests, viz :—

	Chests.
Opium manufactured at the Patna Factory, consisting of 250 chests of 76° and 1,975 chests of 77° consistence	2,225
Do. do. at the Ghazipore Factory of 72° consistence ...	2,225
Total ...	4,450

2. The general conditions of the sale now advertised will be the same as usual. They may be ascertained by reference to the Notification issued on the 28th November 1882, and published in the *Government* and *Exchange Gazettes*, or on personal application at the office of the Board of Revenue.

3. The latest dates for deposit and clearance will be the 8th and 18th December 1883, respectively—that is to say, no Bank of Bengal Receipts, Government Promissory Notes, or other public securities that may be tendered for deposit in redemption of Promissory Notes given by purchasers in the sale-room will be received after 1-30 P.M. of Saturday, the 8th December 1883, and no Bank of Bengal Receipts in full payment of lots will be accepted after 3-30 P.M. of Tuesday, the 18th December 1883.

By order of the Board of Revenue, L.P.,

Advertisements.

[N.B.—Advertisements, Notices, &c., intended for insertion in this part of the Gazette, cannot be received after Noon on Monday.]

LAND SALE NOTICES.

NOTICE is hereby given that the proprietary right of Government, as specified in the conditions of sale below, to the undermentioned land situate in the district of Hazaribagh will be put up to sale at the Hazaribagh Collectorate on Thursday, 15th November 1883, corresponding with 1st Aghan 1291 Fush.

The purchaser will be subject to the following conditions of sale :—

Conditions of Sale.

1*st*.—The land to be sold revenue-free to the highest bidder above the upset price. The purchaser of this land will be considered as the proprietor of the land, and the entire proprietary right of Government in such land will be transferred to him.

2*nd*.—If the amount of purchase-money do not exceed Rs. 100, the whole amount to be paid down at once.

3*rd*.—If the amount of purchase-money exceed Rs. 100, one-fourth of the amount bid to be immediately deposited. If the balance be not paid by noon of the fifteenth day after the sale, reckoning the day of sale as one, or if that day be a close holiday, then by noon of the first succeeding office day, the sale to be cancelled (the sum deposited being forfeited to Government), and the land to be again put up to sale at the risk of the defaulting purchaser, after issue of advertisement, as in the case of original sale.

H. COLLIE, Head Asst. to Dir. of Public Instruction.

Calcutta, the 29th October 1883.

Government Cinchona Febrifuge.

THIS preparation is an efficient substitute for Quinine and can be purchased by Government officers for public and charitable purposes, and by any one taking *twenty pounds* at a time, from the Superintendent, Botanical Garden, Calcutta, *for cash only*, at the following rates:—per four ounce tin, *Rs.* 4 *ans.* 8; per eight ounce tin, *Rs.* 8 *ans.* 8; per pound tin, *Rs.* 16 *ans.* 8. The general public can be supplied by the Superintendent, Botanical Garden, *for cash only*, at the undernoted rates:— per four ounce tin, *Rs.* 5 *ans.* 8; per eight ounce tin, *Rs.* 10 *ans.* 8; per pound tin, *Rs.* 20. This medicine is also sold by the principal European and Native druggists in Calcutta. Postage eight annas per 4 and 8 ounces, and twelve annas per pound tin, in addition to the foregoing rates.

Notification.

IT is hereby notified for information of the public that a duplicate receipt for an amount exceeding Rs. 20 is liable to a stamp duty of one anna under Article 23 (*a*), Schedule I of Act I of 1879, and should, under section 16 of the Act, be stamped before or at the time of execution. If the duty payable on the duplicate receipt is denoted by an adhesive stamp, such stamp should be cancelled *so that it cannot be used again*. Any person signing a duplicate receipt when the amount exceeds Rs. 20 without the same being duly stamped, is liable to be criminally prosecuted under section 61, Act I of 1879, and punished with a fine which may extend to Rs. 500; and any person neglecting or omitting *to effectually cancel the adhesive stamp* and in payment of stamp duty renders himself liable to a fine which may extend to Rs. 100.

The attention of banking, mercantile, and trading community is especially drawn to the requirements of the law on this point.

G. M. GOODRICKE, Collector of Calcutta.

Calcutta Collectorate, the 13th September 1883.

(1645—1) ROBERT MITCHELL, Chairman.

In the Court of the Second Subordinate Judge of 24-Pergunnahs.

EXECUTION CASE No. 40 OF 1882.

The Secretary of State for India in Council, Decree-holder, *versus* the Chairman of the Canning Municipality Judgment-debtor.

TO be peremptorily sold by the Nazir of the District Court of the 24-Pergunnahs, in the sale-room of the Court-house, on 5th day of November 1883 next, at the hour of 12 o'clock at noon, pursuant to the decrees of the aforesaid Court made in suits No. 19 of 1871, No. 102 of 1872, No 18 of 1873, and No. 90 of 1873, (wherein the Secretary of State for India in Council is plaintiff and the Chairman of the Port Canning Municipality is defendant), and dated the 27th April 1871, 11th February, 10th April and 20th December 1873, respectively, the undermentioned properties of the defendant in one lot. The amount due to the decree-holder is Rs. 6,31,279-14-0.

(1) All that revenue-free Sunderbun grant No. 54, lying within the jurisdiction of Canning Town thanah, sub-registry Baripur, excepting Canning Town fee-simple town lots, as shewn in Schedule A, Part I, and Government reserved lots, as shewn in Schedule B. The recorded area of this grant is 17,995 beegahs 12 cottahs, more or less, and it is butted and bounded as follows:—On the north by the river Biddyadhari; east by the rivers Biddyadhari and Mutlah; south by Mallee khal; and west by Taldie khal.

(2) All that reserved portion of revenue-free Sunderbun grant No. 50, lying within the jurisdiction of Canning Town thanah, sub-registry Baripur, chowki Baripur, excepting Canning Town fee-simple town lots, as shewn in Schedule A, Part II. The recorded area of this portion of the grant is 1,951 beegahs, more or less, and it is butted and bounded as follows:—On the north by Mallee khal to an extent to be measured by drawing a straight line from the north-east corner of the grant in a westerly direction to a point on the bank of Mallee khal; on the east by the river Mutlah to an extent to be measured by drawing a straight line one mile in length from the north-east corner of the grant in a south-easterly direction to a point on the bank of the river Mutlah; and on the west and south by straight lines, each of one mile in length, to be drawn from the western and southern extremities of the said two firstly-mentioned lines in southerly and westerly directions and parallel to those lines respectively.

The properties to be sold are subject to a total charge of Rs. 1,16,658-7-8, namely (1) Rs. 18,315, principal and interest, due under a mortgage deed, dated the 15th June 1870, executed in favour of the decree-holder, as shewn in Schedule C; (2) Rs. 1,03,236-11-1, due to the decree-holder on account of debentures purchased by him, as shewn in Schedule D; and (3) Rs. 25,106-12-7, as set forth in Schedule E, due to private debenture-holders.

Further particulars regarding the properties may be obtained by a reference to the office of the manager of the Port Canning Municipal Estate, Alipore Collectorate.

N.B.—The Port Canning Land Improvement Company, Limited, to whom the town lots mentioned on the margin were allotted by the Canning Municipality in commutation of the debentures surrendered by them, but of which possession was not taken by them, they having failed to pay the full value of the lands comprised in these lots at the stipulated rate of Rs. 1,200 a bigah, have been given the option of selecting in exchange for the lots now standing in their names any other available lands in the two lots which are now advertized for sale at a valuation of Rs. 1,200 per bigah, so as to cover the entire amount of the debentures commuted by them. Mr. E. D. Kilburne also has for a similar reason the option of exchanging for lot No. 81, standing in his name, any other available land measuring 17 cottahs 3 chittacks in either of the lots now advertised for sale.

Town lots standing in the name of the Port Canning Company Nos. 6*a* to 10*a*, 27*a* to 29*a*, 33*a* to 38*a*, 48*a* to 50*a*, 83 to 86, 151 to 162, and 196 to 203.

SCHEDULE C.

Statement of the mortgage of the (2 grants in the Sunderbun) Canning Municipal property to Government subject to certain Municipal Debentures issued by the Municipal Commissioners, under the provisions of Act III (B C.) of 1864.

Rupees 22,200 was advanced by the Secretary of State for India in Council under date the 15th June 1870, on a mortgage of the Canning municipal property, to enable the Commissioners to pay off certain pressing claims. This amount was repayable in four equal instalments, with interest at 5 per cent., falling due on the following dates :—

1st April 1870
1st October ,,
1st April 1871
1st October ,,

Of these, the first two instalments were paid with interest on the 22nd June 1870 and 17th January 1871, viz. Rs. 6,468-2-2 and Rs. 5,966-4 respectively. The remaining two instalments have not yet been paid, owing to the property being attached in execution of the decrees obtained by Government.

	Rs.
Interest on Rs. 11,100, at 5 per cent., from 1st October 1870 to 30th September 1883, being 13 years	7,215
Add principal	11,100
Still due under mortgage ...	18,315

(1580—2)

BULLORAM MULLICK, Second Subordinate Judge.

India General Steam Navigation Company, "Limited."

AN Extraordinary General Meeting of Shareholders of the above Company will be held at the registered office of the Company, No. 4, Fairlie Place, Calcutta, on Monday, the 5th day of November 1883, at noon, to confirm the following resolutions passed at the Extraordinary General Meeting of Shareholders, held this day, the 19th day of October 1883.

"1*st* (*a*). That the shares in the Capital of the Company be consolidated and sub-divided in such manner that the paid-up capital shall henceforth be divided into shares of Rs. 100 each. Every member holding a fractional share or shares which cannot be brought into such consolidation and sub-division shall continue to have the rights he now has as regards such fractional share or shares.

"(*b*). That the existing certificates of shares be called in by the Directors and cancelled, and that new certificates be issued.

"2*nd*. That the 50th Article of Association be rescinded, and that the following article be substituted, namely:—

"Article 50.—Every member shall have one vote for each share held by him, but no member shall be entitled to vote unless he shall hold five shares at the least. Fractional shares, aggregating Rs. 100 or upwards, shall entitle the holder to one vote for each aggregate of Rs. 100."

Dated this 19th day of October 1883.

By order of the Directors,

(1638—2) J. GILLMAN, Offg. Secretary.

LOST the lower half of Government Promissory Note No. 032555 of the 4 per cent. 1842-43 Loan for Rs. 5,000, originally standing in the name of the Bank of Bengal, and last standing in the name of the proprietor Mr. J. L. Gallott by whom it was never endorsed to any other person. Payment of the above note and of the interest thereon has been stopped at the Public Debt Office, and an application is about to be made to Government for the issue of a duplicate note in favour of the proprietor Mr. J. L. Gallott.

KING, HAMILTON & Co.,
7, Hare Street, Calcutta.

(1641—3)

Estate J. G. Hanhart, deceased.

ALL the articles which were entrusted for repairs or otherwise to the firm of late J. G. Hanhart, watchmaker, deceased, of 13-2, Government Place, if not claimed within four months from this date, will be sold by public auction without further notice.

H. GOLAY, Executor to the Estate.

Calcutta, the 21st August 1883. (1441—5)

INSOLVENT NOTICE.

In the Court for the Relief of Insolvent Debtors at Calcutta.

In the matter of GOPAUL CHUNDER PAGE, an insolvent.

Notice that an application for an *ad interim* protection order has been this day made by the said insolvent and that such application will be heard and disposed of by the Acting Commissioner of the Insolvent Court on Thursday, the 8th day of November next, at the hour of 10 o'clock in the forenoon.

☞ "Any creditor of the said insolvent desirous of opposing such application must appear before the said Court at the time and place aforesaid."

Nundogopal Newgie, Attorney.

Chief Clerk's Office, the 29th day of October 1883.

(1649—1)

JOHN ELIOT, M.A., *Meteorological Reporter to the Govt of Bengal.*
CALCUTTA, the 26th August 1875.

Notes on Forestry,

BY C. F. AMERY,

Deputy Conservator, Forests, N.-W. Provinces.

THIS little work, published with the approval of the Government of India, treats of the general principles of forest management in all its branches, and is recommended not only to forest officers, but to all who are interested in the progress of forest management in this country.

May be obtained of Messrs. King, King & Co., Bombay, and of Messrs. Wyman & Co., Calcutta. Price Rs. 3-8, or including postage, Rs. 4. Or of the publishers, Messrs. Trübner & Co., Ludgate Hill, London. Price five shillings.

The Indian Law Reports.

Published under Authority of the Governor-General in Council.

THE Reports appear in monthly parts, published as soon as possible after the first of each month at Calcutta, Madras, Bombay, and Allahabad, and will comprise four series,—one for the Calcutta High Court, a second for the Madras High Court, a third for the Bombay High Court, and a fourth for the Allahabad High Court. The cases heard by the Privy Council on appeal from each High Court will be reported in the Series for that High Court. Cases heard by the Privy Council on appeal from Provinces in India not subject to any High Court will be reported in the Calcutta Series.

The Parts of each series can be had separately, or all four Parts can be had stitched into one wrapper at the option of subscribers and purchasers. It will be observed from the following statement of the terms of subscription and sale, that a considerable reduction is allowed to persons taking the complete set.

Terms of subscription, payable annually in advance

	Without postage.	With postage
For the Calcutta Series...	Rs. 35	Rs. 40
„ Madras Series ...	„ 8	„ 9
„ Bombay Series...	„ 8	„ 9
„ Allahabad Series	„ 8	„ 9
Complete set	45	„ 50

The Price of each part purchased separately will vary according to the amount of matter it contains, and will be printed on the wrapper. It will, however, never be below the following:—

	Rs.	A.
For a part of the Calcutta Series ...	3	8
„ „ Madras Series .	1	0
„ „ Bombay Series ...	1	0
„ „ Allahabad Series ...	1	0
Complete set	4	0

Persons desiring to subscribe for or purchase the Reports, should apply to—

Messrs. Thacker, Spink and Co., Calcutta;
„ Thacker, Vining and Co.;
„ Higginbotham and Co., Madras;
The Government Central Book Depôt, Bombay;
The Government Book Depôt, Allahabad.

Notice.

THE following Reports of the Bengal Meteorological Department, issued by orders by the Government of Bengal, can be supplied to the public at the prices annexed:—

1st.—Bay of Bengal Daily Report giving observations taken at 17 stations on or near the coast of the Bay, with a chart and summary. This is published in connection with the Calcutta Storm Signal Service. The report giving 10 A.M. observations of the day is distributed by peon in Calcutta after 4 P.M. Price to subscribers in Calcutta, Rs. 2 per mensem.

2nd.—Bengal Daily Report containing observations taken at 30 meteorological stations, and transmitted to Calcutta by weather telegrams, with a brief summary of the weather in Bengal during the preceding 24 hours. The report giving the 10 A.M. observations of each day is printed in time for the evening mail. This report for the present will only be published during the south-west monsoon, *i.e.* from May, 15th, to November, 15th. Price Rs. 2-8 per mensem, including postage.

3rd.—A Weekly and Monthly Statement of Meteorological Observations taken at 38 observing stations, and of rainfall recorded at 160 sub-divisional stations, together with summaries of the more important features of the meteorology of the past week or month of the province, and of the distribution of the rainfall and its variation from the normal. Price of the Weekly Report, including postage, Rs. 6 per annum, payable in advance, and of the Monthly Summary Report, Rs. 2 per annum, payable in advance.

Subscriptions payable to the Meteorological Reporter to the Government of Bengal for the Bay of Bengal Daily Report, and to the Accountant and Treasurer, Bengal Secretariat, for the other reports.

JOHN ELIOT.
Meteorological Reporter to the Govt. of Bengal.
Meteorological Office, Bengal, the 3rd July 1883.

RESOLUTION ON THE REPORT ON ESTATES UNDER THE DIRECT MANAGEMENT OF GOVERNMENT IN THE LOWER PROVINCES OF BENGAL FOR 1882-83.

REVENUE DEPARTMENT.—LAND REVENUE.

Darjeeling, the 20th October 1883.

RESOLUTION.

READ—

A Report by the Board of Revenue on estates under the direct management of Government in the Lower Provinces of Bengal for the year 1882-83.

In reviewing the Report on the Land Revenue Administration of the Lower Provinces for 1881-82, the Lieutenant-Governor made the following remarks:—"In dealing with the subject of estates under the direct management of Government, the Lieutenant-Governor would in future desire much more detailed and specific information than the present form of the Board's Annual Report affords. He would wish, at any rate, that the report on this branch of their administration should form a separate and distinct chapter, in which the general character of the management, whether by European or native agency, should be reviewed in each district." The Board now respond to that invitation by submitting a separate report, which, compared with last year's statement, gives in much fuller detail an account of the management of Government estates in these Provinces. On future occasions the Board will probably be in a position to communicate to Government more systematically the information which is needed; and it may be found unnecessary to submit a separate report on this subject—a chapter in the Land Revenue Administration Report

will probably suffice. On the present occasion, however, the Lieutenant-Governor thinks that the Board of Revenue have exercised a wise discretion in giving to the subject that independent consideration which the special circumstances of the time require.

2. In the Report now under consideration, the term "Government estate" is applied to two classes of property—to estates which, belonging exclusively to Government, are under direct official management; and to estates the property of private parties, which are, owing to the recusancy of the proprietors, managed by Government. It has already been noticed in the review of the Board's Land Revenue Administration Report that there are 2,706 Government estates in these Provinces, with an annual rental of Rs. 19,96,054. All these estates, however, are not under the direct management of the officers of Government; some, for instance, being let out on farming leases. With Government estates not under direct official management, the Report now under notice has no concern; but, on the other hand, it does take account of those estates which, though not the property of the State, are under Government control. The Board do not on the present occasion fully distinguish the one class of estates from the other class; but the distinction is necessary, and should be observed in future reports.

3. During the last year there were 1,061 estates* under direct management in these Provinces, with an annual rental of Rs. 26,27,360, and these estates were managed at a gross cost of Rs. 1,81,889. The charges for management were thus 6·9 per cent. on the rental, which, it must be allowed, is a moderate percentage, and one which admits of increase (should an improved system of management involve greater cost) without fear of exceeding that reasonable proportion which management charges should bear to income. The financial results of the management of these 1,061 estates during the last year are exhibited in the following figured statement for each division:—

* The Chittagong district is one vast net-work of Government estates, in number about 45,000. For convenience of management, however, these estates are divided into five circles, and each of those circles counts as one estate only in the text.

Division.	Number of estates.	Gross demand.	Current demand.	Collections.	Percentage on gross demand.	Percentage on current demand in 1882-83.	Percentage on current demand in 1881-82.	Cost of management.
1	2	3	4	5	6	7	8	9
		Rs.	Rs.	Rs.				Rs.
Burdwan	80	11,22,005	5,43,847	7,65,653	67·3	140·7	51·6	59,837
Presidency	124	2,88,682	1,91,088	2,03,016	70·3	106·2	97·5	18,218
Rajshahye and Cooch Behar	145	5,13,340	4,25,827	4,27,699	83·3	100·4	105·1	27,442
Dacca	230	3,72,435	2,86,221	2,91,007	78·1	101·6	103·7	14,665
Chittagong	272	6,17,470	3,93,679	4,02,652	65·2	102·2	97·4	30,915
Patna	85	2,02,818	1,66,216	—1,62,135	79·9	97·5	104·1	14,681
Bhagulpore	69	1,38,654	98,216	1,16,130	85·2	118·2	112·4	6,436
Orissa	80	7,14,108	4,43,948	—4,14,362	58·1	93·3	88·9	13,040
Chota Nagpore	32	78,464	78,288	—77,766	98·8	99·0	101·6	1,746
Total ...	1,061	40,43,676	26,27,360	28,60,220	70·7	108·8	89·2	1,81,889

It is thus observable that in every division, except three, the year's collections exceeded the current demand; while in the three divisions in which the receipts fell short of the year's rent, the outstanding balances are small. Taking the Province as a whole, the receipts were 108·8 per cent on the current demand, and 70·7 per cent. on the year's rent plus arrears. These results compare favourably with those of preceding years; and as they seem to have been secured consistently, in some districts at all events, with the redress of some longstanding grievances, they must be pronounced to be satisfactory.

4. The Board consider in detail for each division and district the extent of the outstanding arrears; and the probable reasons for ryot's default of payment. In the Burdwan Division the arrears are chiefly due from the Majnamutha and Jellamutha Estates in Midnapore; but it is gratifying to find that much progress has been made in removing the difficulties that beset the management of these estates. The enormous arrears which had accrued have now been reduced to, comparatively speaking, moderate dimensions, and as the unwillingness of the ryots to pay was not so much founded upon high rates of assessment as upon objections to the measurement and classification of soils fixed by the settlement officer, it may be hoped

that the final restoration of order and confidence, of which there are at last many signs, may not be so long delayed as the Board anticipate. The history of these estates during the last few years conveys to settlement officers the valuable lesson that no settlement proceeding can be successful unless the ryots, with full information as to facts, co-operate, and that progress should be made very cautiously until the co-operation, or at all events the attendance of the ryots, is secured. If the people affected stand aloof, it behoves the settlement officer to limit his operations, and by enforcing his awards in regard to a limited area, to convince the people that they have everything to lose and nothing to gain by an organized abstention such as the Midnapore ryots adopted in these settlements. The provisions of the new Rent Bill will probably strengthen the hands of settlement officers in such proceedings.

The Presidency Division shows considerable arrears only in the 24-Pergunnahs; but as it is explained that out of an outstanding balance of Rs. 69,923, as much as Rs. 47,119 fell due after the year had closed, the arrears would seem to be largely nominal. The disinclination of the ryots to pay under the circumstances does not seem unreasonable. The circumstances under which an arrear is shown before the money becomes due must be exceptional, and the Lieutenant-Governor woud ask the Board to enquire whether the local accounts on this point might not with advantage be brought into harmony with the facts.

In the Rajshahye Division the collections have been better than in the preceding year; and the balances outstanding raise no point of special interest in any district except Julpigoree. Of the arrears in that district, the Deputy Commissioner writes thus:—

"The arrears in this district, which will doubtless come under attention, are, I believe, the result in the main of a bad settlement. I think it was very unfortunate that the settling officers were not directed to make more minute classification of lands. They divided the lands into four classes, viz. –

"Bastu or home land, rupit or low rice land, faringhati or high land, and waste land.

"So far as my experience goes, I believe home lands should be divided into two, and rupit and faringhati each into two, or even three sub-classes, with varying rates. If this had been arranged, if care had been taken that no jotedar should be called on to pay more than twice the rent he had previously paid, and if the enhancement had been distributed so as not to make the rent of one year more than 20 per cent of the previous year, I think the settlement would have been more successful, and the yearly balance would have been small. I have no hesitation in expressing my belief that many of the tenantry in the Western Dooars are rapidly becoming unprosperous; and that, if Government does not quickly undo a great deal of what has been done, the result will be that the mahajan, and not the ryot, will be rooted to the soil."

With reference to these remarks, which suggest over-assessments, the Lieutenant-Governor learns with satisfaction that the proceedings in the Western Dooars, are now being revised under orders of the Board; and he will await the submission of a full report on such revision. Meanwhile, it will be desirable that whenever there is a doubt regarding the fairness of the assessments, defaulting ryots should be treated with patience and leniency.

In the Dacca Division also the collections exceeded the current demand; but there are still large arrears. These arrears occur chiefly in Backergunge, where the existence of a long line of middlemen between the Government and the cultivators of the soil is found to militate against punctual realizations of rent. "Great difficulty," says the Collector, "is experienced in the realization of rents from the under-tenureholders in certain estates, who generally default owing to their inability to collect rents from their cultivating ryots timely. Some under-tenants defer payment until the enforcement of coercive measures, and in the meantime, it is said, they employ the money to their own benefit by laying it out on interest or other speculations which bring them larger profits than what they have to pay as costs in certificate cases."

The practice referred to is not uncommon in other parts of these Provinces, where middlemen, if unpunctual rent-payers, are not usually unsubstantial tenants. If with respect to such tenants the Government may have to wait for its money, it usually gets it in the long run. The case, it may be said, is different with private parties; they cannot always afford to wait, and this is no doubt too often true It is to be hoped, however, that the facilities for realizing rents from tenureholders, which the Lieutenant-Governor trusts will

be provided by the Tenancy Bill, may remove the hardship from which private landlords suffer in this respect.

In the Chittagong Division the collections show some improvement; but there is still much ground to be made up in the way of realizing arrears. It is explained that these arrears are chiefly due to the opposition excited by the action of settlement officers in registering on the rent-rolls nomad cultivators instead of the responsible reclaimers of the soil. That is a question on which the Board have submitted a report to Government, and which is receiving the Lieutenant-Governor's careful attention in connection with the Tenancy Bill. As at present advised, Mr. Rivers Thompson is disposed to think that neither the interest of the landlord nor that of the tenant is advanced by stereotyping a rent system which is by nature changeful. In those partially reclaimed deltaic districts cultivation contracts and expands with the fall or rise in the price of rice, and to insist on a tenant paying rent for ten acres of land, when the market will permit of his cultivating only five acres, is to insist on an impossibility. The ryot absconds, and the demand swells the total of irrecoverable arrears. In these portions of Bengal, the supply of land is still larger than the demand for it. Ryots, therefore, are masters of the situation, and it would be as impracticable, on the one hand, to hold the ryot responsible for the rent of land which it will not pay him to cultivate, as, on the other hand, it would be unjust to refuse recognition of ryotti rights to him who is willing to run the risk of holding waste land in one year on the chance of making money on it the next. The testimony borne in Noakhali to the liberal terms of the settlement should facilitate improved collections. In Tipperah it would appear that a revision of the assessments is necessary.

In the Patna, Bhagulpore, and Chota Nagpore Divisions the outstanding balances call for no special remarks, and in Orissa it may be fairly hoped that the Lieutenant-Governor's recent orders reducing the assessment on the Khoorda Estate will reconcile the ryots to the settlement that has been made.

On the whole, then, it must be admitted that, from a financial point of view, the results of direct management during the year are satisfactory. With some exceptions, it may be accepted that tenants on Government estates have performed their duties towards their landlord fairly well, and it now remains to be seen how far the duties of the Government towards its tenants have been discharged, or, in other words, how the estates have been managed.

5. The Board describe the constitution and allotment of the management fund in the following terms:—

"The management charges are thus provided. Ten per cent. of the total collections on all the estates concerned is appropriated to meet the cost of their management and improvement, and is entered in the provincial accounts as a land revenue receipt. From the assets thus set apart, assignments are made by Government for expenditure on management proper, education, communication, and miscellaneous improvements, to the respective departments which deal with the expenditure for these purposes. Thus a sum equal to 7 per cent of the collections of each year is placed at the disposal of the Board for allocation to districts on account of management proper, including petty settlement work, and ½ per cent for works of improvement. The remaining ½ per cent. is assigned to education and roads, and with this the Board have no concern. As soon as the year's grant is placed at their disposal, the Board make the distribution to districts according as the circumstances of the different districts demand."

As regards the methods of management, the Board divide the agencies employed into four classes according as—(1) the management is carried on by the district staff as part of its ordinary work; or (2) by the district staff helped by a subordinate collecting establishment; or (3) by a manager with a suitable collecting staff; or (4) by a superior collecting staff acting under the Collector's special orders. The Board specify districts in which each class of agency is at work; but considering the classification in the light of those illustrations, it seems to the Lieutenant-Governor that while the third and fourth classes may be properly called managing agencies, it is a misuse of terms to apply the word management to the first and second. They are simply rent-collecting agencies, and with the wider and higher duties of management they have but little connection. From the report under notice, it is impossible to say what number of estates are subject to the control of each class of agency; but it seems that wherever estates are small, and this is the case in many districts, the first description of agency is utilized. The second mode, or a subordinate collecting

establishment to help the ordinary district staff, is employed in Julpigoree and Darjeeling, in some portions of the Orissa, Bhagulpore, and Chota Nagpore Divisions, in Backergunge and Noakholly. Of the third and regular system of management there are few examples, the most notable being the Jeipur Khas Mehals in Bogra; but of the fourth there are examples on a large scale in Chittagong, Pooree, and perhaps Midnapore.

6. Although the Board thus give a fourfold classification of management agencies, they make no comparison of the relative merits of each class. This much, however, may be gathered from the body of the report, that neither by the first nor second class of management is any useful purpose served beyond the mere collection of rent. The many petty estates under direct management through the ordinary district staff are more a hindrance than a help to useful administration. As the Collector of Midnapore says, "they seem to worry and distract the attention of the district officer." The Board are evidently of the same opinion, for they "recommend that the character of each estate, which is now held by Government, should be examined; that shares belonging to Government in joint undivided estates, that very petty estates, and estates in which the land is so scattered that there is no reasonable hope of their benefiting by the attention of Government officers, should be got rid of; the condition being always insisted on that the lands should be measured, and the rights of the tenants carefully recorded before any estate is allowed to pass out of the hands of Government. The full powers of the Collector's management could then be directed to estates which were really capable of benefiting by the effects of it." The recommendations which the Board now make upon this subject coincide with the views which the Lieutenant-Governor has been forming upon it. It is quite true, as the Board observe, that Mr. Rivers Thompson recently withheld his assent from the sale of some petty estates from which the Board have inferred a reluctance on the part of Government to sanction the sale of any Government estates at all. Instances, however, are not wanting where the Lieutenant-Governor, during the past year, did sanction the sale of petty estates, and if he was reluctant to dispose of such estates more unreservedly, it was not because the policy had no recommendations in his mind, but because he was desirous of approving a change of practice only on such a full appreciation of the facts as the report now under notice enables him to form.

7. While so far concurring in the Board's recommendations, the Lieutenant-Governor must, however, say that in regard to the broad policy to be pursued on this subject, he finds nothing to alter in the principle which is now in force. It is still the wish of the Government of Bengal "that as many Government estates as possible should be retained under direct management, so that the officers of Government may be thereby enabled to gain a practical knowledge of the progress of agriculture, of the extent to which the productive powers of the land have been developed, and of the increased money value of the produce." Mr. Rivers Thompson also believes that the rules formulated in chapter III, Vol. I, Board's Rules, are well suited, if intelligently administered, to give effect to the principle, and he therefore would not change them. But if the Lieutenant-Governor finds nothing to alter in the present policy of Government on this subject, he thinks that the practice may well be improved. Estates of sufficient extent and cultivation to support a managing establishment should of course be retained under direct management; so should estates which, though not now yielding an adequate income, afford reasonable expectations of increased rent, either through an extension of cultivation or otherwise; so should petty estates which, though not fulfilling either of the foregoing conditions, yet are capable of being incorporated with other estates into a fairly compact management circle. These are the principles which are now in force, and all that is needed is to correct the practice by abandoning the charge of estates which do not comply with any of the conditions. The Lieutenant-Governor therefore fully approves of the Board's recommendation, and awaits the result of the examination which they recommend in the concluding (84th) paragraph of the report under notice. That examination should be directed to ascertaining not only what petty estates in each district should be exempted from direct management, but also what system of management—whether that in vogue in the Jeipur Mehals in Bogra, or in the Govern-

ment estates of Chittagong, Midnapore or Pooree—should be retained. For the rest, without desiring now to prejudge the question, the Lieutenant-Governor is disposed to think that more is to be expected from the former system than from the latter; things are more likely to improve under the care of a responsible manager than when the entire responsibility rests on an overworked Collector of a district. Financial considerations, however, will have to be considered, and the Lieutenant-Governor will reserve his final judgment till the circumstances of each district are before him.

8. Coming now to the question of the material condition and improvement of Government estates, the Lieutenant-Governor is glad to find that the matter has already engaged the attention of the Board of Revenue, who promise their thorough co-operation in carrying out that policy of agricultural and administrative improvement which this Government desires to pursue. That policy, as Mr. Rivers Thompson also observes with satisfaction, receives the cordial support of the local revenue officers; and if any doubts remained in the Lieutenant-Governor's mind (it need hardly be said that none ever existed) as to the desirability of introducing that policy into the Lower Provinces, those doubts would have been removed by the approval which his proposals have received at the hands of those most competent to judge of their merits. Under such auspices, the inception of a policy of agricultural improvement in Bengal is full of promise. That some initial difficulties have to be overcome in introducing it, the Lieutenant-Governor very readily admits, and from this point of view he considers the explanation which the Board offer for the small progress that has yet been made to be sufficient and reasonable. A good deal has to be done in preparing the way; but in this, as in many other affairs, a beginning is half performance.

9. It is desirable, as connected with the review of last year's operations in Government estates, to consider briefly what has been done in the way of improvements in them; from what has been done to what should be done will be an easy transition.

In the Burdwan Division little was attempted during the year under report except in Midnapore, where some drainage channels have been cleared out in the Majnamutha and Jellamutha Estates. Efforts will, it is stated, be made to induce the ryots of these estates to grow more valuable crops; but there is such a feeling of unrest still prevalent among them from the recent litigation that the Commissioner is not hopeful of success. Neither is the Lieutenant-Governor hopeful of success from spasmodic efforts to introduce staples, which may not be suited to the soil or the aptitudes of the people. It is not thus that progress is to be made, but by well-informed, continuous, and systematic action on principles which will be stated later on.

In the Presidency Division also no efforts were made in any district to effect material improvements except in the 24-Pergunnahs, where some drainage and reclamation work was prosecuted. The Collector states that a better system of agriculture is not needed at present in his district, and Mr. Rivers Thompson is not prepared to dispute that statement. But agriculture is only one out of the many directions in which Government estates afford opportunities for improvement. Methods of treating produce, communications, sanitation, water-supply, land tenures, all these questions, and many others concerning the indebtedness and generally impoverished condition of the ryots, afford openings for improvement no less advantageous than improvement in the mere system of cultivating the soil. The following passage from the report of the Collector of Nuddea affords an example of the extent to which a system of land tenure may depress industry, and of the probable advantages to be derived from its gradual abolition. (It also furnishes a comment on the arguments of those who erroneously declare that the classification of utbundi lands as ryotti in connection with the Rent Bill would be injurious to the interests of zemindars):—

"Utbundi ryots having no rights, take no interest in the improvement of the lands temporarily held by them, and the prevalence of the utbundi system in this district has resulted in the inferiority of the soil, and the consequent neglected state of such mehals under khas management. These ryots only cultivate a portion of a mehal, without caring to bring the whole estate under cultivation. The greater portion of a mehal, therefore, remains uncultivated throughout the year, and is overgrown with weeds and bushes, and at last becomes wholly unfit for cultivation. The intention of the Government in bringing

estates under khas collection, and in extending this system to all Government estates, is frustrated. The estates in this district, in which the utbundi system obtains, have lost much of their importance, and have not derived any of the benefits likely to accrue from khas management.

"To bring such estates under cultivation, and to improve the soil, I would suggest that the mehals may be let out under the system of *jumma rates*. The fixity of low rates, lower than those obtained by the *utbundi system*, will no doubt induce cultivators to accept leases on such terms, and encourage them to improve the soil by bringing lands under cultivation, at least with a view to pay the rent assessed upon their holdings. The cultivators will then know that the lands are their own, and that they will not be ejected as tenants-at-will are. Their interest in the land will thus be increased, and it may be expected that they will spare no pains to improve the condition of their holdings."

In the Rajshahye and Cooch Behar Division something was done in the way of improving communications in Julpigoree and Darjeeling, and in the Bogra Khas Mehals tanks were dug, roads repaired, and Behea sugar presses bought for the use of the ryots. In the Chittagong Division some small expenditure was incurred on roads, and Rs. 4,477 were expended in the Backergunge district of the Dacca Division, where some tanks were repaired. In the Chota Nagpore Division the total expenditure did not exceed a few hundred rupees, and the same may be said of the Bhagulpore Division, where, however, some hopes are entertained of popularizing the cultivation of arrowroot in some Government estates. In Orissa the only considerable expenditure was in the Khoordah Estate, where Rs. 11,360 were spent on drainage, irrigation, and embankment work, and some efforts made to introduce the cultivation of cotton and a better kind of sugar-mill. In the Patna Division, where, owing to the density of the population and its pressure on the soil, improvements are more needed than perhaps in any other portion of the Province, so little was done in the way of agricultural improvements in Government estates that the Board rightly remark "it is not to be expected that Government will rest satisfied with the somewhat half-hearted and abortive attempts that have been made to give effect to their wishes."

10. From the preceding summary of the facts stated in the report, it can hardly be denied that if the ryots in Government estates have by punctually paying their rents deserved well of their landlord, their landlord might during the last year have done more for the ryots. However, the Lieutenant-Governor does not now desire to dwell on past shortcomings: he prefers to look forward to the future with hope rather than with regret to the past; and besides, he admits that there is some force in the following remarks—especially the concluding portion of them—which the Commissioner of the Presidency Division offers in explanation of the poor progress made in his division during the year:—

"It will be observed that no efforts have been made to introduce the cultivation of new staples, nor have any steps been taken to adopt an improved system of agriculture. But it should be borne in mind that most of the estates are petty. The only estate in which agricultural improvements might be introduced is the Panchannogram estate; but the agricultural population are in this, as in other matters, conservative and superstitious to an extent which renders it impossible to introduce, with any chance of success, improvements either in the method of cultivation or in the way of growing more paying staples. They have their traditional system of cultivation, from which they will not depart an inch, and their traditional staples are paddy and sugarcane, which they can opportunely and readily dispose of in the local markets. It should also be borne in mind that Collectors and managers of estates are not practical farmers or agriculturists, and unless an officer has naturally a turn for such matters, his experimental farming, as at home, is apt to turn out a failure instead of a blessing. Add to this that all officers are overburdened with clerical work, and the reason of the failure to introduce or encourage the introduction of new staples, or new experiment in agriculture is not far to seek. To enable an officer to do anything of real use in this line, he must first be trained himself in agricultural matters; and secondly, be allowed an agricultural staff. His managers, Deputy Collectors, and Sub-Deputy Collectors are generally as ignorant of agricultural matters as himself, and any expectations for improvement in district agriculture, where the local officers know nothing about it, are not likely to be realized. An Agricultural Department is not only needed with the Government of India, but in every district; and until this want is supplied, the suggestions which are liberally made by the Agricultural Department cannot be practically acted on in districts."

The Board of Revenue are of opinion that the view which Mr. Monro takes in the matter is correct, and Government has practically admitted that it is so by the scheme which has been drawn up for the formation of an Agricultural Department. That scheme has a twofold object, firstly and chiefly improved

management of landed property, based on a more accurate knowledge of agricutural statistics than we now possess; secondly (and, for the present, secondarily), improvement in the system of agriculture and introduction of better agricultural appliances.

Taking the second object first, the Lieutenant-Governor desires to prevent misconceptions regarding his intentions by stating that it is not his object to enter on a crusade against the system of agriculture generally pursued throughout these Provinces. That would be as hopeless an undertaking as it would be uncalled for. No one is more ready than the Lieutenant-Governor to admit that, looking to the means and appliances at the disposal of the Bengal ryot, he usually gets as much out of the soil as it is possible for him to get. So far as non-scientific agriculture is concerned, there is probably but little to teach him; while scientific farming is not now, and for some time cannot be brought, within his reach. Indications, however, are not wanting that the Bengal or Behar ryot is ready to adopt improved ideas as regards the use of agricultural implements and appliances, new staples, better seed, and improved methods of treating produce, if only these innovations are brought within the range of his scanty means, and recommended by successful practice. To bring such improvements within the ryot's reach, and to tempt him through his self-interest to adopt them, are among the objects which the Lieutenant-Governor has in view for an improvement in the present primitive mode of agriculture throughout the country.

In connection, therefore, with his scheme for an Agricultural Department in these Provinces, the Lieutenant-Governor has established an Experimental Farm in the Nasrigunge Government Estate, in the Shahabad district, which, if it prove successful, may justify the establishment of other farms of the sort in other portions of the country. The Nasrigunge Farm will be under the charge of Mr. D. J. Macpherson, C.S., who has shewn aptitude for the work that will be required of him; and in connection with the farm, the Lieutenant-Governor trusts that it may be found possible to utilize the services of some of the distinguished native students of the Cirencester College. At the farm thus established attention would be directed, on the principles stated above, to all questions of improved tillage, introduction of new staples, improved manuring, selection and distribution of good seed, adoption of mechanical appliances, garden cultivation, arboriculture, canal irrigation, well-sinking, and the conduct of agricultural exhibitions. Eventually the teachings of a Veterinary College to be established may be utilised by the same Department in the breeding and care of cattle. In this way the Lieutenant-Governor thinks that much might be done to improve the condition of Government and Wards' estates.

11. Experiments in agriculture, however, are the least important portion of the Lieutenant-Governor's scheme. His chief object is to provide thoroughly efficient managers for Government and Wards' estates in order that these estates may be for zemindars throughout the Province not only models of efficient collections of rent, but models of efficient management in the widest and best sense of the term. The Lieutenant-Governor's intention therefore is that the experimental farm which he proposes to establish should be a training school in which selected officers of Government, both Covenanted and Uncovenanted, may become acquainted with correct and liberal principles of land management, and in which they may become imbued with the policy, and informed of the most promising methods of fostering agricultural improvements. There will thus be opportunities not only for the acquisition of knowledge regarding zemindari matters generally, and the efficient management of estates, but also for the introduction of agricultural improvements in a portion of the country where the pressure of population on the soil renders such improvements desirable and more practicable than in more sparsely inhabited tracts, and where there is in the farming aptitude of the people a strong probability of successful imitation outside the limits of the estates themselves. The principles and practice which officers will learn in the Government experimental farm and training school will be enforced by them in the properties to the charge of which they may be afterwards appointed, and thus intelligent views as to the treatment of tenantry and a progressive agriculture would have a better chance than now of permeating the country. In order to give wider scope for a practical enforcement of the lessons to be learnt at the training school, the

Superintendent of the Farm will be appointed manager of the numerous Government estates in the Shahabad district.

This aspect of the proposed farm and training school is, therefore, one on which the Board of Revenue is specially interested in its capacity of Director of the Land Revenue Administration of the Province. At the present moment it is to be feared that managers of wards' estates and Government khas mehals too often think that the collection of the demand and reduction of balances is the sole object of their official existence. The Lieutenant-Governor wishes to instil into the minds of all such officers a higher principle of duty, and by practice as well as by precept to teach them that it is as much their business to attend to the welfare of the tenantry entrusted to their charge as it is to collect rents.

12. Briefly summing up then what has been said—at the farm, worked on the principles thus outlined, Mr. Rivers Thompson would station for a limited period of time certain officers afterwards to be employed in the management of landed property, and he would have them learn from the daily well-ordered routine of the farm operations a knowledge of practical agriculture, so that they may, when they reach independent positions, be able intelligently to appreciate what they see around them, suggest corrections, and introduce reforms He would have them trained in land surveying, in a knowledge of soil classification and of the suitability of various crops to each soil class, in opportunities of ascertaining the due proportion which rent should bear to produce, in order that they may realize the claims and needs of the tenantry in estates committed to their care. They would also become by practice acquainted with the intricacies of zemindari forms and accounts. These and other similar details of land management, if learnt at such an institution as the Lieutenant-Governor desires to see at work, will fit men for the performance of duties which, looking to the opportunities for good presented by them, are perhaps as responsible as any others under Government, but which now are too frequently entrusted to officers with no previous training, and often no aptitude for such avocations.

13. Such is in outline the objects which the Lieutenant-Governor has in view. He is glad to note that they have already received cordial acceptance at the hands of the Board of Revenue and the local revenue officers, than whom there could be no more competent judges either of their necessity or of their practicability. It is recognised that it will take some time for such a policy of improvement to produce effects, but it starts at any rate under good auspices.

By order of the Lieutenant-Governor of Bengal,

A. P. MACDONNELL,

Offg. Secretary to the Government of Bengal.

RESOLUTION ON THE REPORT ON THE ADMINISTRATION OF WARDS AND ATTACHED ESTATES FOR 1882-83.

REVENUE DEPARTMENT.—LAND REVENUE.

Darjeeling, the 21st October 1883.

RESOLUTION.

READ—

The Report of the Board of Revenue on the Administration of Wards' and Attached Estates for 1882-83.

The Board of Revenue have themselves submitted their report on this important department of the administration with commendable punctuality; but they bring the fact to notice that four out of the nine Commissioners were behind time with their reports owing to remissness on the part of managers. So long as the Board's report reaches Government in time, it may be left to the Board to deal with unpunctuality on the part of officers subordinate to them. In any steps they may deem necessary to take for that purpose, the Board will have the Lieutenant-Governor's support.

2. The Board prefix to the report a skeleton map of the Lower Provinces. The map is on a small scale, and the situation of none of the estates dealt with in the report is shown on it. It would not be difficult to arrange that the position of the different estates should be, as far as possible, shown in the maps submitted with future reports. There were during the year 117 wards' and 91 attached estates, making a total of 208 estates under the Board's control. This shows a decrease of ten estates (seven wards' and three attached estates) compared with the numbers shown in the preceding year. "The discretionary power which the present law allows to the Court of Wards of declining to accept the charge of an estate which the civil court desired to entrust to it, has been exercised during the past year in six instances; the considerations which actuated the Court of Wards in refusing the charge being that the estates were too small or involved in debt. In five cases the parties interested applied, and for similar reasons the Court of Wards declined to take charge." The policy which the Board pursued in these cases has the Lieutenant-Governor's approval.

3. In their broadest aspect the financial operations of the year under review may be thus summarised. The year opened with a cash balance of Rs. 15,57,121,* and during the year the gross receipts amounted to Rs. 62,92,899. During the same period the gross expenditure was Rs. 61,11,442, leaving a balance of Rs. 17,38,578 (which is less than the balance given in the Board's report). The investments, which were valued at Rs. 24,71,005 at the close of 1881-82, stood at Rs. 21,05,000 at the close of 1882-83. Although the report does not specifically say so, doubtless the reduction was due to the release of estates from the Court's control during the year.

* As the closing balance of the previous year was Rs. 15,83,125, the figures in the text need explanation.

4. In reviewing last year's report, the Lieutenant-Governor observed that management charges should not, except for special reasons, exceed 10 per cent. on the annual income. During the last year the current demand of rent from wards' and attached estates amounted to Rs. 52,73,981, and the current demand of cesses to Rs. 3,46,057 The cost of management during the same period amounted to Rs. 5,63,405, excluding certain items for repairs to buildings, and for surveys and settlements, which are not properly debitable to management proper. It therefore appears that management charges proper do not, on the average, now exceed the limit which the Lieutenant-Governor thought reasonable. There has been, during the year, a reduction in those charges in the Rajshahye, Burdwan, Presidency, Bhagulpore, Orissa and Chota Nagpore Divisions, the reduction being specially marked in the Rajshahye Division, to the high charges in which the Lieutenant-Governor took exception last year. The charges are still high in Rajshahye, Patna, and Bhagulpore; but, as the Board have already responded so effectively to his wishes on the subject, Mr. Rivers Thompson thinks it only necessary here to express the hope that the matter will continue to receive their attention.

5. Coming now to the financial details of the year's administration the Lieutenant-Governor observes that it began with an arrear demand of

Rs. 40,56,283 rent, and Rs. 3,62,483 cesses The current demand raised the amount of rent due to Rs. 93,30,264, and of cesses to Rs. 7,08,510. The total collections on account of rent were Rs. 51,36,121, or 97·3 per cent. on the current demand; while on account of cesses Rs 3,75,730, or 94·1 per cent. were realized. On account of rent Rs. 5,25,427 were remitted, and on account of cesses Rs. 23,830. The outstanding balances of rent and cesses at the year's close were therefore Rs. 36,68,716 and Rs. 3,58,980 respectively. These undoubtedly are large arrears, and the fact that at the close of the year the cess arrears remained in excess of the demand is, as the Board observe, "a very unsatisfactory feature in the cess transactions." Still the results show some, though a very slight, improvement on the preceding year, and the Lieutenant-Governor trusts that this improvement will become more marked as further progress is made in the way of revising rent-rolls and writing off bad debts. Mr. Rivers Thompson observes with much satisfaction that the Board have already done a good deal in accordance with the views expressed in the 5th paragraph of the Resolution on last year's Report, in the direction of classifying arrears and revising rent-rolls. When this classification and revision is complete, the next step will be to remit bad and irrecoverable debts, and push on the realization of good ones. This report shows that over ten lakhs of doubtful and bad debts serve to swell the arrear demand. It is true that more than half had accrued before the estates had come under the Court's control, and the Board's contention is undoubtedly correct that nearly all of these require individual examination before they can be dealt with on their merits." No doubt examination is necessary, and should be carefully made; but at the same time it must not be forgotten that the existence of unrealizable arrears exercises a depressing effect which makes a tenant a worse rent-payer than he would probably be were the demand on him no more than he could meet. With reference to the correspondence which has passed during the year upon the subject, it is gratifying to receive the Board's assurance that wards' estates in these Provinces are not as a rule over-rented (though it is admitted that the rule is not universal); and that the present policy of the Court of Wards is against enchancements. The Lieutenant-Governor is specially glad to receive this assurance, not only because it controverts the popular idea upon the question, but because, in his judgment, the tenantry need rest; and he trusts that in those cases in which on examination rents have been found too high, no avoidable delay may occur in reducing them. If fair rents be the policy of this Government in its own estates, that policy must be enforced no less in wards' and attached estates. It is due to the Board of Revenue to give prominence to the following paragraph in their report, which deals with this matter:—

"The question of the reduction of arrears and of the assessment generally, in the estates under its management, has engaged the careful attention of the Court during the past year. The remarks which appeared in the Secretary of State's review of the Board's report for 1880-81, on the subject of over-assessment, prompted the Board to make an examination of the existing assessments of rent on the tenants of the largest wards' estates, viz. in each of the estates, twenty-two in number, of which the annual demand exceeds Rs 50,000; and the result has brought to light one estate only in which the Board have any reason to fear that the balances are due to any enhancement of rent made under the Court's management. The rates in this estate were increased after survey and resettlement in 1875-76, when high prices ruled; but as enchancement was not one of the contemplated objects of the survey, the local authorities have been directed to apply a remedy, now that the existence of over-assessment has been discovered. The examination of the affairs of the remaining estates disclosed no ground for supposing the existence of excessive rentals, and in fact the policy of the Court of Wards is to discourage enhancements; and it is believed to be the case that in very few estates have the rates of rent been raised during the period in which an estate has been under the Court's management Where the rent-roll has been increased, the increase is almost entirely attributable to the resumption of direct management on the expiration of farming leases, or to the assessment imposed on waste lands brought under cultivation. This subject was very fully discussed in the Board's resolution of the 2nd January 1883,* and the Board then pointed out that there was not necessarily any connection between the existence of a large balance and an excessive rent-roll. They wrote:—'It may be that, in some cases this relation exists: but the Board believe that, in most cases, it is beyond all dispute that the existence of a large balance is due to other causes. When an estate comes under charge of the Court of Wards, it is almost invariably found that the rent-roll is encumbered with a large arrear balance, much of which is practically

* Submitted to Government with Board's letter No. 1A, dated 2nd January 1883.

unrealizable. It is not customary among the landlords of this country formally to remit old arrears of rent, however unrealizable they may be. Even arrears which are hopelessly barred by limitation are retained on the books. When the estates come under management such demands have to be written off: such as are barred by limitation are easily swept off. But many of the old balances have been kept alive by instalment bonds executed to the former proprietors. In one extreme case the instalments are reported to extend over a period of fifty-three years. Even these require individual examination before they can be dealt with on their merits.' The removal of all fictitious and hopelessly irrecoverable balances is a matter which has been pressed on the attention of Commissioners, Collectors, and managers of estates during the past year, and they were also asked especially to consider and report upon the question of rack-renting and enhancements. The remarks of the officers consulted are reproduced at some length in the divisional sections of this report; and it will be seen that opinions are confidently given that there is no rack-renting in any of the wards' estates. In many cases adjustments of the rent demand have been made, which have resulted sometimes in enhancements, but more frequently in reductions. The instances, however, in which enhancements have been made are very few, and complaints of over-assessment are a rarity. The worst instance reported is that of the Nuddea Raj, in which it seems to be established that rents are in many cases too high, and that the ryots are impoverished in consequence. Orders will now be issued for the immediate revision of these rentals. But it will be observed that these over-assessments are not due to any action taken by the Court of Wards during the period of its management. In the Narhan estate in Durbhunga, the result of special inquiries made by the rate officer showed that enhancements had been made by thikadars in the time of the late proprietors, which were quite beyond the range of rise in prices. It is impossible for the Court of Wards to interfere with these enhancements until the farming leases expire; but in villages held khas, where complaints of over-assessment are well-founded, reductions in the rates are always allowed. There is only a single instance in which a district officer is found to assert that the Secretary of State has been correctly informed that over-assessment prevails in wards' estates; but his opinion has been challenged by the Commissioner. The district officer concerned, the Collector of Shahabad, has been called upon to substantiate his views."

The Lieutenant-Governor will be glad to receive the further explanations called for.

6. Reference was made in last year's Resolution to the abuse of the certificate procedure in recovering arrears in wards' estates; and it was pointed out that if Collectors exercised care in issuing certificates, no room for such abuses would be left. On this subject the Board now say that although abuses have been detected in some districts, there is no reason to fear that they are prevalent to any great extent. The matter is one, however, in which any relaxation of care on the part of Collectors would beget abuses, and from this point of view the Lieutenant-Governor approves the following remarks which the Board quote in this connection from their Land Revenue Report:—

"The increase in the number of certificates filed for the recovery of demands in wards' estates in the 24-Pergunnahs has led the Collector to remark that the rent collectors under the managers, to save themselves the trouble of making collections, report the ryots as defaulters, in order that the certificate procedure may be resorted to; and similar remarks against managers appear in the report of the Commissioner of Bhagulpore. This practice has been already condemned by the Board, and in a recent circular order they have pointed out that it is not intended that certificates should be filed in any cases in which suits would not have been instituted under the former procedure, and that it rests with Collectors to exercise due care and discretion in the making of certificates, so as to leave no room for any misapprehension of the practice. A manager should not sit in his office and write out certificates by thousands but should stir up his assistants to push on collections, and not until all reasonable means short of suits have failed should he have recourse to the certificate procedure."

The number of certificates filed during the year was 12,409, and there were 7,759 pending from the preceding year. The number disposed of was 13,400 and the number pending at the year's close 6,768, which shows a diminution upon the corresponding figures for the preceding year. The Board think that, looking to the number and size of wards' estates, the number of certificates filed is not unduly large. If the Board could in future reports give the aggregate amount of rent for which the certificates have been filed, the Lieutenant-Governor would be better able to form a judgment on this point.

7. Turning now to the liabilities of wards' and attached estates there are three points to be noticed—liabilities to Government, to superior landlords, and to general creditors. Liabilities to Government consist of revenue and cesses, the former of which amounted to Rs. 20,01,228 (including Rs. 1,10,530

arrears) and the latter to Rs. 5,08,700 (including an arrear of Rs. 69,787). Out of the revenue demand, Rs. 19,18,561 were realized, leaving a balance of Rs. 72,215, and out of the cess demand, the realizations amounted to Rs. 4,58,082, leaving an outstanding balance of Rs. 69,787. The Lieutenant-Governor understands that since the close of the year something has been done towards reducing those balances, but he must agree with the Board in thinking that the collection of cesses has not been satisfactory.

The rent due by the estates to superior landlords amounted during the year to Rs. 3,94,390, one-third of which was arrears of previous years. The payments amounted to only Rs. 2,64,529; and the year closed with an arrear balance which was almost as large as the balance with which it opened. This again is not satisfactory. The largest arrears are due from the Presidency and Dacca Divisions, and it is very desirable that, during the current year, special attention should be directed towards putting matters on a better footing in these divisions.

The total debts due by the estates to other creditors amounted during the year to Rs. 41,84,874. Of this sum Rs. 5,24,217 were paid or reduced by compromise, leaving Rs. 36,60,657 due. The progress made in liquidating debts, though fair, was not as good as in the preceding year.

8. In the Resolution on last year's report, the Lieutenant-Governor requested that the subject of agricultural improvements in wards' estates might be touched on in the Board's general remarks. The Board now respond to this request by giving a table of the expenditure incurred on improvements generally, which shows that Rs 34,478 and Rs. 16,252 were expended for the support of schools and dispensaries respectively, that Rs. 1,23,593 went towards repairing and maintaining the immoveable property of the estates, and that Rs. 72,576 were spent on landed improvements. "During the year," it is said in the Report, "Rs. 72,576 were spent on such works as the construction and repairs of embankments and bunds for the protection of lands from inundation; the construction of channels, khals, and wells for the irrigation of lands; the excavation of new tanks and the clearance of old ones for the supply of good drinking water; the introduction of new crops; the clearance of jungles; and the purchase of agricultural implements. In furtherance of the policy above indicated, the Board have requested the local officers to submit proposals for projects of improvement which will entail any considerable expense, and to consider and discuss the question of how the incidence of the cost is to be ultimately distributed between landlord and tenant. It has been pointed out that some improvements may be such as a wealthy landlord may well be expected to make at his own final cost, although the direct benefit will go to the tenants only. In other cases the improvement may be such as, probably, to bring an immediate return to the landlord himself, such as the reclamation of lands. But in many cases the main direct benefit from the improvement will be an increase of the profits of the tenants. In such cases it would be reasonable to expect them to bear a fair share of the cost. In some cases they may be willing to do this by a direct contribution; in others they may agree to repay a certain portion of the cost in annual instalments; sometimes they may be willing to pay a moderate enhancement of rent. The reports of the local officers are now being received and considered by the Board, and it is expected that, in the current year, a larger expenditure will be incurred on works of improvement. It should, however, be mentioned that in estates let in patni and farm, or which are heavily involved in debt, or held with co-sharers who are unwilling to bear a fair share of the expense, as well as in estates which are small and scattered, no improvements can be undertaken in this direction." Accepting the views expressed in this passage, the Lieutenant-Governor would modify them on one point. He does not think it desirable to bargain for an increase of rent before improvements undertaken by the landlord are completed. Apart from the danger of disputes regarding the fulfilment of the bargain, there is the danger that the expenditure might not actually result in an improvement. The Bengal Tenancy Bill will, it is hoped, secure to the landlord the full benefit of improvements effected at his sole expense, and that ought to suffice to stimulate improvements without the adoption of a speculative policy, in which the only certain factor would be an enhancement of rent.

9. The Court's attention was specially drawn last year to the necessity of prosecuting a systematic field survey, conjoined with the preparation of a record of rights, in all estates in which the circumstances were favourable to such operations. Mr. Rivers Thompson is very strongly convinced that no measure is more essential to the full development of any policy of agricultural improvement in Bengal than a detailed survey of estates with a complete record of all rights upon the land; and whatever the practical difficulties in their prosecution, there can be no assurance of peace or progress till they have been carried out. He is therefore glad to find in the Court's present report that the matter has received their attention. The orders which the Board of Revenue have issued on the subject* have the general approval of Government, and there can be no doubt that perseverance in the policy thus adopted, conjoined with the enforcement in wards' estates of those principles of reform which have been prescribed for Government estates, will, within a short period of time, have their due beneficial effect in improving the condition of the tenantry and the value of the estates. The abandonment of such proceedings in the case of the large estate of Mysadul in Midnapore was unavoidable in view of the short period which remained of the Board's administration. In other cases the objections raised to a survey on the side of proprietors, because it would lead to the ascertainment of fair and equitable rates, and on the side of ryots, because it would disclose larger areas of land than they are supposed to hold, show the existence of just those uncertainties on material points which must always be a fruitful source of litigation and dispute.

* Board's letter No. 851A of 14th September to all Commissioners.

10. The Lieutenant-Governor has read with great interest the remarks which the Board make as to the condition of the cultivating classes in Government and Wards' estates, and the feelings with which they regard their position as tenants under Government. The subject has been prominently dealt with by most of the Commissioners, though still much is wanting to exhibit actual facts in all their details. From what has been written, however, it is evidently the general opinion of responsible local officers that ryots in Government estates are somewhat better off than tenants in private estates, and that opinion the Board do not contest. Acceptance of it, however, does not prevent the Board from making the significant remark that they "are glad to find that a beginning has been made, however small, in establishing the policy of Government, which declares it to be the duty of a manager of an estate to be as much interested in preserving the welfare of his tenants, as he should be in maintaining a well-adjusted rent-roll. The Board have no doubt that the attention which has been directed to the subject will, as the managers become more and more aware of what is expected of them, lead to more marked results in this direction than are disclosed in the present report." The Lieutenant-Governor is quite certain of the co-operation of the Board, and of all local officers, in the policy now accepted on this subject. His desire and aim is that the condition of ryots in Government and Wards' estates should soon become, where it is not now, a model for imitation in the neighbourhood; and he is glad to find from many notices in the appended reports of local managers a higher appreciation of the work devolving upon them, not simply as rent-collectors, but as concerned in the development of the material interests of their respective charges.

11. The remarks which the Board make in their 20th paragraph on the education of minors raise some important questions on which the Lieutenant-Governor will take an early opportunity of addressing a separate communication to the Board. From the information contained in the divisional abstracts, the Lieutenant-Governor fears that there is much room for improvement in the system of educating minors.

12. The following summary of the detailed reports notices the chief points of interest in each case.

13. *Burdwan Division*.—The current demand of rent and cesses from the 17 estates under the Court of Wards in this division amounted to Rs. 8,70,861. The collections were Rs. 7,96,016, or 91·4 per cent. on the demand, against 81 per cent. in the previous year, the improvement being chiefly due to better collections in the old estates in Midnapore. Rs. 95,536 were remitted, of which Rs. 62,211 were due from Mysadul. The

outstanding balance at the close of the year was Rs. 9,67,242, nearly half being due from the Sultangacha estate, which has recently been taken under control with large arrears of bad debts. The very large balance (Rs. 3,95,506) due from the Mysadul estate is almost wholly attributable to the vicious system that prevailed in the time of the proprietors of leasing large properties to men of straw. Earnest endeavours are being made to remedy matters. The total stock of Government securities amounted to Rs. 4,84,900, out of which a three-anna share of the Tumlook zemindari, with gross assets of Rs. 37,270, was purchased. Works of reclamation to an appreciable extent have been going on for about the last three years, and among other agricultural appliances the paddy-husking mill has been recently introduced. The management of Chowghoria shews worse results than in the preceding year. The estate consists of numerous small shares, &c., scattered over several districts, and is difficult to manage; but efforts are being made to improve matters by getting rid of unprofitable shares. The debts (Rs. 1,34,806) in Jhargram were further reduced by Rs. 23,757, and the rate of interest has been reduced. Attempts are being made by selling a portion of the lands to clear the liabilities of the Beraberia estate, which was heavily involved when taken under management in 1881, and of which the income is very limited. Of the three estates brought under the Court of Wards during the year, Sultangacha alone, of which the gross assets are Rs. 1,49,215, is of importance. It is divided into six tehsils, and the management charges are 8 per cent. on the demand. Arrangements are being made to liquidate the debts of the estate, amounting to over a lakh of rupees, by a loan and by the sale of some of the houses.

The total cost of management of all estates represents 9·9 per cent. on the current demand, which is satisfactory. but the outlay (Rs. 12,000) on works of improvement seems inadequate. The Commissioner thus explains the inadequacy: "The range of usefulness in the matter of improvements is limited, first, by the necessity of spending large sums to keep our estates in existence, and next, by the poverty and backwardness of the rural classes, which prevent them from being either able or willing to avail themselves to any large extent of the improvements which may be brought within their reach. When due allowance is made for the above facts, it will not, I think, appear surprising that we are unable to show a more imposing list of improvements in wards' estates." Rectification of rent-rolls has been found necessary in some cases, the result being generally in the direction of reduction and not of enhancement. Such increase as has taken place is said to be due to the reclamation of waste lands and the falling in of old farms. The loss of crops in some estates, and the continuance of malarial fever in a few localities, impoverished and depressed the ryots to some extent.

The arrangements for the education of the minors continue satisfactory, and fair progress is being made by the boys. Such minors as are of mature age are being instructed in zemindari work.

14. *Presidency Division.*—Five estates, including Narail, out of the 26 in this division shown on the margin, submitted no returns. The current demand on account of the remaining 21 estates was Rs. 16,49,608, and the collections amounted to Rs. 16,42,109, or 99·5 per cent., against 98·2 per cent. in the preceding year. The total net balance at the close of the year was Rs. 14,33,521, of which more than three-fourths was due to the Cossim Bazar and Satkira estates. The cost of management represents 8 per cent. on the current demand. The contributions to schools were Rs. 9,413, chiefly from the indebted Cossim Bazar and Satkira estates, and those to dispensaries were Rs. 3,167. Repairs of buildings cost Rs. 28,127, almost wholly in Nuddea and the above two estates. Of the Rs. 13,519 expended on works of improvement, Rs. 9,090 were laid out on the bazaar and the Sonadinghi Slaughter-house in the Orphangunge estate at Kidderpore, and Rs. 2,055 on repairs of dâk bungâlows, embankments, &c., in Port Canning. The expenditure on agricultural improvements in this division was insignificant.

Wards' estates	... ...	19
Attached ,,	... ...	5
Trust ,,	... ...	2

The collections in Nuddea amounted to 107·3 per cent. on the current demand, but though the financial results of the year are satisfactory, the condition of the tenantry is represented as deplorable. Continued fever, crop failures, losses from low prices, sales of cattle in execution of decrees for

debt, relinquishment of holdings, and general depression,—these are the chief features of the manager's report. Last year the suspicions of the Lieutenant-Governor were aroused regarding the management of this estate, and in the report under notice the manager seeks to justify his administration. While giving Babu Kartik Chunder Roy, who is an old and devoted servant of the Raj, credit for good intentions, Mr. Rivers Thompson must say that this officer's ill-success in raising the condition of the estate and the tenantry has been marked; and that ill-success is not excused by the fact that an admittedly excessive rental has been recovered with punctuality from a perishing tenantry. It is not satisfactory to read that the profits of the ryots on this estate "are in some cases nil, and in some cases very small," nor is the silence of the tenantry an argument for inaction. The Lieutenant-Governor will await the result of the enquiry which the Board are now making into the condition of this estate, and he would wish it to be, if possible, made by a selected officer accustomed to enquiries of the sort. The minor Raja of Nuddea was removed to Berhampore, and is under the care of his tutor, Mr. Oswell. He is improving in his studies, and his conduct is satisfactory.

The accounts of the Narail estate are still in disorder: it remains to be seen whether the recent arrangements by which a portion of the estate has been farmed out will lead to better management. The tenants continue to be generally prosperous. Both the minors are now in the Calcutta Hare School, but the elder is not making satisfactory progress. The Bogchur estate was released after 12 years' management, the general condition of the tenantry being prosperous, and their relations with the estate satisfactory.

The collections in Ramnagar show further improvement, being 114 per cent. on the current demand. A splendid harvest has made the ryots prosperous and contented, and good relations continue between them and the management. Similar good results are reported from Syudpore. In the Nashipore *mal* estate the year's results were also very satisfactory, but this is not the case in the Nashipore *debutter* estate, where the collections fell off from 106·5 per cent. to 95·7 per cent.—an unsatisfactory result, seeing that the entire property is let in *patni*. The minor continues to attend the Berhampore Collegiate School.

The total demand in Cossim Bazar was Rs. 8,46,743, and the collections amounted to Rs. 2,88,255, or 97 per cent. on the current demand. Of the balance, which is over 5¼ lakhs, a very large proportion accrued during the late proprietor's time and is classified as bad or doubtful. Large remissions have been already granted, and measures have been taken to adjust the arrears and to eliminate all fictitious demands from the accounts. Attention is being given to the reclamation of jungle lands and to the excavation of tanks where necessary. The ryots of Sarail, between whom and their former landlord very contentious relations existed, are reported to be prosperous. Illegal demands are no longer made. confidence in the Court's management is growing up among them, and it is hoped that within a short time the whole class of tenantry will forget their old feelings of rancour towards their zemindar. The minor, who is very young, is under the guardianship of his mother.

The rent and cess collections in Satkira were less than in the preceding year, and the subject is receiving special attention. The rent balance, however, though large, amounting to about 4¼ lakhs, is classified as good and under recovery. The law charges are steadily increasing. The small sum of Rs. 11,014 only was paid towards debts amounting to Rs. 1,90,726. Want of funds, and the difficulty of securing the co-operation of the sharers, render arduous any attempt at carrying out schemes of improvement. The peasantry of the estate are prosperous. The wards, who attend the Calcutta Hindu School, are making little progress in their studies.

It is stated that except in the Nuddea estate no portion of the balances in this division is the result of an excessive rent-roll. In that estate the Board have taken up the question of an immediate revision of the rental, and the Lieutenant-Governor will await the result of the enquiry. With this exception, the management of all the estates in the Presidency Division is described as liberal and fair to the ryots, and no enhancement of rents has taken place in any estate during the management of the Court.

15. *Rajshahye and Cooch Behar Division.*—The total demand, arrear (Rs. 5,22,698) and current (Rs. 7,74,988), was Rs. 12,97,686, and the percentage of collections (Rs. 7,70,306) on the current demand was 99·3 against 101·4 in the preceding year. The balance outstanding was Rs. 4,12,321, of which more than half was in the Chaklajat. The management charges proper were 14 per cent., but some reductions have already been effected and others are in contemplation. Hardly anything was done in the way of improvements except in the Chaklajat, where Rs. 17,000 were spent on improvements which may fairly be considered agricultural.

Two estates—Tahirpore *Senior Branch* in Rajshahye, and Hazratpore in Dinagepore—were released in 1881-82, having been under management for over 15 and 10 years respectively. In both cases the management was a success. All debts due to and by the estates—some very trifling sums excepted—were satisfied. The rental of Tahirpore was raised from Rs. 69,698 to Rs. 85,094, and both properties were restored to their proprietors in a perfectly solvent condition. The owner of Tahirpore, the Commissioner says, "is a young gentleman who does credit to the Calcutta Wards' Institution and to our general care. His conduct is excellent in every respect, and he takes great interest in the business of his estate." In Sunkerpore the collections fell short of the current demand, while in the Churaman estate, compared with last year, they rose from 84 to 99 per cent. The rental of this State has been reduced by Rs. 14,575 owing to abolition of illegal cesses; this is matter only for congratulation. It is hoped that the loss may be recovered by a judicious enhancement of the present very low rents and by assessment of excess lands. The Board of Revenue will doubtless exercise a careful discretion in instituting suits for these purposes. Nearly Rs. 10,000 have been spent within two years on the construction and repair of roads, and for clearing jungle, &c. The ward is again commended. Haripore also shows an improvement in its collections (Rs. 44,153), which exceeded the current demand by 9·3 per cent. The ward, who is under a governess, is making good progress in her studies.

The Rajshahye district again shews indifferent results. In Gobindpore, Puttea, and Mainam these were due to mismanagement, and in the Tahirpore *Junior Branch* estate the collections fell below the current demand owing to certain temporary causes. In the latter estate a very useful canal was opened out by the tenants at their own cost. The wards are at the Rajshahye collegiate school. The progress of the elder, in consequence partly of bad health, was unsatisfactory. The heavy diminution in the Chowgong collections from 101·3 per cent. in 1881-82 to (Rs. 36,589) 78 per cent. on the current demand in 1882-83 was chiefly due to the low market price of jute in Islamabad, in which the ward has a 10-anna share, and to the settlement of that pergunnah, which considerably interrupted the collections. The measurement of Islamabad has disclosed an area largely in excess of that for which rent was paid, and an amicable settlement has been arranged with the ryots at an increase of 25 per cent. The ward is doing well in his studies. In Bardhankoti the collections, though 100 per cent. on the current demand, fell far short of those of last year, owing to scanty rainfall and a heavy fall in the price of jute, betel-nut, and molasses. This estate has much waste land, which has apparently attracted fresh Garo immigrants. The introduction of new crops and other improvements does not find favour with the ryots, who are averse to trying experiments untried by their forefathers; but a small beginning has been made in the use of the Beheea sugar-mills. The minor is making satisfactory progress in his education. In the Chaklajat the collections were Rs. 3,55,305, or 5 per cent. above the year's demand, which, though less than those of the previous year, were still satisfactory. Rupees 17,330 were expended on repairs of roads, construction and repairs of embankments, excavation of tanks, and similar useful objects. The resettlement of the estate, now nearly complete, has increased the rental by Rs. 54,566. The owner, the Maharaja of Cooch Behar, attains his majority during the current month.

The Commissioner is satisfied that in a majority of cases the rates of rent are lower than elsewhere in the neighbourhood,—so low in fact that their enhancement is contemplated in three estates. Before action is taken

in this direction, the Lieutenant-Governor would be glad to learn the Board's opinion on the facts. In the mulberry lands in the Tahirpore and Puttea estates the rates are believed to be too high, and on receipt of complete information the Commissioner intends to reduce them. The general condition of the ryots in the estates is said to be prosperous, but there are some exceptions. The relations of the tenantry with the management are on the whole satisfactory.

16. *Dacca Division.*—There were 14 wards and 6 attached estates in this division. Omitting the statistics of the large Dhankhura property, which was taken in charge in September 1882, and of which the accounts are still in confusion, the collections equalled the current demand in two small estates, exceeded it in ten, and fell short of it in the remainder. The dispute between the minor sons of Lalit Mohan Rai and their uncles regarding the title to one-sixth of the whole property has been decided in favour of the wards. The tenantry are generally prosperous. The two male minors live with their mother in Dacca and attend the collegiate school, but are not making much progress. In the Purna Chandra Rai estate the collections were only 87·2 per cent. on the current demand in consequence of the refusal of the tenants of a temporary *howala* to pay, and to the loss of crops and diluvion of lands by the overflooding of the Megna. A portion of the estate is to be sold to liquidate debts and the arrears due. The general condition of the ryots is indifferent, and their relations with the management unsatisfactory. The Rakini Kant Rai and Hari Chandra Chakravarti estates are small, and the results of the year's management were not very satisfactory. It seems doubtful to the Lieutenant-Governor whether the estates should ever have been taken under management. The collections (Rs. 1,60,949) in the large estate of Jagat Kishor Acharjya were 91·6 per cent. on the current demand, Rs. 1,88,193. This result is far from satisfactory, but it is said that certain refractory ryots of Sutiakhali withhold payments. The estate still owes nearly 3½ lakhs of rupees, though Rs. 54,744 were liquidated during the year. The suit valued at 50 lakhs, which was instituted for the whole property against the minor, has been decided in his favour.

It is reported that no over-assessments prevail in the Dacca, Furreedpore, and Mymensingh districts, from which alone information has been received.

17. *Chittagong Division.*—The financial result of the year's administration is not so good as it was last year, the falling off, which is unexplained, being most marked in the Chittagong district. Towards the end of the year the estate of Fazl Ali Khan of Dohazari—the richest Mahomedan zemindar in Chittagong—was taken in charge by the Court. The general condition of the tenantry in the Chittagong district and their relations with their landlords continue satisfactory. In Noakhally the collections uniformly exceeded the current demand. An amicable settlement has been arranged for the present in regard to the disputed debt of the Courjon estate mentioned in last year's report. The tenantry are fairly prosperous, and their relations with the estate generally satisfactory. Out of a total demand of Rs. 1,65,373 in Basharat Ali Chaudhuri's estate, the collections were Rs. 79,098, or 99·3 per cent. on the current demand, against Rs. 79,646, or 105 per cent. in the previous year. The minor is working steadily in the Dacca Madrissa. The cost of management, which represents 16·1 per cent. on the current demand, is excessive. In the case of several estates in this division the management charges are high.

It is only in Basharat Ali Chaudhuri's estate that any fear of over-assessment exists. To remedy this a cadastral survey of the estate is contemplated.

18. *Patna Division.*—In this division also the collections were generally not so good as in the previous year, being Rs. 2,92,721, or 99·5 per cent. on the current demand (Rs. 2,94,123), against 107 per cent. in 1881-82. The percentage of collections in the large Narhan estate was 98·6 on the current demand of Rs. 1,70,795. Rupees 10,636 were realized on account of debts due to the estate; and of the balance (Rs. 46,546), Rs. 45,508 are due from the Ramgarh Baboos, who have offered to pay the whole at once with a deduction of 10 per cent. Of the debts due by the estate (nearly 3½ lakhs) Rs. 96,023 were paid during the year. It is said that owing to these heavy encumbrances but little can be spared for improvement, but

something should be attempted; the rental was raised by Rs. 5,317, principally from the settlement of lands directly with the ryots. The tenantry are contented. The minor is under a private tutor and lives with his mother, but owing, it is believed, to zenana influences, makes no progress in his studies. Arrangements are being made to place him in the Durbhunga school. The collections in the Raghunandan Prasad Singh estate were Rs. 21,050, or 95·6 per cent. on the current demand. The Collector is not satisfied with the progress made by the minors in their studies. The condition of the ryots, except in one village, Unwas, where, owing to crop failure, it is miserable, is said to be a shade better than that of the surrounding ryots, the Court of Wards' management being more indulgent than that of most zemindars. There were no visible signs of improvement, and in the present state of poverty and general ignorance among the ryots no hope of material improvement exists. It is not, however, the Collector adds, high rent, but want of discretion, which accounts so much for the ryots' poverty. This is a species of explanation which, it is hoped, will not be repeated in future reports. There must be evidence of active exertion on the part of the manager to stimulate improvement. The Sasseram endowment continues to be well administered, and seems to fulfil the objects of its creation, which were religious, charitable, and educational. The ryots of the Patna district are generally well off and healthy. Rupees 1,174 were expended in repairing embankments in the Bhagwant Narain Singh and Debi Prasad Singh estates. A landlord who undertakes such works becomes, it is said, very popular with the ryots. Bhagwant Narain Singh, the only male minor in the district, is in the Patna City school, and is described as a very promising boy. In the Debi Prasad Singh estates the collections were 112·2 per cent. on the current demand (Rs. 15,557), and a small portion of the debts due was liquidated. The three estates—none of them extensive—in the Sarun district were released during the year after a successful management of 19 years in the case of two, and of 14 years in that of the third.

On the subject of rack-renting the Commissioner reports that, "so far as this Division is concerned, there is no valid ground for the assertion that the managed estates are often rack-rented." The Collector of Shahabad is, however, of opinion that the wards' estates in his district are rack-rented; and a further report on the subject is awaited.

19. *Bhagulpore Division.*—With but two exceptions—the small Lalpur estate in Monghyr, and the large Surjapur estate in Purneah—the collections in all cases exceeded the current demand. Omitting Srinagur, from which the returns were not received in time for incorporation in the report, the demands of revenue, rent, and cesses were almost wholly satisfied. Over half a lakh was paid towards debts (Rs. 2,70,587) due by the estates. The cost of management proper was about 12 per cent. on the current demand. The expenditure on improvements, such as cuttings, drainage, &c., was Rs. 8,910, of which Rs. 8,208 appertains to Chanchal alone. An agricultural exhibition was held for the first time at Kissengunge in January 1883. The ryots seem to take to the sugar mills and American ploughs, of which several were purchased; and indents have been submitted for other implements and seeds of various kinds. The tenantry on the Surjapur estate are in good condition and well satisfied with the management. The minors being in delicate health were sent to Simla for a change. They are under a private tutor, and are learning zemindari work. The rental of the Chanchal estate has undergone some changes, resulting in a decrease of Rs. 5,552. The collections (Rs. 1,78,463) were satisfactory, being 103·6 per cent. on the current demand (Rs. 1,72,210). Of the balance (Rs. 82,046), Rs. 47,229 were not realizable till after the close of the year. During the past ten years Rs. 81,288 have been laid out on improvements, the most important of which have been the survey and settlement. In this estate, which, when first taken in charge, was utterly destitute of roads and carts, there are now over 4,000 carts and over 130 miles of main roads, besides over 30 miles of feeders, and the estate is considered, with regard to roads, as in a more favourable position than any other portion of the district. Six middle class, six upper primary, and sixty-one lower primary schools receive grants from the estate. The survey and settlement operations have been closed, and only the preparation of *jamabandis* and the interchange

of engagements in some villages now remain. The classification of lands where objections were raised, and the fixing of rates, were carried out in consultation with the headmen and ryots themselves, and the ryots seem well satisfied. It is said even that tenants from bordering estates have removed their homesteads to the Chanchal estate. In connection with the condition of the tenantry the Commissioner writes:—

"Formerly the tenant could only look to the local market for the sale of his produce, and no less than nine-tenths of his rental was paid from the surplus produce of his rice lands. The improvement in lines of communication has enabled the tenant to raise crops to meet the demand of more distant markets. Such crops as jute, tobacco, oilseeds and wheat, which, in former days, were only sown, if at all, for home consumption, are now cultivated largely for export, and are the chief crops from which the rent is paid. The enormous increase in the two crops of wheat and jute will alone show how matters have changed in the past few years. Thirteen years ago hardly a wheat-field, it is said, was to be seen; now the export is enormous, and over 20,000 bighas were sown in wheat in this estate alone. Then, as regards jute, little or no jute was exported from this part of the country; while the exports in this year from one mart alone were, it is said, over three lakhs of maunds, including both the raw material and the locally made-up gunny-bags."

The minor is making fair progress in his studies and his conduct is satisfactory. The management and condition of this estate reflect much credit on the manager, Mr. Reilly, who takes a keen and enlightened interest in his work and affords a good example of what effective management can do.

The collections in the three larger estates in Monghyr exceeded the current demand, and portions of the debts due were paid. The admitted debts of Phulberia are still heavy—Rs. 76,722. The condition of the agricultural classes in the estates in Monghyr is not prosperous. The ryots on these estates are ignorant people, who regard any attempt to improve their status as the precursor of enhancement, and unhesitatingly quit their holdings. The tenantry in some parts of Phulberia are said to be very troublesome, but generally they are contented and live on good terms with the management. All the minors reside together in Monghyr and attend the zillah school.

In the three estates in the Bhagulpore district, the realizations of rent and cesses were very satisfactory. The liabilities of the estates were somewhat reduced; but their embarrassed condition prevented any outlay on agricultural improvements. The tenantry are described as much indebted, owing to thriftless, improvident, and reckless expenditure on marriages, funerals, and similar occasions; but they are on the whole better off and more contented than their neighbours, who, under native zemindars, pay higher rents, besides illegal cesses. The minors of Shahpur and the two elder minors of Lalpur Patori attend school, but the attendance and progress of the latter are very poor.

On the subject of rates of rent it is stated that, while enhancements have been effected in some localities, they have been found to be fair and no complaints are made. In one mehal in one estate only, Phulberia, have the rates been disputed, and it is a singular fact that in that mehal no enhancement has ever been made. The Commissioner remarks, however, that, if the calculation for the proportion of produce taken as rent is correct, it is very high. Further enquiry will be made on the subject. What is true of Phulberia might also be found true of other estates.

20. *Orissa Division.*—The administration in this division continues to improve. The collections of rent and cesses were 109·3 per cent. on the current demand, against 98 per cent. in the previous year. Jamkunda is the only estate now in debt, and its liabilities have been reduced during the one year of its management. The cost of management proper in the division, omitting expenditure incurred in the construction and repair of buildings, &c., was 10 per cent. on the current demand. Works of improvement, such as repair of embankments, construction of sea-dykes for the promotion of cultivation, and excavation of tanks, are in hand in the Kanika estate. The collections here were remarkably good, having risen from 99 to 113 per cent. on the current demand of Rs. 1,11,569. The condition of the tenantry is generally good, and their relations with the manager are satisfactory. The Sukinda ryots have not improved, and it would have been more satisfactory if the Collector could have written in more positive terms regarding the Jamkunda ryots. The absence of complaints is not a sufficient reason for the omission to enquire into the condition of

things in wards' estates. The minor is being educated by his maternal grandfather with the latter's children. The condition of the tenantry in the remaining four estates* in Cuttack was not altogether satisfactory, and the lands being subject to inundation, the majority of the ryots had to borrow money for the agricultural work of the year. The wards of Panimanda and Gotra were educated in zemindari work. The education of the other minors has been somewhat neglected, and remedial arrangements are in contemplation.

* Indalow. Haripa. | Gotra. Palda

The rates of rent in Pooree and Balasore are not excessive. No report on the subject has been yet received from the Collector of Cuttack.

21. *Chota Nagpore Division.*—The collections were 93·1 per cent. on the current demand, against 116·8 per cent. in the previous year. The chief reasons for short collections in the Chota Nagpore estate—03·6 per cent. on the demand—are to be found in the fact that the Encumbered Estates Department paid much less than before. Recoveries under decrees were also much less, and a large instalment of the realizable demand fell due after the close of the year, owing to the Sambat year prevailing in the estate. Extensive survey and settlement operations have been going on in this estate for years past, the cost being, up to March 1882, Rs. 77,261. No improvements were undertaken during the year, but large works are in contemplation. The minor Maharaja and his brother the Kumar made satisfactory progress in their studies. The appointment of an European gentleman as guardian has resulted in a great improvement in the moral and general behaviour of the boys. In the Dhanwar estate the collections fell from 105·7 to 83·3 per cent. on the current demand. This, it is stated, was owing to the ryots of several villages having withheld payment pending disposal of certain appeals which had been made to Government against the settlement and enhancement of rent. Orders have been now passed on the subject, which will govern not only this, but all estates similarly circumstanced. In the Jeridah estate the crops were mostly exceedingly good; but the ryots are encumbered with debts. The minor does not appear to be progressing in his studies. In the Serampore estate also the harvest was good and the tenantry are in a satisfactory condition. The minor is doing well in the Hazaribagh zilla school.

An interesting historical narrative is given of the extensive Deogan property in Palamow, which was released in July 1882 after 18 years' management. The rental was raised from Rs. 12,361 to Rs. 26,170 "more by constant improvements, attention to irrigation, and attention to the wants of cultivators, than by any enhancement of rents." The debts due to and by the estate, which were large, have been satisfactorily adjusted. Extensive works of improvement were carried out. The value of the landed property which, when the estate was taken in charge, was Rs. 1,76,855, stood at Rs. 3,94,738 when the estate was released. A system of forest conservancy was introduced 10 years ago, which has been so advantageous that the reserves, if carefully looked after, will not only be of great value to the estate for agricultural purposes, but will 20 years hence be worth fully three lakhs of rupees in timber, estimating each tree at the lowest possible valuation. A scheme for settling immigrants in the estates was fairly successful. The tenantry have been happy and have generally reaped good harvests, but they appear lamentably wanting in industry. It is hoped, however, that the line of railway which is to pass through the estate will afford the materials needed for an advance in education and prosperity among the people. The late ward's education was closely watched, but he seems to have taken more kindly to out-door sports than to his studies.

The large estate of Dhalbhoom was also released just as the year closed, after about 16 years' management, during which it is stated that the rent-roll has been increased by Rs. 9,006 without enhancement of rates; the tenantry are prosperous, and live on satisfactory terms with their landlord. They will not emigrate from the estate, although recruiters for the tea districts have done their best to induce them to do so; assessments are light, and a large extension of tillage has been accompanied by an increase in the variety of crops cultivated. The collections in the Katras and Nowagurh estates were 106·3 and 98·3 per cent. respectively on the current demands. The tenantry are not in a satisfactory condition, owing, it is said, to distance from good markets and the want of communications. These defects should be remedied. Their relations with

the landlord in the former estate are most cordial, but in the latter much ill-feeling prevails against the zemindar and manager. The Commissioner intends to visit the estate and try and arrange matters.

The collections of rent and cesses in the estates under the Chota Nagpore Encumbered Estates Act VI of 1876 were Rs. 2,37,889 and Rs. 24,479 respectively, being 94·3 and 85·9 per cent. on the current demands. These do not compare favourably with last year, when the percentages were 105 and 101 respectively. The collections were best in Singbhoom. The total debts which, at the commencement of the year, were Rs. 14,92,044, were reduced to Rs. 13,35,467. No improvements were undertaken during the year, but improvement schemes are in contemplation, and it is hoped that next year's report will shew some advance in that direction. The condition of the tenantry, and, except in nine estates in Lohardugga, their relations with their landlords, continue satisfactory.

Rent-rates in the Chota Nagpore estates are, the local officers maintain, light and adjusted according to local custom. Recent cases, however, have satisfied the Lieutenant-Governor that if the rates be light, excessive enhancements have been too suddenly allowed, and against this provision must be made in future.

By order of the Lieutenant-Governor of Bengal,

A. P. MACDONNELL,

Offg. Secretary to the Govt. of Bengal.

RESOLUTION ON THE REPORT ON THE LAND REVENUE ADMINISTRATION OF THE LOWER PROVINCES OF BENGAL FOR THE YEAR 1882-83.

REVENUE DEPARTMENT.—LAND REVENUE.

Darjeeling, the 23rd October 1883.

RESOLUTION.

READ—

The Board's Report on the Land Revenue Administration of the Lower Provinces of Bengal for the year 1882-83.

The Report has been submitted with punctuality by Mr. Dampier, who administered the Land Revenue Department of the Board during seven months of the year. In reviewing the Report, which is an excellent record of the year's work, the Lieutenant-Governor will follow the usual order of subjects.

2. The number of estates of each class on the revenue roll during the year was as follows:—

	Class I. Permanently settled estates.	Class II. Temporarily settled estates.	Class III. Government estates	Class IV. Ryotwari tracts.	Total of all classes.
1881-82 ...	141,391	7,698	2,822	23	151,934
1882-83 ...	142,929	7,682	2,706	26	153,343
Difference ...	+1,538	—16	—116	+3	+1,409

The causes of increase are, as usual, the operation of the deara survey, partitions, escheats, and purchases by Government at auction sales. The decrease under class III is chiefly due to the consolidation of small into large estates in Chittagong, and under class II an increase would have been shown had 73 estates in the Darjeeling district, the leases of which had fallen in, not been transferred to class III and taken under Government management.

3. The year opened with an arrear demand as follows:—

	1881-82.	1882-83.
	Rs.	Rs.
Class of Estate, I	6,42,801	4,55,709
Ditto, II	8,87,330	9,46,815
Ditto, III	8,30,497	8,16,793
Ditto, IV	1,76,252	1,62,518
Total ...	25,36,880	23,81,835

It is understood that the figures for the last year are still liable to adjustments, and that the balance shown as outstanding may admit of reduction.

4. The current demand for 1882-83 stood thus compared with the preceding year:—

	1881-82	1882-83.
	Rs.	Rs.
Class I	3,23,08,970	3,23,06,382
„ II	27,09,618	27,13,650
„ III	19,65,378	19,96,054
„ IV	7,53,260	8,45,839
Total ...	3,77,37,226	3,78,61,925

There has been an increase in the land revenue demand of the Province of Rs. 1,24,699, which, though less than the increase in the few preceding years, is still for a permanently settled province substantial evidence of an expanding revenue.

5. Turning now to the year's collections, the Lieutenant-Governor finds the facts to be these: The total outstanding demand, arrear and current, amounted to Rs. 4,02,43,760, of which a sum of Rs. 1,15,721 was remitted during the year, leaving a realizable balance of Rs. 4,01,28,039. Of this sum Rs. 3,81,67,960 were recovered during the year, a balance of Rs. 19,60,079 thus remaining outstanding at its close. Portion of this balance is nominal, and much of it has since been recovered. This result is the most satisfactory which has been attained by the Revenue Department in these Provinces during recent years, and as it

has been achieved more by careful administration than by any increased pressure on zemindars and ryots, it is matter only for congratulation.

6. The satisfactory character of the results as a whole is reflected in the details, except in the case of Government estates, in which less financial progress, to judge from the aggregate figures, has been made than might have been expected. Here, however, a distinction must be made between Government estates under direct management and those not managed directly. From a separate report which the Board has submitted on estates under direct management, the Lieutenant-Governor gathers that the financial results are good in connection with such estates. The less satisfactory features of the report under notice are connected with Government estates not managed directly. On this point, however, the present report furnishes insufficient information. The difficulty which the Lieutenant-Governor now feels would be obviated in future reports by distinguishing between (1) Government estates under direct management; (2) Government estates not managed directly; and (3) estates managed owing to the recusancy of the proprietors—and by furnishing separately for each of these three classes of estates all the information which the Board have furnished for classes (1) and (2) conjointly.

Returning to the report now under notice, Mr. Rivers Thompson desires to say that, while in the review of the preceding year's administration he had to notice that in ten districts collections had failed to reach the standard of 90 per cent. on the demand, this year only seven districts have failed to reach that standard, and of these seven districts four show greatly improved results. Pooree is still backward; but this is no doubt attributable to the uncertainty which prevailed as to the results of the Khoordah ryots' appeal to Government against the assessment of that estate. As this matter has now been disposed of in the acceptance of a lighter assessment, the next year's report will probably not show Pooree below par in the punctual realization of the public dues. The explanations in the other cases are sufficient. In reviewing the last year's Land Revenue Administration in these Provinces, the Government of India suggested that there was some want of distinction in the classification of remissions, and the matter was brought to the Board's notice. The Board now explain the principles underlying the classification into "nominal" remissions, remissions "of right" and "of grace," and to them no exception can be taken. The Board promise to assure the observance of these principles in future. The remissions made during the year under review seem unobjectionable in character and amount.

7. The Board notice the proposal made by the Government of India to allow a discount of $3\frac{1}{8}$ per cent. to those who pay in advance the revenue of a future year out of the surplus proceeds of a good season. The Board, after consulting the Divisional Commissioners, reported that "the proposal could not be carried out in Bengal, either in the case of permanently or temporarily settled estate, the property of individuals, because the zemindars could not pay in advance unless ryots and intermediate holders also paid them in advance, and the rate of discount offered was not likely to tempt any one; that ryots would be likely to pay their debts, which carry large interest, out of any funds they might have, in preference to paying their rents in advance, when no inducement of discount was held out to them, or even with the inducement of a $3\frac{1}{8}$ per cent. discount, if the proposal could be made to reach them; that indebted zemindars would not accept the risk of making an advance payment of revenue which, instead of being credited as such, would be entered as a deposit in the accounts, and be liable to attachment by the civil courts; that, as the revenue payable by zemindars to Government bears a very small proportion to the rent payable by the ryot to the zemindar, the latter, as a class, would be apt to oppose the grant of discount to the tenantry, as such a course would involve loss to themselves, and would refuse payments in advance. The tenantry would then either have to forego the discount, or would have to make a deposit in the collectorate, thus converting the Collector into a general receiver of rents, and the expense of increased establishments to do the work would fall on Government. Lastly, as regards estates held *ijmali* by several co-sharers, no advance payments would be possible unless some protection could be given to shareholders making such payments, and without a very material alteration in the law very general litigation might result. As regards estate under the management of Govern-

ment, the Board thought the proposal would not work when there were middlemen between Government and the actual cultivator; and that in the case of ryots paying direct, the rate of discount offered was not sufficient to exercise any considerable influence in encouraging prepayments." The Lieutenant-Governor has already communicated to the Government of India his concurrence in the Board's views on this question.

8. Having thus stated the nature and character of the year's financial results in their broadest aspects, the Lieutenant-Governor will now examine them in detail with reference, where necessary, to administrative considerations. Beginning with the most important class of estates—those permanently settled—he observes that the revenue demand from permanently settled estates amounted to Rs. 3,27,62,091 (Rs. 3,23,06,382 current and Rs. 4,55,709 arrear), and the collections to Rs. 3,23,43,451. The collections were therefore 98·7 per cent. on the demand, which is not only satisfactory in itself, but an improvement on last year. The balances are small in all districts, being nowhere over 5 per cent. on the demand, and in the case of Wards' estates there is no longer the same large outstanding arrears of revenue which disfigured the pages of earlier reports. The fact that the total balance due from such estates amounted this year only to Rs. 51,746, as against Rs. 2,48,217 in 1879-80, must be taken as a sign of successful management.

9. In class II (*temporarily settled estates*) Rs. 29,89,611 were collected out of a total demand of Rs. 36,60,465, the collections being thus 81·6 per cent. on the demand against 67·31 per cent. in the preceding year. The largest balances appear against Midnapore (Rs. 3,42,143), Backergunge (Rs. 74,612), Furreedpore (Rs. 48,410), and Pooree (Rs 45,952). The Midnapore balance is chiefly due from the Majnamutha and Jellamutha Estates, to the disorganized state of which special reference was made last year. The balance is large; but the Lieutenant-Governor willingly recognizes the successful efforts which have been made during the year under review to introduce order and regularity into the management of these important estates. Mr. Rivers Thompson has no doubt that perseverance under the Board's supervision in the policy prescribed last year will, before another report falls due, have removed the sources of difficulty and friction with the tenantry on those estates. In regard to the other balances it is impossible to judge from the report to what precise causes in all cases they are due; but the Lieutenant-Governor, having regard to the broad results of the year's administration, accepts the assurance which Mr. Dampier's remarks suggest, that the causes are such as are inseparable from the administration of a large department, and are not due to defects of principle or to the failings of individual officers. Mr. Rivers Thompson will, therefore, only repeat his opinion that it is above all things essential to prevent the accumulation of arrears, and that where the assessment is equitable, and no crop failure calls for a suspension of the demand, the best and truest policy to pursue is—prompt remission of irrecoverable balances and prompt recovery of those that can be paid.

10. In class III (Government estates) the total demand was Rs. 28,12,847, out of which but Rs. 19,31,328, or 68 6 per cent. was recovered. There were remissions to the extent of Rs. 55,113; and an additional sum of Rs. 13,766, is shown as likely to be remitted. The total realizable balance is thus put at Rs. 8,12,640, which is a very large balance indeed. Explanations given by the Board in regard to about three lakhs of this balance, attribute the failure to collect in some districts to short crops; in others to low prices; in others to combination among ryots to withhold payment of enhanced rents; and in Tipperah, besides the unprecedented fall in the price of staple products, "the Collector seems to think that excitement at the prospect of a change in their legal *status* may have caused ryots to withhold payments." Having regard, however, to the satisfactory nature of the collections made in estates under direct management as stated in the Board's report of 24th August on such estates, the explanations cannot be considered as satisfactory.

11. The case is different as regards the management of Ryotwari Tracts. The total collections on these tracts have reached 89·6 per cent. on the demand (Rs. 9,03,570 having been collected out of Rs. 10,08,357), and this is the best

result which has been attained for several years Remissions to the extent of Rs. 23,386 have been allowed, and the outstanding balance is now Rs. 81,401. Only in Julpigoree (Rs. 39,215) and Backergunge (Rs. 11,631) are the balances considerable; while in several districts the arrears have been reduced since the close of the year. The Lieutenant-Governor notices with satisfaction the action taken by the Board in instituting enquiries as to the fairness of the settlements made in Julpigoree where the accumulation of such large arrears is calculated to create misgivings on the point; and he agrees in thinking that, notwithstanding the considerable balance in Backergunge, all due from the Tooshkhali Estate, the improvement in the management of that estate is marked, and does credit to the officers engaged in it. On the whole, then, the financial results of the management of ryotwari tracts must be pronounced satisfactory. Whether the management has been equally good from an administrative point of view is a question on which the Lieutenant-Governor will be better able to pronounce an opinion when he examines the further report promised by the Board.

12. The sources of miscellaneous revenue (sale proceeds of Government estates, fees and fines under various Acts) were less productive than in the preceding year, the total income from them being Rs. 1,57,412, or Rs. 20,000 less than in 1881-82.

13. *Surveys.*—The revision of the survey in Midnapore still continues, and the creation of the new district of Khulna necessitated some village demarcation work in the 24-Pergunnahs which is now well advanced. The survey of the estates bordering on the Ganges in the Patna Division in correspondence with the cadastral surveys in the North-Western Provinces was completed; but the measurement of the ghatwali lands in the Burdwan and Chota Nagpore Divisions was much impeded by disputes between zemindars and ghatwals as to the limits of ghatwali and *mal* lands. In Orissa some survey work was done in the Khoordah Estate, chiefly in the way of re-surveys, and corrections of errors. The dearah survey operations, under the control of the Superintendent, Baboo Parbutty Churn Roy, were continued through the Backergunge and Noakholly estuaries to the Bay of Bengal, and the survey in the upper reaches of the Brahmaputra was completed. The area surveyed during the year (ending 30th September 1882) was 3,002 square miles, 1,124 square miles of which, however, was water. The surplus lands discovered by the survey amounted to 92½ square miles, which will, it is expected, yield close on Rs. 45,000 of revenue. The accuracy of the dearah survey during the year was quite up to the high standard previously attained in the operations under Baboo Parbutty Churn Roy.

14. *Settlements.*—The following statement exhibits the results of settlement work in these Provinces during the last two years :—

Year.	Original Settlements.		Re-settlements			Summary Settlements.			Settlements pending at close of year.	
	Number.	Net revenue.	Number.	Net revenue.	Increase.	Number.	Net revenue.	Increase.	Number	Estimated revenue.
		Rs.		Rs.			Rs.			Rs.
1881-82	580	70,130	2,889	2,04,279	19,591	124	59,682	6,248	6,203	13,70,564
1882-83	260	38,472	1,023	1,23,989	31,963	56	27,331	1,032	6,606	7,78,548

The net increase of revenue produced by these settlements amounts to Rs. 71,472. The Board notice the fact that in the Sunderbuns several engagements for the cultivation of waste lands have been thrown up, and an enquiry into the causes of these relinquishments seems to indicate that the rules for assessing waste lands in that district need revision. On this point the Lieutenant-Governor will be glad to receive a special report from the Board. It is very desirable that no avoidable obstacle should be thrown in the way of reclamation enterprise in the Sunderbuns.

15. In the Burdwan, Rajshahye, Patna, and Chota Nagpore Divisions the settlement work of the year was unimportant; in the Dacca Division it was larger, but raised no questions of difficulty; but in Chittagong certain defects have been discovered in the Noabad settlement operations, which have necessitated a revision of that work which had been reported in the early part of 1882 as satisfactorily concluded. On this question the Lieutenant-Governor has recently received a report from the Board, which is now under his consideration. The questions raised by the Noabad settlement proceedings are very intricate. The Lieutenant-Governor had lately an opportunity of discussing them personally with the Commissioner of the Division at Tipperah, and as they have an important bearing on portions of the Bengal Tenancy Bill, they are being considered in that connection.

16. In the Chota Nagpore Division the settlements of Government estates have been unimportant from a financial point of view; but certain facts which have come to the Lieutenant-Governor's notice in connection with the system of assessing rents in the Dunwar Wards' Estate have raised doubts in his mind as to the soundness of the principles of settlement followed in that Division. Mr. Rivers Thompson has recently conveyed to the Board of Revenue his views on settlements in Chota Nagpore, and he would now request the Board at a convenient opportunity to report whether the procedure in regard to settlements in Government estates there is in harmony with those views.

17. In Orissa the chief settlement work was in the Khoordah Estate, in which, however, matters were impeded by the suspense which prevailed regarding the action of Government on the petitions presented against the settlement by the Khoordah ryots. As orders have now been passed on that petition, which are generally favourable to the claims of the ryots, it is to be expected that the settlement will now be concluded without further difficulty or delay. The Lieutenant-Governor notices the Board's remarks on the arrangements made to keep the settlement records up to date, and he will be glad to hear of the progress of these arrangements. They might probably find a place in a larger system of local agency under the proposed Agricultural Department.

18. Paragraphs 94 to 111 of the Board's report, which refer to irrigation, drainage, and embankments, will be referred for consideration to the Public Works Department under this Government.

19. *Subordinate Executive Service.*—The Board are of opinion that "the reports of the local officers afford ample evidence of the continued usefulness of the Subordinate Executive Service. In most cases the officers composing it have been employed in their legitimate out-door work, such as settlements, partitions, land registration, collection of zemindari dâk tax, measurement of Government estates, collection from estates under khas management, maintenance and repair of Government embankments, identification of estates and tenures purchased by Government at revenue sales, preliminary enquiries in land acquisition cases, statistical enquiries, testing surveys, excise matters, and in making enquiries into the progress and condition of new churs." This state of things is in accordance with the Lieutenant-Governor's views as expressed in the 23rd paragraph of his Resolution on last year's report, and Mr. Rivers Thompson is glad to perceive that the functions of this branch of the Subordinate Executive Service are now clearly understood by district officers, and as a rule properly enforced. As the Commissioner of the Presidency Division remarks—

"Past experience shows that there was too great a tendency on the part of Sub-Divisional Officers to relieve themselves of much of their judicial work by making it over to their Sub-Deputies, to the detriment of the legitimate work of these officers. Any relaxation of the rules is, therefore, likely to lead to a repetition of the evils that were brought to light at the enquiry held by the Special Committee appointed in 1880 to reorganize this service."

The remarks quoted from the Burdwan Commissioner's report in the Board's 114th paragraph, regarding the propriety of promoting deserving canungoes to sub-deputyships have the Lieutenant-Governor's concurrence, and will be considered in the Appointment Department of this office.

20. *Land Registration.*—The following table shows the work done in this department since the beginning of operations under the Act:—

Total number of applications received up to 31st March 1883.	Total number disposed of prior to 31st March 1882.	Total number disposed of during 1882-83.	Balance pending on 1st April 1883.	Total number of applications granted up to 31st March 1883.	Number of cases in preceding column of which particulars have been entered in register.	Number remaining to be entered on 1st April 1883.	Total cost incurred up to 31st March 1883.	Total fees received up to 31st March 1883.	REMARKS.
1	2	3	4	5	6	7	8	9	10
							Rs.	Rs.	
1,027,490	852,441	82,586	92,463	760,502	757,447	3,115	4,07,861	1,41,116	

The work is now quite finished in 31 districts, and in six others only a few cases remained to be disposed of. Practically the work is complete in 37 districts, and only in Chittagong and Orissa, where the number of estates to be registered was enormous, does much work remain to be done. During the year 79,310 registrations were effected in these districts. The general excellence of the work is again attested by the fact that only 341 appeals were preferred to the superior revenue authorities during the year, and only 41 suits instituted in the Civil Courts to contest the orders of the Revenue Courts of First Instance. These suits all arose in two districts—Bhagulpore and Pooree. The total expenditure during the year in this department amounted to Rs. 54,037. The marked success and ease with which this great administrative reform has been accomplished, notwithstanding many prognostications of failure from experienced officers, encourages the Lieutenant-Governor to think that the time has come when the registration of proprietary title, which has been effected, should be extended to tenures of all descriptions. This point is under his consideration in connection with the Tenancy Bill. There were grave irregularities in the land registration work in Calcutta, and much of the work completed is so untrustworthy and useless that a complete revision has to be undertaken. With the aid of a special officer now deputed to the duty, the work should be thoroughly carried out under proper supervision.

21 *Road and Public Works Cess.*—The Board's report reviews the cess operations for the year ending 30th September 1882, and the following statement compares the results of the year under review with those of the two years preceding:—

	DEMAND.			BALANCES.			Deduct remissions.	Net arrears.	Per cent. on gross demand of net balance.
	Current.	Arrear.	Total.	Current.	Arrear.	Total.			
	Rs.	Rs.	Rs.	Rs.	Rs.	Rs.	Rs.	Rs.	
1879-80	68,37,377	10,12,829	78,50,206	7,69,113	1,74,934	9,44,047	21,289	9,22,758	11·7
1880-81	69,14,587	9,22,041	78,36,628	10,06,326	1,84,826	11,91,152	17,523	11,73,629	14·9
1881-82	70,10,994	11,71,062	81,82,056	9,54,818	1,92,233	11,47,051	10,941	11,36,110	13·8

This table shows an apparently unsatisfactory state of affairs in the fact that very large balances were outstanding at the year's close. Things, however, were really better than they seem, as the following remarks of the Board will show:—

"To give full credit to the several Collectors for the year's realizations, it is necessary to add to the collections of the year under review the collection made in the first quarter of the succeeding year during which no demand of cess falls due. Omitting Orissa and the four districts of Darjeeling, Chittagong, Hazaribagh, and Lohardugga, to which the above remarks do not apply, it has been shown that the total balances of the remaining districts were reduced on the 31st December 1882 from Rs. 10,69,148 to Rs. 6,38,464, and the total gross demand of the year for the same districts being Rs. 75,18,344, the percentage of the balance to the gross demand is 8·4 against 9·07 in 1880-81 and 7·6 in 1879-80. Thus, with the exception of 8·4 per cent., the total demand of the year, most of which did not become payable till the last days of the year, had been realized within three months of its

close; but this result was obtained at the cost of the labour entailed by filing in the Collector's office, and causing to be served notices of no less than 93,745 certificates under the Public Demands Recovery Act.

The results thus obtained entirely bear out the remarks made by the Lieutenant-Governor in the 25th paragraph of the Resolution on last year's report, that "all that is needed to make this (certificate) procedure a perfectly effectual means of recovering the just dues of Government without injustice to ryots, and in a smooth and rapid manner, is that it should be worked systematically." When thus worked for a short time, people will come to realize the desirability of punctual payment, and the number of certificates will, Mr. Rivers Thompson has no doubt, rapidly diminish.

22. During the year revalutions were completed in the districts of Julpigoree, Maldah, and Manbhoom, with the result of increased valuations in each district. In several districts of Central and Eastern Bengal partial revaluations were effected, also with the result of increased assessments. Should the revaluations now going on in Behar show similar results, the suspicions of those will be verified who believed that the cess returns of 1878-79 in placing the legitimate zemindari rental of these Provinces at 13½ crores of rupees (the revenue being 3¾ crores), far understated the facts. What the illegitimate income from abwabs and cesses may be we can only guess from such reports as those of the Collector of Purneah and the Commissioners of the Rajshahye, Chittagong, Presidency, and Patna Divisions. It is very safe to say, however, that it must be great.

23. *Sales.*—Under the provisions of the sale law, 9,735 estates and shares of estates became liable to sale for arrears of revenue, and of these 2,148 were actually brought to sale. As in previous years, by far the largest number of sales—indeed two-thirds of the whole—took place in the district of Chittagong. Last year the Lieutenant-Governor's attention was arrested by the frequency of revenue sales in that district, and enquiries were made as to the causes at work. These enquiries have not yet been completed; but enough has been ascertained to show that the causes lay far deeper than the system of collection to which the defaults had been attributed. Where assessments were bad in themselves, and made on wrong principles, it was hopeless to expect good collections. The Chittagong settlement question is no doubt an intricate one; but there is now ground for hope that, under the measures which have been recently adopted, the errors that have occurred will be corrected, and the frequency of forced sales in this district reduced within the moderate limits which elsewhere prevail.

24. The Lieutenant-Governor notices the remarks made by the Board in the 138th and 139th paragraphs of their report, on the absence of any legal power on the part of either the Board or the Government to interfere with revenue sales unless an appeal has in the first instance been made to the Commissioner. It is satisfactory to find that the Sale law is worked leniently by most district officers; but clearly from the instances quoted this is not always the case, and a right of intervention should be reserved. On this subject the Lieutenant-Governor will be glad if the Board of Revenue would consider the law more at length in communication with the law officers of Government, and favour him with a separate report.

25. *Separate Accounts.*—Under this head the year's results closely approximate to the results recorded last year, and there is nothing of special interest to note, except that increased advantage is being taken of the protective clauses of the law. Separate accounts are now open for 28,899 shares of all sorts, while 4,329 tenures are protected against cancellation at revenue sales.

26. The Board enter fully into the working of the certificate procedure, to which allusion has been made under the head of Road and Public Works Cess. It seems that in Orissa and Behar recourse is had to the procedure chiefly to recover arrears of water-rates under Act III (B.C.) of 1876; while in Bengal certificates are chiefly issued for the collection of cesses under Act IX (B.C.) of 1880. The following remarks quoted from the Report show clearly the effect of the procedure:—

"When reviewing the operation of the Cess Department in 1881-82, the Board pointed out that it was a mistake to suppose that the mere filing of a certificate by the

Collector, and issue of a notice under section 10 of the Act, signified the employment of coercive measures; they explained that there was nothing restrictive in the proceeding, except that the notice of the certificate prevented the transfer of immoveable property, and that coercion did not begin until the property was attached at the expiration of the period of the notice. The Board's views on the subject were illustrated by figures which showed to what stage it had been necessary to carry the certificate proceedings before recovery of the claim in the majority of the cases in which the procedure had been put in force; and the result shewed that in comparatively few cases was it necessary to proceed to sale, either of moveable or immoveable property, before the demand could be recovered.

The following statement has been prepared in further illustration of the subject, showing the results for each division:—

Name of Division.	Number of certificates filed during the year 1882-83.	Number of cases in which payments were made on mere issue of notices.	Number of cases in which payments were made on attachment of property.	Number of cases in which recourse to actual sale was necessary.	Number of cases in which warrant was issued and amount paid without recourse to imprisonment of defaulters.	Numbers of debtors imprisoned.	
						Number released on payment of debt before expiration of imprisonment.	Number released without payment of debt.
1	2	3	4	5	6	7	8
Burdwan	39,635	20,828	9,062	686	968	15	19
Presidency	9,658	3,883	2,730	646	159	1	4
Rajshahye and Cooch Behar	8,805	2,071	2,695	77	4,337	.....	6
Dacca	16,893	5,628	6,376	2,995	1,042	16	4
Chittagong	6,795	1,245	2,422	1,784	712	5	34
Patna	37,667	14,041	12,670	589	2,291	2	1
Bhagulpore	10,200	4,954	2,651	380	288	9	9
Orissa	1,41,822	72,949	12,655	260	3,791	12	4
Chota Nagpore	1,046	5.0	199	51	1	.....	
Total	2,71,963	1,26,264	50,360	7,388	13,589	60	81

Columns 3 to 6 of the preceding statement account for nearly three-fourths of the certificates filed, and the balance is understood to be pending. These results bear out the remarks already made, and the forecast of the Collector of Midnapore, that "when the provisions of the law become more familiar to the public voluntary payments may improve, and the number of certificate cases decrease."

27. With reference to the employment of the certificate procedure in recovering rents in Wards' estate, the Board have the following remarks:—

"The increase in the number of certificates filed for the recovery of demands in Wards' estates in the 24-Pergunnahs has led the Collector to remark that the rent-collectors under the managers, to save themselves the trouble of making collections, report the ryots as defaulters, in order that the certificate procedure may be resorted to; and similar remark against managers appear in the report of the Commissioner of Bhagulpore. This practice has been already condemned by the Board, and in a recent circular order they have pointed out that it is not intended that certificates should be filed in any cases in which suits would not have been issued under the former procedure, and that it rests with Collectors to exercise due care and discretion on the working of certificates so as to leave no room for any misapprehension of the practice. A manager should not sit in his office and write out certificates by thousands, but should stir up his assistants to push on collections and not until all reasonable means short of suits have failed should he have recourse to the certificate procedure."

In these remarks the Lieutenant-Governor entirely agrees; indeed they are in complete harmony with the observations made by him in the Resolution recorded last year on the Wards' Report. Mr. Rivers Thompson trusts the Board will lose no opportunity in giving effect to this policy; and he desires that the names of any managers of Wards' estates found misusing the certificate procedure in the manner indicated may be specially reported to Government.

28. *Partitions.*— In last year's Resolution reference was made to a proposal to amend the Butwara law with a view to placing a limit on the creation of petty estates. It was found impossible to legislate during last session of Council; but the Government of India have now agreed to an amendment of the Partition Law, whereby no estate shall be created with a smaller revenue than Rs. 10. The right, however, to enforce a partition without affecting joint responsibility for revenue will be preserved to co-sharers, the revenue on whose shares would fall within the Rs. 10 limit, by an amendment of sections 265 and 396 of the Civil Procedure Code. Separate possession of their

shares will thus be secured to such sharers; and by opening separate accounts with the Collector, such sharers may thereby enjoy all the practical benefits of a Butwara, without the delays to themselves and inconvenience to the administration which the present system involves. The number of applications for Butwara showed a slight decrease during the year, being 571 against 605 in the preceding year. As before, the institutions were chiefly in the Patna Division, while in Dacca and Bhagulpore the numbers were nearly equal. Partition cases have taken place in no other portion of the province. The number of cases disposed of during the year was 469, which is an improvement on the preceding year's results, but still leaves much to be desired.

29. Under the heads of redemption and alienation, the report furnishes the usual information, which, however, for the year under review, presents no feature of special interest.

30. *Land Acquisition.*—During the year the Board confirmed proceedings in regard to the acquisition of 10,526 acres of land at the cost of Rs. 14,50,990, besides Rs. 2,539 in the shape of abatements of revenue. The land was chiefly needed for irrigation and railway extensions, and the Board express themselves satisfied with the conduct of the officers engaged in these operations. The questions referred to by the Board in their 193rd and 194th paragraphs, regarding award of compensation to occupancy ryots, and the amendment of the Land Acquisition Act, have been referred for the consideration of the Government of India.

31. *Waste Lands.*—The following statement gives the particulars of waste lands held under cultivation leases in these Provinces:—

Districts.	In 1882-83.				Altogether to end of 1882-83.			
	Number of leases.	Area in acres.	Present revenue.	Eventual maximum revenue	Number of leases.	Area in acres.	Present revenue.	Eventual maximum revenue.
			Rs.	Rs.			Rs.	Rs.
Sunderbuns ... Ordinary settlements	2	2,664	..	1,278	21	24,781	4,743	18,102
Sunderbuns ... Grants under rules of 1879 for larger capitalists	...	... ..	.....	.. .	8	10,039	.. .	9,395
Sunderbuns ... Cultivation leases under rules of 1879 for small capitalists	3	53	.....	256	15	148	8	436
Darjeeling	1	4,950	.....	1,856	55	17,189	16,269	27,308
Julpigoree ... Ordinary leases	120	3,247	236	2,135	2,109	92,780	15,917	81,846
Julpigoree ... Tea leases ...	3	868	.. ...	651	59	28,603	3,871	21,475
Chittagong	... ..	. ...	...	. ..	1	16	6	12
Loburdugga	..	..	.. .	.	1	1,248		1,384
Total	129	11,682	236	6,476	2,269	210,104	40,814	3,60,967

No change in the general policy of Government in regard to waste lands was introduced during the year; but after its close the propriety of granting more favourable terms in tea leases, and of adjusting the lease provisions of arable grants, so as to press even less than they do now on small capitalists, were taken into consideration. The Lieutenant-Governor is glad to find that his orders on the first point have met the wants of the planting community. The second point is still undecided.

32. The Lieutenant-Governor has read with interest the remarks contained in the Board's 197-99th paragraphs on the relations of waste land grantees, and the actual cultivating ryots in the Sunderbuns. The same questions have been raised by the settlement proceedings in Chittagong and Noakholly, and they have, as the Board observe, a most important bearing on the Tenancy Bill. As at present advised, the Lieutenant-Governor thinks that the difficulties to which the Board refer might be solved by a definition which, preserving as occupancy ryots (no matter under what designation) those grantees who retain a substantial cultivating interest in the holding, would class as tenure-holders all those other grantees who have divorced themselves from all connection with, or responsibility for the cultivation, and are mere rent-receivers. Thus, under the elastic rent system prevalent in some deltaic districts, where cultivation

expands or contracts yearly with the rise or fall of prices, the responsibility for the holding is largely shared by the grantee, and he might fairly be allowed the *status* of an occupancy ryot. But in such cases as those referred to by Mr. Pargiter in the passage quoted in the margin, it seems to the Lieutenant-Governor that on no equitable principle, and on none of true expediency, can the cultivators of the soil be excluded from the rights secured by the law to occupancy ryots. This whole question, however, will come under careful revision during the progress of the Tenancy Bill through Council. As regards the operation of the Lease Rules of 1879 in the Sunderbuns, there seems no present reason for any modifications. If, as the Commissioner asserts, even more favourable terms would not promote clearances, no necessity for any change arises; and certainly as affecting the reserved and protected forests in Khulna and the 24-Pergunnahs, the Lieutenant-Governor would maintain the policy that reclamations must be subservient to considerations of forestry. There is plenty of land for cultivating purposes; the area of forests and of fuel supplies is limited.

"The ryots are resident, or intend to become so as soon as they have cleared a sufficient piece of jungle. Their lands are steadily cultivated year after year, rarely vary, except towards extension, by the further clearance of jungle, and seldom relapse into waste except for some serious burden or calamity; their rates do not fluctuate, but are fixed in the same way as ordinary ryots' rates with which they conform in all respects. The hawaladars take no active part in reclamation, except, perhaps, during the first year or two in felling the jungle: in all other respects they are influential middlemen, who consider themselves entitled to at least 25 per cent profit on their subordinates' rents, which they have no particular objection to Government's taxing."

33. *Canoongoes and Patwaris* are, in every district where they exist, in a very unsatisfactory condition, and this state of things must continue till the law on the subject is altered and brought into harmony with the times. The subject is receiving the Lieutenant-Governor's attention, and a recent communication on the legislation necessary to establish the system on a proper basis has been made to the Board of Revenue.

34. *Relations of Landlord and Tenant.*—There were fewer enhancement and more relinquishment notices than in the preceding year; but the Board do not think the figures on either head indicative of the real feelings of zemindars and ryots, or such as to call for special remark. The Board give extracts from some of the divisional reports as to the state of feeling generally between zemindars and ryots in these divisions; but do not sum up the effect of the opinions they quote, which, besides, cannot be taken as a satisfactory indication of the state of opinion in other divisions which are not mentioned. However, it may be noticed that in the Rajshahye Division opinions are of a negative rather than of a positive character, the fact that in most districts no open breaches of the peace have occurred being apparently a matter for congratulation. The evidence before the Government, however, seems to show that a feeling of distrust and hostility exists between zemindars and their ryots (with but few exceptions) in this division. As the Collector of Pubna says: "General testimony concurs in the statement that there is an utter want of sympathy between landlords and tenants." The Commissioner of the Dacca Division states that, while "everywhere considerable difficulty is felt in realizing rents," in Mymensing "the unsatisfactory relations between landlords and tenants have grown and become intensified." Such a state of tension, says the Collector of Mymensing, "cannot be expected to last very long without either collapsing or developing itself, and it is to be hoped that the new Tenancy Act will soon provide a *modus vivendi* by providing landlords with a workable machinery for enhancing to a fair figure, and for getting in arrears of rent admitted to be due. Under the present law, enhancement by suit in court is virtually impossible, and the levy of arrears by suit costly and troublesome, without being speedy."

If enhancement by suit in court be difficult, enhancement by illegal cesses out of court seems easy, if one is to judge by the procedure of the zemindar of Sherepur, who has habitually levied a cess called "*Saheblok khilane ka kurcha*" (expenses of hospitality), because on one occasion some years ago he entertained some European gentlemen at dinner.

35. From the Patna Division the Commissioner reports as follows:—

"The relations between the landlord and the tenant were not such as to call for any special notice. They were, on the whole, peaceful and undisturbed. It is, however, generally believed that there is a want of real confidence and cordiality between the two classes. Instead of working together in a friendly way, they try to take advantage of any points

which may tend to the other's loss. Writing on this subject, the present Collector of Mozufferpore characterises the zemindars of his district as short-sighted, grasping, and oppressive. This is generally true of the zemindars of Behar as a class; but it is satisfactory to observe that the ryots are gradually and steadily awakening to a knowledge of their rights and privileges, and that they do not now, as they used to do before, submit, without strenuous opposition, to the illegal enhancements of their landlords."

In this "short-sighted, grasping, and oppressive" policy on the part of the zemindars, and in this growing "strenuous opposition" on the part of the ryots, the beginnings of serious trouble are perceptible if early measures are not taken to counteract them by removing their obvious causes. As the late Lieutenant-Governor, shortly before relinquishing his office, said on this subject of agrarian disquiet in Bengal: "All the elements of disturbance are still existent; and the Lieutenant-Governor would strongly advise the Government of India to have the rent question settled in Bengal while the country is tranquil, while seasons are favourable, and the people well off, and reason can make its voice easily heard, rather than allow things to drift on till another famine or a second outbreak of the Pubna riots compel the Government to take up the subject with all the haste and incompleteness that too frequently affect measures devised under circumstances of State trouble and emergency." Sir Ashley Eden wrote in the presence of splendid harvests and general prosperity. But even now significant indications are not wanting that a continuance of this prosperity cannot be counted upon; while with short crops agrarian unrest is, under present circumstances, certain to occur. It therefore seems to Mr. Rivers Thompson to be the imperative duty of the Government no longer to postpone the legislative measures necessary for placing on a satisfactory and permanent basis the interests of all classes of the agricultural community.

Referring to the levy of illegal cesses by zemindars, the Commissioner of Patna reports the fact that "a new form of illegal cess is now taken in the name of Government by unscrupulous landlords. Thus, if the road cess demand is half an anna in the rupee, the proprietor will take one or one-and-a-half annas from the ryot." This method of extortion is, the Lieutenant-Governor fears, very general throughout the Patna Division, and it will continue to be so until security of tenure and a record of rents really demandable afford the ryot a necessary protection. The Lieutenant-Governor is quite willing to recognise the voluntary character of many forms of cesses; but this only enhances the difficulty of dealing with the question.

From Orissa and Chota Nagpore but scant indications of public feeling on agrarian matters have been reported. The reports declare that matters are there generally in a satisfactory condition; but the Lieutenant-Governor does not fail to notice the fact that the aggregate number of rent-suits in those divisions has increased even over the large number reported last year; that in Hazaribagh the notices of relinquishment were filed by tenants of a landholder "who can never suffer his ryots to remain in peace;" while the settlement cases from Chota Nagpore, which have come before Government for revision, tend to show that large bodies of the tenantry are discontented.

36. *Office Inspections.*—In last year's Resolution the Lieutenant-Governor stated that he looked on office inspection as a most important part of a Collector's duty, and that he would insist on its punctual performance. It is incumbent on district officers to inspect their offices thoroughly at least once every half-year, and it is not too much to say that without such inspections a well-ordered routine of business cannot be maintained. The Commissioners of Divisions have a much wider range of duty on their tours, and the work of inspection of their own and all subordinate officers rightly devolves upon the Magistrate and Collector of a district. It is therefore with regret that Mr. Rivers Thompson notices the fact that during the year no more than one inspection was made in 16 districts, while in Cuttack, Balasore, and Maldah this important duty, which should have been discharged by the district officer in person, was delegated to subordinates. In Pooree no inspection was made at all by the Collector, Mr. Grant, while in Dacca Mr. Westmacott explained his omission to inspect his office on the ground of want of leisure. The Lieutenant-Governor desires that an expression of his dissatisfaction be conveyed to Messrs. Porch, Grant, and Westmacott, and he requests that the Board specially

report to Government each half-year the names of the district officers who fail to thoroughly inspect their offices in person.

37. The Lieutenant-Governor notices with satisfaction the progress that is being made in arranging records which have fallen into disorder. The Board's remarks regarding the provision of proper accommodation for the Mymensing records will be separately considered.

38. The paragraphs relating to the conduct of officers will be communicated to the Appointment Department; but here the Lieutenant-Governor desires to express his appreciation of the services rendered during the year by Lord Ulick Browne and Mr. Beames among Commissioners; by Messrs. Stevens, Wilson, Manson, Nolan, Wace, and Cooke, among Collectors; by Messrs. Finucane, Pargiter, Slack, Hare, Marindin, Macpherson, Carstairs, and the late Mr. Tobin among Covenanted Deputy Collectors; and Baboos Parbutty Churn Roy, Bankim Chunder Chatterjea, Bissessur Banerjea and Moulvie Abdool Jubber among uncovenanted officers.

The Lieutenant-Governor again thanks Messrs. Dampier and Reynolds for their administration during the year.

By order of the Lieutenant-Governor of Bengal,

A. P. MACDONNELL,

Offg Secretary to the Government of Bengal.

RESOLUTION ON THE PROGRESS REPORT OF FOREST ADMINISTRATION IN BENGAL FOR 1882-83.

REVENUE DEPARTMENT—FORESTS.

Darjeeling, the 25th October 1883.

RESOLUTION.

READ—

The Progress Report of Forest Administration in Bengal for 1882-83.

The Report is submitted by Mr. Home, who succeeded Mr. Gamble as Conservator of Forests in December last. It has reached the Government several weeks after the date fixed for its submission, and some explanation of the delay should have been offered. The Lieutenant-Governor is, however, willing to make allowance on this occasion for the fact that this is the first annual report submitted by the present Conservator, and that he was in charge of the department for only a small portion of the year. The Report itself contains full account of the working of the department during the year.

2. The total area under the control of the Forest Department at the commencement of the year was 2,711,101 acres, equivalent to 4,236 square miles, and this was increased by the end of the year to 2,766,288 acres, or 4,322 square miles, 60,087 acres having been added and 4,900 acres previously afforested having been relinquished during the year. The Sitapahar Forest in the Chittagong Hill Tracts has also been declared a reserved forest since the close of the year, and there are other tracts in several of the Divisions which have been notified as proposed reserves under section 4 of the Act, and will be brought under the charge of the Department on completion of the requisite enquiries into private rights. The most extensive reserved forests of the Province lie in the Sunderbuns, where they cover an area of 1,581 square miles, and the Chittagong Hill Tracts, where they cover 1,345 square miles. The Julpigoree district follows with an area of 428½ square miles, and then Darjeeling with 351 square miles, Singbhoom with 312 square miles, Palamow with 187½ square miles, and Hazaribagh with 31 square miles. In addition to these, there are 43 square miles of forest in the Sonthal Pergunnahs under the management of the District Officers, and extensive tracts of protected forests in the Sunderbuns and the Government estate of Khoordah in Orissa, and of open forests in Julpigoree and the Chittagong Hill Tracts. The protected forests of Khoordah and the open forests of Julpigoree have been notified as proposed reserves, and will be incorporated with the reserved area of the Province when the preliminary enquiries have been completed.

3. The Sonthal forests were inspected by Mr. Gamble during the year, and his report has confirmed the Lieutenant-Governor in the view that the time has now arrived for extending a more regular system of conservancy to these forests, under the supervision of an officer of the Forest Department. It has already been decided to apply the provisions of the Forest Act to these forests, and this measure will render it essential that the services of a professional forest officer should be available for their management. No officer can, however, be spared for this duty from the existing staff, and an application for an Assistant Conservator has accordingly been submitted to the Government of India. The examination of the private forests of Chota Nagpore was continued during the year. In Hazaribagh six tracts, comprising 270,517 acres, and in Lohardugga an area extending over 1,500 square miles (in addition to 119,660 acres examined in the preceding year), were inspected. Various tracts in both districts are reported by the inspecting officers to contain well-stocked forests, and to be fit for acquisition by the Government, and the Conservator proposes shortly to submit his own proposals on the subject. The Report, however, omits to mention whether any of the proprietors of those forests have introduced, or propose to introduce, some system of conservancy into the management of their forests. Mr. Rivers Thompson desires that the Forest and District Officers of Chota Nagpore will not fail to impress constantly on these landholders the advantages of a more systematic and careful management of

the forest tracts situated within their estates, and to offer them such aid towards this end as may be practicable. Any action taken in this matter should be always noticed in future reports.

4. The demarcation work completed during the year extended to 197 miles, the principal portions having been done in Singbhoom, where the proposed reserves in the Kolhan and Porahat were partly demarcated, and Orissa, where the demarcation of the Angul forests was proceeded with. In Darjeeling the Goom block, purchased from the Darjeeling Municipality at a cost of Rs. 14,000, was demarcated, and the boundaries of the Singalila range, which was declared a reserve during the year, were completed. Considerable opposition was experienced from the people of Singbhoom in the course of the demarcation work in the Kolhan and Porahat, and their objections were not abandoned until the Deputy Conservator personally explained matters to the headmen. The Conservator rightly recognizes the necessity of displaying a spirit of conciliation towards the Kols in this matter, and the Lieutenant-Governor fully approves of concessions being made to them in regard to the fuel and timber which they may require for home use, until they have become familiarised with the altered conditions necessary for the conservation of the forests.

5. The superior staff of the Department has been weak for some time past. The number of officers was fixed at 14 on the reorganization of the staff by the Government of India in the past year, but one of the Deputy Conservators has not joined his appointment, and since the close of the year three officers, to whom leave could not be refused, have proceeded on furlough The present staff is clearly inadequate for the proper supervision of the numerous divisions in charge of the Department, and the Lieutenant-Governor has applied to the Government of India for an extra officer, in addition to the officer required in connection with the management of the Sonthal forests With these officers, as well as a larger and better paid staff of Sub-Assistant Conservators, regarding which also proposals have been submitted to the Government of India, no further addition to the superior staff of the Department will, it is hoped, be needed for some years.

6. The number of cases instituted for breaches of the forest law during the year shows a considerable decline, having been only 73 against 106 in the previous year, and the proportion of convictions to acquittals was also satisfactory, indicating the exercise of a proper discretion on the part of the forest officers in the institution of prosecutions, and in conceding permission to compound offences in accordance with section 67 of the forest law. The comparatively large number of charges for misappropriation of funds preferred against subordinates of the Department belonging to the Forester class, demonstrates the need which exists for very careful supervision by the Divisional Officers, as well as great discrimination in the selection of candidates for admission to this class.

7. The special protective measures against forest fires were very successful in all divisions except Kurseong, Julpigoree, and Buxa ; but the failures in these divisions, particularly Julpigoree, where 30,000 out of 98,202 acres suffered from fires, were in the aggregate so large as to detract seriously from the success of the year's operations. The entire area to which the measures were applied was 387,628 acres, and failures occurred over 39,172 acres, giving a percentage over the whole area of 9 against $7\frac{1}{2}$ in the previous year. The expenditure incurred was smaller than in 1881-82, but the saving thus effected was infinitesimal as compared with the value of the timber which was unfortunately destroyed. The season was dry, and this, doubtless, facilitated the progress of the fires ; but as most of these conflagrations were attributable to the negligence of travellers, it seems clear that the protective measures would have been more effective had a larger number of guards been entertained for the purpose of warning travellers entering the forests against lighting fires at places other than the camping grounds specially set aside for them The Lieutenant-Governor, therefore, approves the Conservator's proposal to increase the number of these guards in the Julpigoree Division during the ensuing season, and desires that the same precaution may be adopted in other divisions also, if necessary. The Divisional Officer of Buxa

deserves credit for his personal exertions in extinguishing a fire which broke out in the Paro block of his division on the 12th February. The Divisional Officer of Kurseong and Mr. Heinig in Palamow are also commended by the Conservator for the good work done by them in connection with fire protection.

8. The subject of natural reproduction is treated on this occasion in a separate section of the Report, and the Conservator endorses the opinion of the Divisional Officer of Kurseong that planting is unnecessary for the reproduction of the Bengal forests, except on extensive grass blanks devoid of seed-bearing trees. The information at present available on this question is, however, limited, the attention of the forest officers not having hitherto been specially directed to it, and the Lieutenant-Governor will await with interest the fuller information which Mr. Home promises to submit in future reports. The system of artificial reproduction pursued by the Department consists of the regular planting of open areas, and of the filling up of blanks in existing forests, departmentally termed cultural operations. Regular plantations have so far been undertaken only in the Darjeeling, Kurseong, Julpigoree, and Chittagong Divisions, and their extent, which at the commencement of the year was 1,215 acres, was increased to 1,379½ acres during the year. The trees planted are mainly of oak, tún, teak, and sâl, and the total expenditure incurred has been Rs. 1,08,294. Cultural operations have been carried on in the Darjeeling, Kurseong, Buxa, and Palamow Divisions, and the total area dealt with up to the end of the year has been 1,060 acres, at a cost of Rs. 16,616. Experiments with exotic trees have been continued during the year, but the results, so far obtained, do not call for notice.

9. The following table shows the number of trees felled during the last two years both by departmental agency and permit-holders in the reserved forests:—

	By departmental agency.		By permit-holders.		Total.	
	1882-83.	1881-82.	1882-83.	1881-82.	1882-83.	1881-82.
Sâl	3,371	3,125	393	176	3,764	3,301
Other plains trees ...	1,302	461	159,468	131,535	160,770	131,996
Hill trees	1,978	916	745	822	2,723	1,738
Total ...	6,651	4,502	160,606	132,533	167,257	137,035

The fellings in the past year thus exceeded those of 1881-82 by 30,222 trees.

10. The estimated outturn of timber and fuel during the two years in cubic feet was—

	1882-83.		1881-82.	
	Timber.	Fuel.	Timber.	Fuel.
Selection, fellings, and thinnings, &c. ...	121,165	259,994	123,375	392,754
Drift, conversion, purchased, &c. ...	51,799	14,007	64,469	22,416
Removed by permit-holders ...	6,579,543	12,171,032	5,442,167	11,605,747
Total ...	6,752,507	12,445,033	5,630,011	12,020,946
Grand Total ...	19,197,540		17,650,957	

These figures represent an average outturn per square mile of the reserved forests of 4,442 cubic feet of timber and fuel during the past year against 4,167 cubic feet in 1881-82. In addition to the timber and fuel, it is estimated that 17,415,767 bamboos were taken from the forests against 18,477,020 in 1881-82, and 4,146,632 maunds of other forest produce against 4,000,141 maunds. It will be observed from the above table that, while the outturn of timber and fuel cut by the Department has fallen off, the quantity removed by permit-holders has increased, this result being due to the present system of selecting for each season portions of forests to be worked during that season, and offering for sale to the public the forest produce as it stands. The plan has worked well, and its gradual extension promises to be a decided improvement in the forest administration of the Province. The departmental timber operations during the past five years have yielded a total income of Rs. 8,15,275, giving an average revenue for this period of Rs. 3Q against

an average cost of Rs. 29-3, and a profit of 25 per cent. on every 100 cubic feet of timber and fuel brought to depôt. The net revenue per cubic foot has thus been 1 anna and 7 pies.

11. The working of the Department during the past ten years has given the following results:—

Year.	Receipts.	Charges.	Surplus.	Area of reserves.
	Rs.	Rs.	Rs.	Square miles.
1873-74	1,23,732	81,068	42,664	120
1874-75	1,85,914	98,654	87,260	1,467
1875-76	1,98,274	1,39,086	59,188	2,585
1876-77	2,22,401	2,11,689	10,712	3,390
1877-78	4,32,363	2,61,112	1,71,251	3,434
1878-79	1,16,027	3,38,675	77,352	2,967
1879-80	4,19,524	2,75,718	1,73,776	2,945
1880-81	5,61,340	3,35,381	2,25,959	3,411
1881-82	6,33,734	3,94,610	2,39,124	4,236
1882-83	6,93,959	3,82,184	3,11,775	4,322
Total ...	39,17,268	25,18,207	13,99,061	.....
Average of ten years ...	3,91,727	2,51,821	1,39,906	.....

The surplus receipts have, it will be seen, steadily advanced during the last four years The Sunderbuns Division, as usual, returned almost the entire surplus of the past year, the balance remaining in that division, after provision for the total expenditure, having amounted to Rs. 3,00,950, being an increase of Rs. 66,845 over the balance of the previous year.

12. In the Resolution on the last report reference was made to the creation of village forests in parts of the Province where waste lands are available for the purpose, and a want is felt for firewood and building materials. Attention has since been further drawn to the matter by the issue of the Resolution of the Government of India pointing out the advisability of establishing fuel and fodder reserves wherever praticable in localities now destitute of such reserves. Enquiries are being made on the subject, which has a special importance for many parts of Bengal, and it will be fully considered when the reports of all the officers consulted have been received.

13. The following are the points deserving of notice in the working of the different divisions during the year:—

Darjeeling.—More accurate data regarding the area of this division having been obtained during the year, 1,996 acres were excluded from its estimated area of 25,584 acres, but the addition of the Singalila range, comprising 41,254 acres, raised the area during the year to 64,842 acres. The Goom block of 700 acres, purchased from the Darjeeling Municipality, also remains to be added. The draft notification finally constituting this block a reserve has, the Conservator states, been in the hands of the Forest Settlement Officer since March last, and the cause of the delay in submitting it to the Government is not known. The Commissioner will be requested to expedite its submission. The plan of working the forests of this division prepared by Dr. Brandis in 1880 was revised by the present Inspector-General of Forests in April 1882, and will be adhered to during the term of ten years (beginning with 1880) for which it has been framed. It provides for the allotment of certain areas annually for the supply of timber, fuel, bamboos, grazing and other forest produce to the station of Darjeeling, the Cantonment of Jellapahar, the station of Kurseong (partially), the Darjeeling-Himalayan Railway, the tea estates, and the Government cinchona plantations. The supply of firewood to the station of Darjeeling will in future be left entirely to private enterprise, the right to cut firewood in the areas selected for each season being periodically sold by public auction. The Government fuel depôt has now ceased to supply the station, but it will be retained as a reserve, until the private trade has been established on a thoroughly satisfactory basis, in order that the station may not at any time be left without fuel through the failure of the private dealers to meet the demand. The arrangements for grazing have also been completed,

the principle being the location of the graziers on blocks specially set aside for their use. The men were each offered the choice of a block, and every effort was made to suit their convenience as far as practicable. The measures for the prevention of forest fires in the division were attended with complete success during the year. An inspection of the Singalila range having shown that its forests have suffered much from former fires, probably caused by graziers, the Conservator is of opinion, and has separately recommended, that the range should be entirely closed to grazing. The Lieutenant-Governor has, however, expressed his unwillingness to sanction so extreme a measure, and he will await the fresh proposals which Mr. Home has been requested to submit after a visit to the range in company with the Deputy Commissioner. The system of artificial reproduction by regular plantations has been more largely practised in this Division than elsewhere, and the area af the plantation at the end of the year was 581 acres. Cultural operations, on the other hand, have been undertaken on a total area of only 61 acres The forest roads were kept in repair during the year, but it is not satisfactory to learn that the only new road constructed has proved of little value, owing to faulty construction and the selection of an unsuitable line. The cause of this failure is attributed to the inexperience of the subordinate officer placed in charge of the work, but having in view the responsibility of the Divisional Officer for work entrusted to subordinates, the explanation is not sufficient. The quantity of fuel and timber taken out of the forest by the Department during the year was 251,541 and 4,928 cubic feet respectively, showing a falling off of 139,594 cubic feet in the total quantity as compared with the previous year; but the reduction was nearly made up by an increase of 128,986 cubic feet, or about 57 per cent. in the quantity removed by purchasers, which amounted to a total of 355,879 cubic feet. The total income of the Division was Rs. 71,396, and the expenditure Rs. 74,664, the year thus closing with a deficit of Rs. 3,268, a result which was, however, due to the large payment made to the Darjeeling Municipality for the Goom forest.

14. *Teesta.*—The area of this division was increased during the year by the addition of the Jeet and Chee Chu and the Jaldaka forests comprising 18,833 acres, and its total acreage at the close of the year was 160,187 acres. The number of prosecutions for forest offences was only six, in all of which convictions were obtained. The Conservator states that great difficulty is experienced in checking illicit grazing by persons living across the Sikkim frontier, as the offenders can seldom be apprehended within our territory. In the Lieutenant-Governor's opinion this is not a matter of sufficient importance to call for the adoption of special measures, and the Department must endeavour to prevent the infringement of its rules with the means at present at its command. The amount of road work done during the year was considerable, consisting of six miles of construction, chiefly along a high ridge at an altitude of from 8,500 to 10,000 feet, and 57½ miles of repairs. The only trees felled by the Department were 190 sâl, and 2,232 sleepers were supplied to public departments from the depôts. The quantity of timber and fuel removed by permit-holders was 28,532 and 32,550 cubic feet respectively, there being in both cases a considerable decrease as compared with the previous year The revenue of the year was Rs. 10,182 against an expenditure of Rs. 27,905.

15. *Kurseong.*—A block of 142 acres was excluded from the reserves during the year, reducing their area to 57,216 acres. A regular system of working has been gradually introduced in this Division during the last three years, and the sale of forest produce by tender has also been commenced. Fires were somewhat numerous during the year, and altogether 2,132 acres were burnt; but considering the extreme dryness of the hot weather months in the Western Terai, the Conservator observes that the results of the protective measures may be deemed satisfactory. The system of planting in lines was extended to this Division in 1881-82, and is said to be answering well. The main advantage of this plan is that the young plants are well protected by natural shade, and that a considerable reduction is obtained in the cost of the operations. The regular plantations comprised 438½ acres at the end of the year, and the cultural operations 239 acres. The chief timber work undertaken in the Division was the supply of narrow-gauge sleepers to the Northern

Bengal State Railway, the number of which supplied during the year was 20,000. Complaints were made regarding the quality of some of the supplies, but the Conservator points out that the indents are not usually submitted in time to admit of seasoned sleepers being got ready, and suggests that, in the case of saj sleepers especially, the indents should be sent in more than a year in advance. His remarks on the subject will be communicated to the Railway Branch. The quantity of timber, in logs and sleepers, sold during the year was 33,425 cubic feet, and, in addition, 336 cubic feet, in logs and pieces, 1,425 maunds of firewood, and several hundred bamboos and India-rubber cuttings collected by the Department were sold outside the depôts. The Division yielded an income of Rs. 58,858, while the charges amounted to Rs. 43,928 only.

16. *Julpigoree.*—No change was made in the area of this Division, which consists of 114,270 acres. The forests being young are not yet worked for revenue, and only trees absolutely required for local purposes are felled. As already noticed, very considerable damage was done during the year by fires. Regular plantation has hardly been undertaken in the division, only 3 acres having been planted with teak, tún, and sâl. No new roads were constructed in the past year, but 50 miles of old road were kept in repair, and 23 miles of bridle-paths were cut and kept clear. The sales from depôt amounted to only 4,785 cubic feet of timber, and 3,380 maunds of firewood, and 67,966 cubic feet of timber; dry wood and fuel were also sold on permit. The Division cannot obviously be expected to yield a surplus until the forests are fit to be regularly worked. The income in the past year was Rs. 11,805, and the expenditure Rs. 18,974, the result being a decifit of Rs. 7,169.

17. *Buxa.*—This Division also retained the same area (160,000 acres) throughout the year. A very noticeable feature of its forests is the vigorous groth of the natural sâl seedlings in the Buxa reserve. Plantations have not been attempted, but the cultural operations have been the most extensive of any Division, 751½ acres having been thus planted to the end of the past year. An experiment in growing the rain-tree (*Pithecolobium saman*) is being made, and seems to promise success. The forests suffered greatly during the year from two fires, extending over an area of 7,040 acres. A new road was commenced in the Paro block, and the compartment lines in the Buxa and Borojhar ranges, with a total length of 79 miles, were kept cleared for ponies and elephants, and in some places for carts also. The felling operations of the year were chiefly confined to some compartments of the Rajabhatkawa block. The sales from depôts amounted to 50,394 cubic feet, including 17,902 sleepers, and in the forests to 2,422 cubic feet, including 78 sleepers. The chief departmental work was the supply of 15,976 sleepers to State Railways. An indent for 25,000 sleepers was also received from the Dacca-Mymensingh Railway, but owing to the difficulty of procuring sawyers, the shallowness of the river on which the boats were to be loaded, and the distance of the forests from Dacca, the sleepers could not be delivered before the close of the year. It is assumed that the indent has since been complied with. A number of Mechis from the Goalpara district are reported to have come over and taken permits for felling about 200 sâl trees, which they cut into logs and left in the forest to season until after the rains, when they proposed to return and remove them. The Lieutenant-Governor will be glad to learn the result of this venture in the next Report. Such a system of working by outsiders seems to deserve encouragement. The quantity of timber, dry wood and fuel taken by permit-holders during the year was 53,275 cubic feet, being a considerable increase over the quantity removed in 1881-82. The financial result of the year was a surplus of Rs. 8,534, the receipts having been Rs. 80,443 and the expenditure Rs. 71,909.

18. *Palamow.*—The area of the reserves was reduced to 117,313 acres during the year by the exclusion of 2,762 acres from two of the forests. The plantation system has not yet been introduced into the Division, and cultural operations have been undertaken to a very limited extent only. No new road work was done during the year. The divisional bungalow at Palamow was enlarged and repaired, and the depôt rest-house at Kechki was completed, but the Conservator speaks unfavourably of the manner in which these works were carried out. The departmental operations were limited to the felling of

427 poles, and 237,110 bamboos were also cut. The sales from depôts comprised 95 poles and 566,439 bamboos, and those on permits 128 maunds of fuel and 29,550 bamboos. The public demand for forest produce in this Division is very limited, there being large areas of forest and grass lands still open, to which the people are free to resort, and the revenue is accordingly small. Only Rs. 5,824 were realised during the year, against an expenditure of Rs. 21,686. The real value of these forests, however, lies in the future, when their large stocks of timber can be utilised for railway construction in Chota Nagpore.

19. *Hazaribagh.*—The reserved forests of Hazaribagh are of comparatively small extent, covering an area of not more than 31 square miles at the end of the year, which has since been increased to about 46 square miles by the addition of a new block. Fellings have not yet been allowed in the division, and the only forest produce removed during the year was a few thousand bamboos and loads of sabai-grass, which yielded Rs. 85, while the cost of management was Rs. 3,431.

20. *Singbhoom.*—This Division already covers an area of 312 square miles, and large additions in the Kolhan and Porahat are contemplated, the preliminary notifications of which under section 4 of the Act have been issued. The only operations at present carried on is the felling of dry sâl trees for sleepers, and 2,499 broad-guage sleepers were thus prepared during the year. The receipts of the year were Rs. 766, including Rs. 716 paid by purchasers of bamboos and minor produce, and the charges amounted to Rs. 19,415. The Conservator anticipates that in a few years the Division will yield a surplus second only to that of the Sunderbuns.

21. *Sunderbuns.*—This is the largest as well as the most profitable of the Divisions, supplying, as it does, the populous districts of Khulna and the 24-Pergunnahs and the town of Calcutta with timber, fuel and other forest produce. The only timber operation undertaken by the Department during the year was the preparation of 800 sundry planks for the Calcutta Municipality. The sales of drift, confiscated wood, and timber amounted to 2,643 cubic feet. The forests are almost exclusively worked by permit-holders, and the total quantity of timber and firewood taken by them last year was 17,816,230 cubic feet against 16,290,591 cubic feet in 1881-82, besides 3,755,668 maunds of minor produce against 3,299,250 maunds. The revenue was Rs. 3,45,684 with an expenditure of Rs. 44,704. It is essential, for the protection of the revenue in this Division, that the stations should be constantly visited and supervised, and this duty should be very carefully attended to by the Divisional Officer.

22. *Chittagong.*—There was no change in the area of the reserves during the year, but the Sitapahar forest has also been gazetted a reserve since the close of the year. The plantations of the Division comprised 357 acres at the end of the year, and the system of planting in lines introduced in the previous year was continued, but the short rainfall and great heat of the weather in July and August were unfavourable to the young plants, many of which were destroyed as soon as they were put out. An attempt to raise a crop of teak seedlings failed, and a similar experiment with mahogany seed, which had been previously tried without success, also resulted in almost complete failure. Twenty-five seedlings only survived, and these it was proposed to plant out during the rainy season of the present year. A commencement was made with departmental felling during the year, and 67 trees were cut, which gave 64 logs and 499 sleepers. Twenty-nine pieces of six species of wood were despatched to London for sale, for the purpose of ascertaining the value of such timber in the London market; the result of the sales was not quite satisfactory, and the suitability of these kinds of wood for the home markets is doubtful. The forest produce conveyed by permit-holders past the revenue stations consisted of 8,188 cubic feet of timber, 3,672,473 bamboos, and 15,299 maunds of minor produce, in addition to which a number of boats, several thousand bamboos and canes and 20 seers of gurjun oil were collected and sold by the Department. The revenue of the year was Rs 11,508, and the expenditure Rs. 10,946, the results being satisfactory as compared with previous years.

23. *Open Forests.*—The only forests of this class worked during the year were in the Chittagong Hill Tracts, and revenue was realised on produce removed from them by an *ad valorem* fee of 10 per cent. levied at the revenue stations. The estimated outturn of produce from these forests in the past year was 347,465 cubic feet of timber, 47,618 cubic feet of fuel, 13,143,550 bamboos and 50,659 maunds of minor produce, showing a decrease in all articles except have firewood, the cause of which the Divisional Officer should have reported. The forests yielded a surplus of Rs. 59,987 after provision for an expenditure of Rs. 17,614.

24. *Protected Forests.*—The Khoordah forests were managed as protected forests by the district authorities during the year, but they have since their notification as proposed reserves been placed under the Forest Department after the close of the year. Timber operations were commenced with the aid of elephants towards the end of the year, and large indents have since been received from the Public Works Department. The Conservator anticipates a steady sale of timber as soon as the export tracks have been opened up to wheeled traffic. The receipts of the year were Rs. 242 and the charges Rs. 9,652. The Sunderbuns forests continued to be worked during the year on the system introduced in the previous year of allowing firewood to be felled and seasoned on the spot before removal, and to this the Conservator partly attributes an increase which took place in the quantity of fuel removed. The total number of cubic feet of timber and fuel and of maunds of minor produce exported was 1,380,741 and 132,941 respectively, and the receipts amounted to Rs. 23,565 against charges aggregating Rs. 18,114.

25. The Lieutenant-Governor considers the general results of the forest administration during the year satisfactory, and his thanks are due to Mr. Gamble, the late Conservator, and Mr Home, for their careful management of the Department. Among the Deputy and Assistant Conservators, Messrs. Davis, Chester, Manson, and Heinig have been specially assiduous in the discharge of their duties.

By order of the Lieutenant-Governor of Bengal,

A. P. MACDONNELL,

Offg. Secretary to the Govt. of Bengal.

RESOLUTION ON THE GENERAL ADMINISTRATION REPORT OF THE ORISSA DIVISION FOR THE YEAR 1882-83.

GENERAL DEPARTMENT—MISCELLANEOUS.

Darjeeling, the 29th October 1883.

RESOLUTION.

READ—

The General Administration Report of the Orissa Division for the year 1882-83.

This report, which, as in previous years, is very complete, is submitted by Mr. Smith, who was Commissioner of the Division throughout the year.

2. *Tours.*—The Commissioner, in the course of his tours, which extended in the aggregate to 100 days, visited the head-quarters of every district and sub-division in his jurisdiction, and spent some time in the Nilgiri, Mohurbhunj, and Keonjhar Tributary States. The inspections made appear to have been very thorough, and it is gratifying to learn that the inhabitants of Mohurbhunj, who have in the past had experience of British administration, are pleased at their State having again come under management. Messrs. Pawsey and Jones, who were Magistrates of Cuttack during the year, were absent from their head-quarters for some portion of nearly every month in the year, and appear, during the 90 days spent by them in camp, to have done useful work. In Balasore, Mr. Beadon was in camp for 108 days, and Mr. Grant, the Collector of Pooree, for 115 days. The tours made by the Sub-Divisional Officers were also sufficient and apparently thorough. The only district in the division which has a Joint-Magistrate at head-quarters is Cuttack. Mr. Manisty was in camp for 24 days. The division thus received full and careful inspection, the example set in this respect by the Commissioner being followed vigorously by his subordinates.

3. *Weather and crops.*—The year under review was very favourable to the crops, as the rainfall was generally ample, but not sufficient to cause floods, such as have, in previous years, often destroyed the crops of Orissa. In some parts of the Khurda sub-division there was a slight deficiency of rain, but, on the whole, the following remarks made regarding Balasore are described as applicable to the whole division:—"The copious and well-distributed fall resulted in a bumper crop with the least possible injury from floods. The winter crop suffered to a certain extent from want of rain in December and January, but the outturn was not below that of an average year. In fact the crops of the year have been exceptionally good, the rice harvest having been extraordinarily heavy, while other crops have been up to the average mark." The *sarad* rice, which is said to supply from 45 to 96 per cent. of the ordinary food-supply according to locality, yielded 12 annas and upwards everywhere, except in the Khurda sub-division, where this crop is of less importance than elsewhere. The rainfall varied from 45·66 per cent. in the Sudder sub-division of the Pooree district to 91·68 per cent. in the Bhadrak sub-division of Balasore.

4. *Public health and material condition of the people.*—Presuming, in the absence of any reason to the contrary, that the registration of deaths was not less efficient in the year under review than in the previous year, it is satisfactory to learn that in Cuttack the total number of deaths reported fell from 40,760 to 33,582, or from 23·4 to 18·7 in the thousand. If these figures are not absolutely, they are probably relatively, correct, and thus indicate a better state of general health during the year under notice than in the preceding one. With the exception of cholera, the mortality from which rose from 5,001 to 7,256, all other causes of death were less active than in the previous year. In Pooree the number of deaths (19,197) remained practically unchanged, but the mortality from cholera was much greater than in 1881 (3,783 against 2,162 cases), while that from other diseases, especially small-pox, showed a decline. Efforts continued to be made by the circulation of simple instructions in the vernacular to induce the people themselves to take steps to check the spread of cholera among the pilgrims visiting the temples. In the Balasore district the number of deaths rose from 20,779 to 25,051 in consequence of increased mortality under all heads of disease except small-pox; cholera and

bowel-complaints being especially fatal. In the Bhadrak sub-division the early rains alone are believed to have prevented an epidemic of cholera. The total number of persons vaccinated was 43,858 against 40,908 in the previous year, 41,268 cases being reported as successful. In another portion of the report it is stated that the inhabitants of Mohurbunj, though still believing in charms as the only remedy against ordinary diseases, have of their own accord imported vaccinators to battle with small-pox.

Regarding the material condition of the people there is a concensus of opinion among the district officers that the year has been one of exceptional prosperity. There was everywhere sufficient food and plenty of money to spend on marriages and other festivals. The Collector of Balasore discusses the subject at some length, arriving at the conclusion that so long as Orissa depends, as it now does, on one crop (rice), its condition, liable as the country is to drought and floods, cannot be considered satisfactory, and that its real permanent prosperity must depend on the introduction of new crops and agricultural improvements to which the apathy of the cultivators and the fear of the zemindars of an enhanced rate at the coming settlement present serious obstacles. The Commissioner does not agree in this view, holding that neither "the rent law nor the coming settlement—still 14 years ahead—has anything to do with the omission of the Uriya ryot to take to new cultivations." "The *thani* ryot," Mr. Smith adds, "whose rent was fixed at the last settlement, 50 years ago, and cannot be enhanced till the next, would not be deterred by the first cause, and he takes no more to new crops than other cultivators. The Khurda ryot has had his rent fixed for the next 30 years, and cannot be affected by the second cause, and he inclines to new crops just as little as the ryots elsewhere. The Uriya ryot, like the peasantry in other places, prefers growing a crop that he knows will pay, and which he knows how to cultivate, to making experiments in which he may fail. He will grow new crops readily enough if he sees his way to making them pay better than rice does. That it would benefit the country to convert good rice land into other crops, because rice may fail once in a series of years, is doubtful. What is needed in a case of that kind is to provide, as the expression goes, for the rainy day. That the Uriya peasantry are less prepared to face a year of failure of crops than the ryots of other parts of India, I do not believe. The fate of the province in the famine does not prove the contrary. The people then had money, but it was of no use to them: there was no food to buy. The conversion of the rice lands to other crops, unless they were food-crops, would not have mitigated, but would have increased the evil. That equally productive food-crops may not be grown on rice lands when rice fails, I cannot say; but I am not aware of any that can. We have, however, by the extension of irrigation works, done much of recent years to prevent rice failing; and by the opening out of canals and the improvement of our harbours and roads we have done much to permit of food being placed at any time at any point at which it may be wanted. The opening out of a railway in a year or two will, I hope, complete the measures for securing the food-supply of the province in the event of any temporary failure of its own crops." With a large portion of these observations the Lieutenant-Governor agrees; but it is obvious to remark that, had improved communications in 1866 made trade with Orissa possible, the possession of staples by the people, other than food crops, would have averted the disaster: and if the Uriya ryot now is conservative in his methods of agriculture, that is because improvements are not brought within the range of his means and recommended for his adoption by successful practice. Special attention has of late been directed by Government to the improvement of communications with Orissa; and by these and the wider development of the resources of the province through an Agricultural Department the evils of the present system will be removed.

5. *Emigration and immigration.*—There is nothing to add under this head to the remarks made last year. Emigration under the law is unimportant, but internal movements continue to take place on a very large scale.

6. *Prices of food and labour.*—An increase of the foreign demand sufficed, notwithstanding the abundant crops, to keep up the price of rice in all districts, and in Balasore even to cause a slight rise. The lowest price reached by rice was in the Kendrapara sub-division of Cuttack, where, in January, 52½ seers sold for a rupee. The highest selling price was 22$\frac{5}{16}$ seers in December in Cuttack.

7. *Manufactures and mines.*—The mines of Orissa remain unworked, in consequence of their inaccessibility, as in previous years. The gold and silver filigree-work of Cuttack, which is the only art-manufacture of the division, is becoming better known and commands a good price. The salt manufacture will form the subject of a separate report from the Board of Revenue, and the Lieutenant-Governor's remarks will be recorded in connection with that report. The figures given by the Commissioner shew that the manufacture has decreased in all districts as compared with the previous year, the decrease being accompanied by a corresponding decline in revenue.

8. *Trade and commerce.*—The following table compares the export and import trade of Orissa during the year under review and the previous year:—

	False Point.		Balasore.		Pooree.		Total.	
	1881-82.	1882-83.	1881-82.	1882-83.	1881-82.	1882-83.	1881-82.	1882-83.
	Rs.	Rs.	Rs.	Rs.	Rs.	Rs.	Rs.	Rs.
Imports	8,47,169	1,73,961	51,48,069	52,99,117	3,797	23,164	59,99,035	54,96,242
Exports	19,93,894	29,70,497	47,68,283	43,92,909	80,607	3,41,345	68,42,784	77,04,751
Total ..	28,41,054	31,44,458	99,16,352	96,92,026	84,404	3,64,509	1,28,41,810	1,32,00,993

The most noticeable feature of the year's trade is the increase of traffic at both False Point and Pooree, notwithstanding the competition of Chandbally. A slight falling off in exports has taken place at the latter port, owing to the dulness of the Calcutta market, for hides and oil-seeds. The sudden increase in the exports from Pooree, after a series of years of decline, is explained by the Collector as being due to the advent to the port of two new dealers who exported rice in large quantities to Madras. Large stocks of rice have been available for export from Pooree for many years, but the enterprize necessary for their shipment is said to have been wanting till the year under review. It is probable that the increase is more apparent than real, direct exportation from Pooree by sea having, in consequence of the presence of the two shippers mentioned, to some extent prevented the diversion of Pooree rice to Chandbally for purposes of export. Owing to the absence of means of information regarding the rice leaving the district by land it is impossible to say how much of the rice exported from Chandbally was grown in Pooree. The stimulus given to export of rice led to an increase in the import of gunny-bags from Rs. 1,055 to Rs. 16,310. The following figures are given in the report for the passenger traffic between the Orissa Ports and Calcutta during the year:—

	Arrivals.	Departures.	Total.
1881-82	61,381	63,426	124,807
1882-83	69,379	57,186	126,565

The Collector of Balasore believes that the traffic is limited only by the capacity of transport, and will increase with an increase in the number of steamers. The internal traffic of the Cuttack district is said to be gradually improving, owing to the facility afforded by the extension of water communication; but in the almost entire absence of registration in this and the other districts of the division, it is impossible to make even an approximate estimate of the real traffic. During the year under review two stations were established by the orders of Government to register the traffic passing on the Sambalpur road and the Mahanadi river, with a view to ascertain the prospects of the proposed railway to Orissa. The results of the registration are given in the report, and will, with those of the registration of the traffic on Government canals, be considered in the Statistical Department of the office.

9. *State of public feeling and the public press.*—The Commissioner's remarks on the state of public feeling and the tone of the public press in the division are as follows:—

The general public of Orissa seldom feel or manifest any interest regarding matters which do not directly concern them, and there has occurred nothing during the past year immediately affecting their interests. The discussion of the policy of local self-government, begun in the preceding year by the small minority of educated natives, most of them Bengalis

was continued for some time during the year under report. The excitement at first shewn even by these seems to have much abated. The excitement regarding the Criminal Code Amendment Bill has been confined to the European community and the educated portion of the native community who read the papers, the general body of the people knowing nothing of and caring nothing for it. The complaints regarding water-rates, referred to by Mr. Jones, are confined to the agricultural classes in the limited area covered by the irrigation canals, and have, I believe, their origin in the hope of obtaining easier rates, now that the five-years' leases have expired and are under renewal. The cultivators will no doubt protest that the rates are too high till the first drought comes The moment the crops are felt to be in danger there will be a rush for water.

Public Press.—The newspapers of the division are four in number: two of them—the *Utkul Darpan* and the *Baleswar Sambadbahika*—are published at Balasore; one, the *Utkal Dipaka*, and the fourth, the *Purushotam Patrika*, a new journal, at Pooree. The two last-named discuss local matters with more moderation than the others. The district officers, however, complain of the inability of any of the Orissa newspapers to discuss the aims and objects of public officers without misrepresentations. On this subject the Collector of Balasore, Mr. Beadon, has the following remarks, to which the Commissioner lends the sanction of his authority.

There never seems to be the least attempt made by the editor of a native paper to convey truth to its readers or to judge a case impartially. The whole subject is deeply tinted with class prejudice. The lead given by a Calcutta paper of the same kidney is accepted, the only change being the exaggeration of the caricature and heavier daubing. No such thing as adverse criticism or explanatory contradiction of misstatements in those papers, such as may be gathered from the European journals, has, as far as I have seen, ever been indulged in when the subject has been the misrepresentation of alien races or classes. As regards general information, the papers are worthless. Any false rumour to fill up so much type is greedily seized and inserted, no effort being made to ascertain if the facts are true; no thought being given as to their probability.

10. *Administrative changes.*—The only change of importance which took place during the year was the annexation of Kila Banki to the Cuttack district under Act XXV of 1881. As a report regarding the result of this measure is about to be submitted to the Commissioner, the Lieutenant-Governor will defer his remarks on the subject for the present. A proposal was made by the Commissioner to station at Kendrapara one of the moonsifs now sitting at Cuttack, but was negatived on the recommendation of the High Court. Mr. Smith's remarks on the subject will be considered in the Judicial Department.

11. *Police and crime.*—The chief results of the criminal administration of the division for the year 1882, as compared with the average of the previous five years, are summarized in the following table:—

	Cuttack.	Pooree	Balasore.	Gurjats.	Total.
	Sq. miles	Sq. miles.	Sq. miles.	Sq. miles.	Sq. miles.
Area	3,782	2,472	2,066	1,690	9,010
Population as per census of 1881	1,795,065	888,487	945,280	160,962	3,789,694
1. Average number of cases reported during five preceding years ...	2,570	2,657·8	1,542·2	561·8	7,311·8
2. Cases reported during 1882	2,818	1,978	1,050	239	6,075
3. Do not enquired into under section 117, Criminal Procedure Code ...	24	44	97	3	167
4. Do. investigated by police	2,268	1,478	935	237	4,938
5. Number of cases in which conviction was obtained	1,192	691	549	151	2,583
6. Persons arrested during the year	3,333	1,945	1,315	380	6,973
7. Ditto actually put on trial	3,306	2,050	1,349	385	7,040
8. Acquitted by Magistrate	742	651	443	96	1,932
9. Ditto by Sessions or High Court	12	14	1	...	27
10. Convicted by Magistrate	2,471	1,248	853	283	4,855
11. Ditto by Sessions or High Court	21	16	16	2	55
12. Number of cases in which property was stolen	785	717	402	159	2,063
13. Ditto ditto recovered	432	461	230	92	1,215
14. Value of property stolen	14,685	7,137	5,311	1,250	28,373
15. Ditto recovered	6,881	3,086	1,220	678	11,865
16. Number of cases declared by Magistrate to be false and never to have occurred	408	91	231	18	803

The total number of cognizable cases reported in the year 1881 was 6,0·0. An increase therefore took place in the year under review, though the number of cases was considerably below the average of the preceding five years. The increase, which was confined to Cuttack and Balasore, was entirely due to a larger number of prosecutions for "other offences," and does not imply any increase in the criminality of the district. In Cuttack, the Commissioner is inclined to believe that a somewhat injudicious activity was shewn in the prosecution of nuisance cases. An increase also took place in prosecutions under the excise law which were especially numerous in the recently annexed Kila Banki.

The Commissioner has called for a report as to these prosecutions. In the case of newly-annexed territory much tact and discretion are, in the Lieutenant-Governor's opinion, necessary in dealing with offences against the excise and kindred laws, which must, in order that they may not operate as a hardship, be introduced gradually and with sympathy for the previous habits of the people. It is important that a newly-annexed population should not be harassed and rendered discontented in order that a small amount of revenue may be secured to the Government. The proportions of conviction to cases reported true and of persons convicted to persons arrested (44·7 and 68·4 per cent. respectively) were slightly better than in the previous year. Of the persons actually brought to trial 69·5 per cent. were convicted. Eighty-two persons were committed to the Sessions during the year, of whom 55 were convicted and 27 acquitted. In Cuttack and Pooree the proportions of acquittals to convictions (36·3 and 46·6 per cent. respectively) were unsatisfactory. In respect of the recovery of stolen property the police were more successful than in either of the preceding years, but the amount recovered—Rs. 11,865 out of Rs. 28,373—still leaves room for improvement. Non-cognizable crime shewed a slight decrease.

12. *Civil justice.*—The following tables summarize the most important statistics given by the Commissioner under this head:—

	Number of suits instituted.						Value.					
	Suits for money and moveables.		Title and other suits.		Rent-suits.		Suits for money and moveables.		Title and other suits.		Rent-suits.	
	1881.	1882.	1881.	1882.	1881.	1882.	1881.	1882.	1881.	1882.	1881.	1882.
							Rs.	Rs.	Rs.	Rs.	Rs.	Rs.
Cuttack...	4,813	5,836	905	1,016	3,503	3,369	2,93,415	2,78,350	2,64,173	3,91,917	Not given.	Not given.
Pooree ...	1,789	2,010	93	102	2,383	2,806	1,33,149	1,65,641	10,653	11,705		
Balasore	1,710	2,225	390	492	2,784	2,712	75,572	97,612	36,299	51,458		
Total ...	8,312	10,071	1,388	1,610	8,670	8,887	5,02,636	5,36,612	3,11,125	4,55,080		

	Average value of suits.	
	Suits for money and moveables.	Title and other suits.
	Rs.	Rs.
1881	60	224
1882	53	282

With the exception of a slight decline in the number of rent-suits in the districts of Cuttack and Balasore, an increase has taken place in all classes of litigation throughout the division, the average value of property in dispute in suits for money and moveables remaining unchanged, while that of property in dispute in title and other suits has risen considerably. In Cuttack the increase in the number of ordinary suits, which represents chiefly Small Cause Court cases, is ascribed to the general increase of trade and to the extension of public works, which has caused the employment of petty contractors on a large scale. In Pooree and Balasore, the Collector believes the increase to be due mainly to the effect of a good harvest in enabling creditors to sue, with a prospect of success, for the recovery of their debts. The decline in the number of rent-suits in the Cuttack district is the result mainly of the decrease in the cases of notice of enhancement and relinquishment and deposit of rent under Act VI, and is ascribed, apparently with reason, to an improvement in the relations between landlords and tenants in this district. Similar good feeling seems to exist, speaking generally, in the Balasore district; but in Pooree, the Collector writes that "there is no open rupture nor is there any particular ill-feeling between landlords and tenants anywhere in the district; but owing to grain being cheap the landlords find difficulty in recovering their rents—a difficulty which is further increased by the fact that advantage was taken by the zemindars of the high prices which obtained till lately to secure enhanced rents, which in the present state of the market the ryots cannot very well pay." The Commissioner, however, does not consider the relations prevailing in this district between landlords and tenants unsatisfactory. No complaint is made on this occasion regarding the too free use of the certificate procedure in the Khurda sub-divisi n.

13. *Land revenue administration.*—The total number of permanently-settled estates, and the revenue due from them, remain unchanged; and, as in the preceding year, the whole demand, amounting to Rs. 1,46,805, was paid. The number of temporarily-settled estates on the roll rose from 5,584 to 5,606, the demand increasing from Rs. 14,43,201 to Rs. 14,51,817. The collections shewed some improvement, amounting to 95·6 per cent. against 94·1 per cent. in 1881-82. Remissions were granted on a slightly larger scale than in the latter year, and the period under review therefore closed with a much smaller balance, most of which having fallen due in the last quarter has probably not been realized. In the Government estates, though one only was added to the roll, the demand, owing to the resettlement of Khurda, rose from Rs. 4,82,718 to Rs. 6,04,215. The collections though in the aggregate higher than in the previous year only amounted to 58·5 per cent. of the demand. The arrears were almost entirely due from the Khurda estate, the terms of the resettlement of which have been under the Lieutenant Governor's consideration and have formed the subject of a long correspondence between the Government and the Board of Revenue. The reduction which has now, with the consent of the Government of India, been made in the assessment will, it is hoped, render the work of collection easy in future. Out of sixty estates and shares which became liable to sale for arrears of revenue during the year, two estates and one share only were sold.

14. *Land registration.*—In respect of the registration of estates, the Orissa Division still continues backward. At the commencement of the year 155,800 applications had been disposed of out of 192,117 filed. During the year 11,225 new applications were received and 24,957 cases were disposed of. The number of pending cases has therefore been reduced to 22,585, of which 50 belong to Balasore, 147 to Pooree, and the remainder, 22,388, to Cuttack. The decline in the number of disposals in the smaller districts is ascribed to the increasing difficulty of the few last suits; but as the Commissioner points out, the same explanation is altogether insufficient when offered in the case of Cuttack. The Lieutenant-Governor is glad to observe that the Commissioner is giving his personal attention to the matter, and trusts that the result may be seen in an improvement in the state of the files at the close of the current year.

15. *Road and public works cesses.*—A revaluation is now in progress in all the districts of the division, but the effect of it will not be apparent until next year. The year under review commenced with arrears of Rs. 13,356, and the current demand was Rs. 52,540, giving a total of Rs. 65,896, of which Rs. 47,714 were collected. In Pooree the whole of the arrear demand was collected, but in Balasore and Cuttack the balances are very heavy. The matter will be further considered in connection with the Board's Land Revenue Report.

16. *Partitions.*—As in previous years the officers in charge of *batwara* cases in Cuttack and Balasore found it impossible to keep pace with the institutions, and the number of pending cases rose in the former district from 54 to 64, and in the latter from 10 to 13. At Pooree only one case is shewn as pending, and it has been practically settled.

17. *Excise.*—A further increase took place during the year in the excise revenue, of which the gross receipts after deduction of Rs. 7-4 a seer, the cost price of excise opium, were Rs. 4,72,738 against Rs. 4,60,025 in 1881-82. The excise charges, which amounted to Rs 9,055, were slightly less than in the preceding year, the net result being an increase of Rs. 12,832, or 2·8 per cent. As compared with the average revenue of the previous five years the largest increase (Rs. 32,289) has taken place in the revenue realized from opium and it is gratifying to observe that this improvement has gone side by side with a decrease of consumption from 301 to 284 maunds. In the case of country spirits also there has been a large increase of revenue (Rs. 23,779) but this has been accompanied by an increase of consumption. While however, the revenue has risen by over 70 per cent. the consumption is greater by 23 per cent. only than in the five years ending with 1881-82. The most profitable article of excise after country spirits and opium is ganja and in this case also the increase of revenue in the past five years (Rs. 16,706 or nearly 31 per cent.) has been accompanied by a slight increase of consumption (40 maunds, or 14·5 per cent.). The Commissioner adheres to the opinion expressed last year that the extension of the outstill system has not led to an

increase of drunkenness and that the greater consumption is due solely to the larger amount of money available for the purchase of luxuries. The result of excise cases was on the whole satisfactory.

18. *License tax.*—The total demand on account of license tax, which fell in the year 1881-82 from Rs. 66,050 on 2,383 assessees to Rs. 48,632 on 2,230 assessees, rose in the period under review to Rs 56,834 on 2,494 assessees, the increase being marked in each district, and being attributed to increased trade and to the inclusion of Banki in the Cuttack district. The average burden of the tax on each assessee is about Rs. 15-8, and the incidence per head of the population is under three pies. The remissions were rather heavy, but the balance uncollected at the close of the year was only Rs. 110, of which Rs. 100 are said to be irrecoverable.

19. *Stamps.*—The total revenue derived from stamps, exclusive of postage and telegraph labels, amounted to Rs. 2,69,997 against Rs. 2,84,447 in the previous year. In Pooree and Balasore the fluctuations were unimportant, but in Cuttack a decline took place of no less than Rs. 16,436, due mainly to the falling off in the number of applications for registration under Act VIII (B.C.) of 1876. Consequently the decrease is most marked under the head of judicial stamps. The incidence of the revenue from stamps varies from 1½ annas in Pooree to 8 and 9 pies, respectively, per head of the population in Cuttack and Balasore. Impressed stamps yielded about 93·4 per cent. of the total revenue from non-judicial stamps, but the sales were somewhat less than in the previous year. The explanation given by the district officers of Cuttack and Pooree of the fluctuations in sales in their district, viz. the abundant harvest, is discredited by the Commissioner, who attributes the rise in the former and the decline in the latter district to the state of the import trade, which has fallen off to a great extent in Cuttack and has increased in Pooree. On the whole judicial and revenue officers appear to have shown considerable discretion in instituting prosecutions for breaches of the stamp law, 60 out of 70 persons prosecuted having been convicted.

20. *Wards' and attached estates.*—Of the ten estates under management at the commencement of the year, one was released before its close. Two new estates were brought on the roll, one of which, Jamkunda, in Balasore, was of sufficient importance to call for the appointment of a separate manager. The total collections during the year amounted to Rs. 1,74,052 out of a demand, arrear and current, of Rs. 2,74,735. Rupees 35,296 were remitted, and Rs. 13,103 are said to be irrecoverable. The total collections, which last year fell short of the current demand, exceeded it in the period under review by about 10 per cent. The resettlement of the Kanika ward's estate was completed during the year. Regarding the condition of the tenants on Government estates, the Commissioner makes the following remarks:—

With reference to the orders of the Government of India, Nos. 87R of the 11th March 1882, and 315R of the 4th July following, the condition of the ryots in the wards' and attached estates continued good during the past year. Generally speaking, there are no chances of dispute regarding their holdings. In the temporarily-settled estates—and the majority of the estates under the Court's management belong to this class—there exist complete records prepared at the settlement of the tenants' rights and all particulars, such as the boundaries of their holdings, the kind and class of lands comprised in them, &c., &c. Of the two permanently-settled estates of importance, survey and settlement have been recently made in those parts of Kila Kanika where the operations were called for, and in the other estates, Sukinda, a part of the lands was surveyed during 1881-82, and the measurement of the rest was in progress during the past year. In addition to the security thus afforded, the ryot enjoys the benefit of moderate rates of rent. In the case of the thani holdings in the temporarily-settled estates, which form no inconsiderable proportion of the ryoti tenures in those estates, the rates were fixed nearly half a century ago, and are necessarily far below what they might equitably be now, looking to the rise in the price of the produce that has taken place during this long period. Such being the state of things, there has existed no cause for a rupture between the managers and the tenants. The relations between them have accordingly remained satisfactory. As regards improvements, the financial condition of nearly all the estates, which are petty ones, does not admit of any expensive works being undertaken. The only exception to this is Kanika, in respect of which a survey is being made in view to the construction of sea-dykes, estimated to cost Rs. 24,000, and calculated to extend cultivation in the coast tracts. In the case of some of the other minor estates embankments to keep off floods have been built. Some have been now, at places where needed, proposed, and will be constructed in due course after sanction.

21. *Irrigation.*—In Balasore, owing, evidently, to the satisfactory rainfall which rendered it unnecessary to irrigate the *rabi* crops and reduced the temptation to irrigate the *kharif* illicitly, the area under assessment fell from 1,876 acres to 1,378. Nearly the whole of the demand (Rs. 2,171) was realized, the charges remaining unchanged since 1881-82 and consequently bearing a higher ratio to the demand than in that year. In Cuttack there was a slight increase in the area irrigated for the *kharif* and a slight decline in that irrigated for the *rabi* harvest, the total being 132,067 acres against 130,438 acres. The decline in the *rabi* area is attributed to the temporary closure of certain distributaries during the construction of new drainage channels. Owing to the inclusion of a large amount of arrears the demand appears to have been Rs. 3,23,219 against Rs. 2,55,900. Excluding the item of arrears, the current demand was slightly less than in the previous year, in consequence of a decrease in the amount of land assessed at penalty rates.

22. *Monetary arrangements.*—The general briskness of trade led to a large increase in the transactions in currency notes, of which the receipts amounted to Rs. 11.93,195 and the issues to Rs. 10,76,505 against Rs. 8,39,320 and Rs. 7,75,905 respectively in 1881-82. The total sales of stock-notes amounted to only Rs. 14,449-8; and in Balasore, where the largest number of sales took place, the Collector believes that the smallness of the interest, as compared with the ordinary profits of even petty capitalists, is sufficient to prevent their sale, and, consequently, to render them unpopular. The Commissioner considers this opinion premature. A small number of postal notes were issued during the year. Money-order transactions shewed a large increase both in number and value, and there seems no room for doubt as to the popularity of this mode of effecting remittances. The number of depositors in Government Savings Banks increased in all districts, and the amount deposited rose and that withdrawn fell in Cuttack and Balasore. In Pooree there was some falling off in deposits, and an increase in withdrawals. The Collector of Balasore attributes the increasing popularity of the Savings Banks to the facilities now offered for opening accounts in the names of dependents and others, and for the withdrawal of deposits at pleasure.

22. *Communications.*—The main roads of the division are said to have been kept generally in good repair throughout the year, though the Sub-divisional Officer of Khurda has expressed a very strong opinion regarding the method adopted for the repair of the Ganjam road. A new road is under construction from Bhadrak to Chandbally, and a road has been nearly completed, which will connect Khurda with the Trunk Road. Progress was made with the coast canal in Balasore, and the high level canal was extended to Bhadrak, between which place and Cuttack a steamer now plies twice a week. Additional provision has been made to facilitate the drainage of the country through which the coast canal passes.

The proposed expenditure of the district road funds for the year amounted to Rs. 86,060, of which Rs. 77,400, or 89·9 per cent., was actually spent, Rs. 8,866 being devoted to village roads. The proportion of the funds given to village roads in Cuttack and Balasore has decreased for the last two years, and the Lieutenant-Governor is glad to observe that the Commissioner has called the attention of the Chairmen of the Road Cess Committees to the fact. Generally speaking the district roads are said to be in fair order. The Commissioner strongly urges the importance of providing a railway to Orissa, a matter which is engaging the attention of the Government.

23. *Education.*—A further increase took place during the year under review in the number of schools under inspection, which rose from 8,035 with 96,321 pupils to 9,186 with 109,558 pupils, the average number of pupils at each school remaining as before a little less than 12. A large number of *tols* and *maktabs* were transferred during the year from the list of indigenous schools to that of lower primary schools. The Commissioner estimates that about 39 boys in every 100 of school-going age attend school, and one girl in each hundred of the population. The number of girls' schools rose from 33 with 899 pupils to 36 with 1,018 pupils.

Though the number of pupils at the Ravenshaw College (39) was only higher by one than in the previous year, no less than five of the number passed the B.A. and seven the F.A. Examination. All but eight of the pupils were

Uriyas. It is hoped that the establishment of high English schools, to act as feeders to the College, will in time lead to a large increase in the number of pupils. A further much-needed improvement is about to be supplied by the establishment of a hostel, for the construction of which the Maharaja of Keonjhar has very liberally subscribed Rs. 5,000. It is not necessary to follow in detail the statistics given regarding the progress of education in the division, as these will be considered hereafter in connection with the general report of the Director of Public Instruction.

24. *Dispensaries.*—The only point calling for remark under this head is the refusal of the Cuttack Municipality to pay for the Pilgrim and General Hospitals on the ground that they are district rather than municipal institutions. The matter will be considered in the Medical Department of the Government of Bengal.

25. *Conduct of zemindars.*—The Commissioner's observations on this subject are extremely satisfactory and are here reproduced :—

The zemindars have generally conducted themselves well. Baboo Baidyanath Pandit, Rai Bahadur, zemindar of Kila Darpan; the Maharaja of Burdwan, as the virtual zemindar of Kila Koojang, in Cuttack; and Raja Syamanand De; Baboo Nemai Charan Bose, Rai Bahadur; Baboo Kailas Chandra Ray Mahashay, in Balasore, have maintained their reputation for public spirit and liberality. Rajah Syamanand De's son, Kumar Baikantha Nath De continued making himself useful as an Honorary Magistrate and as Vice-Chairman of Municipal and Road Cess Committees. Baboos Nemai Charan Bose, Rai Bahadur, and Kailas Chandra Ray Mahashay also rendered useful services as Honorary Magistrates.

The Lieutenant-Governor is gratified to hear so good a report regarding the zemindars of Orissa.

26. *Character of Officers.*—The Commissioner's observations on this head will be communicated to the Appointment Department. The officers whose names are given on the margin are selected for special praise by Mr. Smith.

Mr. Beadon, Magistrate and Collector, Balasore.
" Godfrey, Joint-Magistrate, Pooree.
" Taylor, Settlement Officer, Khurda.
Baboo Jaga Mohan Ray, Personal Assistant to Commissioner.
" Nandakishor Dass, ditto ditto.
" Mahananda Gupta, ditto, Balasore

By order of the Lieutenant-Governor of Bengal,

A. P. MACDONNELL,

Offg. Secretary to the Government of Bengal.

RESOLUTION ON THE ADMINISTRATION REPORT OF THE CHOTA NAGPORE DIVISION FOR THE YEAR 1882-83.

GENERAL DEPARTMENT,—MISCELLANEOUS

Calcutta, the 30th October 1883.

RESOLUTION.

READ—

The General Administration Report of the Chota Nagpore Division for the year 1882-83.

Mr. Hewitt, by whom the report is submitted, was absent on leave from the 24th April to the 6th November; during this interval Mr. Edgar officiated as Commissioner.

2. *Tours.*—It does not appear from the report that any inspection work was done by Mr Edgar. Mr. Hewitt, shortly after resuming charge, visited Gya to discuss the various railway schemes proposed for Chota Nagpore with the Hon'ble Member of Council and the Secretary to the Government of India in the Public Works Department. On his return from Gya, the Commissioner commenced his tour, passing through the eastern portion of the Lohardugga district inhabited by Munda Kols, and through Khursowan and Seraikela to Chyebassa. After a short tour in the tributary estates, the Commissioner was compelled by fever to return to Ranchi early in February In March Mr. Hewitt inspected the Deputy Commissioner's office at Purulia, and made a short excursion to Calcutta to confer with the Board of Revenue. The principal matters which engaged the Commissioner's attention were the cultivation of tasar in Lohardugga, the best lines to be followed by the railways, the relations between the zemindars of Khursowan and Seraikela and their ryots, and the Dhulbhoom settlement. All the Deputy Commissioners and Sub-Divisional Officers, except the Assistant Commissioner at Giridi, made sufficient and useful tours, that of Major Garbett, in Singbhoom, being specially commended. The explanation given by Mr. Bedford of the short period spent by him in camp at Giridi is altogether inadequate, and the Commissioner should see that this officer does not again fall short of his duty in this respect.

3. *Weather and the crops.*—The rainfall, which was generally more abundant than in the previous year, was also more evenly distributed. The crops, however, of the Hazaribagh and Manbhoom districts, and of the sudder subdivision of Lohardugga, suffered from blight, and were not so good as might have been anticipated from the satisfactory character of the rainfall. In the Palamow sub-division all crops yielded very plentifully, except the mahua and mango, which were injured by hail. In Singbhoom the mahua crop failed, but all other crops did well.

4. *Public health and material condition of the people.*—The health of the Hazaribagh district, and of the Palamow sub-division of Lohardugga, was exceptionally good, there being an almost entire absence of epidemic disease. The sudder sub-division of Lohardugga, though it suffered somewhat from cholera, was not unhealthy. In Singbhoom small-pox was prevalent throughout the year, though the mortality was greatest in the cold weather. Many cases occurred at Chyebassa, both among the unvaccinated and those supposed to be protected. "Of those attacked," it is said, "over 51 per cent. were protected, having been inoculated, or vaccinated, or having previously had the disease; out of those who died, over 60 per cent. were protected. Altogether about 797 operations in the town were performed under the supervision of the Civil Surgeon, and of these above 612 were successful." These facts, as the Commissioner remarks, "if verified, would certainly prove most extraordinary." The matter is one which will be specially considered in the Medical Department. Some light would appear, however, to be thrown on the alleged liability of protected persons to small-pox by the figures given in the last three annual reports. Thus in the report for the year 1880-81, it is said that out of 33,514 operations performed in Singbhoom, no less than 32,529, or 93·7 per cent., were successful; in that for the year 1881-82, that out of 15,361 cases, 15,249, or 99·4, were successful; but in the year under review, in which figures are given only regarding the operations performed under the supervision of the Civil Surgeon, and therefore presumably performed with special care, only 612 out of 1,231 cases were success-

ful. It is difficult to avoid the conclusion that the report of successful operations in previous years is absolutely valueless, and the Lieutenant-Governor apprehends the untrustworthy record now brought to light is merely a sign of general carelessness, showing that the operations themselves have been imperfectly performed. If this supposition be correct, the distrust felt by the Kols as to the efficiency of vaccination need not cause wonder, though it is much to be regretted. In the Manbhoom district cholera, fever, and bowel-complaints were especially rife. The Commissioner's remarks on the subject of vaccination will be transferred to the Medical Department.

The year, as already observed, was one of only fair harvests, but there is a general agreement among district officers that the condition of the people has in no way deteriorated; while in the Palamow sub-division and in Singbhoom a further improvement is said to have taken place.

5. *Emigration.*—The following figures shew the number of emigrants registered in the division for the last five years:—

	1878-79.	1879-80.	1880-81.	1881-82.	1882-83.
Hazaribágh ...	6,952	2,819	1,738	2,809	3,015
Lohardugga ...	10,021	6,888	1,895	2,766	1,695
Singbhoom ...	1,709	934	609	896	386
Manbhoom ...	324	3,170	1,592	1,285	1,642
Total ...	19,096	13,815	5,734	7,756	6,738

These figures do not include the so-called free labourers who emigrate directly to Assam without the intervention of the authorities, and who are not placed on contract till after their arrival. Of these the number has, under the new Act, greatly increased; and it is probable that the amount of emigration during the year under review was largely in excess of that during the previous year. Statistics obtained by Mr. Risley at Raniganj shew that about 12,000 Chota Nagpore emigrants left that station during the year 1882, *en route* for Assam in goods wagons or covered trucks, and with a special form of ticket. These are supposed to represent about two-thirds of the emigrants dispatched from Raniganj. A considerable number travel from Giridi. It seems probable therefore that the actual emigration is about four times as great as would appear from the figures. The abuses existing under the system of free emigration, which no doubt places facilities in the way of unscrupulous agents to entice women and children away from their homes, have been under the serious consideration of the Lieutenant-Governor for some months, and have formed the subject of a communication to the Government of India. As at present advised, Mr. Rivers Thompson considers that it would be premature to amend the Act, but the dangers involved in the system call for the exercise of much vigilance on the part of District Officers. Cases of malpractice are from their nature extremely difficult of detection, and should be severely punished when brought to light. If the liberty of the law is seriously abused, the Lieutenant-Governor will have no alternative but to exclude the Chota Nagpore districts from the operation of the Act.

6. *Prices of food and labour.*—The average price of common rice was higher in all districts, except Singbhoom, than in the previous year; the rise being most marked in Hazaribagh, where it amounted to nearly three seers in the rupee, *i. e.*, from 22 seers 5 chittacks to 19 seers 7 chittacks. Owing to the difficulties of carriage the variations in the price of rice are always great in the Chota Nagpore Division, and a good instance of this was seen in the month of September 1882, when common rice was selling at 18¼ seers to the rupee in some parts of Hazaribagh, and at 64 seers in some parts of Singbhoom. Wheat is grown in any quantity only in the Palamow sub-division, and there the average price was 25 seers to the rupee. The reduction of the duty on salt has had an important effect in lowering the price throughout the division. The extension of public works at Ranchi has led to a rise in wages in the sudder sub-division of Lohardugga. Elsewhere wages remain almost stationary, and on the whole are lower than in any other part of Bengal.

7. *Manufactures and Mines.*—The manufactures of the division are still unimportant, the principal being lac, tasar, country cloth, potstone and brass ornaments. No particulars worthy of note are given in the report regarding them. The division is rich in mines, but owing to the want of good means of

communication no very extensive works have up to the present time been opened. The total area of coal-bearing strata is estimated at 5,000 square miles. Coal is produced for the Dehri workshops at Rajhara in Palamow, and borings in the Daltonganj coal-fields have disclosed four, if not five, distinct strata yielding coal which has been pronounced as "equal to the best Raniganj." Mr. Hodges at Rajhara has, it is believed, a scheme in contemplation, by blasting rocks to render the Koel navigable in the rainy season. If this can be done, the early development of a large coal trade may, the Commissioner says, be looked for. The Manbhoom coal-field is not worked owing to its distance from the East Indian Railway. More than one scheme is under consideration for the construction of railways in the tracts here referred to; and it is hoped that the new line of railway from Sitarampore to the Central Provinces will render the coal resources in Manbhoom available. The output of the Gobindpore coal-field is estimated at over 129,315 tons. The report makes no mention of the Kurharbali coal mines near Giridi. The copper mines of Hazaribagh have not yet been worked, though arrangements are, it is believed, in progress to work them. In Singbhoom a small amount of iron is worked locally.

8. *Tea.*—The total number of tea gardens in the division is now 37, of which six, with 846 acres under mature plants, and yielding about 93,510lbs of tea, are in Hazaribagh, and 31, with 924 acres under mature plants, and yielding 19,67811bs, in Lohardugga. One new garden, with 8 acres of immature plants, was opened out during the year in Manbhoom. In the Hazaribagh gardens there are 199. acres of immature plants, and in those of Lohardugga 1,741 acres. The average prices realized fell about 2 or 3 annas in the pound, owing partly to the poverty of the spring crops, which in Chota Nagpore fetch exceptionally high prices, and partly to the general fall in prices in the Calcutta and London markets.

9. *Trade and Commerce.*—The import trade of the division, in which piece-goods, salt and spices are the most important items, appears to have risen considerably in Singbhoom, the general cheapness of food having no doubt left a considerable surplus of money for the purchase of luxuries. In Manbhoom, where the figures given are probably of more value than elsewhere, the partial failure of crops has caused a decline in the demand for foreign commodities, as the inhabitants for the most part wear home-made clothes. Scarcity of money is naturally at once indicated by a fall in exports. The statements given for Hazaribagh show a diversion of the import traffic from Chattra to Gya owing to the opening of the Bankipore-Gya Railway, but do not indicate any fluctuation. For Lohardugga no figures are forthcoming, and the Deputy Commissioner recommends that registering stations should be established. The matter will be considered in the Statistical Department of the Secretariat. If the figures given in the report are trustworthy, the export trade in rice from Manbhoom and Singbhoom has increased from 4,900 maunds in 1881-82 to 40,200 maunds in the year, but the increase is so remarkable that the Lieutenant-Governor would be glad to learn how the figures have in each case been obtained. A small quantity of rice was exported from the Giridi sub-division of Hazaribagh, and a considerable quantity from Lohardugga. The export of stick-lac from Manbhoom fell from 92,000 maunds to 60,000 maunds, and that of shellac rose from 16,000 maunds to 28,000 maunds. No explanation of these fluctuations is given, and the exports of lac from Lohardugga are not mentioned. Til seeds were exported in considerable quantities from all districts. The trade in timber for sleepers, which was formerly of much importance in Lohardugga, collapsed to a great extent in 1881-82, owing to the substitution of iron for wooden sleepers on the East Indian Railway, but revived considerably in the year under review. The Deputy Commissioner anticipates that the revival will not last, as the competition of iron from Barakar will again drive timber out of the market. In Manbhoom bad forestry has almost destroyed the timber supply, but the Lieutenant-Governor is glad to learn that in the Gobindpore sub-division the zemindars are now beginning to conserve their forests. The forests of Chota Nagpore are now receiving attention from the Forest Department, and by this means the timber supply may be much improved. Large quantities of reeled silk and tasar cocoons were exported from Hazaribagh, Manbhoom, and Singbhoom; but though the

yield was large, the prices obtained were low. The Commissioner, who has given much attention to the subject, states that the ascetic observances which are required of silk-cultivators are so arduous, that the crop is unpopular, and the distances to which, owing to the clearances of jungle, the cultivators are now often obliged to go, serve to increase the disinclination to pick cocoons. The following remarks fully explain the present unpopularity of the crop:—

In the more cultivated villages of Singbhoom, Lohardugga, Manbhoom, and East Hazaribagh, the tasar worms are fed on pollarded *asan* trees, some of which have been planted for the purpose, but the greater number are remnants of the jungle which once surrounded the village. The usual number of trees tended by each man is from 10 to 20. The average yield, as far as I could ascertain from enquiries made from a number of tasar cultivators in Singbhoom, is about 30 cocoons per tree, though in a good year a tree ought to yield about 100 cocoons, so that the average number of cocoons yielded by an average of 15 trees is about 450; and if the price paid be 8 annas per 80 cocoons, all that he and his family get for their watch of about a month, continued day and night, is a little more than Rs 5-8. If this were all that could be looked for, the number of people who would go through the drudgery of watching, and the minute observances as to cleanliness and food necessary, would be very small It is only the chance of a bumper crop of 100 cocoons or more per tree that induces cultivators to try their luck in the trade. The number who cultivate tasar is yearly decreasing, and will decline very considerably in a series of years if heavy rain and wind should make the yield as bad as it was last year in Eastern Lohardugga.

Mr. Hewitt made further enquiries into the question of the home demand for tasar when on leave, from which it appears that, though some of the large English manufacturers prefer Indian to Chinese silk, the necessity for bleaching the former, and the superior cheapness of the latter, are fatal to Indian silk as at present grown. He believes, however, that, if the cultivation of tasar were taken up scientifically, if gardens of *Lagerstræmia Indica* were planted by the cultivators near their own houses, and if the experiment were tried on a large scale, the trade might be made to pay well. If the Forest Department can help at all in the direction indicated, their services can be utilised. The Commissioner's remarks, which are of much interest, are appended to this Resolution.

10. *State of public feeling.*—As might be expected in so backward a part of the country as Chota Nagpore, the subjects of Local Self-Government and the Bill for the amendment of the Code of Criminal Procedure have excited no interest. In the Gobindpore sub-division the Arms Act is said to be unpopular, but this would appear to be the consequence rather of defective administration than of faults in the Act. The Deputy Commissioner has now authoritatively re-published a notice formerly issued in the sub-division, to the effect that licenses under the Act will be granted free of cost to residents of jungly villages who require arms for protection against wild beasts; and this measure should serve to allay discontent. The land agitation is said by the Commissioner to have died out, but from the remarks of the Deputy Commissioner, it would seem that it may revive at any time. "So long," Mr. Power writes, "as a landlord asks for no more than the village rate, all goes well; but it is considered monstrous oppression to enhance or to eject, and nothing is clearer than that every khodkhast ryot has a right of occupancy in his holding. The Kol's view of the question is tersely summed up, when he says that the landlord is master of the *mal* (rent), but not of the soil, the proprietary right in which, in his opinion, rests with the village community." The license tax, which is not felt by the masses, is not disliked, and as touching chiefly the *mahajans*, is said to be regarded with silent satisfaction.

11. *Administrative changes.*—No changes of importance have been made during the year, but the Commissioner anticipates good results from the steps now being taken to provide in Government service for some of the better educated inhabitants of the division.

12. *Police and crime.*—The term discreditable, which was applied last year to the police of the division, is, the Lieutenant-Governor regrets to say, too mild to be employed on the present occasion. The numbers of the district police have been increased by the amalgamation with them of the municipal force and the cantonment police of Hazaribagh, but the new-comers appear to be in no respect behind their older companions in misconduct. Last year, out of 926 policemen of all grades, 186 or 19·19 per cent. were punished either judicially or departmentally. This year the average is higher: 347 individuals or 22·5 per cent of a force of 1,642 men having incurred punishment. The diffi-

culty of securing good under-officers has no doubt much to do with this, and the Lieutenant-Governor will watch with interest the result of the experiment which has been made in Lohardugga to induce the hitherto idle sons of zemindars to accept employment in the higher grades. It is hoped also that the investiture of the Assistant Superintendent of Police at Palamow with the powers of a District Superintendent may help to keep the force of this large district better in hand. The complaint of the District Superintendent of Manbhoom "that no material improvement can be expected in the results of the police investigation, unless investigating officers themselves take a personal interest in the detection of cases reported to them, instead of satisfying themselves, as they now do, with going to the spot, searching the houses of the local bad characters, and then returning to their station and reporting the case in C form true," is undoubtedly correct, but the fact that investigations are conducted in this lax and superficial manner is by no means creditable to the local heads of the police, and will be brought to the notice of the Inspector-General. The state of the chaukidari police in Hazaribagh and Lohardugga would appear to have improved somewhat during the year, at any rate in respect of regularity of payment. The fact that in the former district a mere explanation to some of the *ilakadars* as to their duties sufficed to make them pay their dues would apparently indicate that local officers have hitherto given insufficient attention to explaining the state of the law to villagers during their tours. The matter is one in which personal explanation is apt to be very effective. The administration of the Act is, however, very difficult in the division. Considering the state of the police force, it is not remarkable that cases of cognizable crime should have increased from 5,012 to 5,448, the increase being common to all districts, and being most marked in offences against property and other offences in Hazaribagh and Lohardugga. In Singbhoom, where the amount of reported crime is very insignificant, the increase took place in nuisance cases and offences against special laws. In Hazaribagh and Manbhoom the increase is said to be partly due to the larger number of cases taken up directly by Magistrate, and in the latter district the Deputy Commissioner has been obliged to warn his subordinates against allowing the criminal courts to be used for the settlement of civil rights. Out of 5,516 persons arrested, 3,482 were convicted, giving an average of 63·1 per cent. against 65 per cent. in the previous year. In sessions cases the percentage of acquittals, though high, shows some improvement. The section of the report bearing upon the Police and the administration of Criminal Justice will be forwarded to the Inspector-General of Police.

13. *Civil suits.*—The number of civil suits instituted in the division in 1881 underwent little change in the year under review, though small fluctuations took place as between the different districts, and there was a considerable increase in the average values of title and rent suits thus:—

Districts.	Number of suits in						Value of suits in					
	1881.			1882.			1881.			1882.		
	Suits for money and moveables.	Title suits.	Suits under the rent laws.	Suits for money and moveables.	Title suits.	Suits under the rent laws.	Suits for money and moveables.	Title suits.	Suits under the rent laws.	Suits for money and moveables.	Title suits.	Suits under the rent laws.
							Rs.	Rs.	Rs.	Rs.	Rs.	Rs.
Hazaribagh	1,104	65	901	1,024	72	854	2,54,365	38,210	5,946	2,08,103	61,427	69,202
Lohardugga	799	114	682	870	130	824	1,07,906	1,08,728	5,946	1,45,881	4,01,899	66,786
Singbhoom	33	5	12	19	9	14	5,951	2,827	1,091	9,818	1,767	529
Manbhoom ...	1,536	448	1,584	1,584	517	1,684	1,44,021	1,55,382	88,059	98,283	5,07,473	1,03,268
Total ...	3,532	632	3,079	3,503	727	3,358	5,13,145	3,05,147	1,01,042	4,62,385	9,72,565	2,41,785

The Commissioner attributes the decrease in suits for money and moveables in Hazaribagh, while the same suits have increased in Lohardugga and Manbhoom, to the more extensive operations under the Encumbered Estates Act. Two heavy cases account for the rise in the value of title suits in Lohardugga. In Singbhoom, it is said that all rights to land have been so thoroughly defined on Wards' estates and Government property, which comprise between them nearly the whole district, that there is little room for

litigation about land; while good crops and light assessments have combined to reduce suits for money and moveables to a minimum. The increases in title and rent suits in Manbhoom are due respectively to suits instituted to set aside decisions of the Assistant Superintendent of Ghatwali Survey as to ghatwali lands, and to suits brought by the Pachete Raja to recover rents from his jaghirdars.

14. *Land and land revenue.*—The collection of land revenue, though still good, were not quite so satisfactory as in the previous year, being Rs. 3,66,207, or 96·5 per cent. of a demand of Rs. 3,79,336 from 378 estates, against Rs. 3,75,520, or 97·5 per cent. of a demand of Rs. 3,84,956 in 1881-82. In Hazaribagh the whole arrear demand was collected, and nearly the whole of the current demand. In Singbhoom the collection amounts to 99·9 per cent. of the demand, the small balance of 33 being irrecoverable. In Lohardugga the balance amounted to Rs. 11,356 out of a demand of Rs. 1,03,250, and is due almost entirely from Palamow, where the money for the last kist cannot be realized till the ryots receive the proceeds of the rabi crop. In Manbhoom the arrears were small. The re-settlement of the Koderma estates in Hazaribagh was completed in August 1882, and resulted in an increase of revenue of Rs. 3,292. The re-settlements of Kharakdihi and Choi, in the same district, made good progress.

The survey of the Khalsa villages in the Chota Nagpore Estate has advanced considerably, owing apparently to the employment, as amins, of young men from Chota Nagpore, educated for the most part at the mission schools. The Lieutenant-Governor fully concurs with the Commissioner that the fact that these apprentices are reported to give great satisfaction, and to be "less given to fudging their work than older men, is certainly a most satisfactory feature of the survey work, as by this means a large number of well-trained surveyors, who are inhabitants of the country, will be made available for employment in settlements and measurements, and it will not be necessary in future settlements to import so many outsiders into the division." The settlement of this estate, like that of Kharakpur and Choi, will be governed by the orders of Government as to the rates in the Dunwar estate. The settlement of the Dhalbhoom Estate under the Court of Wards in Singbhoom was completed. In Manbhoom the survey of the ghatwali and other service lands, which is now nearly complete, has been somewhat impeded by the re-survey of the holdings in which land was concealed in collusion with the zemindars. The Commissioner devotes a long and carefully written section of the report to the consideration of the question of the rates of rents to be demanded in Chota Nagpore. The views expressed by Mr. Hewitt have already come under the notice of Government, and as orders have on a full examination of the question been already passed, the subject need not be discussed here.

Owing to the default of the Raja of Pachete the collections of Road and Public Works cesses, which were elsewhere good, were unsatisfactory in Manbhoom, but steps are being taken for the recovery of the arrears. Nine hundred and forty-five applications for certificates out of a total number, including applications pending from the previous year, of 1,312 filed were disposed of. The Lieutenant-Governor is glad to observe that the Commissioner is watching the proceedings under the Act with a view to prevent abuses of it.

15. *Excise.*—The following table, reproduced from the report, shows the very large advance made by the excise revenue of the division during the last four years:—

Districts.	Average of 1879–82.	Actuals of 1881-82.	Actuals of 1882-83.	Increase of revenue of 1882-83 over Average of 1879–82.	Increase over actuals of 1881-82.
	Rs.	Rs.	Rs.	Rs.	Rs.
Hazaribagh	1,39,608	1,78,156	1,91,276	51,667	13,119
Lohardugga	1,94,928	2,45,027	2,65,782	70,854	20,755
Singbhoom	18,518	19,210	20,606	2,088	1,396
Manbhoom	56,366	74,507	79,053	22,686	4,545
Total ...	4,09,320	5,16,900	5,56,715	1,47,395	39,815

Of the total excise revenue Rs. 4,58,480, or over 82·3 per cent., was realized from country spirits, and this increase has been accompanied by a

decline of 134 in the number of outstills, which is now 667, or one outstill to 406 square miles of country and 6,336 inhabitants. The Deputy Commissioners of Hazaribagh, Lohardugga and Singbhoom are strongly of opinion that no increase of drinking has resulted from the introduction of the outstill system, of which the only effect has been to substitute licit for illicit liquor Mr Risley, the Deputy Commissioner of Manbhoom, while of opinion that for the inhabitants of the district the institution of outstills has made no difference, considers that the presence of liquor shops on the high roads has placed much temptation in the way of travellers, and suggests that no outstill should be allowed within a quarter of a mile of a high road. The Commissioner agrees with Mr. Risley as to the effect of the outstills, but believes that the proposed remedy would be ineffectual, giving rise to the illicit sale of liquor, and would thus furnish another opportunity for corruption to the police. The remarks made on the subject by the Commissioner and Deputy Commissioner will be referred for consideration to the Commission of Enquiry about to be appointed. The increased duty on ganja has led to an enhancement of revenue and a decrease in consumption. The consumption of opium was slightly in excess of that of the previous year.

16. *License tax.*—The result of the year's license tax operations was a reduction from 4,038 to 3,820 in the number of assessees, and from Rs. 63,310 to Rs. 58,600 in the assessment, giving an average assessment of Rs. 15-13-9 a head in 1882-83, against Rs. 15-10-0 in 1881-82. The total collections fell from Rs. 52,361 to Rs. 50,888. As the assessments in the Giridi sub-division of Hazaribagh and in Manbhoom, which were only re-assessed in 1881-82, are said to have been thoroughly revised during the year, it may perhaps be hoped that they are now fairly correct. In Singbhoom the tax is unimportant, and the assessment was revised by the Deputy Commissioner in the course of his tour. In Lohardugga the assessment of the previous year was followed, a few remissions only being made. The number of objections and appeals was much lower than in 1881-82. The assessment under the Act must always be a matter of difficulty owing to the uncertainty existing regarding the incomes of native traders, but the number of rich traders in Chota Nagpore is so small that the difficulty ought to be less in this division than elsewhere.

17. *Stamps.*—The total revenue, including penalties, realized under the Stamp law amounted to Rs. 2,60,448 against Rs. 2,74,101 in the previous year. The decline, which was confined to Hazaribagh and Lohardugga, is attributed in the former district mainly to the absence of the causes which led to a somewhat abnormal revenue in 1881-82, namely, the sales of certain large estates, the requirements of the Public Works Department in the way of tender forms, and the suits instituted by the zemindar of Ramgarh; and in the latter to a decline in the number of deeds registered and suits filed. In Manbhoom and Singbhoom some increase took place.

18. *Monetary arrangements.*—The receipts and issues of currency notes (Rs. 10,17,660 and Rs. 9,27,010) respectively were higher than in the previous year, and less difficulty than usual was found in cashing notes at the Government treasuries. The sales of stock notes were very insignificant.

19. *Forests.*—At a conference held during the Ranchi fair rules were drafted by the Commissioner, the Deputy Commissioners of Lohardugga and Hazaribagh, the Assistant Commissioner of Palamow, and the Conservator of Forests for the management of such forests as might be made over to the department for conservancy by the zemindars, and the Commissioner hopes that these rules may in time, after they have been explained to the landholders, be of some effect in checking the reckless destruction of forests which has been going on so long in Chota Nagpore. The demarcation of the Porahat forests, and of the Saitha block in Singbhoom, has been completed, and steps have been taken in the Mahta and Koilapal estates in Manbhoom to inaugurate forest conservancy.

20. *Communications.*—The year has been one of much importance to the future of the division, owing to the surveys which have been conducted with a view to the establishment of lines of railway from Barakur to Raigurh and Benares to Cuttack. Of the roads in the division seven of the most important are under the Provincial Public Works Department, and the remarks made concerning them will be considered in that department. The resources

of the Road Cess Committees are small, and were for the most part devoted to the repairs of existing roads, though original works on a small scale were carried out in Hazaribagh, Lohardugga and Singbhoom.

21. *Education.*—A very satisfactory increase has taken place in the number both of schools and pupils in all districts of the division, the improvement being especially marked in the case of primary education, thus:—

Districts.	1881-82.						1882-83.					
	Number of primary schools.	Number of schools other than primary.	Total number of schools.	Number of pupils in primary schools.	Number of pupils in schools other than primary.	Total.	Number of primary schools.	Number of schools other than primary.	Total.	Number of pupils in primary schools.	Number of pupils in schools other than primary.	Total.
Hazaribagh	246	37	283	1,104	6,073	7,177	290	27	317	6,841	1,142	7,983
Lohardugga	305	78	383	2,013	9,106	11,119	335	79	414	10 314	1,164	11,468
Singbhoom	111	9	120	502	5,204	5,706	125	15	140	5,452	648	6,100
Manbhoom	337	75	412	1,946	8,564	10,510	422	32	454	10,419	1,247	11,666
Total ...	999	199	1,198	5,565	28,947	34,512	1,172	153	1,325	33,026	4,191	37,217

Of the total number of pupils, 26,713 or 71·6 per cent. are Hindus, 2,248 or 6 per cent. Musalmans, and the remainder aborigines or native christians of aboriginal races, the proportion of Hindus rising to 83·7 in the Higher English and falling to 70·3 in the lower primary. Female education, too, is making some progress; the number of girls (644) under instruction, though still small, being 75 per cent. higher than in the previous year. The complaint made last year regarding the insufficiency of funds to meet the demand for primary education in Singbhoom is repeated; the Lieutenant-Governor regrets that it should not have been possible to meet the wishes of the people in respect of education in this district, and desires that the Director of Public Instruction will be good enough to favour him with a special report as to the amount of the allotment now made and the possibility of increasing it.

22. *Committees.*—In the absence of figures shewing the number of members on each committee, the table of average attendance does not throw much light on their diligence or otherwise in the performance of their duties. It is stated, however, that the Manbhoom and Hazaribagh Committees continue to take a lively interest in their proceedings, while the members of those of Lohardugga display interest in matters directly affecting them. The district of Singbhoom is so backward that "the little interest taken by the native members, who, with one or two creditable exceptions, merely attend the committees as a matter of form and out of respect to the official members," is hardly a matter for surprise. With the spread of education and gradual development of the district promised by the extension to it of railway enterprise things will doubtless improve.

23. *Wards and attached estates.*—The number of Wards' estates under management in the division (9) remained unchanged, one estate, that of Jhalda in Manbhoom, having been taken in charge, and one, that of Deogun in Lohardugga, having been released. Three estates, that of Dhanwar in Hazaribagh, Chota Nagpore in Lohardugga, and Dhalbhoom in Singbhoom have a rental of over half a lakh of rupees. Of the remainder, nearly all are small. The total demand on account of rent on all the estates in the division amounted to Rs. 3,42,301, of which Rs. 3,27,888, or 95·8, were collected, and on account of cesses to Rs. 69,108, of which Rs. 55,445, or 80·2 per cent. were collected. The collections generally, especially those on account of cesses, were less satisfactory than in the previous year. The good done by the management of the Court may be seen from the following instances. Of a debt of Rs. 80,530 due on the Dhunwar estate when taken under management, over three-fourths have been paid off. The Deogun estate, which, when taken over, owed Rs. 28,169, was handed over to its proprietor on his majority free of incumbrances, and with Rs. 1,17,763 invested in Government securities; the annual income at the same time had increased from Rs. 14,411 to about Rs. 30,000. The incumbrances amounting to Rs. 33,864, on the Dhalbhoom estate have been completely paid off, and the estate has since the close of the year been handed over to its proprietor with a sum of Rs. 2,10,700 in Government securities and

a cash balance of Rs. 16,530; while numerous and costly improvements had been effected on the estate. A very favourable account is given of the Chota Nagpore and Katras minors.

Five new estates were brought under the operation of Act VI of 1876 (the Encumbered Estates Act) during the year, bringing the total number of estates under the Act up to 71. The total demand, arrear and current, on account of rent, amounted to Rs. 3,37,771, of which Rs. 2,37,054 were collected and Rs. 14,616 remitted, and that on account of cesses to Rs. 48,193, of which Rs. 24,355 were collected and Rs. 2,668 remitted. The percentage of rent collections to current demand amounted to 107·9 in Singbhoom, 98·7 in Manbhoom, 93 in Hazaribagh, and 91 in Lohardugga—a not very satisfactory result—while that in the case of the cesses was even less favourable. The amount of debt due on the estates under management after determination and such reduction as was legal under the Act amounted to Rs 16,75,429; of this Rs. 3,43,499 have been paid off up to the present time. This amount is less than had been anticipated, but it is explained that in some cases in Lohardugga, in which it had been intended to pay debts by the sale of portions of the properties, this course has proved unnecessary, increases in the rentals resulting from revision of the *jamabandis* having rendered it possible to pay the debts without sale, though in a slightly longer period than was at first expected.

24. *Conduct of zemindars.*—The only zemindar singled out by the Commissioner for special praise is Babu Rasbihari Lal Singh of Jherria in Manbhoom, but the account given of most of the landowners is on the whole decidedly satisfactory, though in Hazaribagh a number made default in the payment of Government demands. The Deogan zemindar, Babu Krishna Baksh Ray, who has recently attained his majority, is very well spoken of by the Assistant Commissioner of Palamow, and the Political Chiefs and zemindars of Singbhoom are said by the Deputy Commissioner "to be thoroughly loyal and perfectly amenable to order and advice. They are also generally respected by their people, and on the whole get on fairly with them. No acts of high-handedness or oppression on the part of any of them have come to notice." Babu Ram Narayan Singh of Ramgarh, though not so strongly blamed as in previous years, has, the Lieutenant-Governor is sorry to read, "taken no pains to improve his estate, while he seems to be preparing for a legal quarrel with the holders of jaghirdari grants."

25. *Character of officers.*—The Commissioner's remarks on this subject will be considered in the Appointment Department Here it may be mentioned that Messrs. Power and Risley; and Babus Rai Charan Ghosh, Ganga Nand Mukharji, and Raj Gopal Ray, and Munshi Nandji are most favourably spoken of.

By order of the Lieutenant-Governor of Bengal,

A. P. MACDONNELL,

Offg. Secretary to the Government of Bengal.

APPENDIX.

About Rs. 89,000 worth of tusser cocoons, manufactured into silk, were exported from Hazaribagh to Moorshedabad and other places, while from Manbhoom and Singbhoom 2,500 and 10,600 kahans respectively of the cocoons were exported during the past year, against the same quantity exported from Singbhoom and 7,500 kahans exported from Manbhoom in 1881-82. The Deputy Commissioners of Singbhoom and Manbhoom are both of opinion that the yield of cocoons in the past year in both districts was very large, though the Singbhoom ryots, to whom I spoke on the subject, complained of the small crop they had got; while the Deputy Commissioner of Singbhoom says that the low rate at which they were sold in the market prevented a large quantity from being exported.

I have for several years past been engaged in making enquiries about the tusser industry, which might possibly, under efficient and intelligent management, become a source of great wealth to the Division.

Tusser cocoons at present are grown either in the jungle tracts of Singbhoom and the Tributary States, or in Manbhoom and the villages in the east of the Lohardugga and Hazaribagh districts. In the jungle tracts they are grown chiefly in the jungle surrounding villages in which there is little cleared land, and the yield from these villages is yearly decreasing, as the extension of clearances moves the jungles further from the village site. More than once I have asked the people why they had given up growing tusser in these villages. They have said, "Why, sahib, when we grew tusser the jungle was close to our houses, but now look how far off it is." As native superstition requires the tusser grower and all his family to submit to a number of ascetic observances, without which a good crop cannot be expected, the people naturally give up growing a crop which entails so much trouble and long journey to the jungles, when they can get very nearly, if not quite, as large profits from crops grown close to their doors without half the labour and annoyance required by the rules of tusser cultivation.

In the more cultivated villages of Singbhoom, Lohardugga, Manbhoom, and East Hazaribagh the tusser worms are fed on pollarded asun trees, some of which have been planted for the purpose, but the greater number are remnants of the jungle which once surrounded the village. The usual number of trees tended by each man is from 10 to 20. The average yield, as far as I could ascertain from enquiries made from a number of tusser-cultivators in Singbhoom, is about 30 cocoons per tree; though in a good year a tree ought to yield about 100 cocoons, so that the average number of cocoons yielded by an average of 15 trees is about 450; and if the price paid be 8 annas per 80 cocoons, all that he and his family get for their watch of about a month, continued day and night, is a little more than Rs. 5-8. If this were all that could be looked for, the number of people who would go through the drudgery of watching, and the minute observances as to cleanliness and food necessary, would be very small. It is only the chance of a bumper crop of 100 cocoons or more per tree that induces cultivators to try their luck in the trade. The number who cultivate tusser is yearly decreasing, and will decline very considerably in a series of years if heavy rain and wind should make the yield as bad as it was last year in Eastern Lohardugga.

On the other hand, a largely increasing demand for tusser is springing up in England, and during my stay there last year I visited Macclesfield, and spent some days with Mr. Brookleburst, who owns the largest silk mills in that city, and discussed the subject with him and Mr. Wardle, who superintended the preparation of the dyed silks sent by the India Office to the Paris Exhibition, is the head of a large dyeing firm at Leek, and has been for years engaged in making experiments in dyeing tusser.

From what I learnt from them, and from some correspondence I have had with Mr Wardle, it appears that the English silk firms are prepared to take any quantity of tusser waste at from 1*s.* to 1*s.* 6*d.* a pound, but that higher prices for unreeled silk would not now pay in England, while at anything like present rates for cocoons here this price would be utterly unremunerative. Now they can get large supplies from China at these rates, but they have no information whether these supplies will keep pace with the increasing demands of the trade, or whether the China worm, which feeds on the oak-tree, is domesticated or feeds in the jungles. In the latter case the supply is not likely to be largely increased, and a rise in prices, if the demand still continues, may, if the work of production could be reduced, make the export even of Indian tusser waste pay.

The China tusser silk is naturally white, and does not require bleaching, whereas it is a very difficult matter to bleach the Indian tusser. The latter is therefore much more expensive than the Chinese for all white silks, and can only compete with it at present prices in dyed goods and those of its natural colour; but Mr. Wardle writes to me on the 10th March this year – "I should be much delighted if Indian tusser could replace Chinese; I find it is preferred by the spinners." But except when used as waste, he says – "It must be reeled where labour is cheap," as it will not pay for reeling in England.

The price of reeled China tusser given by him in the letter above quoted is from 5*s.* to 5*s* 6*d.* per pound; but to make a pound of silk according to Major Cousmaker's experiments requires an average of 436 cocoons; and though the cocoons of Chota Nagpore are larger than those of Bombay, where Major Cousmaker's experiments were made, yet, as far as I learn from enquiries among the natives, his estimate must be considered to represent very fairly the outturn from cocoons in this country. At the rate of eight annas for eighty cocoons, the cost of obtaining a pound of silk would be more than Rs. 2-8, or about the price

of the best reeled China silk at home without the cost of reeling. Therefore, before even reeled tusser can pay exporters well, the price at home must be increased, or the cost of production must be materially reduced. Feeding tusser worms on asun trees will never pay, as the trees cover a large space, and the yield of the number of trees which one or one family can look after is very small; but if ryots could be induced to plant hedges of *Lagerstræmia Indica* (a shrub on which Major Cousmaker successfully reared cocoons in Bombay) in the gardens close to their houses as they now plant opium and vegetables, the yield of cocoons could be very largely increased. On an acre of wide-spreading asun trees only about 440 trees, yielding an average crop of about 13,000 cocoons, could be grown; whereas Major Cousmaker has reared an average of 20,205 cocoons to the acre on *Lagerstræmia*, and probably more could be reared on hedges close to a ryot's house and constantly looked after by himself and his family. But of course the ryots will not do this without the hopes of a large profit, and they must therefore be able to get from the small patches of *Lagerstræmia* they can plant in their gardens more than they now get from the few asun trees they can look after. If a man now gets an average of only about Rs 5-8, and the industry is declining, it will require at least an average receipt of Rs 8 to make the cultivation fairly popular; while, if it could be increased to Rs. 10, the number of tusser cultivators would be very largely increased, but only if a family can look after about an acre of hedge planted about two feet apart, and it is only by experiment that an area a family can look after can be ascertained. In order to make a profit on reeled silk at present prices, it would, considering the expenses of setting up and maintaining filatures with reeling machines, added to those of supervision and transport, be necessary to be able to buy the cocoons at not more than 2s. or Re. 1 for the quantity required to make a pound of silk. This would be about in round numbers 440 cocoons, or 110 for 4 annas—a price much less than that now given; but if, on the other hand, the average yield could be raised to 20,000 cocoons an acre by substituting *Lagerstræmia* hedges for asun trees, a ryot could on one-fifth of an acre procure cocoons which he would sell for nearly Rs. 10 at the filature.

Here, however, another question would arise—Could a ryot and his family look after more than one-fifth of an acre? and if they could not, I very much doubt whether the prospect of getting only Rs. 10 would be held by the more enterprising ryots, such as Kooiries and Koormis, who would alone undertake the cultivation of a *Lagerstræmia* plot, to be sufficient to compensate them for their trouble, especially as the cocoons must be brought to the filature before this price could be got. I am afraid this would detract greatly from the attractions which the receipt of Rs. 50 for the crop grown on an acre would present if tusser only required the care requsite for ordinary crops. Therefore, even supposing that a pioneer of the trade did appear possessed of the very sure qualities necessary to overcome prejudices of the ryots, the capital necessary to make a profit after many failures and a patience not easily discouraged, the success of his endeavours would be doubtful; but if he did succeed, I believe that owing to the increasing demand for tusser he would make a large fortune, provided the facilities for increasing production in China are not greater than those in India; and as one successful experimentalist would find his example followed by many others, the wealth of the country would be enormously increased by a large and prosperous trade, which would, owing to the cheapness and abundance of labour which the country will probably always furnish, and the probable absence of competition from other countries if Chinese tusser is once beaten out of the market, be likely to be permanent.

Rainfall, Weather, and State and Prospects of the Crops.

Statement showing Rainfall, Weather, and State and Prospects of the Crops in the different Districts of Bengal, as reported to Government during the week ending the 27th October 1883.

No.	District, and date of return.	Rainfall at Sudder Station in inches.	Character of the weather, state and prospects of the crops, and state of health at date.
	BENGAL.		
	Western Districts.		
Burdwan Divn. 1	Burdwan. Oct. 27 '83	Nil	Weather—hot during the day, cool at night and in the mornings; no rain
	Cutwa ...	Nil	Crops are suffering for want of rain. In places where no means of irrigation
	Culna ...	Nil	exist the outturn will be very bad Irrigated crops and crops on very low
	Kaneegunge ...	Nil	lands only are doing well. Prospects decidedly bad
2	Bankoora, „ 27 „	0·05	Mornings and evenings cool, but days warm and sunny. Prospects are
	Bishenpore ...	Nil	unfavourable. The early cessation of the rains has caused great damage to the
	Maliara ...	Nil	crops. Detailed reports, however, are more encouraging, and tend to confirm
	Khatra ..	Nil	the Collectors' belief that even if no rain falls an 8-anna crop all round will
			be secured. Prices steady
3	Beerbhoom, „ 27 „	Nil	Weather—fair and dry; nights cool. Crops suffering for want of rain. Irriga-
	Rampore Haut ..	Nil	tion going on where practicable. Deficiency of harvest most probable. Prices
			of rice continue rising Public health good.
4	Midnapore „ 27 „	Nil	Weather seasonable. Want of rain is much felt everywhere Prospects of
			paddy crop unfavourable. Fever is reported from most parts of the district
5	Hooghly, „ 27 „	Nil	Weather—cool and pleasant. Prospects of *amun* crop throughout the district
			are bad owing to want of rain. At present the outturn does not promise to be
			at the very most more than half the usual one From water having been sent
			down the Kana Nuddee and Kana Damoodar a great deal of rice in that direc-
			tion has been saved during the last few days Sugarcane promises pretty well,
			but is suffering in places for want of water The land is being prepared for
			the cold weather crops, which are being sown Cattle-disease has appeared in
			thana Harripal, and there have been some cases of cholera. Otherwise public
			health good.
	Howrah, „ 29 „	Nil	Weather—seasonable. No rain Rain much needed. *Amun* rice and sugarcane
	Oolooberiah ...	Nil	suffering. Health fair.
	Central Districts.		
Presidency Divn. 6	24-Pergunnahs Oct. 29 '83	Nil	Weather—cool in the morning, evening and night, but hot in the day. Prospects
			of late paddy crop continue unfavourable. Sugarcane doing well. Public
			health good.
7	Nuddea, „ 27 „	Nil	Weather—clear, fine and cool. The *amun* on the high lands has withered, and
	Kooshtea ...	1·61	on the low lands it is beginning to suffer for want of rain. Sowing of
	Meherpore ..	0·10	winter crops is going on, but the prospects are bad for want of rain. Fever
	Chooadanga ...	Nil	has increased.
	Ranaghat ..	0·9	
8	Khoolna, „	Nil	Weather—hot and clear; wind from north west. Much of the rice on the
			higher lands has been damaged beyond recovery. From Bagirhat it is
			reported that prospects continue good Winter sowings are being delayed for
			want of rain. Price of rice rising. Public health good.
9	Jessore, „ 27 „	Nil	Weather—hot in day but cool in night. Prospects of *amun* crop bad. On the
	Jhenida ...	1·00	high lands it has suffered considerably from want of rain; on the low lands it
	Magura ..	Nil	has also suffered, but not so much as on the high lands The outturn from the
	Narail ..	Nil	former is estimated at four annas only, and from the latter at eight annas The
	Bongong ..	0·20	prospect is worst in the Jhenida sub-division. The want of rain has also told
			against the sowing of the winter crops. Fever is prevalent in the district, and
			is causing many deaths.
10	Moorshedabad, „ 27 „	Nil	Bright cool weather. Strenuous efforts are being made to save the late rice
			by irrigation, which are likely to be partially successful. Sowings for the cold-
			weather harvest are being vigorously pushed forward in spite of the drought.
			Prices are rising. Public health good.
Rajshahye and Cooch Behar Divn. 11	Dinagepore Oct. 26 '83	Nil	Weather—bright and cloudy. High land rice is suffering much On the
			irrigated lands the rice is still kept alive. There is also a great want of moisture
			for sowing *rubbee*.
12	Rajshahye, „ 27 „	Nil	Weather—cool. No sign of rain. *Ropa* paddy is fast drying. *Amun* in low lands
	Nattore ..	Nil	fair in parts. *Rubbee* sowings delayed for want of rain. Prices in distant thanas
	Nowgong ...	0·06	have risen fast; in Nowgong as high as 11 seers Stocks being kept back.
13	Rungpore „ 27 „	Nil	Weather—hot during day and cool during night and morning. Prospects of
	Gaibanda ...	Nil	*amun* very unfavourable, specially in the southern portion of the district. If it
	Kurigram ...	Nil	does not rain shortly a very bad outturn will be the result. Prices of food-
	Nilphamari ...	Nil	grains have risen and are rising still. It is reported that common rice is selling
			at 8 seers per rupee in the Gaibanda sub-division, and 10 seers per rupee at
			head-quarters. Fever prevalent.
14	Bogra. „ 27 „	Nil	No rain has fallen since 16th instant, though the weather is cool. State and
			prospects of *amun* crop continue to be very bad, and its outturn will conse-
			quently be very poor. Where facilities exist the ryots in many places are
			endeavouring by means of irrigation to save some of their crops. Fever
			reported as prevalent in many places
15	Pubna. „ 27 „	0·35	Cold weather set in with northerly winds. Harvesting of *amun* rice commenced;
			only half an average crop expected. Much has dried up and is used as fodder
			for cattle. Prospects of winter crops fair.
16	Darjeeling, „ 27 „	Nil	Weather—bright. Sowing of winter crops continues in the Terai. Outturn
			of late paddy far below last year's. Prices rising. Public health good in the
			Hills. A few cases of fever reported from the Terai.
17	Julpigoree, „ 27 „	Nil	Weather—cool and seasonable. State and prospects of the crops favourable.
			Public health good.
	Cooch Behar ...	.....	Report not received.

No.	District, and date of return.	Rainfall at Sudder Station in inches.	Character of the weather, state and prospects of the crops, and state of health at date.
	BENGAL—*concld.*		
	Eastern Districts		
	Dacca Divn.		
18	Dacca, Oct. 27 '83	Nil	Weather—hot by day and cool by night. Sugarcane being cut. Mustard, *khesari*
	Manickgunge ...	0·19	and *musari* being sown on high lands. Harvesting of *ashini* paddy continues.
	Munshigunge ...	Nil	Prospects good.
	Narsingunge ...	Nil	
19	Furreedpore, „ 27 „	0·40	A little rain fell in the north and middle of the district, but not nearly enough.
	Goalundo ...	0·20	Bright, calm and cool weather generally Sugarcane fair. *Amun* fair in the
	Madaripore ...	Nil	south, but on the higher lands in the north and middle of the district withered beyond recovery. Rain would still do good to the rest of the crops, and for the cold weather sowings, which are going on but slowly. Fever very prevalent.
20	Backergunge, „ 25 „	0·48	Weather seasonable. Prospects of crops good. Public health good Cattle-disease still continues in the Patuakhali sub-division.
21	Mymensingh, „ 26 „	Nil	Weather—seasonably dry. Sky clear Warm sun. Cold nights and heavy dews.
	Jamalpore ...	1·15	About eight annas of the *amun* in the west of the district lost. The heavier
	Kishoregunge ...	0·84	rainfall in the east gives a better promise. Mustard and tobacco being sown
	Attea ...	Nil	River level very low. Fever prevalent
	Netrokona ..	Nil	
	Chittagong Divn.		
22	Chittagong, Oct. 30 '83	Nil	Weather—fine with misty mornings at times. Prospects of crops favourable. Prices stationary. Cattle-disease continues. General health good.
23	Noakholly, „ 25 „	Nil	Weather—clear, coldish; wind northerly The state of the *amun* crop is good.
24	Tipperah, „ 26 „	0·25	Weather—still warm; nights cool Light north wind. The crops are reported
	Brahmunberia ..	0·33	good. Cattle-disease prevalent in the south.
	Chandpore ..	Nil	
25	Chittagong Hill Tracts. „ 23 „	Nil	Clear bright weather Northerly winds and foggy during morning and evening. *Jum* paddy crop throughout the district has been a good 12-anna crop The Lushai tribes have done still better and are reported to have reaped enough paddy to last two years. But the cotton crop has failed everywhere; it will nowhere average above 2 annas Ploughing duly doing well. Lands being ploughed for mustard and tobacco.
	Hill Tipperah „ 24 „	Nil	Weather—hot in the day and cold at night. Chillies and tobacco are being transplanted. Prospects of *amun* and sugarcane fair. Public health good.
	BEHAR		
	Patsa Divn.		
26	Patna, Oct. 27 '83	0·40	Weather—seasonable. The slight rain that has fallen during the week has been
	Barh .	0·47	of no appreciable benefit to the paddy crop. *Rahar*, cotton and sugarcane are
	Behar ..	0·59	doing well Sowing of *rubbee* crops is going on. A few cases of cholera
	Dinapore ..	0·40	reported from Barh town.
27	Gya „ 27 „	0·52	Weather set fair, cool. The rice crop will be very bad. The late slight rain
	Aurungabad ..	0·11	has done rice very little good; but has somewhat improved *rubbee* prospects.
	Nowada ..	0·51	Prices rising. Health good.
	Jehanabad ...	0·82	
28	Shahabad, „ 27 „	0·55	Weather—seasonable. The late rain has benefited the crops on the ground and has
	Buxar ..	1·03	improved the prospects of *rubbee* sowings Still much of the winter rice has
	Bhabooah ..	1·2	been lost owing to previous drought.
29	Durbhunga, „ 27 '83	0·13	Weather—getting cool and pleasant. The rice crop is irretrievably damaged throughout the district, and under no circumstances it will be more than an eight-anna crop. *Rubbee* cultivation is progressing, but not under the most favourable circumstances. Prices of food grains steadily rising.
30	Mozufferpore, „ 27 „	0·08	Weather—bright and rainless. There has been no rain except a light drizzle on
	Hajeepore ..	0·10	the 20th. The rice on high land has withered and in some places is being cut
	Seetamarhi ..	0·07	as fodder; that on low ground is better; the crop will not exceed five annas.
31	Sarun, „ 27 „	0·36	*Rubbee* sowings are in progress.
	Sewan ..	0·06	Weather dry; days hot, nights cool. No sign of rain. Rain most urgently
	Gopalgunge ..	Nil	wanted. Paddy crop suffering, except where irrigation is practicable, and *rubbee* sowings delayed for want of rain. It is doubtful whether a heavy fall would now be of much use to the paddy crop Prospects bad. Prices rising
32	Chumparun, „ 27 „	Nil	Weather—seasonable. Prospects of all standing crops bad. No rain has fallen since the beginning of September. If rain falls within a month the country will be covered with *rubbee*. If no rain falls most of the *rubbee* that has already germinated will die off. Generally the condition of the crops causes grave anxiety.
	Bhagulpore Divn.		
33	Monghyr, Oct. 27 '83	0·59	Mornings and evenings cool. Winter rice is suffering from the drought; outturn
	Jamui ..	0·76	will probably not exceed eight annas. It was benefited but little from the late
34	Bhagulpore, „ 27 „	0·28	rain, which was useful for *rubbee* sowings. Public health good.
	Banka ...	0·19	Weather—cloudy for two or three days, but very little rain fell *Rahar*, sugar-
	Soopole .	0·08	cane, castor, *kalai* and *koorti* thriving well. High land paddy will yield
	Muddehpoora ...	Only a few drops	nothing Low land paddy, where irrigation is feasible, will yield from eight to twelve annas, but the general average will not exceed eight annas. Not enough rain for *rubbee* sowings. Price of rice same as last week
35	Purneah, „ 27 „	0·09	Weather hot by day with cool nights Rain much wanted for *rubbee*
	Kissengunge ..	Nil	sowings. Rice crop would hardly benefit by it now. The *aghani* rice will probably average from eight to ten annas. Fever very bad all over the district.
36	Maldah, „ 27 „	0·02	Weather—first three days cloudy; latterly fair and cool. Wind north and north-west. Late rice fast drying up, that on high lands has almost withered in consequence of the drought. Common rice selling at from 11 to 12 seers per rupee at the sudder station. Public health good.
37	Southal Pergha, „ 27 „	Nil	Clear bright days Cool and dewy nights Clouds are again gathering. Pros-
	Deoghur ..	Nil	pects of paddy crop are reported fair in Passai, Godda, and Barcop talooks in
	Godda ...	0·18	the Godda sub-division. Elsewhere there must be a small outturn from the
	Rajmehal .	0·06	paddy on the up-lands The crops protected by irrigation will be fair. Rain
	Jamtara ..	Nil	is much wanted for crops on the ground, and for ploughing and sowing lands
	Pakour ..	0·10	for *rubbee*.

No.	District, and date of return.	Rainfall at Sudder Station in inches.	Character of the weather, state and prospects of the crops, and state of health at date.
ORISSA.			
Orissa Divn. 38	Cuttack, Oct. 26 '83	0·04	Weather—seasonable. Cutting of *beali* crop completed. *Sarad* crop suffered much for want of rain. There were showers of rain during last week throughout the district. This rain has done, to a certain extent, good to the crops Price of rice has risen a little. Public health generally good, except a few cases of cholera in the interior.
39	Pooree, „ 25 „	0·24	Weather—seasonable. *Laghu* paddy is ripening and *sarad* is in ear, but rain is much wanted everywhere, especially in parts of Khoorda. Common rice selling at from 20 to 30 seers per rupee. A few cases of cholera in thana Gope.
	Khoorda ..	0·08	
40	Balasore, „ 26 „	0·62	Weather—somewhat hot in the day, but generally seasonable. Local showers of rain have fallen in most parts of the district, but the quantity has been very small. The people are bailing everywhere where bailing is possible. A great deal of rice especially in the sudder sub-division is withering or failing to form the ear. Prospects have not improved since last report, and prices are rising. Public health good.
CHOTA NAGPORE. *South-West Frontier Agency.*			
41	Hazaribagh, Oct. 26 '83	0·05	Weather—clear and growing cool. Paddy crop materially injured by the present drought; in many places the outturn is expected to be nil. Preparation of ground for *rubbee* sowings too is at a standstill for want of rain. Coarse rice selling at 14 seers per rupee. General health good.
42	Lohardugga, „ 27 „	Nil	Weather—cool in morning and evening. Warm in day. In the vicinity of Lohardugga and Bahunath stations four annas crop may be yet saved. In Palamow the prospect is unpromising. Want of rain is generally felt Price of rice rising daily. Public health good, except at Daltongunge where fever is reported to be on the increase.
	Daltongunge ...	Nil	
43	Singbhoom, .. 26 „	Nil	Weather—days warm, nights cool. Upland paddy is suffering for want of sufficient rain. Prices gradually rising. Cattle disease still reported from some villages. Public health good.
44	Manbhoom, „ 27 „	Nil	Weather—clear and cool. Nearly half of the upland rice crop will probably be lost, and there will also be some loss on unirrigated low land. Cold-weather crops suffering from want of rain. Price of rice rising. Public health good

Published for general information.

CALCUTTA, STATISTICAL DEPT.,
The 30th October 1883.

Explanation.—Indicates that no rain has fallen. If the return for any day has not been received, the corresponding space is left blank. If some of the re... anting, the corresponding spaces in the total rainfall columns are left blank.

SUMMARY OF THE METEOROLOGICAL AND RAINFALL OBSERVATIONS TAKEN IN BENGAL FOR THE WEEK ENDING THE 26TH OF OCTOBER 1883.

DURING the concluding days of the previous week ending October 19th, wind directions in the province had been somewhat variable, and there had been a kind of struggle between the northerly winds, which prevailed over greater part of the Province, and the southerly winds, which had been induced by the diffused disturbance which had reached the Madras and Orissa Coasts, and which was discussed in the summary of the previous week. The northerly winds were of course the more powerful, and the southerly winds were being slowly and steadily driven back, and at the commencement of the present week, they had almost disappeared from the Province. With the interaction of these two currents, cloudy weather prevailed, particularly over Behar, and on the 20th and 21st instant general rain, though usually small in quantity, was received over the whole of Behar. Local showers were also produced in South-West Bengal, North Bengal, Chutia Nagpur, and Orissa, but the quantities of rain were usually small. Rainfall, however, having been driven back by the northerly winds from Behar at the close of the 21st, on the following day rain became fairly general over Orissa, though still a few local showers were reported from South-West and North Bengal. On the 23rd instant the area of general rainfall had been driven still further southwards, and it was only the Pooree district in the south of Orissa which reported at all general rain. From this time till the close of the week under review rainfall has been practically absent from the whole reporting area, and northerly winds appear to have become thoroughly established on the whole Province.

Pressure was at the close of the previous week distinctly above the normal, and it continued to increase on the 20th, when the average excess was about 0·07," though the actual excess pressures ranged from 0·16" in North Behar to 0·03" in Orissa. On the 21st the changes were small and variable, and on the following day the decreasing pressure set in, but the decrease only lasted one day, and it was not sufficient to bring it back to normal. On the 23rd a small increase took place in the pressure, only, however, to be followed on the 24th by a larger fall, while on the two last days of the week pressure had again commenced to increase. Pressure then during the whole week has been subject to an almost constant oscillation, but the increasing pressure has been more frequent, and on a larger scale than the decreasing pressure, so that pressure was at the close of the week distinctly above the normal. The average excess for the week over the whole province was about 0·05", though there has been one local irregularity at Dacca, which reports a pressure below the normal. At the various stations the excess pressure has ranged from 0·12" at Durbhanga to 0·03" at Chittagong, while Dacca reports a defect of 0·03". Temperature at the close of the previous week was considerably above the normal, but with the occurrence of the general rain in Behar, temperature fell rapidly, and the fall extended over the whole Province, so that for the greater part of the week temperature has been below the normal. On the average for the week temperature is about 4° below the normal in Behar, 3° below the normal in Chutia Nagpur, about 1° below the normal in East and South-West Bengal, and about 0·6° below the normal in Orissa.

The following table gives the usual summary of the temperature and rainfall data of each of the seven meteorological divisions of the Province.

Abstract for week ending 26th October 1883.

METEOROLOGICAL DISTRICT.	TEMPERATURE.						RAINFALL.									
	Highest observed during week.	Lowest observed during week.	Average for week.			Average mean of week above or below normal mean week.	Of week.			Rainy days.			Since 1st of month.		Since May 15th.

As has been before stated, the past week has again been one of very deficient rainfall. During the first two days of the week light general rain fell in Behar, and on the following two days light general rain in Orissa, while at the same time a few local showers were reported from the other districts. The 24th instant was absolutely rainless over the whole Province, except for a very heavy fall of 4·96 inches, which was reported from Banpur in the Pooree district. After this day no rain has been reported from any station. In consequence therefore the whole Province on the average has received only about 30 per cent.

of the normal fall for the week. Taking up the meteorological districts, and expressing the amounts they have received in percentages of the normal fall, South Behar has received about 78 per cent. of its normal amount, and it is to be noticed that every station in this division received some rain during the week. Orissa has received 60 per cent. of the normal fall, and it would appear that only one or two stations have been totally without rain. North Behar has received 44 per cent. of the normal fall, and here twelve stations have received rain, while five stations have been rainless. South-West Bengal has received only 10 per cent of the normal fall, and while six stations have received rain, thirty-nine stations have again been perfectly rainless during the past week. Chutia Nagpur has also received only 10 per cent. of the normal fall, and here two stations report rain, as against six stations without rain. East Bengal has only received 5 per cent. of the normal fall, and while three stations report rain, twenty-one stations have been without rain altogether. North Bengal has also only received 5 per cent. of the normal fall and here six stations have received rain as against nineteen stations which have been rainless. The quantities of rain therefore which have fallen over the Province during the past week, except in the districts of Behar and Orissa, have been so small as to be of little practical value. This will be seen from the above table, where it is shown that the average rainfall at the stations in South-West Bengal during the past week has been only 0·06 inch, in Chutia Nagpur only 0·04 inch, and in East and North Bengal only 0·03 inch. The number of rainy days as shown in the above table in Behar and Orissa have been a little above the normal, but in all other districts the number is very considerably in defect.

Saturday, 20th October.—Pressure had increased largely in Chutia Nagpur and South Behar. It also increased considerably in North Behar, and to a smaller extent in South-West Bengal and Orissa. In East and North Bengal the changes were rather variable, and usually small. Pressure was above the normal in all districts. It was 0·16″ above the normal in North Behar, 0·1″ above in South Behar, 0·09″ above normal in Chutia Nagpur, about 0·06″ above it in East and South-West Bengal, and only 0·03″ above it in Orissa. Temperature fell rather briskly in Behar and Chutia Nagpur, and at some stations in North Bengal. The changes were smaller in the southern districts, but the tendency in all divisions was towards a lower temperature. Temperature was still above normal in Orissa and South-West Bengal, but was decidedly below it in North Behar, while in the remaining districts it was about normal. The north-westerly winds to-day extended their area of action, and were reported from the majority of stations in North and South Behar, North Bengal, South-West Bengal, and Orissa. North-easterly winds were reported from East Bengal and from Chutia Nagpur Wind velocities continued low over the whole Province. There was a decided increase in the humidity in Behar and Chutia Nagpur. In other divisions humidity was fairly low. The amount of cloud was very high over the whole of Behar and Chutia Nagpur, and was moderate in all other districts. Rain was to-day very general over the whole of Behar. A few showers also fell in Orissa, South-West and North Bengal, and Chutia Nagpur. The rainfall was as a rule light, though one or two heavy local showers occurred. The largest amounts reported were Kooshtea 1·59 inches, Jheuidah 1·0 inch, Bhabooah 0·7 inch, and Kendrapara 0·6 inch. In all other cases the amounts were less than half an inch.

Sunday, 21st October.—The changes of pressure were generally small and somewhat variable, though a fall had commenced in Behar and in East Bengal. Pressure was above the normal by small amounts, the excess averaging about 0·06″. Temperature had fallen somewhat rapidly at almost all stations, and was distinctly below the average in all districts. Temperature this morning was nearly 5° below the normal at Cuttack and Durbhunga, and 3° below it at Gya. Winds were generally north-easterly in Orissa and South-West Bengal, northerly in East Bengal, and north-westerly in North Bengal and North Behar. Wind velocities had distinctly increased, except in South Behar, and moderate winds were blowing. Humidity was fairly low in Orissa, South-West and East Bengal, but it had increased very rapidly in Behar. Cloud proportion had also increased rapidly over the whole Province, and in North Bengal, Behar, and Chutia Nagpur the sky was almost completely clouded over. Rain was again general in Behar, and a few showers were reported from Chutia Nagpur, North and East Bengal, and Orissa. The amounts, however, were in all cases small, the only stations receiving rather more than half an inch being Buxar, Bhubooah, Sasseram, Nowadah, Jehanabad, Begooserai, Jamui, and Monghyr.

Monday, 22nd October.—Pressure decreased over the greater part of the reporting area, the fall being largest in Chutia Nagpur and at some stations in South Behar. The distribution of pressure was a little irregular, but it was comparatively low at most stations in East Bengal and Orissa. In all districts, however, pressure was above the normal for the day, the excess ranging from 0·09″ in North Behar to almost 0·01″ in Orissa. Temperature continued to fall rapidly in Behar and Chutia Nagpur, but the changes in other districts were small. At Patna the mean temperature was 9° below the normal, while it was 7° below at Gya and Purneah, 5° below at Durbhunga, and nearly 4° at Hazaribagh. Temperature was also slightly below the normal in Orissa, South-West and East Bengal. Winds were generally northerly, though at two stations in South Behar south-westerly winds were still reported. Wind velocities had generally decreased. Humidity was moderate in most districts. The amount of cloud had decreased rapidly in Behar and Chutia Nagpur, but the sky was still moderately clouded in other divisions. To-day rainfall had almost entirely ceased in Behar, but it was rather general in Orissa. A few local showers also were reported from South-West and North Bengal. The only rainfalls of importance registered to-day

were 1·55 inches at Sorah, 0·94 inch at Jajpore, 0·70 inch at Kendrapara, 0·62 inch at Balasore, and 0·57 inch at Hookitollah.

Tuesday, 23rd October.—Pressure increased in all districts. The increase was largest in the northern divisions, and smallest usually at the southern stations Pressure was considerably above the normal, the average excess being about 0 08″, while it ranged from 0·15″ at Durbhunga to 0·05″ in East Bengal. Temperature had risen generally. It was still below the normal in all districts except Orissa. In South Behar it was 4° below the normal; in Chutia Nagpur, North Behar, and South-West Bengal it was between 2° and 3° below the normal; while in East Bengal it was 1° below the normal Winds were strongly north-easterly at most stations in Orissa, South-West Bengal, North Bengal, and Chutia Nagpur, while in North and South Behar winds were mainly westerly. Wind velocities had increased slightly. Humidity had rapidly decreased in Chutia Nagpur and South Behar. It was also decreasing, though to a smaller extent, in most other districts. The amount of cloud had also diminished rapidly, and the sky was almost perfectly cloudless in Behar, Chutia Nagpur, East Bengal, and at most other stations in South-West Bengal. A few light showers fell in Orissa, particularly in the Pooree district. With the exception of the showers in this division, and of a light shower at Buxa, the whole reporting area was rainless.

Wednesday, 24th October.—Pressure had diminished briskly over the whole Province. The decrease averaged about 0·06″, but was rather larger in East and North Bengal, and pressure was comparatively low in these districts. Notwithstanding this rapid decrease of pressure, it was still rather above the normal in all districts, except East and probably North Bengal, but the variations from normal pressure were not large. Temperature had again generally diminished in most districts, except North Bengal. It was still below the normal in all districts, except Orissa, where at False Point a slight excess temperature was reported. The average defect over the whole Province was about 2°. Moderately strong northerly winds were reported from all districts, except South Behar, where at a few stations south-westerly winds prevailed. In Behar and South-West Bengal the winds had a westerly tendency, but in most other districts the tendency was easterly. Humidity was diminishing generally, and was low in most districts, particularly in South Behar and Chutia Nagpur. The sky was almost cloudless in Chutia Nagpur, Behar, North and East Bengal, and at many stations in South-West Bengal, but it still remained somewhat clouded at Orissa and at the southern stations of South-West Bengal. The whole reporting area was to-day rainless, except for a very heavy shower of 4·96 inches which was reported from Banpur in the Pooree district.

Thursday, 25th October.—Pressure had increased by very small amounts in all divisions except South Behar. Pressure continued comparatively low in East Bengal, but was above the normal in all districts by amounts which ranged from 0·08″ at Durbhunga to 0·02″ at Chittagong, Burdwan, and Calcutta. Temperature continued to decrease at most stations, the decrease being rapid in South-West Bengal and some stations in Orissa. Temperature was decidedly below the normal in all districts, except East Bengal. Calcutta and Gya reported temperatures nearly 6° below the normal, and Purneah and False Point temperatures 4° below the normal. The defect at other stations was smaller. Minimum temperature at False Point on the night of the 24th was 10° lower than on the 23rd, while at Calcutta the fall was 7°. South-westerly winds continued in Behar, but in all other districts winds were northerly. Wind velocities continued moderate. Humidity was moderate over the whole reporting area. The sky was practically cloudless over the whole Province. The whole reporting area was to-day rainless.

Friday, 26th October.—Pressure had increased by very small amounts at the majority of stations, though a slight decrease was reported from a few stations in North Bengal, Chutia Nagpur, and East Bengal. Pressure was comparatively low in East Bengal, but was actually above the normal at all stations, the excess pressure ranging from 0·03″ at Calcutta to 0·1″ at Durbhunga. The changes of temperature were generally small and variable. It continued below the normal in all districts, the average defect being about 2°. Light northerly winds prevailed in all divisions, though at the westerly stations the directions were rather westerly, while at the easterly stations they were rather easterly. Wind velocities were small in all districts. Humidity was very low in Chutia Nagpur and at some stations in South Behar, South-West Bengal, and Orissa. At other stations humidity was moderate. The sky was almost cloudless at all the reporting stations. The whole reporting area was again to-day rainless.

METEOROLOGICAL OFFICE, BENGAL,
The 29th October 1883.

ALEXANDER PEDLER, F.C.S.,
Offg. Meteorological Reporter to the Govt. of Bengal.

MEMORANDA.

THE returns of the first class Municipalities in Bengal for the week ending 6th October 1883 disclose the following particulars:—

(1) That births and deaths were registered at the rates respectively of 23·5 and 28·7 per 1,000 of population, as opposed to 26·9 and 31 4 per 1,000 in the preceding week ending 29th September.

(2) That the highest proportions of births and deaths were returned from the undermentioned Municipalities:—

Births.

	Ratio per mille.
Gya ..	.. 47·1
Serampore ..	.. 43 2
Narainganj ..	.. 37·3
Bhagulpore ..	.. 35·3
Patna ..	.. 30·5

Deaths.

	Ratio per mille.
Gya ..	.. 62·2
Burdwan ..	.. 53·4
Hughli .	.. 40·3
Bhagulpore ..	.. 39·8
Patna ..	.. 38·3
Jessore ..	.. 36·7
Suburbs of Calcutta	.. 36 2
Midnapore ..	.. 29 4
Santipore ..	.. 28·0
Serampore ..	.. 27·5
Poori ..	.. 25·7

(3) That the mortality from the chief death-causes stood as follows:—

	Ratio per mille during the weeks ending—	
	6th October.	29th September.
Cholera	.. 2·5	3·2
Small-pox	.. ·1	·1
Fevers	.. 13·1	14·5
Bowel-complaints	.. 4·9	4·2
Injury	.. ·7	·9
Other causes	.. 7·4	8·5

indicating that, with no variation in the mortality from small-pox, there was a decline in fatality from all the other death-causes, except bowel-complaints, the mortality from which exhibits a fractional increase.

(4) That while the fatality from small-pox and injury was nowhere high, the Municipalities named below were reported to have returned the highest death-rates from the rest of the diseases indicated in the above table—

Cholera.

	Ratio per mille.
Hughli ..	12·1
Gya ..	8·9
Suburbs of Calcutta	5·2
Mozufferpore ..	3·7

Fever.

	Ratio per mille.
Jessore ..	36·7
Burdwan ..	33·5
Gya ..	28·0
Santipore ..	23 7
Hughli ..	21·5
Purneah ..	20·7

Bowel-complaints.

	Ratio per mille.
Midnapore	10·8
Patna	9·4
Burdwan	9·2
Bhagulpore	9 0
Gya	8·9

Other causes.

	Ratio per mille.
Poori ..	17·1
Gya ..	16·4
Dacca ..	13·0
Bhagulpore ..	12·7
Serampore ..	11·8
Suburbs of Calcutta	11 0
Burdwan ..	9·2

(5) That the mortality with reference to *Sex*, *Class* and *Age* stands as follows:—

According to Sex.

	Ratio per mille.
Males ..	31·1
Females ..	25 9

According to Class.

	Ratio per mille.
Christians ..	28 3
Hindus ..	29·7
Mahomedans ..	26·4

According to Age.

	Ratio per mille.
Under 1 year ..	230·5
1 and under 5 years ..	32·6
5 and under 10 ,, ..	17·0
10 and under 15 ,, ..	12·2
15 and under 20 ,, ..	18·8
20 and under 30 ,, ..	12·2
30 and under 40 ,, ..	17·6
40 and under 50 ,, ..	24·7
50 and under 60 ,, ..	28·6
60 years and upwards ..	67·2

F. W. A. DEFABECK,

The 29th October, 1883. *Officiating Sanitary Commissioner for Bengal.*

Statement showing the Results of the Registration of Births and Deaths in the First Class Municipalities in Bengal during the week ending 6th October 1883.

OFFICE OF SANITARY COMMISSIONER FOR BENGAL,
The 29th October 1883.

F. W. A. DEFABECK,
Offg. Sanitary Commissioner for Bengal.

MEMORANDA.

THE subjoined table presents the vital statistics of the first class Municipalities in Bengal for the week ending 13th October 1883. The results to be gathered from it are the following :—

(1) That births and deaths were recorded at the rates respectively of 24·8 and 28·8 per 1,000 of population, against 23·5 and 28·7 per 1,000 respectively in the preceding week ending 6th October.

(2) That the Municipalities which returned the highest birth and death rates were—

Births.	Ratio per mille.	*Deaths.*	Ratio per mille.
Serampore	47·1	Ranaghat	53·8
Bhagulpore	47·1	Gya	50·6
Gya	45·1	Burdwan	50·4
Durbhanga	39·3	Jessore	42·8
Arrah	35·9	Poori	40·7
Chuprah	32·2	Suburbs of Calcutta ...	39·7
Midnapore	31·0	Serampore	39·3
Jessore	30·6	Hughli	37·6
		Bhagulpore	36·2
		Narainganj	29·0
		Patna	28·5
		Midnapore	26·3

(3) That the mortality from the several death-causes stood as follows, as compared with that in the preceding week :—

	Ratio per mille during the weeks ending—	
	13th October.	6th October.
Cholera	3·6	2·5
Small-pox	·1	·1
Fevers	12·6	13·1
Bowel-complaints	3·7	4·9
Injury	·7	·7
Other causes	8·1	7·4

The above figures indicate that there was an increase of mortality from cholera and those diseases classed under the head of "other causes;" a decrease from fever and bowel complaints; and equal death-rates from small-pox and injury.

(4) That of the above-mentioned causes of death, while small-pox was fatal in only the Dacca town at the rate of 1·3 per 1,000 of its population, and bowel-complaints and injury proved nowhere very severe, the rest of the diseases caused the highest mortality in the following Municipalities :—

Cholera.	Ratio per mille.	*Fever.*	Ratio per mille.	*Other causes.*	Ratio per mille.
Hughli ..	20·1	Ranaghat ..	47·9	Poori ..	23·6
Burdwan ..	10·7	Jessore ..	42·8	Serampore ..	19·6
Suburbs of Calcutta	7·9	Burdwan ..	25·9	Narainganj ..	16·5
Serampore ..	5·9	Gya ..	21·9	Gya ..	16·4
Howrah ..	5·4	Midnapore ..	20·1	Suburbs of Calcutta	12·4
Mozufferpore ..	4·9			Burdwan ..	10·7
Gya ..	4·8			Dacca ..	10·4
Bhagulpore ..	3·6			Arrah ..	9·6
				Bhagulpore ..	9·1

(5) That the mortality of the week distributed under the heads of *Sex*, *Class* and *Age* stands as noted below :—

According to Sex.	Ratio per mille.	*According to Class.*	Ratio per mille.	*According to Age.*	Ratio per mille.
Males ..	31·5	Christians ..	28·3	Under 1 year ..	276·9
Females ..	25·7	Hindus ..	31·2	1 and under 5 years ..	27·9
		Mahomedans ..	23·4	5 and under 10 „ ..	23·3
				10 and under 15 „ ..	12·6
				15 and under 20 „ ..	17·8
				20 and under 30 „ ..	19·1
				30 and under 40 „ ..	18·7
				40 and under 50 „ ..	23·5
				50 and under 60 „ ..	33·5
				60 years and upwards ..	49·3

F. W. A. DEFABECK,
Offg Sanitary Commissioner for Bengal.

The 29th October 1883.

Statement showing the Results of the Registration of Births and Deaths in the First Class Municipalities in Bengal during the week ending 13th October 1883.

The mean pressure, temperature, &c., are deduced from the traces of the Barograph and Thermograph, and from observations made at 6h., 10h., 16h., and 22h.

The maximum and minimum temperatures are obtained from self-registering thermometers. All the thermometers are verified, and the readings have been corrected to a standard constructed and verified at the Kew Observatory. They are exposed under a thatched shed open at the sides, and are suspended four feet above the ground.

The barometer readings are corrected approximately to those of the standard Newman's No 86 formerly at the Surveyor-General's Office.

The hygrometric elements are obtained from Tables III, IV, and V of the official tables computed in the Meteorological office, and based on Regnault's modifications of August's formula.

The direction of the movement of the wind are taken from the trace of a Beckley's anemograph.

The mouth of the rain-gauge is one foot above the ground.

o overcast, ⌓ dew.

HENRY F. BLANFORD,
Meteorological Reporter to the Government of India.

METEOROLOGICAL OFFICE, INDIA,

GENERAL REMARKS AND EXPLANATIONS.

In dealing with the results of the present month's traffic, two important points have to be remembered, viz. that the decreases in the despatches of jute continue, and that comparison is being made with a bumper month of a bumper season last year. Notwithstanding this, it is encouraging to have to record an increase of 5·74 per cent. on the results of the same month last year. This increase, though small, is worthy of note, as it shows that the results of the working of the season is not entirely dependent on the jute crop.

The gross weight lifted of all staples is 17,554·41 tons against 16 600·03 tons in September 1882. The principal increases are in Food-grain, Gunny-bags, Piece-goods, Salt, Tea Tobacco, and "All other goods." The principal decrease is in Jute. Below will be found remarks explanatory of the various fluctuations which have taken place.

Increases.

Ale ... ... Tons 7·01

This increase is apparently only temporary and is not likely to be kept up during the ensuing months, unless more briskness is evinced in sending forward public consignments.

Food-grain .. .. Tons 652 99

The upwards and downwards traffic both contribute to this increase The former is no doubt due to the reduction introduced from 1-t July, and the latter the better prices ruling in the Calcutta market.

Gunny-bags ... ... Tons 153·34

Though there has been very little enquiry, consignments of this article are being sent forward to be available for a rise.

Piece-goods ... ... Tons 442·33

As anticipated this traffic recovered its vitality to meet poojah requirements.

Railway material ... . Tons 41·89

This traffic is as usual made up of stores for the extension and coal for the Locomotive Department.

Salt ... ... Tons 302·32

This increase will help to lessen the heavy falling off under this head recorded last month.

Tea ... ... Tons 136 25

Prices and demand both continue good at Calcutta.

Tobacco ... . Tons 579·52

Both Pulu and Bispat are in good demand, and advantage is naturally being taken of it.

Other goods ... ... Tons 587·08

The miscellaneous traffic carried under this head appears to be recovering from the depression experienced in the early months of the year.

Decreases.

Ginger ... ... Tons 15·65

The season for this traffic has not yet set in.

Jute ... . Tons 1827·22

This decrease is not as large as that recorded last month. This is no doubt due to the strong upward tendency of Calcutta prices during the month, quotations actually closing at an advance of 5 to 6 annas.

Sugar ... . Tons 106·28

Both the import and export traffic in this staple is almost at a standstill.

Traffic Superintendent's Office; *Saidpur, the 16th October* 1883. G. S. Leonard, *Traffic Superintendent.*

Increase. Tons.

Coal 100

This increase is due to greater quantity of coal being required for the working of the mills at Canning.

Rice 713

This increase is due to the working of the rice-mills at Canning on an extensive scale.

Building materials 790

This increase is due to materials for the extension.

Straw 133

This increase is due to greater demand at the selling stations

Decrease.

Railway materials 344

This decrease is due to workings on the extension coming to a close.

Sundries 155

This decrease is due to the works on the extension coming to a close.

Calcutta, the 25th October 1883. R. G. Mookerjee, *Manager.*

Increase. Tons.

Edible grain 59

The prospect of the paddy crops is favourable, hence the villagers of Sagordighi, &c., bring rice at Azimgunge market for sale.

Seeds 69

Messrs. Sutherland and Co. of Cawnpore entered into a contract to supply a larger quantity of indigo seed to the planters of this district.

Sundries 55

The increase is due to the greater import by merchants on account of Doorga Poojah holiday.

Coal 181

This increase is due to some silk merchants having arranged to bring their coal by rail instead of by boat.

Decrease.

Salt 19

This has taken river route.

PART V.

Acts of the Governor General's Council assented to by the Governor General.

GOVERNMENT OF INDIA.

LEGISLATIVE DEPARTMENT.

[Third publication.]

The following Act of the Governor General of India in Council received the assent of His Excellency the Governor General on the 4th October, 1883, and is hereby promulgated for general information :—

ACT No. XVI OF 1883.

An Act for the protection of Inventions exhibited in the Exhibitions of India.

WHEREAS it is expedient that such protection as is hereinafter mentioned should be afforded to the inventors of new manufactures who are desirous of exhibiting them at Exhibitions to be held in India; It is hereby enacted as follows :—

Short title. Commencement.

1. *(1)* This Act may be called the Protection of Inventions Act, 1883;

(2) And it shall come into force at once.

Act to be read with Act XV of 1859.

2. It shall be read with, and taken as part of, Act XV of 1859 (*for granting exclusive privileges to inventors*).

Inventions exhibited when to be deemed new though publicly used or made publicly known.

3. If, within six months from the time of the opening of an Exhibition, a person, being the inventor and exhibitor of any manufacture exhibited at that Exhibition, petitions the Governor General in Council, under Act XV of 1859, for leave to file a specification of his invention, the circumstance that the invention has at any time after the opening of the Exhibition been publicly used or made publicly known shall not prevent the invention being deemed to have been at the time of presenting the petition a new invention for the purposes of the said Act.

Meaning of term "Exhibition."

4. In this Act, "Exhibition" means the International Exhibition to be held in the years one thousand eight hundred and eighty-three and one thousand eight hundred and eighty-four at Calcutta, and any Exhibition to be held in India which the Governor General in Council may, on the application of any persons desirous of holding the Exhibition, by notification in the *Gazette of India*, declare to be, in the judgment of the Governor General in Council, calculated to promote Indian art or industry, and to prove beneficial to the mercantile, agricultural or industrial classes of Her Majesty's subjects in India.

The following Act of the Governor General of India in Council received the assent of His Excellency the Governor General on the 4th October, 1883, and is hereby promulgated for general information:—

ACT No. XVII OF 1883.

An Act to amend the Native Passenger Ships Act, 1876.

VIII of 1876.

WHEREAS it is expedient to amend the Native Passenger Ships Act, 1876, with a view to provide for the better regulation of the passenger-traffic between British India and ports in the Red Sea; It is hereby enacted as follows:—

Short title.

1. *(1)* This Act may be called the Native Passenger Ships Act, 1883; and

Commencement.

(2) It shall come into force on such day as the Governor General in Council directs by notification in the *Gazette of India*.

VIII of 1876.

Addition to section 11 of the Native Passenger Ships Act, 1876.

2. After clause (*e*) of section eleven of the Native Passenger Ships Act, 1876, the following clause shall be added:—

"(*ee*) in the case of any ship sailing to any port in the Red Sea, that she is propelled principally by steam, and, if she is carrying more than one hundred passengers being Natives of Asia or Africa, that she has on board a medical officer licensed in accordance with rules made under this Act."

Substitution of new section for section 26 of same Act.

3. For section twenty-six of the same Act the following section shall be substituted:—

Bond where ship clears for port in Red Sea.

"26. In the case of every ship sailing from any port in British India to any port in the Red Sea, the officer whose duty it is to grant a port-clearance for any such ship shall not grant the clearance unless and until the owner, agent or master of the ship and two sureties resident in British India have executed in favour of the Secretary of State for India in Council a joint and several bond, for the sum of Rs. 5,000, conditioned—

"(*a*) that the ship shall touch at Aden on the outward voyage and there obtain a clean bill of health, and shall do the same on the homeward voyage if the ship continues to carry more than sixty passengers; and

"(*b*) that the master and medical officer (if any) of the ship shall comply with on the outward voyage, and also on the homeward voyage if the ship continues to carry more than sixty passengers, the provisions of this Act and of such rules relating to ships sailing between ports in British India and ports in the Red Sea as the Governor General in Council may, from time to time, make under section forty-six."

Amendment of section 27 of same Act.

4. In section twenty-seven of the same Act, for the word "thirty" the word "sixty" shall be substituted.

Addition to section 28 of same Act.

5. To section twenty-eight of the same Act the following words shall be added:—"and the authority empowered to grant the same may refuse to grant a bill of health in the case of any ship on board of which the requirements of the rules made under section forty-six are not complied with."

Addition of new sections after section 28 of same Act.

6. After section twenty-eight of the same Act the following sections shall be added:—

Certain ships to carry medical officer.

"28A. Every ship sailing from or to any port in British India to or from any port in the Red Sea and carrying more than one hundred passengers being Natives of Asia or Africa shall have on board a medical officer licensed in accordance with rules made under this Act.

Certain ships to be propelled by steam.

"28B. Every ship sailing from or to any port in British India to or from any port in the Red Sea shall be propelled principally by steam.

Power for Local Government to direct medical inspection of passengers.

"28C. *(1)* The Local Government may, from time to time, direct that no passenger shall be received on board any ship or any ship of a specified class sailing from any port in British India to any port in

the Red Sea unless and until he has been inspected, at such time and place as the Local Government may fix in this behalf, by a medical officer to be appointed by the Local Government in this behalf.

"(2) If, in the opinion of the officer making an inspection under this section, a passenger is suffering from any dangerously infectious or contagious disease, the passenger shall not be permitted to embark."

Addition of new sections after section 38 of same Act.

7. After section thirty-eight of the same Act the following sections shall be added:—

"38A. If the master of any such ship as is referred to in section twenty-seven, or any medical officer in charge of any such ship, wilfully breaks, or omits or neglects to obey, any rule with regard to those ships made under section forty-six, he shall be punished with fine which may extend to five hundred rupees or with imprisonment for a term which may extend to three months, or with both.

Penalty on master or medical officer of certain ships disobeying rules.

"38B. If any ship sailing from or to any port in British India to or from any port in the Red Sea and carrying more than one hundred passengers has not on board a medical officer as required by section 28A, the master of the ship shall be punished with fine which may extend to five hundred rupees, or with imprisonment for a term which may extend to three months, or with both.

Penalty on master of certain ships sailing without medical officer.

"38C. If any ship sailing from or to any port in British India to or from any port in the Red Sea is not principally propelled by steam, the owner and master shall each be punished with fine which may extend to five hundred rupees or with imprisonment which may extend to three months, or with both.

Penalty on owner and master of certain ships not propelled by steam.

"38D. If the master of any ship, while a direction under section 28C is in force, knowingly receives on board his ship any person in contravention of that section or of the direction, he shall be punished with imprisonment which may extend to three months, or with fine which may extend to five hundred rupees for each person so received, or with both."

Penalty on master receiving passenger in contravention of section 28C.

8. After clause (*b*) of section forty-six of the same Act the following clause shall be added:—

Additions to section 46 of same Act.

"(*bb*) the licensing and appointment of medical officers in cases where they are required, under this Act, to be carried;"

and after clause (*e*) of the same section the following clauses shall be added:—

"(*ee*) the functions of the master, medical officer (if any) and other officers of the ship during the voyage;

"(*eee*) the access of intermediate or between decks passengers to the upper deck."

New section added to same Act.

9. To the same Act the following section shall be added, namely:—

"50. The Local Government may, from time to time, with the previous sanction of the Governor General in Council, for any special reason and subject to such conditions as it thinks fit, exempt any ship or class of ships from any provision of this Act.

Power to exempt ship from provisions of Act.

D. FITZPATRICK,
Secretary to the Government of India.

GOVERNMENT OF INDIA.

LEGISLATIVE DEPARTMENT.

[Second publication.]

The following Act of the Governor General of India in Council received the assent of His Excellency the Governor General on the 11th October, 1883, and is hereby promulgated for general information :—

ACT No. XVIII OF 1883.

An Act to amend the Cattle-trespass Act, 1871.

WHEREAS it is expedient to amend the Cattle-trespass Act, 1871; It is hereby enacted as follows :— I of 1871.

Power for Local Government to transfer functions of District Magistrate or Local Government to local authority and direct that surplus receipts be credited to local fund.

1. The Local Government may, from time to time, by order notified in the local official Gazette—

(*a*) transfer to any local authority, within any part of the territories under its administration in which the Cattle-trespass Act, 1871, is in operation, all or any of the functions of the Local Government or the Magistrate of the district under that Act, within the local area subject to the jurisdiction of the local authority ; or I of 1871.

(*b*) direct that the whole or any part of the surplus accruing in any district under section eighteen of that Act shall be placed to the credit of such local fund or funds as may be formed for any local area or local areas comprised in that district ;

and may, from time to time, in like manner, cancel any order made under this section.

Definitions.

2. In this Act—

"local authority" means any body of persons for the time being invested by law with the control and administration of any matters within a specified local area ; and

"local fund" means any fund under the control or management of a local authority.

D. FITZPATRICK,
Secy. to the Govt. of India.

GOVERNMENT OF INDIA.

LEGISLATIVE DEPARTMENT.

[Second publication.]

The following Act of the Governor General of India in Council received the assent of His Excellency the Governor General on the 12th October, 1883, and is hereby promulgated for general information:—

ACT No. XIX OF 1883.

An Act to consolidate and amend the law relating to loans of money by the Government for agricultural improvements.

WHEREAS it is expedient to consolidate and amend the law relating to loans of money by the Government for agricultural improvements; It is hereby enacted as follows:—

Short title. Local extent. Commencement.

1. *(1)* This Act may be called the Land Improvement Loans Act, 1883.

(2) It extends to the whole of British India, but shall not come into force in any part of British India until such date as the Local Government, with the previous sanction of the Governor General in Council, may, by notification in the local official Gazette, appoint in this behalf.

XXVI of 1871.

Acts XXVI of 1871 and XXI of 1876 repealed.

2. *(1)* The Land Improvement Act, 1871, and Act XXI of 1876 *(an Act to amend the Land Improvement Act, 1871,)* shall, except as regards the recovery of advances made before this Act comes into force and costs incurred by the Government in respect of such advances, be repealed.

(2) When in any Act, Regulation or notification, passed or issued before this Act comes into force, reference is made to either of those Acts, the reference shall, so far as may be practicable, be read as applying to this Act or the corresponding part of this Act.

"Collector" defined.

3. In this Act, "Collector" means the Collector of land-revenue of a district, or the Deputy Commissioner, or any officer empowered by the Local Government by name or by virtue of his office to discharge the functions of a Collector under this Act.

Purposes for which loans may be granted under this Act.

4. *(1)* Subject to such rules as may be made under section ten, loans may be granted under this Act, by such officer as may, from time to time, be empowered in this behalf by the Local Government, for the purpose of making any improvement, to any person having a right to make that improvement, or, with the consent of that person, to any other person.

(2) "Improvement" means any work which adds to the letting value of land, and includes the following, namely:—

(*a*) the construction of wells, tanks and other works for the storage, supply or distribution of water for the purposes of agriculture, or for the use of men and cattle employed in agriculture;

(*b*) the preparation of land for irrigation;

(*c*) the drainage, reclamation from rivers or other waters, or protection from floods or from erosion or other damage by water, of land used for agricultural purposes or waste-land which is culturable;

(*d*) the reclamation, clearance, enclosure or permanent improvement of land for agricultural purposes;

(*e*) the renewal or reconstruction of any of the foregoing works, or alterations therein or additions thereto, and

(*f*) such other works as the Local Government, with the previous sanction of the Governor General in Council, may, from time to time, by notification in the local official Gazette, declare to be improvements for the purposes of this Act.

Mode of dealing with applications for loans.

5. *(1)* When an application for a loan is made under this Act, the officer to whom the application is made may, if it is, in his opinion, expedient that public notice be given of the application, publish a notice, in such manner as the Local Government may, from time to time, direct, calling upon all persons objecting to the loan to appear before him at a time and place fixed therein and submit their objections.

(2) The officer shall consider every objection submitted under sub-section *(1)*, and make an order in writing either admitting or overruling it:

Provided that, when the question raised by an objection is, in the opinion of the officer, one of such a nature that it cannot be satisfactorily decided except by a Civil Court, he shall postpone his proceedings on the application until the question has been so decided.

Period for repayment of loans.

6. *(1)* Every loan granted under this Act shall be made repayable by instalments (in the form of an annuity or otherwise), within such period from the date of the actual advance of the loan, or, when the loan is advanced in instalments, from the

date of the actual advance of the last instalment, as may, from time to time, be fixed by the rules made under this Act.

(2) The period fixed as aforesaid shall not ordinarily exceed thirty-five years.

(3) The Local Government and Governor General in Council, in making and sanctioning the rules fixing the period, shall, in considering whether the period should extend to thirty-five years or whether it should extend beyond thirty-five years, have regard to the durability of the work for the purpose of which the loan is granted, and to the expediency of the cost of the work being paid by the generation of persons who will immediately benefit by the work.

Recovery of loans.

7. *(1)* Subject to such rules as may be made under section ten, all loans granted under this Act, all interest (if any) chargeable thereon, and costs (if any) incurred in making the same, shall, when they become due, be recoverable by the Collector in all or any of the following modes, namely :—

(*a*) from the borrower—as if they were arrears of land-revenue due by him;

(*b*) from his surety (if any)—as if they were arrears of land-revenue due by him;

(*c*) out of the land for the benefit of which the loan has been granted—as if they were arrears of land-revenue due in respect of that land;

(*d*) out of the property comprised in the collateral security (if any)—according to the procedure for the realization of land-revenue by the sale of immoveable property other than the land on which that revenue is due:

Provided that no proceeding in respect of any land under clause (*c*) shall affect any interest in that land which existed before the date of the order granting the loan, other than the interest of the borrower, and of mortgagees of, or persons having charges on, that interest, and, where the loan is granted under section four with the consent of another person, the interest of that person, and of mortgagees of, or persons having charges on, that interest.

(2) When any sum due on account of any such loan, interest or costs is paid to the Collector by a surety or an owner of property comprised in any collateral security, or is recovered under sub-section *(1)* by the Collector from a surety or out of any such property, the Collector shall, on the application of the surety or the owner of that property (as the case may be), recover that sum on his behalf from the borrower, or out of the land for the benefit of which the loan has been granted, in manner provided by sub-section *(1)*.

(3) It shall be in the discretion of a Collector acting under this section to determine the order in which he will resort to the various modes of recovery permitted by it.

Order granting loan conclusive on certain points.

8. A written order under the hand of an officer empowered to make loans under this Act granting a loan to, or with the consent of, a person mentioned therein, for the purpose of carrying out a work described therein, for the benefit of land specified therein, shall, for the purposes of this Act, be conclusive evidence—

(*a*) that the work described is an improvement within the meaning of this Act;

(*b*) that the person mentioned had at the date of the order a right to make such an improvement; and

(*c*) that the improvement is one benefiting the land specified.

Liability of joint borrowers as among themselves.

9. When a loan is made under this Act to the members of a village-community or to any other persons on such terms that all of them are jointly and severally bound to the Government for the payment of the whole amount payable in respect thereof, and a statement showing the portion of that amount which as among themselves each is bound to contribute is entered upon the order granting the loan and is signed by each of them and by the officer making the order, that statement shall be conclusive evidence of the portion of that amount which as among themselves each of those persons is bound to contribute.

Power to make rules.

10. The Local Government, with the previous sanction of the Governor General in Council, may, from time to time, by notification in the local official Gazette, make rules consistent with this Act to provide for the following matters, namely :—

(*a*) the manner of making applications for loans;

(*b*) the officers by whom loans may be granted;

(*c*) the manner of conducting inquiries relative to applications for loans, and the powers to be exercised by officers conducting those inquiries;

(*d*) the nature of the security to be taken for the due application and repayment of the money, the rate of interest at which, and the conditions under which, loans may be granted, and the manner and time of granting loans;

(*e*) the inspection of works for which loans have been granted;

(*f*) the instalments by which, and the mode in which, loans, the interest to be charged on them and the costs incurred in the making thereof, shall be paid;

(*g*) the manner of keeping and auditing the accounts of the expenditure of loans and of the payments made in respect of the same; and

(*h*) all other matters pertaining to the working of the Act.

Exemption of improvements from assessment to land revenue.

11. When land is improved with the aid of a loan granted under this Act, the increase in value derived from the improvement shall not be taken into account in revising the assessment of land-revenue on the land:

Provided as follows :—

(1) Where the improvement consists of the reclamation of waste-land, or of the irrigation of land assessed at unirrigated rates, the increase may be so taken into account after the expiration of such period as may be fixed by rules to be framed

by the Local Government with the approval of the Governor General in Council.

(2) Nothing in this section shall entitle any person to call in question any assessment of land-revenue otherwise than as it might have been called in question if this Act had not been passed.

III of 1877.

12. *(1)* In the Indian Registration Act, 1877, section 17, clause *(i)*, for the word "certificates" the words "orders granting loans" shall be substituted.

Act III of 1877 amended.

(2) In the same Act, section 58, for the words "a certificate" the words "an order" shall be substituted.

(3) In the same Act, section 89, first clause,—

(*a*) for the words "a certificate" the words "a loan," and

(*b*) for the words "such certificate" the words "his order,"

shall be substituted.

D. FITZPATRICK,

PART VI.

Bills introduced into the Council of the Governor General for making Laws and Regulations, or published under Rule 22.

GOVERNMENT OF INDIA.

LEGISLATIVE DEPARTMENT.

[Third publication.]

The following Bill was introduced into the Council of the Governor General of India for the purpose of making Laws and Regulations on the 4th October, 1883, and was referred to a Select Committee:—

No. 21 OF 1883.

A Bill to amend the Legal Practitioners Act, 1879, and the Indian Stamp Act, 1879.

WHEREAS it is expedient to amend the Legal Practitioners Act, 1879, in manner in this Act appearing; XVIII of 1879.

And whereas it is also expedient to amend the Indian Stamp Act, 1879, in so far as it relates to the duty chargeable on the enrolment of legal practitioners; 1 of 1879.

It is hereby enacted as follows:—

Short title. **1.** (*1*) This Act may be called the Legal Practitioners Act, 1883; and

Commencement. (*2*) It shall come into force at once.

Amendment of section 4 of Act XVIII of 1879. **2.** In section 4 of the Legal Practitioners Act, 1879, for the words "as an advocate on the roll of the Chief Court of the Panjáb" the words "under section 41 of this Act" shall be substituted. XVIII of 1879.

Addition of a proviso to section 13 of same Act. **3.** To section 13 of the same Act the following proviso shall be added:—

"Provided that in any case in which the party on whose behalf any such pleader as aforesaid is retained is—

(*a*) a pardánashín woman, or

(*b*) unable for any sufficient cause to instruct the pleader in person,

the High Court shall not suspend or dismiss the pleader because he has taken instructions from a relative of the party deputed by him or her to instruct the pleader."

New section substituted for section 41 of same Act. **4.** For section 41 of the same Act the following section shall be substituted, namely:—

Power for certain High Courts to enrol advocates. "41. (*1*) A High Court not established by Royal Charter may, from time to time, with the previous sanction of the Local Government, make rules as to the qualifications and admission of proper persons to be advocates of the Court, and, subject to such rules, may enrol such and so many advocates as it thinks fit.

(*2*) Every advocate so enrolled shall be entitled to appear for the suitors of the Court and to plead or to act, or to plead and act, for those suitors, according as the Court may by its rules determine, and subject to those rules.

"(*3*) The High Court may dismiss any advocate so enrolled or suspend him from practice:

"(*4*) Provided that an advocate shall not be dismissed or suspended under this section unless he has been allowed an opportunity of defending himself before the High Court which enrolled him, and, except in the case of the Chief Court of the Panjáb, unless the order of the High Court dismissing or suspending him has been confirmed by the Local Government."

New section added to same Act. **5.** To the same Act the following section shall be added, namely:—

Repeal of Acts I of 1846 and XX of 1853. "42. Act I of 1846 (*for amending the law regarding the appointment and remuneration of pleaders in the Courts of the East India Company*) and Act XX of 1853 (*to amend the law relating to pleaders in the Courts of the East India Company*) are repealed."

Amendment of Schedules I & II of Act I of 1879. (Duty on enrolment of advocates.) **6.** In Article 27 of Schedule I of the Indian Stamp Act, 1879, the words "in exercise of powers conferred on such Court by letters patent," and in clause (*a*) of Article 11 of Schedule II of the same Act, the words "established by Royal Charter" are repealed. I of 1879.

STATEMENT OF OBJECTS AND REASONS.

THE object of this Bill is to amend the Legal Practitioners Act, 1879, in certain respects in which experience has shown that the existing law is defective.

2. Section 13 of the Legal Practitioners Act, 1879, contains a provision that the High Court may suspend or dismiss any pleader who takes instructions in any case except from the party on whose behalf he is retained, or from a private servant of such party, or from some person who is the recognized agent of such party within the meaning of the Code of Civil Procedure. It has been brought to the notice of the Government that the practical operation of this provision is in certain cases attended with inconvenience to litigants and pleaders. In litigation in which pardánashín women are concerned, instructions must often, as a matter of necessity, be given through their near relatives. Again, there are cases in which male litigants, who have not the means of employing private servants, are unable from various causes, such as physical incapacity or old age, to instruct their pleaders in person. In such cases it seems right to allow the relatives of the litigants to instruct pleaders on their behalf. Section 3 of the Bill accordingly adds a proviso to section 13 of the Act enabling pleaders to take instructions from a relative of the party deputed by him or her to instruct the pleader when the party is a pardánashín woman or unable for any sufficient cause to instruct the pleader in person.

3. Under the Legal Practitioners Act, 1879, an advocate not ordinarily practising in his own province must, if he wishes to practise in such a province as the Central Provinces, for example, where the Judicial Commissioner has at present no power of enrolling advocates, first enrol himself as a pleader. As this state of the law is felt by certain persons to be a grievance, a new section has been added to the Act, empowering all High Courts not established by Royal Charter to enrol advocates as the Chief Court of the Panjáb is at present empowered to enrol them. As the power of suspension or removal would, except in the case of the Panjáb Chief Court, be vested in a single officer if it were conferred absolutely on the High Court, it has been thought well to make every order by any High Court, other than the Panjáb Chief Court, suspending or removing an advocate subject to confirmation by the Local Government.

4. The new section 42, which section 5 of the Bill adds to the Act, provides for the repeal of Acts I of 1846 and XX of 1853 in all places to which that section may be extended. The Madras High Court has noticed that these Acts have not as yet been expressly repealed in that Presidency, though a great portion of the Legal Practitioners Act, 1879, has been brought into operation there. These Acts are, it is believed, already repealed in all the provinces to which the Legal Practitioners Act, 1879, extends *proprio vigore*; but it is possible that they may be still unrepealed in some of the other provinces to which that Act has either already been or may hereafter be extended under the power conferred by its first section. The new section 42, taken with the first section of the Legal Practitioners Act, will enable the Local Government of any such province to repeal these Acts if still in force in it.

5. Lastly, section 6 of the Bill amends article 27 of schedule I and article 11 of schedule II of the Indian Stamp Act, 1879, by omitting the words which confine their operation to advocates of the chartered High Courts. As section 41 of the Legal Practitioners Act, 1879, empowers the Chief Court of the Panjáb to enrol advocates, and as the Bill will confer similar powers on the other non-chartered High Courts, the words in question are, as represented by the North-Western Provinces High Court, out of place, so far as advocates are concerned, and should therefore be omitted.

C. P. ILBERT.

The 19th September, 1883.

D. FITZPATRICK,
Secretary to the Government of India.

GOVERNMENT OF INDIA.

LEGISLATIVE DEPARTMENT.

[Second publication.]

The following Bill was introduced into the Council of the Governor General of India for the purpose of making Laws and Regulations on the 10th October, 1883, and was referred to a Select Committee:—

No. 22 OF 1883.

A Bill to amend the Indian Ports Act, 1875.

WHEREAS it is expedient to amend section 47 of the Indian Ports Act, 1875, so as to provide that the pensions or gratuities (if any) of persons employed in any port under that Act shall be charged to the Port Fund account of the port; It is hereby enacted as follows:—

XII of 1875.

Amendment of section 47 of the Indian Ports Act, 1875.

1. In the fourth paragraph of section 47 of the said Act, for the words "All expenses, including the pay and allowances of all persons upon the establishment of the port" the words "All expenses, including the pay, allowances, pensions and gratuities (if any) of all persons employed in the port" shall be substituted.

STATEMENT OF OBJECTS AND REASONS.

It has recently been ruled by the Government of India in the Finance Department that service in establishments paid from port funds managed by the Government is qualifying service for pension, provided that the port fund pays for such service. It has now been brought to notice by the Government of Bombay that section 47 of the Indian Ports Act, 1875, which regulates the accounts of port-dues, does not authorize provision for pensioning employés either by investment of part of the port funds, or by the purchase of pensions from Government, or otherwise. As it seems to the Government that, when it administers a port fund, it should have the power of ordering the payment of pensions out of that fund, the present Bill, which modifies section 47 of the Indian Ports Act so as to give the Government the desired powers, has been prepared.

C. P. ILBERT.

The 10th October, 1883.

D. FITZPATRICK,
Secretary to the Government of India.

BOOKS—continued.									
1883.	Pages.					Rs. A P.			
April 10th	36	12mo ...	1st ...	489	Printed	0 4 0	Upendra Krishna Gupta.	A Bengali gentleman leaves home for service at a distant place, entrusting the management of his family and the nursing of his aged parents to his young wife by a second marriage. The latter, in her anxiety to save money for herself and her own parents, subjects her father-in-law and mother-in-law to serious privations in respect of food and other necessaries, and thereby endangers their lives. The object of the author is to warn his countrymen against the folly and danger of marrying a second wife, after the death of the first, inasmuch as second wives are generally found to play the *role* of absolute despots in their families in defiance of all who are above them in rank.	2036
Mar. 21st	48	8vo ...	1st ...	1,000	ditto ...	0 8 0	Ráicharan Ghose, Jerrift's Lane, Calcutta.	A mythological drama describing the story of the destruction of the five sons of Draupadi by Aswatthámá in the war of the *Mahabharat*.	2037

April, 29th	16	16mo ..	1st ...	1,000	ditto ...	0 1 6	Jogesh Chandra Ghosh, Dacca.	This is an essay on tobacco, beginning with a brief historical account of its use in different parts of the world. The author next explains that a total abstinence from tobacco is certainly very good, but no great harm can arise from a moderate and judicious use of the article; that the use of tobacco after a meal promotes digestion, and that the cigar is the best form in which tobacco can be used. An excessive use of tobacco is very injurious. Directions are given for using tobacco in the least objectionable manner.	2131
June, 10th	12	12mo dy.	1st ...	2,000	ditto ...	0 0 6	Haladhar Majumdár, Sherpur.	Contains medico-hygienic directions for preventing cholera during cholera epidemics and at other times. The system of medicine followed by the author is the homœopathic.	2132

BOOKS—continued.									
1883.	Pages.					Rs. A. P.			
Mar. 28th	90	12mo. ...	1st ...	1,000	Printed	0 8 0	Iswar Chandra Dás, Mándáil.	Describes the nature and function of *Sakti*, the meaning of the figure and appearance of the goddess Kali, the manner of worshipping Káli, &c., and concludes with a large number of songs composed in the spirit of a devout worshipper of *Sakti*.	2232
June 3rd	15	8vo dy.	2nd ...	1,000	ditto ...	0 3 0	Hárádhan Dás, Kánsát, zillah Maldah.	In this work Chaitanya is represented as explaining to Nityánanda the qualifications which entitle a man to become a true Baisnab. Those qualifications do not include caste, and refer exclusively to bodily discipline and spiritual culture.	2233
May 1st	96	8vo dy.	1st ...	300	ditto ...	1 0 0	Káli Charan Láhiri, Bhowanipore.	It is the object of this treatise to show that Brahmoism, like Christianity and Mohometanism, is not a true religion. The main principles of the Hindu religion are expounded with the view of establishing their correctness by contrasting them with the principles of Brahmoism.	2234
„ 31st	8	8vo dy.	1st ...	1,000	ditto ...	Nil	Rajah Rajendra Náráyan Deb Bahadur.	Contains a description in verse of Krishna's loves with Radha and her female friends, written in the style and spirit of a devoted worshipper.	2235
.....	344	4to rl. ...	1st ...	750	ditto ...	2 8 0	Maharajah Rájkrishna Sinha of Durgápur	In Hindu mythology Padmá or Padmabati is the mother of serpents and is popularly called Manasá. This work contains a very circumstantial account of her birth and exploits. It is stated in the preface that a person of the name of Náráyan Deb compiled the Padma Puran long ago from several mythological works. It was, however, seriously injured in the course of time by ignorant and unscrupulous copyists, and the present is a revised edition of it, prepared with the view of giving a permanent shape to the story of Padmábati, which is exceedingly popular in Eastern Bengal.	2236
Mar, 17th	20	8vo. dy.	1st ..	1,000	ditto ...	0 2 0	Haridás Banerji, Bhowanipore.	Contains extracts from the Bible, which contradict each other An anti-Christian publication.	2237

1883.	Pages.					Rs. A. P.			
Mar., 21st	44	12mo ...	1st ...	1,000	Printed	0 1 0	C. V. E. Society, 23, Chauringhi Road, Calcutta.	A work in which the names of Jesus Christ and Krishna, the circumstances of their birth, their education, their character, their powers, &c., are contrasted with the view of showing that the former was a perfect divine and the latter a very imperfect human being. Written in verse.	2244
April, 13th	120	16mo ...	Revised.	10,000	ditto ...	.....	Calcutta A. B. Society, 23, Chauringhi Road, Calcutta.	.....	2245
Feb., 22nd	86	16mo ...	...	2,000	ditto ...	.....	ditto ...	The book of Job ...	2246
May, 30th	12	12mo. ...	5th ...	2,000	ditto ...	.....	Calcutta Christian Tract and Book Society, Calcutta.	Says that the character of Shib was very depraved and his worship is degrading. His worship should be therefore given up for that of Christ.	2247
April, 30th	4	12mo. ...	1st ...	7,000	ditto ...	.....	ditto ...	Explains what the Divine *Trinity* means, by whom men were created and will be judged and saved, and how salvation is secured.	2248
„ 30th	4	12mo. ...	1st ...	7,000	ditto ...	.....	ditto ...	Says that the justice and the mercy of God are reconciled by the self-sacrifice of Christ for the sins of men.	2249
„ 30th	4	12mo. ...	1st ...	7,000	ditto ...	.....	ditto ...	Relates a historical anecdote with the view of showing that he is really a great personage who can offer himself as a sacrifice for the purpose of saving an enemy.	2250
„ 6th	4	12mo. ...	1st ...	1,000	ditto ...	.....	ditto ...	Says that the destruction of animals is not a sin under all circumstances, and that the general prevalence of animal sacrifice as a part of religious worship points to the truth and importance of the self-sacrifice of Christ in the spiritual interest of man.	2251
Feb. 19th	4	12mo. ...	1st ...	7,000	ditto ...	.....	ditto ...	God has built for man a beautiful house where he can go only by clearing himself of all sin.	2252
„ 27th	4	12mo. ...	1st ...	7,000	ditto ...	.....	ditto ...	As Queen Victoria returned a consolatory answer to the Rani of Poona, who made known to her the wretched condition of the sex in India through a European female doctor, so God sends soothing messages to men when they appeal to Him through Jesus Christ.	2253
„ 27th	4	12mo. ...	1st ...	7,000	ditto ...	.....	ditto ...	The people of this country, who are so deeply religious, should not allow themselves to be guided, as they now do, by men who are themselves spiritually blind, but should follow the guidance of Jesus Christ.	2254
April, 5th	4	12mo ...	1st ...	1,000	ditto ...	.....	ditto ...	A story of a robber boy strangely converted into a good Christian.	2255
„ 6th	4	12mo ...	1st ...	10,000	ditto ...	.....	ditto ...	Relates an anecdote with the view of showing that the punishment suffered by Christ for the sins of others was just.	2256

May, 8th	96	8vo. ...	1st ...	500	ditto ...	.....	The Asiatic Society, 57, Park Street, Calcutta.	This is an English translation of the institutes of Susruta, which constitute one of the highest authorities on Hindu medicine.	394
Mar., 3rd	64	8vo. ...	1st ...	1,000	ditto ...	1 0 0	J. G. W. Tobin, Mhow.	This work, which is of the nature of a tale, describes the advantages of coolie emigration from India to the West India Islands. The defects in the management of the system, the points on which reform is called for, and the manner in which labourers work on sugarcane fields and sugar is manufactured, are all clearly explained. The work is written in the interest of the Indian labouring population.	395
April, 16th	693	8vo. ...	1st ..	1,500	ditto ...	3 0 0	J. G. Apcar, 41, Chauringhi Road, Calcutta.	"A full report of the official proceedings connected with the Bill, including the debates in Council, official correspondence, and published literature." The publication is too well-known to require further notice.	396
May, 31st	48	8vo. ...	2nd ..	950	ditto ...	0 8 0	Nilkantha Majumdár.	Contains a brief history of English fiction from the earliest times to the present, together with a critical estimate of the principal English writers of fiction, past and present.	397
Mar., 10th	23	12mo dy.	1st ...	1,000	ditto ...	0 1 0	Nritya Gopál Mukharji, M.A., Bhowanipore.	This is a temperance tract, explaining how intemperate habits are contracted and how they affect the mind and the body, and how the blue ribbon badge is of advantage both to those who wear it and to those who wear it not. A few verses against drunkenness are quoted from the Bible at the end of the pamphlet.	398
„ 5th	19	4to. ...	1st ...	400	ditto ...	Nil.	Nawab Abdul Luteef, Khan Bahadur, 16, Táltalá, Calcutta.	This pamphlet contains a criticism on a memorial presented to the Viceroy by the National Mahomedan Association of Calcutta on the subject of the present condition of the Indian Mahomedans and the best means for its improvement. The author opposes the proposals made in the memorial regarding Mahomedan education, the administration of Mahomedan law in the Indian courts, and the employment of Mahomedans in Government offices, and advances proposals of his own for securing the advantages sought by the memorialists.	399
„ 27th	138	8vo. ...	1st ...	350	ditto ...	1 8 0	Thomas S. Smith, Calcutta.	....	400

April, 6th	8	8vo ...	1st ...	100	ditto ..	.....		Points out that some rules should be laid down by the Government of India for the protection of antiquarian remains in this country.	410
Mar., 9th	70	8vo ..	1st .	500	ditto ...	0 12 0	Krishna Chandra Ráya, 36, Amherst Street, Calcutta.	A paper of great statistical value, explaining the conditions under which high education spreads in this country, the extent of the progress that has been made in high education since the establishment of the Calcutta University, and the position in the public service of the country. Figures are adduced to show that native graduates do not, as is generally supposed, find employment in the service of the State, which means that the supply of high education has not been commensurate with the demand for it. An appendix contains a statistical list of the graduates of the Calcutta University from 1858 to 1881, with their degrees and occupations.	411
May, 26th	52	8vo. ...	1st ...	250	ditto ...	.....	Rev. J. W. Thomas, Baptist Mission Press, Calcutta.	This is a collection of certain papers by European female missionaries reprinted from the report of the Calcutta Decennial Missionary Conference. The secular and religious education of Indian women, medical work for Indian women, and the prevention of drunkenness among Indian women, are among the points discussed in these papers.	412
„ 16th	24	8vo. ...	1st ...	200	ditto ...	Nil	H. Moore Hancock.	Reviews the present state of affairs in all parts of the British Empire, and adduces texts from the Bible to show that in that state of affairs are found ample indications of the fulfilment of the work which has been prophesied of *Israel* as the kingdom of God. The author means to say that modern Britain is Israel.	413

1883.	Pages.					Rs. A. P.			
Mar., 2nd	106	8vo. ...	2nd ...	1,000	Printed	.. ...	Major Henry Court, Delhi.	"The Araish-i-Mahfil commences with a description of India, its seasons, fruits, animals, sciences, religious and military orders, and women; then follows a geographical account of the great divisions of the country, and it concludes with a history of the Hindu kings to the time of its conquest by the Mahomedans." It is an Urdu work.	416
„ 16th	105	12mo. ...	10th...	1,000	ditto ...	0 8 0	Iswar Chandra Bidyáságar, 25, Brindában Basák's Lane, Calcutta.	"Revised and re-arranged" ...	417
Feb., 14th	127	8vo. ...	1st ..	1,000	ditto ...	1 4 0	Jaya Krishna Sen, Calcutta.	"With a prose translation or paraphrase, numerous critical and illustrative notes, exercises in the analysis of sentences, and a life of the poet."	418
April, 6th	104	12mo. ...	...	3,000	ditto ...	.....	Calcutta School Book Society, 7, Dacre's Lane, Calcutta.	Consists of selections from English poets.	419
Mar., 20th	11	8vo. ...	1st ...	200	ditto ...	0 2 0	J. O. B. Saunders, 9, Hare Street, Calcutta.	The author, who calls himself Britannicus, says that the policy of ruling India for the Indians is a false, mischievous, and sentimental policy, which, if persevered in, will be disastrous to the British Empire in India. The pamphlet is specially directed against Mr. Ilbert's Bill.	420
June, 2nd	135	Foolscap	1st ...	2,000	ditto ...	2 0 0	Rev. H. Fisher Corbyn, Abbottabad.	Discusses the Government policy of religious neutrality in this country; argues that that policy has been departed from in the Education Despatch of 1854, purposes by the Bishop of Lahore; and condemns the local self-government scheme of Lord Ripon as premature.	421
May, 18th	80	8vo ...	1st ...	2,000	Printed	.....	Pratáp Chandra Ráya, 367, Chitpur Road, Calcutta.	A translation of the Mahábhárat into English prose is commenced in this volume. "The endeavour of the present translator has been to give as literal a rendering as possible of the great work of Vyása."	422
„ 14th	18	Foolscap.	1st ...	400	ditto ...	0 8 0	Rev. H. F. Corbyn, Abbottabad.	The author argues that it is no part of the duty of a Government to teach morality to its subjects, as is being done in the Punjab by the adoption of a class-book on morals which has been prepared by the Bishop of Lahore under the auspices of the Punjab University, and that it is inconsistent with the true principles of Christianity to construct a system of morality upon the basis of pure theism, as the Bishop of Lahore is doing. The pamphlet consists of letters written by its author and the Bishop.	423
April, 20th	8	8vo	1st ...	2,000	ditto ...	...	Calcutta Tract and Book Society, 23, Chauringhi Road, Calcutta.	Says and adduces evidence to show that the great Bengali reformer believed in the divinity and divine mission of Christ, and affirms "that they only are the true followers of Rajah Ram Mohun Roy, walk in the way he pointed out and follow the teaching of his life, who receive the Bible in its fullness, Christ as their saviour, and become true Christians."	424
